

# Dues Contract Agreement

2018 -2019

University of Wisconsin-Whitewater  
Office of Recreation Sports and Facilities

All members that are participating with Club Sports that have it outlined in their constitution, budget, and/or have come to the agreement within the club to collect dues from members must complete the Club Sports Member's Dues Contract Agreement. Each club member must sign the statement prior to being active with all club activities. If a member has not signed the Club Sports Member's Dues Contract Agreement, they will not be eligible to compete or receive equipment from that specific club.

If a member has not signed a contract and is found to have been participating within that clubs activity, then the Club President will be held responsible for further action. If a member has signed the dues contract and has not fulfilled the required payments in a reasonable timeline, the club, the Club President, or that Club's Advisor can request to put a hold on that club member's school account. \*\* This process can only be fulfilled by going through the Club Sports Coordinator. All decisions made by the Club Sports Coordinator are final.

All dues that are paid by checks should be written out to UW-Whitewater "Club Name". Either the president or treasurer of each club should collect all dues and report them to the Club Sports Coordinator.
