OVERVIEW
This guide will walk you through the steps to connect to the UW-Whitewater wireless network on campus using an Android device.

Step 1
Click the Settings button on your phone.

Note: The Settings button may appear under “Apps” depending on your model phone.

Step 2
Select “Wi-Fi”.

Step 3
Verify Wi-Fi is set to ON. If not, swipe your finger over the OFF button to turn it on.

Step 4
Locate and tap “uww-wifi”.
If this is the first time connecting to the UWW wireless network you may be prompted to enter the following information:

- EAP Method: PEAP
- Phase 2 authentication: MSCHAPV2
- CA Certificate: (Unspecified)
- Identity: Your UWW Net-ID
- Anonymous Identity (blank)
- Password: Your UWW password

Click **Connect** to continue.

You should now be connected to the UWW wireless network.
Manually Connect to Wireless

If you are unable to connect to the uww-wifi wireless network using the steps above, please follow the steps below to configure the wireless network manually.

**Step 1**
Click the **Settings** button on your phone.  

**Note:** The Settings button may appear under “Apps” depending on your model phone.

**Step 2**
Select “Wi-Fi”.

**Step 3**
Select **Add Wi-Fi network**.

**NOTE:** You may need to scroll down to show the “Add Wi-Fi network” option.

**Step 4**
Enter the following information:
- Network SSID: uww-wifi
- Security: 802.1x EAP
- EAP Method: PEAP
- Phase 2 authentication: MSCHAPV2
- CA certificate: (Unspecified)
- Identity: Your UWW Net-ID
- Anonymous: (Blank)
- Password: Your UWW password

Tap **Connect** to continue.
You should now be connected to the UWW wireless network.
