Admission to the College of Business and Economics Requirements

To take upper division business courses as a business major you must first be admitted to the College of Business and Economics. Admission to the College of Business and Economics requires that you meet the following criteria:

1. Have 54 or more projected units. Projected units are the number of units that will be earned at the end of the present term.
2. Have finished or be registering for the last courses in the **unique and lower division requirements**, and **communication skills**.
3. Have passed the Computer Applications Test (CAT) or completed COMPSCI 162 Computer Applications course.
4. Have earned a combined (transfer and UW-W) gpa of at least 2.8.

All of these criteria are effective at the end of the semester in which an application is submitted. If any one of these are found to be lacking at the end-of-semester review, admission to the upper division will be rescinded. Students are admitted to the upper division on a temporary basis for registration purposes; admission is not final until the end-of-semester review.
