UWW Wireless: Connecting an Apple iOS Device to Wireless as a Guest- iPhone and iPad

OVERVIEW

This guide will walk you through the steps to connect your Apple iOS device to the UWW wireless network as a guest device.

Note: Guest devices connecting to wireless will only stay active in the system for up to 12 hours. At that time the device must go through the guest wireless registration process again.

Step 1.

From the main screen of your Apple iOS device, locate and tap the  (Settings) button.

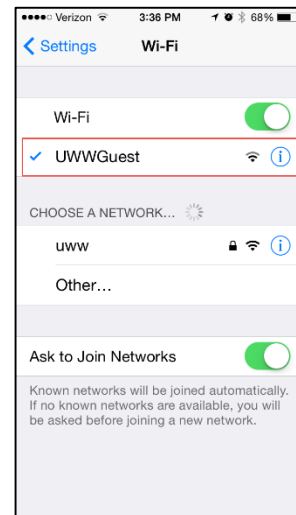

Step 2.

Tap “Wi-Fi” from the Settings menu.

Select “UWWGuest” from the “Choose a Network” selection menu.

Once you see a blue  by “UWWGuest”, click the < (back) arrow, in the top left corner of the screen, until you return to your device’s main home screen.

Step 3.

Locate and tap the  (Safari) icon to open a web browser.

NOTE: You must use the Safari web browser to complete the steps below.

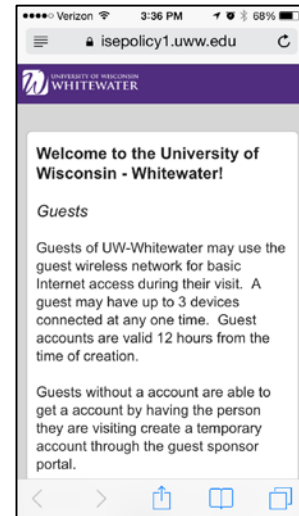

Step 4.

Once your web browser is open, you will be redirected to a “Welcome to Whitewater” webpage.

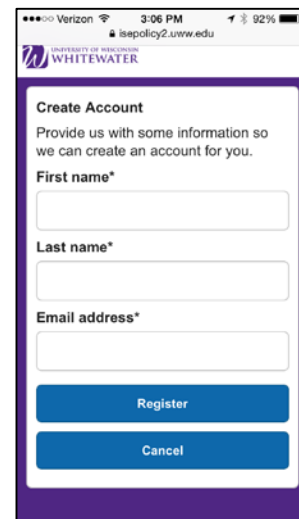

Guests: Please read through the information provided about guest accounts. Then scroll down to the bottom of the page to enter your guest wireless credentials.

GUEST NOTE: If you do not have guest wireless credentials, you can create one by scrolling to the bottom of the page and clicking the “Don’t have account” link.

Step 5.

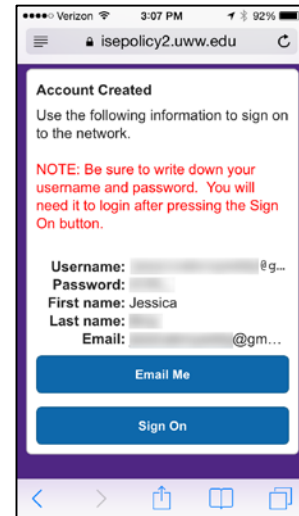

Enter your first name, last name and email address. Tap the **Register** button to continue.

Step 6.

You will receive a page with your temporary wireless guest account information.

NOTE: Please write down this information as you will need it to complete the wireless registration below.

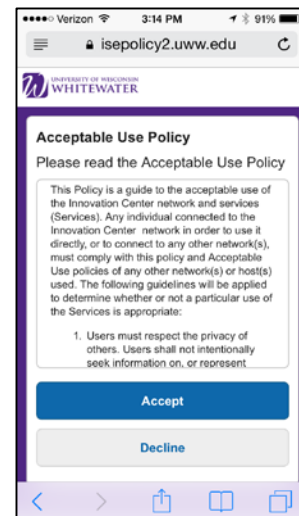

Step 7.

Read through, then accept the “Acceptable Use Policy”.

Tap the **Accept** button to continue.

NOTE: Tap the **Not Now** button if prompted to save your password.

Step 8.

You will be prompted to change your temporary guest wireless password. Please enter the current temporary password, then your new password in the “New password” and “Confirm password” boxes available.

Tap **Submit** to continue.

The screenshot shows a mobile browser interface. At the top, the status bar displays 'Verizon', signal strength, '3:15 PM', and '90%' battery. The address bar shows 'isepolicy2.uww.edu'. Below the address bar is the University of Wisconsin-Whitewater logo. The main content area is titled 'Change Password' and contains the following text: 'You are required to change your password now. Please enter a new password.' Below this text are three input fields labeled 'Current password:', 'New password:', and 'Confirm password:'. At the bottom of the form is a blue 'Submit' button. The browser's navigation bar at the very bottom shows back, forward, and home icons.

Step 9.

You will now see a page indicating that you are successfully connected to the UWW wireless network. You can either close the browser window or type in a new webpage URL at this time.
