

Criterion #2 Committee
Meeting Minutes
March 18, 2005

Criterion #2 Committee met to discuss progress since last meeting. Due to busy schedules, little work had been done. Committee agreed to focus work on core component 2A in preparation for next meeting. Each member would provide evidence within their respective areas of responsibility that would show planning efforts across the institution. Committee reviewed models of HLC reports prepared by other institutions and chose Illinois State as the model to pattern our report after.
