

# History of Mexico

Histry 346; Fall 2019

Meets Mon. & Wed. 3:30-4:45 pm

Instructor: Dr. Bert Kreitlow

This course traces Mexico's past through its panorama of indigenous peoples and in to its conquests and combinations under the Spanish up to the modern era of revolutions and almost constant migrations. Getting to know better our neighbor makes Mexico's opportunities more accessible to activists, business people, those with Latino clients and anyone interested in the field of history or the shape of our future.
