How to Connect to Guest Wi-Fi

1. Connect your device to the “UWWGuest” Wi-Fi network.
2. Open a web browser and go to a non-UWW webpage to launch the Wi-Fi registration page.
3. Scroll down to enter your guest ID credentials and click “Register” or click the “Don’t have an account?” link to create a guest account.
4. If creating a guest account, fill out the guest registration form to create a temporary username and password. Write down or save the temporary guest account information given to you, then select “Sign On” to enter your temporary account information.
5. Read and accept the license terms and conditions then change your temporary password when prompted.
6. After changing your password, you will be fully connected to the UW-Whitewater network.
