

COLLEGE OF LETTERS AND SCIENCES Major Planning Guide
SPANISH MAJOR, Bachelor of Science – minor required

Not an official document. Refer to Advising Report for full requirements.
Sample Advising Reports available on-line <http://www.uww.edu/registrar/ars/index.html>

Major Planning Guides are sample programs which illustrate the type of curriculum a student will take to complete the degree in 4 years.

All students must complete a minimum of 120 credits including

- 1) at least 32 units of general education, including specific Gened courses, as well as approved math and science, physical education and elective courses
- 2) requirements for the BA or BS Degree,
- 3) requirements for the major and for the minor

* ACT/SAT scores determine which Math and English course is appropriate for you. Refer to your AR for this information and then adjust this schedule accordingly. The Planning Guide begins with the most common placement for this major.

**The Bachelor of Science requires two lab sciences and 5 credits of advanced math or 3 of math and 3 of computer science. This Planning sheet will use Math 143 and Calculus for the math requirement.

*** It is assumed that you will have sufficient foreign language background from high school to begin in the third-semester university course (Spanish 251). If the UW System Spanish Placement Test indicates a higher level, you will start your Spanish studies in a more advanced course and need fewer classes to complete the Spanish major. If, however, the UW System Spanish Placement Test indicates a lower level, you will be starting in a lower course and need additional classes to complete the Spanish major.
