Phase 4 Portfolio at a Glance

- Consist exclusively of work completed during student teaching
- Includes Philosophical Statement, Reflective Narrative, and 3 to 10 artifacts of your professional growth, in that order
- Covers all ten Wisconsin Standards for Teacher Development and Licensure
- Artifacts must be scored on a College of Education rubric
- Students can choose which artifacts to submit
- Submitted in a three-ring binder with identification outside, or in an approved e-portfolio format
- Must pass the Phase 4 Portfolio before applying for teaching licensure
- Detailed instructions available at http://academics.uww.edu/cni/portfolio.html
To the Cooperating Teacher:

The University of Wisconsin-Whitewater faculty and staff appreciate your willingness to serve as a cooperating teacher for this final phase of the teacher preparation program. The opportunity for development as professionals and colleagues is one of the most vital experiences pre-service teachers will have in their professional lives. The wisdom and insight you share with them during their student teaching placement in your classroom will serve them wherever they go during their teaching lifetime.

The implementation of the teacher licensure and development portion of the 2000 PI-34 legislation made significant changes in the teacher licensure and development process experienced by pre-service teachers. Before the pre-service teacher enters your classroom for student teaching, the pre-service teacher must present passing scores on the appropriate Praxis II content knowledge test and receive acceptable scores on their Phase 3 College of Education Portfolios (COEP).

As part of this final phase of their professional induction process prior to receiving their initial license, these pre-service teachers prepare a Phase 4 COEP. The pre-service teacher in your classroom will base his or her Phase 4 COEP on materials prepared for and implemented with your students, interactions with students and parents, connections with community resources and supports, as well as interactions with professional colleagues in the school. To qualify for a recommendation for licensure from the University of Wisconsin-Whitewater, the pre-service teachers must present acceptable scores (at or above a 2) on all aspects of their Phase 4 COEP.

The purpose of this guide is to provide you with a reference so that you may 1) grasp what the student teacher is trying to do as he or she prepares the Phase 4 COEP, 2) have a basis for answering the student teacher’s questions, 3) identify additional experiences the student teacher may need to seek, 4) advise the student on the selection of artifacts that are representative of his or her over-all performance, and 5) if you are comfortable doing so, assign scores to the artifacts the student teacher selects for use in the portfolio. Because you observe and interact with the student teacher daily during the placement in your classroom, you alone have the long term perspective which can serve as a valid assessment of the degree to which any given artifact is representative of the student teacher’s performance in your classroom.

The university supervisor will consult with you in the artifact scoring process or, if you feel comfortable assigning scores, the university supervisor will record these scores on the Phase 4 COEP Evaluation Record Sheet. The university supervisor will evaluate the Personal Statement, the Clinical Reflection/Narrative, the Wisconsin Teaching Standard (WTS) 9.

Your involvement in assisting and scoring students artifacts or performances on the various Wisconsin Teacher Standards is of paramount importance in preparing students to become licensed to teach in the state of Wisconsin. Moreover, your involvement with the portfolio is another way to tighten the link between the university and the K-12 schools. Thank you for all that you do and the investment you make in preparing future teachers.

Artifact Evaluation Directions

If you are comfortable assigning a score to an artifact, record the score on a copy of the WTS Artifact Scoring Rubric (see pages 8-17 of this guide) that the student teacher supplies to you. The student teacher should indicate which WTS(s) he or she thinks the artifact represents well and wishes to have you give feedback and/or evaluate the score.

When you think that a student teacher’s overall performance in relation to one of the WTS does not approach the expectations for the basic level, i.e. a score of 2, review the standard and rubric for the standard with the student teacher. Ask him or her to design a remediation plan. If the student teacher’s remediation plan appears to be sound, assist the student with its implementation and re-evaluation of the WTS. Should the student teacher have difficulty with this remediation design and/or implementation task, contact the university supervisor.

If you are scoring an artifact for one of the WTS, the university supervisor will ask you to record your score for the WTS on the Phase 4 College of Education Portfolio Evaluation Record Sheet. When he or she meets with you, the university supervisor will record the scores assigned to your student teacher’s artifacts or performances on a record sheet kept in the university files. You also may wish to maintain a copy of the record sheet with your papers for the student teacher. By the end of the placement in your school1, the student teacher needs to have scores on all ten WTS from you and/or from their university supervisor.

1Students in some programs have more than one cooperating teacher because their programs incorporate two student teaching experiences in the same semester, e.g. EC/MC students have nine weeks of Kindergarten with one cooperating teacher and nine weeks in a primary grade with another cooperating teacher.
The following section (pp. 4-6) provides directions given to the student teacher. It is provided to help you understand what is expected of your student teacher in his/her portfolio.

**Directions for Preparation of the Portfolio**

Place all of the Phase 4 College of Education Portfolio (COEP) materials immediately after the Phase 3 section of your COEP. Insert a divider that clearly marks the beginning of the Phase 4 section. Immediately after the divider, place a completed copy of the cover sheet (see page 5 of the Phase 4 Student Teacher Guide) for the Phase 4 COEP. *Do not use plastic sheet protectors in the portfolio.*

**Organization of the Phase 4 College of Education Portfolio**

After the cover sheet (see page 5 of this guide), the pre-service teacher will use the following organization for the Phase 4 COEP: (From the student guide)

1. Teaching Philosophy Statement – If the student’s teaching philosophy statement scored a 3 or higher in the Phase 3 portfolio review, be sure to include a copy of the Phase 3 Teaching Philosophy Statement and a copy of the scored Phase 3 Philosophical Statement Rubric.

2. Clinical Reflection/Narrative comprised of the following subsections:
   - WTS 1 (Subject Matter Competency)
   - WTS 2 (Growth and Development)
   - WTS 3 (Diverse Learners)
   - WTS 4 (Instructional Strategies)
   - WTS 5 (Classroom Management and Climate)
   - WTS 6 (Communication)
   - WTS 7 (Instructional Planning)
   - WTS 8 (Assessment Strategies)
   - WTS 9 (Reflective Practitioner)
   - WTS 10 (Positive Relationships)

3. Artifact Appendix - In an organized fashion, include each of the three to ten artifacts discussed in the Phase 4 Clinical Reflection/Narrative.
   a. Along with each artifact, include the Phase 4 WTS Rubric (see pages 11-20 of the Phase 4 Student Teacher Guide) on which either the cooperating teacher or the university supervisor has scored the artifact.
   b. For some standards, particularly standards which lend themselves to a performance demonstration, e.g., WTS 1 (Subject Matter Competency), WTS 5 (Classroom Management and Climate), instead of scoring an artifact, the University Supervisor may use the Phase 4 WTS Rubric to score your performance directly, as observed during a visit to your classroom. This evaluation, along with optional comments the supervisor may provide about the performance, would serve as an artifact in your portfolio. The evaluation should signify a consistent attitude, disposition, or long-term quality of your performance.
   c. For Standard 9 (Reflective Practitioner), at the supervisor/program coordinator’s discretion, you may either:
      • insert a page indicating that you would like to have the score you anticipate receiving on the Assessment/Reflection on Learning dimension of the Phase 4: Reflective Narrative Rubric (see page 9 of the Phase 4 Student Teacher Guide)
counted as your score to represent an artifact for WTS 9, or
• use another artifact or performance you choose which you think directly
  addresses WTS 9, and include the Phase 4 WTS Rubric on which either your
  cooperating teacher or university supervisor scored the artifact.

In either case, the score should refer to a consistent attitude, disposition, or long-term
quality of your performance.

4. University Supervisor’s Observation Reports
5. Copy(ies) of the Cooperating Teacher’s evaluation(s) submitted to the Office of Field
Experiences
6. Letters of recommendation, if these are available.

Copies of the following evaluation forms may be accessed at

http://academics.uww.edu/cni/portfolio.html

1. Interim Cooperating Teacher Evaluation—Teacher

   For cooperating teachers to fill out and share with their student teachers at the mid
   point in the semester. After completing a consultation on the two forms, one form
   should be sent to the Office of Field Experiences.

2. Interim Student Teaching Evaluation—Student

   For student teachers to fill out and share with their cooperating teachers at the mid
   point in the semester.

3. Final Cooperating Teacher Evaluation—Teacher

   For cooperating teachers to fill out and share with their student teachers at the end of
   the semester. One copy of this form should be sent to the Office of Field
   Experiences.

4. Final Student Teaching Evaluation—Student (Optional)

   For student teachers to fill out and share with their cooperating teachers at the end of
   the semester.

5. Phase 4 Portfolio Guides and Rubrics

   Phase 4 Student Guide
   Phase 4 Cooperating Teacher’s Guide
   Phase 4 Supervisor’s Guide
   Philosophical Statement Directions and Rubric
   Phase 4 Clinical Reflective Narrative Directions and Rubric
This page is provided to inform you of a similar page that your student teacher will ask you to sign when he or she has completed the Phase 4 Portfolio.

PHASE 4 COLLEGE OF EDUCATION PORTFOLIO

Department of Curriculum and Instruction

Name: ____________________________________________

Student ID Number: _____________________________

Major: __________________________________________

Minor: __________________________________________

I have reviewed the material in this portfolio and it is consistent with the student teacher’s performance this semester. (Your signature reflecting your review of this portfolio is valuable but not the only factor used in determining the final evaluation of the Phase 4 Portfolio. If you have reservations about signing this form or do not wish to participate in scoring the student teacher’s artifacts, please be certain the student teacher’s University Supervisor is aware of your intent.)

Cooperating Teacher Signature ______________________ Date ____________
Wisconsin Teaching Standards

1. Teachers know the subjects they are teaching.
   The teacher understands the central concepts, tools of inquiry, and structures of the disciplines she or he teaches and can create learning experiences that make these aspects of subject matter meaningful for pupils.

2. Teachers know how children grow.
   The teacher understands how children with broad ranges of ability learn and provides instruction that supports their intellectual, social, and personal development.

3. Teachers understand that children learn differently.
   The teacher understands how pupils differ in their approaches to learning and the barriers that impede learning and can adapt instruction to meet the diverse needs of pupils, including those with disabilities and exceptionalities.

4. Teachers know how to teach.
   The teacher understands and uses a variety of instructional strategies, including the use of technology, to encourage children's development of critical thinking, problem solving, and performance skills.

5. Teachers know how to manage a classroom.
   The teacher uses an understanding of individual and group motivation and behavior to create a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

6. Teachers communicate well.
   The teacher uses effective verbal and nonverbal communication techniques as well as instructional media and technology to foster active inquiry, collaboration, and supportive interaction in the classroom.

7. Teachers are able to plan different kinds of lessons.
   The teacher organizes and plans systematic instruction based upon knowledge of subject matter, pupils, the community, and curriculum goals.

8. Teachers know how to test for student progress.
   The teacher understands and uses formal and informal assessment strategies to evaluate and ensure the continuous intellectual, social, and physical development of the pupil.

9. Teachers are able to evaluate themselves.
   The teacher is a reflective practitioner who continually evaluates the effects of his or her choices and actions on pupils, parents, professionals in the learning community and others and who actively seeks out opportunities to grow professionally.

10. Teachers are connected with other teachers and the community.
    The teacher fosters relationships with school colleagues, parents, and agencies in the larger community to support pupil learning and well-being and acts with integrity, fairness and in an ethical manner.
Directions to the Cooperating Teacher: If you wish, you may check the boxes in the rubric to help determine the artifact score. The distribution of checks may give guidance in using shared professional judgment in assigning the artifact score.

<th>Basic 2 Acceptable</th>
<th>Proficient 3 Acceptable</th>
<th>Advanced 4 Acceptable</th>
</tr>
</thead>
</table>

**WTS 1 Subject matter Competency Score:**

- ☐ Frequent content errors or mistakes compromise instruction.
- ☐ Serious gaps in knowledge of core ideas and procedures of the discipline.
- ☐ Instruction depends on a single method of representation and viewpoint or perspective; however, there is little indication of knowledge of the existence of alternative perspectives.
- ☐ Appears to assume that students have no prior knowledge in the discipline.
- ☐ Opinion or convenience used as a basis for curriculum evaluation.

- ☐ Frequent content errors or mistakes compromise instruction.
- ☐ Appears to conceive of the discipline as an additive accumulation of facts and standard procedures.
- ☐ Most instruction depends on a single method of representation and viewpoint or perspective; generally discourages student questioning of different viewpoints or perspectives.
- ☐ Little apparent concern for students’ prior knowledge.
- ☐ Opinion or convenience used as a basis for curriculum evaluation.

- ☐ Occasional content errors
- ☐ Instruction suggests a concept of the discipline as an additive accumulation of facts; standard arguments, study, and inquiry procedures; and central concepts.
- ☐ Instruction restricted to two or three representation methods.
- ☐ Occasionally engages students in consideration of different viewpoints and perspectives associated with the discipline(s).
- ☐ Tends to reference authority as a basis for curriculum evaluation.

- ☐ Instruction exhibits careful study of content and use of resources
- ☐ Engages students in consideration of the complexity, multiple representations, core assumptions, and inquiry methods associated with the discipline(s).
- ☐ Instruction fosters student questioning of viewpoints, theories, and interpretation of inquiries.
- ☐ Instruction occasionally shows creativity.
- ☐ Reason used as a basis for curriculum evaluation.

- ☐ Instruction exhibits a solid understanding of the culture and complexity of the discipline(s).
- ☐ Instruction shows recognition of the impact on the discipline(s) of the representation methods, core assumptions, and inquiry methods.
- ☐ Instruction engages students in considering, questioning, and interpreting inquiries, viewpoints, and theories related to their learning and the discipline(s).
- ☐ Instruction often shows and supports creativity.
- ☐ Reason used as a basis for curriculum evaluation.

- **Rejects systematic use of inquiry tools as a means of improving teaching.**
- **Little evidence of reflection on classroom practice or concern with professional development.**
- **Problems in the classroom are defined exclusively in terms of students; reflection on the teacher’s role in problem situations does not occur.**
- **Concern for educational philosophy and learning theory absent**
- **Shows no interest in continuing professional development.**

- **No evidence of systematic use of inquiry tools to support change in instructional approach.**
- **Rarely takes time to reflect on classroom practice.**
- **Typically defines all problems in terms of the students rather than as an interdependent function of instructional choices and student needs and prior knowledge, skills, and experiences.**
- **Does not consider the existence of a connection between teaching practice, educational philosophy, and learning theory.**
- **Does not seek information about professional organizations, conferences, or workshops as a means of sustaining professional development**

- **Takes time to use at least one inquiry tool to support analysis of and reflection on classroom practice.**
- **With support from others, is able to participate in a problem-solving approach to adjust or adapt instruction.**
- **Holds a superficial conception of the link between teaching practice, educational philosophy, and learning theory.**
- **Does not acknowledge the role of reading professional literature, reflection, and discussion with colleagues as a means of improving classroom practice.**
- **Somewhat reluctant to participate in opportunities for professional development beyond the local district.**

- **Takes time to use at least two tools of inquiry to support analysis of and reflection on classroom practice.**
- **Generally takes a problem-solving approach to adjust or adapt instruction to support student growth, learning, and development.**
- **Gives evidence of recognizing a link between teaching practice, educational philosophy, and learning theory.**
- **Sporadically reads professional literature and occasionally engages colleagues in reflection on classroom practice as a means of supporting professional development of self and others.**
- **Attended a professional association conference or workshop beyond the local district.**

- **Takes time to use various inquiry tools to support analysis of and reflection of classroom practice.**
- **With colleagues, initiates problem-solving strategies to analyze and adjust or adapt classroom practice to maximize student growth, development, learning, and achievement.**
- **Has an articulate concept of the connection between teaching practice, educational philosophy, and learning theory.**
- **Regularly reads professional literature and frequently interacts with colleagues to enhance reflection supporting professional development of self and others.**
- **Actively seeks opportunities to attend professional association conferences and workshops outside the local district to sustain professional development.**
