SECTION IV      HEALTH INFORMATION

Eye contact
Inert, nuisance particulate dust.

Skin contact
Non-toxic

Inhalation
Inert, nuisance particulate dust. See Section X.

Ingestion
This product may be irritating to the gastrointestinal tract if ingested.

Signs and symptoms
No specific hazard is known.

Pre-existing skin, eye and respiratory disorders, impaired functions from pre-existing
disorders may be aggravated by exposure to this product.

Other health effects
Products have been certified as non-toxic by the Art & Craft Materials Institute and conform
to ASTM D 4236 Standard Practice for Labeling Art Materials for Chronic Adverse Health Hazard.

SECTION V      EMERGENCY AND FIRST AID PROCEDURES

Eye contact
Immediately flush eyes with water for at least 15 minutes. Seek medical attention if any
symptoms persist.

Skin contact
Wipe excess from skin and flush with water using soap if available. Seek medical attention
if irritation occurs.

Inhalation
Remove victim to fresh air and treat symptomatically.

Ingestion
Consult a physician, hospital or poison control center if product is ingested.

SECTION VI      FIRE AND EXPLOSION HAZARDS

Flammability classification - OSHA: CLASS IIIB
- DOT: not regulated

Flash point: > 212°F

Extinguishing media
Use water fog, foam, dry chemical or carbon dioxide.

Special fire fighting procedures and precautions
None known

Unusual fire and explosion hazards
Product as supplied will splatter and boil above 212°F. Product when dry may decompose and
ignite above 400°F.
SECTION VII

REACTIVITY

Stability: Stable

Hazardous polymerization: Will not occur

Conditions and materials to avoid

None known

Hazardous decomposition products

Carbon dioxide, carbon monoxide and unidentified (unknown) organic compounds may be formed during combustion.

SECTION VIII

EMPLOYEE PROTECTION

Respiratory protection

Use good ventilation - For dust and mists, use NIOSH-certified mask.

Protective clothing

Avoid contact with eyes. Wear goggles if there is likelihood of contact with eyes.

Additional protective measures

Use ventilation as required to control vapor concentrations. Eye wash fountains and safety showers should be available for use in an emergency.

SECTION IX

ENVIRONMENTAL PROTECTION

Spill or leak procedures

Soak up residue with an absorbent such as clay, sand or other suitable material; place in non-leaking containers for proper disposal. Flush area with water to remove trace residue; dispose of flush solutions as above. Small spills - take up with an absorbent material and place in non-leaking containers; seal tightly for proper disposal.

Waste disposal

Refer to latest EPA or State regulations regarding proper disposal.

SECTION X

ADDITIONAL PRECAUTIONS

For Air Brushing: Use NIOSH certified respirator. Do not inhale spray from air brush. Use window exhaust fan to remove vapors and assure adequate cross ventilation.

For Sanding Dried Paint: Use NIOSH certified respirator. Do not inhale from sanding operation.

The information contained herein is based on the data available to us and is believed to be correct. However, we make no warranty expressed or implied regarding the accuracy of this data or the results to be obtained from the use thereof. We assume no responsibility for injury from the use of the product described herein.

SECTION IV HEALTH INFORMATION

Eye contact
Inert, nuisance particulate dust.

Skin contact
Non-toxic

Inhalation
Inert, nuisance particulate dust. See Section X.

Ingestion
This product may be irritating to the gastrointestinal tract if ingested.

Signs and symptoms
No specific hazard is known.

Aggravated medical conditions
Pre-existing skin, eye and respiratory disorders, impaired functions from pre-existing disorders may be aggravated by exposure to this product.

Other health effects
Repeated overexposure to this pigment dust may cause eye, skin and respiratory tract irritation.

SECTION V EMERGENCY AND FIRST AID PROCEDURES

Eye contact
Immediately flush eyes with water for at least 15 minutes. Seek medical attention if any symptoms persist.

Skin contact
Wipe excess from skin and flush with water using soap if available. Seek medical attention if irritation occurs.

Inhalation

Remove victim to fresh air and treat symptomatically.

Ingestion
Consult a physician, hospital or poison control center if product is ingested.

SECTION VI FIRE AND EXPLOSION HAZARDS

Flammability classification - OSHA: CLASS IIIIB
- DOT: not regulated

Flash point: > 212°F

Extinguishing media
Use water fog, foam, dry chemical or carbon dioxide.

Special fire fighting procedures and precautions
None known

Unusual fire and explosion hazards
Product as supplied will splatter and boil above 212°F. Product when dry may decompose and ignite above 400°F.
SECTION VII

Boiling point: not established
Evaporation rate: < 1 (ether = 1)
Vapor density: > 1 (air = 1)
% Volatile by volume: 50 ± 10%
Weight per gallon: 9.0-12.0 lbs.
Specific gravity: 1.08-1.44 (H₂O = 1)
SECTION IV  HEALTH INFORMATION

Eye contact
Inert, nuisance particulate dust.

Skin contact
Non-toxic

Inhalation
Do not spray annoy. Avoid breathing dusts and mists. See Sections VIII & X.

Ingestion
This product may be irritating to the gastrointestinal tract if ingested.

Signs and symptoms
No specific hazard is known.

Aggravated medical conditions
Pre-existing skin, eye and respiratory disorders, impaired functions from pre-existing disorders may be aggravated by exposure to this product.

Other health effects
Long-term exposure to metallurgical or soluble cadmium may lead to kidney disfunction.

SECTION V  EMERGENCY AND FIRST AID PROCEDURES

Eye contact
Immediately flush eyes with water for at least 15 minutes. Seek medical attention if any symptoms persist.

Skin contact
Wipe excess from skin and flush with water using soap if available. Seek medical attention if irritation occurs.

Inhalation
Remove victim to fresh air and treat symptomatically. Seek medical attention.

SECTION IV HEALTH INFORMATION

Eye contact
Inert, nuisance particulate dust. Amorphous silica can affect the body if it comes in contact with the eyes.

Skin contact
Non-toxic

Inhalation
Inert, nuisance particulate dust. See Section X. Prolonged inhalation of amorphous silica may cause silicosis with scarring of the lungs, cough, and shortness of breath.

Ingestion
This product may be irritating to the gastrointestinal tract if ingested.

Signs and symptoms
No specific hazard is known.

Aggravated medical conditions
Pre-existing skin, eye and respiratory disorders, impaired functions from pre-existing disorders may be aggravated by exposure to this product.

Other health effects
Products have been certified as non-toxic by the Art & Craft Materials Institute and conform to ASTM D 4236 Standard Practice for Labeling Art Materials for Chronic Adverse Health Hazards.

SECTION V EMERGENCY AND FIRST AID PROCEDURES

Eye contact
Immediately flush eyes with water for at least 15 minutes. Seek medical attention if any symptoms persist.

Skin contact
Wipe excess from skin and flush with water using soap if available. Seek medical attention if irritation occurs.

Inhalation
Remove victim to fresh air and treat symptomatically.

Ingestion
Consult a physician, hospital or poison control center if product is ingested.

SECTION VI FIRE AND EXPLOSION HAZARDS

Flammability classification - OSHA: CLASS IIIB
- DOT: not regulated

Flash point: > 212°F

Extinguishing media
Use water fog, foam, dry chemical or carbon dioxide.

Special fire fighting procedures and precautions
None known

Unusual fire and explosion hazards
Product as supplied will splatter and boil above 212°F. Product when dry may decompose and ignite above 400°F.
SECTION VII

REACTIVITY

Stability: Stable

Hazardous polymerization: Will not occur

Conditions and materials to avoid

None known

Hazardous decomposition products

Carbon dioxide, carbon monoxide and unidentified (unknown) organic compounds may be formed during combustion.

SECTION VIII

EMPLOYEE PROTECTION

Respiratory protection

Use good ventilation - For dust and mists, use NIOSH-certified mask.

Protective clothing

Avoid contact with eyes. Wear goggles if there is likelihood of contact with eyes.

Additional protective measures

Use ventilation as required to control vapor concentrations. Eye wash fountains and safety showers should be available for use in an emergency.

SECTION IX

ENVIRONMENTAL PROTECTION

Spill or leak procedures

Soak up residue with an absorbent such as clay, sand or other suitable material; place in non-leaking containers for proper disposal. Flush area with water to remove trace residue; dispose of flush solutions as above. Small spills - take up with an absorbent material and place in non-leaking containers; seal tightly for proper disposal.

Waste disposal

Refer to latest EPA or State regulations regarding proper disposal.

SECTION X

ADDITIONAL PRECAUTIONS

For Air Brushing: Use NIOSH certified respirator. Do not inhale spray from air brush. Use window exhaust fan to remove vapors and assure adequate cross ventilation.

For Sanding Dried Paint: Use NIOSH certified respirator. Do not inhale from sanding operation.

The information contained herein is based on the data available to us and is believed to be correct. However, we make no warranty expressed or implied regarding the accuracy of this data or the results to be obtained from the use thereof. We assume no responsibility for injury from the use of the product described herein.

SECTION IV
HEALTH INFORMATION

Eye contact
Eye irritant.

Skin contact
May cause dermatitis.

Inhalation

Nuisance particulate dust. See Section X.

Ingestion
May be harmful if swallowed. Contains soluble nickel. Exposure may cause damage to the testes if ingested.

Signs and symptoms
No specific hazard is known.

Aggravated medical conditions
Pre-existing skin, eye, and respiratory disorders, impaired functions from pre-existing disorders may be aggravated by exposure to this product.

Other health effects
Do not eat, drink, or smoke when using. Wash hands immediately after use. For further information, contact your poison control center. Not for use by children.

SECTION V
EMERGENCY AND FIRST AID PROCEDURES

Eye contact
Immediately flush eyes with water for at least 15 minutes. Seek medical attention if any symptoms persist.

Skin contact
Wash hands immediately after use. Seek medical attention if irritation occurs.

Inhalation
Remove victim to fresh air and treat symptomatically.

Ingestion
Consult a physician, hospital, or poison control center if product is ingested.

SECTION VI
FIRE AND EXPLOSION HAZARDS

Flammability classification - OSHA: CLASS III B
- DOT: not regulated

Flash point: >212°F

Extinguishing media
Use water fog, foam, dry chemical, or carbon dioxide.

Special fire fighting procedures and precautions
None known.

Unusual fire and explosion hazards
Product as supplied will splatter and boil above 212°F. Product when dry may decompose and ignite above 400°F.
SECTION VII

REACTIVITY

Stability: Stable

Hazardous polymerization: Will not occur

Conditions and materials to avoid

SECTION IV  HEALTH INFORMATION

Eye contact
Prolonged or repeated contact with pigment dust may cause irritation.

Skin contact
Pigment dust can cause irritation and may cause sensitization or allergic skin reaction.

Inhalation
Pigment dust can cause irritation of upper respiratory tract. Individuals hypersensitive to cobalt may develop asthma, bronchitis, shortness of breath, or wheezing.

Ingestion
This product may be irritating to the gastrointestinal tract if ingested.

Signs and symptoms
None known.

Aggravated medical conditions
Pre-existing skin, eye, and respiratory disorders, impaired functions from pre-existing disorders may be aggravated by exposure to this product.

Other health effects
Products have been certified as non-toxic by the Art & Craft Materials Institute and conform to ASTM D4236 Standard Practice for Labeling Art Materials for Chronic Adverse Health Hazards.
