3. HAZARDS IDENTIFICATION

***EMERGENCY OVERVIEW***
Extremely flammable. Contents under pressure. Do not puncture, incinerate or expose to temperature above 120°F (49°C). Eye, skin and respiratory irritant. Vapor harmful.

4. FIRST AID MEASURES
Eye Contact: Promptly flush with a large amount of water for at least 15 minutes. Seek medical attention.
Skin Contact: Promptly wash affected area thoroughly with soap and water. Remove contaminated clothing and launder before reuse. If irritation persists, seek medical attention.
Inhalation: Remove to fresh air. Restore breathing if necessary. Keep warm and quiet. If irritation persists, consult a physician.
Ingestion: Give several glasses of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention.

5. FIRE FIGHTING MEASURES
Flashpoint: Propellant < 9°F
Lower Explosive Limit (LEL): 1.1
Upper Explosive Limit (UEL): 10.6
Autoignition Temperature: NA
Fire and Explosion Hazards: Heated cans may burst. Isolate from heat, electrical equipment, sparks and open flame. Closed containers may explode when exposed to extreme heat. Application to hot surfaces requires special precautions. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention.
Extinguishing Media: Carbon Dioxide, dry chemical, foam.
Fire Fighting Instructions: Full protective equipment including self-contained breathing apparatus should be used. Water spray maybe ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat.

6. ACCIDENTAL RELEASE MEASURES
Remove all sources of ignition. Ventilate area and remove with inert absorbent. Dispose of in accordance with all Federal, State and Local Regulations regarding waste disposal. Product as supplied is a DOO1 unspecified ignitable waste.

7. HANDLING AND STORAGE
Keep away from heat, flames, sparks or other sources of ignition. Vapors will accumulate readily and may ignite explosively. Do not smoke. Extinguish all flames, pilot lights and heaters. Turn off stoves, electric tools and appliances. Consult NFPA Code. Use approved Bonding and Grounding procedures. Contents under pressure. Do not puncture, incinerate or expose to temperature above 120°F (49°C). Heat from sunlight, radiators, stoves, hot water and other heat sources could cause container to burst. Do not take internally. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. Keep out of reach of children. Use only with adequate ventilation. Avoid breathing vapor and spray mist. Avoid contact with skin and eyes. Wash hands after using. When spraying more than one half can continuously or more than one can consecutively, use NIOSH-approved respirator.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION
Engineering Controls: Local exhaust preferable. General exhaust acceptable if the exposure to materials is maintained below applicable exposure limits.
Personal Protective Equipment:
Respiratory: If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted NIOSH-approved organic vapor/particulate respirator.
Eye: Wear approved safety glasses with unperforated side shields.
Skin: None required for normal application of aerosol products where minimal skin contact is expected. For long or repeated contact, wear chemically resistant gloves.
Other: An emergency eyewash station or source of clean potable water should be available in case of accidental eye contact.
