

STUDENT PROGRAMMER:

Office: Career & Leadership Development (UC-146)

Target Start Date: February 19, 2018

Seeking a student pursuing an IT or Computer Science major with 45-90 credits to fill a Student Programmer position in the Career & Leadership Development Office.

Duties include maintaining and upgrading established programs, as well as assisting with the development of various reports. This would be an ideal job for someone looking for a few hours of work a week.

Having knowledge or background in Access, Visual Basic, SQL and PHP is a plus. Ability and willingness to learn quickly will also be considered.
