1. Product and Company Identification

Product number 824
Product name Heavy Duty Foaming Oven Cleaner
Effective date 31-Mar-2008
Company information Claire Manufacturing
500 Vista Ave.
Addison, IL 60101 United States
Company phone General Assistance 630-543-7600
Emergency telephone US 800-424-9300
Emergency telephone outside US 703-527-3887
Version # 06
Supersedes date 31-Mar-2008

2. Hazards Identification

Emergency overview EXTREMELY FLAMMABLE
CONTENTS UNDER PRESSURE.
Aerosol. Pressurized container may explode when exposed to heat or flame. May be
ignited by heat, sparks or flames.

Corrosive. Causes skin and eye burns. Irritating to respiratory system. Prolonged
exposure may cause chronic effects.

OSHA regulatory status This product is considered hazardous under 29 CFR 1910.1200 (Hazard
Communication).

Potential health effects
Routes of exposure Skin contact. Eye contact. Inhalation. Ingestion.
Eyes This product causes eye burns. Risk of serious damage to eyes.
Skin Causes skin burns.
Inhalation Intentional misuse by concentrating and inhaling the product can be harmful or fatal.
Causes burns. Irritating to respiratory system. Prolonged inhalation may be harmful.
Ingestion Exposure by ingestion of an aerosol is unlikely. Ingestion may produce burns to the lips,
oral cavity, upper airway, esophagus and possibly the digestive tract. May cause delayed
lung damage. Components of the product may be absorbed into the body by ingestion.

Target organs Central nervous system. Lungs.
Chronic effects May cause central nervous system disorder (e.g., narcosis involving a loss of
coordination, weakness, fatigue, mental confusion, and blurred vision) and/or damage.
May cause delayed lung damage.

Signs and symptoms Discomfort in the chest. Narcosis.
Potential environmental effects Components of this product are hazardous to aquatic life. May cause long-term adverse
effects in the environment.

4. First Aid Measures

First aid procedures
Eye contact
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact
lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Skin contact
Immediately flush skin with plenty of water. Remove and isolate contaminated clothing and shoes. Get medical attention immediately. For minor skin contact, avoid spreading material on unaffected skin. Wash clothing separately before reuse.

Inhalation
Move to fresh air. Oxygen or artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Get medical attention immediately.

Ingestion
If material is ingested, immediately contact a poison control center. Have victim rinse mouth thoroughly with water. Do not induce vomiting without advice from poison control center. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Do not use mouth-to-mouth method if victim ingested the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device.

Notes to physician
In case of shortness of breath, give oxygen. Keep victim warm. Symptoms may be delayed.

General advice
If you feel unwell, seek medical advice (show the label where possible). In case of shortness of breath, give oxygen. Keep victim warm.

5. Fire Fighting Measures

Flammable properties
Containers may explode when heated. Runoff to sewer may cause fire or explosion hazard.

Extinguishing media
Unsuitable extinguishing media: Do not use a solid water stream as it may scatter and spread fire.

Protection of firefighters
Specific hazards arising from the chemical: Fire may produce irritating, corrosive and/or toxic gases.
Protective equipment and precautions for firefighters: In the event of fire and/or explosion do not breathe fumes. Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. Containers should be cooled with water to prevent vapor pressure build up. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn.

Specific hazards
Fire may produce irritating, corrosive and/or toxic gases.

6. Accidental Release Measures

Personal precautions
Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering. Keep unnecessary personnel away.

Environmental precautions
Prevent further leakage or spillage if safe to do so. Do not contaminate water.

Methods for containment
Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Stop the flow of material, if this is without risk. Prevent entry into waterways, sewers, basements or confined areas.

Methods for cleaning up
Should not be released into the environment. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean contaminated surface thoroughly.

7. Handling and Storage

Handling
Pressurized container. Do not pierce or burn, even after use. Do not handle or store near an open flame, heat or other sources of ignition. Do not reuse the empty container. Do not use if spray button is missing or defective. Use only with adequate ventilation. Do not get this material in contact with eyes. Do not get this material in contact with skin. Do not get this material on clothing. Avoid release to the environment. Avoid prolonged exposure.

Storage
Level 1 Aerosol.

Contents under pressure. Do not puncture, incinerate or crush. The pressure in sealed containers can increase under the influence of heat. Keep away from heat and flame. Avoid exposure to long periods of sunlight. Store in cool place. Keep the container dry. Keep out of the reach of children. Use care in handling/storage. Do not store, incinerate, or heat this material above 120 degrees Fahrenheit.

Engineering controls
Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.

Personal protective equipment

Eye / face protection
Wear chemical goggles.

Skin protection
Do not get this material on clothing. Wear appropriate chemical resistant clothing. Structural firefighters protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations. Use chemical splash goggles and face shield (ANSI Z87.1 or approved equivalent). Protective gloves. Wear chemical protective equipment that is specifically recommended by the manufacturer.

Respiratory protection
Wear positive pressure self-contained breathing apparatus (SCBA). If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an air-supplied respirator.

General hygiene considerations
Do not get this material in contact with eyes. Do not get this material in contact with skin. Do not get this material on clothing. When using, do not eat, drink or smoke. Handle in accordance with good industrial hygiene and safety practice.

9. Physical & Chemical Properties

Appearance
Compressed liquefied gas.

Color
Clear.

Odor
Characteristic.

Physical state
Gas.

Form
Aerosol.

Flash back
No.

Pressure
50 - 60 psig @ 70°F.

Solubility
Completely.

Flash point
-156 °F (-104.4 °C).

Boiling point
366.8 °F (186.1 °C) estimated.

Specific gravity
1.025.

pH
13 - 14.

10. Chemical Stability & Reactivity Information

Chemical stability
Risk of ignition. Instability caused by elevated temperatures. May form explosive peroxides.

Conditions to avoid
Heat, flames and sparks.

Hazardous decomposition products
Irritants. Toxic gas. May include oxides of nitrogen.

11. Toxicological Information

Acute effects
Acute LD50: 16158 mg/kg estimated, Rat, Dermal Causes burns.

Local effects
Irritating to respiratory system.
Chronic effects
Hazardous by OSHA criteria. Repeated absorption may cause disorder of central nervous system, liver, kidneys and blood. Prolonged or repeated exposure may cause lung injury. Prolonged exposure may cause chronic effects.

Neurological effects
Hazardous by OSHA criteria.

Mutagenicity
Not expected to be hazardous by OSHA criteria.

Reproductive effects
Not expected to be hazardous by OSHA criteria.

Teratogenicity
Not expected to be hazardous by OSHA criteria.

Further Information
Symptoms may be delayed.

12. Ecological Information

Ecotoxicity
Components of this product are hazardous to aquatic life.
LC50 615 mg/L estimated, Fish, 96.00 Hours,
EC50 2385 mg/L estimated, Daphnia, 48.00 Hours,
IC50 745 mg/L estimated, Algae, 72.00 Hours,

Environmental effects
Harmful to aquatic life.

13. Disposal Considerations

Waste codes
D001: Waste Flammable material with a flash point <140 F
D002: Waste Corrosive material [pH <=2 or =>12.5, or corrosive to steel]

Disposal instructions
Contents under pressure. Dispose of this material and its container at hazardous or special waste collection point. Incinerate the material under controlled conditions in an approved incinerator. Do not incinerate sealed containers. Do not allow this material to drain into sewers/water supplies. If discarded, this product is considered a RCRA ignitable waste, D001. Dispose in accordance with all applicable regulations.

Contaminated packaging
Do not re-use empty containers.

14. Transport Information

Department of Transportation (DOT) Requirements

   Basic shipping requirements:
   Proper shipping name: Consumer commodity
   Hazard class: ORM-D
   Subsidiary hazard class: None
   Additional information:
   Packaging exceptions: 156, 306
   Packaging non bulk: 156, 306
   Packaging bulk: None

IMDG

   Basic shipping requirements:
   Proper shipping name: AEROSOLS, flammable, corrosive
   Hazard class: 2.1
   UN number: 1950
   Additional information:
   Packaging exceptions: LTD QTY
   Item: 5FC
   Labels required: None
   Transport Category: 1

IATA

   Basic shipping requirements:
   Proper shipping name: Aerosols, flammable, containing substances in Class 8, Packing Group II
   Hazard class: 2.1
   Subsidiary hazard class: 8
   UN number: 1950
   Additional information:
   Packaging exceptions: FORBIDDEN
   Labels required: None
15. Regulatory Information

US federal regulations
This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are on the U.S. EPA TSCA Inventory List.

U.S. - CERCLA/SARA - Section 313 - Emission Reporting
Diethylene Glycol Monobutyl Ether 112-34-5 1.0% de minimis concentration (applies to R-(OCH2CH2)n-OR', where n = 1, 2, or 3, R=alkyl C7 or less, or R = phenyl or alkyl substituted phenyl, R' = H or alkyl C7 or less, or OR' consisting of carboxylic acid ester, sulfate, phosphate, nitrate, or sulfonate, Chemical Category N230)

Occupational Safety and Health Administration (OSHA)
29 CFR 1910.1200 hazardous chemical Yes
CERCLA (Superfund) reportable quantity
Sodium Hydroxide: 1000.0000

Superfund Amendments and Reauthorization Act of 1986 (SARA)
Hazard categories
Immediate Hazard - Yes
Delayed Hazard - Yes
Fire Hazard - Yes
Pressure Hazard - Yes
Reactivity Hazard - No

Section 302 extremely hazardous substance No
Section 311 hazardous chemical Yes

Inventory status
Country(s) or region Inventory name On inventory (yes/no)*
China Inventory of Existing Chemical Substances in China (IECSC) Yes
Europe European Inventory of New and Existing Chemicals (EINECS) No
Europe European List of Notified Chemical Substances (ELINCS) No
Japan Inventory of Existing and New Chemical Substances (ENCS) No
Korea Existing Chemicals List (ECL) No
United States & Puerto Rico Toxic Substances Control Act (TSCA) Inventory Yes

A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s)

State regulations
U.S. - Pennsylvania - RTK (Right to Know) List
Diethylene Glycol Monobutyl Ether 112-34-5 Environmental hazard
n-Butane 106-97-8 Present
Propane 74-98-6 Present
Sodium Hydroxide 1310-73-2 Environmental hazard

16. Other Information

Further information
HMIS® is a registered trade and service mark of the NPCA.

HMIS® ratings
Health: 3*
Flammability: 2
