

UNIVERSITY OF WISCONSIN WHITEWATER

ACADEMIC ASSESSMENT

GERMAN EDUCATION

MISSION STATEMENT

The Foreign Language Programs within the Department of Languages and Literatures serve the mission of the College of Letters & Sciences and the University as a whole by encouraging students to develop diverse perspectives, civic responsibility and engagement, and personal and professional integrity while preparing for careers and life-long learning. Learning a foreign language benefits our students by improving their ability to make connections across the curriculum with other subjects. The Department offers a comprehensive curriculum in French, German, Spanish, as well as an array of courses in Japanese, Chinese and Arabic for undergraduates seeking to fulfill major, College, and University requirements, as well as those seeking language preparation for other opportunities.

Through our programs, students develop skills in listening comprehension, oral and written communication, and textual literacy, which facilitate awareness and appreciation of the contributions of other cultures to contemporary society; cultural sensitivity and respect through engagement with those cultures; and critical thinking skills, through reflecting on the differences and similarities between the target cultures and their own.

The Department's mission is to help students become tolerant, open-minded citizens and sensitive, knowledgeable people who understand linguistic and cultural diversity, and can adapt to change as competitive participants in our increasingly diverse, multi-cultural and global society. Our mission is to help students develop the linguistic, literary and cross-cultural competence necessary to live, work and be lifelong learners in our diverse world.

The Foreign Language Program's expertise in various world languages reaches out into and serves the larger community and region. Faculty, Academic Staff and/or student interns provide valuable paid or volunteer assistance with translation and interpreting. Service learning components in some courses help students see real-life application of their foreign language skills. These activities benefit area institutions and organizations while creating ties between the university and surrounding communities.

STUDENT LEARNING OUTCOMES

Student learning outcomes (SLOs) are statements of what a student will know or be able to do when they have completed a program. They represent the knowledge and skills a program has determined are most important for students to gain from that program. The most useful SLOs are specific and measurable so the program can accurately assess the degree to which students have achieved each outcome, and they align with college and institution mission and values. Data on achievement of SLOs is used to make improvements in the program and increase student success.

- **Knowledge of human cultures and the physical and natural world**

UW-Whitewater students who major or minor in foreign language will develop Knowledge of human cultures and the physical and natural world through...

- The study of foreign languages and their literatures, civilizations, and cultures;
- Communication of their views and perspectives in the target language;
- Connections with diverse communities;
- Engagement with current social and political trends and issues; and

In addition to the student learning outcomes for German, students who major in German Education will also meet the following education standards from the Interstate New Teacher Assessment and Support Consortium (INTASC):

- **[Standard 1: Content Pedagogy]** He or she must understand the central concept and structure of discipline and it must be created in such a way that students can learn from it effectively.
- **[Standard 2: Student Development]** The teacher must be able to understand the student's ability to grasp things and must come up with the methods that can offer better personality development of the students.
- **[Standard 3: Diverse Learners]** The teacher must know that the students have different capabilities of learning and based on that must train them.
- **[Standard 4: Multiple Instructional Strategies]** The teacher must be able to understand and use a variety of instructional strategies so that they are able to solve problems, think critically and show better performance.
- **[Standard 5: Management and Motivation]** The teacher must be able to understand individuals and create a learning environment to encourage positive social interactions, self-motivation and active learning engagement.
- **[Standard 6: Technology and Communication]** The teacher should use verbal, non-verbal and media communication to impart knowledge in the students for their better understanding of the subject matter.
- **[Standard 7: Planning]** It is highly recommended that the teacher must be able to plan various things for students such as curriculum, community and students, and knowledge of subject matter.
- **[Standard 8: Assessment]** The teacher assesses the students formally or informally to evaluate the social, intellectual and physical development of the students.
- **[Standard 9: Reflective Practice: Professional Development]** The teacher is considered a reflective practitioner who can evaluate the effects of the choices and actions on others and prepares students to face the world professionally as well.
- **[Standard 10: School and community Involvement]** The last standard of [INTASC standards](#) is to develop the relationship amongst students, colleagues, society, parents and various other agencies to support learning and well-being.
