The curriculum in the College of Education and Professional Studies is structured so that students move through classes in a prescribed order. Prerequisites are important and are strongly enforced. The four year plan illustrates the type of curriculum a new freshman could take to complete a degree in four years; it is not an official document. Refer to Academic Advising Report for full requirements.

Sample Academic Advising Reports are available online at [www.uww.edu/registrar/sample-aars](http://www.uww.edu/registrar/sample-aars).

**First Year Advising Notes:** Admission to the Early Childhood Education program is held only in the Fall semester. You need a minimum of 30 credits to apply and a GPA of 2.75 or better. The program is highly competitive, and will close out at 30 participants.

**Goals:**
- Talk to your academic advisor about your interests and goals and begin to understand career options for your major. Explore student groups and organizations and join one that feels right for you. These groups offer a great way to learn more about the major and begin networking.
- Explore on-campus resources such as undergraduate research opportunities, the Mary Poppe Chrisman Success Center, and the Center for Global Education.

**After your first year:**
- Become comfortable in understanding and reading your Academic Advising Report.

Students must begin their Math and English sequences with the appropriate course. The English course a student starts with will be determined by their ACT English or SAT Verbal score. The Math course a student starts with will be determined by their UW System math placement score.

Students seeking this licensure are required to seek Admission to the College of Education and Professional Studies. Admission is required for students to take upper division courses in their educator preparation program. Eligibility requirements can be found at: http://www.uww.edu/coeps/advising-admissions/admission-to-professional-education

The dual licensure Early Childhood Education Bachelor of Science in Education (BSE) is an interdisciplinary undergraduate program that focuses on preparing students with skills and knowledge they will need in order to teach any young child from birth through third grade. Program completers will be endorsed for licensure to teach regular and special education at the Wisconsin Department of Public Instruction Early Childhood developmental level in community childcare facilities, birth-to-three programs, Head Start, preschool, 4 and 5 year-old kindergarten, and grades 1-3.

This program does not require completion of a minor. Students may choose to pursue any minor offered at UW-Whitewater is they wish, however, IT WILL LENGTHEN TIME TO GRADUATION. If the student completes a licensable minor, they will be endorsed for licensure in their minor content area as well.

Students will be required to pass additional assessments prior to student teaching and licensure.
