## Inclement Weather

### OFF-CAMPUS CLASSES

The operation of an off-campus class in a weather emergency will be governed by whether the facility at which the class is held is open. If the facility is closed, the class will be canceled. Each class will use its own system for notifying students of a cancellation.

### ON-CAMPUS CLASSES

Only on rare occasions is the UW-Whitewater campus closed due to weather emergencies. Students should check their campus email and the university's Web page for class cancellation notification. If a faculty member is unable to conduct a class because of weather, it is the responsibility of that faculty member to notify the department chairperson's office.

## Telephone Procedures

### Administrative Dialing Features

#### SWITCH HOOK OPERATION

Essential to Centrex features use is proper switch hook operation. Press the switch hook all the way down and then release it immediately. It may take several tries to learn your telephone's depression-time requirement, which should be about one second.

#### CALL TRANSFER

Any call that comes to your telephone from inside or outside the Centrex system, or any call that you make yourself, can be transferred to any other Centrex lines.

To Transfer a Call: Depress the switch hook once. Wait to hear 3 short tones and then a steady dial tone. Next, dial 4-digit number. Tell person who answers that you are transferring a call to them and hang up.

If you get no answer or a busy signal when attempting to transfer a call, depress the switch hook twice to return to the original call. (You may hear a "click" shortly after reconnecting with the caller; this is normal.)

#### THREE-WAY CALLING

To add a third party to a call: Depress the switch hook once. After you hear three short tones and then a steady dial tone, dial the party. When you are talking with a third party, depress the switch hook once more and begin the three-way conversation.

If the third line is busy or there is no answer, depress the switch hook twice to return to the original call. (You may hear a "click" shortly after reconnecting; this is normal.)

#### CONSULTATION HOLD

To consult privately with a third party while a call is in progress: Depress the switch hook once. After you hear 3 short tones and then a steady dial tone, dial the third party and talk. To return to the original call, wait for the third party to hang up and depress the switch hook twice.

*\*Regarding Call Transfer, Three-Way Calling or Consultation Hold:* if you encounter a "busy" or "don't answer" at the third telephone depress the receiver button twice, once to bring the original person back on the line and once to eliminate the "busy" or "ringing" signal.

#### CALL HOLD

To place a call on hold: Depress the switch hook once and dial 62. To return to the original call: Hang up your phone and it will ring back with the held call on it.

#### CALL FORWARD VARIABLE

Use Call Forward Variable to redirect your calls to another phone on campus. Please approve all call forwarding with recipient before activating this feature. If you have trouble setting up this feature, call Telcom Services for assistance at 472-5020.

To set up, dial 63, listen for a dial tone, and dial campus number to forward to. When call is answered, your calls will be forwarded. If you hear the busy tone or your call is not answered, repeat the above procedure within two minute and you will hear a confirmation tone (3 beeps).

To forward your phone calls to any off-campus phone number, dial 63 (+) off-campus number.

To delete Call Forwarding, dial 64 and hang up. To forward calls to off-campus numbers, please call Telcom Services at 472-5020 for additional instructions.

#### SPEED DIALING (6-STATION)

To activate, lift handset and dial 655. Dial one digit code (2-7) then dial number you wish to store. Listen for steady dial tone. Hang up. The number is now stored.

To use speed dial, dial one-digit code (2-7) plus #. You must program in the "9" as part of the stored number.

## Optional Department Features *(Contact Telcom Services at 472-5020)*

### CALL PICKUP

This feature enables a Centrex Station user to answer in-coming calls on another phone in the same prearranged pickup group.

To answer another phone in your pick up group, pick up your receiver and dial 66.

To answer a second call, depress switchhook once and dial 62 (call hold.)

Then dial 66 (call pickup.)

### 6-WAY CONFERENCE

This feature allows an administrative user to conference with up to 6 people at one time. To activate 6-way conference, lift handset, hear dial tone, dial the conference code **657**. Listen for steady dial tone, dial number of first party. Party is automatically connected upon answering. To add next conferee, depress switch hook, hear special dial tone. Dial number, announce conference, depress switch hook to begin conversation. Repeat procedure for each conferee to be added.

### CALL FORWARD BUSY

This feature will forward calls to another campus telephone while you are presently on the telephone.

### CALL FORWARD DON'T ANSWER

This feature will automatically forward your calls to another campus telephone if your telephone is not answered within a predetermined number of rings.

### SPEED CALLING 30 (BILLABLE FEATURE)

A telephone with this feature is capable of programming and storing a list of frequently called numbers.

The numbers on the list are accessed by dialing a two digit code. To program a number on the speed call list,

1. Lift handset, listen for dial tone and call 656.

2. Dial speed number calling code, a two digit number (20-49).

3. Dial the four digit campus number or, dial 9 + Local number

For Long Distance:

Dial 8 + 1 + Area Code (if not 262) + number

To change the speed call number, simply program over. To access speed call number, simply dial \* + the two digit code number (20-49).

### TO REACH THE UNIVERSITY OPERATOR

Dial 1234

### TO PLACE A CAMPUS CALL

Dial 4 digit number

### TO PLACE A LOCAL CALL

To Whitewater Dial 9 + Local Number

To Palmyra/LaGrange Dial 9 + Local Number

To Fort Atkinson Dial 9 + 920 + Local Number

To Richmond Dial 9 + 608 + Local Number

These are still local calls even with the area code.

\*\* All other calls should use the STS Network:

8 + 1 + Area Code + Number

*\*Regarding long-distance calls - After attempting to or completing a long distance call, hang up for at least 5 seconds before making any other calls; additional charges may occur if this is not done.*

### TO PLACE AN INTERNATIONAL CALL

International Calls should be dialed using

8 + 011 + Country Code + City Code + Local Number

### OTHER DIALING INSTRUCTIONS

To call an 800 (877, etc) Toll Free Number, dial 9 + 1 + 800 + telephone number

### FOR DIRECTORY ASSISTANCE

For Directory Assistance (Local or Long Distance), dial 8 + 1 + AC + 555-1212

For credit card, collect, person to person and international calls, dial 9 + 0 + telephone number

### TO REPORT A PHONE PROBLEM

Contact Telcom Services at 472-5020

### FOR ADDS, MOVES OR CHANGES IN TELEPHONE SERVICE

Complete the Telephone Installation/Repair Request form found on the university's website at:

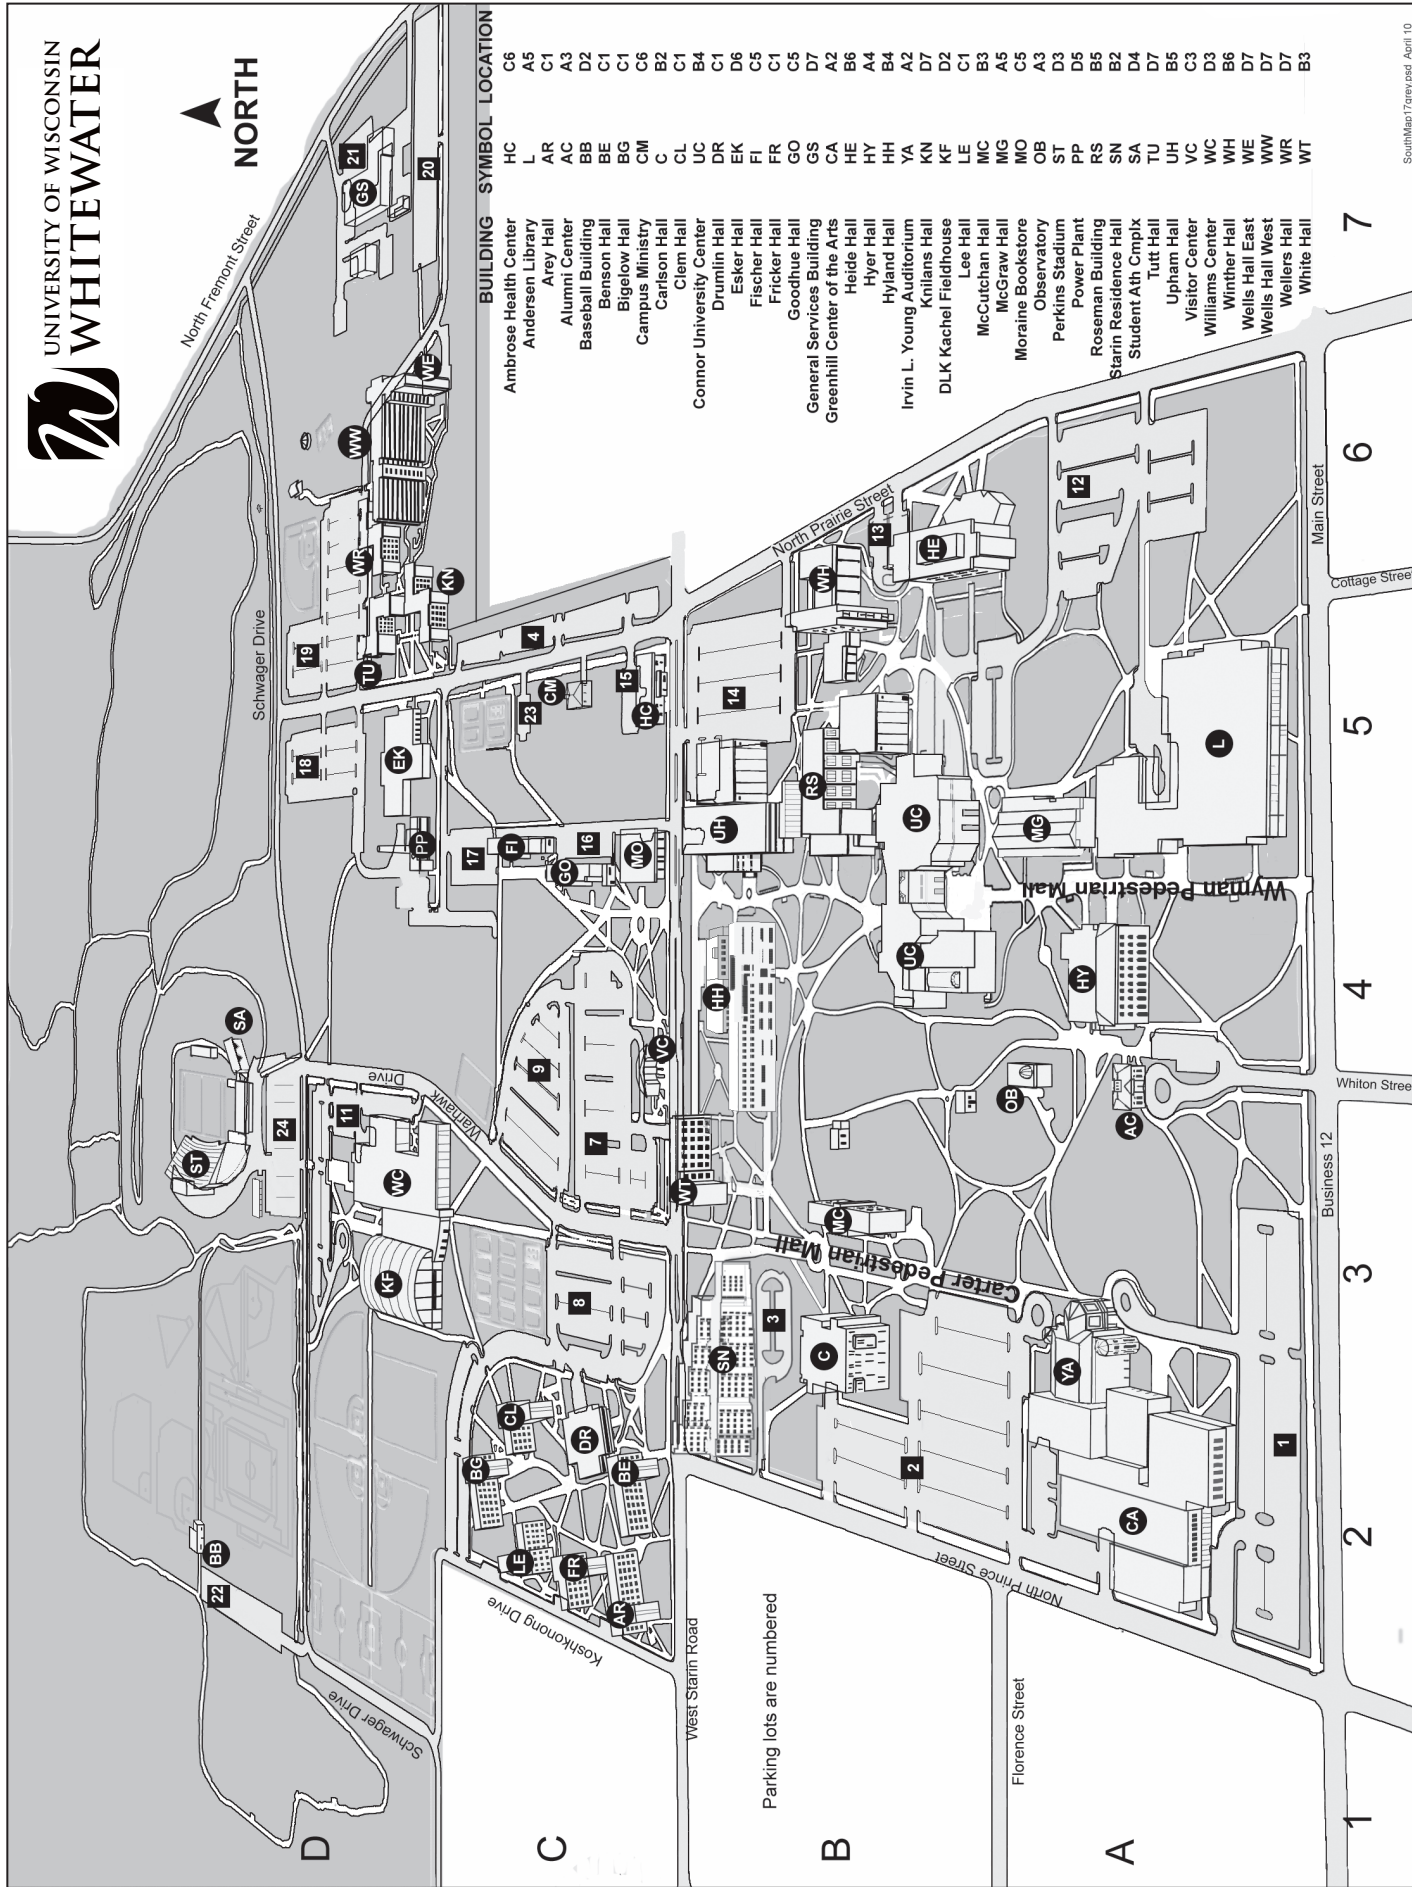

<http://www.uww.edu/Adminaff/forms.htm>.

For questions or assistance, call 472-5020.

### FOR ADDITIONAL INFORMATION

Call Telcom Services at 472-5020.

*\*Use of State Telephone System (STS) is intended for governmental use. Personal use of State Telephone System is prohibited under the DER rules under ERPERS 24.04 and The Private Line Services Tariff 2 General Regulations, 2.5.2 (A)(1).*
