COUNSED 690
Workshop 1-3 u

COUNSED 691

COUNSED 696
Special Studies 1-3 u

COUNSED 718
Principles Of Counseling 3 u
Principles of the roles and functions of professional counselors are discussed and practiced in a laboratory setting, including relationship building, conducting interviews and the counseling process. Professional issues as they relate to ethics, legal considerations, scope of practice, mental health service delivery, multicultural concerns, and the value of professional organizations are explored. This course is designed to provide the student with opportunities to define and explore the various roles/tasks of professional counselors, including case conceptualization, prevention, intervention, referral, and termination. By the end of the course, the student should develop a working knowledge of counseling skills, processes, and procedures to facilitate further study in subsequent practicum and internship classes.

COUNSED 719
Appraisal Procedures In Counseling 3 u
This course provides an understanding of individual and group approaches to assessment and evaluation in a multicultural society. It will examine basic concepts of standardized and non-standardized testing and other assessment methods for appraising individual differences and family dynamics. Students will examine statistical concepts relevant to assessment (scales of measurement, measures of central tendency, variability, and reliability and validity). Discussions and laboratory experiences will center on the use and interpretation of standardized and non-standardized measure of appraisal with individuals, groups and families and the social, cultural and ethical factors relevant to the assessment process.

COUNSED 720
Career Development And Information Services 3 u
The course focuses on major theories of career development and decision making models. It addresses sources of career, educational, leisure, occupational and labor market information, career information systems, assessments, techniques pertinent for career planning, placement, and follow-up. Interrelationships between work, family and other life roles as well as multicultural issues in career development are examined. Students will have the opportunity to be involved with career development program planning, implementation, evaluation and theory application.
Corequisite: COUNSED 718.

COUNSED 721
Groups: Theory and Practice 3 u
This course provides theoretical and experiential understandings of group work, including principles of group dynamics, theories of group counseling and group leadership and facilitation styles. Group counseling methods are experienced directly in the learning process. Multiple group approaches, necessary to work effectively in a multicultural society, are explored.
Prerequisite: COUNSED 718, and COUNSED 722.

COUNSED 722
Theories Of Counseling 3 u
This course examines prominent counseling theories that provide models for conceptualizing client issues and identifying appropriate intervention strategies. System theories and major models of family and related interventions will be highlighted. Attention will be given to multicultural and ethical issues in counseling. Students will be exposed to current professional research and practices in the field to enable the initial development of their personal theories of counseling.
Corequisite: COUNSED 718

COUNSED 724
Career Counseling of Adolescent and Adult 3 u
Principles of career counseling of adolescents and adults are considered. Emphasis is placed on current trends, including integrative holistic career counseling, assessments, role of technology and internet, employability and job search skills. Attention is given to procedures for counseling diverse populations. Job loss issues are also addressed.
Corequisite: COUNSED 718

COUNSED 728
Clinical Studies In Counseling 3 u
Students will examine the diagnostic criteria of the Diagnostic and Statistical Manual of Mental Disorders (APA). Diagnostic skills of counseling students will be enhanced. Students will examine the benefits and concerns of diagnosis within the counseling relationship and explore relevant treatment modalities (individuals, group, and family). Students will develop an understanding of the interplay between biology and environment and the impact on human development, learning and adjustment.
Corequisite: COUNSED 718

COUNSED 729
Student Services In Higher Education 3 u
Course introduces knowledge, skills and practices necessary to work in higher education settings. Historical foundations, roles and functions of Student Affairs professionals, and current issues in the field are included. Specific attention is given to organizational structures and responsibilities of counselors and administrators in various service positions. Student development theories, and their application by Student Affairs professionals, provide a foundation for understanding personal, social, academic and career development at the post secondary level.
COUNSED 731
Introduction To Marriage/Partnership And Family Counseling 3 u
An introductory course which provides counselors with information and skills relevant to conducting partner/marital and family counseling services within a multicultural society with emphasis given to systemic theory and philosophy. Emphasis will be placed on the dynamics of family interaction and the initial skills in assessment and treatment of dysfunctional partner/marital, family and systems/ecosystems relationships. Orientation to state and national professional organizations provided.
Corequisite: COUNSED 718

COUNSED 732
Practices Of Marriage/Partnership And Family Counseling 3 u
An advanced course in counseling which focuses on various issues related to marriage and family counseling: working with couples, divorce counseling, therapy with children within a family context, remarriage and blended family systems, and multi-problematic families. Emphasis will be placed on advanced assessment and procedures of intervention.

COUNSED 733
Theories And Techniques Of Marriage/Partnership and Family Counseling 3 u
A professional course designed for individuals who are interested in family counseling as a profession. The course will focus on the major theoretical orientations of family processes and the associated techniques necessary for implementation.
Prerequisite: COUNSED 718 and COUNSED 731.

COUNSED 734
Families: Assessment And Treatment Of Abusive Behaviors 3 u
This is a professional course in counseling designed for individuals seeking advanced training in assessment and treatment of abusive family systems. This course will elaborate on child abuse, neglect, and physical and sexual abuse and its impact on the individual and the family. The course will examine family dynamics which contribute to the development of an abusive system and those that provide protection against abuse and/or enhance the effective processing of trauma.
Prerequisite: COUNSED 718 and COUNSED 722.

COUNSED 736
Counseling Across the Lifespan 3 u
Course provides understanding of nature and needs of persons at all developmental levels and in multicultural contexts. Theories of individual and family development, as well as theories of learning and personality development and models of resilience, are included. Connections are made between developmental issues and counseling interventions that facilitate development and wellness over the life span. Attention is given to therapeutic interventions with normal and abnormal behaviors across the life span.
Corequisite: COUNSED 718

COUNSED 738
Perspectives In School Counseling 3 u
The introductory course is designed for students planning to become school counselors. Professional issues such as the history and philosophy of school counseling are examined: along with an exploration of the various roles, functions, and procedures experienced within the context of the school structure. An introduction to the American School Counselor Association National Model and the Wisconsin Comprehensive School Counseling Model provides student the opportunity to examine the design, implementation, and evaluation of comprehensive developmental counseling programs using a family, school, and community systems view. Significant topics and issues for school counselors, such as leadership, advocacy, conflict resolution, crisis management, peer mediation, cultural diversity, school improvement, and a variety of services delivery methods are explored.

Corequisite: COUNSED 718

COUNSED 741
Social And Cultural Foundations In Counseling 3 u
This course is designed to provide students with foundational knowledge and competency base for effective counseling with diverse populations. It will examine multicultural and pluralistic trends, including characteristics and concerns among diverse groups nationally and intentionally. Theories of multicultural counseling, identity development, world views, acculturation issues, conflict resolution, social justice, advocacy and multicultural competencies will be discussed. Individual, couple, family, group and community strategies for working with and advocating for diverse populations will be examined. Counselors’ roles in eliminating biases, prejudices, oppression and discrimination will be highlighted. Students will be involved in experiential learning activities aimed at fostering an understanding of themselves and culturally diverse individuals.

Corequisite: COUNSED 718

COUNSED 743
Counseling In Elementary And Middle Schools 3 u
This course studies counseling models, services, and programs for elementary and middle school/junior high school students as well as the roles of the school counselor. Curriculum is based on current models of school counseling, child and adolescent development, the influence of multiple factors on academic, personal/social, and career success, school counselor accountability, and various prevention/intervention strategies for elementary and middle school/junior high students. The developmental guidance needs of all children are identified along with the specific counseling needs of particular student populations. Individual and group counseling procedures with children are examined.

Prerequisite: COUNSED 738.

COUNSED 745
Counseling In Secondary Schools 3 u
Counseling models, services, and programs for secondary school students are investigated along with the role of the secondary school counselor. Adolescent and young adult development, the influence of multiple factors on academic, personal/social, and career success, school counselor accountability, and various prevention/intervention needs of secondary students are explored. The developmental guidance and counseling needs of all secondary school students as well as the specific needs of particular student populations are identified. Topics include academic success, vocational exploration, and post-secondary
transition. Discussions focus on individual, small group and classroom curricular approaches with adolescents.
Prerequisite: COUNSED 738.

COUNSED 746
Counseling And The Chemical Dependency Process 3 u
This course is a study of alcohol and other drug abuse, the process of chemical dependency, its impact on the family and its importance in the area of counseling. This course will enable the counselor to identify and assess the substance abuser and examine the counselor's role in the prevention and intervention process. Students will develop knowledge of the behavioral, psychological, physical health, and social effects of psychoactive substances and addictive disorders on the user and significant others. It will examine the history, philosophy and trends in addiction counseling. The student will learn to identify the various symptoms of progressive stages of chemical dependency and counseling modalities for treatment.
Corequisite: COUNSED 718 and COUNSED 722

COUNSED 748
Administration in Student Affairs 3 u
Course focuses on organizational, management and leadership theory and practice at the post secondary level. Organizational culture, budgeting and finance, staff hiring and supervision, crisis response, ethical and legal issues in higher education, and contextual issues are all incorporated. Additional topics include program development, collaboration across divisions to promote student development, assessment, leadership in multicultural learning communities, and state and federal legislation that affects services.
Corequisite: COUNSED 718

COUNSED 749
Chemical Dependency - Treatment And Rehabilitation 3 u
This course is for the student who wishes to develop and refine skills in the area of alcohol and drug counseling. The course will examine the roles, functions, and settings of addiction counselors, as well as the relationship between addiction counselors and other mental health professionals. This course will help the student to gain knowledge and develop skills in individual, group, and family counseling as applied to chemically dependent client and/or family members. Students will develop an understanding of a variety of models and theories of addiction. Students will also examine the potential for addictive disorders to mimic a variety of medical and psychological disorders and the potential for medical and psychological disorders to coexist with addiction and substance abuse.
Prerequisite: COUNSED 746.

COUNSED 751
Professional Practices: Ethics and Consultation 3 u
This course is designed to review ethical principles across counseling disciplines and to apply these principles in the practice of counseling, collaboration and consultation. Ethical codes will be reviewed, theories and paradigms of ethical decision making models explored, and legal implications of ethical practice considered. Consultation theories, models, processes, and issues will be examined and applied. Consultation skill development will focus on benefiting both the client (consultee) and client system, in
which the client, persons in the client’s support system/context, various professionals within the educational or counseling setting, professionals in the mental health community, and other community members are empowered to facilitate change.

Prerequisite: COUNSED 718

COUNSED 752

**Integrative Treatment 3 u**

This course will examine counseling services which integrate substance abuse as well as mental health treatment into all aspects of the existing mental health program and service system rather than isolating substance abuse treatment as a discrete intervention. Services for substance abuse treatment are combined with mental health services at the level of clinical interaction, which means that the same clinicians, working in one setting, provide appropriate mental health and substance abuse interventions in a coordinated, seamless fashion. The course will examine a comprehensive range of integrated services including counseling, case management, medications, social skills training, and family intervention that are modified to include both diagnoses.

Prerequisite: COUNSED 734, COUNSED 746, COUNSED 749

COUNSED 753

**Understanding Psychopharmacology for Counselors 3 u**

This course surveys basic neuropharmacology, the effects of various psychotropic drugs, and the actions of drugs used to treat mental disorders and drugs of abuse. The emphasis of the first part of the course is on basic principles of neuropharmacology, distribution and elimination of drugs, drug-receptor interactions and dose-response relationships, structure of neurons, neurophysiological mechanisms involved in synaptic activity, and the distribution of specific neurotransmitter systems. The last two-thirds of the course examines the actions of specific drugs and their effects on behavior and their uses in biological psychiatry and/or their abuse in our society.

Corequisite: COUNSED 718, COUNSED 722

COUNSED 790

**Workshop 1-3 u**

COUNSED 794

**Seminar 1-3 u**

COUNSED 796

**Special Studies 1-3 u**

COUNSED 798

**Individual Studies 1-3 u**

COUNSED 799

**Thesis Research 1-6 u**

Students must complete a Thesis Proposal Form in the Graduate Studies Office before registering for this course.
FIELD EXPERIENCES (COUNSED)

COUNSED 793
Supervised Practicum 3 u
Practicum students provide individual, couple, family and group counseling services to students and other community members in the counseling lab. Students must complete supervised practicum experiences that total a minimum of 100 clock hours, including 40 hours of direct counseling service. Practicum students receive individual and/or triadic supervision and group supervision each week. This is a time to develop and refine counseling skills while providing a service to the community.
Prerequisite: COUNSED 718, COUNSED 721, COUNSED 722, COUNSED 751 and consent of the department.

COUNSED 795
Counseling Internship 3-6 u
The Counseling Internship is an opportunity for students to apply concepts and skills in field counseling settings. Students are placed in internship settings which are compatible with the individual student’s experiences, competencies, and career goals. Students work with clients under the guidance of a qualified field supervisor and the university supervisor.
Prerequisite: All required coursework must be taken prior to or concurrent with the Internship.

COUNSED 797
Post-Masters Counseling Internship 1.5-3 credits u
Interns will complete supervised experience in their emphasis area (community agency, higher education setting, or school). The intern will engage in individual, group counseling, and family counseling, and consultation, as well as a variety of other activities that a regularly employed staff member in the setting would be expected to perform. Can repeat once.
Prerequisite: Masters in Counseling-School or the equivalent
