month may allow disposal in a chemical or industrial waste landfill. Consult
local, state and federal agencies for the proper disposal method in your area.

NOTICE
Thank you for your interest in, and use of, Zep products. Zep Manufacturing Co.
is pleased to be of service to you by supplying this Material Safety Data Sheet
for your files. Zep Manufacturing is concerned for your health and safety. Zep
products can be used safely with proper protective equipment and proper handling
practices consistent with label instructions and the MSDS. Before using any Zep
product, be sure to read the complete label and the Material Safety Data Sheet.

As a further word of caution, Zep wishes to advise that serious accidents have
resulted from the misuse of "emptied" containers. "Empty" containers retain
residue (liquid and/or vapor) and can be dangerous. DO NOT pressurize, cut,
weld, braze, solder, drill, grind or expose such containers to heat, flame, or
other sources of ignition; they may explode or develop harmful vapors and pos-
sibly cause injury or death. Clean empty containers by triple rinsing with water
or an appropriate solvent. Empty containers must be sent to a drum reconditioner
before reuse.
