University of Wisconsin-Whitewater College of Education Evaluation of Teaching Experience

PLEASE READ THIS BEFORE COMPLETING THE EVALUATION INSTRUMENT

This evaluation form is based on the ten Wisconsin Teacher Standards for effective teaching performance as identified by the Wisconsin Department of Public Instruction (DPI). Student teachers are assessed based on these standards by the College of Education in accordance with the principles of the National Council for the Accreditation of Teacher Education (NCATE). This evaluation is intended to assist both the student teacher and the cooperating teacher in assessing teaching performance. All items may not apply in all clinical experiences. However, using the same instrument for all experiences allows the university and the student to measure progress in specific areas of the course of his/her program. Specific comments on student performance and/or teaching conditions are helpful. Goal setting is an important part of the evaluation process, and the student and cooperating teacher are encouraged to set and discuss goals at the beginning, middle and conclusion of the teaching experience with the help of this instrument. Cooperating teachers should complete the entire form at the intervals indicated below. If this is a final evaluation, cooperating teachers should also complete the final summary sheet and send the entire packet to the Office of Field Experiences.

FOR USE WITH FIELD STUDY STUDENTS

The cooperating teacher is REQUIRED to complete this form toward the END of the field/alternate student teaching experience. The cooperating teacher and the student should discuss the items and the rating and each should sign the form. Then return the completed form to the Office of Field Experiences by mailing it to the address given or be giving it to the field study student or university supervisor. A rating of N/O should be indicated for any item that the cooperating teacher feels was not applicable to this experience.

FOR USE WITH STUDENT TEACHERS

Both the cooperating teacher and the student teacher individually complete this form around the MIDDLE of the placement. This should be used as a tool for discussing the progress of the student teacher and to formulate goals for the remainder of the experience. BOTH copies should be signed by both parties and returned to the Office of Field Experiences. At the END of the placement, only the cooperating teacher is REQUIRED to complete the form (including the summary form), discuss it with the student teacher, secure the signature of the student teacher, and send it to the Office of Field Experiences. The cooperating teacher is also REQUIRED to provide a Written Statement of Reference (letter of recommendation) for the student teacher. A copy of the letter should be given to the student teacher and filed with the Office of Field Experiences.
