

This report is a comprehensive accounting of seats available in each class section offered this term. The 'Enrolled' column shows the current number of students enrolled in each section. The 'Seats Available' column identifies the number of seats below capacity that are open. If a section is combined with one or more others, then this column reflects the combined open seats. The 'Unused Permissions' column shows the total unused, unexpired permissions (if any) given to students by the department for this section. The 'Seats Unaccounted For' column shows the number of open seats minus any unused permissions or unused permissions within combined sections of a class when applicable.
