SECTION I. MATERIAL IDENTIFICATION

Trade/Material Name: AZROCK EPOXY ADHESIVE PART B

Description: Adhesive #1050 Epoxy Mastic B

CAS:
Shipping Name (49 CFR 172.101): Adhesive, Flammable Liquid
D.O.T. ID No. (49 CFR 172.101): UN 1133
D.O.T. Hazard Class: Flammable
D.O.T. label required (49 CFR 172.101): Flammable Liquid
EPA Hazard Class - if discarded (40 CFR 261): NA

FOR 24 HOUR MEDICAL AND DOT
EMERGENCY RESPONSE COMMUNICATIONS
AND INFORMATION, PLEASE CALL
1-800-228-5635 Extension 079.

For installation and customer service information, please call 512-558-6400 between 8:00 AM and 5:00 PM CST Monday through Friday, except holidays.

SECTION II. INGREDIENTS AND HAZARDS

Ingredient Name: Triethylaminetetrime (TETA)
CAS Number: 68071-65-8
Percent: <1

Ingredient Name: Isopropanol
CAS Number: 67-63-0
Percent: 12
Exposure Limits:
400 OSHA PEL
400 ppm ACGIH TLV

* These materials are subject to the reporting requirements under the Superfund Amendments and Reauthorization Act of 1986 (SARA) Title III, Section 313 and CFR 372.
SECTION III. PHYSICAL DATA

Appearance & Odor: White liquid, alcohol odor

Boiling point: 180°F
Vapor pressure: 33 mm Hg @ 68°F
Water solubility (%): NA
Vapor density (air=1): 2.07

Evaporation rate: Slower than ether
Specific gravity (H2O=1): 1.6
% volatile by volume: 25.0

VOC less water less exempt solvent (g/liter): 195
VOC material (g/liter): 195

SECTION IV. FIRE AND EXPLOSION DATA

Flash Point (method): 53°F TCC
Limits: 2.5%  UEL %: N/A

Extinguishing Media: Foam, CO2, Dry Chemical

Unusual fire or explosion hazards: Isopropyl alcohol vapors may collect along floor and in low areas posing potential fire hazard.

Special fire-fighting procedures: Weak self contained breathing apparatus.

SECTION V. REACTIVITY DATA

Material is stable  Hazardous polymerization will not occur

Chemical incompatibilities: Contamination with strong acids, bases, epoxy resins, or isocyanates can cause rapid polymerization.

Conditions to avoid:  Avoid contact with strong oxidizing agents and excessive heat.

Hazardous decomposition Products: May generate carbon monoxide, carbon dioxide, and oxides of nitrogen.

SECTION VI. HEALTH HAZARD INFORMATION

Medical conditions which may be aggravated by contact: None known

Primary entry route(s):

Acute effects: May cause eye, nose, and/or throat irritation. Contains material that can cause headaches, nausea, vomiting, dizziness, gastrointestinal irritation, and respiratory irritation. Sensitizer may cause allergic reactions. May cause severe skin reddening and swelling.

Chronic effect(s): Long term exposure may cause dermatitis
HEALTH HAZARD INFORMATION continued from page 2

First aid:
Eye contact: Flush eyes with large amounts of water for 5 minutes. Seek medical attention.
Skin contact: Contact may cause slight irritation. Wash exposed areas with soap and water. Remove contaminated clothing.
Inhalation: If affected, remove to fresh air. If breathing is difficult, administer oxygen.
Ingestion: Immediately drink two glasses of water and induce vomiting. Seek medical attention.

SECTION VII. SPILL, LEAK AND DISPOSAL PROCEDURES

Spill / Leak procedures: Soak up in absorbent material such as sand and collect in suitable container. Residual residue may be removed using steam or hot soapy water.

Waste management / Disposal: Incinerate or dispose of in accordance with federal, state, and local regulations.

SECTION VIII. SPECIAL PROTECTION INFORMATION

Personal protective equipment:

- Goggles: Safety glasses with side shields
- Gloves: Chemical resistant plastic or rubber should be used
- Respirator:

Workplace considerations: Good housekeeping procedures should be practiced.
- Ventilation: Good room ventilation usually adequate for most conditions
- Safety stations:
- Contaminated equipment:
Storage segregation:

Special handling / storage:

Other precautions: Keep away from heat or open flames.

DOT Class: See Section I

This data is offered in good faith as typical values and not as a product specification. No warranty, either express or implied is hereby made. The recommended industrial hygiene and safe handling procedures are believed to be generally applicable. However, each user should review these recommendations in the specific context of the intended use and determine whether they are appropriate.
