Superior Graphite Co.
Material Safety Data Sheet

1. Chemical Product and Company Identification

Product Name: Natural Graphite
Manufacturer: Superior Graphite Co.
Address: 10 S. Riverside Plaza
Chicago IL 60606

Emergency Phone Number: (270) 885-7188
Information Phone Number: (312) 559-2999

Prepared: Date 07/16/91 By George Russell
Revised: Date 02/13/2003 By Craig A. Baer
Total Pages: 3

2. Composition/Information on Ingredients

Tests performed on natural graphite have shown quartz levels ranging from 2% to 10%.

3. Hazards Identification

Route(s) of Entry: Inhalation Yes
                  Skin No
                  Ingestion Yes

Health Hazards (acute and chronic): Inhalation of dust may result in irritation of mucous membranes. Long term inhalation may result in silicosis or pneumoconiosis.

Carcinogenicity: NTP
                IARC Monographs Yes
                OSHA Regulated No

Silica as quartz: animal sufficient evidence, human sufficient evidence.

Signs and Symptoms of Exposure: Not known other than that mentioned in the health hazards.

Medical Conditions Generally Aggravated by Exposure: No medical conditions are known to be aggravated by this product.

4. First Aid Measures

Eyes: Flush thoroughly with water for 15 minutes. Get medical attention.
Skin: Wash exposed skin with soap and water. If irritation persists get medical attention.
       Launder severely contaminated clothing before reuse.
Ingestion: Do not induce vomiting. Get medical attention.
Inhalation: Remove to fresh air area. If breathing becomes difficult, get medical attention.

5. Fire Fighting Measures

Flash Point: (method) N/A
Flammable Limits: LEL: N/A
                  UEL: N/A
Superior Graphite Co.
Material Safety Data Sheet

Natural Graphite

Extinguishing Media: Water, carbon dioxide, foam or dry chemical.
Special Fire Fighting Procedures: Wear NIOSH approved self contained breathing apparatus to fight a fire involving this material.
Unusual Fire and Explosion Hazards: None

NFPA Hazard Rating:

<table>

<tr>
<th>Health</th>
<th>Flammability</th>
<th>Reactivity</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>0</td>
<td>0</td>
</tr>
</tbody>
</table>

6. Accidental Release Measures

Spill/Leak Procedures: Carefully sweep up material and wash floor with soap and water. Containerize for solid waste disposal.

7. Handling and Storage

Handling and Storage Precautions: Keep containers tightly closed when not in use. Graphite causes slippery conditions. Graphite, being conductive, can cause short circuits and other electrical malfunctions. Work/Hygienic Practices: Wash exposed skin with soap and water after handling this product.

8. Exposure Controls/Personal Protection

Respiratory Protection (specify type): Use NIOSH/MSHA approved mask for chemical products if ACGIH, OSHA and/or TWA limits will be exceeded.
Local Exhaust: Not Required
Mechanical (general): Recommended
Special: None
Other: None

Eye/Face Protection: Safety glasses, goggles or face shield. Eye wash station should be available.
Skin Protection: Use cotton gloves. Safety shower should be available.

9. Physical/Chemical Characteristics

| Physical State: Solid |
| Appearance: Gray     |
| Odor: None           |
| Specific Gravity (H2O=1): 2.25 |
| Water Solubility: Insoluble |

Bolling Point: N/A
Melting Point: N/A
Vapor Pressure (mm Hg): N/A
Vapor Density (air=1): N/A
Evaporation Rate: N/A
(Butyl Acetate = 1)

10. Stability and Reactivity

Stability: Material is stable.
Incompatibility (materials to avoid): Strong oxidizing agents, acids and alkalis.

11. Toxicological Information

None available.

12. Ecological Information

None available
Superior Graphite Co.
Material Safety Data Sheet

Natural Graphite

13. Disposal Considerations
Dispose of in accordance with local, state and federal regulations.

14. Transport Information
Not regulated.

15. Regulatory Information
All components of this product are on the TSCA inventory.

Canada:
This product has been classified in accordance with the hazard criteria of the CPR and the MSDS contains all of the information required by the CR. Natural graphite and Crystalline silica are classified by Canadian WHMIS as Class D, Division 2, Subdivision A (Very Toxic Material causing other Toxic Effects).

16. Other Information
Disclaimer: The information contained herein is based on data available. However, no warranty is expressed or implied regarding the accuracy of the data or the results obtained from the use thereof. Because the information contained herein may be applied under conditions beyond our control, we assume no responsibility for its use.

Panef Company

Dear Sir or Madam,

The Federal Hazard Communication Standard, 29 CFR 1910.1200 and Wisconsin Employees’ Right to Know Law state that Material Safety Data Sheets (MSDS) must be supplied to customers at the time of the initial shipment. It is further required that MSDS be readily available to our employees upon request.

In order to fulfill this legal obligation, I am requesting that your firm supply us with the MSDS for Graphite Lubricant (MSDS). I would appreciate receiving the MSDS within 15 days. Please mail it to:

Risk Management Office
UW-Whitewater
800 W. Main Street
Hyer Hall Room 330
Whitewater, WI 53190

If in your opinion your product(s) do not require a MSDS as outlined in the CFR 1910.1200, please inform us of this in writing within the next 15 days.

Thank you for your cooperation. We would also appreciate receiving any future updates to the MSDS.
PANEF CORPORATION
