

**Campus Classified Connection Meeting  
December 13, 2006, 8:30 a.m., Hyer 217**

Jessica Cole began the meeting by having those present introduce themselves and their area.

**Linda Long, Assistant Dean of New Student Programs** gave an excellent presentation about the five forces that shape our lives and what we can do about them taken from a book written by her father-in-law, Bruce Howatt. His mantra "If it is to be, it is up to me" is a powerful statement which reminds us that we cannot blame others for our failings or bad luck and that we have power and will to make our own decisions and choices in our lives.

Another quote from his book "Expect to succeed and expect to be happy" reinforces the idea that attitude makes up most of how individuals view their lives. She informed us that a very low percentage of new freshmen she has surveyed think that anyone on campus will care about them or that their experiences at college will be positive. It is our job as university employees to make sure the students do have positive experiences here and know that there are people here that do care about them.
