1997-98 Academic Year Calendar

**Semester I**
- Labor Day Holiday: September 1
- First Day of Classes: September 2
- Thanksgiving Recess: November 27–28
- Last Day of Classes: December 15
- Examinations: December 16–19, 22–23

**Semester II**
- Registration: January 12–16, 1998
- Martin Luther King Holiday: January 19
- First Day of Classes: January 20
- Spring Vacation: March 16–20
- Last Day of Classes: May 12
- Study Day: May 13
- Examinations: May 14–16, 18–20

1998-99 Academic Year Calendar

**Semester I**
- Registration: August 26–28, 31; September 1–2, 1998
- First Day of Classes: September 2
- Labor Day Holiday: September 7
- Thanksgiving Recess: November 26–27
- Last Day of Classes: December 15
- Examinations: December 16–23

**Semester II**
- Registration: January 11–15, 1999
- Martin Luther King Holiday: January 18
- First Day of Classes: January 19
- Spring Vacation: March 15–19
- Last Day of Classes: May 10
- Study Day: May 11
- Examinations: May 12–14, 17–19
The University of Wisconsin Centers is accredited by the North Central Association of Colleges and Schools.
Shared Vision Statement

of the University of Wisconsin Centers

Students, faculty, staff and administrators of the UW Centers, in partnership with area residents, form a community of learners. Together we share the responsibility of promoting the mission of the University of Wisconsin to expand and disseminate knowledge and enrich the culture. Within the supportive and challenging environments of the centers, students of all ages and backgrounds are prepared for advanced educational and professional achievement, lifelong learning, leadership, and responsible citizenship.

In order to realize the mission, all members of the UW Centers community have a responsibility to promote and a right to expect:

Respect for Persons

Basic to respect is the freedom of inquiry and expression—the right to be heard and the obligation to listen. Respect is mutual; it is founded on the recognition that members of the community are multi-faceted with many gifts and challenges and come from diverse cultural and socio-economic backgrounds. The campus environment should be free from intimidation and harassment. Disagreement within the community is expected to be resolved through a process of mutual respect.

Personal Integrity

All community members must meet high standards of personal and academic integrity. Recognizing the value of others’ time and effort, we strive to be accurate, to be timely, and to evaluate critically. Views should be presented honestly; taking credit where credit is not due contradicts the goals of learning.

Individual Development

Initiative, critical thinking, the pursuit of truth and the exchange of ideas are essential to any academic experience. Community members should be committed to continuous improvement in themselves and others. All should be prepared to devote whatever time and effort is necessary both to educate and be educated. As the learning community fosters self-development, it should provide ample and accurate advising. Opportunities for professional development and training are essential for individual growth.

Considerate Assessment

The learning environment requires considerate assessment. The criteria for assessment should be mutually acknowledged, public and unambiguous. Assessment should be ongoing, focusing not only on individual community members but also on the educational process itself. The community helps its members to identify and assess their various responsibilities.

Responsive Institution

Each member of the community has a right and a responsibility to contribute to the success of the institution. The university should provide a responsive curriculum, smooth transfer procedures, and fair grievance processes and policies. All segments should be involved in budgeting and other long-range planning. Leaders seek and respect input gained through the shared governance process, so that decisions are made in the best interests of all members. Institutional and campus policies contribute to the success of all members of the community.
How to use this catalog:

Although you are enrolled at a specific University of Wisconsin Centers campus, the policies and procedures are the same at all of the 13 UWC campuses throughout Wisconsin. This catalog provides important information about admission, registration, financial aid procedures, academic regulations and programs as well as information about individual UWC campuses. It also outlines what the institution can offer and what is expected of you as a student.

Student Services or faculty advisors will assist you in planning your academic program and transferring to another university.

Additional information on co-curricular activities, financial aid, special academic programs, and special features of local UW Centers campuses is available in each campus Student Services Office.

http://www.uwc.edu
Frequently Asked Questions:

What is the University of Wisconsin Centers (UWC)?

A. The UW Centers offers freshman/sophomore-level university instruction. Each UWC campus offers a transfer curriculum for the baccalaureate degree, professional studies, and a general education associate degree. Most students live in or near the community where the UWC campus is located and commute to it. The physical facilities of each UWC campus were constructed and are owned by local county and/or city governments. UWC campuses are vital educational and cultural resources for area residents.

How does the UWC fit into the University of Wisconsin System?

A. The UW Centers is one of 15 institutions within the UW System. The System also includes 13 comprehensive universities granting baccalaureate and master's degrees; two doctoral universities granting bachelor's, master's and doctoral degrees; and UW Extension.

Will my credits transfer?

A. Yes. The UW Centers is accredited by the North Central Association of Colleges and Schools. Therefore, UW credits will be accepted by other institutions of higher education throughout the country. It is important, however, that you assure that the courses you take at a UWC campus will not only transfer for credit but will also fulfill the requirements of your specific program. Research carefully the specific requirements of your intended transfer institution.

If you plan to transfer to another UW institution, the UW System Undergraduate Transfer policy states that students holding the UWC Associate of Arts and Science degree will have satisfied the university-wide general education breadth requirements of the receiving institution as well as college and school general education breadth requirements. Individual colleges and schools within that UW institution may require transfer students to complete additional general education credits beyond the university-wide total if it is also required of continuing students. The associate degree may not, however, necessarily satisfy competency or proficiency requirements; upper-division general education courses; general education courses that are prerequisites integral to a particular program or major and which are required of continuing students; and requirements mandated by external professional accrediting associations or program approving agencies.

As you plan your program of study you should seek the help of an advisor, consult the catalog of your intended transfer campus and use the UW System's computerized Transfer Information System (TIS), which is available on every UW campus. Also, note that courses that are considered remedial (those with a course number beginning with a zero) usually will not transfer.

Ask about Guaranteed Transfer and special transfer agreements which may ease your transfer to UW institutions and private colleges.

Am I eligible for admission?

A. Anyone who desires a university education and applies for admission to the UWC will be considered for admission. If you graduated from high school with the required units or have a high school equivalent certificate, such as a GED, your chances of being accepted are good (see the Admissions section, pages 3-6). If you are accepted and your high school record indicates that you may have difficulties with university work, you will be asked to participate in special programs and advising through the campus Student Services Office. The UW gives special consideration on the basis of minority group status, physical or learning disability, U.S. Armed Forces veteran status, age group, incarceration, or economic or educational disadvantage. Consult the admission section of this catalog for the specific policy affecting you.

If I have a disability can I obtain accommodations?

A. Yes, if you are a qualified student with a disability which requires accommodation and can provide appropriate documentation. Contact the Student Services Office on your campus or the coordination of Services for Students with Disabilities in Madison at 608/262-2001 (voice) or 608/263-5766 (TDD/TTY) for information and assistance.

How do I apply?

A. Applying is simple. Obtain a UW System Application for Undergraduate Admission from your high school guidance office, your local UW Student Services Office, or any UW admissions office and complete the form. It will list an address to which you should send your completed application and other required materials.

Are financial aid funds, scholarships, and part-time jobs available?

A. Yes, at all campuses. To find the programs for which you qualify, see the financial aid section of this catalog and contact your local UW campus Student Services Office. This office also has information about on-campus and off-campus employment.
What degree can I earn at the UWC?
A. The UWC offers a Liberal arts Associate of Arts and Science degree which is a foundation for most majors in the UW System and is accepted by University of Wisconsin institutions as fulfilling the university-wide, college, school and general education breadth requirements. The associate degree requirements can be found on pages 29–32.

What kind of faculty will I find at the UWC?
A. The UWC places a major emphasis on teaching excellence. The faculty are highly qualified, dedicated individuals whose primary interest is teaching freshmen and sophomores. UWC faculty understand the importance of one-to-one communication between a student and a professor, and they are committed to that kind of teaching. This commitment will be reflected in the high quality of your UWC education.

I graduated from high school several years ago. Are there any programs at the UWC to help me ease into school again?
A. Yes. The UWC believes in the importance of a mix of ages and experiences in a university classroom. A significant percentage of UWC students is over age 25. Faculty members and advisors are particularly aware of the special needs of returning adult students. You will find orientation programs, services, or organizations for students like you. And, if you wish to attend part time, a Student Services advisor can help you plan a class schedule around your job and family life. A number of UWC campuses have evening and Saturday classes. Check with the campus Student Services Office for offerings.

Are there special programs to help me improve my academic skills?
A. Many UWC campuses offer special programs to help you improve the academic skills you need, and tutoring services are available. Your Student Services advisor can give you details about these programs.

My academic achievement always has been very high. Are there special programs for me?
A. Yes. Several UWC campuses offer honors programs, independent research or other special projects for exceptional students. Inquire at the campus Student Services Office.

How can I become involved in co-curricular activities?
A. Whether your interests are in student government, drama, music, athletics, outdoor activities, student publications or other student-related activities, you’ll find them on all campuses. Students also are offered opportunities for study and travel abroad. For details about how to get involved, contact a faculty member in your area of interest or the Student Services Office.

Do UWC campuses offer vocational-technical college classes?
A. No. Vocational-technical courses are not offered. Wisconsin has a separate and well-developed system of vocational-technical colleges. That system and the UWC have different missions and goals and, therefore, different course and program offerings.

Whom do I contact if I have questions or would like to visit a campus?
A. If you would like more specific information or wish to visit a particular UWC campus, contact the Student Services Office at the campus of your choice. Names, addresses and telephone numbers of the 13 UWC campuses are included in this catalog on page 1. Campus descriptions begin on page 67.

What types of continuing education opportunities are available on UWC campuses?
A. Each UWC campus has a continuing education program that offers a variety of non-credit seminars, workshops and short courses. The programs range from computer applications and communications courses to theater and art field trips. On some campuses programs are cosponsored with departments, e.g., a bus trip to the Art Institute in Chicago to view a special exhibit. For more information on what is available at your campus or to receive a free brochure, please contact the campus outreach program manager.

What kind of library services will I find at a UWC campus?
A. Each UWC library provides a full range of services, from a convenient place to study on campus to in-depth research assistance for students and faculty. You will find helpful, professional staff ready to assist you with your information needs. Each library maintains collections of books, periodicals, videos, CDs, and provides access to numerous electronic information resources, including the World Wide Web. If the information you need is not in the campus library, the staff will order it for you from another library. Whatever your information needs, just ask!

What kind of computer access will I find at the UWC campuses?
A. Although the specific hardware and software differs among the UWC campuses, each campus gives students computer access. Campus networks provide students with electronic mail and access to the Internet, including the World Wide Web. Various software programs (such as word processing, spreadsheet and database programs) are available for student use.
Commitment

The University of Wisconsin Centers, a collection of 13 locally-owned campuses throughout the state, is proud of its transfer mission within the University of Wisconsin System. The UWC freshman/sophomore curriculum will provide you with the breadth of knowledge necessary for baccalaureate or professional study. Whatever your age, you will find the UWC experience to be excellent preparation for responsible citizenship and a valuable step toward lifelong learning.

We emphasize teaching excellence. Faculty and staff will take individual interest in your personal and intellectual development and encourage you to take an active role in learning. Each campus has programs to serve the special needs of its students, particularly those who are high achievers, returning adults, members of minority groups, disadvantaged, or at risk. At a UWC campus, you won’t wait until your upperclass years for experiences such as independent study, research, international travel, professional conferences, academic organizations and extracurricular activities. Faculty and staff are available to introduce you to these important aspects of academic life.

Our commitment also includes service to our local communities. Local citizens benefit from continuing education, off-campus instruction, cultural enrichment and the professional resources of the UWC.

Teaching excellence, personal interest, academic achievement, enriching experiences and community service—this is our commitment to you.

The University of Wisconsin Centers does not discriminate on the basis of age, race, religion, creed, color, handicap, gender, sexual orientation, developmental disability, national origin, ancestry, marital status, arrest record, or conviction record in employment or in admission to and treatment in its educational programs and activities as required by state and federal laws and regulations. Inquiries concerning the application of AA/EO procedures may be directed to the Affirmative Action Office, 780 Regent Street, Madison, WI 53706-8680, 608/255-2578.

The University of Wisconsin Centers reserves the right to change any regulation or requirement at any time during a student’s attendance. This catalog does not constitute a contract between a student attending a University of Wisconsin Center and the institution. The sole purpose of this catalog is to provide students with information on course listings, requirements, and regulations in effect at the time of publication.
Admission to the UW Centers Campuses

Learning at the UWC is personal.
If you want a university education, you won't find a better place to start than your local UWC campus.
Admission Policy

Anyone who desires a university education will be considered for admission to the University of Wisconsin-Madison. Prospective students should apply early. Certain applicants who meet the minimum admission requirements (e.g., those who rank in the top 20% of their high school graduating class, or hold a certificate of GED) may have their admission deferred to a future term.

If you are admitted and your high school record, placement test scores, or other previous academic performance indicates that you may have difficulty with university work, you will be required to participate in special programs aimed at remediating these difficulties. This policy is outlined under “High risk and waiting list admissions categories” (page 3).

Students With Disabilities

Qualified students with disabilities (those who have been admitted and can provide documentation of their disability) have the right to request accommodations from the University, as stipulated within Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. Students needing accommodations should provide early notice to staff in the campus Student Services Office because of the time required for arranging accommodations. Students may also contact the coordinator of Services for Students with Disabilities or the Campus Student Services Office because of the time required for arranging accommodations. Students may also contact the coordinator of Services for Students with Disabilities in Madison at 608/262-2001 (voice) or 608/262-2001 (TTY) for information and assistance.

Placement Testing

You will be required to take English and mathematics placement tests prior to registering as a freshman. Students whose scores on the English or mathematics placement test fall below institutional cutoffs will be considered high risk students and required to participate in special programming.

The American College Test (ACT) is required of all incoming University of Wisconsin freshmen. (ACT scores are not required for students over 21 years of age or special students.) The test will be used for academic advising, career planning, and placement test interpretation.

Admission Requirements

To be admitted to the UWC as a new freshman, a student must:

1. Have graduated from a recognized high school, have a certificate of GED, or present other evidence of ability to begin university work.

2. Have a minimum of 17 college preparatory credits. Thirteen of the 17 credits must be distributed as follows:
   - English: 4 credits
   - Social Science: 3 credits
   - Math: 3 credits (must include at least one credit of algebra and the equivalent of one credit of geometry)
   - Natural Science: 3 credits
   - The remaining four credits will be from the above areas: foreign languages, fine arts, computer science, or other academic areas.

3. Take the American College Test (ACT). The ACT scores must be received by the UWC before you will be permitted to register for classes.

Students who fail to meet these requirements may appeal to the director of Student Services for an exemption. Particular consideration will be given to applicants on the basis of minority group status, physical or learning disability, U.S. Armed Forces veteran status, age group, immigration, socioeconomic or educational disadvantage. Applicants who have special needs should contact the campus Student Services Office.
Admission Requirements (continued)

High Risk/Waiting List Admissions Categories

Students will be required to participate in special programming if they have any of the following characteristics:

1. High school class rank in lowest quartile;  
2. GED or GED certificate;  
3. High school academic course deficiencies; or  
4. Transfer student entering on probation.

In special programming:

1. You will receive mandatory advising prior to registration.
2. If your scores on the English or mathematics placement tests indicate that you must enroll in remedial course work, UW policy requires that you complete successfully the remedial course(s) before you earn a total of 30 credits. In addition, you may be required to limit the number of credits carried while you are enrolled in remedial courses.

   1. High school class rank in lowest quartile;  
   2. GED or GED certificate;  
   3. High school academic course deficiencies; or  
   4. Transfer student entering on probation.

   In special programming:

   1. You will receive mandatory advising prior to registration. If you do not wish to register under these conditions, you may appeal for an exception to the appropriate committee at your UWC campus.

   2. At the discretion of your advisor and the UW Centers, you may be required to:

      a. restrict your course load and course selection;
      b. attend regular meetings with an advisor throughout the semester or session; and/or
      c. enroll in appropriate basic skills courses and/or tutoring.

How To Apply

To be considered for admission, you must submit a University of Wisconsin System Application for Undergraduate Admission. You can obtain this application form from your high school guidance office or from a UW Centers campus. The completed form and any required materials should be sent to the UWC campus you are interested in attending.

A $28 fee must accompany the application of prospective freshmen and transfer students from schools outside the University of Wisconsin System. Special students do not pay the application fee unless they become degree candidates.

Applications are accepted after September 15 for the following fall or spring semester or summer term.

High school students are encouraged to apply early in their senior year. Early applicants have an advantage in obtaining academic counseling, financial aid and their preferred schedule of courses.

Beginning in the Fall of 1997, students will be able to apply for admission using the UW System Electronic Application for Undergraduate Admission on the World Wide Web. This application will be available from the Admission area of HELP On-Line or the UWC homepage. Students will be able to apply to multiple institutions in the UW System using this form. You can find HELP On-Line at:

www.uwex.edu/ce/help/on-line.htm

Guaranteed Transfer

The Guaranteed Transfer Program enables students to begin their education as freshmen at the University of Wisconsin Centers and be guaranteed admission to a UW System institution as juniors. After fulfilling certain credit and grade point average requirements, students will transfer with the same rights and privileges as those who begin their education at the baccalaureate institution.

Students must submit a "Declaration of Intent to Participate" form at any time prior to the start of their sophomore year (thirty credits). Students must then complete, with a minimum grade point average of 2.00 (2.6 for UW-Madison), the number of credits required for junior status at the baccalaureate institution. Students will have three academic years from the time of matriculation in the UWC in which to complete the minimum credits required. The baccalaureate institution may make exceptions to the required number of credits for those majors/programs for which early transfer is recommended.

The Guaranteed Transfer Program guarantees admission to the baccalaureate institution only. Students must meet the same criteria (e.g. GPA, course requirements, etc.) for admission to specific majors/programs as continuing students.
Transfer into the UWC

If you attended another college before applying for admission to the UWC, you must complete the UW System Application for Undergraduate Admission form and submit official transcripts from all colleges you attended. If you maintained a C average or higher (2.00 on a 4.00 scale) at your previous college(s), you are likely to be admitted. If you are admitted and had less than a 2.0 semester or cumulative GPA, the UWC academic regulations (probation, suspended standards) will be used to determine your probation status.

A transfer student's application is not complete until official transcripts of all prior college work have been received and evaluated. In the event of unavailability of transcripts, other materials, such as grade reports, may be submitted. However, admission based on such data is tentative and may be revoked. Students suspended from another institution will not be admissible to the UWC until the period of suspension elapses.

If you are admitted as a transfer student with lower than a C average, particularly during your last semester of attendance, you may be asked to meet the conditions outlined for new freshmen ranking in the lower 25 percent of their high school classes.

If you are a transfer student and are applying for financial aid, refer to the financial aid section of the catalog for application procedures. You must send a Financial Aid Transcript form to each institution you previously attended even if you did not receive financial aid there. This will then be forwarded to the UWC Financial Aid Office. The forms are available at any campus financial aid office.

UWS/WTCS Uniform Policy Statement on Credit Transfer

Students enrolled in the Wisconsin Technical College System (WTCS) who wish to continue their education in the UW System (UWS) may be eligible to transfer credits toward their associate degree in the following ways:

1. Students enrolled in the college parallel program at Madison Area Technical College, Milwaukee Area Technical College, or Nicolet Area Technical College may be eligible to transfer up to 72 credits.

2. WTCS students may be eligible to transfer up to 15 credits of general education coursework.

3. Students transferring from the WTCS may be eligible for credit by earning appropriate scores on national standardized examinations (e.g., College Level Examination Program) or examinations developed by the UW Centers.

For more information about these transfer opportunities, students should consult with their WTCS advisors or the Student Services Office at a UWC campus.
How To Apply (continued)

Returning Students

If you wish to attend the UWC and were not enrolled the previous semester (excluding summer session), you must file a University of Wisconsin System Application for Undergraduate Admission and submit official transcripts of any non-UWC college work attempted since you were last enrolled at the UWC. If you were dropped or suspended at the end of your last semester of enrollment at the UW Centers, you must seek permission to re-enter from the campus Student Services Office.

Re-entry applicants with less than a 2.0 cumulative GPA will be placed on a waiting list and will be reviewed according to the UWC academic regulations to determine acceptance and probation status. Applicants returning after an absence of one or more consecutive semesters must meet the degree requirements of the catalog in effect upon their return, or of a subsequent catalog.

Returning Adults

The UWC encourages adults to apply for admission and work toward a degree, audit courses, or simply take courses for enrichment. The adult enrollment varies from one UWC campus to another, but all campuses have adult students in classes.

International Students

The admission requirements outlined in the catalog do not apply to students who are not residents of the United States. International applicants are admitted on the basis of superior scholastic ability demonstrated by school records and certificates, and on their ability to effectively use and understand the English language. International applicants also must provide proof of their ability to pay all expenses while they are students.

All enrolled international students must be required to carry health insurance or show comparable coverage for medical expenses.

Special Students

Persons interested in taking certain courses, but not seeking a degree, are classified as “special students.” In most cases, the special student admission criteria are more flexible than for degree students. However, special students must meet the academic standards of the university. Special students applicants who have attended institutions other than the UWC may be required to submit transcripts and educational records as part of the admission process. Degree-seeking students may be given priority over special students in registering for classes because of course demand and/or enrollment limitations. If you are interested in enrolling as a special student, please consult with the campus Student Services Office about additional requirements prior to application.

High School Students

High school students, especially seniors, who wish to enroll in courses before graduation may take the courses for credit or audit. However, they must file the standard UW System Application for Undergraduate Admission and have the recommendation of their high school principals. Students should consult with the Student Services Office about additional requirements prior to application. Any UW credits and grades earned by high school students are part of their official records and are fully accredited, transferable UW credits.

Matriculating Special Students

Special students who wish to become degree-seeking students must submit a UW System Application for Undergraduate Admission, the application fee and official educational records after completing six hours of course work before they will be permitted to enroll in additional UW courses.

Auditors

The UWC encourages adults to audit courses. All auditors must have approval of the instructor teaching the course. Approval is usually granted unless admitting auditors increases the classroom space requirements or costs of instruction. Non-degree students enrolling for courses on an audit-only basis generally pay a reduced fee. Wisconsin residents who are disabled and receiving federal old-age survivors and disability insurance benefits (OASI) may audit courses without charge. Students combining audit credits and regular credits pay regular tuition and fees for all the credits, including those audited. For specific information about auditing courses, students should consult the campus timetable for the term in which they wish to enroll.
Resident Status for Tuition Purposes

Regulations determining residency status for University of Wisconsin admission and tuition are in the Wisconsin Statutes. Students are classified as a resident or non-resident when they are admitted to the UW System.

Students who do not qualify as a Wisconsin resident must pay non-resident tuition in addition to student fees. Residency regulations for tuition purposes differ from those established for voting or paying taxes.

Minnesota residents may qualify for Minnesota resident tuition by applying to the Minnesota Higher Education Coordinating Board Suite 400, Capitol Square 550 Cedar St. St. Paul, MN 55101

Students who have been residents of Menominee County, Michigan, for at least one year prior to their enrollment date may enroll at UWC-Marinette County as Michigan-Wisconsin compact students. This compact agreement permits students to pay the resident tuition rate at UWC-Marinette County only.

Students who are classified as a non-resident for tuition purposes and believe their classification is incorrect should contact the campus Student Services Office.

Tuition and Fees

Academic tuition is set by the UW Board of Regents. Student fees are recommended by each local campus, reviewed by the Chancellor and approved by the Board of Regents. UWC tuition and fees are the lowest in the UW System.

For Wisconsin residents, the 1996-97 tuition and fees range from $952 to $1,036 per semester for full-time students who carry 12 through 18 credits; full-time, non-resident tuition and fees range from $3,256 to $3,340 per semester. Additional fees will be assessed for students who carry more than 18 credits. Part-time students, defined as those carrying 11 or fewer credits, pay from $79 to $86 per credit if they are residents and from $271 to $278 per credit if they are non-residents. Because tuition and fees change each year, contact either the UWC campus Student Services Office or Business Office for current information.

All tuition and fees are payable at the time of registration. Students must either pay in full or enter into a formal partial payment agreement. Under special circumstances, a student may be granted a payment deferral to extend the time to pay fees.

Policies for cancellation of registration, withdrawal, late payment fees, refunds, etc., which include financial aspects, are itemized in the campus timetable or are available in the campus Business Office.

Students must officially withdraw through the Student Services Office. The date of this official withdrawal will be used to calculate fees due, required repayments of financial aid, or refunds. Merely ceasing to attend class does not constitute official withdrawal from the UWC. Students who do officially withdraw may be eligible for refunds. The refund schedule is available in the Business Office.

The UWC assesses two additional fees:
1. A $3 per copy charge for transcripts. (Transcripts are not issued to students with delinquent accounts.)
2. A bad check charge of $15, plus any additional charges levied by the bank.

To avoid any misunderstandings about the various tuition and fee policies, students should obtain specific information about these from the campus Business Office prior to registration.
The UW Centers has a comprehensive student financial aid program which includes all major federal and state aid funds. A central administrative office located in Madison coordinates the financial aid operation for the 13 UWC campuses. Analysis of financial need and determination of individual aid awards are made in the UWC Madison office.

In addition, each campus has one or more staff members who serve as financial aid advisors. These advisors, who are located in the Student Services Office on each campus, can assist you in all areas of the financial aid process. This includes providing financial aid forms and information, processing loan applications and advising about money management and post-college debt repayment.

If paying for college is a concern, read this section for information about money available to qualified students from state, local and federal sources.
Eligibility for Aid

To be eligible for financial aid, you must meet the following criteria:

1. Be a United States citizen or a permanent resident of the U.S. (International students are not eligible for aid);
2. Carry at least six credits per semester (or three credits in the summer). Exceptions may be made to this six-credit rule for Pell Grant funding;
3. Demonstrate financial need for most types of aid; there are some exceptions to this rule. See the next section on types of aid for more details;
4. Not have defaulted on any educational loan or owe a repayment on any previous federal grant provided by any postsecondary institution;
5. Maintain satisfactory academic progress as outlined later in this section.

Students already having a baccalaureate degree are not eligible for grant funds. However, they may be eligible for loans or the Work-Study program if enrolled in a second degree program.

Types of Financial Aid

There are three general types of financial aid funds: grants, which require no repayment; loans, which you must repay; and employment, which pays for time worked on a job. There also are scholarship funds, which are similar to grants, and some miscellaneous benefits that can assist in financing students' education. The next sections provide more information on the various types of funds available. Any minimum and maximum award amounts shown below are estimates based on information available at the time of publication.

Scholarships

Scholarships are gifts from community, private, and campus sources. These usually are based on academic merit or some criteria other than financial need. Campus foundations and local businesses provide more than $250,000 annually in scholarships for students at the 13 UW Centers campuses. No repayment is required. Contact your high school counselor and your campus Student Services Office for information on available scholarships.

Grants

Grants are need-based financial assistance which do not have to be repaid (unless the student withdraws from school). The amount of a specific grant will depend on the student's financial need, on available funds and on specific federal, state, and institutional awarding policies.

Federal Pell Grants are the most common source of federal grant funds to undergraduates. The federal government determines a student's eligibility and award amount, which can range from $500 to $2,720 per academic year.

Federal Supplemental Educational Opportunity Grants (SEOG) are federal funds awarded to high-need students according to institutional and federal guidelines. They can range from $500 to $2,000 per academic year, although awards over $1,000 are uncommon due to limited funding.

Wisconsin Higher Education Grants (WHEG) are funds awarded to needy Wisconsin residents according to state eligibility criteria. They can range from $250 to $1,500 per academic year.

Indian grants are available to students who are at least 1/4 Native American. Grants are available through both the Federal Bureau of Indian Affairs and the State of Wisconsin, and range from $200 to $2,200 per academic year.

Talent Incentive Program (TIP) grants are awards for disadvantaged Wisconsin residents based on specific state eligibility criteria and range from $600 to $1,500 per academic year.

Wisconsin Handicapped Grants are state awards for Wisconsin residents who have an auditory or visual impairment. These range from $200 to $1,800 per academic year.

Minority grants are available through the UW System for Wisconsin residents who are of African-American, Hispanic, Native American or Southeast Asian heritage. There are based on both financial need and academic merit. Awards range from $200 to $2,400 per academic year.
Types of Financial Aid (continued)

Loans

Loans are awards which must be repaid while the student is still in school, after graduation or if enrollment drops below half-time study. Some loans are based on financial need; others are not. All loans require that a promissory note be signed in which the student promises to repay the loan according to the specific provisions of the loan. Except for the Perkins Loan, all other loans include processing fees of four percent, which are deducted from the loan when it is received.

Federal Perkins Loans are loans made by the UWC with funds provided by the federal government. Funding is limited in this low-interest loan program. Students must show financial need and be enrolled at least half time to qualify. Interest does not accrue on the loan until repayment is begun nine months after the student graduates, leaves school, or enrolls less than half time. The interest rate is five percent. Provisions for deferring or canceling payments are available.

Federal Stafford Loans are federally guaranteed loans available through banks and other lenders. Students must be enrolled at least half time to qualify. There are two types of Stafford Loans available. The subsidized Stafford Loan is awarded based on financial need. This loan carries an interest-free deferment of payments while the student is enrolled at least half time and for six months after the student is no longer enrolled at least half time.

The unsubsidized Stafford Loan can be awarded even if no financial need is shown. Interest accrues on this loan while the student is in school. You can pay the interest while you are a student or have it added to your loan total for increased payments after you finish school.

Dependent freshmen can borrow up to $2,625 from the Stafford Loan programs. Dependent sophomores can borrow up to $3,500. These amounts are the totals that can be borrowed from a combination of the subsidized and unsubsidized Stafford Loan programs (i.e., there are not separate totals for each program). Independent students can borrow an additional $4,000 (of unsubsidized Stafford Loan only) above these amounts. The interest rate for these Stafford Loans varies annually but cannot exceed 8.25 percent. Contact the campus financial aid advisor for more information.

Federal PLUS Loans (Parents Loans for Undergraduate Students) are variable interest rate loans made to parents of dependent students to help finance their children’s education. The interest rate varies according to a federal index, but cannot exceed 9 percent. These loans are NOT based on financial need.

PLUS Loan proceeds must be applied to the student’s educational expenses. Repayment begins within 60 days after the money is disbursed to the parent. The federal government does NOT pay the interest charges. For each child in college, parents may annually borrow up to the cost of education minus other financial aid awarded. The cost of education is determined by the institution’s financial aid office (see the section on budgets). For more information, contact the financial aid advisor in the Student Services Office.

Employment

There are many opportunities for students to work, both on- and off-campus, while attending the UWC.

Federal Work-Study is a federal program offering employment to students who show financial need. Jobs are usually part time, though full-time work may be available during the summer. Most jobs are on the campus, although employment opportunities in community service agencies are also available.

Regular Student Employment opportunities are also available on campus regardless of a student’s financial need.

Other Aid and Benefit Programs

In addition to the various federal and state financial aid programs described, additional sources of funding can assist you in financing your education or related costs.

Vocational Rehabilitation Grants are provided to qualified students by the state Division of Vocational Rehabilitation (DVR). To qualify, a student must have a physical, emotional, or learning disability and meet other criteria established by the DVR. Contact the local DVR office for additional information.

Veterans Benefits are available to qualified veterans, members of the National Guard or Reserves, and, in some cases, to the sons, daughters, or spouses of deceased or disabled veterans. There are a wide variety of veterans programs available through both the federal Veterans Administration and through the State of Wisconsin. Contact the local Veterans Administration Office or the campus Student Services Office for details.

Certification for Veterans Programs

The UWC is fully approved for the certification of educational benefits for veterans and veterans’ dependents under both federal and state Veterans Administration programs. Information about veterans benefits may be obtained at the campus Student Services Office or the area Veterans Administration Office.

In compliance with Veterans Administration (VA) regulations, the VA will be notified within 30 days of any change in enrollment. Monthly VA checks are prorated if the veteran initially enrolls for less than a full-time credit load (11 credits or less). A change in enrollment also may affect the amount of monthly checks.

Veterans and veterans’ dependents are required to meet academic progress standards in order to receive VA benefits.
Applying for Financial Aid

Listed below are the forms that must be completed to qualify for financial aid. All forms must be on file before UW-C staff can determine your eligibility. Appropriate forms are available at the Student Services Office on each campus. The Free Application for Federal Student Aid (FAFSA) and the UW System Application for Undergraduate Admission are also available at high school guidance offices. Other forms also may be required, depending on the circumstances.

1. All Students:
   a. Submit a UW Financial Aid Application (FAA) to your campus Student Services Office.
   b. Complete a Free Application for Federal Student Aid (FAFSA) or a Renewal FAFSA. (Only continuing students will receive a Renewal FAFSA.) There is no fee for applying for aid with these forms. Instructions and a pre-addressed mailing envelope are provided with each form. Complete the entire document, including the assets information in Section 6. Be sure to provide the UW Title IV school code of 003897 in Section H.
   c. Two to four weeks after you file the FAFSA, you will receive a Student Aid Report (SAR) from the US Department of Education. This document shows the information used by college financial aid offices to determine your eligibility for types of federal and state financial aid. Read the information provided on the SAR. You may need to correct information. Following the instructions. If you listed the UW Centers on your FAFSA, we will receive an electronic version of your SAR and will use this to process your aid application. If you did not list the UW Centers, you should turn in a copy of your SAR to your campus Student Services Office.
   d. There may be other forms required of you by the federal government or the UW central Financial Aid Office in Madison. You will be informed by mail of any additional forms or information needed, and you will be told which forms have already been received.

2. New Freshmen, Re-entry and Transfer Students:
   In addition to the above requirements, students must submit a UW System Application for Undergraduate Admission to their campus Student Services Office. Transfer students must also list the UW Financial Aid Application each college or school beyond high school that they have attended (other than a UW campus). This is required WHETHER OR NOT you received financial aid at your previous school(s) and regardless of whether any of your course work transfers to the UW.

When to Apply for Financial Aid

Many aid sources are limited. Therefore, students are encouraged to apply early. All application materials should be submitted as soon after January 1 as possible for the academic year beginning the following September. Applicants who have submitted all necessary forms by April 15 may be given funding priority and will be the first to hear about their financial aid eligibility. Summer session aid applicants should be sure to observe the April 15 filing deadline.

STUDENTS MUST APPLY FOR FINANCIAL AID EACH YEAR

Eligibility does NOT carry over from one academic year to the next. Aid also cannot be transferred from one institution to another.

How Awards Are Calculated

All awards, except PLUS loans, unsubsidized Stafford loans, most scholarship funds and some of the benefits programs, are made on the basis of financial need. Financial need is defined as the difference between the total cost of an academic year of college and the amount the student and family are expected to contribute toward that cost. The expected contribution is based on the information provided on the FAFSA.

Standard budgets are developed by the UW central Financial Aid Office in account for all of the various costs associated with an academic year (see Budgets section on the next page). The budgets are uniform to assure a fair and equitable distribution of funds. If there are sufficient funds, the total need-based financial aid awarded will equal the calculated need of the student.
The figures below represent estimates of the budgets that will be used by the UWC Financial Aid Office for students in academic year 1997-98. At the time this publication was printed, exact figures were not yet determined. Amounts may vary up or down. To estimate amounts for 1998-99, add six percent to the tuition and fees and three percent to the other components.

<table>
<thead>
<tr>
<th>1997-98 Budget Components</th>
<th>Student Living with Parents</th>
<th>Student Living Away from Parents</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition and fees*</td>
<td>$2,080</td>
<td>$2,080</td>
</tr>
<tr>
<td>Books/supplies</td>
<td>$500</td>
<td>$500</td>
</tr>
<tr>
<td>Rent and utilities</td>
<td>$455</td>
<td>$2,575</td>
</tr>
<tr>
<td>Food</td>
<td>$1,440</td>
<td>$1,600</td>
</tr>
<tr>
<td>Transportation</td>
<td>$775</td>
<td>$775</td>
</tr>
<tr>
<td>Miscellaneous**</td>
<td>$560</td>
<td>$1,350</td>
</tr>
<tr>
<td>Total budget</td>
<td>$6,210</td>
<td>$8,880</td>
</tr>
</tbody>
</table>

* Non-resident tuition is substantially higher. Add approximately $6,520 unless the student is covered by a tuition reciprocity agreement with Minnesota or Menominee County, Michigan.

** Tuition is the same at all UWC campuses. However, fees will vary from campus to campus. The figure given includes an average fee amount.

Sample case:
Four-member family with student dependent on parents
(2 parents, 2 children, both parents working, 1 child in college)

Total 1996 parent income (before taxes) $40,000
Total assets (home equity is not counted) $20,000
Total student income (before taxes) $2,400
Estimated expected parental contribution $2,564
Estimated expected student contribution $209
Total expected family contribution $2,773

With Parents | Away From Parents
---|---
Total budget | $6,210 | $8,880
Less total family contribution - $2,773 | - $2,773
Financial need | $3,437 | $6,107

Every effort is made to offer financial aid to cover the financial need. Aid awards may be a combination of grants, loans and employment. All awards are likely to include an offer of loan assistance. The higher a student’s financial need, the more likely an offer will include grant assistance.

Although a student living away from parents will show more need than if living with parents, the higher need will usually result in an award with more loan eligibility rather than a larger grant. Therefore, additional educational indebtedness will likely result for those who live away from home.

When the student’s financial award has been calculated, he or she will receive an award offer in the mail. An accompanying Award Information Guide will explain how to accept or decline various aid funds, how and when the aid will be disbursed and how aid is used to pay the student’s university bills.

Financial Aid on the Internet

There are several addresses on the World Wide Web that may be useful for gaining further information about financial aid.

http://www.uwsp.edu/stuserv/finance/wasfaa
Wisconsin Association of Financial Aid Administrators home page provides information about the application process and institutions in Wisconsin. It also has links to other recommended sites with financial aid information.

http://www.studentservices.com/fastweb/
This site provides access to a FREE scholarship search database.
Satisfactory Academic Progress for Financial Aid Eligibility

To be eligible for financial aid, a student must meet the credits-earned standards (described below) of the UWC Financial Aid Office. However, to maintain eligibility for continued enrollment in the UW Centers, a student also must meet the grade point standards listed elsewhere in this catalog. The student's entire academic record at the UWC, including semesters when financial aid was not received, will be evaluated to determine eligibility.

When determining satisfactory academic progress for financial aid eligibility the following conditions and procedures will apply:

1. The student's period of eligibility for financial aid is either 108 credits or nine semesters, whichever comes first. This is considered to be 150 percent of the institutional program length. Semesters in which the student is enrolled for fewer than six credits will not be counted as semesters of enrollment.

2. Academic progress will be measured at the end of each even-numbered semester of attendance. This is true whether the student starts in the fall or spring semester, or if she/he skips one or more semesters and then re-enters.

3. To remain eligible to receive financial aid the student must have earned an average of at least six credits per semester of attendance. For purposes of the earned-credits requirement, a successfully completed credit is one in which the student earned a grade of D or higher. However, the university standards for satisfactory academic progress will not be met unless work is performed at a C or higher average. (Summer sessions are not counted as semesters of attendance for purposes of determining financial aid eligibility. However, credits earned during summer sessions will be added to the total credits earned when determining academic progress.)

4. If the student does not earn the minimum number of credits per semester, she/he will be ineligible for aid. (An exception to this is discussed in #9 below.) Academic progress will then be measured after every semester. Eligibility will be reinstated at the point when the student's average number of credits earned per semester of attendance equals six or more. For example, if at the end of two semesters the student has only earned 10 credits, eligibility to receive aid will be lost. If the student then earns eight credits in the next semester of enrollment, she/he would then have earned 18 credits in three semesters, for an average of six credits per semester. Therefore, the student would once again be eligible to receive financial aid.

5. Remedial courses approved by the UWC will count in determining academic progress.

6. The credits earned for any course may be counted only once. If the student enrolls a second or third time in a course already completed successfully, the credits earned for that course will not be counted in determining the student's academic progress. However, the credits for repeat courses will be counted in determining eligibility for financial aid (see #1 above).

7. If the student enrolls in a course as an auditor, that course will not be counted as either a course attempted or as a course completed. However, if enrollment is changed in a course from credit to audit, that course will be counted as a course attempted and as a course which was not completed successfully.

8. If the student receives a grade of incomplete in a course, the credits will be counted as credits attempted, but will not be counted as credits earned until the incomplete grade is changed to a grade of D or higher.

9. If the student loses financial aid eligibility by failing to meet these requirements, the student may appeal to the designated campus committee for an additional semester of eligibility. The student may be allowed to receive financial aid for one or more additional semesters if there were mitigating circumstances which caused the unsatisfactory academic progress. (An example of mitigating circumstances may be that the student only attempted part-time enrollment during some of the semesters.) The Student Services Office at the student's campus can explain more about this committee and about satisfactory academic progress.

Academic Withdrawal

If the student receives financial aid and withdraws from a UWC campus, she/he may owe a repayment on the aid received. Repayments are calculated based upon the number of weeks enrolled, and the cost of education figure used to determine the award. The student will not owe a repayment on aid attributed to payments of tuition, books, or living costs during the period before she/he withdrew. However, the student will be responsible for repaying any amount received beyond these costs. Students who do not repay will not receive academic transcripts and will not be eligible to receive financial aid at any other institution until repayment has been made.

Students who plan to withdraw and have received financial aid should discuss repayment with their campus financial aid advisor.
Enrolling at a UWC Campus

It's easy to begin your college career here. Your campus Student Services Office is a friendly place to start the process.

Visit the UW Centers Web page: http://www.uwc.edu
Registration

Registration is the process of enrolling in courses each semester. A student services or faculty advisor will help you select classes to fit your individual course of study.

The schedule of classes and specific information on the time, dates and places of registration are available from your campus Student Services Office.

If you submit a completed registration form, you are registered whether or not you pay fees and tuition or attend classes. Once you are registered, if you want to withdraw, you must complete the withdrawal process explained in this catalog. (Non-attendance does not constitute official withdrawal—see "withdrawal" section of catalog on p. 16.) Failure to withdraw officially does not end your obligation to pay your fees. Failure to pay the fees may bar you from registration in the future. The amount of fees owed is determined by the fee policy established by the Regents of the University of Wisconsin System.

Registration Hold Policy

If you have an outstanding obligation to the UWC (e.g., you owe a fine, money, materials, or financial aid), a hold may be placed on your educational records. The hold may prohibit you from registering in the future and you will not be able to receive a transcript of your academic record.

Class Attendance

Instructors may establish reasonable class attendance policies. Such policies will be announced in the course syllabus. You are responsible for completing all work missed when you are absent from class. If you plan to be absent because of field trips or extracurricular activities sponsored by your campus, the faculty member in charge of the activity will provide that information to instructors whose classes you will miss.

If you are receiving benefits from the Veterans Administration and/or Social Security Administration, you are expected to attend all classes. You should consult the Student Services Office for complete information.

Concurrent Registration

You may enroll in courses at more than one University of Wisconsin campus. However, in order to do so, you must obtain written permission from your UWC campus student services director. If you enroll at more than one UW campus, the number of credits you take is combined to determine your status, either full or part time, and your fees and tuition assessment. You must present proof of fees paid and courses and credits being taken. If you are enrolled full time in one institution, no additional fees will be assessed by a second campus. If you are not enrolled full time at the first campus, the second campus will charge a per-credit rate until the full-time credit plateau is reached. The full-time rate will not be less than the lowest, nor more than the highest, full-time rate of the campuses involved. You should consult with the UWC campus Student Services Office and Business Office for information about concurrent registration.
UW-Extension
Independent Study

UW students may enroll in an independent study course (correspondence course) through UW-Extension if the course is not offered at a UW campus and if the UW-Extension Independent Study catalog indicates the course is offered for university degree credit, or if the course is high school level algebra or geometry. Students will be expected to complete the correspondence course at the same time as their regular UW semester courses. Full-time students may take one UW-Extension course at no extra cost other than fees for text materials bought through UW-Extension and a small registration fee. The fee for the course will be waived if:
- Full load tuition fees at a UW campus are paid;
- Total credits do not exceed 18 or the maximum allowed by the UW;
- Written permission has been obtained from the campus Student Services Office to take the course.

UW-Extension correspondence course fee waiver registrations are accepted only after semester fees have been paid and no later than the end of the second week of classes. Such registrations are not accepted during summer session. Contact the Student Services Office for an independent study list and appropriate forms.

Late Registration

You may register late, observing the same regulations as for adding courses. Late registration is subject to any late registration charge in effect under Regent policy.

Adding Courses

You may add a course or courses completing the appropriate Change of Program/Add card during the first two weeks of a semester, the first week of an eight-week course, or during proportionate time for shorter courses. Your campus may require the signature of your advisor and/or instructor. The form must be received in the Student Services Office by the deadline published in the campus timetable. If you return the completed form to the Student Services Office, the effective date used for official records and billing.

You may add a course after the first two weeks of classes if a semester change was necessary because a dropped course and are substituting a lower level course in the same discipline. Exceptions to the time limit are made only with the written consent of the instructor.

Dropping Courses

A course of courses may be dropped by completing the Change of Program/Remove card and returning to Student Services Office by the deadline published in the campus timetable. The date the completed form is returned to the Student Services Office is the effective date used for official records and billing.

If a course is dropped after the second week of classes, a grade of W will be recorded on the student's official record. The UW may establish procedures for dropping students administratively if the student does not attend one or more of the first class sessions in a semester. The number of class sessions missed before implementation of an administrative drop is at the discretion of the UW.
Withdrawal

Withdrawal means terminating your registration in all courses for the semester. Non-attendance does not constitute official withdrawal. You may officially withdraw from the university by:

1. **Withdrawal Form.** Submitting a completed Withdrawal Form to the Student Services Office. The effective date of withdrawal will be the date this form is received in the Student Services Office.

2. **Letter.** Directing a dated letter with your signature to the Student Services Office stating your desire to withdraw. The postmark date will be used to determine the effective date of withdrawal. This letter must be postmarked no later than the end of the 10th week of classes.

3. **Telephone call.** If this option is used, the date of the call will be used as the effective date of withdrawal. The telephone call must be followed by a signed letter of authorization, postmarked within two (2) days of the call. If the letter is not postmarked within these two days, the postmark date will determine the effective date of withdrawal.

If you are attending a UW campus that rents textbooks, the official withdrawal process includes the return of the texts to the appropriate office.

You must complete the official withdrawal process in one of these three ways no later than the 10th week of classes of any semester, the end of the fifth week of an eight-week summer session, or proportionate time for a shorter session. If you do not withdraw in any of the ways described, you will receive grades in all courses for which you were registered.

Tuition refunds are governed by the UW Board of Regents Fee Refund Schedule, issued annually. The date your withdrawal is completed officially is the date used for calculating tuition refunds.

Any student who withdraws from two consecutive semesters will not be eligible to enroll without seeking readmission. (This does not affect students who enroll for an original credit load of less than six credits in each of two consecutive semesters.) All students should be aware that any semester in which a withdrawal is made may count as a semester of enrollment for financial aid academic progress standards. (See "Satisfactory academic progress for financial aid eligibility" in the Financial Aid section of this catalog, page 12.)

If a student can provide evidence that a withdrawal is necessary due to unforeseeable, extenuating circumstances, the student may be allowed an additional semester of financial aid eligibility. A student who believes he or she may have extenuating circumstances should consult the Student Services Office.
Academic Policies & Regulations

Through a personal approach to teaching, our faculty help build your abilities and confidence as a student.

Understanding what's expected of you academically will make it possible to meet those challenges.

Academic Credit

Each course is assigned a number of credit hours. Credit is measured in semester hours. A credit of one semester hour usually represents one hour of lecture or two hours of laboratory or studio per week. You should expect to spend two to three hours each week outside of class in preparation and study for each credit.

Student Classification

Zero to 29 degree credits equal freshman standing; 30 or more degree credits equal sophomore standing.

Credit Load

Freshman and sophomores may enroll in up to 18 credits during the fall or spring semester. High school special students will be limited to six credits per semester. Credit restrictions also may be imposed on students who are designated as high risk and/or are enrolled in remedial course work. Students are allowed to enroll in a maximum of nine credits during summer sessions, whether in an eight-week session and/or any combination of shorter sessions. The maximum credit load for a four-week session is four credits. The approval of the Student Services Office or the advisor is required to enroll in more than the maximum number of credits.

Zero Credit Courses

Some courses are offered for zero degree credit. If you take a zero credit course, a grade will be recorded. You are expected to do all assigned work in the course. Zero credit courses count as one credit for fee purposes.
Pass/Fail

You may enroll in elective courses on a pass/fail basis. This option allows you to explore a field or subject without worrying about the letter grade you earn. Courses to be applied to the Associate of Arts and Science core and general education requirements may not be taken on a pass/fail basis. Students undecided about a major should not take courses on a pass/fail basis because these courses might later become part of major requirements.

Many universities do not permit pass/fail courses to count toward meeting major or general education requirements. Instructors assign final grades of S (pass) and U (fail) for courses taken on a pass/fail basis. The results of any pass/fail course will not affect your grade point average (GPA).

A student may take only one pass/fail course in any semester, including summer session. You may elect two such courses as a freshman and two such courses as a sophomore.

You must decide whether to take a pass/fail course during the time period allowed for adding a course. You may not change a course either to or from pass/fail after the deadline for adding a course.

Instructors in non-degree credit courses listed in the catalog and instructors in lecture forum (LCF) courses in the catalog may grade an entire class on a pass/fail basis. If that is the case, it will be indicated in the campus timetable.

Auditing

You may, with the consent of the instructor, audit a course. As an auditor, you will not take exams nor have any course work evaluated by the instructor. You may not be allowed to audit a course if your presence will result in additional classroom space requirements or in increased instruction costs.

Audited courses carry no degree credit, do not count toward your GPA, and do not count toward full-time attendance for purposes such as certification for Social Security or Veterans Administration benefits. They also do not count for purposes of financial aid eligibility.

You may change from audit to credit status during the same period allowed for adding a course, and you may change from credit to audit during the period allowed for dropping a course. You may take a previously audited course for credit.

Repeating Courses

You may repeat courses to improve your grade point average (GPA) or to improve your foundation of knowledge before taking succeeding courses in a discipline. There is no limit to the number of times you may repeat a course, but all attempts and the resulting grades earned will appear on your transcript. If you repeat a course to improve your GPA, you must so indicate when registering. In this case, only the most recent credits attempted and the grade earned are used to compute your GPA.

Students should be aware that some institutions will average the grades of all courses attempted when computing a GPA for transfer admission purposes. Courses you repeated at other schools will not affect your UM GPA.

If you do not indicate that a course is a repeat, all credits attempted and grades earned are used to compute your GPA. Ordinarily, courses you repeat will not be counted twice toward the credits necessary to earn your associate degree. For example, if you take HIS 101 twice for three credits each time, you will have earned only three credits toward your degree. Orchestra and Chorus are examples of courses you can take for degree credit more than one time.

Consult the Student Services Office if you plan to repeat a course, especially if you are receiving Veterans Administration or Social Security benefits.
Advanced Standing Credit

Degree-seeking students (freshman or sophomore) may earn advanced standing credit for specific UWC courses. The courses to which this applies are determined by the academic departments and are described in the three sections that follow (College Level Examination Program, Advanced Placement, and additional academic department offerings). In some cases, standard examinations such as CLEP or the College Board Advanced Placement Examination are used. Advanced standing credits will be recorded on students' transcripts as such and grades will not be assigned to those courses. Additional information on earning advanced standing credits is available in the campus Student Services Office.

1. Advanced Placement
The UWC accepts for degree credit all successfully completed College Board Advanced Placement Examinations with scores of three, four or five. Contact the campus Student Services Office for information about the specific UWC credit that is awarded for each of the three AP exams.

2. College Level Examination Program
Degree-seeking students may earn degree credits by taking the College Level Examination Program (CLEP) General Examinations. These tests must be taken before completing the first 16 college credits. Credit may be earned for the CLEP General Examination sections in Humanities, Social Sciences, and/or Natural Sciences. Minimum scores to earn credits are as follows:

   - Humanities-564, four credits
   - Social sciences-568, four credits
   - Natural Sciences-571, four credits

Credit earned for the Natural Sciences section will not count toward the associate degree in natural science laboratory requirement.

Students will not receive credit for the English or math sections of the CLEP general exam. Credit cannot be awarded in any area in which a college course has been completed prior to taking the exam. Any credits earned by taking the CLEP general exam will be recorded as such on students' transcripts.

3. Academic Department Additional Offerings

A. Art Department
Portfolios may be submitted to establish credit in studio courses.

B. Biological Sciences Department
Five credits for BIO 109 may be earned with a grade of five, six, or seven on the Higher Level Biology Examination of the International Baccalaureate (IB) Program. The department does not offer credit through challenge examinations in any courses.

C. Business Department
Students may earn four credits in BUS 201. Contact the campus business faculty for exam and minimum score requirements.

D. English Department

Students may earn credit by examination in the following courses:

ENG 102: by earning a minimum score of 50 on the 90-minute multiple-choice objective section of the CLEP Subject Examination in College Composition and by submitting a satisfactory (C or better) 90-minute impromptu essay and a satisfactory documented essay of at least four pages to the local English faculty.

ENG 201: by earning a minimum score of 50 on the 90-minute multiple-choice objective section of the CLEP Subject Examination in College Composition and by submitting a satisfactory (C or better) 90-minute impromptu essay and a satisfactory documented essay of six to eight pages to the local English faculty.

ENG 202: by earning a score of six or seven on the Higher Level International Baccalaureate examination in Language A (English-IB).

ENG 250: there are three ways to receive credit by exam for this course:

- by earning a minimum score of 60 on the 90-minute multiple-choice objective section and by earning a satisfactory grade (C or better) on the 90-minute essay section of the CLEP Subject Examination in Analysis and Interpretation of Literature;
- by scoring at least four on the Advanced Placement College Board Examination in English (composition and literature);
- by earning a score of five, six or seven on the Higher Level International Baccalaureate examination.

ENG 270: by earning a minimum score of 50 on the 90-minute multiple-choice objective section and by earning a satisfactory grade (C or better) on the 90-minute essay section of the CLEP Subject Examination in English Literature.

ENG 272: by earning a minimum score of 50 on the 90-minute multiple-choice objective section and by earning a satisfactory grade (C or better) on the 90-minute essay section of the CLEP Subject Examination in American Literature.

ENG 280: by earning a minimum score of 50 on the 90-minute multiple-choice objective section and by earning a satisfactory grade (C or better) on the 90-minute essay section of the ACT/Proficiency Examination Program Test in Shakespeare.

E. Foreign Language Department
(French, German, Spanish) Credits may be earned for the elementary and intermediate courses (101, 105, 201, 205) lower than the first course (including the 107, 204, and 207 two-credit modular courses) completed at the UWC if that course is completed with a grade of B or higher. This policy is strictly enforced: a B- is not acceptable. Students may not first audit a course and then later take it or a higher level course for credit and receive credit for the lower level course(s). Such retroactive credits (for coursework prior to the course taken) do not satisfy requirements for the Associate of Arts and Science Humanities designation. You may earn a maximum of 16 foreign language retroactive credits. If you wish to earn credits by this method, contact the appropriate instructor at the beginning of the semester.

(Continued on next page.)
Students also may earn credits for the elementary and intermediate courses (101, 105, 201, 205) lower than the first pair of two-credit modular courses (106/107, 203/204, 206, 207) successfully completed. A grade of B or better must be earned in each course of the modular pair; a grade lower than B in either course is not acceptable.

In addition, students may earn foreign language credit by obtaining a minimum score of 55 on the Level 1 CLEP exam in French, German or Spanish. Before credit is granted, students also must have an interview with a UWC foreign language faculty member. Students may earn a maximum of eight credits for foreign language 101 and 105 courses by CLEP exam. Students wishing to earn credit by examination in other foreign language courses must contact the appropriate instructor and a student services advisor.

F. Geography Department
Students may earn three credits for GEO 110 by earning a score of five, six or seven on the geography examination of the Higher Level International Baccalaureate program.

G. History Department
Students may earn six credits in Modern History with a score of five, six or seven on the Higher Level International Baccalaureate examination.

H. Mathematics Department
Students may earn credit for MAT 221 by passing a department exam and then completing MAT 222 with a grade of C or higher. A grade of C- is not acceptable. To earn credit by exam, contact a mathematics instructor.

I. Psychology Department
Students may earn three credits for PSY 202 with a minimum score of 57 on the multiple choice portion of the CLEP Subject Examination in General Psychology.

Grading System
Semester grades are recorded by letter only. Each letter grade equals a certain number of grade points per credit. A grade of B in a three-credit subject equals nine grade points as illustrated by the following scale of grades and grade points:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Points Per Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A (excellent)</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B (good)</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C (average)</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
</tr>
<tr>
<td>D (poor)</td>
<td>1.00</td>
</tr>
<tr>
<td>D-</td>
<td>0.67</td>
</tr>
<tr>
<td>F (fail)</td>
<td>0.00</td>
</tr>
</tbody>
</table>

The following symbols are used as grades where grade points are not assigned:

- CO- Audited course completed
- IA- Audited course not completed
- I- Incomplete
- R- Repeat
  Used in remedial English and math courses, and in English 101 and Mathematics 105, when the student is making progress, but has not mastered the subject and must repeat the course.
- S- Satisfactory
  A passing grade for courses taken on a pass/fail basis.
- U- Unsatisfactory
  A failing grade for courses taken on a pass/fail basis.
- W- Withdrew
  Recorded opposite the course number and title on the academic transcript for any course dropped after the end of the second week of classes and before the deadline for dropping courses. Only a statement of withdrawal will be recorded when students withdraw from an entire program.

The following symbols may appear following the number of credits:

- N- Course offered for non-degree credit
- H- Course taken for honors credit
- A- Course audited

Grade Point Average (GPA)
The quality of your work is indicated by your grade point average (GPA). The highest possible GPA is 4.0, representing an A grade in each course attempted; the lowest GPA, 0.0, represents an F grade in every course attempted. Your GPA is determined by dividing the total number of grade points earned by the total number of credits attempted.

Both a UWC semester and a cumulative GPA are calculated; however, the cumulative GPA is recorded and maintained only for degree-seeking students (i.e. those classified as freshmen and sophomores). Courses in which you received a grade of CO, IA, AY, I, R, S, U or W are not counted when determining your GPA. If you complete a course in which you originally received a grade of I, the credits and points associated with the new grade will be included in your GPA.
Dean's List

Each LMC campus may publish a Dean's List to honor students with high GPAs. Dean's List Honors will be awarded to full-time students carrying at least 12 semester credits used to determine GPAs as detailed below. Dean's List Honors will be awarded to part-time students who have earned at least 12 credits with a cumulative average of 3.5 and who carry a minimum of three semester credits used in determining the GPA, and earn a semester GPA as detailed below. Part-time status will be identified on the Dean's List. You may request that your name be deleted from the public announcement of the Dean's List.

Honors:
Grade point average of 3.50 through 3.74

High Honors:
Grade point average of 3.75 through 3.99

Highest Honors:
Grade point average of 4.00

Incompletes

An Incomplete (I) may be recorded if you carried a passing grade in a course and then, because of substantiated events beyond your control, were unable to take the final exam or complete a limited amount of term work. It is the student's responsibility to request an Incomplete or to consult with the instructor regarding the possibility of receiving an Incomplete.

In addition to submitting an Incomplete, the instructor also will submit a grade to be recorded as a permanent grade in the course if you fail to remove the Incomplete. The tentative grade is recorded by the instructor on the final grade sheet for a class along with the grade of I.

You are responsible for consulting with your instructor about the work to be completed. The instructor will file a detailed report of the work to be completed to allow you to finish the course. The format of the report and the filing place are determined by each LMC campus:

You must remove the Incomplete before the end of the next semester. If you and your instructor agree, an exception to the time limit may be made in writing to the Student Services Office. If you do not remove the Incomplete within the time limit, it will be replaced by the tentative grade indicated by your instructor on the final grade sheet.

Mid-term and Final Grades

You will receive mid-term grades informing you of your progress, usually by the end of the ninth week of the semester.

Final grades must be reported by your instructor within four working days after the final exam. A final grade report will be mailed to you at the end of the semester and/or summer session. Notification of any probationary or suspension action will be on the grade report.

Final Examinations

Final examinations will be given at the time designated in the published exam schedule. If you have more than two exams on one day or if no exam is scheduled at the same time, you must make arrangements at least one week in advance with one of your instructors to take one examination at an alternate time. If informal arrangements cannot be made, the instructor in the course with the lower enrollment shall provide an alternate examination time.
Academic Standing

You are expected to maintain quality standards of academic achievement in your work at the UWC. Quality is measured by both semester and cumulative GPAs.

Certain exceptions are allowed for part-time students but unless otherwise stated, part-time students are expected to meet the same standards of academic achievement as other students.

Good standing is the status assigned when your semester and cumulative GPA is 2.0 or higher.

Probation and final probation are the statuses assigned when your academic progress is inadequate as determined by semester and/or cumulative GPA.

Academic suspension is the status assigned when your record of achievement is unacceptable to the extent that continued enrollment in the UWC is not permitted.

Probation and Suspension

The UWC is concerned about students whose academic achievement indicates they are unable to meet the expectations of their instructors or are experiencing other problems which may be interfering with their studies. Probation is a warning that you should take appropriate action to improve your achievement. You will be suspended when the UWC faculty believe your academic achievement record to date indicates a need to interrupt your enrollment to reassess and reevaluate your goals and plans. If you are placed on probation or suspended, you should give careful consideration to the factors which may be involved, and you should ask assistance from advisors and course instructors.

You are required to maintain at least a 2.0 GPA on all work attempted. If you fail to maintain this minimum GPA in any semester, you may be put on probation, final probation or suspended at the end of the semester.

No probation, final probation or suspension actions will be assessed at the end of a summer session. Credits attempted and grade points earned are included in the cumulative GPA and will be used in determining subsequent actions.

Suspension Status

The first suspension status results in a suspension from the UWC for one semester. A subsequent suspension will result in a suspension from the UWC for two semesters. If you are in suspension status and wish to enroll in summer session, you must obtain the permission of the campus dean.

You may appeal a suspension to the appropriate committee at your campus. Any appeal must include a clear explanation of problems causing your inadequate achievement and how you propose to resolve those problems. If you are allowed to continue, you will be on final probation and may be subject to other special conditions.

Appeals

Any academic action may be appealed, except probation or final probation. Exceptions will be determined at each UWC campus. Normally the appeal will be heard by the academic actions committee.

Readmission

If you have been out of school for a period of suspension, whether it is one semester or one year, you will not be readmitted automatically. To seek readmission, you must file an Application for Undergraduate Admission and secure permission from the Student Services Office at the campus you wish to attend. If you are readmitted, you will be on final probation and will be subject to normal standards of progress and achievement and other special conditions which may be designated.

If you have been out of school for a minimum of three full calendar years, you may be admitted to the UWC in good standing, regardless of your academic status at the time of departure. For more information, consult the campus Student Services Office.

If you last attended an institution other than the UWC and were suspended, you may need to wait until the suspension period has elapsed before applying for admission to the UWC.

Grade Point Requirements and Actions

Action will be withheld until at least 6 credits have been attempted in the UWC. A student admitted to the UWC on probation or final probation must earn a 2.0 GPA on a minimum of 15 credits attempted in the UWC in order to attain good standing.

1. When a student is in good standing at the beginning of the semester:
   - 1.5 to 1.999 semester GPA will result in probation.
   - .75 to 1.499 semester GPA will result in a final probation.
   - A semester GPA lower than .75 will result in suspension.

2. When a student is on probation at the beginning of the semester:
   - 2.0 or higher semester and cumulative GPA will result in a return to good standing.
   - 2.0 or higher semester GPA but less than a 2.0 cumulative GPA will result in continuation of probation.
   - 1.5 to 1.999 semester GPA will result in final probation status.
   - A semester GPA lower than 1.5 will result in a suspension status.

3. When a student is on final probation at the beginning of the semester:
   - 2.0 or higher semester and cumulative GPA will result in a return to good standing.
   - 2.0 or higher semester GPA, but less than a 2.0 cumulative GPA, will result in continuation of final probation.
   - Lower than 2.0 semester GPA will result in suspension status.
Student Rights & Responsibilities

We take our students' learning personally, and we take our students' rights seriously. You should, too. Awareness of your rights and responsibilities as a student is part of your education.
All students in the University of Wisconsin Centers are governed and protected by federal, state and local laws, and by UW System and UWC policies and procedures.

The following chapters of the Wisconsin Administrative Code acknowledge the need to preserve the orderly processes of the UWC with regard to its teaching and public service missions, as well as the need to observe every student's procedural and substantive rights. Such laws, policies and regulations include Chapter UWS 14 Student Academic Disciplinary Procedures; Chapter UWS 17 Student Nonacademic Disciplinary Procedures and Chapter UWS 18 Conduct on University Lands.

Students are also protected by such provisions as Wisconsin Statute Section 36.12 which prohibits discrimination against students, and Chapter UWS 22 which mandates accommodation of students' religious beliefs. Your right to a positive learning environment is protected by the UWC Code of Conduct, the Consensual Relations Statement and the Sexual Harassment Policy.

Information about these various rights and responsibilities is distributed to all new students at the time of orientation and to continuing students in a manner determined by each UWC campus.

**Student Right-to-Know & Campus Security Act**

The Student Right-to-Know and Campus Security Act requires educational institutions to publish an Annual Security Report and Policy Statement. The report contains information about campus security procedures and policies as well as statistics about crime on campus. Copies of the report may be obtained from the Student Services Office at each campus.

**Equity in Athletics Disclosure Act**

The Equity in Athletics Disclosure Act of 1994 requires educational institutions that participate in federal student financial aid programs and have intercollegiate athletic programs to prepare an annual report which provides information about their intercollegiate athletic programs. Copies of the UWC reports may be obtained from the Student Services Office at each campus.

**Safety and Health Policy**

The University of Wisconsin System will provide and maintain adequate facilities for a safe and healthy learning environment. It is the university's responsibility to work with faculty and staff so that they are equipped to educate their students on practices and procedures that ensure safety for all members of the university. Employees with instructional responsibilities are expected to comply with state and federal safety laws and regulations in their institutional areas. Certain courses and research projects require that the student work with hazardous materials while engaging in academic studies. Instructors of these courses and research projects shall inform and train students on procedures that will maintain the students' personal health and safety and provide them with information on the hazards of specific chemicals that will be used during their course of study. Furthermore, instructors will enforce and follow safety policies. Before using hazardous materials and equipment, the student shall review the procedures and information and discuss any associated concerns with the instructor.
Rights of Access to Student Records

You are entitled to review any records, files, documents and other materials defined as "education records" that are maintained by the UWC and are related directly to you. This is in accordance with the federal Family Educational Rights and Privacy Act of 1974. Your access and review is subject to the following conditions:

1. You must submit the appropriate request form for reviewing your records to the Student Services Office. This form will be placed in your file. The UWC has 45 days to comply with your request.

2. You do not have access to certain types of information excluded by the Act: (a) personal notes of UWC faculty and staff; (b) employment records; (c) medical and counseling records used solely for treatment; (d) records kept by the person responsible for campus security; (e) financial records of your parents; (f) confidential letters and statements of recommendation placed in your records prior to January 1, 1975; or (g) confidential letters and statements of recommendation for admission, employment or honorary recognition placed in your records after January 1, 1975, for which you have waived the right to inspect and review.

Education records maintained by the UWC include, but are not limited to, the following:

1. high school and college transcripts and other educational records submitted by you with your application for admission;
2. scores of placement tests and ACT or SAT scores if you requested that a copy be sent to the UWC;
3. records of registration and grades for each term;
4. your requests for reinstatement, special permission to withdraw after deadlines, etc., with confirmation of the action taken in response to the request;
5. other records except those to which you do not have access as outlined in #2 in the previous section.

Education records maintained by the registrar include your official transcript and grades earned. After reviewing your records, you may challenge any information in your education records you believe to be inaccurate, misleading or inappropriate. This right does not extend to reviewing grades unless the grade assigned by your professor was recorded inaccurately. You also may insert in your record a statement to explain any such material from your point of view. If you wish to challenge information in your file, you must make a written request for a hearing to your UWC campus dean.

If your request for a record modification is not granted, you will receive written notification of the reasons and a copy of this notice will be placed in your file. In most cases, the decision of the dean will be final. However, you may file an appeal in writing to the chancellor, who will review the decision only if a significant question of policy or compliance with the law appears to be raised by the case. Your appeal to the dean or to the chancellor must be acted upon within 45 days from the date of the appeal.

You have a right to file a complaint with the US Department of Education concerning alleged failures by the UWC to comply with the Family Educational Rights and Privacy Act. In the process of challenging your records, should you wish to have copies of any documents in your file, there will be a charge of $1 for a copy of each document. This charge does not apply to copies of your transcript. There is a $3 charge for each official transcript. No transcript copies (official or advising) will be furnished to a student who has a Hold on his or her records.

Official transcripts of credits earned at institutions other than the UWC which have been presented for admission and evaluation of credit become a part of the student’s UWC permanent record and are not reissued or copied for distribution. Transcripts from other institutions, if needed, must be obtained directly from the institutions.

In unusual circumstances, the UWC will forward a copy of a student’s educational record(s) to an agency or institution that requested the record(s) and in which the student seeks to enroll.

You should be aware that, under the Act, the UWC constructs the following to be directory information which is available to the public: name, address (including e-mail addresses), telephone number, date of birth, dates of attendance, degrees and awards received, sex, marital status, major field of study (including current classification, year-in-school, credit load, and number of credits earned toward a degree), participation in officially recognized activities and sports, weight and height of members of athletic teams, most recent previous educational agency or institution attended, and parent/spouse/guardian name and address. Also, the UWC may use a portion of your student identification number to post mid-term and final grades. No other information will be released to a third party, except as provided by law, without your prior consent. In addition, you have the right to inform the UWC that the above information cannot be released without your prior consent. If you choose to have directory information restricted, you should file the appropriate request form in the Student Services Office.

Each UWC campus may publish a Dean’s List to honor students with high grade point averages. (See page 20.) You may request that your name be deleted from the public announcement of the Dean’s List.

No information from your education record will be released to a third party, except as provided by law, without a signed release from you. In limited instances, the UWC may disclose personally identifiable information to UWC officials who are determined to have a legitimate educational interest in the information. Such disclosures must be approved by the registrar. Only those requests made by appropriate faculty and staff which further the educational interest of the student and the institution will be approved. If a judicial order or subpoena for your education record is issued, a reasonable effort will be made to notify you in advance of compliance.
The Higher Education Location Program (HELP) has provided toll-free educational advising for the institutions in the UW System since 1973. By calling 1-800-442-6459, you can speak with an advisor about virtually any topic related to your educational goals. HELP is now on-line. It provides a one-stop-shop for UW System student information and features Web pages with information these topics:

Gearing Up for College

Admission to the UW System
   campus contacts and links to campus homepages

Paying for College
   and how to apply for Financial aid

Choosing A Major

Transfer Information
   course equivalencies between the UW System and the Wisconsin Technical College System

Special Services for Students:
   multicultural students, veterans and students with disabilities

Counselor's Corner (for high school counselors)
   contains issues of the HELP on-line Newsletter and fast links to frequently used information.

Communicate With Us!
   an area where students, their parents and counselors can order UW System publications and ask questions of HELP advisors by e-mail.

In the coming year, many new areas will be added, such as: New Student Programs, Careers, Registration and Frequently Asked Questions.

Beginning in the Fall of 1997, students will be able to apply for admission using the UW System Electronic Application for Undergraduate Admission on the World Wide Web. This application will be available from the Admission area of HELP on-line or the UWC homepage. Students will be able to apply to multiple institutions in the UW System using this form. You can find HELP on-line at:

www.uwex.edu/ce/help/on-line.htm
Transfer from a UWC Campus

Learning is for a lifetime, and your education won't end in our classrooms. When you decide to transfer to a baccalaureate institution, we can help.

Transfer Information System

For on-line information about credit transfer, academic requirements and other transfer matters, you are encouraged to use the Transfer Information System (TIS). TIS is designed to provide prospective transfer students with current information to help you better prepare for transfer. Contact your campus Student Services Office to learn more about this resource and how to access it.

http://tis.uwsa.edu/
Planning for Transfer

The UW Centers is fully accredited by the North Central Association of Colleges and Schools. Therefore, credits earned in the UWC will be accepted by other colleges and universities in Wisconsin and throughout the country. Students do need to plan carefully, however, to ensure that they select the courses which will fulfill the specific requirements of the program of study they expect to pursue. The UWC encourages you to consult your campus Student Services Office as early as possible for advice regarding transfer admission requirements and procedures.

Transfer and the Associate Degree

According to the UW System Undergraduate Transfer Policy, students holding the UWC Associate of Arts and Science degree will be considered to have satisfied the university-wide general education breadth requirements. Colleges and Schools may require transfer students to complete additional general education credits beyond the university-wide total if required of continuing students. In addition, the Associate Degree may not necessarily satisfy competency or proficiency requirements, upper division general education courses, general education courses that are prerequisites integral to a particular program or major and which are required of continuing students, and requirements mandated by external professional accrediting associations or program approving agencies.

Other Transfer Information

Admission

You must apply for admission to the university or college and provide official transcripts of all high school and postsecondary course work (such as work from the UWC) you have attempted. At some schools, the particular department or program in which you wish to enroll may require a separate application or you may be required to meet separate entrance requirements. Contact your campus Student Services Office and the transfer university for information on specific application procedures, deadlines and entrance requirements.

Credits

Most colleges and universities limit the number of credits which can be transferred from a freshman/sophomore institution and applied toward a bachelor’s degree. Students transferring to UW baccalaureate-granting institutions may generally transfer up to 72 semester credits. UW institutions may accept additional credits toward the degree where appropriate. This does not alter the regulations concerning credits to be earned in residence at an institution. The UWC considers 72 credits to be its program length for purposes of its Financial Aid Office Satisfactory Academic Progress Policy. (See page 12 of this catalog.)

Before you have earned half the credits necessary to complete a bachelor’s degree, you should consult an advisor about the total number of credits you can transfer to the university of your choice.

Financial Aid

If you wish to receive financial aid at your transfer university, indicate this on the admission application and request information about application procedures and any separate application form the university may use. Ask the UW central Financial Aid Office in Madison and the financial aid offices of any other colleges you've attended to send a financial aid transcript (FAT) to your transfer institution. (This is different from the academic transcript required for admission.) Forms to request a FAT are available in the campus Student Services Office. There is no charge for the FAT.

Housing

Arrangements for housing at a university campus are handled in various ways. Usually you are required to file a separate application for housing or you must make your own arrangements for private housing. Housing arrangements should be considered early in your transfer process.

Transfer Questions

If you have questions regarding the transfer of credit, consult your campus Student Services Office. If you have specific questions about other University of Wisconsin System institutions, contact the admissions office on the specific campus or call the toll-free UW HELP number (1-800-442-6459).

Transcript Request

If you want your official UWC transcript sent to another institution, or if you want a copy for yourself, the request must be submitted in writing (telephone requests are not accepted). Request forms are available from the campus Student Services Office or you may send a letter of request to UWC Office of the Registrar, 780 Regent Street, PO Box 8680, Madison, WI 53708-8680. There is a $3 charge for each transcript. Transcripts will not be furnished for a student who has an outstanding obligation to the UWC (e.g., owes a fine, money, materials, or financial aid). The UWC does not issue copies of official transcripts or documents that it has received from other institutions.
The Associate of Arts and Science Degree

You can use this degree as your personal foundation for the major you want to pursue at any UW System institution.

The Associate of Arts and Science degree is a foundation for many majors in the UW System and is generally accepted by University of Wisconsin institutions as fulfilling the university-wide, college, and school general education breadth requirements. The degree may not fulfill certain proficiency, major, and/or program-specific requirements.

The University of Wisconsin Centers offers the Associate of Arts and Science degree. There are no provisions for you to receive more than one associate degree.
A Revised Degree

As of the fall semester 1997, the UW Centers offers a revised Associate of Arts and Science degree. The requirements for this degree begin on page 31. The Associate of Arts and Science degree aims "to provide qualified students of all ages and backgrounds with the proficiencies and breadth of knowledge that prepare them for bachelor's and professional programs, for lifelong learning, and for leadership, service, and responsible citizenship." (UW Centers Select Mission)

The provisions and requirements of the revised degree will be applicable to all students beginning matriculation in the fall of 1997. Students enrolled prior to the fall semester 1997 may elect to receive either the degree described in this catalog or the previous degree (see the 1996-97 UW catalog).

Transfer applicants who first matriculated in any University of Wisconsin institution prior to fall 1997 may elect to earn the degree described in this catalog or the previous degree (see the 1996-97 UW catalog).

Students intending to earn the previous degree must complete degree requirements by the end of the spring semester 2000.

Degree Description

To fulfill the UWC mission, the degree requires that core requirements in writing and mathematics be completed as well as a distribution of credits in breadth of knowledge categories.

The breadth categories in the degree are defined as follows:

Fine Arts and Humanities

Students must acquire knowledge of ideas, beliefs, and abiding concerns pertaining to the human condition as represented in literature, philosophy and cultural history. They must acquire a level of aesthetic appreciation of the human imagination as expressed in the fine arts, and appreciation of the impact of the arts upon the quality and character of human life.

Mathematical and Natural Sciences

Students must know of the nature and workings of the physical universe. They must understand scientific method, the functions of numerical data and the solving of problems through mathematical and statistical computations, as well as the application of the scientific method in laboratory and experimental work. For this, an appropriate level of computer literacy is required. Students must also be aware of environmental conditions and challenges, the interrelationships of lifeforms and ecosystems, and the impact of human activities upon natural environments.

Social Sciences

Students must understand the nature and dynamics of human social systems and how and why people organize their lives and resources. In doing so, students will learn about both their own and diverse cultures to acquire a historical perspective on long-term characteristics and consequences of social change and an informed understanding of the variety of human conditions and the interrelationships of nations, regions, peoples and individuals.

Application and Performance

Students must demonstrate an understanding of concepts, theory and knowledge through the application of their skills and understanding to specific problems and activities.

Ethnic Studies

Students must become aware of and sensitive to diversity issues and problems. Courses fulfilling this requirement will have a substantial emphasis on cultural diversity in Wisconsin, the United States or the world.

Interdisciplinary Studies

Students must acquire an appreciation for the multiple dimensions of any given subject by applying the content, methods and assumptions of two or more disciplines. Students will learn to integrate knowledge from across the curriculum. A course is an interdisciplinary studies course if instructors from two or more disciplines teach the course.
Degree Requirements

1. A minimum of 60 credits is required.
2. The UWC General Education Requirements must be fulfilled.
3. At least 24 of the 60 credits must be completed within the UWC, or at least 12 of the last 24 credits must be earned within the UWC.
4. A student must have a cumulative grade point average (GPA) of 2.0 earned at the UWC and 2.0 overall GPA in credits applied to the Associate of Arts and Science degree.
5. Students must be enrolled at a UWC campus during the semester in which the degree requirements are completed or have earned 60 degree credits prior to transferring from the UWC to a baccalaureate degree-granting institution.

General Education Requirements

I. Core Requirements
Grade of C or better in or exemption from the following:

- WRITING - ENG 102
- MATHEMATICS - MAT 108 or MAT 110

The writing and mathematics requirements and their pre-requisites may not be used to satisfy a breadth requirement when used to satisfy a core requirement.

II. Breadth Categories

Fine Arts and Humanities
A student must earn a minimum of nine credits with at least one course designated as Fine Arts and at least one course designated as Humanities.

Mathematical and Natural Sciences
A student must earn a minimum of 11 credits in this category. A minimum of eight of these credits must be in at least two disciplines of the Natural Sciences and must include one laboratory science course.

Social Sciences
A student must earn a minimum of nine credits in this category. These courses must be selected from at least two disciplines.

Application and Performance
A student must earn a minimum of three credits in courses designated as Application and Performance.

Ethnic Studies
A student must earn a minimum of three credits in courses designated as Ethnic Studies. Ethnic Studies courses may also be counted toward another breadth category.

Interdisciplinary Studies
A student must earn a minimum of three credits in courses designated as Interdisciplinary Studies. Interdisciplinary Studies courses may also be counted toward another breadth category.

Electives
A student who has met the core requirements and the other breadth category minimums may complete the 60 credit minimum requirement with courses in this category.

Exemption from ENG 102
Students may be exempted from ENG 102 based on an English Placement Test score of 655 or better and demonstrated competence in the writing of a research paper. Each request for exemption is to be treated individually and the campus English department representative will either review a paper employing documented support, written less than one year before the review, or will assign a relatively short (4-6 pages) paper which utilizes a minimum of four sources. The department representative is to inform the campus student services office and the department chair of each exemption granted and the chair will then inform the office of the registrar. The department representative is also to inform the chair of each circumstance in which a request for exemption is denied. If you receive an exemption from English 102 and are planning to transfer to another institution, consult with your prospective institution regarding its composition requirements.

Exemption from Mathematics Core Requirement
Check with your UWC campus Student Services Office.

Disciplines: [Sign]

- Anthropology
- Art
- Biological Sciences (see note below)
- Business
- Chemistry
- Communication Arts
- Computer Science
- Economics
- Education
- Engineering
- English
- Foreign Languages
- Geography
- Geology
- History
- Mathematics
- Music
- Philosophy
- Physics/Astronomy
- Political Science
- Psychology
- Sociology
- Women's Studies

NOTE: The Biological Sciences department includes the disciplines of Anatomy, Bacteriology, Biology, Botany, Forestry, Natural Resources, Physiology, Wildlife, and Zoology.
The UW Centers is guided by the principles that a love of learning and a sense of identity, integrity, truth, beauty, and community benefit both the student and society. Given these principles and our mission to provide students with the proficiencies needed for further success, the UWC regards the following areas of proficiency to be of primary importance in the education of our students.

The proficiencies will permeate the courses we offer. We expect that with the acquisition of the revised associate degree, students will have taken at least one course, and in most cases, several, which will address each proficiency. Assessment methods to determine student progress toward acquisition of the proficiencies at the course level are being developed. Students may be required to participate in assessment testing as a condition of receiving the degree.

I. Clear and Logical Thinking
The informed and disciplined use of rational thought in collecting, evaluating, and synthesizing information, and in framing and addressing "problems," as well as constructing and supporting logical arguments has long been and must remain a fundamental goal of higher education. Students must be able to:

- analyze, synthesize, evaluate and interpret information and ideas,
- construct and support hypotheses and arguments,
- distinguish knowledge, values, beliefs, and opinions,
- select and apply scientific and other appropriate methodologies,
- solve quantitative and mathematical problems,
- interpret graphs, tables, and diagrams,
- use statistics appropriately and accurately,
- integrate knowledge and experience to arrive at creative solutions,
- evaluate situations of social responsibility,
- make decisions based on an informed understanding of the moral and ethical issues involved, and
- articulate accurately strengths and weaknesses of one's own work.

II. Effective Communication
Students must develop and demonstrate proficiency in sharing knowledge with other people. Students must be able to:

- read and listen with comprehension and critical perception,
- recognize fallacies and inconsistencies,
- respond to the media actively and analytically,
- write clearly, precisely, and in a well organized manner,
- develop a large and varied vocabulary,
- recognize and use a variety of written communication forms and styles,
- transmit information effectively through skillful speech delivery,
- respond orally to questions and challenges,
- recognize and use a variety of oral communication forms and styles,
- work collaboratively as part of a team,
- understand and communicate with people different from themselves,
- gather information from printed sources, electronic sources, and observation,
- use computer technologies for communication and problem solving, and
- learn independently, stimulating and satisfying intellectual curiosity.

III. Aesthetic Response
For an enhanced awareness and appreciation of art and the power and importance of creativity in human life, students need to develop and demonstrate aesthetic understanding and skill. Students must be able to:

- employ and expand the imagination,
- engage in creative expression, and
- respond to the natural world and creative expression with knowledge and sensitivity.
Course Descriptions

Although no single UWC campus offers every course, each campus offers the essential freshman/sophomore curriculum to prepare you for transfer to a bachelor's degree program with a major in almost any field you choose. Check your campus class schedule to learn which courses are offered at your UWC campus.
Departmental Abbreviations
Course listings are in alphabetical order by departmental name.

ANT  Anthropology
ART  Art
AST  Astronomy
BAC  Bacteriology
BIO  Biology
BOT  Botany
BUS  Business
CHE  Chemistry
COM  Communication Arts
CPS  Computer Science
ECO  Economics
EDU  Education
EGR  Engineering
GRA  Engineering Graphics
MEC  Engineering Mechanics
ENG  English
FOR  Forestry
FRE  French
GEO  Geography
GLG  Geology
GER  German
HIS  History
INT  Interdisciplinary Studies
LEA  Learning Resource
LEC  Lecture Forum
MAT  Mathematics
MLG  Meteorology
MUS  Music
MUA  Music, Applied
NAT  Natural Resources
PED  Physical Education and Athletics
PHI  Philosophy
PHY  Physics
PHS  Physiology
POL  Political Science
PSY  Psychology
SOC  Sociology
SPA  Spanish
WIL  Wildlife
WOM  Women's Studies
ZOO  Zoology

Abbreviations for Associate Degree Designations

AP  Application and Performance
EL  Elective
ES  Ethnic Studies
(also may be designated in timetables)
FA  Fine Arts
HU  Humanities
IS  Integrated Studies
(also may be designated in timetables)
LS  Laboratory Sciences
MS  Mathematical Sciences
NS  Natural Sciences
SS  Social Sciences

Prereq:  Prerequisite
Cons. instr.:  Consent of Instructor

* Asterisk indicates a special topics course or an independent study which will be assigned an associate degree designation at the time it is offered. Check the campus timetable.

Distance Education Courses
Courses offered by another UWC or UW campus may be available via interactive distance education technology at the campus where you are enrolled. For information on specific distance education courses available at your campus, contact the local Student Services Office.

Find us on the Web!
Visit the Distance Education Clearinghouse for information on courses available through distance education technologies.

ANT 100 General Anthropology 3-4 cr
General understanding of humans in relation to cultures, evolutionary development and racial diversity, capacities for society and the development of the world's major cultures. SS/ES

ANT 291 Topics in Anthropology 2-4 cr
A specific topic in an instructor's area of special competence. When offered, the particular topic is indicated in the campus timetable. Prereq: previous anthropology course or cons. instr. *

ANT 299 Independent Reading and Research in Anthropology 1-4 cr
Independent reading and research in anthropology. Prereq: cons. instr. *

ANT 302 Archaeology of Wisconsin 3-4 cr
Survey of Wisconsin archaeology from the earliest occupation of the state through the historic period and subsequent tribal breakdown. Emphasis is on ecological and historical factors influencing development of prehistoric and historic aboriginal culture of Wisconsin. Prereq: previous anthropology course or cons. instr. SS/ES

ANT 308 Archaeology of North America 3-4 cr
Main pre-Columbian cultures north of Mexico. Includes evidence for cultural developments and diversity of cultural groups. Prereq: previous anthropology course or cons. instr. SS/ES

ANT 322 The Origins of Civilization 3-4 cr
Global archaeological survey of the origins of pristine civilizations beginning with the development of food production and ending with the emergence of the world's first civilizations. Focus of attention: Near East, Egypt, the Indus Valley, North China, Mesoamerica and Peru. Prereq: previous anthropology course or cons. instr. SS

ANT 301 Introduction to Linguistics: Descriptive and Theoretical 3-4 cr
Elementary theory and practical work in phonetics, phonology, morphology, syntax, formal grammar and semantics. Prereq: previous anthropology course or cons. instr. HU

ANT 200 Cultural Anthropology 3 cr
Survey of cultural anthropology with emphasis on ethnographic description, methodology and contemporary theory. Cross-cultural comparisons of societies and institutions. Course includes both humanistic and social scientific approaches to human sociocultural diversity. SS/ES

ANT 204 Cultures of the World 3 cr
Ethnographic survey of the world's peoples and their cultures. Major regions of the world considered in an attempt to outline the variety, richness, significance and persistence of cultural traditions. SS/ES

ANT 250 Women in Cross-Cultural Perspective 3 cr
(Same as WOM 250.) Study of women in a variety of cultures around the world, both past and present. Includes consideration of the sexual division of labor, marriage systems, child rearing, and relationships between men and women, systems of myth and ideology concerning women's roles and the effects of socio-economic development and rapid social change. SS/ES

ANT 260 American Indian Art 3 cr
A survey of North American Indian art and its relationship to Native American cultures, past and present. Looks at pre-Columbian art, changes in art with European contact, and the most recent trends in Native American art. Philosophies of aesthetics and the relationship of art to material culture and world view will be analyzed from the cross-cultural perspective of the anthropology of art. FA/ES

ANT 300 Human Sexuality: an Anthropological Perspective 3 cr
Anthropological analysis of the cultural bases and expression of human sexuality in crosscultural perspective. Examines the treatment of sex and sexual behavior and their consequences on shaping gender relations, gender roles, social status, division of labor, distribution of resources, and certain practices such as circumcision, puberty, virginity, premarital, extramarital and postmartial sex, marriage, socialization, kinship relations, beliefs, and rituals in different cultures. SS/ES

ANT 314 Indians of North America 3 cr
Description and analysis of native cultures and the role of environmental and historical factors in North America. Prereq: a previous anthropology course or cons. instr. SS/ES

**Astronomy**

**Bacteriology**

BAC 101 General Survey of Microbiology 4-5 cr
Survey of micro-organisms and their activities; emphasis on structure, taxonomy, function, ecology, nutrition, physiology, pathology and genetics. Survey of applied microbiology: agricultural, medical, industrial, environmental and food. The laboratory is an introduction to standard techniques and procedures in general microbiology. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory CHE, BIO courses recommended. NS/LS.

BAC 299 Reading and Research in Microbiology 1-3 cr
(Same as BOT/ZOO 299.) Supervised undergraduate reading and research in biological sciences. This course is designed to acquaint the undergraduate with the literature and research techniques used in biological investigation and to give practical experience in scientific problem-solving. Prereq: cons. instr. *

BAC 303 General Microbiology 3 cr
Basic biology of procaryotic microorganisms, including structure, function, physiology, genetics and ecology of bacteria. Required of Bacteriology majors and recommended for students majoring in basic biological sciences. Students may not receive credit for both BAC 101 and 303. Possible field trip(s). Prereq: Previous course in biology and completion of or concurrent registration in CHE 343. NS

**Biological Sciences**

**Unlisted Courses**

**Statistics**

BAC 299 Reading and Research in Microbiology 1-3 cr
(Same as BOT/ZOO 299.) Supervised undergraduate reading and research in biological sciences. This course is designed to acquaint the undergraduate with the literature and research techniques used in biological investigation and to give practical experience in scientific problem-solving. Prereq: cons. instr. *

BAC 303 General Microbiology 3 cr
Basic biology of procaryotic microorganisms, including structure, function, physiology, genetics and ecology of bacteria. Required of Bacteriology majors and recommended for students majoring in basic biological sciences. Students may not receive credit for both BAC 101 and 303. Possible field trip(s). Prereq: Previous course in biology and completion of or concurrent registration in CHE 343. NS
BAC 304 General Microbiology Laboratory 2 cr
The laboratory is an introduction to standard techniques and procedures in microbiology. This is the companion lab to BAC 303. Students may not receive credit for both BAC 101 and 304. Possible field trip(s). Prereq: Previous course in biology and completion of or concurrent registration in CHE 343. NS/LS

**Biology**

BIO 103 Human Environmental Biology 3-4 cr
A contemporary study of the natural world through the human perspective. Emphasis on humans as a modifying force in the biophysical environment, including selected topics in ecological principles, pollution, population biology and environmental management. This course meets the statutory requirement for Conservation of Natural Resources required for State certification for teachers of science and social sciences. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

BIO 107 Biological Aspects of Conservation of Natural Resources 3 cr
The principles underlying the proper management of our resources—water, soils, minerals, forests, wildlife and human. The current and past attitudes relating to the resources with the interaction and complexities of humans' interests. This meets the statutory requirement for Conservation of Natural Resources required for State certification for teachers of science and social sciences. Lecture and may also include demonstrations, discussion and field trips. NS

BIO 109 Concepts of Biology 5 cr
An introduction to the fundamental principles of living organisms. Includes cell and tissue structure, growth, basic physiological processes, reproduction and inheritance, classification, evolution and ecology. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

BIO 116 Great Ideas in Biology 2-3 cr
Selected landmark ideas in biology will be discussed not only to familiarize students with the concepts, but also to help them appreciate how scientific ideas develop, how technology and basic science interact, how public opinion affects the acceptance and application of advances and how current breakthroughs are likely to affect humans in the future. Lecture. HU

BIO 151 Introductory Biology 5 cr
Living organisms; their structure, functional capabilities, developments, perpetuation and evolution. In combination with BIO 152 recommended for biology majors preparatory to advanced courses in biology, botany or zoology; also designed for those who wish a single integrated course in biology. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

BIO 152 Introductory Biology 5 cr
Living organisms; their diversity, behavior, ecology and evolution. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: BIO 151. NS/LS

BIO 160 Heredity 3 cr
Principles of heredity with applications to plant, animal and human inheritance; current advances in genetics and their bearing on the life sciences. Lecture and may also include demonstrations, discussion and field trips. NS

BIO 230 The Biological Revolution: Directing our Destiny 3 cr
(Same as PHI 230.) Combines significant elements from biology, philosophy and psychology. This course involves a multidisciplinary exploration of the ethical and practical implications of current developments and applications in the areas of molecular genetics, reproductive biology and sociobiology. NS

BIO 250 Principles of Ecology 4 cr
The interrelationships between living organisms and their environment, ecosystems concepts, population dynamics, community organization and distribution, and application of ecological principles to humans and their environment. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS/LS

BIO 260 Genetics 3 cr
Laws of variation and heredity and their modification by environment, genetic engineering and chromosome behavior with emphasis on human genetics. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS/LS

**Botany**

BOT 100 Survey of Botany 3 cr
Structure, functions, life histories, taxonomy and evolution of representative plants throughout the plant kingdom. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

BOT 130 General Botany 5 cr
An introduction to plant sciences including the structure, development, physiology and genetics of plants. The relation of the major plant groups and the principles of biology. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

BOT 202 Dendrology 3 cr
Identification, classification and economic importance of evergreen and deciduous woody plants, both native and exotic species, stressing characteristics of leaf, fruit, twig, bark and wood structure. Lecture, lab, and may also include demonstrations, discussion and field trips. No prerequisite; however, a course in general botany is recommended. NS/LS

BOT 231 Survey of the Plant Kingdom 4 cr
A phylogenetic study of the plant kingdom including all major groups of living and fossil plants, the distinguishing morphological features of the major taxa and the life cycles of representative organisms with evolutionary considerations. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS/LS

BOT 240 Plants and Civilization 2 cr
The study of plants from an historical and geographical perspective, and how plants are used in the modern world as a source of food, drugs and other materials. Lecture and may also include demonstrations, discussion and field trips. NS

BOT 291 Special Topics in Botany 1-3 cr
(Same as ZOO 291.) Designed to cover topics in biology not ordinarily covered in other classes. Prereq: cons. inst. *

<tr>
<td>ZOO 170</td>
<td>Human Anatomy and Physiology</td>
<td>3 cr</td>
<td>(Same as ZOO 170.) This is a basic course which introduces the nonbiology major to the study of how the human body is organized. Through lecture and laboratory, the student studies the major organ systems of the human body and how its structure relates to function. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS</td>
</tr>
<tr>
<td>PHS 202</td>
<td>Anatomy and Physiology</td>
<td>4 cr</td>
<td>An examination of the structure and function of the human body at the molecular, cellular, tissue, organ and system levels of organization. The integration of these levels of organization within the human organism is emphasized. This is the first semester of a two-semester sequence. Students with credit in PHS 202 and PHS 203 may not receive associate degree credit for PHS 235 and ZOO 234. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS</td>
</tr>
<tr>
<td>PHS 203</td>
<td>Anatomy and Physiology</td>
<td>4 cr</td>
<td>An examination of the structure and function of the human body at the molecular, cellular, tissue, organ and system levels of organization. The integration of these levels of organization within the human organism is emphasized. This is the second semester of a two-semester sequence. Students with credit in PHS 202 and PHS 203 may not receive associate degree credit for PHS 235 and ZOO 234. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS</td>
</tr>
<tr>
<td>PHS 230</td>
<td>Human Anatomy and Physiology</td>
<td>5 cr</td>
<td>A study of the fundamental principles of human structure and function with applications to health and disease. The course will explore all organ systems of the human body at various levels of organization from the cellular and subcellular to the organ system level. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: ZOO 101 or equivalent; introductory chemistry recommended. NS/LS</td>
</tr>
<tr>
<td>PHS 235</td>
<td>Human Physiology</td>
<td>5 cr</td>
<td>An examination of the physiological processes of the human body. Students with credit in PHS 235 and ZOO 234 may not receive associate degree credit for PHS 202 and PHS 203. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory courses in CHE and B10 or cons. instr. NS/LS</td>
</tr>
<tr>
<td>ZOO 101</td>
<td>Animal Biology</td>
<td>5 cr</td>
<td>General biological principles—structure and function of cells, histology, embryology, heredity, ecology and evolution; survey of the animal kingdom; and structure and function of the vertebrate body. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS</td>
</tr>
<tr>
<td>ZOO 105</td>
<td>Introduction to Human Biology</td>
<td>3 cr</td>
<td>Introduction to the development, nature and processes of human adaptability. Lecture and may also include demonstrations, discussion and field trips. NS</td>
</tr>
<tr>
<td>WIL 140</td>
<td>Introduction to Wildlife Resources</td>
<td>3 cr</td>
<td>(Same as WIL 104.) Wildlife resources of the United States; the importance of wildlife to our past and present economic and cultural life and selected problems in wildlife conservation. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: Introductory BIO course. NS/LS</td>
</tr>
<tr>
<td>ZOO 155</td>
<td>Biology of Human Sexuality and Reproduction</td>
<td>3 cr</td>
<td>This course focuses on the biological aspects of human sexuality and reproduction. In addition, the following topics will be discussed from a biological perspective: birth control, sexually transmitted diseases, birth defects, abortion, differences between the sexes and the manipulation of the human reproductive process by science. Lecture and may also include demonstrations, discussion and field trips. NS</td>
</tr>
<tr>
<td>ZOO 170</td>
<td>Human Anatomy and Physiology</td>
<td>3 cr</td>
<td>(Same as PHS 170.) This is a basic course which introduces the nonbiology major to the study of how the human body is organized. Through lecture and laboratory, the student studies the major organ systems of the human body and how its structure relates to function. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS</td>
</tr>
<tr>
<td>ZOO 234</td>
<td>Human Anatomy</td>
<td>3 cr</td>
<td>A study of the fundamental structure and organization of the organs and systems of the human body. Lecture, lab, and may also include demonstrations, discussion and field trips. Students with credit in ZOO 234 and PHS 235 may not receive associate degree credit for PHS 202 and 203. Prereq: B10 course or cons. instr. NS/LS</td>
</tr>
</tbody>
</table>
ZOO 237 Vertebrate Biology 4 cr
An introduction to the study of vertebrate animals considering their structure, evolution, ecology and special adaptation. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS/LS

ZOO 277 Ornithology 3 cr
A course which introduces the student to the biology of birds and the methods of modern field studies, identification, life histories, ecology and behavior of birds, with emphasis on local species. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS/LS

ZOO 291 Special Topics in Zoology 1-3 cr
(Also as BOT 291.) Designed to cover topics in zoology not ordinarily covered in other classes. Prereq: cons. instr. *

ZOO 299 Reading and Research in Zoology 1-3 cr
(Also as BAC/BOT 299.) Supervised undergraduate reading and research in biological sciences. This course is designed to acquaint the undergraduate with the literature and research techniques used in biological investigations and to give practical experience in scientific problem-solving. Prereq: cons. instr. *

ZOO 315 Conservation of Aquatic Resources: Limnology 2 cr
General limnology; study of lake and stream communities and their conservation. Lecture and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS

ZOO 316 Laboratory Conservation of Aquatic Resources: Limnology 2 cr
Biological, physical and chemical characteristics and their interrelations in Wisconsin lakes and streams. Lab and field trips. Prereq: ZOO 315 or concurrent registration. NS/LS

ZOO 350 Field Zoology 3 cr
Designed to acquaint the student with the local fauna, emphasizing taxonomy. Field trips introduce the student to the methods of collecting local fauna providing the basis for the preparation and the identification of the specimens. Can be used by teachers or liberal arts students as a background course for advanced courses such as vertebrate ecology, fishery biology, wildlife management, entomology, forestry and agriculture. Lab and field trips. Prereq: introductory BIO course. NS/LS

BUS 101 Introduction to Business 3 cr
Introduction to the role of business in the modern political, social and economic environments; describes career opportunities. EL

BUS 110 Personal Finance 3 cr
A study of personal financial management. Examines the financial problems and consequent financial decisions required of individuals in our economy. Subjects covered are applications in family budgeting, consumer buying decisions, borrowing, insurance, personal real estate, income taxation, investments and estate planning. AP

BUS 194 Career and Life Planning 2 cr
This course will enable students to develop career goals and lay out a path for achieving these goals. Students will examine their personal interests, aptitudes, values, decision-making skills, academic plans and career awareness. This personal, educational and occupational information will then be organized and translated into an individualized course of action. Integration of career goals with current and future college course work will be stressed. AP

BUS 201 Introductory Accounting 4 cr
Fundamental principles, terminology, techniques and applications; books, accounts and financial statements for retailing and wholesaling concerns; treatment and presentation of proprietorship, partnership and corporate accounts. Prereq: open to second semester freshmen or cons. instr. AP

BUS 202 Intermediate Accounting 4 cr
Accounting theory principles, concepts and procedures and their applications as applied to balance sheet and income statement accounts, presentation and interpretation of financial statements; problems of terminology, valuation and analysis are included. Prereq: BUS 201. AP

BUS 204 Managerial Accounting 3 cr
Interpretation and application of accounting reports by management in planning, coordinating and controlling business activities; presentation, analysis and interpretation of financial data; internal control and reports to management; cost-volume profit relationships, budgets, costs and managerial decision. Prereq: BUS 201. AP

BUS 210 Business Communication 3 cr
(Same as ENG 210.) Study and practice of the techniques of achieving clarity, brevity and effectiveness in business communication. Planning, preparation, critiquing of business letters, memoranda, short and long reports, resumes, manuals of procedure and oral reports. Prereq: ENG 102. AP

BUS 243 Economics and Business Statistics 3 cr
(Same as ECO 243.) Elementary theory and techniques, probability and normal distribution, hypothesis testing, analysis and interpretation of economic and business data, index numbers, regression and time series analysis and Chi squares. Prereq: MAT 110 or MAT 210 or MAT 211 or concurrent registration in MAT 211. MS

BUS 297 Special Topics 1-3 cr
Prereq: cons. instr. *

BUS 299 Independent Studies 1-3 cr
Prereq: cons. instr. *

Chemistry

CHE 112 Foundations of Chemistry 2 cr
Designed to prepare students with limited science backgrounds for success in CHE 125 or the CHE 145/155 sequence. Emphasizes fundamental chemical concepts, chemical nomenclature and problem-solving skills. Two hours lecture/discussion. EL
CHE 123 Chemistry and Society  3 cr
A qualitative, non-mathematical course in chemistry for non-scientists focusing on environmental and consumer chemistry. 3 hrs. lecture/discussion. Not a suitable prerequisite for professional chemistry courses. (A student may not earn more than four credits by taking CHE 123 and CHE 124.) NS

CHE 124 Natural Science Chemistry  4 cr
Non-mathematical look at our chemical world of drugs, pollutants, household chemicals, food additives, etc. Lectures and laboratories. Not a suitable prerequisite for professional chemistry courses. (A student may not earn more than four credits by taking CHE 123 and CHE 124.) NS/LS

CHE 125 Introductory Chemistry  5 cr
A one semester introductory course in college chemistry including an introduction to organic chemistry. Consists of lectures, discussions and laboratories. Primarily for students whose programs require only CHE 125 or CHE 125-203 combination. Students may not count both CHE 125 and CHE 145 toward the natural science or laboratory science requirement for the associate degree. NS/LS

CHE 145 General Chemistry  5 cr
The first semester of a one-year course in college chemistry. Consists of lectures, discussions and laboratories. For students whose programs require a year of college chemistry or who plan to take advanced courses in chemistry. Students may not count both CHE 125 and CHE 145 toward the natural science or laboratory science requirement for the associate degree. Prereq: demonstrated competency at MAT 110 level or concurrent MAT 110 registration. NS/LS

CHE 155 General Chemistry  5 cr
Continuation of CHE 145. Consists of lectures, discussions and laboratories. Prereq: CHE 145. NS/LS

CHE 203 Survey of Biochemistry  3 cr
An elementary course in the chemical makeup and metabolic processes of living organisms. For non-science majors. Three hours of lectures per week. Together CHE 125 and CHE 203 constitute a year course with emphasis on organic and biological chemistry for non-science majors. Prereq: CHE 125 or CHE 145 with cons. instr. NS (if taken alone)/LS (if combined with 211)

CHE 211 Biochemistry Laboratory  1 cr
Laboratory to accompany CHE 203. Three hours of laboratory per week. This course is highly recommended for degree nursing students. Prereq: CHE 203 or concurrent registration. NS/LS

CHE 214 Physiological Chemistry  3 cr
Lectures and demonstrations on elementary aspects of organic and physiological chemistry; provided for students who have not had organic chemistry. For students interested in physical therapy. Prereq: CHE 125 or CHE 145 with cons. instr. NS

CHE 244 Quantitative Analysis  4 cr
A course in the fundamentals of quantitative analysis. Two hours of lecture-discussion and six to eight hours of laboratory per week. Prereq: CHE 155. NS/LS

CHE 290 Special Topics in Chemistry  1-3 cr
Prereq: cons. instr. *

CHE 299 Independent Study in Chemistry  1-3 cr
Prereq: cons. instr. *

CHE 343 Introductory Organic Chemistry  3 cr
The first semester of a year course in organic chemistry. Three hours of lecture per week. Prereq: CHE 155 or cons. instr. NS (if combined with CHE 352)/LS

CHE 352 Introductory Organic Chemistry Laboratory  2 cr
Six to eight hours of laboratory per week. Prereq: CHE 343 or concurrent registration. NS/LS

CHE 363 Intermediate Organic Chemistry  3 cr
Continuation of Chemistry 343. Three hours of lecture per week. Prereq: CHE 343. NS

Communication Arts

COM 101 Introduction to Interpersonal Communication  3 cr
A course aimed at introducing communication theory, increasing the student's awareness of communication with others in one-on-one situations, and improving personal communication skills. Topics studied include perception, listening, nonverbal communication, language, and conflict management. AP

COM 102 Forensics Laboratory  1 cr
Participation in forensics activities including, but not limited to oral interpretation oratory, extemporaneous speaking, after-dinner speaking, impromptu speaking, debate, discussion and play reading. It is possible to register in more than one section with cons. instr.

Sect. 1 Discussion-Debate  1 cr. AP
Sect. 2 Rhetoric  1 cr. AP
Sect. 3 Interpretation  1 cr. AP

COM 103 Introduction to Public Speaking  3 cr
Study of the principles and techniques of effective speaking and listening in a variety of selected communication experiences. AP

COM 104 Applied Journalism—Newspaper  1 cr
Practical application of the principles of writing, editing, photography and production of materials for campus publications. AP

COM 105 Applied Journalism—Radio  1 cr
Practical application of the principles of writing, editing and producing materials and/or presenting materials on the radio. AP

COM 106 Applied Journalism—Television  1 cr
Practical application of the principles of writing, editing, videotaping and producing materials for and/or presenting materials on television. AP

COM 110 Listening  2-3 cr
An introduction to the theories, research, behaviors and skills associated with the process of listening. Application of content material will be explored and analyzed through classroom exercises and evaluations. AP

COM 130 Introduction to Theatre  3 cr
A study of the development of theatre as an art form. Emphasis is on the role of the audience and the understanding and appreciation of the nature of theatre, important plays, dramatic styles and elements of a theatrical production. FA
COM 131 Theatre Laboratory 1 cr
Participation in theatrical production activities including directing, stage management, technical production, lighting, stage design, costuming, make-up, acting and theatre management. It is possible to register in more than one section with cons. instr.
   Sect. 1 Acting 1 cr. AP
   Sect. 2 Technical production 1 cr. AP
   Sect. 3 Theatre management 1 cr. AP

COM 150 Introduction to Film 3 cr
Study of the nature and development of film as a distinctive medium of communication and as an art form. FA

COM 160 Communication and Human Behavior 3 cr
An examination of the diverse theories and research in fundamental concepts, problems and effects of human communication behavior. Prereq: COM 101. SS

COM 201 Introduction to Mass Communication 3 cr
A survey course examining print, electronic and persuasive media from an historical perspective. Topics discussed include newspapers, magazines, books, radio, television, film, public relations and advertising. SS

COM 202 Mass Communication and Contemporary Issues 3 cr
Analysis of contemporary public issues as reported in the mass media with emphasis on news and feature content of radio, television, newspapers and other periodicals. Techniques of content analysis and survey research. Specific issues for study to be determined at the time the course is offered. Prereq: COM 201 or cons. instr. SS

COM 203 News and Informational Writing 3 cr
Instruction and practice in written communication of factual materials under direct guidance of instructor. Emphasis is on writing for news media, but time is spent on procedures and techniques which are basic for all informational writing. Prereq: typing proficiency recommended and the satisfactory completion of English 101 or equivalent documentation of language skills. AP

COM 204 News Reporting 3 cr
Emphasis on the gathering of news and interviewing. Field work in the community. Typing proficiency recommended and the satisfactory completion of English 101 or equivalent documentation of language skills. Prereq: COM 203 or cons. instr. AP

COM 220 Introduction to Radio Broadcasting 3 cr
A study of the principles and practices of contemporary radio production and programming, including laboratory work. AP

COM 221 Introduction to Television Broadcasting 3 cr
The study of the principles and practices of contemporary television production and programming, including laboratory work. AP

COM 230 Introduction to Oral Interpretation 3 cr
A course aimed at increasing the student's ability to understand and appreciate literature through oral performance. The student will critically analyze and perform literary materials individually and/or in groups. HU

COM 232 Introduction to Acting 3 cr
Exploration of the fundamentals of acting through exercises and improvisations designed to enhance presentation of self and to promote concentration, observation, imagination and sensory responsiveness. AP

COM 234 Introduction to Stagecraft 3 cr
Theories and techniques of stagecraft, such as set design and construction, scene painting, stage lighting, costuming and make-up. AP

COM 266 Group Discussion 3 cr
Study of the structure and dynamics of small groups. Topics include decision making, group behaviors, critical thinking, problem solving and leadership in group interaction processes. SS

COM 268 Persuasion 3 cr
Principles and methods of persuasion, with practice in the preparation and delivery of various types of persuasive speeches. Prereq: COM 103 or instr. AP

COM 298 Topics in Speech and Dramatic Arts 1-3 cr
The nature and subject of this course will be announced in the timetable. Prereq: may be determined by instructor.

COM 299 Independent Studies 1-3 cr
Readings, reports, papers or projects to be determined by the individual instructor. Prereq: introductory COM course and cons. instr.

COM 349 Children's Theatre Production 3 cr
Methods of directing, designing and producing plays for the child audience. Examination of scripts and study of techniques in adapting children's literature for the stage. AP

**Computer Science**

**NOTE:** Consult with the transfer institution to determine the combination of one credit modules which will transfer optimally.

**NOTE:** Computer Science and Engineering major courses start at the 200 level.

CPS 100 Computers and Society 1-3 cr
Study of the functions of computers, their applications and the resultant social changes, both desirable and undesirable. Consideration of the value systems that are threatened as computer technology continues to expand. No programming required. EL

CPS 101 Computer Orientation 1 cr
An introduction to the campus computing set-up. Emphasis on what computers can do; using computers rather than programming them. EL

CPS 103 Computer Fundamentals I 1 cr
An overview of computers, what they are and how they work. Typical topics include history, hardware, programming languages and operating systems, application software, communications, career opportunities and ethical issues. Also included is an introduction to the campus computing network. EL
CPS 104 Computer Fundamentals II 1 cr
A continuation of CPS 103 with increased emphasis on advanced concepts. Typical topics include systems analysis/design/implementation, system security, MIS/decision support systems, computer applications in business and industry, structured design and programming, artificial intelligence, advanced application and future computer systems. Prereq: CPS 103. EL

CPS 105 Computer Applications 1 cr
Principles and use of computer applications including word processors, spreadsheets and data bases. May also cover other applications such as telecommunications, graphics, statistics, simulations or CAI. Does not include teaching of programming. Course may not be taken more than once for degree credit. Students may not receive credit for both CPS 105 and any of CPS 106, CPS 107, CPS 108. AP

CPS 106 Word Processing Concepts 1 cr
Text entry, editing and manipulation. Covers typical as well as many advanced features of word processing. This course involves extensive hands-on experience. Students may not receive credit for both CPS 106 and CPS 105. AP

CPS 107 Spreadsheet Concepts 1 cr
Typical features and application of electronic spreadsheets. This course involves extensive hands-on experience. Students may not receive credit for both CPS 107 and CPS 105. AP

CPS 108 Database Concepts 1 cr
Creation of data files and data manipulation (editing, sorting, deleting, etc.). Report definition and generation. Accessing and searching of remote data bases. Includes extensive hands-on experience. Students may not receive credit for both CPS 108 and CPS 105. AP

CPS 110 Introduction to Computer Science 3 cr
How computers work, communicating with computers, areas of application and significance, simple Algebraic Language programming, elementary data processing and problem solving. Instruction and significant experience in BASIC. Prereq: intermediate high school mathematics or equivalent. Students may not receive credit for both CPS 110 and CPS 130. EL

CPS 113 Introduction to Computer Science 3 cr
How computers work, communication with computers, areas of application and significance, simple Algebraic Language programming, elementary data processing and problem solving. Instruction and significant experience in Pascal. Prereq: intermediate high school mathematics or equivalent. Students may not receive credit for both CPS 113 and CPS 133. EL

CPS 130 Introduction to Programming 1-2 cr
(BASIC)
The basics of programming in BASIC for beginners. Introductory information on editing, program structure, data types, input, output, calculating, looping and selection. Short programs will be written and tested on a computer. Students may not receive credit for both CPS 130 and CPS 110. EL

CPS 131 Introduction to Programming 1-2 cr
(FORTRAN)
The basics of programming in FORTRAN for beginners. Introductory information on editing, program structure, data types, input, output, calculating, looping, and selection. Short programs will be written and tested on a computer. EL

CPS 133 Introduction to Programming 1-2 cr
(Pascal)
The basics of programming in Pascal for beginners. Introductory information on editing, program structure, data types, input, output, calculating, looping and selection. Short programs will be written and tested on a computer. Students may not receive credit for both CPS 133 and CPS 113. EL

CPS 211 Algebraic Language Programming 3 cr
(FORTRAN)
Construction of algorithms. Design, analysis, documentation and implementation of structured computer programs using the procedural language FORTRAN. Emphasis on modular programming techniques. Prereq: Advanced high school mathematics or equivalent, or previous programming experience or cons. instr. MS

CPS 213 Algebraic Language Programming 3 cr
(Pascal)
Construction of algorithms. Design, analysis, documentation and implementation of structured computer programs using the procedural language Pascal. Emphasis on modular programming techniques. Prereq: Advanced high school mathematics or equivalent, or previous programming experience, or cons. instr. MS

CPS 216 Object Oriented Programming (C++) 3 cr
Object oriented analysis, design, and programming in C++. Prereq: Advanced high school mathematics or equivalent, or previous programming experience, or cons. instr. MS

CPS 231 Numerical Methods 2 cr
An introduction to numerical analysis designed for engineers, mathematicians, physicists and computer scientists. Topics include evaluation of functions, finding zeroes of functions, quadrature, numerical solution of linear algebraic equations and methods for ordinary differential equations. Prereq: MAT 222 and CPS 211, CPS 213 or CPS 216. MS

CPS 243 Problem Solving with Pascal 3 cr
This course is a continuation of CPS 213. Emphasis is on problem solving and algorithm development. Topics typically include multidimensional arrays, record structures, binary files, memory allocation, linked lists and recursion. Abstract data types and algorithm analysis are introduced. Sorting and searching techniques are also covered. Prereq: CPS 213 or cons. instr. MS

**Programming in Computer Language**

**CPS 252 COBOL as a Second Language**  
3 cr  
An introduction to structured COBOL for students with previous programming experience. Topics include file manipulation commands, nested IF constructs and PERFORM controlled paragraphs. Sequential and random access to sequential, indexed and relative files, and use of RECORD and ALTERNATE keys in random files access will be covered. Segmentation and report writer features of the language may also be covered. Prereq: 2 credits of programming in a language other than COBOL or cons. instr. MS

**CPS 253 Pascal as a Second Language**  
3 cr  
Fundamentals of algorithm design and program development using Pascal for students with previous programming experience. Topics typically include data types, procedures, control structures, arrays, and data structures such as records, linked lists, and binary files. Searching and sorting techniques will also be covered. Prereq: 2 credits of programming in a language other than Pascal or cons. instr. Students may not receive credit for both CPS 253 and any of CPS 133, CPS 213 or CPS 243. MS

**CPS 256 C as a Second Language**  
3 cr  
The study of the programming language C to include the designing, coding, debugging and documentation of significant programs. Topics typically include modular programming techniques, data types, functions, pointers, arrays, indirect, structure, storage classes, input/output, file manipulation, macros and preprocessors. Development and use of abstract data types and libraries. Prereq: 2 credits of programming in a language other than C or cons. instr. Students may not receive credit for both CPS 256 and CPS 216. MS

**CPS 260 Programming in Assembly Language**  
3 cr  
An introduction to microcomputer assembly language programming and architecture for students with previous exposure to a high level language. Topics typically include machine instruction sets, interrupts, boolean logic, binary coding of numeric and alphanumeric data, arrays and input/output. Optional topics may include file access, macros, graphics and mixed language programming. Prereq: 2 credits of programming in a high level language or cons. instr. MS

**CPS 270 Data Structures**  
3 cr  
An introduction to the data structures used for representing information involved in problem solving. Topics covered include stacks, queues, linked lists, trees, graphs, searching, sorting, hash tables and dynamic storage allocation. Prereq: CPS 211, CPS 213, CPS 216, CPS 243, CPS 253, or CPS 256. AP

**CPS 291 Special Topics**  
1-3 cr  
In-depth treatment of subjects introduced in other CPS courses. Choice of topics depends on student interest, staff and equipment availability. Typical topics include file handling, operating systems, social implications, simulation, management tools, specialized languages, current technology, numerical methods, artificial intelligence and digital logic. Prereq: cons. instr.*

**CPS 299 Independent Study in Computer Science**  
1-3 cr

---

**Economics**

**ECO 101 Introduction to Economics**  
3 cr  
A study of economic systems and their interdependence in the global economy, with emphasis on problems and policies. Among the subjects included are competitive and non-competitive markets, gross domestic product determination and policy, the U.S. financial system and global trade. SS

**ECO 203 Economics–Macro**  
3 cr  
The emphasis of the course is on macro analysis and covers areas such as national income, commercial banking, business fluctuations, monetary and fiscal policies and economic growth. Designed for students who desire a basic one-year course (with ECO 204) in economics. Prereq: MAT 105 and ENG 101 or cons. instr. recommended. SS

**ECO 204 Economics–Micro**  
3 cr  
Emphasizes the micro economic approach concerning households, firms and market structures with a focus on price determination and distribution of income. Foreign trade and international financial institutions are included. Prereq: MAT 105 and ENG 101 or cons. instr. recommended. SS

**ECO 230 Money and Banking**  
3 cr  
A study of the structure and operations of the commercial banking system and other financial institutions, central banking and monetary policy, monetary systems and their developments; theories of money, income and prices and their economic effect on the economy, impact of fiscal policy and international finance on monetary policy. Prereq: ECO 203 or cons. instr. SS

**ECO 243 Economics and Business Statistics**  
3 cr  
(Same as BUS 243) Elementary theory and techniques, probability and normal distribution, hypothesis testing, analysis and interpretation of economic and business data, index numbers, regression and time series analysis and Chi squares. Prereq: MAT 110 or MAT 210 or MAT 211 or concurrent registration in MAT 211. MS

**ECO 250 Government and Business**  
3 cr  

**ECO 297 Special Topics**  
1-3 cr  
Prereq: cons. instr.*

**ECO 299 Independent Studies**  
1-3 cr  
Prereq: cons. instr.*
Education

EDU 201 Concepts, Issues and Field Experience in Education 3 cr
Classroom discussion (two hours per week) of educational principles, concepts and issues related to student-teacher-school-community interactions, including development aspects, sociocultural influences and human relations. Off-campus experience involving active participation in the program at an educational institution (four hours per week of off-campus experience will usually be required, but number may vary with current DPT and 4-year campus requirements.) AP

EDU 300 The Exceptional Child 3 cr
The definition, classification and etiology of conditions creating special education needs. Topics include intellectually retarded, gifted, emotionally disturbed, and the speech, auditorily, visually, orthopedically and neurologically impaired. Prereq: PSY 201 or PSY 202 (grade of C- or better or cons. instr.); PSY 360 recommended. SS

EDU 330 Educational Psychology 3-4 cr
A study of the developmental process in children in the context of psychological principles of teaching and learning. Emphasis will be placed upon understanding the social, emotional, physical, and intellectual development of children and adolescents. Attention will be directed toward the nature and conditions of learning, including the major types of learning, critical aspects of learning and the problems encountered in fostering and directing learning. Prereq: PSY 201 or PSY 202 (grade of C- or better or cons. instr.). SS

Engineering/Graphics/Mechanics

EGR 100 Engineering Freshman Orientation 1 cr
Discussion of what is actually done by engineers in the various fields. Also covers professional ethics, responsibilities to society, environmental technology assessment and professional registration. May be taken by non-engineering majors. EL

EGR 106 Technical Communications 3 cr
This course will cover graphical, oral and written presentations. The course would be useful to any discipline requiring report writing or data analysis. AP

GRA 102 Elements of Descriptive Geometry 3 cr
Orthographic projection and its application to the analysis and solution of three-dimensional problems involving points, lines, planes and solids; axonometric projections for pictorial representation with engineering applications; computer-aided drafting. Prereq: Intermediate MAT or cons. instr. AP

GRA 113 Introduction to Design Methods and General Engineering Graphics 3 cr
Methodology of developing product and system solutions to design problems. Emphasis on techniques of problem identification, ideation, optimization, implementation and technical communication. Application of methodology to individual or group design project. Advanced principles of projection and graphical analysis, sectional views, dimensioning, assembly drawings, mechanisms, graphs and topography; computer-aided design/drafting, modeling methods. AP

MEC 201 Statics 3 cr
Principles of mechanics, force systems, equilibrium, structures, distributed forces, moments of inertia of areas, and friction. The course will serve the requirements of the several engineering curricula. Prereq: MAT 221. NS

MEC 202 Dynamics 3 cr
Kinematics, force-mass-acceleration relations, work and energy, impulse and momentum and moments of inertia of mass. This course will serve the requirements of the several engineering curricula. Prereq: MEC 201, MAT 222. NS

MEC 203 Strength of Materials 3-5 cr
Stress and strain, torsion, bending of beams, compound stresses, principal stresses, deflections of beams, statically indeterminate members, columns, elastic buckling, fatigue, creep, impact and concrete properties. Lab required if taken for 5 credits. Prereq: MEC 201. NS

English and Literature

(See also Non-degree Credit Courses, page 67.)

ENG 101 Composition I 3 cr
A writing course that focuses on the basic techniques of composition, on the composing process with attention to drafts and revisions, and on coherence and organization of student essays. Prereq: a grade of C or better in Basics of Composition or exemption through a sufficiently high placement test score.

ENG 102 Composition II 3 cr
A rhetoric course that focuses on writing which presents information and ideas effectively, with attention to the essay and techniques of documentation. Emphasis will be on academic writing which is applicable across the curriculum. Prereq: ENG 101 or exemption through sufficiently high placement test score.

ENG 201 Intermediate Composition 3 cr
A course devoted to the theory and practice of writing prose that presents information and ideas and is intended to inform and/or persuade. Emphasis will be placed on coherent organization, clear and forceful phrasing, logical thinking and other aspects of effective communication. Prereq: ENG 102, ENG 202 or cons. instr. AP

ENG 202 Writing about Literature 3 cr
Studying and writing about various types of literature. Helps students develop the ability to write critical, analytical and explicative papers about literature. Prereq: ENG 102, ENG 201 or cons. instr. AP

ENG 203 Creative Writing I 3 cr
Chiefly devoted to writing and studying one or more of the following: fiction, poetry and drama. Prereq: ENG 102, ENG 202 or cons. instr. AP

ENG 204 Creative Writing II 3 cr
A continuation of ENG 203. Prereq: ENG 203 or cons. instr. AP

ENG 206 Technical Writing 3 cr
The study and practice of the techniques of achieving brevity, clarity and fluency in technical prose with emphasis on generating reports, letters, proposals and other technical writing forms. Particularly appropriate for students in science, engineering, architecture and other applied sciences. Prereq: ENG 101, ENG 102 or cons. instr. AP
ENG 210 Business Communication 3 cr
(Same as BUS 210.) Study and practice of the techniques of achieving clarity, brevity and effectiveness in business communication. Planning, preparation, critiquing of business letters, memoranda, short and long reports, resumés, manuals of procedure and oral reports. Prereq: ENG 102 or cons. instr. AP

ENG 220 Introduction to the English Language 3 cr
A beginning course in the study of the English language, concerned with subjects such as the history and structure of the language, development of dictionaries, changing meanings of words and types of grammar. An elective open to freshmen but not as a substitute for ENG 101, ENG 102 or ENG 202. HU

ENG 250 Introduction to Literature 3 cr
Intensive analysis of all types of literature, including poetry, drama and fiction, using representative types, primarily from several periods of English and American literature. Not open to students with credit in ENG 251, ENG 253 or ENG 255. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 251 Introduction to Dramatic Literature 3 cr
Intensive analysis of dramatic literature, using representative types, primarily from several periods of English and American drama. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 253 Introduction to Narrative Literature 3 cr
Intensive analysis of fiction using representative types, primarily from several periods of English and American literature. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 255 Introduction to Poetry 3 cr
Intensive analysis of poetry using representative types, primarily from several periods of English and American literature. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 260 English Literature Before 1798 3 cr
A study of the development of British literature before 1798 through a survey of representative literary works. Not open to students with credit in ENG 270. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 261 English Literature After 1798 3 cr
A study of the development of British literature after 1798 through a survey of representative literary works. Not open to students with credit in ENG 270. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 262 American Literature Before 1865 3 cr
A study of the development of American literature before 1865 through a survey of representative literary works. Not open to students with credit in ENG 272. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 263 American Literature After 1865 3 cr
A study of the development of American literature after 1865 through a survey of representative literary works. Not open to students with credit in ENG 272. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 264 The Western Tradition in Literature Before 1700 3 cr
Selected masterpieces of the Western tradition in literature from ancient time to the end of the seventeenth century. Not open to students with credit in ENG 274. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 265 The Western Tradition in Literature After 1700 3 cr
Selected masterpieces of the Western tradition in literature from the end of the seventeenth century to the present. Not open to students with credit in ENG 274. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 266 Modern Literature (Before 1945) 3 cr
A study of the development of modern literature through the examination of significant and representative works written before 1945. Not open to students with credit in ENG 276. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 267 Contemporary Literature (After 1945) 3 cr
A study of the development of contemporary literature through the examination of significant and representative works written after approximately 1945. Not open to students with credit in ENG 276. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 268 International Literature Before 1750 3 cr
A study of representative authors from selected regions and eras, ranging from non-Western traditions such as the Indian, Arabic, West African, Chinese, Japanese and Native American to Western traditions such as the Greek, Teutonic, Russian and/or South American. Content and focus will vary according to instructor. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU/ES

ENG 269 International Literature After 1750 3 cr
A study of representative authors from selected regions and eras, ranging from non-Western traditions such as the Indian, Arabic, West African, Chinese, Japanese and Native American to Western traditions such as the Greek, Teutonic, Russian and/or South American. Content and focus will vary according to instructor. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU/ES

ENG 270 English Literature 3 cr
A study of the nature of British literature through the examination of representative literary works by major British authors. Not open to students with credit in ENG 260 or 261. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

ENG 272 American Literature 3 cr
A study of the nature of American literature through the examination of representative literary works by major American authors. Not open to students with credit in ENG 262 or 263. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Prerequisites and Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 273</td>
<td>Studies in International Literature</td>
<td>3 cr</td>
<td>A study of representative authors from selected regions and eras, ranging from non-Western traditions such as the Indian, Arabic, African, Native American, Chinese and Japanese to Western traditions such as the Scandinavian, Australian, Russian and South American. Content and focus will vary according to instructor. Not open to students with credit in ENG 268 or ENG 269. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU/ES</td>
</tr>
<tr>
<td>ENG 274</td>
<td>The Western Tradition in Literature</td>
<td>3 cr</td>
<td>A study of selected masterpieces of the Western tradition in literature. Not open to students with credit in ENG 264 or 265. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU/ES</td>
</tr>
<tr>
<td>ENG 275</td>
<td>Twentieth Century Novels of the World</td>
<td>3 cr</td>
<td>A study of the twentieth century novel in a number of countries (usually excluding American and European novels). The course will explore the cultures of those countries as they are reflected in the novels. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU/ES</td>
</tr>
<tr>
<td>ENG 276</td>
<td>Twentieth Century Literature</td>
<td>3 cr</td>
<td>A study of the nature of twentieth century literature through the examination of representative literary works by significant authors, primarily British and American, of the twentieth century. Not open to students with credit in ENG 266 or 267. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU/ES</td>
</tr>
<tr>
<td>ENG 277</td>
<td>Film Studies</td>
<td>3 cr</td>
<td>An exploration of some aspect, theory, problem or distinctive variety of film, particularly narrative film. Emphasis may be upon the history of a genre, a single artist or the distinctive character of the medium in comparison to drama or narrative fiction. Program must be approved by the UW Centers English Department chair. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU</td>
</tr>
<tr>
<td>ENG 278</td>
<td>Multicultural Literature in America</td>
<td>3 cr</td>
<td>A study of literature by—and expressing the perspective of—minorities in America. Program must be approved by the UW Centers English Department Chair. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU/ES</td>
</tr>
<tr>
<td>ENG 279</td>
<td>Women in Literature</td>
<td>3 cr</td>
<td>(Same as WOM 279.) A study of women characters and/or authors in their cultural contexts through an examination of representative literary works by significant authors. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU</td>
</tr>
<tr>
<td>ENG 280</td>
<td>Introduction to Shakespeare</td>
<td>3 cr</td>
<td>A study of representative plays and sonnets. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU</td>
</tr>
<tr>
<td>ENG 290</td>
<td>Special Topics</td>
<td>1-2 cr</td>
<td>Designed to cover topics which cannot be accommodated in usual course format or by other courses. Topics will be specified in campus timetable. Program must be approved by the UW Centers English Department chair. Prereq: cons. instr. *</td>
</tr>
<tr>
<td>ENG 299</td>
<td>Independent Study</td>
<td>1-3 cr</td>
<td>Program must be approved by the UW Centers English Department chair. Prereq: cons. instr. *</td>
</tr>
<tr>
<td>ENG 351</td>
<td>Studies in Dramatic Literature</td>
<td>3 cr</td>
<td>An exploration of some aspect of drama or the theory of drama, of the internal history of the genre or the distinctive character of the mode and its application in practical criticism to an appropriate body of primarily English and American literature. Program must be approved by the UW Centers English Department chair. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU</td>
</tr>
<tr>
<td>ENG 353</td>
<td>Studies in Narrative Literature</td>
<td>3 cr</td>
<td>An exploration of some aspect, problem or distinctive variety of narrative or the theory of narrative, in forms such as the novel, the short story, the epic, the romance and its application in practical criticism to an appropriate body of primarily English and American literature. Program must be approved by the UW Centers English Department chair. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU</td>
</tr>
<tr>
<td>ENG 355</td>
<td>Studies in Poetry</td>
<td>3 cr</td>
<td>An exploration of some aspect of poetic theory and practice, generally in terms of the shorter verse forms and its application in practical criticism to an appropriate body of primarily English and American literature. Program must be approved by the UW Centers English Department chair. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU</td>
</tr>
<tr>
<td>ENG 370</td>
<td>A Theme in English and/or American Literature</td>
<td>3 cr</td>
<td>This theme varies from time to time and may be, for example, philosophical, social, political or psychological. Program must be approved by the UW Centers English Department chair. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU</td>
</tr>
<tr>
<td>ENG 380</td>
<td>A Figure or Figures in English and/or American Literature</td>
<td>3 cr</td>
<td>The figure or figures may be one writer, such as Milton, or a group of writers, such as English Romantic poets of the nineteenth century, or African-American writers of twentieth century America. Program must be approved by the UW Centers English Department chair. Prereq: ENG 101 (or exemption based on test placement score) or ENG 102 or cons. instr. HU</td>
</tr>

**Forestry (see Biological Sciences)**
French

Not all courses are available on all campuses on a regular basis.

The first four semesters of French may be offered as two modules, Part I and Part II, carrying two credits each. Part I is a prerequisite for Part II. It is expected that students will complete both modules. If only Part I is completed, elective credit will be granted. The student should consult with the transfer institution regarding the acceptance of single module credit.

FRE 101 First Semester French 4 cr
For students who have had no previous training in the language. Emphasis on reading, writing, listening and speaking in French. Classes also may include cultural studies of France and other French-speaking countries. Field trip may be required. AP

FRE 102 First Semester-Part I 2 cr
For students who have had no previous training in the language. This course is the first module of a two-part introductory sequence. Emphasis on reading, writing, listening and speaking in French. Classes may include cultural studies of France and other French-speaking countries. Field trip may be required. No prereq. (This course in combination with FRE 104 is equivalent to FRE 101.) AP

FRE 104 First Semester-Part II 2 cr
Continuation of FRE 102 and second module of a two-part introductory sequence. Field trip may be required. Prereq: FRE 103 or cons. instr. (This course in combination with FRE 103 is equivalent to FRE 101.) AP

FRE 105 Second Semester French 4 cr
Continuation of FRE 101 or FRE 104. Field trip may be required. Prereq: FRE 101 or FRE 104 or cons. instr. AP

FRE 106 Second Semester-Part I 2 cr
Continuation of FRE 104 or FRE 105. This is the first module of a two-part second-semester sequence. Field trip may be required. Prereq: FRE 105 or FRE 104 or cons. instr. (This course in combination with FRE 105 is equivalent to FRE 106.) AP

FRE 107 Second Semester-Part II 2 cr
Continuation of FRE 106 and second module of a two-part second-semester sequence. Field trip may be required. Prereq: FRE 106 or cons. instr. (This course in combination with FRE 108 is equivalent to FRE 105.) AP

FRE 118 Practical Spoken French 1-2 cr
Emphasis on the spoken language in everyday contexts. Not part of the sequence of required foreign language courses. Prereq: cons. instr. AP

FRE 119 Practical Spoken French 1-2 cr
Continuation of FRE 118. Not part of the sequence of required foreign language courses. Prereq: FRE 118 or cons. instr. AP

FRE 201 Third Semester French 4 cr
Reviews grammar taught during first two semesters while adding new material with some stress on idiomatic usage. All four skills (reading, writing, listening and speaking) are practiced, and continued emphasis is placed on acquisition of cultural knowledge. Field trip may be required. Prereq: FRE 105 or FRE 107 or cons. instr. HU

FRE 203 Third Semester-Part I 2 cr
This course is the first module of a two-part third-semester sequence. Reviews grammar taught during the first two (or four) semesters while adding new material with some stress on idiomatic usage. All four skills (reading, writing, listening and speaking) are practiced, and continued emphasis is placed on acquisition of cultural knowledge. Field trip may be required. Prereq: FRE 105 or FRE 107 or cons. instr. (This course in combination with FRE 204 is equivalent to FRE 201.) HU

FRE 204 Third Semester-Part II 2 cr
Continuation of FRE 203 and second module of a two-part third-semester sequence. Field trip may be required. Prereq: FRE 203 or cons. instr. (This course in combination with FRE 203 is equivalent to FRE 201.) HU

FRE 205 Fourth Semester French 4 cr
Continuation of FRE 201 or FRE 204. Reading, writing, audio/oral practice, cultural insights based on literary texts in French. Field trip may be required. Prereq: FRE 201 or FRE 204 or cons. instr. HU

FRE 206 Fourth Semester-Part I 2 cr
Continuation of FRE 201 or FRE 205. This is the first module of a two-part fourth-semester sequence. Reading, writing, audio/oral practice, cultural insights based on literary texts in French. Field trip may be required. Prereq: FRE 201 or FRE 204 or cons. instr. (This course in combination with FRE 206 is equivalent to FRE 205.) HU

FRE 207 Fourth Semester-Part II 2 cr
Continuation of FRE 206 and second module of a two-part fourth-semester sequence. Field trip may be required. Prereq: FRE 206 or cons. instr. (This course in combination with FRE 206 is equivalent to FRE 205.) HU

FRE 215 Elementary Conversation and Composition 1-2 cr
May be taken concurrently with FRE 201 or by itself. Stresses practical application of theory learned in 4-credit courses. Written and audio/oral exercises based on cultural, everyday topics. Carries no retroactive credit. Prereq: FRE 105 or FRE 107 or cons. instr. AP

FRE 216 Elementary Conversation and Composition 1-2 cr
May be taken concurrently with FRE 205. Carries no retroactive credit. Prereq: FRE 215 or cons. instr. AP

FRE 219 French for Business 3 cr
Designed to acquaint the student with the vocabulary and practices of the business community. Oral and written practice in the preparation of letters and forms. Carries no retroactive credit for work completed in high school. Prereq: FRE 201 or FRE 204 or cons. instr. AP

FRE 221 Introduction to French Literature, Middle Ages to Eighteenth Century 3 cr
Masterpieces in fiction, drama, poetry and essay. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in French. Prereq: FRE 205 or FRE 207 or cons. instr. HU
FRE 222 Introduction to French Literature, 3 cr
Eighteenth and Nineteenth Centuries
Masterpieces in fiction, drama, poetry and essay. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in French. Prereq: FRE 205 or FRE 207 or cons. instr. HU

FRE 223 Introduction to French Literature, 3 cr
Twentieth Century
Masterpieces in fiction, drama, poetry and essay. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in French. Prereq: FRE 205 or FRE 207 or cons. instr. HU

FRE 225 Intermediate Conversation and Composition, 3 cr
Development of written and oral proficiency through systematic exposure to modern cultural developments as found in a variety of contemporary texts. Discussion and composition exercises deal with cultural topics introduced by original authors. Prereq: FRE 205 or FRE 207 or cons. instr. HU

FRE 226 Intermediate Conversation and Composition
Continuation of FRE 225. Prereq: FRE 225 or cons. instr. HU

FRE 276 Twentieth Century French Literature, 3 cr
in Translation
Concentration on 20th-Century fiction, drama and essays, including existentialism, the philosophy of the Absurd and their impact on contemporary attitudes. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in English. No knowledge of French necessary. No foreign language credit. HU

FRE 277 Special Topics in Literature, 2-3 cr
in Translation
Treats various topics of French literature to be specified by instructor in campus timetable. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in English. No knowledge of French necessary. No foreign language credit. HU

FRE 291 Selected Topics in French, 2-3 cr
Cultural, literary or linguistic themes as specified in campus timetable. Prereq: FRE 205 or FRE 207 or cons. instr. * (Associate degree designation will be determined by course content.)

FRE 299 Intermediate Independent Reading, 1-3 cr
Individual student(s) assigned readings, reports and papers on topics determined by instructor. One-on-one meetings to be arranged. Prereq: FRE 205 or FRE 207 and cons. instr. * (Associate degree designation will be determined by course content.)

GEO 101 Introduction to Cultural Geography, 3 cr
A survey of world patterns of culture, including population, language, religion, urban and rural settlement, and their causal relationships, emphasizing the global diversity of world cultures, contrasting world views and the issues thus raised. SS/ES

GEO 102 Roots and Diversity, 3 cr
A geography of American minority groups. An introduction to ethnic geography that examines selected minority groups in the United States and Canada, (including African-Americans, Hispanics, Native Americans, Chinese, etc.) using the major themes of cultural geography. SS/ES

GEO 104 Landscapes of North America, 3-4 cr
(Same as GLG 104.) A general survey of the characteristics and origins of major natural/physical regions of North America, with an emphasis on national parks and monuments and other public areas. NS (if 4 cr. also LS)

GEO 107 Introduction to Maps and Air Photos, 3-4 cr
(Same as GLG 107.) The use and interpretation of aerial photos and other forms of remote sensing and the basics of map reading, analysis and interpretation including a brief introduction to the principles of map design and construction. Emphasis on topographic and thematic maps and vertical air photos. NS (if 4 cr. also LS)

GEO 110 World Regional Geography, 3 cr
Introduction to cultural geography through the integrated study of representative and significant world regions. Examples will compare and contrast present and potential ethnic, social, political, and environmental problems across the regions of the world, and explore basic solutions. SS/ES

GEO 115 Economic Geography, 3 cr
Analysis of location of population and the distribution and character of the leading global economic activities: agriculture, fishing, forestry, mining, manufacturing, transportation and trade. Field trips. SS/ES

GEO 120 Survey of Physical Geography, 4-5 cr
Characteristics and world distribution of physical factors which in combination form the natural environment: elements of weather and climate, climatic types, earth materials, landforms and earth resources. Two or four hours of lab per week depending on the credit. Field trips. May not be taken for credit by students who have had GEO 123 or GEO 124. NS/LS

GEO 121 Atmospheric Environment of Humankind
The interaction of humans and their societies with the atmospheric environment. NS
**GEO 123 Physical Geography: Weather and Climate**
Study of Earth’s atmospheric elements in both the short term (weather events) and long term (climate change). Study includes: temperature; the seasons; pressure, wind and wind systems; humidity, cloud cover, stability and precipitation; jet streams, cyclones and fronts, thunderstorms, tornadoes and hurricanes. Study of the world’s different climate regions, soils and vegetation; climate change (Greenhouse Effect, Ice Ages); and human interaction with weather and climate. Lab work includes data, map and chart analysis. Field trip(s). NS/LS

**GEO 124 Physical Geography: Landforms**
Study of the evolution and distribution of Earth’s surface features (landforms) and physical landscapes, including the processes that have shaped them. Study covers plate tectonics, volcanoes, faults, rivers and river flow, glaciers, beaches, dunes, landslides, etc. Lab work includes the study of common rocks and minerals, and instruction in the use of topographic maps and aerial photographs to analyze the features and landscapes. Field trip(s). NS/LS

**GEO 125 Survey of Physical Geography**
Characteristics and world distribution of physical factors which in combination form the natural environment: elements of weather and climate, climatic types, earth materials, landforms and earth resources. May not be taken for credit by students who have had GEO 123 or GEO 124. NS

**GEO 130 Human Impact on the Environment**
A natural science course describing the alteration of the physical environment with the resulting effects on air, water, soils, vegetation, animal life and humans. Field trips. NS (if 4 cr. also LS)

**GEO 200 Historical Geography of the American Frontier**
An analysis of human adjustment to and alterations of the natural environment of the United States and adjacent parts of Canada at succeeding stages of time. Emphasis given to the westward movement of settlement and the impact of major cultural groups on the land, with special attention directed to the role of these groups in the formation of the present cultural landscape. SS/ES

**GEO 277 Geography of World Energy**
An analysis of traditional and innovative energy resources. SS

**GEO 291 Geographic Field Study**
For exceptional students in lieu of a regular course. Prereq: sophomore standing and cons. instr. AP *

**GEO 297 Special Topics in Geography**
The topics selected in this course will depend on student interest and special competencies of available staff. Prereq: cons. instr. *

**GEO 299 Independent Study**
Individual study under the supervision of an instructor. Prereq: cons. instr. *

**GEO 300 Population: World Survey**
Contrasts in numbers, densities and qualities of population with emphasis on regional implication. Prereq: one semester of college work. SS/ES

**GEO 324 Middle East and North Africa**
3 cr
Description and analysis of the physical and cultural landscapes of the Middle East and North Africa. Prereq: one semester of college work. SS/ES

**GEO 341 The United States and Canada**
3 cr
Description and analysis of the physical and cultural landscapes of the United States and Canada. Prereq: one semester of college work. SS/ES

**GEO 342 Geography of Wisconsin**
3 cr
The geography of Wisconsin’s natural and cultural landscapes with an emphasis on their sequential development and changing patterns of land use and settlement. Natural resources, population, land utilization and economic development of the state. Field trip. Prereq: one semester of college work. SS

**GEO 347 Middle America**
3 cr
Description and analysis of the physical and cultural landscapes of Mexico, Central America and the West Indies. Prereq: one semester of college work. SS/ES

**GEO 348 South America**
3 cr
Description and analysis of the physical and cultural landscapes of South America. Prereq: One semester of college work. SS/ES

**GEO 349 Northwestern Europe**
3 cr
Description and analysis of the physical and cultural landscapes of Northwestern Europe. Includes the British Isles, Scandinavian countries, Low countries, France, Germany, Switzerland and Austria. Prereq: one semester of college work. SS/ES

**GEO 350 Environmental Conservation**
3 cr
Study of the human use, conservation, and management of the Earth’s resources; ecosystems; human interactions with the environment; human population growth; impact of technology on the environment; and practical solutions to environmental problems. Field trip. Prereq: one semester of college work. GEO 350 meets DPI requirements for environmental education at some UW baccalaureate institutions. SS

---

**Geology**

**GLG 100 Survey of Geology**
3 cr
A brief study of minerals, rocks, fossils, geologic maps and the processes which create and modify the surface and subsurface features of the earth. Field trips. Not open to those who have had GLG 101, GLG 102. NS

**GLG 101 Physical Geology**
4-5 cr
Study of the physical nature of planet Earth. The processes in operation above, on and beneath the surface that continue to shape its physical evolution (e.g. plate tectonics, vulcanism, faulting and earthquakes, glaciation, rivers); the origin and nature of common minerals and rocks and their distribution in the world; landscapes and their origins (e.g. mountain ranges, glacial forms, river valleys, etc.). Lab work includes the study of rocks and minerals and the interpretation of geological and topographic maps and aerial photographs. Field trip(s). NS/LS
GLG 102 Historical Geology 4-5 cr
Study of the history of the Earth, beginning with its place in the solar system. An introduction to common rocks and minerals, to geological principles and reasoning, and to concepts of geologic time. Study of how the physical geography of Earth has changed through time and how the changes in the rock record tell of seas, mountain ranges, deserts, and ice ages through geologic time. Study of the fossil record and how life on Earth has changed to cope with the varying physical environments of Earth. Labs include work with diagrams, air photos, geologic maps, and fossils. Field trip(s). NS/LS

GLG 104 Landscapes of North America 3-4 cr
(Same as GEO 104.) A general survey of the characteristics and origins of major natural/physical regions of North America, with an emphasis on national parks and monuments and other public areas. NS (if 4 cr. also LS)

GLG 107 Introduction to Maps and Air Photos
(Same as GEO 107.) The use and interpretation of aerial photos and other forms of remote sensing, and the basics of map reading, analysis and interpretation including a brief introduction to the principles of map design and construction. Emphasis on topographic and thematic maps and vertical air photos. NS (if 4 cr. also LS)

GLG 130 Geologic Methods I 3 cr
The techniques used in investigating, identifying and classifying earth materials. Lab work with demonstrations. Field trips. NS/LS

GLG 131 Geologic Methods II 3 cr
Introduction to photogrammetry, use and interpretation of aerial photographs. Topographic and geologic maps, including application to historical geology. Lab and field trips. NS/LS

GLG 135 Environmental Geology 3 cr
Applications of the science of geology to problems resulting from our intense use of the earth and its resources. Field trip required. NS

GLG 169 Earth Science and Human Environment 4 cr
The physical environment and our interaction with it. Emphasis on earth processes which affect humans, such as rivers, erosion, groundwater, landslides and earthquakes. The impact of humans upon the environment. Air, water and soil pollution studied from a physical-chemical standpoint. The depletion of energy and mineral resources and the need for humans to design with nature. Lecture, lab and field trips. NS/LS

GLG 291 Geological Field Studies 1-6 cr
Formal classroom study of an area of geologic interest followed by field study of the area. May be taken for credit more than once. Prereq: cons. instr. AP *

GLG 297 Special Topics in Geology 1-3 cr
The topic selected will depend on student interest and special competencies of available staff. Prereq: cons. instr. *

GLG 299 Independent Reading 1-3 cr
For exceptional students in lieu of a regular course. May involve seminar presentation. May be taken more than once. Prereq: sophomore standing and cons. instr. *

GLG 301 Principles of Mineralogy 4 cr
Minerals—their physical and chemical properties, crystallography, geologic significance and uses. Prereq: GLG 101 or GLG 102 and high school or college chemistry course. NS/LS

GLG 302 Elementary Petrology 4 cr
Study of igneous, sedimentary and metamorphic rocks, including classification, genesis, field identification and petrographic microscope study. Field trips. Prereq: GLG 301. NS/LS

GLG 306 Gems and Precious Stones 2 cr
The mineralogy and properties of gem minerals, as well as semi-precious and non-precious lapidary materials. Geologic origins, location and composition of specific minerals, why they are valuable, and the several methods of bringing rough materials to a finished state. NS

GLG 309 Geomorphology 3 cr
Principles and analysis of geomorphic processes and resulting landforms. Field trip. Prereq: One of the following—GLG 100, GLG 101, GLG 135, GLG 169, GEO 120 or GEO 124. NS

GLG 314 Geologic Field Methods 3 cr
Theory and techniques of geologic mapping and field work. Theory and use of air photographs, aerial mosaics, altimeter, hand level, Brunton, Jacob staff, section measuring, alidade and transit. Lecture, lab and field trip. Prereq: GLG 102. NS/LS

GLG 343 Glacial and Pleistocene Geology 3 cr
Principles, characteristics and work of glaciers; events of the Pleistocene Period. Field trips. Prereq: One of the following—GLG 100, GLG 101, GLG 135, GLG 169, GEO 120 or GEO 124. NS

GLG 350 Minerals and Public Policy 3 cr
Distribution of mineral resources, present and future problems of mineral supply, conservation of minerals and mineral resources in relation to national and international policy. Prereq: sophomore standing or cons. instr. NS

Not all courses are available on all campuses on a regular basis.

The first four semesters of German may be offered as two modules, Part I and Part II, carrying two credits each. Part I is a prerequisite for Part II. It is expected that students will complete both modules. If only Part I is completed, elective credit will be granted. The student should consult with the transfer institution regarding the acceptance of single module credit.

GER 101 First Semester German 4 cr
For students who have had no previous training in the language. Emphasis on reading, writing, listening and speaking in German. Classes also may include cultural studies of Germany and other German-speaking countries. Field trip may be required. AP
GER 103 First Semester-Part I  2 cr
For students who have had no previous training in the language. This course is the first module of a two-part introductory sequence. Emphasis on reading, writing, listening and speaking in German. Classes may include cultural studies of Germany and other German-speaking countries. Field trip may be required. No prerequisite. (This course in combination with GER 104 is equivalent to GER 101.) AP

GER 104 First Semester-Part II  2 cr
Continuation of GER 103 and second module of a two-part introductory sequence. Field trip may be required. Prereq: GER 103 or cons. instr. (This course in combination with GER 103 is equivalent to GER 101.) AP

GER 105 Second Semester German  4 cr
Continuation of GER 101 or GER 104. Field trip may be required. Prereq: GER 101 or GER 104 or cons. instr. AP

GER 106 Second Semester-Part I  2 cr
Continuation of GER 101 or GER 104. This is the first module of a two-part second-semester sequence. Field trip may be required. Prereq: GER 101 or GER 104 or cons. instr. (This course in combination with GER 107 is equivalent to GER 105.) AP

GER 107 Second Semester-Part II  2 cr
Continuation of GER 106 and second module of a two-part second-semester sequence. Field trip may be required. Prereq: GER 106 or cons. instr. (This course in combination with GER 106 is equivalent to GER 105.) AP

GER 118 Practical Spoken German  1-2 cr
Emphasis on the spoken language in everyday contexts. Not part of the sequence of required foreign language courses. Prereq: cons. instr. AP

GER 119 Practical Spoken German  1-2 cr
Continuation of GER 118. Not part of the sequence of required foreign language courses. Prereq: GER 118 or cons. instr. AP

GER 201 Third Semester German  4 cr
Reviews grammar taught during first two semesters while adding new material with some stress on idiomatic usage. All four skills (reading, writing, listening and speaking) are practiced and continued emphasis is placed on acquisition of cultural knowledge. Field trip may be required. Prereq: GER 105 or GER 107 or cons. instr. HU

GER 203 Third Semester-Part I  2 cr
This course is the first module of a two-part third-semester sequence. Reviews grammar taught during the first two (or four) semesters while adding new material with some stress on idiomatic usage. All four skills (reading, writing, listening and speaking) are practiced and continued emphasis is placed on acquisition of cultural knowledge. Field trip may be required. Prereq: GER 105 or GER 107 or cons. instr. (This course in combination with GER 204 is equivalent to GER 201.) HU

GER 204 Third Semester-Part II  2 cr
Continuation of GER 203 and second module of a two-part third-semester sequence. Field trip may be required. Prereq: GER 203 or cons. instr. (This course in combination with GER 203 is equivalent to GER 201.) HU

GER 205 Fourth Semester German  4 cr
Continuation of GER 201 or GER 204. Reading, writing, audio/oral practice, cultural insights based on literary texts in German. Field trip may be required. Prereq: GER 201 or GER 204 or cons. instr. HU

GER 206 Fourth Semester-Part I  2 cr
Continuation of GER 201 or GER 204. This is the first module of a two-part fourth-semester sequence. Reading, writing, audio/oral practice, cultural insights based on literary texts in German. Field trip may be required. Prereq: GER 201 or GER 204 or cons. instr. (This course in combination with GER 207 is equivalent to GER 205.) HU

GER 207 Fourth Semester-Part II  2 cr
Continuation of GER 206 and second module of a two-part fourth-semester sequence. Field trip may be required. Prereq: GER 206 or cons. instr. (This course in combination with GER 206 is equivalent to GER 205.) HU

GER 215 Elementary Conversation and Composition  1-2 cr
May be taken concurrently with GER 201 or by itself. Stresses practical application of theory learned in 4-credit courses. Written and audio/oral exercises based on cultural, everyday topics. Carries no retroactive credit. Prereq: GER 105 or GER 107 or cons. instr. AP

GER 216 Elementary Conversation and Composition  1-2 cr
May be taken concurrently with GER 205. Carries no retroactive credit. Prereq: GER 215 or cons. instr. AP

GER 221 Introduction to German Literature, Middle Ages to Eighteenth Century  3 cr
Masterpieces in fiction, drama, poetry and essay. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in German. Prereq: GER 205 or GER 207 or cons. instr. HU

GER 222 Introduction to German Literature, Eighteenth and Nineteenth Centuries  3 cr
Masterpieces in fiction, drama, poetry and essay. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in German. Prereq: GER 205 or GER 207 or cons. instr. HU

GER 223 Introduction to German Literature, Twentieth Century  3 cr
Masterpieces in fiction, drama, poetry and essay. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in German. Prereq: GER 205 or GER 207 or cons. instr. HU

GER 225 Intermediate Conversation and Composition  3 cr
Development of written and oral proficiency through systematic exposure to modern cultural developments as found in a variety of contemporary texts. Discussion and composition exercises deal with cultural topics introduced by original authors. Prereq: GER 205 or GER 207 or cons. instr. HU

GER 226 Intermediate Conversation and Composition  3 cr
Continuation of GER 225. Prereq: GER 225 or cons. instr. HU
GER 276 Twentieth-Century German Literature in Translation
Concentration on 20th-Century fiction, drama and essays. Starts with confrontation between Friedrich Nietzsche and the Naturalists, and includes major German authors such as Thomas Mann, Franz Kafka, Herman Hesse and Heinrich Boll. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in English. No knowledge of German necessary. No foreign language credit. HU

GER 277 Special Topics in Literature in Translation
Treats various topics of German literature to be specified by instructor in campus timetable. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in English. No knowledge of German necessary. No foreign language credit. HU

GER 291 Selected Topics in German
Cultural, literary or linguistic themes as specified in campus timetable. Prereq: GER 205 or GER 207 or cons. instr. * (Associate degree designation will be determined by course content.)

GER 299 Intermediate Independent Reading
Individual student(s) assigned readings, reports and papers on topic determined by instructor. One-on-one meetings to be arranged. Prereq: GER 205 or GER 207 and cons. instr. * (Associate degree designation will be determined by course content.)

History

HIS 101 United States History to the Civil War
American political, economic and social development from the age of exploration and founding of the colonies to the Civil War. SS

HIS 102 History of the United States Since the Civil War
American political, economic and social development from the Civil War to the present. SS

HIS 105 History of Western Civilization
Survey of Western Civilization from ancient times through the Renaissance, emphasizing the distinctive features of Western culture, political development, economic development and the contributions made by non-Western people. HU

HIS 106 History of Western Civilization
Survey of Western Civilization from the Renaissance to contemporary times, emphasizing the further development of Western culture, political institutions and economic institutions, including reference to the interaction among the peoples of the modern world. HU

HIS 111 Ancient History
Survey of the history of civilization from the beginnings in Mesopotamia and Egypt through Classical Greece with emphasis on institutional and social development. HU

HIS 112 Ancient History
Survey of the history of civilization from Alexander the Great through the fall of the Roman Empire with emphasis on institutional and social development. HU

HIS 114 Modern Revolutions
An introduction to the study of history through the examination of revolutionary eras. Topics will include the American, French and Russian revolutions. SS

HIS 115 Medieval Europe
General introduction to the history of Europe, from the later Roman Empire to the end of the Middle Ages. HU

HIS 118 The United States and Vietnam
An investigation of the war in Southeast Asia, 1945-1975, focusing on these topics: French colonialism, Vietnamese nationalism, American entry, the escalation of the American role, the debate on American policy, American withdrawal, conclusion of the fighting and long-term effects. SS/ES

HIS 119 The Making of Modern Europe
An introduction to the principal developments in the history of Europe from the Renaissance to the fall of Napoleon. HU

HIS 120 Europe and the Modern World, 1815 to the Present
A general survey of the political, economic, social and cultural history of modern Western civilization. HU

HIS 123 English History: England to 1688
General survey of the political, economic, social and cultural history of England from earliest historic times. SS

HIS 124 British History: 1688 to the Present
General survey of the political, economic, social and cultural history of Great Britain. SS

HIS 126 Twentieth Century Europe
Study of the major political, social and cultural developments of Europe since 1900. SS

HIS 127 The World in the Twentieth Century
Survey of the major trends in Europe, Asia, Africa and the Americas since 1900; the two world wars; the social and political revolutions of our time; Fascism and Communism; and the new states of Africa and Asia. SS/ES

HIS 150 History of the Family
The pre-industrial family; the effect of industrialism, child rearing, courtship, adolescence, domestic life, old age, death and dying. Emphasis on American and/or European experience. SS

HIS 161 World History to 1500
A topical approach to the history of premodern humankind. Special attention will be given to the emergence, development and interaction of civilizations in Asia, Africa, Europe and the Americas. HU/ES

HIS 162 World History since 1500
A topical history of global humankind with emphasis on the rise of the West to world dominance and the various ways in which the peoples of Africa, Asia and Latin America have responded to the Western challenge. HU/ES
HIS 198 The Film as Social History 3 cr
This course will focus on the feature and documentary films produced in a particular historical period or on a specific historical topic. Through viewing selected films, the student will gain a deeper understanding of the motion picture's significance as an historical document, as well as its function as a propaganda device. The course will relate the thematic content of the selected films to the specific historical context in which they were produced and consumed. SS

HIS 211 History of the American Frontier 3 cr
American expansion focusing on the Turner hypothesis, land policy, territorial evolution, Indian policy, mining, lumbering and fishing frontiers, the cattleman's West, transportation and the literary uses of the West. SS/ES

HIS 213 Recent Latin America 3 cr
Recent development of Hispanic and Portuguese America, emphasizing the evolution of independent states. SS/ES

HIS 216 History of Modern Germany, 1815-Present 3 cr
Political, social, economic and cultural development from the end of the Napoleonic wars, through the founding of the German Empire, World War I, the Weimar Republic, the Nazi era, World War II and the postwar period. Emphasis is on evolution of conservatism, liberalism, socialism and nationalism; the rise of Hitler and National Socialism; and the re-orientation of Germany after 1945. SS

HIS 219 History of the Soviet Union 3 cr
A consideration of the major themes and personalities of Russian history since 1917. SS

HIS 222 Recent Chinese History 3 cr
Western impact, social change and revolutions in twentieth century China, pre-1949. SS

HIS 240 Primary Sources in History 3 cr
The study of specific historical topics through the use of primary sources. Includes exposure to techniques and problems of using and interpreting original sources. SS

HIS 254 American Foreign Relations, 1763 to the Present 3 cr
America's relations with the world, emphasizing the economic, political and ideological elements determining policy. SS

HIS 255 Proseminar in History 3 cr
This course will explore an historical topic through readings, discussion and written assignments. *

HIS 256 Topics in History 1-3 cr
This course will explore in depth an historical topic through lectures, discussions, readings and written assignments. *

HIS 257 Origins and History of World War II 3 cr
Background and history of World War I. Problems of peacemaking and international organization, rise of Fascism, National Socialism and Japanese imperialism; breaking the peace; World War II. SS

HIS 259 History of Europe Since 1945 3 cr
Political, social, economic and moral effects of the Nazi era, the Resistance and the Liberation; restoration and reconstruction; influence of the United States and the Soviet Union; capitalism, socialism and communism; the European unity movement and the Cold War; social and cultural changes; relations with Africa and Asia. SS

HIS 270 American Business History 3 cr
The role of business in American society from colonial times to the present. Changes in managerial practices within the firm and in relation to the larger community. Origins of American capitalism, appearance of corporate organization, work patterns, changing business ethics and their legal environment, government regulation and international trade. SS

HIS 273 Recent East Asian Economic Development 3 cr
A survey of East Asian economic development in the Twentieth Century. Emphasis will be on contrasting the economic development of China and Japan and analyzing the economic impact of Western Europe and the United States on the region. SS

HIS 274 Survey of Modern East Asian History 3 cr
A survey of the modern intellectual, political, social and economic development of East Asia. Emphasis will be on the impact of modernization process on China and Japan and the influence of Western Europe and the United States on these changes. SS/ES

HIS 278 History of Minorities in America 3 cr
This course will explore the role of ethnic, racial, religious and sexual groups in the history of the United States from the era of colonization to the present. Includes political, economic, social and cultural development. SS/ES

HIS 280 History of the Great Lakes Region, 1600-1870 3 cr
This course traces the development of the Great Lakes Region as a distinct physiographic, economic, political and cultural area in North America. The historical development of such an international region within the context of traditional nationalism and international rivalry, as well as its impact and influence within the respective nations. A frame of reference is provided for comparison with other regions within the North American milieu. SS/ES

HIS 283 Modern War and American Life 3 cr
An investigation of the impact of the Civil War, World Wars I and II, and the Cold War on American society. The home front will be emphasized, with attention to wartime politics and the wartime economy, civil liberties, and the social effect of war. SS

HIS 285 Recent American History, 1917-1945 3 cr
Political, social, economic and cultural changes in America during World War I, the Twenties, the Great Depression and World War II. SS

HIS 286 Recent American History, 1945-Present 3 cr
A continuation of History 285 (1917-45). Origins and history of the Cold War, McCarthyism, the Fifties, the Civil Rights movement, the war in Indochina, and Watergate and its aftermath. SS
HIS 288 Representative Americans 3 cr
A biographical approach; evaluation of contributions of leading Americans to the nation's development. SS

HIS 289 Colonial and Revolutionary America, 3 cr
1607-1789
The establishment and political, social and economic development of the English colonies in North America; origins and consequences of the American Revolution; and the establishment of the new nation. SS

HIS 290 History of Wisconsin 3 cr
History of Wisconsin from the beginning of the historical period to the present, with emphasis on the economic and social aspects of Wisconsin history since 1815. SS

HIS 293 Civil War and Reconstruction 3 cr
Analysis of slavery in the Old South, the anti-slavery movement, the conflict between the North and South (sectionalism), the significance of the Civil War, presidential and congressional reconstruction, the position of the freedmen in the South and postwar America. SS

HIS 297 The United States, 1917 to the Present 3 cr
Political, social, economic and cultural changes in America during World War I, the Twenties, the Age of the Great Depression, World War II, postwar America and the ripening Civil Rights movement. SS

HIS 299 Independent Studies 1-3 cr
Extensive reading for the purpose of surveying the literature on a particular historical subject, possibly including a research project, under the personal supervision of the instructor. The subject matter is open, to be determined by the student and instructor. Students will be encouraged to use off-campus resources when available. Prereq: cons. instr. *

Interdisciplinary Studies
(see campus timetable for course listings)

LEC 100 Freshman Seminar 1-3 cr
Course for entering freshmen. Consult campus timetable for description. Must be approved by UWC Curriculum Committee. *

LEC 101 University Forum 1 cr
A lecture-discussion course designed to introduce students to current problems and significant issues. Open to freshmen and sophomores. May be taken twice for a maximum of two credits. *

LEC 102 Library Methods 1-2 cr
A course designed to assist students in the identification and use of library resources, to illustrate the organization of libraries within the academic setting, and to acquaint the student in the use of books and libraries as sources of information in contemporary society. EL

LEC 105 Greek and Latin Origins of Medical and Scientific Terminology 2-3 cr
The course is designed to acquaint students pursuing science and other majors with the origins of technical terms they are likely to encounter. EL

LEC 290 Special Topics in Integrated Studies 1-3 cr
Interdisciplinary courses involving major components and faculty from more than one breadth area. Must have a departmental sponsor, approval of UWC Curriculum Committee and endorsement of all departments involved. *

Mathematics

University of Wisconsin system admission requirements include (3) units of college preparatory mathematics. This includes algebra, geometry, and other courses which have these as a prerequisite. Students who do not have a working knowledge of this background material are advised to make up the deficiency by taking courses such as MAT 081, MAT 091 (see pages 67-68) and MAT 105 before attending other university mathematics courses.

For all courses which have a prerequisite, a grade of C- or better is required in the prerequisite course. Students may be administratively withdrawn from a course if the stated prerequisites are not satisfied. In addition to the stated prerequisites, campuses provide placement exams and recommend a satisfactory score for certain courses.

In math, credits earned in course x taken after passing course y, for which x is a prerequisite, shall not count toward the associate degree requirements.

(See also Non-degree Credit Courses, pages 67-68.)

MAT 105 Introduction to College Algebra 3-4 cr
Emphasizes algebraic techniques with polynomials, fractional expressions, exponents and radicals, linear and quadratic equations, and inequalities. Introduction to functions, their graphs and analytic geometry. Prereq: A grade of C or better in Elementary Algebra and a high school geometry course or one year of high school algebra and one year of high school geometry, or one year of high school algebra and concurrent registration in a geometry course, or equivalent. EL

MAT 108 Quantitative Reasoning 3 cr
This course is intended to develop analytic reasoning and the ability to solve quantitative problems. Topics to be covered include construction and interpretation of graphs, functional relationships, descriptive statistics, geometry and spatial visualization, math of finance, exponential growth, and basic probability. Appropriate use of units and dimensions, estimates, mathematical notation and available technology will be emphasized throughout the course. Prereq: a course in plane geometry and one of the following: (a) two years of high school algebra, (b) a grade of C- or better in MAT 105, (c) course(s) equivalent to (a) or (b). MS

MAT 110 College Algebra 3 cr
Definition of function; linear and non-linear functions and graphs including logarithmic and exponential functions; systems of linear equations; theory of polynomial equations and optional topics such as mathematical induction, matrix solution of linear systems and Cramer's rule. Prereq: a course in plane geometry and one of the following: (a) a grade of C- or better in MAT 105, (b) two years of high school algebra, (c) course(s) equivalent to (a) or (b). MS
MAT 113 Trigonometry  2 cr
Trigonometric functions, their basic properties and graphs, identities, inverse trigonometric functions, solving trigonometric equations, solutions of triangles. Prereq: a course in plane geometry and one of the following: (a) a grade of C- or better in MAT 110 or equivalent; (b) concurrent registration in MAT 110. MS

MAT 117 Elementary Statistics  3 cr
The primary aim of the course is a basic understanding and use of statistical concepts and methods to facilitate study and research in other disciplines. Includes measures of central tendency, measures of variability, grouped data, the normal distribution, central limit theorem, hypothesis testing, estimation, T-distribution and chi square test. Prereq: a grade of C- or better in MAT 105 or MAT 108 or equivalent. MS

MAT 124 Pre-Calculus Mathematics  5 cr
Functions and graphs, including linear, polynomial, logarithmic and exponential functions: complex numbers and theory of equations; binomial theorem; mathematical induction; trigonometric functions, their basic properties and graphs; identities; inverse trigonometric functions; solving trigonometric equations; de Moivre's theorem. Prereq: a grade of C- or better in MAT 105 or equivalent. Students may not earn more than five credits of any combination of MAT 110, MAT 113 and MAT 124. MS

MAT 130 Mathematics for Elementary Teachers  4 cr
A mathematics content course for prospective elementary teachers. Emphasis is on development of properties of arithmetic. Topics also may include elementary concepts of algebra, probability and statistics. Four hours lecture or three hours lecture and two hours laboratory per week. Prereq: a grade of C- or better in MAT 105 or MAT 108, or two years of high school algebra and one year of high school geometry, or cons. instr. MS

MAT 132 Geometry for Elementary Teachers  4 cr
The course emphasizes geometric concepts. Topics also may include concepts of algebra, probability and statistics. Four hours lecture or three hours lecture and two hours laboratory per week. Prereq: a grade of C- or better in MAT 105 or MAT 108, or two years of high school algebra and one year of high school geometry, or cons. instr. MS

MAT 140 Survey of Mathematics  3 cr
A course emphasizing the nature of mathematics, an appreciation of mathematical concepts and reasoning, and the development of mathematical systems. It is not intended as preparation for other mathematics courses. MS

MAT 210 Topics in Finite Mathematics  3-4 cr
Matrices, linear programming and applications, probability, Markov chains and mathematics of finance. Prereq: a grade of C- or better in MAT 110 or MAT 124 or equivalent. MS

MAT 211 Calculus  4-5 cr
Primarily for students in business, the social sciences and biological sciences who wish to acquire some knowledge of the techniques and applications of calculus. Topics include concepts, techniques, and applications of differential and integral calculus including multivariate calculus. Students who are preparing to major in mathematics, engineering or physical sciences should enroll in the MAT 221, MAT 222 and MAT 223 sequence. Prereq: a grade of C- or better in MAT 110 or MAT 124 or equivalent. Students may not earn more than six credits by taking both MAT 211 and MAT 221. MS

MAT 221 Calculus and Analytic Geometry I  5 cr
Analytic geometry, functions, limits and continuity, the derivative, integrals, techniques and applications of differentiation, applications of integration, logarithmic and exponential functions and trigonometric functions. Prereq: a grade of C- or better in MAT 124 or MAT 110 and MAT 113 or equivalent. Students may not earn more than six credits by taking both MAT 211 and MAT 221. MS

MAT 222 Calculus and Analytic Geometry II  5 cr
Continuation of 221. Techniques of integration, polar coordinates, conic sections, infinite series and vectors of two and three dimensions. Note: the order of topics covered in MAT 221 and MAT 222 may depend on the text used and the instructor. Prereq: a grade of C- or better in MAT 221. MS

MAT 223 Calculus and Analytic Geometry III  4-5 cr
Continuation of MAT 222. Analytic geometry of three dimensions, functions of several variables, partial differentiation, multiple integration and introduction to differential equations. Prereq: a grade of C- or better in MAT 222. MS

MAT 224 Linear Mathematics  4 cr
Introduction to linear algebra, vector spaces, matrices, linear transformations and eigenvalues. Ordinary differential equations and linear systems of differential equations. Laplace transforms. Prereq: a grade of C- or better in MAT 223 or equivalent. MS

MAT 230 Discrete Mathematics  3 cr
An introduction to discrete mathematics with emphasis on topics applicable to computer science. Topics include symbolic logic, sets and relations, induction and recursion, counting techniques, algorithm analysis, graphs and digraphs, and Boolean algebra. Prereq: a grade of C- or better in MAT 113, MAT 124, MAT 221, or cons. instr. MS

MAT 240 Statistical Analysis  3 cr
Elements of probability theory; collection and presentation of sample data; basic problems of statistical inference; applications, including quality control; regression; and hypothesis testing. Prereq: a grade of C- or better in MAT 211, MAT 221 or equivalent. MS

MAT 262 Linear Algebra  3 cr
Matrix algebra, linear systems of equations, vector spaces, subspaces, linear dependence, rank of matrices, determinants, linear transformations, eigenvalues and eigenvectors, diagonalization, inner products and orthogonal vectors, and symmetric matrices. Prereq: a grade of C- or better in MAT 222. MS
MAT 271 Ordinary Differential Equations 3 cr
Review of ordinary differential equations of the first and second order, series solutions, higher order linear equations, the Wronskian, Laplace transform and applications, numerical methods, boundary value problems and Sturm-Liouville theory. Prereq: a grade of C- or better in MAT 223. MS

MAT 272 Intro to Fourier Analysis 1 cr
This course will acquaint engineering students with Fourier methods in solving differential equations. Emphasis is on input-output techniques and may involve further applications of Laplace transforms and other topics. Prereq: a grade of C- or better in MAT 223 and either MAT 271 or MAT 224 or MAT 223 and concurrent registration in MAT 271 or MAT 224. MS

MAT 290 Special Topics in Mathematics 1-3 cr
A course focusing on a selected topic or set of topics selected by the instructor to meet special needs and interests of students. Prereq: a grade of C- or better in MAT 124 or MAT 211 or equivalent and cons. instr.

MAT 299 Independent Reading 1-3 cr
in Mathematics
Prereq: Sophomore standing and cons. instr. *

Meteorology

MLG 100 Introduction to Meteorology 2-4 cr
Introductory course in meteorology. Nature and causes of wind, clouds and precipitation; storm systems and fronts; thunderstorms, tornadoes and hurricanes; weather maps and forecasting. NS (2-3 cr.)/ (if 4 cr. also LS)

Music

MUS 070 Orchestra 0-2 cr
Open to all students by tryout. AP

MUS 071 Band 0-2 cr
Open to all students with previous experience. AP

MUS 072 Chorus 0-2 cr
Open to all students. AP

MUS 074 Jazz Ensemble 0-2 cr
Cons. instr. AP

MUS 075 Small Vocal Ensemble 0-2 cr
Cons. instr. AP

MUS 076 Instrumental Chamber Ensemble 0-2 cr
Cons. instr. AP

MUS 107 Vocal Techniques 2 cr
Theory and practice in fundamentals of singing. AP

MUS 115 Woodwind Techniques AP 2 cr

MUS 130 Brass Techniques AP 2 cr

MUS 145 Percussion Techniques AP 2 cr

MUS 147 String Techniques AP 2 cr

MUS 170 Fundamentals of Music 3 cr
This course is designed to acquaint the student with the fundamentals of music through experiences with the keyboard, rhythm instruments, singing, listening, note reading and so forth. Required for some elementary education majors and open to the general student. Acceptable as preparation for a music major or minor. AP

MUS 171 Music Theory I 5 cr
A detailed study of the development of Western Music through the study and analysis of structural techniques and basic compositional skills used in functional harmony. Includes sight-singing, ear-training and keyboard experiences. Open to all students with consent of instructor. Required of students planning a music major or minor. FA

MUS 172 Music Theory II 5 cr
Continuation of MUS 171. Prereq: Music 171, FA

MUS 173 Music Literature and Appreciation 3 cr
A guide to the understanding of music through listening experiences in the various styles and historical periods. FA

MUS 174 Music Literature and Appreciation 3 cr
A guide to the understanding of music through listening experiences in the various musical styles and historical periods. Although a continuation of MUS 173, MUS 173 is not a prerequisite for admission to this course. FA

MUS 271 Music Theory III 5 cr
A continuation of MUS 172 with an introduction to non-functional harmony and counterpoint. A continuation of sight-singing, ear-training and keyboard work. Required of students planning a music major or minor. Prereq: MUS 172. FA

MUS 272 Music Theory IV 5 cr
A continuation of MUS 271. Prereq: MUS 271. FA

MUS 273 Jazz History and Appreciation 2-3 cr
An introduction to the styles and form of jazz through a study of its history, literature, cultural influences and musical structure. Includes recorded listening experiences. FA/ES

MUS 275 History of Western Music 3 cr
A survey of the historical development of musical style and theoretical concepts from ancient Greece to 1750. Required of students planning a music major. Prereq: MUS 172 or cons. instr. FA

MUS 276 History of Western Music 3 cr
A continuation of MUS 275 from 1750 to the present. Required of students planning a music major. Prereq: MUS 172 or cons. instr. FA

MUS 280 Conducting 2 cr
Conducting techniques; emphasis on practical application to vocal and instrumental groups. AP

MUS 295 Selected Studies 0-3 cr
Single course offerings not listed in the catalog, reflecting individual campus interests. Prereq: cons. instr. *

MUS 299 Independent Study 0-3 cr
Readings, papers, reports or projects to be determined by the instructor. Prereq: cons. instr. *

MUA 299 Independent Study 0-3 cr
Recitals, musicals, opera, theater, opera workshops. Prereq: cons. instr. *
Music Applied Chart

Note: These courses are required for Music Majors. It is required that a major program include one major applied course for 2 cr. and one minor applied course for 1 cr. for each semester. All applied courses are designated AP.

(All applied music courses carry the prefix MUA.)

*All Beginning and Elementary Applied Piano may be taught as a class or as private lessons.
Natural Resources  
(see Biological Sciences)

**Philosophy**

**PHI 101 Introduction to Philosophy**  
3 cr  
An introduction to philosophy as the activity of clarifying ideas, developing positions, and evaluating arguments on problems such as what is, what ought to be, freedom, God and knowledge. Some reference to positions of leading figures and schools of thought in the history of philosophy is usually involved. HU

**PHI 102 Social and Political Philosophy**  
3 cr  
Studies of differing philosophical views about humankind and its political and social life. HU

**PHI 103 Belief, Knowledge and Truth**  
3 cr  
Study of the grounds of rational belief and knowledge and the methods used for obtaining them, with particular emphasis on problems of evidence and truth. HU

**PHI 106 Philosophy of Religion**  
3 cr  
An introduction to the problems inherent in defining the nature of religious experience and analyzing the concepts needed to explicate and communicate that experience, together with an analysis of various religious assumptions. HU

**PHI 201 Asian Philosophy**  
3 cr  
An introduction to Asian philosophy through a study of opposing views about knowledge, nature, society and the individual. Areas of emphasis may include Chinese, Indian, Japanese and Muslim thought. HU/ES

**PHI 202 Feminist Philosophy**  
3 cr  
(Same as WOM 202.) An introduction to feminist philosophies through a study and critique of traditional and feminist views about women, their lives, society and knowledge, with particular attention to theories of women's oppression. HU/ES

**PHI 203 American Indian Philosophies**  
3 cr  
A study of philosophical aspects of American Indian world views and practices—including a study of myth, ritual and ceremony—with an emphasis on systems of knowledge, explanations of natural phenomena, social and life cycle philosophies, and relations to nature. Attention will be given to historical and contemporary relations between American Indian and White cultures. HU/ES

**PHI 210 Thinking Critically**  
3 cr  
Argument in familiar contexts; emphasis on improving the student's skills in making and evaluating arguments. AP

**PHI 211 Elementary Logic**  
3 cr  
Principles, standards and methods of distinguishing good reasoning from bad, as applied to deductive and inductive inferences. The course largely consists of substituting symbols for statements in arguments and understanding and assessing the logical structure of these arguments. May include a discussion of the nature and detection of fallacies and linguistic pitfalls affecting reasoning. MS

**PHI 220 Philosophy of Science**  
3 cr  
An introduction to the presuppositions underlying the natural and social sciences; their nature and function, the logic of scientific method, and analysis of basic concepts such as cause, probability, determinism and teleology. HU

**PHI 226 Philosophical Ideas in Literature**  
3 cr  
A study of philosophical and moral ideas as embodied in selected works of literary art: aesthetic analysis of their structure and content. HU

**PHI 230 The Biological Revolution: Directing our Destiny**  
3 cr  
(Same as BIO 230.) Combines significant elements from biology, philosophy and psychology. This course involves a multidisciplinary exploration of the ethical and practical implications of current developments and applications in the areas of molecular genetics, reproductive biology and sociobiology. HU

**PHI 231 Feminism, Equality and Public Policy**  
3 cr  
(Same as WOM 231 and POL 231.) This course involves a discussion and examination of the issues which generate public policy such as affirmative action, comparable worth, pornography, abortion, etc. from the viewpoint of philosophy and political science. HU/ES

**PHI 232 Nature and Culture: The Eighteenth Century**  
3 cr  
This course involves participants from several disciplines, representing the humanities, social sciences, fine arts and natural sciences. The course emphasizes philosophy, literature, art, science and technology in the eighteenth century. HU

**PHI 240 Existentialism**  
3 cr  
An introduction to existential philosophy through critical examination of philosophical problems found in the writings of selected existential philosophers from Kierkegaard to the present. HU

**PHI 241 Ethics**  
3 cr  
Nature of moral problems and of ethical theory, varieties of moral skepticism, practical ethics and the evaluation of social institutions. HU

**PHI 243 Business Ethics**  
3 cr  
Critical discussion of ethical reasoning and moral values in business and industry; includes relevant case studies and readings. HU

**PHI 244 Environmental Ethics**  
3 cr  
Philosophical examination of both traditional and recent concepts and values which structure human attitudes towards the natural environment. HU

**PHI 248 Biomedical Ethics**  
3 cr  
Study of ethical issues pertaining to medicine and related biological sciences. Issues covered usually include abortion, euthanasia, truth telling, confidentiality, experimentation on human subjects, behavior modification, genetic engineering, criteria of death, organ transplants, professional relationships and professional duties. HU

**PHI 253 Philosophy of the Arts**  
3 cr  
Examination of production, appreciation and criticism of works of art; sources and uses of standards. HU

**PHI 258 Human Nature, Religion and Society**  
3 cr  
Study and critique of the views of theistic and secular writers concerning religion and its relationship to individual and social problems. HU

**PHI 291 Selected Topics in Philosophy**  
3 cr  
Each course offering must be approved by both the local campus and the chair of the department. Prereq: varies with each offering. *
PHI 299 Independent Reading in Philosophy  1-3 cr
Program must be approved by chair of the department.
Prereq: cons. instr. *  

Physical Education And Athletics

Basic physical education open to all students; the courses
develop skills, teach rules and prepare students for recrea­tional enjoyment.

One credit courses. All courses are AP.

PED 001  Archery
002  Badminton
005  Basketball
006  Beginning Bowling
007  Intermediate Bowling
008  Canoeing
009  Beginning Golf
010  Intermediate Golf
012  Racquetball & Handball
014  Softball
016  Beginning Tennis
017  Intermediate Tennis
018  Beginning Volleyball
019  Weight Training
022  Intermediate Volleyball
024  Aerobic Dance
026  Bicycling
027  Introduction to Fitness
028  Advanced Fitness
029  Modern Dance
030  Folk & Square Dance
031  Ballroom Dance
032  Beginning Fencing
033  Intermediate Fencing
037  Martial Arts
038  In-Line/Roller Skating
041  Beginning Downhill Skiing
042  Intermediate Downhill Skiing
043  Cross Country Skiing
044  Tumbling and Trampoline
046  Yoga-Relaxation
047  Backpacking
048  Orienteering
055  Beginning Swimming
056  Intermediate Swimming
058  Life Guard Training
061  Scuba, Diving

Courses with emphasis on learning the skills, rules and
teaching techniques. Primarily for students planning to
major in physical education or related fields, but open to
other students.

One credit courses. All courses are AP.

PED 101  Archery
102  Basketball Fundamentals
104  Badminton
105  Canoeing
106  Curling
107  Folk & Square Dance
108  Ballroom Dance
109  Golf
110  Racquetball & Handball
113  Beginning Swimming
114  Intermediate Swimming
115  Volleyball
116  Tennis
117  Soccer
118  Tennis

PED 123 CPR  1 cr
Includes First Aid techniques for rescue breathing, cardio­pulmonary resuscitation, and care for an obstructed air­way for adults, children and infants. Course objectives
include early warning signs, proper response and preven­tion. AP

PED 124 Alcohol and Other Drugs: Awareness, Alternatives  1 cr
The course will present up-to-date information on drugs
and their abuse. Alternative activities such as fitness,
stress management, moderation training and smoking
cessation will be discussed. Opportunities for implementa­tion of alternatives will be provided. EL

PED 130-135  1 cr each
Officiating courses present a theoretical and practical
approach to officiating athletic contests at various levels
of competition. The mechanics of officiating, knowledge,
terpretation of rules and field experience are integral
parts of the courses. All courses are AP.

130  Officiating Baseball/Softball
131  Officiating Volleyball
132  Officiating Basketball
133  Officiating Football
134  Officiating Soccer
135  Officiating Gymnastics

Professional Physical Education
Courses for Majors & Minors

PED 203 Introduction to Play and Recreation  2 cr
Emphasizes design, leadership, programs and the adminis­tration of parks and playgrounds. AP

PED 204 Principles of and Introduction to  2 cr
Physical Education
An overview of health education, physical education,
intramurals, athletics and recreation; specialized areas in
the various fields and the vocational opportunities offered
in each; personal and professional qualifications of a phys­i­cal educator with emphasis on establishing the role of
physical education in society. EL
PED 205 Prevention and Treatment of Athletic Injuries 2 cr
Procedures and techniques in the prevention and care of common athletic injuries. Assessment, rehabilitation and the relationship of an athletic trainer to athletes, coaches and administrators. AP

PED 206 Personal Health & Wellness 3 cr
Survey of the various aspects of health and wellness which affect both the individual and the community. EL

PED 207 Basketball Theory and Coaching 2 cr
Theory and methods of teaching and coaching basketball. Skill analysis, practice schedules, rules and fundamentals of individual and team play are covered. AP

PED 208 Developmental Activities for Children 2 cr
The theory organization and teaching of developmental activities to elementary school children. Observation and practical teaching labs. AP

PED 211 Physical Education for Elementary Schools 2-3 cr
Thorough examination of elementary school curricula through field observation, teaching and participation in activities. Bases for planning curriculum for primary and elementary grades are developed through selective readings and discussions, AP

PED 212 Tumbling, Trampoline and Floor Exercise 2 cr
Skill development, safety, spotting techniques and teaching progressions in tumbling, trampoline and floor exercise for students majoring in physical education and related fields. AP

PED 213 First Aid and Emergency Medical Care 2-3 cr
Principles and procedures in emergency and home medical care designed to prepare the layperson for emergencies likely to be encountered in daily living. CPR certification is not awarded in PED 213. AP

PED 216 Outdoor Education 2 cr
An overview of the philosophy, resources, skills, methods and activities associated with the natural environment as a laboratory for the achievement of selected objectives of education. The emphasis is on participation and leadership situations in the outdoors. AP

PED 217 Social Aspects of Sport 3 cr
A course focusing on sport institutions as social organizations and how they function within a culture. Emphasis is placed on group structure and membership and group pressure, socialization, stratification and deviance as they apply to the sport's setting. Selected topics include sport in educational institutions, minorities and women in sport, sport as work and play, and sport and the media. SS

PED 220 Water Safety Instructor 2 cr
Designed to train instructor candidates to teach American Red Cross water safety courses (not Lifeguard Training). Use of program materials, planning and conducting effective courses, evaluation of student progress, and preparation and submission of accurate reports and records are included in the course. Students successfully completing the course will be ARC certified. AP

PED 291 Special Topics in Physical Education 1-3 cr
Course content must be approved by the local campus and the department chair. EL

PED 299 Independent Study in Physical Education 1-3 cr
Program must be approved by the department chair. EL

Physics

PHY 107 Ideas of Modern Physics 3-4 cr
An introductory course for non-science majors, with particular emphasis on the development of modern theoretical concepts. Central topics: classical mechanics, electromagnetism, quantum theory, relativity theory; and some discussion of historical and philosophical aspects. May be offered without laboratory work for three credits or with laboratory for four credits. Check the local timetable for credits listed. Not open to those who have had one or more courses in college physics; does not apply toward engineering or physics majors or toward the physics requirements for pre-professional courses. Prereq: minimal mathematics preparation. NS (if 4 cr. also LS)

PHY 110 Physics for the Health Sciences 3-4 cr
A descriptive introduction to those basic concepts of physics which have application to human health in general and to the medical and paramedical professions in particular. Primary attention will be paid to the physics of various functions of the human body (e.g., muscular and skeletal motions, the several senses and neural processes) and to the physics of commonly used instruments and equipment. Prereq: high school general science and algebra or cons. instr. NS (if 4 cr. also LS)

PHY 120 Physical Science 3-4 cr
Selected topics from physics, geology and astronomy. Not intended for those planning to major in a physical science; does not fulfill the prerequisites for any more advanced courses. May be offered without a laboratory for three credits or with a laboratory for four credits. Not open to those who have had PHY 141, PHY 201 or equivalent. NS (if 4 cr. also LS)

PHY 141 General Physics 4-5 cr
The study of mechanics, heat, wave motion and sound. Recommended for students majoring in business, elementary education, medical technology, pharmacy, pre-dentistry and pre-medical studies. Three hours of lecture and three hours of laboratory-discussion per week or equivalent. Prereq: competency at MAT 105 level. NS/LS

PHY 142 General Physics 4-5 cr
A continuation of Physics 141. Electricity, magnetism, light, and atomic and nuclear physics. Three hours of lecture and three hours of laboratory-discussion per week or equivalent. Prereq: PHY 141. NS/LS

PHY 201 General Physics 5 cr
The study of mechanics, heat, wave motion and sound. Recommended for physical science and engineering majors. Three hours of lecture, one hour of discussion and three hours of laboratory per week or equivalent. Prereq: MAT 221 or concurrent registration with cons. instr. NS/LS

PHY 202 General Physics 5 cr
A continuation of Physics 201. Electricity, magnetism, light and nuclear physics. Prereq: PHY 201, concurrent registration in MAT 222 or cons. instr. NS/LS
PHY 205 Modern Physics 3 cr
Introduction to atomic, nuclear and solid state physics; kinetic theory; and quantum theory. Prereq: PHY 202 and cons. instr. NS

PHY 291 Topics in Physics 1-3 cr
An extended coverage of one or more topics in physics such as environmental physics, energy, biophysics, mechanics, electricity and magnetism, electro-magnetic radiation, statistical physics, solid state physics, relativity, quantum mechanics, and atomic and nuclear physics. Prereq: cons instr. *

PHY 299 Independent Study 1-3 cr
Independent study under the supervision of an instructor. The work may, for example, consist of advanced laboratory investigation into a particular topic or library research and writing of a paper on some subject of interest. Prereq: cons. instr. *

Physiology (see Biological Sciences)

Political Science

POL 101 Introduction to Politics 3 cr
A general introduction to political science, including basic concepts such as power, authority, legitimacy; types of political systems and approaches to the study of politics; problems common to all political systems. SS

POL 104 American Government and Politics 3 cr
Analysis of the decision-making structure and processes of American national government, including the role of parties and interest groups, and the value preferences within American society which affect the formation of public policy. SS

POL 106 Comparative Politics of Major Nations 3 cr
An examination of the domestic and foreign politics of Britain, France, Germany, Russia, China and selected other states compared to one another and to the USA. Cultures, institutions, processes and trends toward "democratic" regimes and decentralized economic systems will be analyzed, as will examples of cooperation and conflict. Vital course for intended majors in political or other social sciences. SS/ES

POL 201 Introduction to Political Theory 3 cr
What is the ideal in politics and government? A survey and analysis of ideas relating to political systems and values. Prereq: previous course in political science or cons. instr. SS

POL 204 National, State and Local Government 3 cr
This course satisfies certification requirements for nonsocial science education majors and it provides an introductory overview of United States national, state and local governments, and politics. SS.

POL 219 Public Policy 3 cr
Instructor's choices of issues of public policy, such as economic management, welfare, health, environment, narcotics, etc. will be analyzed using various approaches to policy making. SS.

POL 220 Politics of Crime and Punishment 3 cr
An introduction to public policy as it affects public order: crime, criminals, police behavior, the criminal courts, juvenile justice and prisons. This course includes an analysis and evaluation of existing reform proposals. SS

POL 225 State and Local Government 3 cr
Organization, structure and functions of state and local governments in general, while using Wisconsin as a prime example. SS

POL 231 Feminism, Equality and Public Policy 3 cr
(Same as PHI 231 and WOM 231.) An examination of issues, such as abortion, affirmative action, sexual harassment, family law, poverty/welfare, pornography and violence, that impact on women's pursuit of "equality," "justice" and "freedom." Political science, women's studies and philosophy perspectives will focus on public policy, judicial decisions and protests to exemplify success and failure in the women's struggle. SS/ES

POL 235 Politics of American Minorities 3 cr
Examination of the struggle between and among ethnic, racial and language groups in American politics. SS/ES

POL 250 Government and Business 3 cr
A survey of government activities, regulations and policies affecting business and the economic system, such as anti-trust, safety and health regulations, subsidies, transfer payments, public works and government corporations. Prereq: POL 104 or ECO 204, SS

POL 275 International Politics 3 cr
An examination of conflict, cooperation and contemporary international political, economic, social and military issues in the world today, i.e., terrorism, low intensity conflict, war and peace, multinational corporations and trade, United Nations and diplomacy, poverty and illness, ethnicity/racism and nationalism. SS/ES

POL 298 Special Topics 1-3 cr
A course for topics which would be appropriate for freshmen and sophomores. Topic and number of credits will be announced in the timetable. *

POL 299 Independent Reading 1-3 cr
Survey of literature in a particular subject, possibly concluding with a research project supervised by the instructor. Subject and specific requirements determined by instructor/student agreement. Prereq: cons. instr. *

POL 308 American Presidency 3 cr
The President as chief administrative leader, political leader, foreign policy initiator, commander-in-chief and head of state. Prereq: previous course in political science. SS
**Psychology**

**PSY 201 Introductory Psychology** 4 cr
Survey of major content areas in psychology. Topics include research methodology, learning, memory, cognition, biological psychology, sensation, perception, motivation, emotion, development, personality, psychopathology and social psychology. Students may not receive credit for both PSY 201 and PSY 202. SS

**PSY 202 Introductory Psychology** 3 cr
(See PSY 201 course description.) Students who have taken PSY 201 may not take this course for credit. SS

**PSY 203 Individuals and Institutions: Concepts/Experience**
Lecture/discussion presentation of concepts of human behavior will be related to concurrent experiences in community agencies such as schools, social service departments and hospitals. Agency placements involve a minimum commitment of four hours per week and will provide some direct contact between the students and agency clients. Two hours of lecture and discussion will be required, with opportunity for additional individual discussion. Prereq: PSY 201 or PSY 202 or concurrent registration and cons. instr. AP

**PSY 205 Dynamics of Individual Behavior** 3 cr
Modes of functioning in normal individuals, strategies of adjustment to crisis situations, motivation, identity, frustration and conflict, including an overview of concepts of personality and psychopathology. Prereq: PSY 201 or PSY 202 (grade of C- or better) or cons. instr. SS

**PSY 208 Psychology of Gender** 3 cr
(Same as WOM 208.) The process and consequences of gender development; review of current gender research and theory in the context of cultural, psychological, biological, historical and cross-cultural perspectives. The course focuses on female and male experience as it relates to issues such as cognition, value systems, achievement, interpersonal relationships, aggression and sexuality. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS/ES

**PSY 210 Statistical Methods in Psychology** 3 cr
An introduction to descriptive and inferential statistics. Topics include measures of central tendency, measures of variability, correlation and regression, sampling distributions, and hypothesis testing procedures including t-tests and analysis of variance. Prereq: PSY 201 or 202 or concurrent registration and introductory college algebra or exemption, MS

**PSY 224 Conceptual Introduction to Statistics** 1 cr
This course is a supplement to PSY 225 for students who have had no previous course in statistics. It is not a substitute for PSY 210 and does not satisfy requirements for an introductory course in statistics. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. and concurrent registration in PSY 225. MS

**PSY 225 Experimental Psychology** 5 cr
Emphasis on research techniques, design, and methodologies including the collection, analysis and reporting of psychological data. Lecture and laboratory. Prereq: PSY 210, equivalent statistics course or cons. instr. NS

**PSY 250 Life Span Developmental Psychology** 3 cr
A survey of human development theories and research. Topics include the biological, cognitive, emotional and social development of the individual from the prenatal period through old age. Students may not receive credit for both PSY 250 and PSY 360 or PSY 361 or PSY 362. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS

**PSY 254 Behavioral Neuroscience** 3 cr
Discussion of the biological substrates of attention, emotion, motivation, learning, cognition, language and psychopathology; includes an examination of research using lesions, stimulation and neuroimaging. Some background in biology is strongly recommended. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS/ES

**PSY 270 Psychological Approaches to Minority Issues**
The use of psychological concepts, principles and research to enhance understanding of the experience of racial/ethnic minority groups. Topics may include identity formation, prejudice, discrimination, developmental variations, family life, socialization and mental health issues. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS/ES

**PSY 299 Directed Study in Psychology** 1-3 cr
Directed reading of the literature in a particular subject, possibly including a research project, under the personal supervision of the instructor. Prereq: PSY 201 or 202 (grade of C- or better) and cons. instr. *

**PSY 307 Psychology of Personality** 3 cr
Discussion of major theories and research in personality; includes psychoanalytic, dispositional, behavioral, cognitive and humanistic perspectives. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS

**PSY 309 Abnormal Psychology** 3 cr
Contemporary theory and research on abnormal behavior, includes diagnostic categories, approaches to treatment and understanding of abnormal behavior. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. One additional course in psychology is recommended. SS

**PSY 311 Current Topics in Psychology** 1-3 cr
Specific topic to be announced in campus timetable. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. *

**PSY 330 Social Psychology** 3 cr
Theory and research in areas such as social cognition, attitude formation and change, attribution theory, attraction, group processes, social influence, aggression and prosocial behavior. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS

**PSY 360 Psychology of Childhood and Adolescence**
A survey of human development theories and research. Topics include the biological, cognitive, emotional and social development of the individual from the prenatal period through adolescence. Students may not receive credit for both PSY 360 and PSY 250. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS
PSY 361 Developmental Psychology: Adolescence  3 cr
Topics include physical development: the problems of adjustment which accompany and follow the physiological changes during puberty; intellectual, emotional and social behavior. Students may not receive credit for both PSY 361 and PSY 250. Prereq: PSY 201/202 (grade of C- or better) or cons. instr. SS

PSY 362 Psychology of Adulthood and Aging  3 cr
Topics include physical, intellectual, personal and interpersonal development, with emphasis on the effects of the elderly, their responses to life challenges such as career choices, marriages, parenthood, aging and dying. Students may not receive credit for both PSY 362 and PSY 250. Prereq: PSY 201/202 (grade of C- or better) or cons. instr. SS

Sociology

SOC 101 Introduction to Sociology 3 cr
Introduction to the basic concepts, theories and methods of sociology, emphasizing the significance of the self and culture, social process and organization, and forces of social stability and change. SS

SOC 120 Marriage and Family 3 cr
Marriage and the family as social institutions in a changing world. Historical changes and societal variations in family patterns. Changes over the life cycle. Explores the sources and consequences of a variety of family forms. SS/ES

SOC 125 American Society in the Contemporary World 3 cr
Explores contemporary U.S. society in an international and comparative context. Focuses on social structure and institutions, cultural values, the forces of change and the web of relations among countries. SS

SOC 130 Contemporary Social Problems 3 cr
Sociological analysis of the nature, extent, causes and potential solutions to selected major social problems such as poverty and wealth, racial and gender discrimination, crime and violence, drug abuse, family problems, quality of education, inadequate health care, population problems, intergroup conflict and threats to the environment. SS/ES

SOC 131 Crime and Criminal Justice 3 cr
Explores the nature of crime and reviews ideas about definitions, causes, and solutions. Includes an introduction to the day-to-day functioning of the criminal justice system, the police, lawyers, courts, and correctional personnel. SS

SOC 134 American Minority Groups 3 cr
The experience of American racial, religious, ethnic and nationality groups. The nature of intergroup relations in the United States. Relationship of intergroup dynamics to social change, and to basic ideological, technological, and institutional structures and processes. Emphasis on social conflict over the distribution of economic and political power, family patterns, housing, education and access to the legal system. SS/ES

SOC 138 Sociological Perspectives on Gender 3 cr
(Same as WOM 138.) A sociological examination of roles assigned to women and men in society, including the experiences of marriage, parenthood, employment and occupational attainment. Pays particular attention to gender role socialization and its cultural reinforcement, to patterns of gender relations and to ongoing changes. SS/ES

SOC 160 Sociology of Human Sexuality 3 cr
Sociological overview of issues in human sexuality. Course is based on sociological investigations of the origins, nature and biosocial consequences of varying customs and ideals of human sexuality. Among topics that may be covered are: sex and family life, contraception, abortion and social power, violations of sexual norms and ideas about sexual propriety, origins and impact of sexual liberation movements, sociosexuality aspects of epidemics, sociological interpretations of sexual dissatisfactions. SS

SOC 170 Introduction to World Population 3 cr
Determinants and consequences of population size and growth. Changing levels of fertility, mortality, and migration rates and patterns and their social and economic implications. Examination of population policy in countries at various stages of economic development, e.g., international labor migration, China's one-child policy, U.S. immigration laws, euthanasia policy in the Netherlands, controversies over international aid for population regulation, influence of world religions on population policy. SS/ES

SOC 246 Juvenile Delinquency 3 cr
Examines the theories of the nature, causes, consequences, and prevention of juvenile misbehavior through examination of historic changes in the definition and frequency of juvenile offenses. Controversies over the practice of distinguishing juvenile crime and misbehavior from adult crime. Controversies over the treatment and punishment of juveniles, in connection with the activities of juvenile courts, parents and school officials, local communities, police departments, politicians, networks of attorneys and treatment personnel, and correctional authorities. Prereq: sophomore standing or cons. instr. SS

SOC 250 People Organizations and Society 3 cr
Role of organizations, such as business, government, education and religion in American society. Impact of organizations on members and clients, the internal dynamics of organizations, and the interchange between organizations and their environment, including the society as a whole. Prereq: sophomore standing. SS

SOC 291 Selected Topics in Sociology 1-3 cr
A specific topic in an instructor's area of special competence. When offered, the particular topic is indicated in the campus timetable. A prerequisite or cons. instr. may be required. *

SOC 293 Proseminar in Sociology 1-3 cr
A specific topic in an instructor's area of special competence. When offered, the particular topic indicated in the campus timetable. A prerequisite or cons. instr. may be required. *

SOC 299 Independent Reading in Sociology 1-3 cr
A prerequisite or cons. instr. may be required. *
Spanish

Not all courses are available on all campuses on a regular basis.

The first four semesters of Spanish may be offered as two modules, Part I and Part II, carrying two credits each. Part I is a prerequisite for Part II. It is expected that students will complete both modules. If only Part I is completed, elective credit will be granted. The student should consult with the transfer institution regarding the acceptance of single module credit.

SPA 101 First Semester Spanish 4 cr
For students who have had no previous training in the language. Emphasis on reading, writing, listening and speaking in Spanish. Classes also may include cultural studies of Spain and Latin America. Field trip may be required. AP

SPA 103 First Semester-Part I 2 cr
For students who have had no previous training in the language. This course is the first module of a two-part introductory sequence. Emphasis on reading, writing, listening and speaking in Spanish. Class may include cultural studies of Spain and Latin America. Field trip may be required. No prerequisite. (This course in combination with SPA 104 is equivalent to SPA 101.) AP

SPA 104 First Semester-Part II 2 cr
Continuation of SPA 103 and second module of a two-part introductory sequence. Field trip may be required. Prerequisite: SPA 103 or cons. instr. (This course in combination with SPA 103 is equivalent to SPA 101.) AP

SPA 105 Second Semester Spanish 4 cr
Continuation of SPA 101 or SPA 104. Field trip may be required. Prerequisite: SPA 101 or SPA 104 or cons. instr. AP

SPA 106 Second Semester-Part I 2 cr
Continuation of SPA 101 or SPA 104. This is the first module of a two-part second-semester sequence. Field trip may be required. Prerequisite: SPA 101 or SPA 104 or cons. instr. (This course in combination with SPA 107 is equivalent to SPA 105.) AP

SPA 107 Second Semester-Part II 2 cr
Continuation of SPA 106 and second module of a two-part second-semester sequence. Field trip may be required. Prerequisite: SPA 106 or cons. instr. (This course in combination with SPA 106 is equivalent to SPA 105.) AP

SPA 118 Practical Spoken Spanish 1-2 cr
Emphasis on the spoken language in everyday contexts. Not part of the sequence of required foreign language courses. Prerequisite: cons. instr. AP

SPA 119 Practical Spoken Spanish 1-2 cr
Continuation of SPA 118. Not part of the sequence of required foreign language courses. Prerequisite: SPA 118 or cons. instr. AP

SPA 201 Third Semester Spanish 4 cr
Reviews grammar taught during first two semesters while adding new material with some stress on idiomatic usage. All four skills (reading, writing, listening and speaking) are practiced and continued emphasis is placed on acquisition of cultural knowledge. Field trip may be required. Prerequisite: SPA 105 or SPA 107 or cons. instr. AP

SPA 203 Third Semester-Part I 2 cr
This course is the first module of a two-part third-semester sequence. Reviews grammar taught during the first two (or four) semesters while adding new material with some stress on idiomatic usage. All four skills (reading, writing, listening and speaking) are practiced and continued emphasis is placed on acquisition of cultural knowledge. Field trip may be required. Prerequisite: SPA 105 or SPA 107 or cons. instr. AP

SPA 204 Third Semester-Part II 2 cr
Continuation of SPA 203 and second module of a two-part third-semester sequence. Field trip may be required. Prerequisite: SPA 203 or cons. instr. (This course in combination with SPA 203 is equivalent to SPA 201.) HU

SPA 205 Fourth Semester Spanish 4 cr
Continuation of SPA 201 or SPA 204. Reading, writing, audio/oral practice, cultural insights based on literary texts in Spanish. Field trip may be required. Prerequisite: SPA 201 or SPA 204 or cons. instr. AP

SPA 206 Fourth Semester-Part I 2 cr
Continuation of SPA 201 or SPA 204. This is the first module of a two-part fourth-semester sequence. Reading, writing, audio/oral practice, cultural insights based on literary texts in Spanish. Field trip may be required. Prerequisite: SPA 201 or SPA 204 or cons. instr. (This course in combination with SPA 207 is equivalent to SPA 205.) HU

SPA 207 Fourth Semester-Part II 2 cr
Continuation of SPA 206 and second module of a two-part fourth-semester sequence. Field trip may be required. Prerequisite: SPA 206 or cons. instr. (This course in combination with SPA 206 is equivalent to SPA 205.) HU

SPA 215 Elementary Conversation and Composition 1-2 cr
May be taken concurrently with SPA 201 or by itself. Stresses practical application of theory learned in 4-credit courses. Written and audio/oral exercises based on cultural, everyday topics. Carries no retroactive credit. Prerequisite: SPA 105 or SPA 107 or cons. instr. AP

SPA 216 Elementary Conversation and Composition 1-2 cr
May be taken concurrently with SPA 205. Carries no retroactive credit. Prerequisite: SPA 215 or cons. instr. AP
SPA 219 Spanish for Business 3 cr
Designed to acquaint the student with the vocabulary and practices of the business community. Oral and written practice in the preparation of letters and forms. Carries no retroactive credit for work completed in high school.
Prereq: SPA 203 or SPA 204 or cons. instr. AP

SPA 221 Introductory Survey of Peninsular Literature, Eighteenth to Twentieth Centuries 3 cr
Modern masterpieces in fiction, drama, poetry and essay. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in Spanish. Prereq: SPA 205 or SPA 207 or cons. instr. HU

SPA 222 Introductory Survey of Peninsular Literature, Twelfth to Seventeenth Centuries 3 cr
Masterpieces in fiction, drama, poetry and essay from the medieval period through the Golden Age. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in Spanish. Prereq: SPA 205 or SPA 207 or cons. instr. HU

SPA 225 Intermediate Conversation and Composition 3 cr
Development of written and oral proficiency through systematic exposure to modern cultural developments as found in a variety of contemporary texts. Discussion and composition exercises deal with cultural topics introduced by original authors. Prereq: SPA 205 or SPA 207 or cons. instr. HU

SPA 226 Intermediate Conversation and Composition 3 cr
Continuation of SPA 225. Prereq: SPA 225 or cons. instr. HU

SPA 235 Spanish Culture and Civilization 1-3 cr
Lectures and readings in English on the art, music, architecture, politics, economics and history of Spain from the Roman Empire to the present. No knowledge of Spanish required. No foreign language credit. HU

SPA 236 The Culture and Civilization of Latin America 1-3 cr
Lectures and readings in English on the art, music, architecture, history and politics, as well as the social and economic problems of Latin-American countries from Pre-Columbian times to the present. No knowledge of Spanish required. No foreign language credit. HU/ES

SPA 237 Chicano Literature 3 cr
Lectures and readings in English of novels, plays and poetry written by Chicano authors. Focuses on cultural differences and alternatives in order to lead students to question previous stereotypes and to come to a new understanding of the Chicano struggle for identity. No knowledge of Spanish required. Prereq: ENG 102 or a grade of B or better in ENG 101. HU/ES

SPA 277 Special Topics in Literature 2-3 cr
in Translation
Treats various topics of Spanish or Latin-American literature to be specified by instructor in campus timetable. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in English. No knowledge of Spanish necessary. No foreign language credit. HU

SPA 291 Selected Topics in Spanish 2-3 cr
Cultural, literary or linguistic themes as specified in campus timetable. Prereq: SPA 205 or SPA 207 or cons. instr.* (Associate degree designation will be determined by course content.)

SPA 299 Intermediate Independent Reading 1-3 cr
Individual student(s) assigned readings, reports and papers on topic determined by instructor. One-on-one meetings to be arranged. Prereq: SPA 205 or SPA 207 and cons. instr.* (Associate degree designation will be determined by course content.)

**Wildlife (see Biological Sciences)**

### Women's Studies

**WOM 101 An Introduction to Women's Studies 3 cr**
An introduction to the major problems addressed by women's studies with an emphasis on the theoretical and methodological issues involved in gaining accurate knowledge about women. Literary, philosophical, historical and social science perspectives are used to understand the experience of women and the cultural construction of gender. SS

**WOM 138 Sociological Perspectives on Gender Roles 3 cr**
(Same as SOC 138.) A sociological examination of roles assigned to women and men in society, including the experiences of marriage, parenthood, employment and occupational attainment. Pays particular attention to gender role socialization and its cultural reinforcement, to patterns of gender relations and to ongoing changes. SS/ES

**WOM 202 Feminist Philosophy 3 cr**
(Same as PH1 202.) An introduction to feminist philosophies through a study and critique of traditional and feminist views about women, their lives, society and knowledge, with particular attention to theories of women's oppression. Prereq: three credits in philosophy recommended but not required. HU/ES

**WOM 208 Psychology of Gender 3 cr**
(Same as PSY 208.) The process and consequences of gender development: review of current gender research and theory in the context of cultural, psychological, biological, historical and cross-cultural perspectives. This course focuses on female and male experience as it relates to issues such as cognition, value systems, achievement, interpersonal relationships, aggression and sexuality. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS/ES

**WOM 231 Feminism, Equality and Public Policy 3 cr**
(Same as PH1 231 and POL 231.) This course involves a discussion and examination of the issues which generate public policy such as affirmative action, comparable worth, pornography, abortion, etc. from the viewpoint of philosophy and political science. EL/ES
WOM 250 Women in Cross-Cultural Perspective 3 cr
(Same as ANT 250.) Study of women in a variety of cultures around the world, both past and present. Includes consideration of the sexual division of labor, marriage systems, child rearing, relationships between men and women, systems of myth and ideology concerning women's roles, and the effects of socio-economic development and rapid social change. SS/ES

WOM 279 Women in Literature 3 cr
(same as ENG 279.) A study of women characters and/or authors in their cultural contexts through an examination of representative literary works by significant authors. Prereq: ENG 101 (or exemption based on placement test score) or ENG 102 or cons. instr. HU

WOM 291 Selected Topics in Women's Studies 1-3 cr
Designed to focus in depth on a particular area of women's studies. Specific topic to be announced in campus timetable. Prereq: cons. instr. *

WOM 299 Independent Study in Women's Studies 1-3 cr
Extensive reading for the purpose of surveying the literature in a particular area, possibly including a research project, under the personal supervision of the instructor. Prereq: cons. instr. *

Zoology (see Biological Sciences)

Non-Degree Credit Courses

English

ENG 095 Basics of Composition 3 non-degree cr
A study of fundamental writing skills, including grammatical conventions, usage, sentence structure, paragraph development and the organization of short essays. This course is offered through a contractual arrangement with the local WITC institution.

ENG 097 Basics of Composition 3 non-degree cr
A study of fundamental writing skills, including grammatical conventions, usage, sentence structure, paragraph development and the organization of short essays. This course is offered by the campus TRIO/minority/disadvantaged program.

ENG 098 Basics of Composition 3 non-degree cr
A study of fundamental writing skills, including grammatical conventions, usage, sentence structure, paragraph development and the organization of short essays.

ENG 099 Basic Writing Tutorial 1-3 non-degree cr
Intended primarily for students concurrently enrolled in Basics of Composition or Composition 1, this tutorial will provide individualized instruction to help students develop the fundamental writing skills and basic techniques of composition required for success in those courses and in higher-level composition courses. Non-degree credit.

Learning Resources

LEA 100 Grammar Skills 1-3 non-degree cr
Designed to improve student understanding and use of written English, this course covers the principles and patterns of grammar and writing.

LEA 101 Speed and Efficiency in Reading 1-3 non-degree cr
The aim of this course is to help the student develop the vocabulary and comprehension skills needed for studying college materials. The student learns to analyze challenging materials for immediate understanding and interpret it for long-term memory.

LEA 102 Learning Skills 1-3 non-degree cr
This course is designed for the student who needs to develop generalized learning skills. Areas of study may include managing time, taking notes, reading and studying textbooks, reading comprehension, developing vocabulary, organizing the research paper and making oral presentations.

LEA 103 Study Skills 1-3 non-degree cr
This course is designed to aid students in learning effective study systems. The student also learns to use appropriate reading rates.

LEA 104 Career Planning & Preparation 1-3 non-degree cr
This course will enable students to develop career goals and lay out a path for achieving these goals. Students will examine their personal interests, aptitudes, values, decision making skills, academic plans and career awareness. This personal, educational and occupational information will then be organized and translated into an individualized course of action. Integration of career goals with current and future college course work will be stressed.

LEA 105 Basic Math 1-3 non-degree cr
Designed for students with minimum algebra background or who have been away from mathematics for several years. Subject areas to be covered include arithmetic of whole numbers, fraction and decimals, and basic algebraic concepts.

LEA 106 English as a Second Language 1-3 non-degree cr
A program dealing with English as a second language for students whose native language is not English. The program is designed to assist foreign students in improving their skills in spoken and written English for successful academic work at the university level. Prereq: for students who (1) are not native speakers of English and who (2) have studied English as a second language prior to being enrolled in the UW Centers.

Mathematics

MAT 081 Topics in Geometry 1-3 non-degree cr
Designed for students who have not had high school geometry. Includes methods of proof, properties of simple plane figures, congruence and similarity. Course does not carry degree credit.

MAT 085 Topics in Geometry 2-3 non-degree cr
Designed for students who have not had high school geometry. Includes methods of proof, properties of simple plane figures, congruence and similarity. This course is offered through a contractual arrangement with the local WITC institution.
MAT 087 Topics in Geometry 2-3 non-degree cr
Designed for students who have not had high school geometry. Includes methods of proof, properties of simple plane figures, congruence and similarity. This course is offered by the campus TRIO/minority/disadvantaged program.

MAT 090 Basic Mathematics 2-3 non-degree cr
Designed for students with minimum algebra background or who have been away from mathematics for several years. Subject areas to be covered include arithmetic of whole numbers, fraction and decimals, ratios and percents, and basic algebraic concepts. Prepares the student for MAT 091.

MAT 091 Elementary Algebra 2-4 non-degree cr
Intended for students with little or no previous algebra. Topics include the real number system and operations with real numbers and algebraic expressions, linear equations and inequalities, polynomials, factoring and introduction to quadratic equations. Course does not carry degree credit.

MAT 092 Basic Mathematics 2-3 non-degree cr
Designed for students with minimum algebra background or who have been away from mathematics for several years. Subject areas to be covered include arithmetic of whole numbers, fraction and decimals, ratios and percents, and basic algebraic concepts. Prepares the student for MAT 095. This course is offered through a contractual arrangement with the local WTCS institution.

MAT 094 Basic Mathematics 2-3 non-degree cr
Designed for students with minimum algebra background or who have been away from mathematics for several years. Subject areas to be covered include arithmetic of whole numbers, fraction and decimals, ratios and percents, and basic algebraic concepts. Prepares the student for MAT 097. This course is offered by the campus TRIO/minority/disadvantaged program.

MAT 095 Elementary Algebra 2-4 non-degree cr
Intended for students with little or no previous algebra. Topics include the real number system and operations with real numbers and algebraic expressions, linear equations and inequalities, polynomials, factoring and introduction to quadratic equations. This course is offered through a contractual arrangement with the local WTCS institution.

MAT 097 Elementary Algebra 2-4 non-degree cr
Intended for students with little or no previous algebra. Topics include the real number system and operations with real numbers and algebraic expressions, linear equations and inequalities, polynomials, factoring and introduction to quadratic equations. This course is offered by the campus TRIO/minority/disadvantaged program.

Centers

as part of the University of Wisconsin System

Wisconsin Statute 36.01 Statement of Purpose and Mission

(1) The legislature finds it in the public interest to provide a system of higher education which enables students of all ages, backgrounds and levels of income to participate in the search for knowledge and individual development; which stresses undergraduate teaching as its main priority; which offers selected professional graduate and research programs with emphasis on state and national needs; which fosters diversity of educational opportunity; which promotes service to the public; which makes effective and efficient use of human and physical resources; which functions cooperatively with other educational institutions and systems; and which promotes internal coordination and the wisest possible use of resources.

(2) The mission of the system is to develop human resources, to discover and disseminate knowledge, to extend knowledge and its application beyond the boundaries of its campuses and to serve and stimulate society by developing in students heightened intellectual, cultural and humane sensitivities, scientific, professional and technological expertise and a sense of purpose. Inherent in this broad mission are methods of instruction, research, extended training and public service designed to educate people and improve the human condition. Basic to every purpose of the system is the search for truth.

History of the UW Centers

The roots of the UW Centers lie in the establishment of off-campus classes and the beginning of extension services in 1907. In 1946, the UW Regents developed a policy for local communities to provide buildings for exclusive use by the UW Centers. Early UWC campuses were part of the former University of Wisconsin Madison campus. Later, other UWC campuses were added by institutions of the former Wisconsin State University System. The merger of the University of Wisconsin and the State University System in 1972 resulted in the University of Wisconsin System and reunited the UWC campuses in mission under the name University of Wisconsin Center System. In 1983, the name of the institution became the University of Wisconsin Centers.

Select Mission

In addition to the UW System mission, the University of Wisconsin Centers has the following select mission:

The University of Wisconsin Centers, as part of the University of Wisconsin System, shares the university's overall responsibility to disseminate knowledge, expand information, enrich our culture, and to provide outreach services. These activities are carried out at the 13 locally-owned campuses which, collectively, are the freshman-sophomore, liberal arts transfer institution of the University of Wisconsin System, entitled to offer a general education associate degree. Its programs aim to provide qualified students of all ages and backgrounds with the proficiencies and breadth of knowledge that prepare for baccalaureate and professional programs, for lifelong learning, and for leadership, service, and responsible citizenship.

To carry out its select mission, the University of Wisconsin Centers commits itself to the following goals:

a) To plan and to deliver the freshman-sophomore years of baccalaureate programs and professional studies.

b) To place major emphasis on teaching excellence.

c) To support the development, testing and use of effective teaching methods.

d) To expect scholarly activity, including research, scholarship and creative endeavor, that supports its programs at the associate degree level.

e) To serve the citizens in the University of Wisconsin Centers service areas by (1) promoting the integration of the extension function and encouraging faculty and staff to participate in outreach activity through, for example, providing continuing education programs, (2) facilitating the delivery of programs offered by other University of Wisconsin System institutions.

f) To participate in inter-institutional relationships including but not limited to private colleges, public schools, other University of Wisconsin institutions, and the WTCS System in order to maximize educational opportunity and resources for the citizens of the University of Wisconsin Centers service areas.

g) To serve the special needs of minority, disadvantaged, disabled and returning adult students, especially those in immediate service areas.

h) To provide opportunities for cultural enrichment in the service area of each University of Wisconsin Centers campus.

i) To make available, as a service to business, industry, and the general public, the unique professional expertise of the faculty and staff.
UW Centers Structure

The physical facilities of the 13 freshman/sophomore campuses were built by and are owned and maintained by local counties and cities. Educational programs are provided by the University of Wisconsin System. This unique relationship has created strong campus-community bonds and a pride which gives the UWC a special character within the UW System.

The UWC campuses enroll approximately 9,000 students, including the largest number of freshmen in any one institution of the UW System. Nearly 30 percent of the enrolled UWC students are more than 24 years old, making the returning adult student an important component of the student body. The UWC is effective in meeting the needs of adult learners seeking lifelong education near their work and families.

Each UWC campus is administered by a campus dean who reports to the chancellor. The student services staff on each campus works closely with the campus dean as a vital part of the campus administrative team. You will become familiar with the student services staff members as they assist you in your academic, career and financial aid planning. Shared governance is organized through campus collegiums, the UWC Senate (consisting of faculty, academic staff and students), and through 17 institution-wide academic departments. Student governance is organized both on a campus basis and institution-wide.

The chancellor is the chief executive officer of the UWC and reports to the president of the UW System. Assisting the chancellor in the operation of the UWC are the provost/vice chancellor and associate vice chancellor for academic affairs, the assistant chancellor for administrative services and their staffs. A central headquarters for the chancellor and the administrative staff is located in Madison.

The University of Wisconsin Center-Baraboo/Sauk County is located on 68 scenic hillside acres on the northwest side of Baraboo.

Student Body
Over half of the students on campus are traditional age, while the remainder of the students enrolled at UWC-Baraboo are age 22 and older. The mix of traditional and adult students contributes to a unique learning experience. The majority of students commute to the campus from Sauk, Columbia, Dane, and Juneau counties.

Facilities
Four buildings make up the campus physical plant. The newest of these is the John and Wurzel Langer Center which houses a basketball court, running track, locker rooms, racquetball courts, Student Services Office, cafeteria, student government office, student recreational facility and art gallery. The administration building is the site of classrooms, administrative and faculty offices, computer lab, natural science laboratories and a greenhouse. The Library-Learning Resources Center contains a 32,000-volume library that is linked to a statewide network of university, college and public libraries. It has quiet study areas, classrooms, and a Learning Lab to assist students in math, writing and academic advice. The fourth building on campus is the site of the music department, machine rooms, theater, art department and bookstore.

Collaborative

UWC-Baraboo/Sauk County collaborates with UW-LaCrosse by offering its facilities for graduate courses for educators. It also offers classes and serves as a site for UW-Madison faculty to teach nursing both on campus and by distance education.

Academic

Evening and distance education courses add to the traditional academic offerings at UWC-Baraboo. In addition to the freshman/sophomore liberal arts and pre-professional academic programs, the campus offers adjunct course work for the associate degree/nursing program, associate degree program at the Federal Corrections Institution at Oxford, and graduate credit courses in education in cooperation with UW-La Crosse.

Scholarships

Friends of the Campus, Inc. Scholarship Program provides students financial help.

Extracurricular

Campus activities include Campus Singers, Jazz Band, Student Association, Outdoor Club, Circle K Club, Photography Club, The Gauntlet student newspaper, drama productions, intramural and/or varsity sports. Outdoor tennis courts, cross-country ski trails, disc golf, softball and soccer fields provide outdoor recreation.

Community Interest Programs

Wide range of Continuing Education courses, Elderhostel, College for Kids, Campus-Community Theater Program, Civic Chorus, Community Band and Brass Ensemble.

The University of Wisconsin Center-Barron County

is located on 110 acres of land south of the city of Rice Lake, which is 60 miles north of La Crosse and 120 miles northeast of Minneapolis/St. Paul.

Student Body

In fall 1996, 446 students were enrolled, 30 percent of whom were age 22 or older. Students at UWC-BC come from northwest Wisconsin and beyond. Many come from towns such as Barron, Cumberland, Rice Lake, Spooner and Chetek.

Facilities

The seven buildings on campus are nestled on partially wooded land along the winding Red Cedar River. The main facilities are Meggers Hall (administration), Ritzinger Hall (classrooms), Fine Arts Building, Library, Gymnasium, Student Center and the Physical Plant. Other educational and recreational facilities include the Observatory, tennis court, three-hole golf course, baseball diamonds and soccer field, as well as wetlands/prairie restoration and wildlife habitat study areas.

UWC-Barron County
Collaborative Programs

Service Learning/Internship Programs

Through partnerships developed between UWC-BC and area businesses and community agencies, students can earn 1-3 credits while undertaking an independent academic project in a professional work environment. Benefits of participating in the Internship or Service Learning program include the opportunity to test skills and abilities, gain valuable experience, enhance a resume, and focus on educational and career goals.

Educational Opportunity Center

The UWC-BC Educational Opportunity Center (EOC) provides assistance and information to adults who seek to enter into or continue a program of post-secondary education. Services include academic and financial counseling, career exploration and aptitude assessment services, and assistance with the re-entry process. UWC-BC provides this service in cooperation with the UW-Eau Claire EOC.

Satellite Office of the Small Business Center

Through collaborative efforts with the UW-Eau Claire Office of Executive and Professional Programs, UWC-BC is a satellite office of the SBDC. As such, the campus is able to locally offer business counseling and non-credit business courses to area entrepreneurs who need information about starting or expanding a small business.

Special Programs

Academic

UWC-BC has an evening associate degree program, observatory sessions, educational trips, tutoring services, Humanities Day, Service Learning and Internship programs, Career Development Center and summer session.

Scholarships

A scholarship program is sponsored by Barron County Campus Foundation.

Extracurricular

Activities include intramural and varsity sports, forensics, Student Government Association, Math-Science Club, Phi Theta Kappa national honors society, Unity Club, Encore (for returning adult students), and Delta Psi Omega drama fraternity.

Community Interest Programs

Continuing Education courses, Small Business Development Center (satellite office), summer Kids’ College and Theater for the Talented, Fine Arts programs sponsored by Barron County Campus Foundation, theater, Communiversity Band, Communiversity Choir, and art gallery are all part of campus life.

The University of Wisconsin Center-Fond du Lac

is located on 183 acres on the northeast side of Fond du Lac, north of East Johnson Street (Hwy. 23).

Student Body

In fall of 1986, 939 students were enrolled, 30 percent of whom were age 22 or older. Sixty-eight percent of students attend the campus on a full-time basis.

Facilities

The park-like campus is composed of six buildings that surround a two-acre lake. Facilities include classroom, science, and library-administration buildings; a student center; a physical education/music facility and a heating plant. The 60-acre Gottfried Arboretum is under development.

UWC-Fond du Lac
Special Programs

Academic
Offerings include day and evening credit courses, study skills workshops and a college success course. The Learning Lab provides free tutoring in math and English and arranges for study groups in most subjects. The Transfer Information Center has catalogs, schedules and information for all UW System and most private colleges. The Transfer Information System (TIS) provides students with course equivalency information. The UWC Library Processing Center is also located on campus.

Scholarships
UW Center-Fond du Lac Foundation offers a large number of academic scholarships, new freshmen and adult student scholarships. Local scholarships are also available.

Extracurricular
Phi Theta Kappa national community college honor society, Returning Adult Association, theater program, band and vocal groups, student government, leadership conferences, intramural and varsity sports and personal and career seminars are all a part of campus life.

Community Interest Programs
Continuing Education courses, lectures and symposiums, town meetings on timely issues, regional Science Fair, College for Kids, LEAPS, High School Quiz Bowl, High School Literary Award and Fine Arts performances are available to area residents.

The University of Wisconsin Center-Fox Valley

is located on a 41-acre campus in Menasha, three miles from the north shore of Lake Winnebago.

Student Body

In fall 1996, 1,238 students were enrolled, 37 percent of whom are age 22 or older. There is a mix of full-time and part-time students.

Facilities

The campus facilities include a fine arts gallery, a world class planetarium, fine arts theater, art and music studies, fieldhouse, radio and television studios, child care center, and a new science wing and greenhouse. The campus also has a soccer field, tennis courts and a nature study area.

Collaborative Programs

The University of Wisconsin Center-Fox Valley works with its students to take advantage of several agreements to make their transfers smooth. Campus advisors work with students to help them tie their freshman-sophomore studies to their specific career paths. For example, UWC-Fox Valley prepares students through dual enrollment through a pre-engineering program with the University of Wisconsin-Platteville.

UWC-Fox Valley works with students interested in nursing degrees at the five UW System Schools of Nursing (Oshkosh, Madison, Milwaukee, Eau Claire and Green Bay) and to help them get instruction through distance education offered through the University of Wisconsin Extension. In addition, UWC-Fox Valley may direct its students to Ripon College which has an articulation agreement with UW Centers. That agreement makes it possible for Associate of Arts Degree recipients to enter Ripon College with junior status.

Special Programs

Academic

Evening courses, honors program, tutoring program, math and English preparatory courses, undergraduate research opportunities and career exploration services are all offered.

Scholarships

The UW Fox Cities Foundation annually awards up to 50 scholarships to new, continuing and transferring students.

Extracurricular

Student association, intramural and intercollegiate athletics, campus newspaper, television productions, radio station, literary magazine, interest clubs (business, drama, English, political science, and returning adult students), and a variety of other student activities make up part of a student's co-curricular activities.

Community Interest Programs

The campus offers Continuing Education courses, Aaron Bohrod Fine Arts Gallery, drama productions, lecture and fine arts events, planetarium programs, Senior Science Society, and music department concerts.

The University of Wisconsin Center-Manitowoc County

is located on the southeastern edge of Manitowoc. The 40-acre campus is bound by Lake Michigan on the east and a 78-acre wooded park on the south.

Student Body
In fall 1996, 467 students were enrolled. Slightly more than 30 percent are 22 years old or older. Both full-time and part-time students are enrolled. Students from every high school in Manitowoc County attend UWC-MC, as do students from Brown, Calumet, Door, Kewaunee, Oconto and Sheboygan counties.

Facilities
Two large multi-purpose buildings connected by an enclosed second floor walkway make up the campus. East Hall houses classrooms, a lecture hall, fine arts room, art gallery, bookstore, science labs, weight room, green house, cafeteria-lounge, offices and a 28,000 volume library, which is linked by computer to the other 25 UW campus libraries around the state. The library also offers inter-library loan service. West Hall includes a physical education facility, geography/geology lab, music rehearsal rooms, child care service, classrooms, faculty offices and two computer labs with state-of-the-art software and full internet and e-mail access at all of the stations. The grounds include a weather station, a sand volleyball court, soccer field, fire pit and play area for the child care service.

Special Programs

Collaborative

UWC-Manitowoc and UW-Stout have a collaborative agreement for the completion of a Bachelor of Science degree in Industrial Technology. Students take their general education coursework at UWC-MC and coursework in the major is completed from UW Stout via distance education, available at various sites.

Academic

Offerings include evening associate degree program, AODA program, remedial mathematics and English, a student tutoring service, a math and writing lab, and a computerized Transfer Information System.

Scholarships

Numerous community and UWC-Manitowoc County Foundation scholarships are available for new and returning students.

Extracurricular

The following activities are available to students: the student newspaper, student senate, UWC-MC Ambassadors, non-traditional student association, business club, history club, environmental club, wellness committee, intramural and varsity sports.

Community Interest Programs

The community may participate in UWC-MC's Continuing Education courses, College for Kids, Upward Bound Program, campus-community band, chorus, theater and jazz ensemble. Art exhibits in the East Hall Gallery and a Speaker's Bureau are also available to area residents.

The University of Wisconsin Center-Marathon County

is an urban campus, adjacent to Marathon Park in Wausau. Wausau is in north central Wisconsin, about 140 miles north of Madison.

Student Body

In fall 1996, 800 students were enrolled: 448 women and 352 men; 64 percent full-time and 36 percent part-time. Thirty-two percent of the student body are adult learners, or over age 22. Student age varies from 17 to over 60. The campus draws most of its students from Marathon, Lincoln, Shawano, Langlade, Portage and Taylor Counties.

Facilities

UWC-Marathon County is the only UWC campus with a residence hall. It houses 162 students. Other buildings include a science hall with extensive lab facilities; an art studio; a fieldhouse with racquetball court, weight room, swimming pool and gymnasium; and classroom-office complex with a theater, computerized library, student union, bookstore, planetarium, greenhouse, cafeteria, academic support center and computer lab. The campus underwent extensive renovation and new construction in 1997.

Special Programs

Distinctive
UWC-MC has an on-site, student services coordinator for minority students. The coordinator does academic and career advising, assists with financial aid and transfer, and coordinates support and social programs.

Academic
Academic programs include an honors program for academic achievers, basic skills courses, tutoring, minority student coordinator, outreach nursing degree completion program, and associate and extended degree programs.

Scholarships
Annually, over $50,000 in scholarships are awarded on the basis of academic achievement or potential.

Extracurricular
UWC-MC is an active campus. Special student activities include: Lecture and Fine Arts Series, intercollegiate and intramural sports, show choir, concert band, concert choir, theater productions, Student Government Association, Ambassador Program, Activities Programming Board, and a variety of clubs and special-interest organizations.

Community Interest Programs
UWC-MC’s Continuing Education department offers a wide range of personal enrichment and professional development classes, including College of the Emeriti for age 50+, College for Kids, international study/tours, international dinner lectures and a lecture forum series.

The Marathon County History Teaching Alliance links area high school teachers with UWMC faculty for curriculum and professional development.

The University of Wisconsin Center-Marinette County

is located on the shores of Lake Michigan’s Green Bay. Downtown Marinette and downtown Menominee, Michigan, are both within a five-minute drive of the campus.

Student Body

In fall 1996, 358 students were enrolled, 42 percent of whom were age 22 or older. Students attend the campus on a full-time or part-time basis. Almost one third of the students are Menominee County residents who, because of a reciprocal tuition agreement, pay Wisconsin resident tuition fees.

Facilities

The hub of student life is the student-lounge-cafeteria wing of the main administration building. Science laboratories and a computer classroom are contained in a second wing. Art facilities include a 392-seat theater, gallery, visual arts studios and photographic laboratories. The library building, which contains a computer laboratory, overlooks the bay. Campus computers also have Internet access linking them to worldwide information resources. Completing the four-building complex is the Max E. Peterson Field House with gym, Nautilus room and six-lane swimming pool.

Sidney H. Bremer, Campus Dean
Gary J. Bjordal, Student Services Director
Student Services Office
750 W. Bay Shore
Marinette, WI 54143-4299
715/735-4301
Collaborative Programs

UWC-Marinette and the YMCA share the cooperative management of the campus pool and field house facilities. Students from UW-Marinette (and Northeast Wisconsin Technical College) get pool time at no charge, in exchange for YMCA use of the field house. This agreement has enabled UW-Marinette to offer classes in swimming, lifeguarding and water safety. In addition to pool and gym facilities, a full-equipped Nautilus center in the field house is available to students for their personal use or for PED conditioning classes.

A collaborative agreement between UW-Marinette and several UW baccalaureate schools (UW-Green Bay, Eau Claire, Madison, Milwaukee and Oshkosh) will give students in the Nursing Degree Completion program the opportunity to take rotating core courses at UWC-Marinette via audiographics. UWC-Marinette will provide technical support for the audiographics courses while its regular curriculum supports the students’ general education requirements. UW-Green Bay is the “home institution” responsible for registration and advising. For the audiographics courses, students pay UW-Green Bay in-state tuition regardless of their residency.

The Michigan Compact is Wisconsin’s first reciprocal tuition agreement. Residents of Menominee County, Michigan, may take courses at UWC-Marinette for in-state tuition rates. This agreement extends to residents of Iron and Marinette Counties in Wisconsin, who may take courses at Gogebic and Bay de Noc Community Colleges in Michigan, for out-of-district, in-state tuition rates.

Special Academic Programs

Students may enroll in Learning Communities courses whose syllabi are linked across disciplines to explore real-world issues. Tutorial services are available in English, math and computer science. Interdisciplinary computer-assisted instructional programs also aid students. International student programs add to campus diversity and graduate courses are offered at UWC-Marinette from UW-Green Bay and Northern Michigan University.

Scholarships

Local companies and citizens offer over $7,000 in scholarships to our students every year based on academic potential and leadership.

Extracurricular

Several student organizations offer opportunities for students outside the classroom including Phi Theta Kappa, a national junior college honors fraternity, Student Senate, Student Ambassadors, intramural and varsity sports, and Northern Lights, the annual arts journal, along with other special interest organizations.

Community Interest Programs

Since 1967, Theatre on the Bay has offered year-round programming giving students experience in all areas of theater from box office to acting in major productions. Other activities open to the public include brown bag discussion series, the West Shore Chorale, the Communiversity Jazz Ensemble, Fall Convocation and the summer Artsfest held on the campus grounds.

The University of Wisconsin Center-Marshfield/Wood County is located on 114 acres in the city of Marshfield.

Student body

In fall 1996, 536 students were enrolled, 33 percent of whom are age 22 or older. Students attend on both a full-time and part-time basis.

Facilities

Major buildings at the campus include the W.W. Clark Administration Building; Aldo Leopold Science Building; A.G. Felker Student Center; Fine Arts Building complex with the Learning Resource Center, Lecture-Performance Hall, music rehearsal rooms, and art studios; the Physical Education Building; and University Apartments for student housing. Outdoor recreational facilities include lighted tennis courts, soccer fields, football field, baseball diamond, golf green and the 44-acre university arboretum.

Collaborative Programs

Collaborative Programs

The Marshfield/Wood County campus offers calculus courses taught to students from Colby and Abbotsford high schools jointly, and English courses are offered to students at Stratford High School. This provides an opportunity for students to experience college-level study and to begin earning college credit right at their own school. Students taking advantage of these eliminate traveling to another campus for these courses, in addition to getting a head start on college.

UW Center-Marshfield/Wood County also offers a joint bachelor of science degree in nursing with UW-Eau Claire.

Special Programs

Academic

Evening Academic Program, Outreach Program courses and freshman/sophomore program leading to a nursing degree are offered.

Extracurricular

Students may participate in: Student Senate, intramural and varsity sports, Jazz Ensemble, Band, Choir, Swing Ensemble, drama, student newspaper, Student Education Association, Computer Club, literary magazine Inter-Varsity Christian Fellowship Club, Wellness Club, and Nursing Association.

Community Interest Programs

Local residents enjoy programs such as: the Continuing Education Program, Campus-Community Players theater group, Marshfield/Wood County Symphony Orchestra, Performing Arts Series events, Visiting Artist Series, special topic lectures by faculty and visiting lecturers and cultural field trips.

The University of Wisconsin Center-Richland

is located in the southwestern Wisconsin city of Richland Center, midway between La Crosse and Madison, on U.S. Highway 14.

Student body

In fall 1996, 374 students were enrolled, with 21 percent over the age of 22. The campus attracts students from southwest Wisconsin and also from throughout the state, other states and several different countries.

Facilities

The 135-acre campus has six main buildings: the Miller Memorial Library, Wallace Student Center, Classroom Building, Science Building, Roadrunner Gymnasium and the Administration Building. Also located on campus is the Symons Recreation Complex which houses a heated swimming pool, whirlpool, sauna, two racquetball courts, weight-training area and a multi-purpose room. Adjacent to the campus are two student apartment buildings, Edith Rice Symons Hall and Deans Hall, providing housing for 58 students. Outdoor facilities include an athletic field, a Wellness Trail, tennis and basketball courts, and an arboretum with a trail that accommodates cross-country skiing in winter.

Special Programs

Academic

Special programs include the Integrated Learning Community, Majors Day, Transfer Information System, Pre-college Program, Career Day, High School Mathematics Competition, “Easing In” for returning adults, Phi Theta Kappa Honor Society, tutoring services; study skills workshop; and Youth for Understanding (YFU) International Exchange cooperative program that brings students from around the world to study at UWC-R.

Scholarships

More than 70 scholarships ranging from $150-full tuition are available through the Richland Campus Foundation Scholarship Program. During the most recent academic year, more than $32,000 in scholarships were awarded.

The University of Wisconsin Center-Rock County

is located in Janesville, 40 miles south of Madison and 80 miles southwest of Milwaukee.

Student Body

In fall 1996, 718 students were enrolled, 54 percent of whom were age 22 or older. There is a mix of full-time and part-time students.

Facilities

The 50-acre commuter campus includes Hyatt-Smith Hall, which houses the administration offices, cafeteria, student lounge, backstage lounge and video-conference center; Andrews and Williams Halls, large classroom buildings which house the science laboratories, Academic Skills Center, computer lab and the 65,000 volume library; and Wells Cultural Center, with a 250-seat theater, a gymnasium, art gallery, and the art, music and drama departments.

UWC-Rock County
Collaborative Programs

UWC-Rock County is a partner with the University of Wisconsin-Madison in a BSN completion program. Students enrolled in this program have already earned an associate degree in nursing and are working toward the bachelors degree in nursing. While the advanced nursing courses will be taken through UW-Madison, a number of the pre-professional courses (General Chemistry, Biochemistry, Anatomy, Physiology, Bacteriology) and the liberal arts requirements in humanities and social sciences can be completed at UWC-Rock County.

In addition, UWC-Rock County Continuing Education has formed partnerships with two local corporations, Lab Safety Supply, Inc., located in Janesville, and Beloit Corporation, located in Beloit. Credit and non-credit courses are offered on site at each location, making college level courses and professional development more accessible to employees.

Special Programs

Academic

UWC-Rock offers a daytime, evening and Saturday Associate Degree Program; an Academic Skills Center including tutoring, college orientation workshop for pre-college students or interested adults; course work leading to bachelors and masters degrees in business in cooperation with UW-Extension and UW-Whitewater, and an extensive film library.

Scholarships

New and continuing students planning to enroll for six or more credits are eligible to apply for a variety of scholarships. Selection is based on academic achievement and leadership ability.

Extracurricular

In addition, students at UWC-Rock may participate in a special support group for adult students, intercollegiate sports, student government, theater groups, various clubs, jazz ensemble, band, mixed chorus and Madrigal Singers.

Community Interest Programs

Lecture & Fine Arts programming, community band, theater events, videoconferencing, College for Kids, Breakfast of Champions and non-credit courses offered through the Continuing Education Office are open to the public.

The University of Wisconsin Center-Sheboygan County

is located on a 73.5-acre sylvan setting on the western edge of the city of Sheboygan. The hilltop scene includes a winding river valley, bluffs and ravines surrounding open vistas and wooded areas populated with deer, fox, coyotes, groundhogs, woodchucks and red tailed hawks.

Student Body

In fall 1996, 491 students were enrolled, 38 percent of whom were age 22 or older. Part-time students make up 43 percent of the student population.

Facilities

The campus includes a main building; Learning Resources Building which houses the library; fine arts building with an intimate, thrust-stage, 350-seat theater; and physical education building. The centerpiece of the campus, the result of a $1.6 million project completed in 1995, is a 12,500 square foot space connecting the main and learning resources buildings. It houses a student commons, computer lab, student recreation “loft”, bookstore and student activities office. The grounds include tennis courts, areas for field sports, and a natural terrain for cross-country track and skiing.

Mark J. Tierno, Dean

Mary Ann Searle, Student Services Director

Student Services Office

One University Drive

Sheboygan, WI 53081-4789

The University of Wisconsin Center-Washington County

is situated on 87 glacier-sculpted acres on the southwest side of West Bend, one block west of the intersection of the US 45 bypass and State Highway 33. West Bend is located 30 minutes from metropolitan Milwaukee.

Student body

In the fall of 1996, 633 students were enrolled, 32 percent of whom are age 22 or older; 62 percent full-time; 38 percent part-time; 58 percent female, and 42 percent male. The campus draws students from more than 30 area high schools and four surrounding counties.

Facilities

The campus has four fully-connected buildings with classrooms, science laboratories and a greenhouse, theater, gymnasium, ceramic and art studios, music ensemble and practice rooms, a piano lab, photography darkroom, food co-op and cafeteria, bookstore, student union, and faculty and administrative offices. In addition, there is an observatory and athletic fields. The library contains an extensive collection of books, periodicals, and recordings, and is linked to the University of Wisconsin computerized catalog system. More than 35 computers are available in the adjoining two student computer labs. UWC-WC is linked to other campuses through the CentersNet computer network. Two state-of-the-art multimedia classrooms are available for use by all classes.

UWC-Washington County
Collaborative Programs

UWC-Washington County works with the University of Wisconsin-Milwaukee in several areas: first, through offering the junior year of UW-M's business program, and an Introduction to Nursing course via Interactive TV-Fixed Site (ITFS). Second, an articulation agreement with the School of Social Welfare allows UWC-Washington County students to enter their programs with full junior status. Third, UWC-Washington County offers an equivalent of the UW-M Freshman Seminar.

Special Programs

Academic

Honors Program, learning communities, evening courses, field ecology course in Canada, intensive human anatomy course, special topics and lecture series.

Scholarships

In 1996, more than $80,000 in scholarships and awards were presented to students.

Co-curricular

Varsity and intramural sports, Phi Theta Kappa national junior college honorary society, student government association, student newspaper, literary magazine, business club, Theatre-on-the-Hill performance troupe, musical ensembles, foreign language club, and other special interest groups.

Community Interest Programs

Continuing Education courses, College for Kids, Odyssey of the Mind Camp, campus-produced musicals and plays, campus/community band, campus/community chorus and symphony, fine arts and lectures series, noon-time programs, tours and trips.

The University of Wisconsin Center-Waukesha County

is located at approximately the geographic center of Waukesha County. On the western edge of the city of Waukesha on 86 acres of land, it is one mile south of Interstate 94 at the Hwy T South exit.

Student Body

In fall 1996, 1,670 students were enrolled, 41 percent of whom are age 22 or older. There is a mix of full-time and part-time students.

Facilities

The facilities include classrooms, library, science laboratories, a computer center, a study center, a greenhouse, a 337-seat theater and art gallery, on-site child care facility, a gymnasium and exercise room, soccer field, tennis courts, student union with dining area, and bookstore. UWC-Waukesha also operates a 98-acre field station 10 miles southwest of the campus on Hwy 18 at Waterville.

B.A., Olivet College
M.A., Ohio University
Ph.D., University of Wisconsin-Madison

Naim, Shamim (1985)
Professor, Geography
B.A., University of Allahabad, India
M.A., University of Allahabad, India
Ph.D., Oregon State University

Nair, Sasidharan (1984)
Associate Professor, Computer Science
B.S., Kerala University, India
M.S.C., Revishankar University, India
M.S., Ohio University
Associate Professor, Physical Education/Athletics
B.S., University of Wisconsin-La Crosse
M.A., Adams State University

Nyland, Joe (1992)
Associate Lecturer, Computer Science
B.S., University of Wisconsin-Milwaukee
M.A., University of Wisconsin-Milwaukee

Otu, Joseph (1992)
Assistant Professor, Physics
B.S., University of Nigeria, Nigeria
M.S., Simon Fraser University, Canada
Ph.D., University of Alabama

Parker, Alan (1976)
Professor, Biological Sciences
B.S., Eastern Illinois University
M.S., Eastern Illinois University
Ph.D., University of Illinois at Urbana-Champaign

Pierre, Gerald J. (1975)
Assistant Professor, English
B.A., Saint John's University (Minnesota)
M.A., University of Minnesota-Twin Cities
Ph.D., University of Minnesota-Twin Cities

Rodriguez, Cecilia M. (1985)
Associate Professor, Spanish
B.A., University of Costa Rica, Costa Rica
M.A., University of Kansas
Ph.D., University of Kansas

Associate Professor, Engineering
B.S., Monterrey Institute of Technology, Mexico
M.S., Monterrey Institute of Technology, Mexico
Ph.D., University of Wisconsin-Madison

Rohe, Randall E. (1983)
Professor, Geography
B.A., Carroll College
M.A., University of Colorado at Boulder
Ph.D., University of Colorado at Boulder

Rozga, Margaret M. (1982)
Professor, English
B.A., Alverno College
M.A., University of Wisconsin-Milwaukee
Ph.D., University of Wisconsin-Milwaukee

Rozga, Therese A. (1968)
Associate Professor, Communication Arts
B.S., John Carroll University
M.A., Marquette University

Shah, Ghulam M. (1970)
Professor, Mathematics
B.A., Kashmir University, India
M.A., Aligarh University, India
LL.B., Aligarh University, India
Ph.D., University of Wisconsin-Milwaukee

Sithole, Rejoice Dorothy (1990)
Assistant Professor, Sociology
B.A.S.W., University of Zululand, South Africa
M.S.W., Washington University
Ph.D., Washington University

Skryja, David D. (1976)
Associate Professor, Biological Sciences
B.A., University of Nebraska at Omaha
M.S., University of Wyoming
Ph.D., Arizona State University

Stadler, Shubhangi (1995)
Assistant Professor, Mathematics
B.S., University of Pune (India)
M.S., University of Pune (India)
Ph.D., University of Wisconsin-Milwaukee

Stave, Shirley A. (1993)
Assistant Professor, English
B.A., Concordia College
Ph.D., University of Minnesota

Stec, Deborah (1995)
Lecturer, Psychology
B.A., Marquette University
M.A., Boston College
Ph.D., Marquette University

Stonitsch, J. Peter (1976)
Assistant Professor, Mathematics
B.S., University of Notre Dame
M.S., University of Notre Dame
Ph.D., University of Notre Dame

Sundheim, Paul (1995)
Associate Professor, Mathematics
B.A., University of California-Santa Barbara
M.A., University of California-Santa Barbara
Ph.D., University of Texas, Austin

Toenes, Sara J. (1966)
Associate Professor, French
B.A., University of North Carolina
M.A., University of Wisconsin-Madison
Ph.D., University of Wisconsin-Madison

Weast, Donald (1969)
Professor, Sociology
B.S., University of Wisconsin-Madison
M.S., University of Wisconsin-Madison
Ph.D., University of Wisconsin-Madison

Werner, Steven E. (1974)
Associate Professor, History
B.A., Lawrence University
M.A., University of Wisconsin-Madison
Ph.D., University of Wisconsin-Madison

Wickliffe, Morris E. (1976)
Associate Professor, Physics
B.S., Arkansas Polytechnic College
M.S., University of Wisconsin-Madison
Ph.D., University of Wisconsin-Madison

Zanichkowsky, Elizabeth M. (1993)
Assistant Professor, English
B.A., University of Wisconsin-Madison
M.A., University of Wisconsin-Madison
Ph.D., University of Wisconsin-Madison

Zessin, Bruce D. (1969)
Associate Professor, English
B.A., University of California-Los Angeles
M.S., University of Wisconsin-Madison
Ph.D., University of California-Los Angeles

Zwelfel, Philip (1976)
Associate Professor, English
B.A., Saint John's University (Minnesota)
M.A., University of Wisconsin-Madison
Ph.D., University of Wisconsin-Madison
