

COEPS Strategic Planning and Budget Committee Agenda

January 24, 2018
11:00 a.m. – 12:00 p.m.
Winther Hall 1013

1. Approve minutes from last meeting
2. COEPS Budget Update and other (Dean Heyning)
3. Qualtrics survey in order to determine what activities faculty and staff engage in related to global learning.
 - a. Definition:

Global learning is the critical analysis of different global systems and problems to better inform our practices and understanding of different cultures. Additionally, it includes consideration of how individual, group, and system actions affect the global community.

Through global learning, students should 1) become informed and open minded people who are attentive to diversity, and 2) attempt to understand how their actions affect local and global communities.

*Definition modified from Global Learning rubric (see AAC&U website):
