SECTION I - PRODUCT INFORMATION

Trade Name Appearing on Label: KLEEN GUARD FURNITURE POLISH

CATALOG NUMBER: KG 79/700

Manufacturer: ALBERTO-CULVER COMPANY

Emergency Phone: (708) 450-3175
Business Phone: (708) 450-3135

Name of Preparer: ALBERTO-CULVER COMPANY
2525 Armitage Avenue
Melrose Park, Illinois 60160

Date Prepared: 17 February 1992 Date Revised: December 5, 1994

SECTION III - PHYSICAL CHARACTERISTICS

Physical Form: Hydrocarbon -Propelled, water-based Aerosol Spray Can

Boiling Point: N/A
Specific Gravity: 0.997 (Concentrate)
Melting Point: N/A
Apparent pH: 7.4-7.8
Water Solubility: Water dispersible
Vapor Density (air=1): Greater than 1
Appearance: Aerosol Spray-Cloudy White Liquid
Evaporation Rate (Water=1): 1 (Conc.)
Odor: Characteristic Aerosol Can Pressure: 38 psig
SECTION IV - FIRE AND EXPLOSION DATA

Flash Point: Boils at 207 degrees F - extinguished flame
Method used: TOC
Auto Ignition Temperature: Not Avail.
Flammable Limits in Air, % Volume  LEL: 1.8% UEL: 8.4%

Extinguishing Media  _X_ Water Spray  __Foam  _X_ Carbon Dioxide
                   _X_ Dry Chemical  __Other (specify)

Special Fire Fighting Procedures: WARNING. Aerosol product with Flammable propellant. Clear fire area of unprotected personnel. Do not enter confined fire space without full bunker gear (helmet with face shield, bunker coats, gloves and rubber boots), including a positive pressure NIOSH approved self-contained breathing apparatus. Cool fire exposed containers with water.

Unusual Fire and Explosion Hazards: Containers exposed to intense heat from fires should be cooled with water to prevent vapor pressure buildup which could result in container explosion and rocketing. Container areas exposed to direct flame contact should be cooled with large quantities of water as needed to prevent explosion and rocketing of aerosol cans.

SECTION V - REACTIVITY

Stability  Stable: _X_  Unstable __  Conditions to Avoid: N/A

Incompatibility (materials to avoid): None known

Hazardous Decomposition or Byproducts: Carbon Monoxide, Nitrogen Compounds, Carbon Dioxide and unidentified organic compounds may be formed during combustion.

Hazardous Polymerization  May occur: _No_
Conditions to Avoid: Ignition sources. Aerosol containers should be stored below 120 deg. F.

SECTION VI - HEALTH HAZARDS

Route(s) of Entry  Inhalation: _X_  Skin: ___  Ingestion: ___

Health Hazards:
Acute: Vapors may cause slight irritation to mucous membranes. High vapor concentrations may cause CNS depression due to hydrocarbon propellant gas.

Chronic: Unknown.

Signs and Symptoms of Exposure: CNS depression may be evidenced by giddiness, headache, dizziness and nausea.

Contains a trace amount (0.02%) Formaldehyde.

Carcinogenicity  NTP: XX  IARC Monographs: XX  OSHA Registered: XX

Formaldehyde is listed on the NTP Sixth Annual Report on Carcinogens, is an IARC suspect carcinogen and an OSHA carcinogen. OSHA has determined that the PEL for formaldehyde be 0.75 parts formaldehyde per million parts of air (0.75 ppm TWA).

Medical Conditions Generally Aggravated by Exposure: None known.

EMERGENCY AND FIRST AID TREATMENT

Eye Contact: Rinse well with plenty of running water. Seek medical attention if irritation persists.

Skin Contact: No special precautions necessary for incidental contact. Soap and water can be used to remove product from the skin.

Inhalation: Move victim to fresh air if necessary.

Ingestion: If ingestion occurs seek medical attention. (Contains 1% Mineral Spirits).
SECTION VII - ENVIRONMENTAL PROTECTION

SPILL OR LEAK PROCEDURES

WARNING. FLAMMABLE GAS. ELIMINATE ALL IGNITION SOURCES. Handling equipment must be grounded to prevent sparking. *** LARGE SPILLS *** Evacuate the hazard area of unprotected personnel. Wear appropriate respirator and protective clothing. Shut off source of leak only if safe to do so. Dike and contain. If vapor cloud forms, water fog may be used to suppress; contain run-off. Remove with vacuum trucks or pump to storage/salvage vessels. Soak up residue with an absorbent such as clay, sand or other suitable material; place in non-leaking containers for appropriate disposal. Flush area with water to remove trace residue; dispose of flush solutions as above. *** SMALL SPILLS *** Take up with an absorbent material and place in non-leaking containers; seal tightly for proper disposal. BEWARE OF SLIPPERY FLOORS.

WASTE DISPOSAL
A small number of empty containers can be disposed of in ordinary trash. For disposal of a large number of empty containers or full containers contact a licensed waste hauler.

SECTION VIII - CONTROL MEASURES

Specified Respiratory Protection: None required for normal usage.

Ventilation required: Spark proof solvent ventilation may be required if large amounts of product are expelled. Normal household air circulation is adequate for typical use.

Protective Gloves: None required.

Eye Protection: Keep out of eyes.

Other Protective Equipment: N/A

Work/Hygenic Practices: N/A
SECTION IX - SAFE HANDLING AND STORAGE

Precautions to be Taken in Handling and Storage: Cool dry storage away from ignition sources at temperatures below 120 degrees F. Keep out of reach of children.

Level 1 Aerosol

Other Precautions: N/A

SECTION X - TRANSPORTATION REQUIREMENTS

Hazardous materials description and proper shipping name: Consumer Commodity

Hazard class: ORM-D-AIR
Identification number: N/A
Labels required: N/A

Notice: The information presented herein is based on experimental data submitted by the manufacturers of the raw materials and is considered scientifically correct, however, no warranty, expressly implied or otherwise, is made to the accuracy or suitability of this information to the purchaser's intended purpose or for consequences of its use. Use these materials only as directed. For further information concerning product safety and use, call the number listed on the front of the MSDS.
