

Criterion #2 Committee  
Meeting Minutes  
April 13, 2005

Criterion #2 Committee met to discuss progress since previous meeting. Several members had done work that provided significant information. Chris Clements had prepared an extensive draft outline which contained both detailed narrative and also suggestions needing further expansion. Committee decided to build additional responses on Chris's format. Upon completion, members are to submit their drafts to Randy Marnocha who will compile them into a single draft and edit for content and style. Committee agreed to begin work on core component 2B for discussion at the next meeting.
