Material Safety Data Sheet

Trade Name: CITGO No. 2 Diesel Fuel
Commodity Code: 10-104
Synonyms: Fuel Oil
CAS No.: Mixture
(Cas refer to Section 1)
Citgo Index No.: 0093

Material Hazard Evaluation

Health: Low hazard under ambient conditions. Vapors, mists and fumes hazardous.

Precautionary Statement: CAUTION: Combustible Liquid. Do not inhale vapors, fumes, or mists. Prevent dermal contact.

HMIS Rating*: Health 0 Flammability 2 Reactivity 0

4.0 Reactivity Data

- **Stability:** Stable
- **Conditions Contributing to Instability:** Heat, flame.
- **Incompatibility:** Caustics, oxidizing agents and strong acids.
- **Hazardous Decomposition Products:** CO₂ (CO under incomplete combustion)
- **Conditions Contributing to Hazardous Polymerization:** None.

² Hazard Rating: least-0; slight-1; moderate-2; high-3; extreme-4

NA - Not Applicable ND - No Data NE - Not Established
5.0 Spill or Leak Procedures

Procedures if Material is Spilled:

- Remove sources of ignition, ventilate area.
- **Small Spills:** Take up with noncombustible absorbant such as fullers earth or sand. Place into containers for later disposal.
- **Large Spills:** Contain spill in earthen dikes for later recovery. Control ignition sources around spill area. A fire-fighting foam blanket on top of spill will reduce vapor release and the danger of fire.
- Report spills as required to appropriate authorities.

Waste Disposal:

- It is the responsibility of the user to determine if the material is a hazardous waste at the time of disposal.
- Check before disposing to be sure you are in compliance with all applicable laws and regulations.
- Chemtrec/RCRA Emergency Hotline Number: 800-424-9346.

Protective Measures During Repair and Maintenance of Contaminated Equipment:

- Refer to Section VII - Special Protection Information.
- Provide sufficient ventilation, eliminate all ignition sources.
- Wash exposed skin thoroughly with soap and water.
- Remove soiled clothing.
- Use oil impervious gloves if extended, direct contact is expected.

Product listed as Carcinogen or Potential Carcinogen by:

NTP  No   IARC  Yes*  OSHA  No  Other  No

*Applies to diesel exhaust fumes only.

Toxicity Summary: Normally of low toxicity, except on ingestion, if misting occurs or dermal absorption.

Major Route(s) of Entry: Inhalation of fumes, mists or vapors. Dermal absorption.
Acute Exposure Symptoms

**Inhalation:** Mists or fumes above the TLV may cause transient euphoria, respiratory and GI irritation, headache, dizziness, CNS and generalized depression, coma, particularly in oxygen-deficient atmosphere.

**Dermal Contact:** Mild temporary irritation.

**Eye Contact:** Mild to moderate irritation.

**Ingestion:** Toxic dose: 1 oz. to 1 pint for a human adult. Symptoms include burning of mouth and upper GI tract, vomiting and diarrhea. Less than 1 oz. with retention may produce general depression, sedation, respiratory and cardiac insufficiency and coma.

**Injection:** Irritation, erythema, edema.

Chronic Exposure

Prolonged, repeated dermal contact may cause drying, cracking, dermatoses.

Other Special Effects

The Occupational Safety and Health Administration recommends that diesel exhaust be considered as a potential occupational carcinogenic hazard. Exposure to diesel exhausts should be minimized to reduce risk.

Medical Conditions Aggravated by Exposure

Pre-existing dermatitis.

**First Aid and Emergency Procedures for Acute Effect**

**Inhalation:** Remove from exposure, seek immediate medical aid.

**Dermal:** Wash with soap and water. Do not wear heavily contaminated clothing before cleaning.

**Eyes:** Flush with large volumes of tepid water.

**Ingestion:** Do not induce vomiting. Seek medical aid.

**Injection:** Seek immediate medical aid.

Notes to Physician: This is a low viscosity material, with a Saybolt viscosity at 100°F of 32.6-40 SUS. If ingestion and vomiting occurs, there exists a high pulmonary aspiration hazard, possibly inducing lipid pneumonia. For quantities above a few drops, use careful gastric lavage with tight fitting, cuffed endotracheal tube.
7.0 Special Protection Information

Ventilation Requirements: Use in well ventilated area. In confined spaces, mechanical ventilation may be required to keep levels of certain components below mandated standards. Responsible individuals should evaluate air concentrations of specific regulated chemicals.

Permitted Threshold: None assigned.
Air Concentrations

Specific Personal Protective Equipment:
Respiratory: Approved organic respirator above the TLVs.
Eyes: Safety goggles, or chemical splash goggles if splashing is anticipated.
Dermal: Oil impervious gloves if frequent or prolonged contact is expected.

Other Clothing or Equipment: Wear body-covering work clothes to avoid prolonged or repeated exposure. Remove fuel oil soaked clothing since it presents a fire hazard. Launder soiled work clothes before reuse.

8.0 Transportation and Special Precautions

Storage: Keep container tightly closed and away from heat and flame. Do not store with strong oxidizers.

Caution: Empty containers may contain product residue which could include flammable or explosive vapors.

Consult appropriate Federal, State and Local authorities before reusing, reconditioning, reclaiming, recycling or disposing of empty containers and/or waste residues of this product.

DOT Information

Proper Shipping Name: Fuel Oil
Hazard Class: Combustible liquid
Hazard Identification Number: NA 1993
Placard: Combustible liquid
Compatibility Category*: Group 33
CHIS Code: ODS

*DOT - Coast Guard
9.0 Environmental Data

Product Name: CITGO No. 2 Diesel Fuel
Commodity Code: 10-104

SARA TITLE III

Section 313 - Toxic Chemicals

This product does not contain toxic chemicals of Section 313 of Title III of Superfund Amendments and Re-authorization Act of 1986 (SARA) and 40 CFR Part 372.

Components

| None | NA | NA |

Section 311 - Hazard Categories

| No | Not Applicable |
| Yes | Acute (Immediate Health Hazard) |
| Yes | Chronic (Delayed Health Hazard) |
| Yes | Fire Hazard |
| No | Sudden Release of Pressure Hazard |
| No | Reactive Hazard |

Section 302/(A) - Extremely Hazardous Substances

(RQ = Reportable Quantity)
(TPQ = Threshold Planning Quantity)

This product does not contain Extremely Hazardous Substances of Section 302/(A).

Petroleum and petroleum fractions are excluded from the list of CERCLA hazardous substances by Section 101(14) of CERCLA.

New Jersey Worker & Community Right-to-Know Act

Fuel Oil
10.0 Labeling

**CAUTION:**
CONTAINS PETROLEUM DISTILLATES
COMBUSTIBLE LIQUID
HARMFUL IF SWALLOWED

**HANDLING:**
Keep away from heat, sparks and flames.
Keep container closed.
Do not breathe vapor.
Prevent direct dermal contact.

**FIRST AID:**
If swallowed, do not induce vomiting.
Call a physician immediately.
In case of contact, remove contaminated clothing immediately and wash thoroughly with soap and water.
