Join a Telepresence Meeting Using Jabber

OVERVIEW
This guide will walk you through the steps to join a scheduled telepresence meeting using Cisco Jabber.

Note: Users can join a telepresence meeting using Jabber Guest through a web browser or the Jabber client installed on a UWW owned computer.

Join Using Jabber Guest Through Web Browser

Step 1. Using a web browser, go to jabber.uww.edu.

Step 2. Enter your name in the “Display Name” box.

Step 3. Enter the telepresence video endpoint/SIP address that was given to you in the “Destination” box.

Step 4. Click the Next button.

Step 5. Press the Call button to call into the teleconference meeting.

You should now be connected to the teleconference meeting.
Join Using Jabber Client on Computer

**Step 1.** Launch the Cisco Jabber client on your computer.

**Step 2.** In the “Search or call” box, enter the telepresence video endpoint/SIP call address that was given to you, then hit the enter key or click the green phone button.

**Step 3.** If prompted, enter the meeting security pin or meeting password, then press #.

You should now be joined to the meeting.
