

Voluntary Withdrawal from Participation in Investigation

I wish to voluntarily decline my further participation in the current investigation being conducted on my behalf by the University of Wisconsin-Whitewater Police Services. I understand this means my case will be administratively closed and inactive. I further understand my case will not be reopened on my behalf unless done so at my explicit request. I understand that once closed, my case becomes a matter of public record. I also understand the closing of my case does not release me from any liability or charges which could result from the further investigation of my case.
