

INSTRUCTORS' IMAGINATIONS IGNITED SECOND LIFE AT UW-WHITewater

Hear about the innovative use of Second Life in higher education and learn about the work of a yearlong, cross-disciplinary learning community of UW-Whitewater instructors focused on leveraging Second Life in their courses. During this LEARN Center session, instructors involved in the Second Life Learning Community will discuss how they experimented with instructional strategies to leverage the use of Second Life in their coursework. Examples of actual course activities will be showcased and key success factors learned, ideas, strategies, and tools used by the learning community will also be shared. The learning community work was made possible through a UW System Curricular Redesign Grant administered through the Learning Technology Development Council.

Date: Wednesday, October 12, 2011 ~ Time: Noon-1:00 pm ~ Location: UC 275A

Presented by:
