Major Planning Guides are sample programs that illustrate the type of curriculum a student will take to complete the degree in 4 years.

All students must complete a minimum of 120 credits including

- 1) at least 32 units of general education, including specific Gened courses, as well as approved math and science, physical education and elective courses
- 2) requirements for the BA or BS Degree
- 3) requirements for the major and for the minor

* ACT/SAT scores determine which Math and English course is appropriate for you. Refer to your AR for this information and then adjust this schedule accordingly. The Planning Guide begins with the most common placement for this major.

** The Bachelor of Arts degree in Letters and Sciences requires one year of college level foreign language or waiver (waivers for French German, and Spanish are determined by scores on the UW-System placement tests). If waivers are granted, the units for language classes will need to be replaced with elective courses.

[^]Prerequisite for this course is completion of Math 141 with a final grade of C or higher.

Courses in **Bold** indicate specific courses that must be completed for the major. Other courses such as Gened Courses or major/minor electives can be selected from a number of course choices.
