** MSDS RECORD NUMBER **

2919317

** PRODUCT NAME(S) **

STYROFOAM® LWF EXTRUDED POLYSTYRENE BACKFILL FOAM CDN

** PRODUCT IDENTIFICATION **

PRODUCT CODE: 02360

** DATE OF MSDS **

2001-07-16

** CURRENCY NOTE **

This MSDS was provided to CCOHS in electronic form on 2001-11-13

*** MANUFACTURER INFORMATION ***

** MANUFACTURER **

DOW CHEMICAL CANADA INC

** ADDRESS **

Post Office Box 1012
Sarnia Ontario
Canada N7T 7K7
Telephone: 519-339-5083

** EMERGENCY TELEPHONE NO. **

780-998-8282 (Fort Saskatchewan, Alberta)
519-339-3711 (Sarnia, Ontario)
514-652-1000 (Varennes, Quebec)

** MANUFACTURER NOTE **

*** MATERIAL SAFETY DATA ***

MATERIAL SAFETY DATA SHEET PAGE: 1

1. CHEMICAL PRODUCT & COMPANY IDENTIFICATION

IN CASE OF EMERGENCY:
Fort Saskatchewan, Alberta: (780) 998-8282
Sarnia, Ontario: (519) 339-3711
Varennes, Quebec: (514) 652-1000

Product: STYROFOAM® LWF EXTRUDED POLYSTYRENE BACKFILL FOAM CDN

Product Code: 02360

Effective Date: 07/16/01 Date Printed: 11/08/01 MSD: 002706

Dow Chemical Canada Inc.
P.O. Box 1012, Sarnia, Ontario N7T 7K7

Prepared for use in Canada by the EH&S Product Regulatory Management Department; Phone (800) 331-6451

2. COMPOSITION/INFORMATION ON INGREDIENTS

Polystyrene CAS# 009003-53-6 Balance
Chlorodifluoroethane CAS# 000075-68-3 0-10%
Ethyl chloride CAS# 000075-00-3 0-8%

3. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW
POTENTIAL HEALTH EFFECTS (See Section 11 for toxicological data.)

EYE: Solid or dust may cause irritation or corneal injury due to mechanical action.

SKIN: Mechanical injury only. Essentially nonirritating to skin. Skin absorption is unlikely due to physical properties.

INGESTION: Ingestion is unlikely due to physical state. Physical injury only.

INHALATION: Dust may cause irritation to upper respiratory tract.

(CONTINUED ON PAGE 2)

(R) Indicates a trademark of The Dow Chemical Company

M A T E R I A L S A F E T Y D A T A S H E E T

Product: STYROFOAM® LWF EXTRUDED POLYSTYRENE BACKFILL FOAM CDN
Product Code: 02360

Effective Date: 07/16/01 Date Printed: 11/08/01 MSD: 002706

Excessive exposure to high concentrations of the ethyl chloride and chlorodifluoromethane blowing agents may cause central nervous system depression, anesthetic effects and irregular heartbeats (cardiac sensitization). In animals, excessive exposure to chlorodifluoromethane has caused low blood pressure, respiratory stimulation and tightness in the chest (bronchoconstriction). Concentrations of the above blowing agents anticipated incidental to proper handling are expected to be well below those which cause the acute inhalation effects, listed above, as well as below the OSHA PEL and Dow Industrial Hygiene Guide.

SYSTEMIC AND OTHER EFFECTS: Repeated exposures to dusts of this material are not anticipated to result in systemic toxicity or permanent lung injury; however, excessive exposures may cause less severe respiratory effects.

CANCER INFORMATION:
Neither chlorodifluoromethane nor dust from polystyrene foam products caused cancer in long-term animal studies. An increase in uterine tumors has been reported in female mice exposed for their lifetimes to 15,000 ppm of ethyl chloride. Such tumors did not occur in rats similarly exposed. These results are of unknown relevance to humans.

TERATOLOGY:
No birth defects were seen in animal studies with chlorodifluoromethane or ethyl chloride.

4. FIRST AID

EYE: Flush eyes with plenty of water; mechanical injury only.

SKIN: Wash off in flowing water or shower.

INGESTION: No adverse effects anticipated by this route of exposure incidental to proper industrial handling.
INHALATION: Remove to fresh air. If not breathing give artificial respiration. If breathing is difficult oxygen should be administered by qualified personnel. Call a physician or transport to a medical facility.

NOTE TO PHYSICIAN: Exposure may increase "myocardial irritability." Do not administer sympathomimetic drugs unless absolutely necessary. No specific antidote. Supportive care. Treatment based on judgment of the physician in response to reactions of the patient.

5. FIRE FIGHTING MEASURES

FLAMMABLE PROPERTIES
FLASH POINT: 354°C, 670°F, flash ignition temperature

FLAMMABLE LIMITS
LFL: Not applicable.
UFL: Not applicable.

HAZARDOUS COMBUSTION PRODUCTS: Under fire conditions polymers decompose. The smoke may contain polymer fragments of varying compositions in addition to unidentified toxic and/or irritating compounds. Hazardous combustion products may include and are not limited to: carbon monoxide, carbon dioxide.

OTHER FLAMMABILITY INFORMATION: Dense smoke is produced when product burns. Mechanical handling can cause formation of dusts. To reduce the potential for dust explosions, do not permit dust to accumulate.

EXTINGUISHING MEDIA: Water, carbon dioxide, dry chemical.

FIRE FIGHTING INSTRUCTIONS: Keep people away. Isolate fire area and deny unnecessary entry. Cool surroundings with water to localize fire zone. Hand held carbon dioxide or dry chemical extinguishers may be used for small fires. Soak thoroughly with water to cool and prevent reignition.

PROTECTIVE EQUIPMENT FOR FIRE FIGHTERS: Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, pants, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.

6. ACCIDENTAL RELEASE MEASURES (See Section 15 for Regulatory Information)

(continued on page 4)

(R) Indicates a trademark of The Dow Chemical Company
7. HANDLING AND STORAGE

HANDLING: Mechanical handling equipment can cause formation of dusts. Maintain good housekeeping. Layers of flammable dusts should not be permitted to accumulate.

STORAGE: Flammable vapors may accumulate in some storage situations. Storage, use and handling areas should be "No Smoking" areas. Limited industrial hygiene measurements of ethyl chloride in ventilated warehouses and production facilities indicate that ethyl chloride present in the air is below the current 150 ppm Industrial Hygiene Guide for ethyl chloride.

Gas fired recirculating air furnaces or heaters, gas water heaters, etc., drawing air from areas where there may be a presence of ethyl chloride, and chlorodifluoromethane gases from storage or fabrication of extruded polystyrene foam, can be subjected to rust and corrosion problems as a result of thermal decomposition of the blowing agents to hydrogen chloride.

NOTICE: This polystyrene foam plastic product is COMBUSTIBLE and should be protected from flame and other high heat sources. It should be installed with code-accepted thermal barriers or used in approved alternative constructions. For more information contact Dow (1-800-441-4369).

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROLS: Provide general and/or local exhaust ventilation to control airborne levels below the exposure guidelines.

PERSONAL PROTECTIVE EQUIPMENT

EYE/FACE PROTECTION: Use safety glasses. If there is a potential for exposure to particles which could cause mechanical injury to the eye, wear chemical goggles.

(R) Indicates a trademark of The Dow Chemical Company

M A T E R I A L S A F E T Y D A T A S H E E T

Product: STYROFOAM* LWF EXTRUDED POLYSTYRENE BACKFILL FOAM CDN
Product Code: 02360

Effective Date: 07/16/01 Date Printed: 11/08/01 MSD: 002706

SKIN PROTECTION: No precautions other than clean body-covering clothing should be needed.

RESPIRATORY PROTECTION: In dusty atmospheres, use an approved
9. PHYSICAL AND CHEMICAL PROPERTIES

APPEARANCE: Rigid cellular foam board.
ODOR: None.
VAPOR PRESSURE: Not applicable.
VAPOR DENSITY: (Air=1) Not applicable.
BOILING POINT: Not applicable.
SOLUBILITY IN WATER: None.
SPECIFIC GRAVITY: 0.27 to 0.64

10. STABILITY AND REACTIVITY

CHEMICAL STABILITY: Thermally stable at typical use temperatures.

CONDITIONS TO AVOID: Maximum use temperature 73°C (165°F). Avoid temperatures above 250°C (482°F). Product can decompose at elevated temperatures.

INCOMPATIBILITY WITH OTHER MATERIALS: Aromatic hydrocarbons, higher (C5) aliphatic hydrocarbons, esters, amines, aldehydes.

Material Safety Data Sheet

Product: STYROFOAM® LWF EXTRUDED POLYSTYRENE BACKFILL FOAM CDN
Product Code: 02360

Effective Date: 07/16/01 Date Printed: 11/08/01 MSD: 002706

HAZARDOUS DECOMPOSITION PRODUCTS: Does not normally decompose. In smoldering or flaming conditions, carbon monoxide, carbon dioxide and carbon are generated. Evolution of small amounts of hydrogen bromide, hydrogen chloride and hydrogen fluoride occurs when burned or heated over 250°C (482°F).

HAZARDOUS POLYMERIZATION: Will not occur.

11. TOXICOLOGICAL INFORMATION (See Section 3 for Potential Health Effects. For detailed toxicological data, write or call the address or non-emergency number shown in Section 1)

MUTAGENICITY:
Results of tests for genetic effects with chlorodifluoromethane have been negative. Ethyl chloride has been shown to be negative in some in vitro ("test tube") mutagenicity tests.
and positive in others.

12. ECOLOGICAL INFORMATION (For detailed Ecological data, write or call the address or non-emergency number shown in Section 1)

ENVIRONMENTAL FATE

MOVEMENT & PARTITIONING: No bioconcentration is expected because of the relatively high molecular weight (MW greater than 1000). In the terrestrial environment, material is expected to remain in the soil. In the aquatic environment, material will sink and remain in the sediment.

DEGRADATION & PERSISTENCE: This water insoluble polymeric solid is expected to be inert in the environment. Surface photodegradation is expected with exposure to sunlight. No appreciable biodegradation is expected.

ECOTOXICITY: Not expected to be acutely toxic.

13. DISPOSAL CONSIDERATIONS (See Section 15 for Regulatory Information)

(CONTINUED ON PAGE 7)

(R) Indicates a trademark of The Dow Chemical Company

MATERIAL SAFETY DATA SHEET

Product: STYROFOAM* LWF EXTRUDED POLYSTYRENE BACKFILL FOAM CDN
Product Code: 02360

Effective Date: 07/16/01 Date Printed: 11/08/01 MSD: 002706

DISPOSAL: DO NOT DUMP INTO ANY SEWERS, ON THE GROUND OR INTO ANY BODY OF WATER. All disposal methods must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator. THE DOW CHEMICAL COMPANY HAS NO CONTROL OVER THE MANAGEMENT PRACTICES OR MANUFACTURING PROCESSES OF PARTIES HANDLING OR USING THIS MATERIAL. THE INFORMATION PRESENTED HERE PERTAINS ONLY TO THE PRODUCT AS SHIPPED IN ITS INTENDED CONDITION AS DESCRIBED IN MSDS SECTION 2 (Composition/Information On Ingredients).

FOR UNUSED & UNCONTAMINATED PRODUCT, the preferred options include sending to a licensed, permitted: recycler, reclamer, incinerator or other thermal destruction device, and landfill.

As a service to its customers, Dow can provide names of information resources to help identify waste management companies and other facilities which recycle, reprocess or manage chemicals or plastics, and that manage used drums. Telephone Dow's Customers Information Center at 800-258-2436 or 989-832-1556 for further details.

14. TRANSPORT INFORMATION

DEPARTMENT OF TRANSPORTATION (D.O.T.): This product is not regulated by D.O.T. when shipped domestically by land.

CANADIAN TDG INFORMATION: This product is not regulated by TDG when shipped domestically by land.

15. REGULATORY INFORMATION (Not meant to be all-inclusive--selected regulations represented)
NOTICE: The information herein is presented in good faith and believed to be accurate as of the effective date shown above. However, no warranty, express or implied is given. Regulatory requirements are subject to change and may differ from one location to another; it is the buyer's responsibility to ensure that its activities comply with federal, state or provincial, and local laws. The following specific information is made for the purpose of complying with numerous federal, state or provincial, and local laws and regulations. See other sections for health and safety information.

CANADIAN REGULATIONS

(MATERIAL SAFETY DATA SHEET)

Product: STYROFOAM* LWF EXTRUDED POLYSTYRENE BACKFILL FOAM CDN
Product Code: 02360

Effective Date: 07/16/01 Date Printed: 11/08/01 MSD: 002706

REGULATORY INFORMATION: (CONTINUED)

WHMIS INFORMATION: The Canadian Workplace Hazardous Materials Information System (WHMIS) Classification for this product is:

This product is exempt under WHMIS.

U.S. REGULATIONS

SARA 313 INFORMATION: This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:

<table>
<thead>
<tr>
<th>CHEMICAL NAME</th>
<th>CAS NUMBER</th>
<th>CONCENTRATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHLOROETHANE (ETHYL CHLORIDE)</td>
<td>000075-00-3</td>

<tr>
<td>CHLORODIFLUOROETHANE</td>
<td>000075-68-3</td>
<td>&lt;10 %</td>
</tr>
</tbody>
</table>

SARA HAZARD CATEGORY: This product has been reviewed according to the EPA "Hazard Categories" promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Exempt article

CALIFORNIA PROPOSITION 65: The following statement is made in order to comply with the California Safe Drinking Water and Toxic Enforcement Act of 1986:

WARNING: This product contains a chemical(s) known to the State of California to cause cancer.

(MATERIAL SAFETY DATA SHEET)
TOXIC SUBSTANCES CONTROL ACT (TSCA):

All ingredients are on the TSCA inventory or are not required to be listed on the TSCA inventory.

STATE RIGHT-TO-KNOW: The following product components are cited on certain state lists as mentioned. Non-listed components may be shown in the composition section of the MSDS.
