The Warhawk family isn’t just an expression — it’s how we live.

With award-winning academic programs, a community location and a passionate commitment to student success, UW-Whitewater is home to more than 13,000 students every year. For more than 150 years, UW-Whitewater has been welcoming students to the Warhawk family, setting them up for success and then challenging them to go places — through undergraduate research, a semester abroad, a life-changing internship or leadership in a student organization that is making a difference in the world — they may never have thought they could go.

We’ll let some of those students tell the story about UW-Whitewater — and what having faculty and staff dedicated to your learning and your success can do for you.
UW-Whitewater leads the way in preparing students with the outstanding skills that make them strong candidates for 21st-century careers and community leadership. We are world-renowned for our education, music and business programs, but boast just as proudly of programs as diverse and respected as political science, biology, communication, theatre and media arts and game development.

Warhawks benefit from our fierce focus on student success, from small class sizes and free tutoring to professors who choose UW-Whitewater because it means they get to work directly with students, in the classroom — and beyond. Our transformative programs are designed to provide you with all the opportunities, challenges and skills you desire.

Hands-on opportunities.
Senior chemistry major Pontian Adogamhe, left, received an honorable mention from the prestigious Goldwater Foundation for the undergraduate research he conducted with his faculty mentor, Associate Professor Christopher Veldkamp.

Adogamhe, who began working on his research project as a Ronald E. McNair Scholar, was the recipient of the 2018 A.G. McGraw Award for Student Excellence. After graduating, he plans to pursue a medical research degree in tropical medicine and infectious diseases.

Media Arts and Game Development students get lots of opportunities to do hands-on work at UW-Whitewater, including bringing wizards and witches to life for a major festival installation. In “Moving Portraits,” MAGD undergraduate student Fernanda Andrade talks about how she came up to speed on framing, partial effects, lighting and programs like After Effects and Premiere Pro with the support of mentor Bill Miller. To find out more, visit tinyurl.com/yygawzaq

Hands-on opportunities.
For the third consecutive year, UW-Whitewater has been named among the Colleges of Distinction — a national honor that recognizes campuses for exceptional teaching and dedication to student success. To be accepted, schools must rate highly on four distinctions: engaged students, great teaching, vibrant community and successful outcomes.

National recognition.

At UW-Whitewater, we are committed to your success. Whether you just need a little help with a challenging class or you’ll be using services through our nationally recognized Center for Students with Disabilities — we’ve got you covered. Our award-winning programs for students from diverse backgrounds champion engagement, educational achievement and leadership. And if you are a high-performing student, we’ll push you even further than you thought you could go.

**Equation for success.**

Molly Robbins, a math education major from Kenosha, Wisconsin, who went to Tremper Senior High School, tutors math at the 18,000-square-foot Mary Poppe Chrisman Success Center.

“One thing I noticed after being here was how focused the whole community of Whitewater was on student success. Like, I didn’t realize how much we put into the tutoring center. And I didn’t even know that when I was looking at schools — I didn’t know to look for those things. Now that I know and am involved — I am a tutor and I get tutored, so I’m on both sides — I’d recommend that to everyone. That should be your first question when you ask about a school. What do you do for students to help them succeed?”

For more of Molly’s thoughts on student success, visit tinyurl.com/uwwsuccess-molly
International win. In 2018, Luke Lamberg and two other students in the Media Arts and Game Development program won a first-ever student competition in Pisa, Italy — competing against teams of graduate students from around the world. For more on how MAGD faculty members like Nick Hwang challenge and support the students in the growing program, view “Hands of Time” at tinyurl.com/y6j4solb.

Now that’s an internship. Brian Diggs, a finance major from Milwaukee who graduated from Audubon Technology and Communication Center High School, stands outside Bloomberg L.P., a financial, software, data, and media company in midtown Manhattan in New York, where he interned for the summer.

“Working at Bloomberg is worthwhile. It’s a transparent company — You can literally talk to anyone, even (founder) Michael Bloomberg. It really opened my eyes about just what a difference that makes. And working with the newest Bloomberg terminals has been great — I can’t wait to bring that knowledge back to campus.”

Marketing major Cynthia Lor studied in Rouen, France, as part of her undergraduate experience. Warhawks study abroad in dozens of countries every year, from Jamaica to Spain. After completing digital marketing internships in several companies, she was hired as a junior digital marketing specialist before she graduated in May 2018.
More than 93% of our freshman live in university housing and enjoy a vibrant campus in a welcoming and accessible community. The city of Whitewater provides students with an abundance of recreation opportunities, and we are close to major cities like Milwaukee, Madison and Chicago — as handy for world-class entertainment and shopping as it is for an exceptional number of internship and research opportunities. Daily shuttles and buses can take you to Janesville, Milwaukee and points beyond, including major airports.

Students enjoying Steak and Shrimp Night at Drumlin Hall, one of 24 dining concepts on campus.

Psychology education major Allyson Weisbrod relaxes in her room in Lee Hall. Thirteen residence halls offer a variety of living options, and in every case the laundry facilities on site are free of charge.

Early childhood education major Liz Kimmes joins other members of the Warhawk men’s and women’s wheelchair basketball teams in the university’s Homecoming Parade as it passes down Main Street.
For more on our 14 master’s degree programs — to choose from at UW-Whitewater.

From our popular program where students complete a Bachelor of Business in Accounting and then a Master of Professional Accountancy in just five years to our master’s degree programs in school counseling and social work, we have a ton of options. And US News and World Report ranks our online MBA program as #16 in the nation!

For more on our 14 master’s degree programs, 16 certificates, and our doctoral degree program, visit www.uww.edu/gradstudies.

You’ll find more than 50 majors and 119 minors — and many areas of emphasis — to choose from at UW-Whitewater.

HawkSquad member
Intern, Aurora Healthcare

From the number of students hired before graduation to their average starting salary of $41,900 — which is more than comparable schools — our graduates hit the ground running. Their internships, undergraduate research and leadership opportunities mean they are ready to demonstrate value and make a difference in the workplace from day one.
Rock here at U Rock — where the College of Integrated Studies combines the advantages of a small college with the resources of the world-class University of Wisconsin System. At UW-Whitewater at Rock County, you’ll find hundreds of in-person or online classes to choose from. You can complete an Associate of Arts and Sciences degree (AAS), designed to prepare you for the next phase of your academic or career journey. If you decide it’s a bachelor’s degree you desire, we’ll help you transition seamlessly to the Whitewater campus or transfer to any UW System university that’s the best fit for you.

Start here and go anywhere — let us take you there! For more information, visit uww.edu/rock.
Once you are a Warhawk, you can apply for the many scholarships or campus jobs available — every year.

We know you want to spend your education dollars wisely. Fortunately, we’re one of the best values in the country — not just the UW System. Many students are surprised to find that our textbook rental program — included in tuition and fees — is by far the most comprehensive in the state, covering 95% of course materials. For the average freshman, that means a savings of almost $2,000! When you are comparing universities, remember to factor in all of the costs — tutoring, laundry, and admission to regular-season sporting events are at no extra cost at UW-Whitewater, too.

Once you are a Warhawk, you can apply for the many scholarships or campus jobs available — every year.

Math major Lizzy Carranza-Torres selects her textbooks in the rental area of the UW University Bookstore. Picking up your books is easy at either of our campuses — most can be rented, and the cost is already included in your tuition and fees. Just return the books at the end of the semester to avoid any charges.

The BEST VALUE in the UW SYSTEM
Complete the online application at apply.wisconsin.edu.
Pay the $50 application fee
Submit an official copy of your high school or college transcript
Submit your ACT/SAT scores
ACT Code: 4684, SAT Code: 1921

Application available
Apply online at apply.wisconsin.edu.

Submit your application
Your application will be reviewed once we have received your application, fee, transcripts and test scores. Watch out for your admission decision in the mail!
- Applying as a transfer student? Visit www.edu/admissions/transfer to learn more about application deadlines.
- Applying to our Rock County Campus? Visit uww.edu/rock to learn more about application deadlines.

Start your housing contract
Visit uww.edu/housing to get started.

Sign up for your math placement test
Prior to registering for a math course, you will need to take the University of Wisconsin System Placement Test.
- For more information regarding main campus placement testing, visit testing.wisc.edu.
- For more information regarding Rock County Campus placement testing, contact the Warhawk Solution Center at 608-758-6541

Register for Warhawks SOAR
Warhawks SOAR (Student Orientation, Advising, and Registration) is your must-attend one-day session where you’ll learn about campus resources, get to know other new Warhawks and register for classes. SOAR dates for new freshmen take place in May and June. SOAR dates for transfer students are held April-July. Visit uww.edu/fye to learn more.

Application deadline for university academic scholarships
New freshmen who have been admitted to UW-Whitewater main campus by Feb. 1 will be automatically considered for academic scholarships. Scholarships are competitive and are awarded through a pooled process in which students with the best academic credentials receive merit aid. For more information regarding transfer and UW-Whitewater at Rock County academic scholarships, contact uwwadmit@uww.edu.

TITLE IX · NOTICE OF NONDISCRIMINATION

The University of Wisconsin-Whitewater (University) prohibits discrimination on the basis of sex in education and employment, including any educational program or activity receiving federal financial assistance, in accordance with Title IX of the Education Amendments of 1972 (“Title IX”) (20 U.S.C. §§1681 et seq. and its implementing regulations, 34 C.F.R. Part 106). This prohibition applies to all forms of sex discrimination, including sexual harassment and sexual violence. The University is committed to providing a safe environment for all students. We will take prompt and effective steps to respond to complaints, pursuant to our Sexual Misconduct Policy: uww.edu/student-handbook/policies-sexual-misconduct.

For more resources and to file a complaint, go to uww.edu/dean-of-students/reporting-forms or contact:
