MATERIAL SAFETY DATA SHEET
RAY2015
(US, CN, EU Version for International Trade)

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION
PRODUCT NAME: S-1254 Mastic and S-1243 Mastic
PRODUCT CODES: S-1251 (Red) and S-1243 (Black)
MANUFACTURER: Tyco Electronics Corporation
DIVISION: Tyco Electronics Energy Division
ADDRESS: 2901 Fulling Mill Road
Middletown, PA 17057-3163
SUPPLIERS: Tyco Electronics Canada Ltd.
20 Esna Park Drive
Markham, Ontario L3R 1E1

EMERGENCY TELEPHONE NUMBERS: US: CHEMTREC 1-800-424-9300
                                            CN: CHEMTREC 1-800-424-6300
                                            Outside North America: 1-703-527-3887 (Collect calls accepted)
NON-EMERGENCY HEALTH/SAFETY INFORMATION: North America: 1-800-327-6096

CHEMICAL FAMILY: Hydrocarbon-based polymer mastic materials.
PRODUCT USE: Mastic tape for filling voids in splices.

This product is considered an Article thus it is not regulated under US-OSHA; CAN-WHMSI; IOSH; ISO; UK-CHIP; or EU Directives (67/546/EEC-Dangerous Substance Labelling, 89/4/EC-Chemical Agents at Work, 99/45/EC-Preparation Labelling, 2001/56/EC-MSDS Content, and 1907/2006/EC-REACH), and an MSDS is not required for this product considering that when used as recommended or intended, or under ordinary conditions, it should not present a health and safety exposure or other hazard. If heated, charred, burned, or shredded the health and safety information presented below may apply.

Additional Information
This product is not intended for solvent-containing or extreme temperature or pressure environments. Please request information if considering use beyond current product labelling or not covered in the Product Installation Guide.

SECTION 2: HAZARDS IDENTIFICATION
GHS Classification:
GHS Classifications: Not applicable to materials
Health Hazards
Acute Toxicity – NL
Skin Corrosion/Irritation – NL
Eye Corrosion/Irritation - NL
Respiratory or Skin Sensitisation – NL
Mutagenicity – NL
Carcinogenicity – NL
Reproductive/Developmental – NL
Target Organ Toxicity – NL
Physical Hazards
Flammability – NL (Not flammable or combustible)
Environmental Hazards
Aquatic Toxicity – NL

GHS Label: As required for Finished Goods according to End-Use Products Regulations
Symbols (Industrial/Commercial Goods Only): Not Applicable

Hazard Statements
Not applicable
Precautionary Statements
Not applicable

EMERGENCY OVERVIEW:
These products may emit hazardous thermal decomposition and combustion by-products if they are charred or burned. The thermal degradation and combustion by-products may be toxic and should not be inhaled. Thermal degradation is not significant at temperatures achieved during proper installation, as directed by product installation guides. At temperatures higher than those recommended for proper installation, most significantly if the product burns, the thermal degradation and combustion by-products may include, but are not limited to carbon monoxide, carbon dioxide, organic acids (including acetic acid), aldehydes (including formaldehyde) and alcohols, oxides of nitrogen and silicon, vinyl acetate, and aromatic and aliphatic hydrocarbons.

POTENTIAL HEALTH EFFECTS:
MATERIAL SAFETY DATA SHEET
RAY2015
(US, CN, EU Version for International Trade)

EYES: Contact with molten material may cause thermal burns. Overheating the product to charring or burning will produce fumes that may cause tearing (irritation) or eye irritation.

SKIN: This product is not expected to be a skin irritant. Repeated contact may cause an allergic skin reaction in sensitized individuals. Persons with pre-existing skin disorders may be more susceptible to the effects of this material. Contact with the molten material may cause thermal burns. Skin absorption of this material is unlikely.

INGESTION: Not a likely route of exposure. There is insufficient information available to predict the effects of swallowing this material.

INHALATION: In common with most organic materials, thermal degradation and combustion by-products may be toxic and should not be inhaled. For more information on thermal decomposition products, refer to Section 4.0.

ACUTE HEALTH HAZARDS:
Possible discomfort/itching.

CHRONIC HEALTH HAZARDS:
Long-term skin contact may cause an allergic skin reaction in sensitized individuals. None of the ingredients to which users may be exposed and which are present at equal to or greater than 0.1% of the products are listed by OSHA, NTP, or IARC as suspect carcinogens.

MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE:
Overheating the product to charring or burning may produce vapours that may cause eye, skin, nose and throat irritation. Persons with pre-existing eye, skin, or respiratory disorders (e.g., asthma conditions) may be more susceptible to the effects of these vapours.

Additional Information
None known.

NE – Not Established/NA – Not applicable/NI – Not determined

Additional Information
These products do not release detectable quantities of hazardous chemicals unless overheated or burned.

SECTION 4: FIRST AID MEASURES

EYE CONTACT: If eye irritation occurs, hold eyelids apart and flush affected area(s) with clean water. Seek medical attention.

SKIN CONTACT: Thoroughly wash affected area(s) with soap and water. If irritation develops and persists, seek medical attention. For molten material: Do not attempt to remove molten material. Use cool water to reduce severity of burn. Treat as a burn and seek medical attention.

INGESTION: Not a normal route of exposure. However, if swallowed, drink plenty of water and seek medical attention.

INHALATION: If respiratory symptoms or other symptoms of exposure develop, move victim to fresh air. If symptoms persist, seek medical attention. If breathing difficulties develop, qualified personnel should administer oxygen. Seek immediate medical attention. If victim is not breathing, immediately begin artificial respiration. Keep victim warm and quiet; seek immediate medical attention.

Additional Information
None.
SECTION 6: FIRE-FIGHTING MEASURES

SUITABLE/UNSUITABLE EXTINGUISHING MEDIA:
Use media suitable for the surrounding fire: Water spray, Foam, Dry chemical powder, or Carbon dioxide.

SPECIAL FIRE FIGHTING PROCEDURES & PROTECTIVE EQUIPMENT:
For fires in enclosed areas fire fighters should wear self-contained breathing apparatus (SCBA) in positive pressure demand mode to avoid inhalation of combustion gases. Use water spray to cool nearby containers and structures exposed to fire or extreme heat from a fire.

UNUSUAL FIRE AND EXPLOSION HAZARDS:
Do not use water spray on live electrical parts.

SPECIFIC HAZARDS IN CASE OF FIRE:
See Section 10 for thermal decomposition products.

Additional Information
Not sensitive to mechanical shock.

SECTION 6: ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS:
Wear heat-resistant gloves or allow material to cool before responding. See Section 5 if responding to burning or charred materials.

ENVIRONMENTAL PRECAUTIONS:
NA.

SPILL CONTAINMENT & CLEANSUP METHODS/MATERIALS:
This material may be swept up and collected in a suitable container for disposal or reuse.

Additional Information
None.

SECTION 7: HANDLING AND STORAGE

PRECAUTIONS FOR SAFE HANDLING AND STORAGE:
HANDLING: Refer to Tyco Electronics product installation instructions. Operating temperature range is between -40 to 130°C. Ensure adequate ventilation of the work place; avoid breathing vapours and contact with skin and eyes. Do not eat, drink or smoke in the work area. Wash hands after handling material. Avoid contact with residue from fire damaged products (see Section 10).

STORAGE: Refer to Tyco Electronics product installation instructions. Operating temperature range is between 40 to 130°C. Ensure adequate ventilation of the work place; avoid breathing vapours and contact with skin and eyes. Do not eat, drink, or smoke in the work area. Wash hands after handling material.

OTHER PRECAUTIONS (e.g.: Incompatibilities):
No data available on packaging/materials to avoid.

Additional Information
None.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROLS/SYSTEM DESIGN INFORMATION:
Design installation systems to guard against burns and ensure adequate ventilation.

VENTILATION:
In accordance with good industrial hygiene practice, use adequate mechanical ventilation during installation. If products are likely to be overheated during installation, consult an industrial ventilation professional or industrial hygienist.

RESPIRATORY PROTECTION:
Not required for normal conditions of use. See also special firefighting procedures (Section 5). If installation is to occur in a confined space with inadequate ventilation, and overheating is likely, a NIOSH-approved supplied air respirator may be required.

EYE PROTECTION:
Not required during normal conditions of use. Safety glasses are generally recommended during installation and may be required for related activities in accordance with the employer’s occupational health and safety program.
SKIN PROTECTION:
Not required during normal conditions of use. Consider wearing heat-resistant work gloves and long sleeves to prevent contact with molten material.

OTHER PROTECTIVE CLOTHING OR EQUIPMENT:
None required.

EXPOSURE GUIDELINES & LIMITS:

<table>
<thead>
<tr>
<th>Organization</th>
<th>Permissible Exposure Limit (PEL)</th>
<th>Permissible Exposure Limit (PEL)</th>
</tr>
</thead>
<tbody>
<tr>

<td>Occupational Exposure Standard (OES)</td>
<td>Carbon black 3.5 mg/m³</td>
</tr>
</tbody>
</table>

Additional Information:
- Particulate exposure (kaolin and silica reaction products) is unlikely, since particles are encapsulated in polymers.
- Not Included as International Trade.
- May be Required to meet Domestic Requirements for a Specific Destination(s).

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

APPEARANCE: Black or red solid tape
ODOUR: Little or no odour.
ODOUR THRESHOLD: NA
PHYSICAL STATE: Solid
pH: NA
BOILING POINT: NA
MELTING POINT: Melting points vary. See Installation guide.
FREEZING POINT: NA
VAPOR PRESSURE: NA
VAPOR DENSITY (AIR = 1): NA
SPECIFIC GRAVITY (H2O = 1): 0.93
EVAPORATION RATE: Negligible
SOLUBILITY IN WATER: Insoluble
FLASH POINT: NA
AUTO-IGNITION TEMPERATURE: NA
LOWER EXPLOSIVE LIMIT (LEL): NA
UPPER EXPLOSIVE LIMIT (UEL): NA
PARTITION COEFFICIENT: NA
DECOMPOSITION TEMPERATURE: Not Available

FLAMMABILITY/HMS HAZARD CLASSIFICATIONS (US/CN/EU):
HEALTH: 0 FLAMMABILITY: 0 REACTIVITY: 0
Additional Information
None.

SECTION 10: STABILITY AND REACTIVITY

STABILITY:
Stable under normal working conditions, at ambient temperature.

INCOMPATIBILITY (MATERIAL TO AVOID):
Strong oxidizers, peroxides, acids and reducing agents.

HAZARDOUS DECOMPOSITION OR BY-PRODUCTS:
May include, but are not limited to carbon monoxide, carbon dioxide, organic acids (including acetic acid), aldehydes (including formaldehyde) and alcohols, oxides of nitrogen and silicon, vinyl acetate, and aromatic and aliphatic hydrocarbons.

HAZARDOUS POLYMERIZATION:
Will not occur.

CONDITIONS TO AVOID:
Avoid overheating product.

Additional Information
None.

SECTION 11: TOXICOLOGICAL INFORMATION

ACUTE TOXICITY (Test Results Basis and Comments):
No data available.

SUBCHRONIC/CHRONIC TOXICITY (Test Results and Comments):
None of the ingredients to which users may be exposed, and which are present at equal to or greater than 0.1% of the product, are listed by OSHA, NTP, or IARC as human carcinogens (Health Canada, 2002).

Additional Information
No chronic toxicity data available on product as a whole. The proposed TLV for carbon black has a carcinogenicity notation of A3, indicating that it is a confirmed animal carcinogen with unknown significance for humans (ACGIH, 2010). Classified by the IARC as a Class 2B carcinogen, or "Possibly Carcinogenic to Humans" (IARC, 2010). The probability of exposure to inhalable carbon black is very low, due to the fact that it is encapsulated in polymers.

SECTION 12: ECOLOGICAL INFORMATION

PERSISTENCE & DEGRADABILITY:
No data available on biodegradation.

BIO-ACCUMULATIVE POTENTIAL (Including Mobility):
No data available on bioaccumulation.

AQUATIC TOXICITY (Test Results & Comments):
No data available on aquatic toxicity.

Additional Information
- No known effects on stratospheric ozone depletion.
- Volatile organic compounds: NA
- Water Endangering Class (WGK): NA

SECTION 13: DISPOSAL CONSIDERATIONS

WASTE DISPOSAL METHOD:
Follow local, Provincial, and Federal regulations applicable to as-used, end-of-life characteristics to be determined by end-user. Contact local environmental agency for specific rules and regulations.

HAZARDOUS WASTE
This product is non-hazardous, as defined under the Restriction of Hazardous Substance (RoHS) Standards. Dispose of in accordance with local solid waste rules.

CLASS/CODE:
US - Not applicable to finished product as manufactured for distribution into commerce.
CN - Not applicable to finished product as manufactured for distribution into commerce.
EWC - Not applicable to finished product as manufactured for distribution into commerce.

Additional Information
Not Included - Dispose/Recycle as allowed by local jurisdiction for the end-of-life characteristics as-disposed.

- Not a Marine Pollutant as shipped per IMO/IMDG.

SECTION 15: REGULATORY INFORMATION

INVENTORY STATUS:
All components are listed on the TSCA; EINECS/ELINCS; AICS; and DSL, unless noted otherwise below.

U.S. FEDERAL REGULATIONS:

TSCA Section 8b - Inventory Status: All chemicals comprising this product are either exempt or listed on the TSCA inventory.

TSCA Section 12b - Export Notification: The finished product does not contain chemicals subject to TSCA Section 12b export notification.

All ingredients remaining in the finished product as distributed into commerce are exempt from, or included on, the European Inventory of Existing Commercial Chemical Substances.

European Communities (EC) Hazard Classification according to directives 67/548/EEC and 1999/45/EC.
Not Applicable to the Product as-sold.
R-Phrases NA – Incorporated Above
S-Phrases NA – Incorporated Above

Additional Information
Not Applicable, US, Canada and EEC/EU Directives related to chemical hazards provide exemption of manufactured articles composed of discrete solid structures, and for articles that do not pose a safety or health hazard. When properly used as intended, this product in no. expected to present a safety or health hazard when distributed into commerce. On this basis, EEC/EU R-Phrases/S-Phrases are not specifically included for the ingredients in the finished product.

SECTION 16: OTHER INFORMATION

OTHER INFORMATION:
This product may be regulated under additional regulations and laws not identified above, such as for uses other than described or re-designed as-intended by the manufacturer.
