# MATERIAL SAFETY DATA SHEET

**NAME:** LIQUID PAPER MULTI FLUID CORRECTION FLUID (LPCF-19-13)

**CAS NO:** NA

**Effective Date:** 12/10/98  **Rev:** 2

## A. — IDENTIFICATION

<table>

<tbody>
<tr>
<td>Strong oxidizers</td>
<td>Thermal degradation may produce oxides of carbon and nitrogen and various hydrocarbons.</td>
</tr>
</tbody>
</table>

## Footnotes

Physical data, except Specific Gravity and % Volatiles, refers to Solvent Naphtha, a complex mixture of predominantly C7 and C8 hydrocarbons.
D. — HEALTH HAZARD DATA

Occupational Exposure Limits (PEL's, TLV's, etc.)

8-Hour TWA's: Rubber Solvent (Naphtha) - 400 ppm (OSHA/ACGIH) recommended.
Titanium Dioxide - 10 mg/cu m (OSHA/ACGIH)
Mineral Spirits - 300 ppm (Manufacturer recommendation)

These levels are not anticipated under foreseeable use conditions.

Warning Signals
NA

Routes/Effects of Exposure

1. Inhalation
   No adverse effects anticipated from normal use. If vapors are deliberately concentrated and inhaled (abuse), the following symptoms may occur: respiratory irritation, dizziness, drowsiness, headache, nausea, unconsciousness, convulsions, cardiac sensitization, coma and death. (Mustard oil added to the product as an abuse deterrent.)

2. Ingestion
   No adverse effects anticipated from normal use. Depending on amount ingested, most of the symptoms described above may occur. Estimated LD$_{50}$ in rats is greater than 5 ml/kg or between 1 pint and 1 quart in humans (ref. Gosselin, Smith and Hodge, Clinical Toxicology of Commercial Products, 5th Ed., 1984). Aspiration may result in chemical pneumonitis.

3. Skin
   a. Contact
      No adverse effects anticipated from normal use. Irritation may occur if contact is prolonged/repeated.

   b. Absorption
      No adverse effects anticipated from normal use. Solvent can be absorbed through skin (prolonged contact), but not likely in acutely toxic amounts.

4. Eye Contact
   If splashed into eye, irritation can occur.

5. Other
   NA

E. — ENVIRONMENTAL IMPACT

1. Applicable Regulations

2. DOT Hazard Class - ORM-D
3. DOT Shipping Name - Consumer Commodity

Environmental Effects
All components of this product comply with the U.S. Toxic Substances Control Act (TSCA).
### F. -- EXPOSURE CONTROL METHODS

**Engineerling Controls**
None under normal use conditions.

**Eye Protection**
None under normal use conditions.

**Skin Protection**
None under normal use conditions.

**Respiratory Protection**
None under normal use conditions.

**Other**
Product is non-hazardous when used as directed in an office/room with normal air circulation.

### G. --- WORK PRACTICES

**Handling and Storage**
Product is flammable. No unusual handling or storage requirements. Storage in large quantities (as in warehouse) should be in a well-ventilated, cool area, away from ignition sources.

**Normal Clean Up**
Pick up spills with towels, tissues, etc.

**Waste Disposal Methods**
Dispose in accordance with applicable federal, state and local laws.
H. — EMERGENCY PROCEDURES
Steps to be taken if material is released to the environment or spilled in the work area
Not applicable

<table>

<th>Extinguishing Media</th>
</tr>
</thead>
<tbody>
<tr>
<td>Product is flammable. May produce hazardous decomposition products.</td>
<td>Dry chemical, foam, carbon dioxide.</td>
</tr>
</tbody>
</table>

Firefighting Procedures
In fires involving large quantities of product, use self-contained breathing apparatus. Cool fire-exposed containers with water fog/spray.

I. — FIRST AID AND MEDICAL EMERGENCY PROCEDURES

Eyes
Flush eyes with plenty of water. If irritation persists, obtain medical attention.

Skin
Wash with soap and water.

Inhalation
No adverse effects anticipated from normal use. In an abuse situation, remove from source of exposure. Treat symptomatically. Oxygen may be administered. Seek medical attention immediately and refer to "Notes to Physician" below.

Ingestion
Consult physician.

Notes to Physician
Contains solvent naphtha and mineral spirits which, if aspirated, may cause chemical pneumonitis. The inhalation of concentrated vapors may produce cardiac sensitization, contraindicating the use of sympathomimetic agents.

Replaces #1260, Sections A, D revised.

The information contained in the Material Safety Data Sheet is based on data considered to be accurate, however, no warranty is expressed or implied regarding the accuracy of the data or the results to be obtained from the use thereof.
