Kontact Clean™
C87, C167, C247

IDENTIFICATION
Name: Kontact Clean
CAS Registry No.: Mixture
Manufacturer: Chemtronics, Inc.
8125 Cobb Center Drive
Kennesaw, GA 30144

CHEMICAL FAMILY:
Halogenated Hydrocarbon
FORMULA: CCl₂FCClF₂CCl₂F/CO₂
MEDICAL/TRANSPORTATION
Emergency Phone: 1-800-424-9300 (Chemtree)
(404) 424-4868
(404) 424-4267 (Fax)

PHYSICAL DATA
Boiling Point: 75-118°F
Vapor Pressure: 334 mm Hg @ 77°F
Vapor Density (Air=1): 4.6 @ 77°F
Solubility In Water: Negligible
Specific Gravity (Water=1): 1.46
Melting Point: N/A
Evaporation Rate >1
Appearance: Clear
Form: Liquid
Color: Colorless
Odor: Faint solvent

INGREDIENTS
Material(s): CAS Registry No.(s):
1,1,2-Trichloro-
12-Trifluoroethane 76-13-1
Trichlorofluoromethane 75-69-4
Chlorodifluoromethane 75-45-6
Carbon Dioxide 124-38-9

HAZARDOUS REACTIVITY
Stability: Material is stable. However, avoid spraying near open flames or red hot surfaces. Do not heat aerosol containers above 120°F/49°C.
Decomposition or By-products: This compound can be decomposed by high temperatures (open flames, glowing metal surfaces, etc.) forming hydrochloric and hydrofluoric acids and possibly carbonyl halides.
Incompatibility: Alkal and alkaline earth metals—powdered Al, Zn, Be, or Mg.
Polymerization: Will not occur.

FIRE AND EXPLOSION DATA
Flash Point: None
Method: TOC
Autoignition Temperature: Non-Flammable
Flammable Limits In Air, % by Vol.: Lower: Non-flammable
Upper: Non-flammable
Auto decomposition Temperature: Unknown
Fire and Explosion: Pressurized aerosol containers may vent, rupture or explode and add to flying and falling debris. Decomposition may occur.
Extinguishing Media: Nonflammable
Special Fire Fighting Instructions: Self-contained breathing apparatus (SCBA) may be required if containers rupture and contents are released under fire conditions.

HEALTH HAZARD INFORMATION
Principal Health Hazards—Routes of Entry:
Inhalation: Vapor is heavier than air and can cause suffocation by reducing oxygen available for breathing.
Trichlorofluoromethane TLD/Human 50,000 ppm/30 min
Chlorodifluoromethane LC50/Rats 52,000 ppm/4 hrs
Chlorodifluoromethane LC50/Rats 300,000 ppm/2 hrs
Eye: Liquid contact will cause temporary discomfort. Usually no extended effect. Contact with spray may cause frostbite.
Ingestion: Although oral toxicity is low, ingestion of Kontact Clean is to be avoided.
Trichlorofluoromethane LD50/Rats 43,000 mg/kg
Skin: Repeated liquid contact can cause defatting of the skin. This material is poorly absorbed through the skin. Contact with spray may cause frostbite.
Trichlorofluoromethane ALD/Rabbits >11,000 mg/kg
Note: In screening studies with experimental animals, exposure at approximately 5,000 ppm (v/v) and above, followed by a large intravenous epinephrine challenge, has induced serious cardiac irregularities.

Exposure Limits:
Material: TWA STEL PEL
(ACGIH) (OSHA) (ACGIH) (OSHA)
Trichlorofluoromethane N/A 1,000 ppm N/A
Trichlorofluoromethane 1,000 ppm 1,250 ppm 1,000 ppm
Chlorodifluoromethane 1,000 ppm N/A 1,000 ppm
Carbon Dioxide 5,000 ppm 30,000 ppm 10,000 ppm

Signs and Symptoms of Over-Exposure:
Inhalation: Breathing high concentrations of vapor can cause light-headedness, dizziness, shortness of breath, headache and may lead to narcosis, cardiac irregularities, circulatory system depression, unconsciousness or death.
Eye: Contact will cause temporary discomfort.
Ingestion: May cause nausea and vomiting.
Skin: Irritation or reddening may occur due to defatting.

MEDICAL CONDITIONS POSSIBLY AGGRAVATED BY EXPOSURE:
Cardiovascular disease. (See Inhalation section)

FIRST AID:
Inhalation: Remove to fresh air and call a physician. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing difficult, give oxygen. Do not give epinephrine or similar drugs.
Eye: Immediately flush with water for 15 minutes. Seek medical attention.
Ingestion: No specific treatment is recommended as the compound is not likely to be hazardous by ingestion. However, consult a physician if necessary. DO NOT induce vomiting as the hazard of aspirating the material into the lungs is a greater hazard than allowing it to pass through the intestinal tract.
Skin: Flush with water. If irritation occurs or persists, seek medical attention.

NOTE TO PHYSICIANS: Because of the possible increased risk of eliciting cardiac dysrhythmias, catecholamine drugs, such as epinephrine, should be used only as a last resort in life threatening emergencies.

Carcinogenicity: Components are not listed as carcinogens by IARC or NTP. OSHA regulated - yes; OSHA air contaminant.
Toxic - yes; low toxicity. (See Inhalation and Ingestion sections)
Kontact Clean™
C87, C167, C247

CONTROL/PPE MEASURES
Respiratory Protection: No
Ventilation: No
Protective Gloves: Yes
Eye Protection: Yes
Other Protection: Yes
Control/PPE
Good ventilation/H.C. Resp.
As needed to comply with TLV
Butyl
Chemical splash goggles
Eye bath & Protective clothes

Work/Hygienic Practices: Normal ventilation for standard manufacturing procedures is generally adequate. Local exhaust should be used when large amounts are released. Mechanical ventilation should be used in low places.

NFPA Codes: Health: 2, Flammability: 0, Reactivity: 1.

DISPOSAL INFORMATION
Spill, Leak or Release: Ventilate area. Remove open flames or other sources of ignition. Collect spilled product with absorbent material and place in closed steel drums for proper disposal.
SARA 311 Quantity: 5000.00
Units of Measure: Lb.
Waste Disposal: Comply with all federal, state and local regulations. Do not puncture or incinerate aerosol cans.

SECTION 313 SUPPLIER INFORMATION
Other Precautions: This product contains the following toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 (40 CFR 372).

CAS #: CHEMICAL RANGE
76-13-1 Trichlorotrifluoromethane 80.0 - 85.0 %
75-69-4 Trichlorofluoromethane 23.0 - 26.0 %

This information should be included in all MSDSs copied and distributed for this material.
Contains chemicals listed on the TSCA Inventory: Yes

OTHER INFORMATION
Storage Conditions: Do not store near sources of heat, direct sunlight, or where temperatures exceed 120°F. Do not puncture or damage containers. Rotate stock.
Date Revised: 10/92
Person Responsible: M. Watkins, Quality Control Manager
