Connect to Sponsored Guest Wi-Fi

OVERVIEW
This guide will walk you through the steps to connect to the UW-Whitewater Sponsored Guest wireless network on campus with any device.

Create Account:

**Step 1**
Navigate to [https://sponsor.uww.edu](https://sponsor.uww.edu) using a web browser.

Login using your UW-Whitewater Net-ID and password.

**Step 2**
Under the **Create Accounts** tab, enter the **First Name, Last Name, and Email Address** of the guest.

Set the Duration up to a maximum of 3 days, and set the **From** and **To Date** to the day the account will be needed.

Select **Create** once all required information is entered.
Manage Account:

**Step 1**

Under the **Manage Accounts** tab, select the account username of the guest you want to manage.

<table>
<thead>
<tr>
<th>Username</th>
<th>State</th>
<th>First Name</th>
<th>Last Name</th>
<th>Email Address</th>
<th>Phone Number</th>
<th>Expired</th>
<th>Time Left</th>
</tr>
</thead>
<tbody>
<tr>
<td><a href="mailto:guest@email.com">guest@email.com</a></td>
<td>Created</td>
<td>GuestFirstName</td>
<td>GuestLastName</td>
<td><a href="mailto:guest@email.com">guest@email.com</a></td>
<td></td>
<td>2019-04-07 11:04</td>
<td>00:00:57</td>
</tr>
</tbody>
</table>

**Step 2**

Using the toolbar at the top of the page, you can select any of the following management options:

- **Resend**: Resend guest wireless access account information to guest.
- **Extend**: Extend wireless account activation period. Max can only be 3 days.
- **Edit**: Edit the guest account information.
- **Suspend**: Suspend the guest wireless account.
- **Reinstate**: Reactivate a suspended guest wireless account.
- **Delete**: Delete a guest account.
- **Reset Password**: Reset a guest’s wireless password.
- **Print**: Print the guest account wireless access information.

Select **Done** when finished.
