Exploring Your Major

Everyone’s journey in deciding a major is different. No matter where you are in your exploration journey, there are steps you can take to help you discover what major or career path will be best for you. Below are three categories students often find themselves. Pick which category fits your situation best and take some steps in your major exploration journey!

I have little to no idea what major to declare.

- Use CareerLocker assessments to link you to possible majors & occupations
  
  https://careerlocker.wisc.edu/ | username: uw-w net-id & password: warhawk

- Use the UW-Whitewater online list of major & minors or pages 6-7 in Windows to UW-Whitewater to help narrow it down
  
  uww.edu/academics/departments-and-majors

- Meet with the AAEC’s Exploration Graduate Assistant to develop a personalized exploration plan
  
  Academic Advising & Exploration Center - Roseman 2054 | 262-472-4646

- Talk with your family or close friends to see if they can suggest majors for you to explore

I have it narrowed down to a couple of different majors.

- Interview a faculty member or Department Chair in your interest areas
  
  UW-Whitewater Campus Director - wp.uww.edu

- Visit or get involved in student organizations in your interest areas
  
  ConnectUWW - orgsync.com/login/university-of-wisconsin-whitewater

- Use “What can I do with this Major” website to explore further
  
  whatcanidowiththismajor.com/major

- Take an introductory course in one or two of your major interest areas
  
  Speak with an academic advisor to discuss your options

I have a declared major.

- Join a student organization connected to your major
  
  ConnectUWW - orgsync.com/login/university-of-wisconsin-whitewater

- Attend a job fair or participate in an internship
  
  http://connectuww.orgsync.com/What_is_an_Internship

- Visit a Career Counselor to start building your resume
  
  Career & Leadership Development - UC 146 | 262-472-1471

- Shadow or interview someone working within your desired career field

**Each of the steps listed are great for any student to do, no matter where you are in the exploration journey. Be open to new opportunities and feel free to explore steps outside of your current “exploration category”!**
