

H-Option Project Ideas

Dept	Course Name	Professor Name	Project Description
Account	244 Introduction to Financial Accounting	Pam Champeau	Completed additional financial reporting and analysis problems at the end of each chapter.
	244 Introduction to Financial Accounting	Lynn Hafemeister	Prepared the Special Financial Reporting Problem at the end of each chapter covered in the text.
	465 Auditing	Bill Tatman	Prepared a class presentation about Forensic Accounting/Auditing in addition to a 7-10 page paper on why Forensic Auditing is beginning to grow as an industry.
Anthropl	218 Cultural Anthropology	Jo Ellen Burkholder	Conducted a "mini ethnography" of a new experience with more hours of observation and a more thorough and extensive analysis of collected data than the rest of the students.
ArtStdio	341 Sculpture I	Dan Mcguire	Attended and documented a foundry iron pour, and then created 2 slide shows with pictures and information about safety and the artistic possibilities of iron.
	352 Ceramics II	Jared Janovec	1) Attended and documented the work of a visiting artist, then wrote how the work impacted me as an artist. 2) Attended the Kohler trip/ visited John Michael Kohler Art Center and documented the experience. 3) Explored the kiln firings at UWW.
Astronomy	114 Descriptive Astronomy	Juliana Constantinescu	Read books that described conditions and characteristics of a planet. Compared scientific information with scientific fiction and extracted information that was presented in class.
Bio	254 Biotechnology Laboratory Methods I	Mark Kainz	Examined the interaction between N protein monomers of tomato spotted wilt virus with the aim of defining interaction required for the formation of ribonucleoproteins. Used a 2-hybrid assay to study these protein-protein interactions.
	363 Molecular Biology	Kirsten Crossgrove	Wrote a detailed paper describing research on PDE3B (phosphodiesterase 3B) protein expression in patients with proteus syndrome at the Medical College of WI.
ComDis	355 Language Development and Disorders in Children	Ann Massoglia	Researched the importance of play for young children. Presented information in a power point.
EarlyChd	322 Early Childhood Music Methods	Sheila Feay-Shaw	Taught a music lesson in a kindergarten classroom. The lesson was recorded and a paper was written on the strengths and weaknesses of the lesson and experience.
	340 Nutrition & Health: Early Childhood	Robin Fox	Researched gastrostomy feeding tubes and presented information to class along with personal experience with gastrostomy feeding tubes.

Dept	Course Name	Professor Name	Project Description
EarlyChd	475 Administration of Preschool Programs	Arlene Martin	Researched a topic relevant to the needs of the staff and parents of a child care center. Created a workshop to be presented to teachers, parents and interested parties. This information was presented to the class in a 10 minute oral presentation.
Econ	201 Microeconomics	David Bashaw	Explored the areas of international trade with China and how supply and demand affects price on an international level. Wrote a paper to reflect findings.
	202 Principles of Macroeconomics	Richard McGregory	Constructed a compare and contrast paper dealing with the contrasting ideas concerning a recession in the US
	245 Business Statistics	David Bashaw	Researched and analyzed data samples concerning the comparison between rural and city counties and their property value, tax rate, and services offered.
	245 Business Statistics	David Bashaw	Researched data regarding jobs and salaries and analyzed it by finding a regression line. Wrote a summary why the data was or was not compatible with each other and reasons for it.
EduIndp	441 Directed Teaching B: PS	Simone DeVove	Worked with a student working towards being a SLP and an early childhood teacher as a part of a grant project for an IEP planning team.
Elemmid	425 Teaching Math to Elem/Mid Grades	Susan Kidd	Explored a new/controversial math-related topic, expanding on class concepts. The findings were presented in class presentation and a paper.
English	281 Introduction to Language Study	Edward Erdmann	Studied phonology, morphology, syntax, and pragmatics of Klingon, an artificial language based on actual world languages, and presented findings to the class.
	368 American Minority Women Writers	Geneva Moore	Read the novel "The Namesake" by Jhumpa Lahiri and wrote a comparative analysis to Louise Erdrich's "Love Medicine." Presented project to the class at the end of the semester.
	370 Advanced Composition	Karen Buckley	Read Deborah Blum's "Ghost Hunters" and evaluated her argument in terms of research and conclusion based on class discussion on what makes a valid argument and Carl Sagan's emphasis on using the scientific method in argumentation and proof.
Fnbslw	341 Business and Commerical Law	Linda Reid	Wrote a 8-10 page paper regarding how discrimination has changed over the years and how it applies to this major.
	360 Financial Institutions	Jianzhou Zhu	Made a quantitative assessment of the performance of the U.S. equity market during the last five years

Dept	Course Name	Professor Name	Project Description
Fnbslw	401 Financial Planning	Thomas Wolfenberger	Built an investment portfolio and managed the acquisition and disposition of investments under various scenarios. The tax implications of buy/sell activities were calculated on the overall return on investment.
	401 Financial Planning	Thomas Wolfenberger	Created and managed asset allocation strategies for various life stage financial planning scenarios taking into account numerous and periodic events. The impact of these events were analyzed and new strategies were developed.
	456 Securities Analysis	John Howat	Organized the financial statements of the applied investment program and calculated portfolio returns.
French	482 Contemporary French Literature	Regis Lecoanet	Looked deeper into each concept on books read in class and discussed thought-provoking topics with professor weekly or bi-weekly.
GenEd	110 World of the Arts	Charles Grover	Completed twice as many projects (on dance, visual art, music, or theatre) as other students (who typically do one in each area).
	110 World of the Arts	Jane Ferencz	Wrote a paper on a famous cellist discussing their life, achievements, and influences.
	110 World of the Arts	Jane Ferencz	Researched an art form from the Renaissance time period with the information shared in a paper and presentation. Also performed with the Madrigal singers quartet to demonstrate some music from the Renaissance.
	110 World of the Arts	Marshall Anderson	Wrote a research paper elaborating on a topic beyond what is learned in class.
	110 World of the Arts	Julia Ince	Researched the life and works of Pablo Picasso in secondary print and internet sources. Findings and conclusions were presented in a 3-5 page paper.
	110 World of the Arts	John Tuinstra	Wrote longer required papers focusing on the art and the connection to the course. Attended two additional events and wrote papers as well.
	130 Individual & Society	Lauren Smith	Participated in group project to develop annotated bibliography; each member read a few scholarly articles, contributed to the bibliography and wrote an 8-10 page paper distinguishing own research from group's.
	130 Individual and Society	Melissa Deller	Designed an honors course by typing all lecture and text notes and supplied supplementary materials relating to course materials.
	130 Individual and Society	Carolyn Morgan	Researched outstanding reports and scales of judging responses. Collected data regarding attitudes toward feminism and wrote a proposal under the Institutional Review Board Guidelines.

Dept	Course Name	Professor Name	Project Description
GenEd	140 Global Perspectives	Susan Johnson	Wrote a five page paper on how people see the United States, how people long to come to the United States, and how hard it is to travel to the United States.
	140 Global Perspectives	Xia Lollar	Wrote an additional 5 page paper on a topic regarding global perspectives or international relations, with the topic approved by the professor.
	140 Global Perspectives	Charles Cottle	Wrote a 10 page paper about a new student organization that she began: P.E.A.C.E (Peace, Education, and Activism through Creative Engagement) regarding the goals and processes of the organization and its relationship to the global society.
	390 World of Ideas	Joseph Hogan	Read "The Symposium" by Plato and wrote an essay describing reactions to the reading.
	390 World of Ideas	David Cartwright	Read and investigated the ideas of Carol Gilligan in the book, In a Different Voice, then applied the new knowledge to the idea of the overwhelming number of women in the major and profession of Communicative Disorders.
	390 World of Ideas	Marjorie Rhine	Provided links in the discussion section of D2L with information about the authors or other information related to the class readings.
	390 World of Ideas	Martin Henn	Read the book "Brave New World" and wrote a paper discussing the theme of the book while comparing and contrasting today's society with the future society in the book.
Geology	100 Principles of Geology	Juk Bhattacharyya	Wrote a 3-4 page paper describing the economical effect that the explosion of Mt. St. Helen had on the surrounding area.
HealthEd	391 Nutrition for Health	Ann Garvin	Recorded a 3-day log of two people's diets. Analyzed the diets using Nutrical and mypyramid.gov and recommended ways to improve their diet and nutrition.
Journlsm	220 Foundations of Advertising	Ginny Stuesser	Used a media outlet to create a visual/audio presentation to accompany required final project.
Math	143 Finite Mathmatics for Business and Social Sciences	Malvina Baica	Completed Causs-Jordan method in solving systems of equations with infinitely many solutions and transportation problems using the simplex method.
MCS	314 Advanced Database Design and Administration	Robert Leitheiser	Researched current and developing data storage techniques with extra attention given to cost, speed, and feasibility. A presentation was made to the class with findings.
Musc	422 The Assessment of Music Learning	Sheila Feay-Shaw	Designed rubics for self and teacher evaluation for use with private violin students. Wrote paper on results of the use of self-evaluation rubics for students.

Dept	Course Name	Professor Name	Project Description
Philsphy	241 Introduction to Philosophy	David Cartwright	Explored the aspects of aesthetics in philosophy through primary and secondary research as well as meeting with the "Aesthetics" professor at UWW. Then wrote a 7-10 page research paper.
Physics	305 Mechanics - Statistics	Juliana Constantinescu	Designed two "tools:" a tool used to turn a plastic pipe and a luggage carrier.
RaceEth	217 Ethnic Politics	Paula Mohan	Wrote a 5 page paper including a reference page on Jena 6.
Reading	360 Reading in Elementary/Middle School	Susan Toms-Bronowski	Learned about the phonics program Jolly Phonics through research and then observed the program in a classroom setting. Then decided whether the program was effective and if any improvements can be made.
Safety	380 Industrial Accident Prevention	Deborah Bowen	Completed the OSHAcademy Occupational Safety and health Network's online course, "OSHA 300 Recordkeeping," which consists of seven modules, seven review quizzes, and a final exam.
Sociolgy	265 Race & Ethnic Politics	Holly Denning	Wrote three 2 page papers describing attendance at presentations or watching videos and related them to class concepts. One large paper was also written explaining the personal effects of diversity on student's life.
	374 Sociology of Police and the Courts	Richard Salem	Wrote 6-10 pages (double class requirement) citing four sources regarding the several different aspects of Juvenile delinquency and what society can do to rehabilitate and change the criminal behavior of the youth.
SocWork	372 Social Work Practice II	Sarah Sheridan	Researched and presented Chapter 7 of the text to the class dealing with age, class, color, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, sex, and sexual orientation.
Spanish	333 Spanish-American Readings I	Pilar Melero	Wrote a paper that expanded on a piece of literature that was read and discussed in class. Literary techniques and/or styles were included in the paper.
SpecEd	406 Career/Vocation/Transition Programming	Richard Lombard	Researched people in history who have disabilities but have accomplished great things and wrote findings in a paper.
Speech	110 Introduction to Human Communicati	William Lowell	Wrote a paper about non-verbal communication
	110 Introduction to Hman Communication	Marieke Spiegelhoff	Attended three speakers on campus and wrote two papers (3-5 pages each) on the speaker's strengths and weaknesses.
	244 Communication and Interviewing	Bill Lowell	Created a PowerPoint presenting 5 simple steps necessary to take during an interview to achieve a great starting salary.

Dept	Course Name	Professor Name	Project Description
Speech	346 Sound and Image	Jeff Herriot	Analyzed two or three films in which the music has been created by Howard Shore, focusing on how he incorporates music into his films. Presented the report to the professor in document form and updated him after each viewing of the films.
Theatre	100 Theatre Appreciation	Stephen Chene	Attended & wrote reviews on additional theatre presentations.
	498 Independent Study	Charles Grover	Created a concept for a lesson plan for theatre education. A resource guide was made for a certain topic that included five resources/supplements in a variety of forms (online, audio, video, and written).
WomenSt	100 Introduction to Women's Studies	Ellie Schemenauer	Expanded the class research project into a 4-5 page essay on a specific topic in Women's Studies.
