V373
10/22/2004

MATERIAL SAFETY DATA SHEET

PRODUCT NAME: VINYL SEAL
PRODUCT CODE: V373

HMIS CODES: H F R P

1 2

------------------- SECTION I - MANUFACTURER IDENTIFICATION -------------------

MANUFACTURER'S NAME: HALLMAN/LINDSAY PAINTS
ADDRESS: P.O. BOX 109
SUN PRAIRIE, WI 53590

EMERGENCY PHONE: 1-800-688-4005
INFORMATION PHONE: (608) 834-8844
DATE PRINTED: 10/22/2004
NAME OF PREPARER: N/A

------------------- SECTION II - HAZARDOUS INGREDIENTS/SARA III INFORMATION -------------------

REPORTABLE COMPONENTS

*** No toxic chemical(s) subject to the reporting requirements of section 313 of Title III and of 40 CFR 372 are present. ***

Sanding the cured product may produce a nuisance dust. Observe a TLV of 10 mg/m³ for total dust containing no asbestos and <1% silica. Observe a TLV of 5mg/m³ for respirable dust.

------------------- SECTION III - PHYSICAL/ CHEMICAL CHARACTERISTICS -------------------

BOILING RANGE: 258 deg F - 315 deg F
VAPOR DENSITY: HEAVIER THAN AIR
COATING V.O.C.: 4.48 lb/gl
SOLUBILITY IN WATER: NO

APPEARANCE AND ODOR: CLEAR LIQUID MILD ODOR

------------------- SECTION IV - FIRE AND EXPLOSION HAZARD DATA -------------------

FLASH POINT: 52 deg F
FLAMMABLE LIMITS IN AIR BY VOLUME- LOWER: 1 UPPPER: 7

EXTINGUISHING MEDIA: DRY CHEMICAL, CARBON DIOXIDE, FOAM, ALCOHOL FOAM

SPECIAL FIREFIGHTING PROCEDURES
A water spray may cool containers. A stream of water may spread flames. Wear self contained breathing apparatus and goggles.

UNUSUAL FIRE AND EXPLOSION HAZARDS
Keep containers tightly closed. Isolate from heat, electrical equipment, sparks & open flame. Combustible or explosive mixtures may form in air. Closed containers may explode when exposed to extreme heat. Never use welding torch on or near container [even empty] product and/or residue can explode.
SECTION V - REACTIVITY DATA

STABILITY: STABLE
CONDITIONS TO AVOID
Avoid all possible sources of ignition. This material is flammable (or combustible per 49CFR 173.120 (b) (2)) and may be ignited by heat, sparks, flames, or other sources of ignition (e.g., static electricity, pilot lights etc.) Vapor is heavier than air and may collect in low areas.

INCOMPATIBILITY (MATERIALS TO AVOID)
Strong oxidizing agents.

HAZARDOUS DECOMPOSITION OR BYPRODUCTS
Thermal decomposition may produce carbon monoxide, carbon dioxide, oxides of nitrogen and unidentifiable organic materials.

HAZARDOUS POLYMERIZATION: Will Not Occur

SECTION VI - HEALTH HAZARD DATA

INHALATION HEALTH RISKS AND SYMPTOMS OF EXPOSURE
Breathing - Exposure to vapor or mist is possible. Short term inhalation toxicity is low. Breathing small amounts during normal handling is not likely to cause harmful effects; Breathing large amounts may be harmful. Symptoms are more typically seen at air concentrations exceeding the recommended exposure limits. Symptoms may include:
-Irritation (nose, throat, respiratory tract)-
-Central nervous system depression (dizziness, drowsiness, weakness, fatigue, nausea, headache, unconsciousness)-

SKIN AND EYE CONTACT HEALTH RISKS AND SYMPTOMS OF EXPOSURE
EYE CONTACT: Short term liquid or vapor contact may result in slight irritation. Prolonged or repeated contact may be more irritating.

SKIN CONTACT: May cause mild irritation to skin. Prolonged and repeated contact with skin can cause defatting and drying of the skin which may result in skin irritation and dermatitis.

SKIN ABSORPTION HEALTH RISKS AND SYMPTOMS OF EXPOSURE
Can dry and defat skin causing cracks, irritation, and dermatitis.

INGESTION HEALTH RISKS AND SYMPTOMS OF EXPOSURE
INGESTION: Moderately toxic. May be harmful if swallowed. May produce Central Nervous System depression. Liquids ingestion may result in vomiting; aspiration (breathing in of liquid into the lungs) must be avoided as liquid contact with the lungs can result in chemical pneumonitis and pulmonary edema/hemorrhage.

HEALTH HAZARDS (ACUTE AND CHRONIC)
ACUTE OVEREXPOSURE MAY IRRITATE: respiratory tract (Nose, Throat, Lungs), Eyes, Skin. MAY PRODUCE THE FOLLOWING: Headache, Nausea, Central Nervous System Depression.
CARCINOGENICITY: NTP CARCINOGEN: No IARC MONOGRAPHS: No OSHA REGULATED: No

None of the ingredients in this product are listed as a potential carcinogen by the NTP, IARC, or OSHA.

MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE
Preexisting eye, skin, and respiratory disorders may be aggravated by this product.

EMERGENCY AND FIRST AID PROCEDURES
INHALATION OVEREXPOSURE—Move person to fresh air. Give oxygen if breathing is difficult. See a physician. INGESTION—If victim is conscious, give two glasses of water to drink. Do not induce vomiting. Call a physician. EYE CONTACT—Flush with large quantities of water for 15 minutes. Call a physician if irritation persists. SKIN CONTACT—Wash with soap and water. Wash clothing before reuse. See a physician if irritation persists.

SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED
Eliminate ignition sources, provide good ventilation, dike spill to minimize contamination. Absorb with inert material. Collect in containers. Keep spill out of waterways.

WASTE DISPOSAL METHOD
Dispose of material in accordance with Federal, State and Local regulations.

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING
Avoid prolonged contact with liquid and/or vapor. Keep container closed. Do not store or use near heat, sparks or flame. Keep in a cool dry place.

OTHER PRECAUTIONS
In keeping with good housekeeping practices, soiled rags and wiping cloths should be immersed in a container of water to reduce the potential of combustion. Never take internally. Wash thoroughly after handling. Smoking in areas where this material is used should be strictly prohibited.

SECTION VIII - CONTROL MEASURES

RESPIRATORY PROTECTION
When spraying this material use a NIOSH approved cartridge respirator to keep airborne mists and vapor concentrations below TLV values.

VENTILATION
Ventilation: Provide sufficient mechanical (general and/or local exhaust) ventilation to maintain exposure below TLV(s).

PROTECTIVE GLOVES
Impermeable chemical gloves for skin protection.

EYE PROTECTION
Use chemical safety glasses, goggles, and shields for eye protection.

OTHER PROTECTIVE CLOTHING OR EQUIPMENT
Eye Wash. In poorly ventilated and confined spaces, use a fresh-air supplied
respirator or a self contained breathing apparatus

WORK/HYGIENIC PRACTICES
Eye washes and safety showers in the workplace are recommended. Wash hands thoroughly with soap and water after applying product. When spraying this material, use a respirator (NIOSH/MSHA TC 23 C or equivalent)

SECTION IX - DISCLAIMER

This M.S.D.S. is furnished without charge to responsible persons who use it at their discretion and risk. Although the information and suggestions contained herein have been compiled, as of the issue date above, from sources believed to be reliable, there is no warranty of any kind, express or implied, as to the completeness and accuracy thereof.
