MATERIAL SAFETY DATA SHEET

Prepared January 1989

ILINOIS BRONZE PAINT COMPANY
300 EAST MAIN STREET
LAKE ZURICH, IL 60047

Telephone: (708) 438-8201
8 a.m. - 5 p.m. (Central)
For Emergency Information:
1-800-228-5655

Product Class: AEROSOL SPRAY PAINT
Product Name: ACE RUST-STOP

Prepared by:

SECTION III - PHYSICAL DATA

BOILING RANGE: 104 - 380 °F VAPOR DENSITY: HEAVIER LIGHTER THAN AIR
EVAPORATION RATE: FASTER SLOWER THAN OTHER % VOLATILE VOLUME: 90% WT/GAL: N/A

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

FLAMMABILITY CLASSIFICATION: OSHA FLAMMABLE LIQUID - CLASS IA DOT FLAMMABLE LIQUID
FLASH POINT: -40 °F (-40 °C) LEL: 0.6%
AUTOIGNITION TEMPERATURE:
EXTINGUISHING MEDIA: FOAM ALCOHOL FOAM CO2 DRY CHEMICAL WATER FOAM OTHER
UNUSUAL FIRE AND EXPLOSION HAZARDS:
Cans will rupture from internal pressure at about 190 °F and discharge flammable contents. When heated to decomposition, toxic fumes are formed.
SPECIAL FIREFIGHTING PRECAUTIONS:
Full protective equipment, including self-contained breathing apparatus, is needed to protect firefighters from any hazardous combustion products.

SECTION V - HEALTH HAZARD DATA

EFFECTS OF OVEREXPOSURE:
INHALATION: Acute (short-term) overexposure can lead to central nervous system depression producing such effects as headache, dizziness, nausea, and loss of consciousness. Chronic (long-term): Reports have associated repeated and prolonged occupational overexposures to solvents with permanent brain and nervous system damage. Overexposure to xylene in lab animals has shown liver abnormalities, kidney, lung, spleen and eye damage as well as anemia. Effects in humans have shown liver and kidney abnormalities. Overexposure to Ethylene Glycol and Butyl Ether has shown blood abnormalities in lab animals.
SKIN: Prolonged contact can cause burning and drying of the skin which may result in skin Irritation and dermatitis.
EYES: Acute exposures may result in slight eye Irritation. Chronic exposures may be more irritating.

SECTION VI - REACTIVITY DATA

STABILITY: STABLE UNSTABLE
CONDITIONS TO AVOID: NONE

Hazardous Decomposition Products: Carbon Monoxide, Carbon Dioxide, Various complex organic compounds when burned.

SECTION VII - SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:
Remove all sources of ignition (flames, hot surfaces, and electrical, static or frictional sparks). Avoid breathing vapors. Ventilate area. Remove with inert absorbent. Refer to other protective measures outlined in Sections IV, V, VI, VII, and VIII.

WASTE DISPOSAL:
Disposal must be done in accordance with federal, state, and local regulations. Before attempting cleanup, refer to hazard caution information in other section of this data sheet.

SECTION VIII - SAFE HANDLING AND USE INFORMATION

VENTILATION TYPE: Sufficient ventilation, in volume and pattern, should be provided to keep the air contaminant concentration of the hazardous ingredients in Section II below the current applicable TLV or PEL and also below the stated LEL in Section IV.

RESPIRATORY PROTECTION:
For each use, use the proper type of PPE as outlined below. If eye watering, headaches or dizziness occurs, increase ventilation or use respirator protection. The use of respirator protection will not eliminate the need for eye protection.

PROTECTIVE GLOVES:
None required.

EYE PROTECTION: Safety glasses should be used while spraying.

OTHER PROTECTIVE EQUIPMENT:
None required.

HYGIENIC PRACTICES: Wash hands after use and prior to eating, smoking, or using restroom.

SECTION IX - SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING:
Do not store above 120 °F. Store large quantities in buildings designed and approved for storage of NFPA Class IA flammable liquids.

OTHER PRECAUTIONS:
Do not spray in eyes. Do not puncture or incinerate container. Do not use PPE pin or any sharp object into opening of can. Finger must protrude over front edge of spray button. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal.

SECTION X - MISCELLANEOUS INFORMATION

PROPER SHIPPING NAME: Consumer Commodity
HAZARD CLASS: ORM-D
FOR EXPORT: Aerosols, flammable, n.o.s. (each not exceeding 1L capacity). UN 1590; label as Flammable Gas.

Pg. 2 (Aerosol)
