

## Apple iPhone/iPod Profile Removal

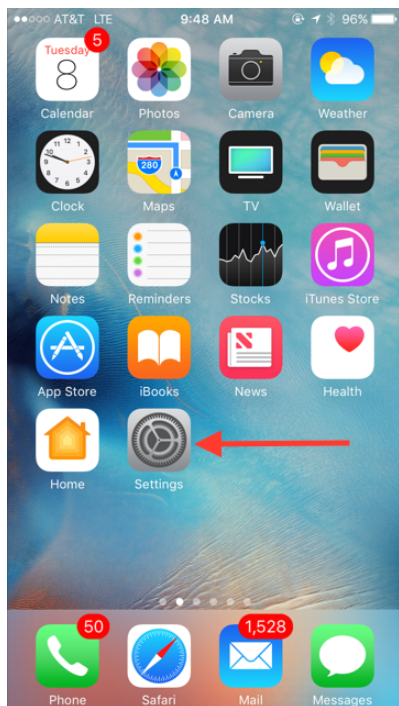

Figure 2

Locate the “Settings” option on your device as shown in the picture to the left labeled Figure 1. Open the Settings window by clicking on it.

Next locate the “General” option as shown in the image Figure 2 and click into it.

Scroll towards the bottom of the “General” screen until you see an option called “Profiles” as shown in the image Figure 3 and click into it.

Locate the configuration profile for UWW as shown in the image Figure 4. You will see Staff if your Faculty/Staff and Student if you are a student. Click into it.

Choose “Delete Profile” as seen in the image on figure and follow any other questions as prompted. Once deleted you can connect to UWWGuestAndSetup or uww-wifi to re-provision your device.
