(Water may be ineffective.)

Special Fire-Fighting Procedures
Firefighters should wear proper protective equipment and self-contained
(positive pressure if available) breathing apparatus with full facepiece.
Move exposed containers from fire area if it can be done without risk. Use
water to keep fire-exposed containers cool.

Unusual Fire & Explosion Hazards
Vapors may flow along surfaces to distant ignition sources and flash back.
Closed containers exposed to heat may explode. Contact with strong
oxidizers may cause fire.

Wear suitable protective clothing. Shut off ignition sources; no flares, smoking, or flames in area. Stop leak if you can do so without risk. Use water spray to reduce vapors. Take up with sand or other non-combustible absorbent material and place into container for later disposal. Flush area with water.

Disposal Procedure
Dispose in accordance with all applicable federal, state, and local environmental regulations.

EPA Hazardous Waste Number: D001 (Ignitable Waste)

SECTION VIII - INDUSTRIAL PROTECTIVE EQUIPMENT

Ventilation: Use adequate general or local exhaust ventilation to keep vapor and mist levels as low as possible.

Respiratory Protection: Respiratory protection required if airborne concentration exceeds TLV. At concentrations above 1 ppm, a self-contained breathing apparatus is advised.

Eye/Skin Protection: Safety glasses with sideshields, rubber gloves are recommended.
