MISSION STATEMENT

University of Wisconsin System

Each institution of the University of Wisconsin System shares in the mission of the System which is to develop human resources, to discover and disseminate knowledge, to extend knowledge and its application beyond the boundaries of its campuses, and to serve and stimulate society by developing in students heightened intellectual, cultural, and humane sensitivities, scientific, professional, and technological expertise; and a sense of value and purpose. Inherent in this mission are methods of instruction, research, extended education, and public service designed to educate people and improve the human condition. Basic to every purpose of the System is the search for truth.

The Core Mission of the University Cluster Institutions

With the approved differentiation stated in their selected missions, each university in the Cluster shall:

a. Offer associate and baccalaureate degree level and selected graduate programs within the context of its approved mission statement.
b. Offer an environment that emphasizes teaching excellence and meets the educational and personal needs of students through effective teaching, academic advising, counseling and through university-sponsored cultural, recreational and extra-curricular programs.
c. Offer a core of liberal studies that supports university degrees in the arts, letters, and sciences, as well as specialized professional/technical degrees at the associate and baccalaureate level.
d. Offer a program of pre-professional curricular offerings consistent with the university's mission.
e. Expect scholarly activity, including research, scholarship and creative endeavor, that supports its programs at the associate and baccalaureate degree level, its selected graduate programs, and its approved mission statement.
f. Promote the integration of the extension function, assist the University of Wisconsin-Extension in meeting its responsibility for statewide coordination, and encourage faculty and staff participation in outreach activity.
g. Participate in interinstitutional relationships in order to maximize educational opportunity for the people of the state effectively and efficiently through the sharing of resources.

h. Serve the needs of women, minority, disadvantaged, disabled, and non-traditional students and seek racial and ethnic diversification of the student body and the professional faculty and staff.

i. Support activities designed to promote the economic development of the state.

Select Mission of the University of Wisconsin-Whitewater

In addition to the system and core missions, the University of Wisconsin-Whitewater has the select mission to:

a. Offer an extensive range of undergraduate programs and degrees, including interdisciplinary programs in letters, sciences, and the arts, as well as programs and degrees leading to professional specialization.

b. Offer graduate education built clearly upon its undergraduate emphases and strengths with particular emphasis in the fields of business and education.

c. Expect scholarly activity, including research, scholarship and creative endeavor, that supports its programs at the associate and baccalaureate degree level, its selected graduate programs, and its special mission.

d. Provide supportive services and programs for students with disabilities.

e. Recruit minority and non-traditional students and provide support services and programs for them.

f. Serve as a regional cultural and resource center.

g. Provide continuing education and outreach programs as an integrated institutional activity.

WELCOME TO UW-WHITEWATER

The University of Wisconsin-Whitewater is a public university and part of the 26-campus University of Wisconsin System which serves more than 150,000 students statewide. Founded in 1868, the University of Wisconsin-Whitewater is a premier regional university committed to the goal of achieving "Excellence for the 21st Century" where quality teaching is the first and foremost responsibility of every faculty member.

The 1,000 members of the faculty, staff and administration are also committed to providing practical experiences that enhance learning both inside and outside the traditional classroom.

The university provides quality programs and services that meet the needs of students preparing to live and work in an increasingly diverse, multicultural and global society linked to an interdependent political, environmental, economic, and information-rich world.

UW-Whitewater has a current enrollment of approximately 10,500 students and offers 43 undergraduate and 14 graduate degree programs in the Colleges of Arts and Communication, Business and Economics, Education, and Letters and Sciences.

A general education program, recognized as a leading model for the UW System, provides a body of knowledge that undergirds and broadens all degree programs to enhance a student's lifelong experiences.

UW-Whitewater faculty and staff strive to extend personal attention to all students, providing a concerned academic environment that is responsive to individual needs.

Today, in addition to its academic programs, it is a center for leadership and service through its coordination of numerous conferences on subjects as diverse as regional planning, international education and the status of women. It also sponsors lectures,
concerts and programs which enrich the cultural life of students, faculty and the community. An extensive program of evening on-campus and off-campus courses is offered for those who are employed during the day. Counseling for small businesses is provided free of charge by the Small Business Development Center.

The University invites students of all ages to participate in its programs. Students range in age from 17 to the 90s, from persons taking one class to those with a full course of studies, from high school students sampling college to business persons seeking new expertise in their field of business, from senior citizens to the traditional college freshman.

UW-Whitewater's 400-acre campus includes 46 academic/auxiliary buildings, a nature preserve and arboretum, and 43 acres set aside for baseball, football, soccer, softball, track, and tennis.

The focal point of the campus is a two-block mall which links classroom and administrative buildings with the multi-purpose University Center. North of the mall lie residence halls, the student health center, the Williams Physical Education and Recreation Center, and the 12,500 seat Perkins Stadium. To the west is the Center of the Arts and the Young Auditorium which serve as a regional cultural center.

Located in Whitewater, a friendly, picturesque city of 12,000 people, UW-Whitewater is near rural recreation areas, yet within convenient driving distance of the metropolitan centers of Milwaukee, Madison, and Chicago.

The University of Wisconsin-Whitewater is a campus with a long history of providing the time and the place for:

- obtaining a quality education
- exploring new ideas and interests
- discovering oneself to the fullest

**TRADITION OF EXCELLENCE IN EDUCATION**

- Innovative programs such as The Milwaukee Experience, Project Assist, and the first Beginning Teacher Assistance Program in the United States have earned national recognition for the College of Education.
- The CPA examination scores achieved by UW-Whitewater's accounting graduates have consistently ranked the University among the top ten colleges and universities nationally every year since 1985.
UW-Whitewater features a diverse student body that includes the third largest minority enrollment in the University of Wisconsin System.

With its special mission to serve students with disabilities, the University has invested more than $2 million in improvements to guarantee barrier-free access to all campus buildings. As such, UW-Whitewater ranks among the top five universities nationally in accessibility.

The UW-Whitewater Office of Disabled Student Services has earned a reputation for innovative programs as demonstrated by its receipt of the American Association of State Colleges and University's top national award in 1994.

For the fourth time, the UW-Whitewater Management Computer Systems Program was ranked as the number one four-year computing degree program in the United States and Canada by the Data Processing Management Association. UW-Whitewater is the only institution to receive the number one ranking more than once.

Due to the development and implementation of an innovative General Education curriculum, universities throughout the country regard UW-Whitewater as having a model program and actively seek out its counsel in revising their own programs.

The UW-Whitewater Business Education Program earned the 1994 and 1997 national four-year university award from the Business Education Division of the American Vocational Association.

UW-Whitewater has built a tradition of success among its 19 men's and women's intercollegiate athletic programs.

The UW-Whitewater Office of Continuing Education and Graduate Studies reaches out to its constituency and annually attracts over 30,000 people to a variety of camps, programs, and conferences.

The Wisconsin Innovation Service Center is a highly respected operation which provides comprehensive evaluations of thousands of new product ideas and is the only non-profit service of its kind in Wisconsin.

The UW-Whitewater chapter of the Association of Collegiate Entrepreneurs has earned more awards from the national organization than any other college or university in the United States.

UW-Whitewater serves as a cultural center for the region through the visual and performing arts programming offered in the Center of the Arts and the Irvin L. Young Auditorium, serving a combined annual audience of 100,000 area residents.

The America's Best Colleges, published by "U.S. News and World Report" magazine has listed UW-Whitewater in its tier one ranking of Midwestern regional colleges and universities.
ADMISSION INFORMATION

FRESHMAN: To apply for admission to UW-Whitewater, applicants can obtain an admissions application from their high school counselor or from the UW-Whitewater Admissions Office. Also, the UW System electronic application is available through the Internet at this address: apply.wisconsin.edu. An application may be considered as early as September 15 of the senior year. It must include a high school record, class rank or grade point average, the courses to be completed in the senior year, and the application fee.

Eligibility for admission to UW-Whitewater will be based on the following criteria:

1. Graduation from a recognized high school. (Applicants who completed a high school equivalency diploma (GED) may still be considered if at least 21 years of age and out of school for two years or more.)
2. Applicants must complete 17 units of high school work with a minimum of 13 core college preparatory units from the academic areas of English (including speech), social studies, mathematics, and science. Within the 17 units, the applicant must have the following academic pattern:
   a. Four required units in English which may include one unit of speech.
   b. Three required units in social studies.
   c. Three required units in mathematics, (including beginning algebra, geometry, and advanced algebra, or an algebra/trigonometry combination).
   d. Three required units in science.
   e. Four additional units from any of the required areas or from the arts, computer science, foreign language, accounting or other academic areas as approved by the University. Admitted new freshmen students failing to complete their senior year required core academic limits will have their admission rescinded. Students interested in completing deficiencies during the Summer must contact the Admissions Office.
3. Applicants who have completed the required academic unit pattern will be eligible for admission if they (1) rank in the upper 50 percent of their high school class, or (2) rank in the lower 50 percent of their high school class and have combined high school class and ACT/SAT percentile ranks of 100 or above.
4. Due to an enrollment limitation program, a discretionary admissions category (applications will be held for possible acceptance at a later date) has been established for freshman applicants. UW-Whitewater has defined this category
to include applicants who meet the minimum admission standards, but rank in the bottom half of their class, and have a combined class rank percentile and test score percentile between 70 and 99. During recent years, approximately 33% of the students in the discretionary category have been offered admission.

5. Special consideration may be given for admission for applicants who are 21 years of age, have been home-schooled, have served in the armed forces, come from a disadvantaged background, or have other unique circumstances.

6. OUTSTANDING students may be considered for part-time or full-time admission to UW-W before completing high school. Early admission is granted on an individual basis and only to those highly qualified applicants who can demonstrate that they can benefit from entrance into college prior to high school graduation. For further information contact the Admissions Office.

FRESHMAN ORIENTATION, REGISTRATION, AND ACADEMIC ADVISING: Incoming freshmen attend one of several summer registration/orientation programs. At that time students meet with an adviser (usually the major department chair) for assistance in selecting courses to be taken in the freshman year. Parents are invited and encouraged to attend, as there will be a special program scheduled for parents while students are receiving advising and are registering.

Also, there will be additional orientation/registration activities during the first few days of the fall semester. These programs are designed to make the freshman transition to college life as smooth as possible.

TRANSFER STUDENTS: To apply for admission, an application can be obtained from a UW System university or center, or an electronic application is available through the Internet at this address: apply.wisconsin.edu. Instructions with the admissions application will explain the procedure to be followed. An application fee is required for transfer students who have not previously attended a UW System campus as a matriculated student. In addition to the admissions application and high school records, official transcripts from all post-secondary institutions attended must be submitted. Applicants may be accepted on a tentative basis during the last term of enrollment at the sending institution provided they meet the minimum academic requirements for University admission.

UW-Whitewater requires a minimum 2.0 (4.0 system) cumulative grade point average to transfer; however, admission requirements may be higher for students planning to enroll in particular academic programs and during periods of enrollment limitation. Students who are enrolled in their first semester and who do not meet freshman admissions standards, must complete 12 college transferable credits to receive transfer admission consideration.
Guaranteed Transfer Program - Students participating in the UW-College/UW-W Guaranteed Transfer Program may begin their university education at a UW-College and upon completion of 60 credits be guaranteed the same opportunity to continue at UW-W as students who began at UW-W. Please note that upon transferring to UW-W it is necessary for students to submit another UW-System admission application. Students reapplying under this program are not required to resubmit a second high school transcript. UW-College transcripts should be forwarded to the UW-W Office of Admissions at the time of application. A minimum cumulative grade point average of 2.0 (4.0 system) is required for transfer; however, grade point average requirements may be higher for students planning to enroll in particular programs.

College of Education In order to enroll in a program leading to teacher certification, a student must be admitted to Professional Education (which normally occurs after completion of 40 or more college credits). Students who are pursuing teacher education programs will be admitted on a competitive basis of experience with children and diverse groups as well as cumulative grade point average. The application and information on criteria for admission may be obtained from the College of Education Information desk, Winther Hall 2033 (262-472-1184).

College of Business and Economics applicants interested in pursuing a business major must declare "Pre-Business" as the major. Pre-Business students are eligible to enroll in lower division business courses after they have completed twenty-four credits and possess at least a 2.50 combined grade point average. After a student completes fifty-four or more credits and has satisfactorily completed or is enrolled in 210-244, 210-249 or 210-341/342, 230-211, 230-212, 230-245 and 250-211 (765-162 and 765-171 for BBA MCS majors), the student can apply for admission to a major in the College of Business and Economics. All students with a 2.80 combined GPA or better would be admitted to a major in the College. Application forms for admission to the College of Business and Economics are available at the Assistant Dean's Office and are completed during the required Pre-Business advising meetings. Students who have questions concerning admission should contact the Assistant Dean of the College of Business and Economics.

Transfer credits are not granted for upper-division business courses at UW-W unless the equivalent courses were taken after completing 60 credits and were junior or senior level at the previous institution. Before receiving a degree in Business, students must earn at least 18 credits in their major at UW-W (21 credits if majoring in accounting or management computer systems).

For transfer students enrolling in the College of Business and Economics or the College of Education, the grade point average compiled at previous post-secondary
institutions is considered for purposes of determining eligibility to enroll in these programs.

**ACADEMIC ADVISING AND COURSE SELECTION:** Transfer students are required to attend an orientation session and receive academic advising for registration purposes. Advising is normally handled by personnel from the major department; however, students should consult with their minor department as well. Students admitted under the "special student" classification are not required to attend the orientation program or to seek advising assistance.

**READMITTED STUDENTS:** Students returning to the University after an absence of one semester or more must file an application for readmission. The application can be obtained from the UW-W Admissions Office or any other UW System university or center, or an electronic application is available through the Internet at this address: apply.wisconsin.edu. It is also necessary to furnish transcripts covering college-level work taken elsewhere during their absence from UW-Whitewater. Readmitted students must receive advising before registering and are encouraged to seek other assistance as needed for their unique situation.

**SPECIAL STUDENTS:**

**SPECIAL STUDENTS WITHOUT CREDENTIALS.** Students who wish to enroll for six credits or less in any semester may apply for admission as a "special student without credentials". The application fee is not required but some record of previous academic work may be required to establish academic eligibility. Prospective students who do not meet admission standards will not be granted admission as a special student. Special students without credentials may attend summer school without establishing academic eligibility and may take as many credits as are regularly allowed in the summer school for all students.

Special students without credentials are not considered candidates for a degree and are not required to receive formal academic advising upon enrollment. Academic Progress Reports (APRs) are not available for special students; however, sample APRs are available upon request.

**SPECIAL STUDENTS WITH CREDENTIALS.** Students who have a conferred bachelor's degree and wish to enroll only for undergraduate work may apply as a "special student with credentials". An admissions application and an official transcript indicating receipt of the degree must be submitted for review. An admissions application fee is required for students seeking teaching licensure or a second bachelor's degree and who have not previously attended a UW System campus as a matriculated student. Students in this classification must meet the UW-W program
grade point average requirement and are considered to have fulfilled proficiency, general education, core and diversity requirements. Transfer credit evaluations and Academic Progress Reports (APRs) are not available for special students; however, sample APRs are available upon request. Formal academic advising is not required.

INTERNATIONAL STUDENTS: The University will consider applications from international students who demonstrate academic potential, are proficient in English, and have adequate financial resources to meet expenses while attending UW-Whitewater. To assess academic potential, results of nationally-administered examinations and the secondary school record will be considered. Please note that secondary education must consist of a college-preparatory program.

ACADEMICALLY DISMISSED STUDENTS: Students dismissed for academic reasons at UW-Whitewater will be considered for readmission if their grade point average is improved by means of work taken through UW-Whitewater summer sessions. Students will also be eligible for readmission if they have remained out of college for the time specified under the probation and dismissal policies of the University. Students who have been academically dismissed and attend other post-secondary institutions during their absence from UW-W will be evaluated based upon their academic performance (final grades) at the sending institution; this may delay the readmission process to the University and could affect admission eligibility.

RESIDENCY REGULATIONS

Applicants who are adults and who have been bona fide residents of the State of Wisconsin for one full year prior to the beginning of the term of enrollment or minor students whose parents have been bona fide residents of the state for 12 months prior to the beginning of the semester of enrollment are exempt from payment of nonresident tuition. Also, applicants who have been continuously employed full time in this state, and were relocated to Wisconsin by their current employer; or applicants who moved to Wisconsin for employment purposes and accepted current employment before applying for admission to UW-Whitewater, may, along with their spouse and dependents, be exempt from the payment of nonresident fees provided the person making application demonstrates an intent to establish and maintain a permanent home in Wisconsin.

In addition, persons may qualify as bona fide residents if they meet any of the following criteria:

- nonresident members of the armed forces (including spouse & dependents) stationed in the state, or members of the armed forces who reside in Wisconsin
and are stationed at a federal military installation located within 90 miles of the borders of Wisconsin;

- graduates of a Wisconsin high school whose parents have been bona fide residents of the state 12 months prior to the beginning of the semester of enrollment, or whose last surviving parent was a bona fide resident of the state 12 months preceding his/her death;
- minor students who are orphans and have resided substantially in the state during the years of minority and at least 12 months preceding the beginning of the semester of enrollment;
- minor students under guardianship in the state during the years of minority and at least 12 months preceding the beginning of the semester of enrollment;
- adult students who have been employed as migrant workers in the state for at least 2 months each year for 3 of the 5 years next preceding the beginning of any semester or session for which they register at a university or center, or for at least 3 months each year for 2 of the 5 years preceding the beginning of the semester of enrollment;
- official refugees who moved to the state immediately upon arrival in the United States and who have resided in the state continuously; or
- minors or dependent adult students provided one or both parents have been bona fide residents of the state for at least 12 months preceding the beginning of the semester of enrollment.

Intent to become a bona fide resident may be demonstrated or disproved by factors including, but not limited to, filing of Wisconsin income tax returns, eligibility to vote in Wisconsin, motor vehicle registration in Wisconsin, possession of a Wisconsin operator's license, employment in the state, and self-support.

However, applicants who enter and remain in this state principally to obtain an education are presumed to continue to reside outside this state, and such presumption continues in effect until rebutted by clear and convincing evidence of bona fide residence.

**MINNESOTA-WISCONSIN RECIPROCITY AGREEMENT**

This agreement allows Minnesota residents to pay a reduced non-resident fee to attend a Wisconsin university. Arrangements to participate in this program may be made by filing an application with the Minnesota Higher Education Coordinating Board, Suite 400, Capitol Square, 550 Cedar Street, St. Paul, Minnesota, 55101. (Subject to yearly approval by Minnesota-Wisconsin state governments.) (Telephone 612-296-3974 or 1-800-657-3866)
ACADEMIC ADVISING

GOALS OF ACADEMIC ADVISING: Academic advising at UW-Whitewater is student initiated and faculty based.

Students have the ultimate responsibility to monitor their course of study, to fulfill all degree requirements, and to take the initiative to seek advising. Assistance is made available through the development of a supportive advising relationship with a faculty member teaching in the student's major.

Faculty advisers will assist in the development of an educational plan that is consistent with students' intellectual and professional goals and objectives. After developing such a plan, advisers provide guidance in the attainment of those goals in an orderly and timely manner.

The specific objectives of academic advising at UW-Whitewater include the following:

1. To provide accurate information on institutional policies, requirements, and resources and to assist individual students in making appropriate course selections to fulfill all degree requirements.
2. To aid students in a continuing and realistic appraisal of their choice of major and their success in all aspects of the academic program.
3. To lend support and encouragement to students as they pursue their educational and personal goals.
4. To make referrals to special services offices when appropriate.

ADVISER ASSIGNMENT: Academic advising is a departmental responsibility, and in general, students' advising records are deposited in the departmental office of their major area. Most students are advised through the department of their major. Exceptions to this system include:

1. Pre-business students and all General Business majors in the College of Business and Economics are advised through the Office of the Assistant Dean, located in Carlson 4035.
2. Students who have not declared a major are advised by peer and faculty advisers in the College of Letters and Sciences - Undeclared Advising Office located in Salisbury 130.
3. Other students in the College of Letters and Sciences are assigned faculty advisers in the department of their major or in their pre-professional interest.
4. Students who are majoring in secondary education should seek advising from both their academic emphasis department and the Department of Curriculum
and Instruction. Specific questions about admission to Professional Education and licensure can be addressed to the Office of the Assistant Dean located in Winther 2035.

5. Special students pursuing regular elementary, middle or secondary education teacher licensure are advised through the Department of Curriculum and Instruction, and special students pursuing special education teacher licensure are advised through the Department of Special Education. Specific questions about admission to Professional Education and licensure can be addressed to the Office of the Assistant Dean located in Winther 2035.

6. Students in the Educational Opportunity Program (EOP) are advised by EOP advisers as well as departmental advisers.

In addition to the advising system outlined above, the offices of the Provost and Vice Chancellor for Academic Affairs, the Associate Vice Chancellor, Assistant Chancellor for Student Affairs, the College Advising Coordinators, Educational Opportunity Program, Registrar and Admission Offices, Tutorial Center, Learning Skills Center, University Health and Counseling Center, Academic Standards, Disabled Student Services, and Career Services are designed to give assistance as the need arises.

Related counseling services in the University include programs in financial aid, adult student resources, student employment, international student programs, health and vocational rehabilitation counseling, speech therapy and placement services. Career counseling is available through the Career Services Office.

The Registrar's Office maintains all academic records. Students may obtain a copy of their academic records as well as information about University regulations and registration from the Registrar's Office.

The Academic Progress Report (APR) is a complete match of a student's academic course history against a prescribed set of degree program requirements based upon the academic year on a student's record and the academic year of the requirements on the curriculum file. The APR is the official advising instrument. Students can request APRs from the advising locations of their major.

**GRADING SYSTEM**

**GRADE POINT AVERAGE (GPA):** The grade point average is based on the computation of credits attempted and honor points earned. It is computed by dividing the honor point total by the total number of credits attempted (excluding
credits attempted on a satisfactory/no credit basis). For example, if students attempted 16 credits of work and received a B in each course, they would receive 48 honor points which would give them a grade point average of 3.00. Grade point averages are not rounded.

The undergraduate marking system and credit points for each semester credit are as follows:

<table>
<thead>
<tr>
<th>Conventional Grades</th>
<th>Honor Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A--Superior</td>
<td>4</td>
</tr>
<tr>
<td>B--Above Average</td>
<td>3</td>
</tr>
<tr>
<td>C--Average</td>
<td>2</td>
</tr>
<tr>
<td>D--Poor</td>
<td>1</td>
</tr>
<tr>
<td>F--Failure</td>
<td>0</td>
</tr>
</tbody>
</table>

N--No Grade Reported: 0 honor points for each semester credit but computed in the grade point average.

I--Incomplete: 0 honor points for each semester credit but not computed in the grade point average. If students have been doing passing work until near the end of a semester or summer school and then, because of illness or other unavoidable circumstances, are prevented from completing the work, their instructor may give them an "incomplete" and extend to them the privilege of completing the work at a later date. The instructor must give specific directions for the completion of the course on a Contract for Incomplete or Progress Grade and submit it to the Registrar with the final grades. An incomplete course must be completed within the agreed time but no later than the beginning of the exam period for the next semester (excluding summer), or the grade automatically becomes an F unless a default grade was submitted by the teacher with the incomplete grade, in which case the default grade will be assigned. If awarded in the term of graduation, the make-up period is 30 days maximum. In no case will students be given an incomplete when, through their own fault, they failed to complete the requirements of the course on time or failed to report for the final examination as scheduled. If the course work is not completed in the allotted time and a grade change submitted by the instructor, the incomplete will automatically be changed to an F grade prior to the grading cycle following the deadline.
P--Progress: 0 honor points, indicates course in progress toward completion. Can be used only in those courses that extend beyond the end of the semester. If students are given a P (progress) grade in a course, they must complete the work for a permanent grade at the agreed time, but no later than the beginning of the exam period for the next semester (excluding summer), or the grade automatically becomes an F. If awarded in the term of graduation, the make-up period is 30 days maximum. If the course work is not completed in the allotted time and a grade change submitted by the instructor, the progress grade will automatically be changed to an F grade prior to the grading cycle following the deadline.

NC--No Credit: Indicates an unsuccessful (D or F equivalent) attempt of a course on a satisfactory/no credit basis. This grade is not computed in the grade point average. S--Satisfactory: 0 honor points for each semester credit and not figured in computing grade point average. It represents a C grade or above in a satisfactory/no credit grading situation.

W--Drop/Withdrawal: 0 honor points and 0 credits. Indicates enrollment in the course through the first ten days of the semester or the first five days in a short-term course or summer session with a subsequent course drop or withdrawal.

X--Audit: 0 honor points and 0 credits.

**SEMESTER HONORS:** Students having earned a 3.40 or above semester grade point average with no grade below C (D, F, N, or NC), will be granted Academic Honors for that semester. To be considered for Academic Honors, students must have successfully completed a minimum of 12 credit hours of work for the semester, at least 9 of which must have been taken on a conventional grade basis.

**ABSENCES:** The notifying of instructors and arranging of make-up work in cases involving absence of students from class are the responsibility of the student. A student who is absent should notify instructors by phone or in person of the absence as soon as possible. If contact with instructors cannot be made directly, the student should see that a note is placed in each instructor's mailbox, explaining the nature of the situation and inquiring about the effect of the absence on the student's course work. If that is impossible, the student should call the academic departments involved.

In serious situations where the student is incapacitated and temporarily unable to perform the aforementioned responsibilities, family members may contact the Office of New Student Programs & First Year Experience (phone 262-472-3205) for assistance with these matters. The New Student Programs & First Year Experience office would then provide notification (not verification) of the absence to the instructors involved; however, arrangements for make-up work, make-up exams or
possible assignment adjustments are entirely the responsibility of the student. The Student Health Service and the New Student Programs & First Year Experience offices do not provide excuses for absences from class due to illness.

If students have questions or need consultation regarding specific situations, they are encouraged to contact their instructors or the academic department involved.

REGISTRATION

Official registration for any session is accomplished only after students have: (1) been admitted and granted permission to register, (2) obtained advising as determined by the major department, (3) made a registration deposit, and (4) completed the process by either the telephone or the STAR system. Students may not attend a course/section without properly registering for it or adding it to their schedule of classes. Registration may not be permitted for any session after the last date of registration. The University reserves the right to close registration before the deadline if its enrollment capacity has been reached.

ACT REQUIREMENT: The ACT is required for all incoming freshmen prior to enrollment at UW-Whitewater. The exam is administered at a number of different times and locations; it is recommended that the exam be taken in the junior year or early in the senior year. Applicants must request ACT to forward scores to UW-Whitewater. If the ACT requirement is not satisfied by the time of enrollment, registration may be denied and/or classes may be cancelled for that or subsequent semesters. Questions regarding the ACT may be directed to the Office of Testing and Student Affairs Research (262-472-5613). The SAT Test is also acceptable.

CLASSIFICATION: Determined by the cumulative number of credits satisfactorily completed as follows:

<table>
<thead>
<tr>
<th>Classification</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>New Freshman</td>
<td>0 credits (excluding college credits earned while in high school)</td>
</tr>
<tr>
<td>Other Freshman</td>

</tr>
<tr>
<td>Sophomore</td>
<td>24-59.9 credits</td>
</tr>
<tr>
<td>Junior</td>
<td>60-89.9 credits</td>

CREDIT IN TRANSFER OR BY EXAMINATION

GENERAL TRANSFER: Transfer course numbers are converted to UW-Whitewater course numbers whenever possible. If a specific course number appears on the evaluation, students must not enroll for the course at UW-Whitewater unless they are repeating a course under the transfer course repeat policy. This would mean loss of credit, since duplicated credit for a course cannot be awarded.

Although grades earned at other post-secondary institutions will be included on the evaluation of transfer credit and the APR, the UW-Whitewater grade point average is not affected by grades earned elsewhere. Grades earned at other institutions are considered only for purposes of determining eligibility for admission to the University and eligibility for registration in certain majors, such as those in business, education and management computer systems.

For majors requiring higher grade point averages, the combined cumulative GPA of both the transfer college(s) and UW-Whitewater will be used to determine eligibility for course enrollment. Also, business students must complete course work in residence at UW-W in at least six courses (18 credit minimum) in their major field. A maximum of only two transfer courses will be allowed to count in any major in the BBA curriculum. Regardless of major, a minimum of 25% of the major course credits and 25% of the minor course credits must be completed at UW-Whitewater.

In order to be equated to a UW-Whitewater course, a course taken at another post-secondary institution must be taken for at least 2/3 of the number of semester credits for which the course is offered at UW-Whitewater.

Credit may be transferred to UW-Whitewater if the grade earned in the course at the previous institution is recognized as a passing grade (D or better) and the course parallels work offered at UW-Whitewater. If a course is repeated, credit will only be granted for repeated courses in which grades of D and F were received. Students may repeat courses transferred to UW-Whitewater from other post-secondary institutions subject to UW-Whitewater's repeat policy. Coursework completed at one transfer institution and repeated at a second transfer institution is recognized when calculating the transfer grade point average during the admission process. Please contact the Office of Admissions for further details or reference the repeat policy section of this Catalog.
Appropriate credits may be transferred from one curriculum to another within the University. Waiver(s) granted by one of the four colleges may not be recognized if the student switches colleges.

**Quarter Credits:** The number of credits earned for a course taken on the quarter system must be multiplied by 2/3 in order to convert to the semester system. Thus a course for 3 quarter credits would be changed to 2 semester credits when transferred to UW-Whitewater.

It is possible that some credit in academic areas other than those offered at UW-Whitewater may be accepted upon written appeal to the Admissions and Academic Standards Committee. In considering appeals, the Committee will consult with the appropriate department chairperson to determine whether the course content is related to the major or minor and whether granting the credit is of demonstrable educational value.

Students who feel that an adjustment in an evaluation is necessary should contact the Admissions Office before proceeding with academic advising and registration. Any adjustment in the credit evaluation must be requested within one year of the date of UW-W enrollment.

**TWO-YEAR COLLEGE TRANSFERS:** Courses taken at two-year campuses may be equated only to UW-Whitewater 100-level (freshman) or 200-level (sophomore) courses. When a course taken at a two-year college appears to parallel a 300-level (junior) or 400-level (senior) course at UW-Whitewater, the course may be accepted as a general elective.

After accumulating 72 credits, a minimum of 48 additional credits must be earned at UW-Whitewater and/or other accredited four-year colleges before a degree may be awarded. Upper-division UW-Whitewater students who decide to attend a two-year college after accumulating 72 credits toward graduation must obtain prior permission from the dean of their college.

Students enrolled in the Wisconsin Technical College System (WTCS) who wish to continue their education at UW-W may be eligible to transfer credits toward their bachelor's degree in the following ways:

1. Students enrolled in the college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, and Nicolet Area Technical
College may be eligible to transfer up to 72 credits toward their baccalaureate degree.

2. Students who have successfully completed coursework in the Wisconsin Technical College System may be eligible to transfer up to 15 credits of general education coursework in the communication and social science breadth requirements.

3. Students may be eligible for credit by earning appropriate scores on national standardized examinations (e.g. College Level Examination Program) or examinations developed by UW-W.

4. Students with a declared business major who attain an Associate of Applied Science degree from the Division of Business and Marketing may be eligible to transfer a maximum of 12 credits in business related coursework.

5. Two program-to-program articulation agreements are in effect. Gateway Technical College (Speech Communication, Electronic Media emphasis major) and Madison Area Technical College (Biology Cell-Physiology emphasis major). Contact the Admissions Office for specific details.

For more information about these transfer opportunities, students should consult with their Wisconsin Technical College advisers or the UW-W Admissions Office.

TRANSFER INFORMATION SYSTEM (TIS). The Transfer Information System (TIS) is a source of information for students and advisers with questions regarding transferability of credits among UW System institutions and the Wisconsin Technical Colleges. This computer-based system provides information regarding transfer course equivalencies, academic program array, and student services departments. The TIS resource link is accessible through the UW-Whitewater WEB Home Page (http://www.uww.edu) under admissions. TIS is very user friendly with easy to use commands and an extensive tutorial. Access is available at all University Computer Labs.

UNIVERSITY REMEDIAL, PROFICIENCY, GENERAL EDUCATION, AND DIVERSITY FULFILLMENT: Transfer students with an Associate of Arts or Associate of Science degree from an accredited Illinois State junior college, Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or the University of Wisconsin College System, who transfer at least 40 acceptable credits to UW-Whitewater are considered to have fulfilled the University Proficiency and General Education requirements. Although the Associate degree satisfies all University Proficiency and General Education and Core Course requirements, there may be specific courses still required to meet degree and/or major/minor requirements. In addition to satisfying University Proficiency and General Education requirements, the UW-College Associate of Arts or Associate of Science degree awarded since Fall 1991 satisfies the Diversity requirement as well.
Advisers should be made aware of this fact so students are not needlessly advised into General Education courses. The final official transcript from the sending institution must indicate that the degree(s) specified have been awarded or the student will be responsible for fulfilling these requirements.

If a student transfers into a UW-W degree program which requires math, and the student has not completed the equivalent of UW-W math 141 or higher (Intermediate Algebra), the student will be required to complete a math placement exam unless the ACT math subscore is available.

For applicants who have a bachelor's degree from an accredited post-secondary institution and are seeking a second bachelor's degree at the University of Wisconsin-Whitewater, the first degree satisfies the University Proficiency, General Education, Core Course and Diversity requirements.

Beginning with the 1996 fall semester, all transfer students will be required to complete the following General Education Core Course requirements:

<table>
<thead>
<tr>
<th># of Credits Transferred</th>
<th>UW-W Core Course Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 - less than 21</td>
<td>All General Education Core Courses</td>

</tbody>
</table>

Students transferring without the associate or bachelor's degrees described above are required to complete any remaining University proficiency requirements prior to completion of 60 credits toward graduation. Transfer students with 60 or more credits toward graduation must complete any remaining proficiency requirements within their first UW-W semester.

Students who do not receive transfer credit for English 101 or Mathematics 141 will be placed according to ACT or SAT subscores.
CREDIT BY EXAMINATION AND ADVANCED STANDING: The University provides opportunities for a student to receive advance academic credit and/or advanced standing on the basis of examination. Students desiring credit by examination should contact the Director of Testing and Student Research for information and the CREDIT BY EXAMINATION OPPORTUNITIES booklet which lists the examinations which have been approved by the University. The maximum number of credits by examination allowed will be 60 credits. This includes departmental and nationally-administered examinations or other credit by examination transferred to UW-W from another institution.

A student with a score of three or better on a College Entrance Examination Board (CEEB) Advanced Placement Examination will receive credit for a specific course offered at UW-W if the appropriate department has approved the examination and the particular test is included in the CREDIT BY EXAMINATION OPPORTUNITIES booklet. General elective credit will be granted for CEEB Advanced Placement courses even if they do not have direct relationship to specific courses offered at UW-W provided a score of three or better is earned.

The University also recognizes certain tests offered by the College Level Examination Program (CLEP). CLEP examinations include both general and subject examinations. In the case of subject examinations, the appropriate department at UW-Whitewater determines the course for which credit can be granted and the score required. With regard to CLEP General Examinations, the following policies apply:

1. A student attaining a score of 500 or above on the Social Science-History exam will be awarded 3 credits in social science.
2. A student attaining a score of 500 or above on the Humanities exam will be awarded 3 credits in fine arts or 3 credits in humanities. The student, with the advice of an adviser, may choose 3 credits in either fine arts or humanities.
3. A student attaining a score of 500 or above on the Natural Sciences exam will be awarded 5 credits in natural sciences.

If a student is enrolled in a course and desires to take a test for credit, the test must be taken no later than one month after the beginning of classes. Students who have completed credit by examination elsewhere should have official test scores sent to the Office of Testing and Student Affairs Research.

Each department at the University is authorized to devise its own test for purposes of granting advance credit for any course offered by the department.

Students may be placed in advanced courses, without receiving advanced credits, on the basis of standardized tests, high school performance, or departmental interviews.
Qualified students may attempt to earn retroactive credits in foreign language (French, German and Spanish). The procedure in each case is outlined in the CREDIT BY EXAMINATION OPPORTUNITIES booklet.

The University also has provisions for awarding advance credits based upon satisfactory scores on International Baccalaureate exams. For specific information concerning credits which may be awarded and the necessary score, students may contact the Director of Testing and Student Affairs Research (262-472-5613).

**VETERANS:** The University is approved by the State Approval Agency. Veterans may receive four elective credits if they received an honorable discharge after six months or more of service or if they were discharged into the National Guard or Reserves. The discharge certificate (DD214) must be submitted to the Admissions Office to obtain these credits.

Credit may be granted for formal courses offered by the armed services if the Guide compiled by the American Council on Education so recommends. Check with the Admissions Office for this type of credit.

Questions concerning veterans' educational benefits should be directed to the Veterans' Coordinator in the Registrar's Office. Students meeting with the Veterans' Coordinator for the first time should be sure to bring along their discharge certificate (DD214).

**INTERNATIONAL STUDY TOURS:** Prior to participation in an international study tour, it is important that students contact the Admissions Office regarding the transferability and applicability of credit. According to University of Wisconsin System policy, course work from accredited international universities and study abroad programs at accredited United States post-secondary institutions may be accepted in transfer. No credits will be granted on the basis of a transcript furnished by a commercial study tour.

**ACADEMIC LOAD:** The average course load to graduate in eight Fall/Spring terms is 15 credit hours. A maximum of 18 credits may be taken if students are in good standing. There is a 12-credit maximum for all students in summer term and a 6-credit maximum for special students without credentials during the regular terms. Students will be limited to 15 credits per Fall/Spring term if they have less than a 2.00 grade point average, are admitted on probation, or are a new freshman who ranks in the lower one-half of their high school graduating class and scores in the lower one-half on the American College Test (ACT) or the Scholastic Aptitude Test (SAT). Permission of the dean of the college in which students are enrolled must be received
before they can carry more than the maximum credits allowed according to their academic standing.

Students will not be permitted to enter a course after the fifth day of classes for the term. Exceptions to the deadline must be obtained from the dean of the college of the course. Students will be held responsible for the completion of all courses for which they are registered on that date unless they officially withdraw from the University or officially drop the course by proper procedures. (See Course Enrollment Options section for procedures.)

SENIORS TAKING GRADUATE COURSES: UW-Whitewater undergraduate students with senior status may be allowed to take a maximum of six graduate credits at UW-Whitewater provided they have completed at least 90 credits with a minimum of a 2.75 overall grade point average (or 2.90 over the last half of their course work). Seniors must file a Senior Application at the Graduate Office and have the written recommendation of the department chairperson of their undergraduate major. Seniors may not use graduate-level credits to satisfy requirements for the bachelor's degree, and undergraduate fees will be charged for their graduate-level work. This privilege is not available to seniors at other institutions or to students who already possess a bachelor's degree.

TIMETABLE: Published each term by the Registrar's Office, it includes all policies, procedures, courses offered with their requisites, and other information pertinent to registration.

Degrees and Graduation

The University of Wisconsin-Whitewater offers the following undergraduate degrees: Associate of Arts, Bachelor of Arts, Bachelor of Business Administration, Bachelor of Fine Arts, Bachelor of Music, Bachelor of Science, and Bachelor of Science in Education. Students may be awarded only one degree at any commencement. The University has the right to rescind a previously granted degree if the University becomes aware of information that the degree should not have been granted.

SECOND DEGREE: Students wishing to earn a second baccalaureate degree from UW-Whitewater must complete all requirements for the second degree and have a minimum of 30 undergraduate credits at UW-Whitewater after the date of the conferring of the first earned degree. A minimum of 25% of the major course credits and 25% of the minor course credits must be completed at UW-Whitewater.

BACHELOR'S DEGREE REQUIREMENTS: To be a candidate for the Bachelor's Degree, students must satisfactorily complete the following: 1) a minimum of 120
undergraduate credits in courses numbered 100 through 400; 2) the University Proficiency and General Education requirements, college requirements, and departmental requirements; 3) a minimum GPA of 2.0 or better on a 4.0 system both overall and in the major and minor fields [certain programs require grade point averages higher than 2.0 - see college and major requirement sections]; 4) completion of a minor if required in the major/degree program; the minor must be a valid combination with the major, a second major may be used in place of a minor; 5) the major department's writing competency requirement. Students should refer to their APR and/or contact their departmental adviser to determine which course, course sequence or equivalent will fulfill this requirement. Completion of the writing requirement for one major will satisfy this requirement in the other major; 6) a 3-credit diversity course, the primary focus of which is racial and ethnic minority issues. This course may also satisfy other university requirements; 7) a minimum of 48 credits at an accredited 4-year institution after the last credit was earned at a 2-year institution; and, 8) participation in a University institutional testing program examination, if requested.

ASSOCIATE OF ARTS DEGREE REQUIREMENTS: Students may earn an Associate of Arts degree by successfully completing a minimum of 60 credits, including proficiency requirements, 15 credits of 100 level core courses, 23 credits of general education breadth courses, and the diversity requirement with a UW-W 2.00 cumulative GPA. The breadth categories are the same as the baccalaureate degree with a minimum of 3 credits in humanities, 5 credits in a lab science, 3 credits in natural science or math, 3 credits of social science and physical education 440-192.

Fifteen of the 60 credits must be taken in course work at UW-Whitewater. Students must be enrolled at UW-Whitewater during the semester in which the requirements are completed.

Application for an Associate of Arts degree must be made no later than two years after the last term of attendance. An Associate of Arts degree cannot be received at the same time as a baccalaureate degree. Associate of Arts degree candidates do not participate in the commencement ceremony. There is a graduation fee for the Associate of Arts degree.

RELATED DEGREE POLICIES: Students must take required courses in their major and their minor on a conventional grade basis. The same course credits may not be counted in both the major(s) and the minor(s). In those cases in which the same courses are required in more than one major and/or minor, departments will determine appropriate additional courses to meet the minimum credit requirements for each. The minimum credit requirements must be met for each major and each minor. Students are responsible for meeting all degree requirements in effect at the University of
Wisconsin-Whitewater at the time of the declaration of their current major unless they interrupt their attendance at Whitewater by an absence of four or more consecutive terms (including summer), in which case upon re-entry they will be subject to the requirements in effect at that time. Students may elect to satisfy any newer set of requirements provided they satisfy all of them related to the specific component of the degree program.

If students have not completed their degree requirements within eight years, they may be required by the dean of the college in which they are enrolled to satisfy newer requirements as deemed appropriate. Under special conditions substitutions are allowed that are in their best interest and considered educationally sound by the dean.

Students may fulfill the requirements for another major or minor after receiving their degree from UW-Whitewater if the following conditions are satisfied: 1) the major/minor course and GPA requirements in effect at the time of declaration of intent are completed; 2) course credits used to satisfy the requirements of previous major(s) or minor(s) are not used; 3) the major/minor transfer course limitation is not exceeded; and 4) the course selection is approved by the department chairperson. A major or a minor will not be awarded to a student who has not earned a degree at UW-Whitewater.

RESIDENCE REQUIREMENTS: A minimum of thirty (30) credits of UW-Whitewater course work is required to qualify for an undergraduate degree. At least fifteen (15) of these thirty (30) credits must be taken at UW-Whitewater immediately prior to graduation. A minimum of 25% of the major course credits and 25% of the minor course credits must be completed at UW-Whitewater. Students pursuing any major in the BBA curriculum must complete course work in at least six courses (18 credit minimum) in their major field. A maximum of two transfer courses may count in the BBA major.

APPLICATION FOR DEGREE: Students must file a written application for degree with a Graduation Examiner in the Registrar's Office no later than the end of the second week of the term in which they expect to graduate. However, it is strongly recommended that they apply at least 15 months before the intended graduation date, so changes can be made to their schedule if a problem is identified during the graduation clearance process. Application forms are available in the Registrar's Office. To avoid graduation problems, the APR should be thoroughly reviewed with an academic adviser each semester.

If students wish to challenge a final term grade as a graduating student, they must make the challenge within 30 days. After the degree is posted, no changes will be made retroactively to the permanent academic record. Any questions should be
directed to the Records department of the Registrar's Office at 472-1580. All work toward a degree must be completed and the graduation approvals obtained with appropriate documentation on file in the Registrar's office within one month after graduation, or graduation will be delayed until the next graduation date following completion of the work.

Students may graduate on the official date of graduation for a preceding term, if they successfully complete all course and degree requirements within 30 days of the official end of that term. This policy allows for students to use courses completed in Winterim or the first session of the Summer Term when these sessions are completed within 30 days of the end of the December or May semester respectively. It is understood that there cannot be an extension beyond this 30-day limit from the previous term for incomplete or progress grades received in Winterim or the first session of the Summer Term.

**GRADUATION FEE:** Graduating students will be charged a graduation fee which will appear on their billing statement. The fee is paid to the University Cashier's Office during the term in which the students intend to graduate. The fee is published in the current timetable. The diploma cost is part of the graduation fee. A request for a duplicate copy of the diploma will be processed for a $5.00 fee, if an exact replica can be obtained from the diploma vendor.

**ATTENDANCE AT GRADUATION:** Formal commencement exercises are held at the close of the fall and the spring terms. Students choosing to participate must attend the ceremony at the end of the Fall and Spring Terms in which their degree is granted and must wear a cap and gown at the ceremony. Students completing their degree during a summer term may participate in the preceding spring or the following fall term commencement and must choose the ceremony when applying for graduation.

**GRADUATION HONORS:** Graduating seniors who have demonstrated scholastic achievement as defined below by the cumulative UW-W GPA only (excluding transfer grades) may receive one of the following three categories of graduation honors:

- **Summa Cum Laude** 3.85 and above
- **Magna Cum Laude** 3.60 to 3.84
- **Cum Laude** 3.40 to 3.59

For honors to be acknowledged in the commencement program, students must attain the minimum required UW-W cumulative grade point average before entering their final term and have earned 48 credits (counting the final term of enrollment) at UW-
Whitewater. Honors maintained and/or earned through the final grading period will be noted on the academic record and on the diploma. It is the student's responsibility to ensure that the 48-credit minimum and the GPA requirements are satisfied.

Students may earn graduation honors in a second degree if one of the following two requirements is satisfied:

1. Completing of a minimum of 48 credits at UW-W with a UW-W cumulative grade point average that meets the requirements as defined for graduation honors above; or
2. Earning a second degree by completing less than 48 credits at UW-W, but having earned the first degree at UW-W; students may qualify for graduation honors if both the grade point average of the second degree itself and the grade point average of the first and second UW-W degrees combined meet the graduation honors requirement.

COMPLETION OF PROFICIENCY REQUIREMENTS: Students should complete the University Proficiency requirements prior to the completion of 60 credits toward graduation.

Students who transfer to UW-Whitewater with 60 or more credits toward graduation should complete any remaining University Proficiency requirements within their first semester.

PERMANENT ACADEMIC RECORD: Permanent academic records will be maintained in the Records department of the Registrar's Office. Students share in the responsibility for the accuracy of their record. They should carefully review each Academic Progress Report and their term grades. The Registrar's Office should be contacted immediately if there are any errors. No changes will be made to course entries that are not appealed within two years of the posting date, and changes will not be made to a record after the degree is officially entered.

TRANSCRIPT REQUESTS AND CHARGES: There is no charge for unofficial transcripts used on campus for academic advising or for personal use. However, there is a $3.00 charge for each official transcript bearing the Registrar's signature and date. Only official transcripts are mailed. Payment must be received in full before official transcripts will be released. This fee is subject to change by the University without notice.

If there are no outstanding University obligations, students may request transcripts of their permanent record by presenting proper identification and signing a request form,
or by submitting a written request through the mail. Telephone requests are not accepted. Next day service is provided, whenever possible.

OFF-CAMPUS COURSES: Off-campus course credit granted by UW-Whitewater is fully accredited work. Off-campus and correspondence courses offered by the University of Wisconsin System will be accepted by UW-Whitewater provided that a grade of D or better was earned in these courses. Whitewater does not offer correspondence courses. No more than 30 credits earned through correspondence or extension work in institutions other than the UW-System will be accepted toward graduation for an undergraduate degree.

COURSE ENROLLMENT OPTIONS

THE UNIVERSITY HONORS PROGRAM: The University Honors Program is based on the conviction that students should be given the opportunity to develop their intellectual abilities to the fullest extent possible. Those who come to the university with special academic talents and/or extensive backgrounds in specific disciplines are, through the University Honors Program, provided with instructional options designed to challenge their abilities and allow them to more fully realize their intellectual potential.

Through enrollment in honors courses and entry into individualized honors work, students are able to explore subject matter areas in greater depth than would otherwise be possible. For those who come to the university seeking the maximum return for their educational investment, the University Honors Program offers an excellent means of matching interests and skills with university expertise. The end results can be both personally and professionally rewarding. Students active in the Honors Program are afforded an opportunity to participate in Study Abroad programs, undergraduate research and a variety of social and cultural activities which will augment their formal educational experience. Field trips, participation in the Wisconsin State Honors Council, Upper Midwest Honors Council and National Collegiate Honors Council and social interaction with other talented and motivated students combine to provide the University Honors Program participant with opportunities for enriching experiences beyond the laboratory or classroom setting. Entering freshmen eligible for the Honors courses and continuing students in good standing in the program are extended registration preference in recognition of their exceptional academic achievement.

In addition to the enhanced educational opportunities presented by the University Honors Program, students who successfully meet all specified requirements are
privileged to graduate with a University Honors designation. This achievement is both personally gratifying and of importance as students seek professional employment or admission to graduate schools.

Components: University Honors Program students must maintain a cumulative grade point average of 3.40 or better and complete honors courses and honors option work according to the following distribution:

Full-time students should not go two consecutive Fall or Spring Terms without completing an honors course or an H-option contract. Part-time students in the University Honors Program will have their progress monitored by the University Honors Program Office.

To graduate from the University Honors Program, students must complete a minimum of twenty-one (21) honors credits. All University Honors Program requirements and regulations must be met and adhered to throughout the time of enrollment.

Eligibility Requirements: Entering freshman students are eligible to become members of the University Honors Program if they have:

1. graduated in the top ten percent of their high school class AND attained a composite ACT/SAT score which ranks in the top twenty-five percent nationally; OR
2. attained a composite ACT/SAT score which ranks in the top ten percent nationally AND graduated in the top twenty-five percent of their high school class.
Application forms are required for admission to the University Honors Program. Information and appropriate forms may be obtained from the University Honors Office.

ADD/DROP

POLICIES AND PROCEDURES: Students who participate in priority registration may make schedule changes by the Touch-Tone Telephone System (262-472-1000) or the STAR System through the deadline date. The last day to add a 17-week course is the fifth day of classes. The last day to add a short course (or 8-week course) is the second class period. Students must have written approval of the dean of the course to add a class after the last day to add a class has passed. Students may drop courses through the sixth week of the Fall/Spring Term. Short-term courses may be dropped through Friday of the week in which 33% of the course is completed. Drops must be done through the Touch-Tone Telephone or the STAR Systems. Note the fee reduction schedule for dropped courses in the Timetable, because there may be a charge for any course dropped after the first week of classes. Also refer to the Standards of Academic Progress in the Timetable. A review of the course drop policy is as follows:

1. A "W" grade will appear on student academic records (transcripts) for all courses dropped after the tenth day of instruction. This "W" grade notation will also appear on the records of students who withdraw from the University after the tenth day. THEREFORE A COMMITMENT MUST BE MADE TO THE COURSE BY THE TENTH DAY, OR IT SHOULD BE DROPPED TO AVOID THE "W" GRADE. The fifth day of classes will be the deadline for short-term courses and for Summer Term courses.

2. An administrative drop procedure policy requires all departments to drop a student from a course if both of the following conditions have been satisfied:
   a. The student has not attended the first session of a course that meets once each week or if the student has attended neither of the first two sessions of a course that meets more frequently than once a week.
   b. The student has not provided written notice to the academic department in which the course is located that the student will not attend the required initial class session(s).

Students who add courses after the term has started are expected to attend the classes and will not be covered by this administrative drop policy. This policy does not negate
the responsibility of students for their schedule of classes. To avoid an "F" grade, students must immediately drop any courses not attended.

**PROGRESSION STANDARDS:** Check these policies before dropping a course. A reduction in credit load can affect students in a variety of ways, depending upon the situation.

A student enrolled in six or more credits at the end of the tenth day of classes for any Fall/Spring Term must complete 50% of the credits on record with a passing grade (excluding withdrawal). If a student fails to make this progress, the student will be placed on Progression Warning. Failure to meet the Progression Standards a second time will result in suspension. If suspended under this policy, the student may appeal for reinstatement to the Academic Standards Committee by contacting the Academic Standards Office.

**FINANCIAL AID PROGRESSION:** Whenever students may decide to apply for federal aid, their entire academic performance will be evaluated by Progression Standards. Students not meeting the standards for academic progress will be ineligible to receive federal financial aid. Full-time undergraduate students may receive federal financial aid only through a maximum of their first twelve (12) Fall/Spring Terms. Half-time students are eligible through a maximum of their first twenty-four (24) Fall/Spring Terms. Full-time students receiving aid must successfully complete a minimum number of credits in proportion to their years of attendance. Part-time students must complete one-half the requirements. For complete details of these implementation guidelines, reference the Registration Guide and Timetable.

**COURSE REPEAT POLICY**

**GENERAL:** Courses may not be taken for credit more than once unless they are identified in the Catalog as courses that may be repeated for credit. If they are repeatable, the limitations of the number of times or maximum number of credits that may be applied to the major/minor, degree or graduation credits will be indicated. This policy applies to both courses taken in residence at UW-Whitewater and courses accepted in transfer from another institution.

**GRADE POINT AVERAGE ADJUSTMENT:** At the undergraduate level, any courses in which a grade of D or F was previously earned may be repeated once for grade adjustment. Only the grade of the second attempt will be used in the calculation of the cumulative grade point average (GPA). Both the first and the second attempt will appear on the permanent academic record. If an F grade is earned in the second
attempt, all subsequent attempts will be averaged with the F grade. This repeat policy to nullify the effect of the first D or F can be used only once for each course, and courses initially attempted at UW-W must be repeated at UW-W; they cannot be taken at another institution to affect the UW-W GPA. However, students may repeat a D or F grade earned at a transfer institution if the course has an exact UW-W equivalency, and the course was attempted only once prior to transfer to UW-Whitewater. All other repeat regulations apply.

If first attempts are for conventional grades (D or F received), the repeats must also be for conventional grades. Repeats of NC grades must be taken for conventional grades. Second attempts count under the repeat policy, and if courses must be repeated again, subsequent attempts will be averaged with the grade from the second attempt.

Students are limited to a total of 3 repeats for grade point average adjustment during their undergraduate work (including repeats of transfer courses, but excluding courses repeated at the transfer institution). To allow for extenuating circumstances, students may be granted up to 2 additional repeats for grade replacement by appeal to the Dean of their major. This repeat regulation applies to any courses (except developmental studies English and Math courses) for which a student receives a grade beginning with the Fall Term 2000 and any term thereafter including Summer and Winterim.

Students will not be permitted to repeat a course if it is a prerequisite or corequisite of the course(s) already successfully completed within the same department.

Athletes should check with their coaches before repeating courses in which grades of "D" are earned. It may have an affect on their athletic eligibility. Students receiving veterans' benefits may not count in benefit level determination the repeat credits for courses in which "D"(s) were previously earned.

**REPEAT FOR NO CREDIT:** A course in which a C grade (or D grade if it was earned in the second attempt for GPA adjustment) or above was earned may be repeated if there are extenuating circumstances, but the new grade and credits will not affect either the semester or the cumulative GPA. Both attempts will be reflected on the permanent academic record with the second identified as "no credit". Students considering this option should confer with the department offering the course and inform the Records Department in the Registrar's Office of their decision at the time of registration, or the course may be dropped.

**SATISFACTORY/NO CREDIT:** Special permission is not needed to enroll for a course on a satisfactory/no credit basis. The S/NC option may be selected by using the Touch-Tone Telephone or STAR systems during the add/drop period, provided the limitations listed below are followed:
1. The S/NC option will be limited to a maximum of fifteen (15) credits in an undergraduate degree program. Developmental courses (040 or 090) that do not count toward the minimum credits necessary for graduation, and credit courses offered only on an S/NC basis, are not included in the fifteen-credit limitation.

2. Courses that are to fulfill a student's major/minor requirements, the lower/upper BBA degree requirements, any College of Business and Economics course attempted by a BBA student, and the General Education core courses may not be taken on an S/NC basis unless the course is offered only on an S/NC basis by the department. Proficiency, General Education options, unique major/minor, and elective courses may be taken on an S/NC basis.

3. The S/NC option is available to any student without regard to grade point average or class standing. The decision to take a course for S/NC must be recorded via the Touch-Tone Telephone or STAR Systems by the tenth day of class for 17-week courses and by the end of the second class day for short courses. The decision for S/NC basis for off-campus courses must be made prior to the third class period. If a grade of S/NC is indicated by this date, it will not be changed to a conventional grade or vice versa.

4. Satisfactory (S) is the equivalent of a grade of C or better. The S will be recorded on the permanent record, but it will not be computed in the grade point average. Course work that does not merit a C or better will be graded NC. The NC grade will appear on the permanent record, but the course credits will not be counted in credits to degree or in the grade in the grade point average. If a course in which an NC grade was earned is repeated, it must be attempted on a conventional grade basis.

5. The S/NC option cannot be used to repeat a course taken for a conventional (ABCDF) grade under the Repeat Policy. Veterans should refer to the VA Educational Assistance section for information related to this grading option.

AUDIT POLICY: For purposes of audit, there are two categories of students per UW-System policy: 1) students who are taking courses on an audit-only basis, with no courses for credit; 2) students who are taking a combination of courses for credit and courses for audit.

Audit-Only Enrollees: Students who are auditing courses only may do so under the following stipulations:
1. Wisconsin residents will pay 30% of the normal per credit resident academic fee and non-residents will pay 50% of the normal non-resident fee per the fee chart. No audit fees will be assessed disabled Wisconsin residents who are receiving federal old age survivors and disability insurance benefits (OASDI) under 42 USC 401 to 433.

2. Students will register on a space available basis with departmental permission in the week immediately prior to the start of classes. Remedial English (680-090) and mathematics (760-040 and 760-041) may not be taken as audit only.

Note: Auditing of Art Department courses may be restricted. See department for restrictions.
- Business Outreach off campus courses are not available for audit due to the special nature of their funding.
- Courses in the College of Business & Economics may not be taken on an audit basis.

3. Any special course fees other than the normal tuition charges will be assessed and paid by the student.

4. Students registering under this option can not change their courses to a credit grade basis during the term of enrollment.

5. An audit (X) symbol will be recorded on the academic record provided the instructor reports satisfactory attendance.

6. A fee of approximately $2.50 per credit will be assessed for required texts.

7. Access to University services will be limited to the library and to non-segregated fee funded activities of the University Center. A special identification card will be issued for auditors which will permit this limited access.

8. Regent, University, and Student Government regulations applying to other students will apply equally to audit-only enrollees.

Audit and Credit Combination Enrollees: Students who are taking a combination of courses for regular credit and for audit will pay the regular fees for all credits based upon the fee chart. The following stipulations will also apply:

a. The decision to audit must be finalized and recorded through the Touch-Tone Telephone or STAR systems by the tenth day of classes for 16 or 17-week courses and by the end of the second class day for shorter courses.

b. No credit will be granted for the course, but an audit (X) symbol will appear on the academic record, provided the instructor reports satisfactory attendance.
c. The audit course may be repeated for credit in another term.
d. Audits do not count as credits for either veteran benefit certification or financial aid consideration.

WITHDRAWAL FROM THE UNIVERSITY: Students who find it necessary to leave the University while the term for which they are registered is still in session should report to the Registrar's office and initiate a withdrawal form. The following conditions apply:

a. If the withdrawal is initiated within the first ten class days of the Fall/Spring Term, there will be no academic penalty.
b. If the withdrawal is after the tenth day of classes in a Fall/Spring Term or fifth day in summer session, "W" grades will be recorded for each of the courses in which the student is enrolled at the time of withdrawal.
c. If withdrawal is after the tenth day of classes, but the student was enrolled for six or more credits on the tenth day, a whole or a partial Fall/Spring Term of eligibility will have been lost for financial aid.
d. The last day to withdraw from the University is 15 days prior to the end of the Fall/Spring Term (exam days included) and as published in Calendar announcements for all other terms.
e. Withdrawals processed after the last day to withdraw will result in the student receiving grades of "F" in those courses which are not being passed at the time of withdrawal, and the student may be suspended for not meeting the minimum grade point requirement.
f. Withdrawal does not affect the academic progression warning policy, but it may affect financial aid eligibility.

Failure to officially withdraw when leaving the University will result in students receiving failing grades in those courses for which they were enrolled. This may cause a problem in an attempt to return to the University or transfer to another institution. If students must withdraw for medical reasons, they may petition to have a portion of their academic charges reduced. The appeal process is initiated in the Office of Assistant Chancellor for Student Affairs.

WAIVING OR SUBSTITUTING FOR A REQUIRED COURSE: The chairperson of the major or minor department may waive a required course within the major/Minor if mastery of the course content can be demonstrated. However, other coursework must be completed to meet the minimum credit requirement for the major/Minor.
A required course from a department other than the major or minor can be waived or substituted by: 1) the dean of the college of the degree if it is in the college or degree requirements; 2) the Assistant Dean for Letters and Sciences if the requirement is in general education or diversity; or 3) the college dean of the course in the proficiency area. In selected cases, departments may waive a course in their own department based upon high school background or departmental exam.

Students may not take for credit any course for which they have received a waiver, nor may they take for credit any course in the same department that is a prerequisite for a course that has been waived (e.g., if a student has been waived from Math 143, he may not take Math 141 for credit).

**ACADEMIC RETENTION STANDARDS, PROBATION, SUSPENSION, AND FORGIVENESS POLICIES**

**RETENTION STANDARDS:** To remain in good academic standing in the University, students must have an overall cumulative grade point average of 2.0 or above. Some colleges and/or departments require above a 2.0 combined UW-W and transfer grade point average in order to remain in good academic standing in their programs.

In addition, if students are enrolled in six or more credits at the end of the tenth day of classes for Fall/Spring Terms, they must complete (with a passing grade - D or better) 50% of the credits on record. Failing to make this progress, they will be placed on progression warning and/or suspended.

Students will be ineligible to continue at this University if their Fall/Spring Term grade point average falls below 1.0 for any Fall/Spring Term.

**PROBATION AND PROGRESSION WARNING:** Students will be placed on academic probation if their academic record does not meet the minimum retention standards set by UW-Whitewater. Notice of probationary status indicates that academic grade improvement is necessary to attain the minimum overall grade point average of 2.0 required. Failure to complete 50% of the credits on record during a Fall/Spring Term will result in receiving a progression warning. Students will be suspended if they do not meet the standards of progress in any subsequent Fall/Spring Term. Withdrawal from the University will not cause a progression warning in the term of withdrawal.
If placed on probation, students will be limited to 15 credits a Fall/Spring Term, they will not be allowed more than two consecutive Fall/Spring Terms to remove themselves from probation, and they must earn at least a 2.00 GPA in the next Fall/Spring Term of attendance or be academically dismissed. Students will be removed from probation at the end of any Fall/Spring Term in which an overall grade point average of 2.0 or better is attained.

**Suspension:** If students have been on academic probation for two consecutive Fall/Spring Terms without meeting the required 2.0 cumulative grade point average or suspended under the progression policy, they may not continue in attendance. Students will be ineligible to continue at this University if their term grade point average falls below 1.0 in any term, or if they do not earn a 2.00 term GPA in the term after they have been placed on probation, or if they do not earn a 2.0 cumulative GPA after being reinstated.

If academically ineligible to continue at this University, students may submit a written appeal for readmission to the Academic Standards Committee.

If suspended, readmitted, and again fail to earn the required 2.0 cumulative grade point average, students will be eligible for reinstatement only after a successful appeal to the Academic Standards Committee. However, they may attend Summer School to improve their GPA and to enhance their chances of being reinstated.

Information regarding how to file a written appeal is available in the Academic Standards Office, McCutchan Hall.

**Undergraduate Academic Forgiveness Policy:** With an absence from formalized higher education for a minimum of five consecutive years prior to readmission to UW-W, students may make a written appeal to invoke the Academic Forgiveness Policy.

This appeal to the Admissions and Academic Standards Committee must give reasons for the previous poor UW-W performance, information about current educational plans and justification for the appeal. The Committee will assess the student's record and appeal to determine the approach most educationally appropriate. The Committee will determine whether academic forgiveness is a better approach than use of the repeat policy. Factors such as time elapsed, changes in courses, course availability, course requirements, and educational objectives can be used to determine Committee action.

The Committee may require the student to complete certain specific conditions such as completion of a specified number of credits or term(s) of enrollment in work
academically acceptable to the Committee before authorizing the implementation of the policy. The most current Catalog will be used to evaluate the prior course work and its applicability to the degree requirements. All other University regulations will apply.

When notified in writing by the Committee, the Registrar will mark the permanent academic record with an "Academic Forgiveness" notation and begin the computation of a new grade point average for all subsequent course work. None of the previous UW-W record will be used in the new calculation.

**LEGAL ISSUES**

This section of the Catalog is prepared to highlight certain pertinent rules, rights and responsibilities of which students should be aware. By no means all inclusive, it is meant only to group together certain key items which will be of special assistance. Students are urged to study and use the rest of this Catalog to become knowledgeable about those matters of importance to them, their program of study, and their graduation requirements.

**LEGAL SERVICES**

Student Government provides a Legal Services Program free of charge to UW-Whitewater students. An attorney, hired by Student Government, is available approximately 10 hours per week.

**STUDENT DISCIPLINARY PROCEDURES**

The complete copies of the University of Wisconsin-Whitewater Student Non-academic Disciplinary Procedures (Administrative Code UWS Chapter 14) are available on the UW-Whitewater WEB page at [http://www.uww.wdu/stdhdbk/uwsystem.html](http://www.uww.wdu/stdhdbk/uwsystem.html).

For information, regarding these procedures, contact the Office of Student Life at 262-472-1533. the student's rights and options.

**STUDENT RIGHTS AND RESPONSIBILITIES**

The following information briefly describes student rights and responsibilities. Additional information may be found in the Student Handbook.
STUDENT RESPONSIBILITY  Students are held responsible for monitoring an accurate record of their own progress toward graduation. No changes will be made to course entries on the academic record that are not appealed within two years of the posting date and changes will not be made to a record after the degree is officially entered.

ACADEMIC MISCONDUCT

The University believes that academic honesty and integrity are fundamental to the mission of higher education and of the University of Wisconsin System. The University has a responsibility to promote academic honesty and integrity and to develop procedures to deal effectively with instances of academic dishonesty. Students are responsible for the honest completion and representation of their work, for the appropriate citation of sources, and for respect of others' academic endeavors. Students who violate these standards are subject to disciplinary action. UWS Chapter 14 identifies procedures to be followed when a student is accused of academic misconduct. For additional information, please refer to the section in the Student Handbook titled, Student Academic Disciplinary Procedures.

ABSENCE FOR UNIVERSITY SPONSORED EVENTS

University policy adopted by Faculty Senate and the Whitewater Student Government states that students will not be academically penalized for missing class in order to participate in university sanctioned events. They will be provided an opportunity to make up any work that is missed; and if class attendance is a requirement, missing a class in order to participate in a university sanctioned event will not be counted as an absence. A university sanctioned event is defined to be any intercollegiate athletic contest or other such event as determined by the Provost. Activity sponsors are responsible for obtaining the Provost's prior approval of an event as being university sanctioned and for providing an official list of participants. Students are responsible for notifying their instructors in advance of their participation in such events.

STUDENT RIGHTS STUDENT RECORDS:  All student records held by the University of Wisconsin-Whitewater, regardless of origin, are the property of the University and may be used by the University in any manner legally appropriate. Student records will be treated in a responsible manner and with due regard to the personal nature of the information they contain. However, the student should understand that student records may be disclosed to others who have a legal right to such access when, in the judgment of the University, such disclosure serves the best interests of the student, the University, and the community.
The University of Wisconsin-Whitewater reserves the right not to release a student's record, or any information based upon the record, when the student has failed to discharge any obligation, financial or otherwise, to the University.

NAME CHANGES

If students change their first or last name and wish to have this change reflected on their academic record, they would need to complete a "Change of Name Declaration Card." Students can get these forms from the Registrar's Office. Any name change requires at least one legal form of documentation, i.e., a certified copy of a court order, a marriage license, a dissolution decree, a drivers' license, or a state issued I.D.

GRIEVANCE PROCEDURE

I. DEFINITIONS AND BASIC PRINCIPLES:
   A. A grievance is a request for specific action to solve a problem or redress an injury done the individual presenting it. When that individual is a student and is responding to treatment received as a student, it is a student grievance. However, if a student wishes to challenge an academic decision that impacts on their grade, the Student Grade Appeal procedures should be used.
      1. A grievance may concern the actions taken by any UW-Whitewater employee who is a member of any college, department, office, administrative unit or committee of the University.
      2. A grievance may not necessarily be directed at a particular individual but rather at a policy or rule which the student believes to be unfair.
   B. The basis for a grievance is to raise a problem for the purpose of resolving it by the parties closest to it. This is true whether the issues involve an instructor, administrator, service personnel or members of any University department, college, division, administrative unit or committee.
   C. A cause of action would involve a specific injury to the student or a specific problem. A remedy should be available. If no remedy is available or if punishment of someone is sought, the procedures for complaints rather than grievances should be used (see University Handbook, Sections VI-F and VI-A).
   D. Process timelines are established to enable review and resolution within a reasonable time after the problem occurred. This assists problem solving when memories and facts are still fresh.
E. Written appeals and responses need not be lengthy but rather describe events, relevant facts and reasoning, so that parties are clear about what is at issue and why decisions are being made the way they are.

II. STEPS IN A GRIEVANCE:
   A. Informal Process:
      1. Discuss the issue of concern with the individual(s) primarily involved. This should take place within 14 calendar days after the aggrieved action occurred.
      2. If this discussion brings no resolution, is unsatisfactory, or if the primary individual is unwilling or unable to participate, the student may then, within 7 calendar days of the discussion or the communication that there will be no discussion, schedule a conference with the chairperson of the department or the supervisor of the individual. The student should articulate the concerns and the result of, or lack of, discussion with the primary individual.
      3. After hearing the student's appeal, the chairperson or supervisor will attempt to mediate the problem to resolution within 14 calendar days.
      4. If this attempt at resolution is unsatisfactory, or if all are not willing or able to participate, the student should submit a formal grievance to the Dean or Director within 7 calendar days of the failure of informal resolution.
   B. Formal Process:
      1. The grievance should be in writing and signed by the student following the Basic Principles above, should explain the problem, reasons for dissatisfaction of recommended resolution, and an alternative resolution.
      2. Within 14 calendar days, the Dean or Director can attempt further resolution or make the final decision. The student and employees should be notified of the final decision in writing.
      3. The decision of the Dean or Director will be final unless discipline is requested, in which event appropriate disciplinary procedures would be followed.

SYNOPSIS OF THE STEP-BY-STEP PROCESS FOR STUDENT GRIEVANCES:

1. Problem occurs.
2. Within 14 calendar days, discuss it with the person whose actions are in question (informal).
3. If no satisfaction, within 7 calendar days, talk it over with the Chair or supervisor of the person (informal).
4. Chair/supervisor will attempt to resolve within 14 calendar days (informal).
5. If no satisfaction, student has 7 calendar days to write it up as a formal grievance, including why dissatisfied with recommended resolution and propose a remedy (formal).
6. Within 14 calendar days, the Dean or Director will attempt resolution or make the final decision (formal).

GRADE APPEALS: At the University of Wisconsin-Whitewater it is expected that instructors will evaluate students regularly and consistently by criteria and guidelines presented to students at the beginning of each grading period. If a student has reason to believe the grade is incorrect the student may act on that by taking the following steps in chronological order. A complaint which is timely filed under any other student complaint procedure and then referred for processing under these procedures, shall be considered to have met the deadline for filing as a grade appeal.

1. Informal Process
   a. Consult the instructor whose grade is being appealed. This consultation must take place within 7 calendar days of start of classes after the grading period in question.
   b. If the student/instructor conference is unsatisfactory or if the instructor is unwilling or unable to participate, within 7 calendar days the student may schedule a conference with the chair of the department in which the course was offered.
   c. After hearing the student's appeal, the chair will attempt to resolve the problem within 7 calendar days.
   d. If this resolution is unsatisfactory, the student may then, within 7 calendar days after receiving the chairperson's response, submit a written appeal to the Department's Grade Appeals Committee through the chairperson. This will initiate the Formal Appeal Process.

2. Formal Process
   a. The appeal must be in writing and signed by the student.
   b. The Department Grade Appeals Committee will
      i. convene to examine the appeal, the response and render its conclusion in writing to the chair, student and instructor, within 14 calendar days of receipt of the appeal.
      ii. While the Grade Appeals Committee cannot require the instructor to change a student's grade, the Committee can recommend such a
change to the instructor and to the Dean of the College in which the course is offered.

c. Should the student wish to appeal beyond the department, the student may submit the Committee findings and the basis for the further appeal to the Dean of the College in which the course was offered, within 3 calendar days of presentation of Committee findings. The Dean will review the student's appeal and the findings of the Committee, and recommend appropriate action to the department and the instructor within 14 days of receipt of the appeal.

d. If this action is unsatisfactory to the student, a final appeal may be made to the Provost who will determine whether a change in grade is to be made within 14 days of receipt of the appeal. The Provost is the only individual authorized to change a student grade without the instructor's permission. However, the Provost may change a grade only when the faculty department committee and the Dean support such a change.

INSTITUTIONAL POLICY ON THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

The 1974 Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. A student is defined as an individual who is (or has been) in attendance and for whom the university maintains education records. All rights under FERPA apply to the student. Education records are defined as all records maintained by the University about a student. There are six exceptions:

- Personal notes of UW-Whitewater staff and faculty.
- Employment records.
- Medical and counseling records used solely for treatment.
- Financial records of parents.
- Confidential letters and statements of recommendations placed in a student's records prior to January 1, 1975.
- Confidential letters and statements of recommendations for admission, employment, or honorary recognition placed in records after January 1, 1975, for which the right to inspect and review has been waived.

The law provides to the student the following rights:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit
to the Office of the Assistant Chancellor for Student Affairs a written request that identifies the record(s) they wish to inspect. The Assistant Chancellor will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Office of the Assistant Chancellor for Student Affairs, the office shall advise the student of the University official(s) to whom the request should be addressed.

2. The right to request an amendment of the student's education records that the student believes are inaccurate or misleading. Students may ask the University official to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. School officials have a legitimate educational interest if the officials need to review an education record in order to fulfill their professional responsibility. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel or health staff); a person or company with whom the University has contracted (such as an attorney, auditor, collection agent or the National Student Loan Clearinghouse); a person serving on the Board of Regents; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting other school officials in performing their tasks.

Under the act, prior written consent must be obtained before information may be disclosed to third parties unless they are exempted from this provision. These exceptions include:

- Requests in accordance with a lawful subpoena or court order.
- Requests from representatives of agencies or organizations from which the student has received financial aid.
- Requests from officials of other educational institutions in which you intend to enroll.
Requests from other persons specifically exempted from the prior consent requirement of the act (certain federal and state officials, organizations conducting studies on behalf of the university, accrediting organizations).

Requests for "directory information" (please refer to the following statement for an explanation).

The University of Wisconsin-Whitewater designates the following student information as public or "Directory Information". This information, which may be disclosed by the institution for any purpose at its discretion, includes:

Name, home/local addresses and telephone numbers, dates or attendance (including credits carried), classification, major/degree program, degrees conferred (including dates), previous institution(s) attended, awards, academic honors, past and present participation in officially recognized sports and activities, and physical factors (height and weight of athletes).

Students may withhold disclosure of information under the Family Educational Rights and Privacy Act of 1974. To withhold disclosure, written notification must be received in the Office of the Registrar two days prior to the first day of classes at the University of Wisconsin-Whitewater. Forms requesting the withholding of information are available in the Registrar's Office, and the request is effective for the academic year.

The University of Wisconsin-Whitewater assumes that failure on the part of any student to specifically request the withholding of categories of information indicates individual approval of disclosure.

Student records and files are available for review by the student in accordance with the Act. Students may request a hearing regarding any alleged inaccurate, misleading, or inappropriate information contained in their records. Also, a portion of the student ID number may be used to post final grades. Students may withhold Directory information from third parties by notifying the Registrar in writing prior to the first day of classes for the fall semester and the request must be filed annually. A request for non-disclosure received after the fall semester begins will be honored by the University for the remainder of the academic year.

4. FERPA allows the release of education records without the consent of the student or his or her parents to authorized representatives of the attorney general for law enforcement purposes.
5. FERPA permits disclosure to an alleged victim of either a crime of violence or a nonforcible sex offense of the final results of any disciplinary action taken against an alleged perpetrator.

6. UW-Whitewater has the discretion to disclose the final results of any disciplinary proceeding undertaken against a student who is an alleged perpetrator of a crime of violence or a nonforcible sex offense if, as a result of that disciplinary proceeding, The University has determined that the student in fact committed the crime or offense. However, the definition of "final results" is limited solely to the name of the student, the violation committed, and any sanction imposed by The University on that student. Only where a victim or witness has provided written consent may the University disclose the name of that student.

7. UW-Whitewater may disclose to a student's parent or legal guardian information regarding any drug or alcohol violation (whether pursuant to federal, state, or local law or institutional policy) where the student is under 21 and the University has determined that the student has committed a disciplinary violation.

8. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University of Wisconsin-Whitewater to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW., Washington, DC, 20202-4605.

Revisions and clarifications to FERPA will be published as experience with the law and the university's policies warrant.

**ACCOMMODATION OF RELIGIOUS BELIEFS**

It is the policy of the Board of Regents that students' sincerely held religious beliefs shall be reasonably accommodated with respect to scheduling all examinations and other academic requirements.

1. Students shall be permitted to make up an examination or other academic requirement at another time or by an alternative method, without any prejudicial effect, where:
   a. There is a scheduling conflict between the students' sincerely held religious beliefs and taking the examination or meeting the academic requirements; and,
b. The students have notified the instructor, within the first three weeks of the beginning of classes (within the first week of summer session and short courses), of the specific days or dates on which they will request relief from an examination or academic requirement. 2. Instructors may schedule a make-up examination or other academic requirement before or after the regularly scheduled examination or other academic requirement.

2. Instructors shall accept, at face value, the sincerity of students' religious beliefs.

3. Student notification of instructors and requests for relief shall be kept confidential.

4. Complaints of failure to provide reasonable accommodation of students' sincerely held religious beliefs as required by this rule may be filed under institutional complaint and grievance procedures adopted pursuant to Chapters UWS 6 and 13.

For additional information or to file a grievance regarding a failure to provide reasonable accommodation, please contact the Office of the Diversity and Equal Opportunity Compliance Office (Hyer Hall, Room 330, Phone 262-472-4672).

NON-DISCRIMINATION STATUTES RELATIVE TO UNIVERSITY OF WISCONSIN-WHITEWATER STUDENTS

The Civil Rights Act of 1964, Title IX of the Education Amendments of 1972 and Wisconsin Statute 36.12 provide collectively, and in part, that

No student may be denied admission to participation in, or the benefits of, or be discriminated against in any service, program, course or facility of the (UW) system or its institutions or centers because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital or parental status.

The Title IX Coordinator for UW-Whitewater is the Executive Director for Equal Opportunity (phone 262-472-4672). Title IX specifically prohibits sex discrimination in educational institutions.

I. CRITERIA FOR DETERMINING WHETHER THE PROHIBITION ON DISCRIMINATION HAS BEEN VIOLATED.
In determining whether discrimination in violation of Wisconsin Statutes 36.12 or Title IX, has occurred, the University of Wisconsin-Whitewater through its Office for Equal Opportunity (OEO), shall apply state and federal statutes, regulations, and case law relevant to the basis of discrimination being alleged, including but not limited to such legal materials and precedents as Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, American Disabilities Act, Wis. Stats. 101.223, Wis. Stats. 36.11(3)(a), the United States Constitution, the Wisconsin Constitution, and related regulations and case law. In any case where there is a question as to whether the action or conduct in question violates Wis. Stats. 36.12 or Title IX, the OEO shall consult with institutional legal counsel.

II. DEADLINE FOR FILING COMPLAINTS.

1. Complaints alleging a violation of Wis. Stat. 36.12 or Title IX, must be brought forward to the Office for Equal Opportunity within 300 calendar days of the alleged violation.

2. If a complaint is made informally and orally only, the appropriate response would be oral by way of discussion, guidance, mediation or other informal action. If a formal investigation is warranted or desired, the complaint shall be in writing.

III. PROCEDURES AND REMEDIES FOR VIOLATIONS.

1. The Office for Equal Opportunity (OEO) will be responsible for:
   a. Reviewing each complaint.
   b. Providing procedural advice and counsel to the complainant, including referring the complainant to another process, if appropriate (as for example, if the issues in question are more properly handled as a grade appeal or a general grievance).
   c. Conducting the initial investigation of complaints, including receiving written response(s) by the person(s) complained against.

2. Where the Office for Equal Opportunity refers a complainant to another relevant complaint or grievance procedure, further action on the matter will be taken in accordance with that other procedure.

3. Where the Office for Equal Opportunity retains jurisdiction and determines after investigation that no discrimination in violation of Wis. Stats. 36.12 or Title IX has occurred, the complaint will be dismissed by the OEO, and the complainant and any other interested parties will be so advised.

4. Where the Office for Equal Opportunity determines after investigation that discrimination in violation of Wis. Stats. 36.12 or Title IX has occurred, the OEO may:
a. Attempt to resolve the matter through mediation among the involved parties; or
b. Recommend remedial action to eliminate the discrimination to the appropriate administrators; or
c. Refer the matter for appropriate review and consideration of possible action under established disciplinary procedures, where misconduct by faculty, staff or students appears to be involved.

STATUTES RELATIVE TO UNIVERSITY OF WISCONSIN-WHITEWATER STUDENTS

The Civil Rights Act of 1964, Title IX of the Education Amendments of 1972 and Wisconsin Statute 36.12 provide collectively, and in part, that

No student may be denied admission to participation in, or the benefits of, or be discriminated against in any service, program, course or facility of the (UW) system or its institutions or centers because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital or parental status.

The Title IX Coordinator for UW-Whitewater is the Executive Director for Equal Opportunity (phone 262-472-4672). Title IX specifically prohibits sex discrimination in educational institutions.

I. CRITERIA FOR DETERMINING WHETHER THE PROHIBITION ON DISCRIMINATION HAS BEEN VIOLATED. 3. Where the Office for Equal Opportunity retains jurisdiction and determines after investigation that no discrimination in violation of Wis. Stats. 36.12 or Title IX has occurred, the complaint will be dismissed by the OEO, and the complainant and any other interested parties will be so advised.

4. Where the Office for Equal Opportunity determines after investigation that discrimination in violation of Wis. Stats. 36.12 or Title IX has occurred, the OEO may:
   a. Attempt to resolve the matter through mediation among the involved parties; or
   b. Recommend remedial action to eliminate the discrimination to the appropriate administrators; or
   c. Refer the matter for appropriate review and consideration of possible action under established disciplinary procedures, where misconduct by faculty, staff or students appears to be involved.

5. The Office for Equal Opportunity will complete its investigation and make written findings of facts and recommendations within 30 working days of receipt of the written complaint.

6. If the matter is referred for consideration of possible disciplinary action under paragraph 4(c) above, the time limit and procedures for such disciplinary matters shall apply.

7. If the OEO recommendations are accepted by the parties, that will be considered dispositive of the issues.

8. If either party believes there is reason to appeal the findings or recommendations, it must do so within 10 working days of receipt. The
appeal should be in writing, stating the basis and proposing alternatives
to the recommendations and forwarded to the Assistant Chancellor for
Student Affairs.

9. The Assistant Chancellor for Student Affairs will review the record and
any other information deemed pertinent and may also recommend and/or
attempt an alternative resolution. If no resolution is achieved, the
Assistant Chancellor will forward a recommendation to the Chancellor
within 20 working days of receipt of appeal.

10. The Chancellor will make the final decision within 20 working days. In
all matters involving an alleged violation of Wis. Stat. 36.12 or Title IX,
the Chancellor's decision shall be final, except that the Board of Regents
may, consistent with the Bylaws of the Board of Regents of the
University of Wisconsin System, conduct a review on the record.

NON-DISCRIMINATION ON THE BASIS OF DISABILITY

Section 504 of the Rehabilitation Act of 1973 provides that "no qualified individual
with a disability shall, on the basis of disability, be excluded from participation in, be
denied the benefits of, or otherwise be subjected to discrimination under any program
or activity which receives or benefits from Federal financial assistance."

The Americans with Disabilities Act (ADA) states "No qualified individual with a
disability shall, on the basis of disability, be excluded from participation in or be
denied the benefits of the services, programs, or activities of a public entity, or be
subjected to discrimination by any public entity."

Applicants or students who believe that they may have been subjected to
discrimination on the basis of disability in any campus program, activity or service
should contact: Compliance Coordinator, Section 504 and ADA Regulations (non-
employment), 337 Hyer Hall, 262-472-4672.

Other Legal Issues

INCLEMENT WEATHER

In the event of severe weather conditions, all on-campus operations of UW-
Whitewater will be carried on unless power outages or other critical circumstances
preclude the use of University buildings. Therefore, it should be assumed that
scheduled activities will continue unless instructions from the Chancellor's Office
direct to the contrary.
Individuals who must travel to or from campus should use their judgment as to whether or not such travel is wise. Should it be necessary to cancel a class due to the absence of a faculty member, it is the responsibility of that faculty member to notify the department chairperson and to schedule an appropriate make-up session. Class cancellations should not be telephoned directly to the Campus Radio Station or Channel 6 TV but must be transmitted by the departmental or college office. Students should contact the department of the course for information about the status of individual classes.

The operation of off-campus classes in a weather emergency will be governed by whether the facility in which they are held is open. If the facility is closed, the class will be cancelled. The Office of Continuing Education will notify the instructor of such a cancellation. Each class will use its system of students notifying each other of such a cancellation to avoid persons expecting the class to be held when it is not.

SAFETY AND HEALTH POLICY

The University of Wisconsin System will provide and maintain adequate facilities for a safe and healthy learning environment. It is the University's responsibility to work with faculty and staff so that they are equipped to educate their students on practices and procedures that ensure safety for all members of the university. Employees with instructional responsibilities are expected to comply with state and federal safety laws and regulations in their institutional areas. Certain courses and research projects require that the student work with hazardous materials while engaging in academic studies. Instructors of these courses and research projects shall inform and train students on procedures that will maintain the students' personal health and safety and provide them with information on the hazards of specific chemicals that will be used during their course of study. Furthermore, instructors will enforce and follow safety policies. Prior to use of hazardous materials and equipment, the student shall review the procedures and information, and discuss any associated concerns with the instructor.

USE OF HUMAN SUBJECTS IN RESEARCH

Federal law and University policy requires that all research projects involving human subjects be designed as much as possible to protect the rights of the subjects. This pertains to projects for classes on research methodology, independent studies, and thesis research. Prior to initiation of the work, each proposal involving human subjects and its provisions for their protection must be reviewed and approved by the Institutional Review Board for the Protection of Human Subjects (IRB). This includes surveys. Research which has not been reviewed and approved by the IRB will not be covered by UW-Whitewater liability insurance.
It is the policy of UW-Whitewater that all research shall be conducted under the supervision of a qualified faculty or staff member. Therefore, all students must submit a student protocol form and an IRB protocol review form signed by the faculty adviser.

All IRB forms and guidelines can be obtained from the Office of Research and Sponsored Programs, 2031 Roseman. Please contact this office at 262-472-5212 with questions and document requests.

CARE AND USE OF LABORATORY ANIMALS

All students involved in the care or use of animals and all facilities used for such animals must operate within the guidelines of the GUIDE FOR CARE AND USE OF LABORATORY ANIMALS. Copies of the Guide and other pertinent materials may be obtained from the Office of Research and Sponsored Programs, 2031 Roseman, 262-472-5212.

TERMINOLOGY

Academic Progress Report (APR). A document that matches an individual student's complete academic course history against the prescribed set of degree program requirements in effect at the time of entry into the major. The report indicates requirements completed as well as those to be completed.

Adviser. The adviser is a staff member in the major field of study assigned by the appropriate University department to assist its majors.

Course. A particular subject being studied. For example, a course in English.

Course Reference Number (CREF Number). A unique four digit sequential number assigned to each course/section listed in the timetable. It is the number used in the registration system to identify course adds, drops, and grade basis changes.

Credit. The numerical award received for completing a University course is described in semester hours of credit. Freshmen normally register for 14-16 semester hours of class credits. A total of 120 credits is required to graduate with a bachelor's degree; therefore, students planning to graduate in four years must average 15 credits each semester.

Curriculum. The total group of allied courses required for a specific degree.
**Developmental Studies.** Courses designed to help students improve basic skills in the areas of reading, writing, and study skills. Consult an adviser or the Developmental Studies Office for further information.

**Department.** An administrative unit of the University which offers instruction in a particular branch of knowledge, such as the Department of Music.

**Elective.** An elective is a course which students may choose to study, as distinguished from a required course which must be taken.

**Extracurricular.** Activities which are part of student life but are not part of the course of study are extracurricular activities. Athletics, participation in student government or other campus organizations are examples of this type of activity.

**Fee.** A charge the University requires for certain services it offers.

**Grade Points.**

**Grade Point Average (GPA).**

**Honors.**

**I.D. Card.** The University provides students with a HawkCard (University ID Card). The HawkCard contains the name of the University, student name and photo, and a bar code and electronic encoding of the student ID number. The HawkCard will be used during the entire time students are enrolled at UW-Whitewater. It can be used for proof of enrollment, if required, which entitles a student to a number of special privileges and services. A fee is assessed for all replacement cards. For more information about the HawkCard policies and available services, visit the UW-Whitewater HawkCard web page.

**Load.** The total credits for which students are registered. The normal undergraduate load is from 14-18 credits. Students may take fewer than 15 credits if they wish; 12 credits is considered full-time. Permission to carry more than 18 credits must be obtained in advance of registration from the dean of the college of the major. Students on probation or admitted from high school with both an ACT score and class rank below the 50th percentile may not register for more than 15 credits.

**Major.** The subject or field of study of specialization. For example, students planning to specialize in mathematics will major in that field. Students choosing to specialize in two subjects will have a double major.
**Minor.** A field of secondary emphasis. The total number of credits required in the minor field is less than that required for the major.

**Personal Access Code (PAC).** A four-digit code needed in addition to the student ID number to access the Touch-Tone Telephone and the STAR systems. The PAC can be changed at any time on the Touch Tone or STAR systems.

**Prerequisite.** The preliminary requirement which must be met before certain courses can be taken. For example, in English, 680-101 is a prerequisite to all other courses in English and must be successfully completed before other English courses are taken.

**Registration.** The act of enrolling in classes, usually at the beginning of a semester. This involves choosing classes with the help of an adviser and submitting the course requests on the Touch-Tone Telephone or STAR Systems. Students may not attend a course/section without properly registering for it.

**Required Courses.** Courses which are prescribed by the University for the completion of a program.

**Remedial Courses.** Developmental courses in English and mathematics to prepare students for college level course work. Schedule. A listing of the courses being taken each semester.

**Section Number.** Used to distinguish one class from another. One course may be offered a number of times throughout the day or week. A student may be enrolled, for example, in Art History which has the course number 115-111 and section 13. The entire designation of this course is 115-111-13.

**Term Hour.** A term hour is generally a 50-minute period of instruction per week for a term. A three-term hour course would be one which meets for three 50-minute periods each week for a term. Laboratory or activity periods are counted differently in the total hours for a course.

**Timetable (or schedule of courses).** A table or schedule showing all the courses to be offered by the University during a specific term.

**Undergraduate.** A student who has not obtained a bachelor's degree.

**Waiver.** Any individualized changes from the stated requirements and it needs approval of the appropriate college authority. Information about waiver policies and procedures can be received in either the dean's office of the college or the Registrar's office. It is proper and helpful to consult with an adviser before requesting a waiver.

UNIVERSITY CENTER

Campus Directory: 262-472-1234
Information Center: 262-472-1170
Ticket Center: 262-472-2222
FAX: 262-472-3900

The University Center (UC) is considered a gathering place for the campus community. It's a great place to attend a program, work on group projects or study individually, shoot a game of pool, grab a snack or enjoy a full-sized meal, and best of all—to meet up with friends. Activity thrives in the UC!

Students will soon discover there is a number of offices and services in the UC which have been carefully designed to meet students' needs. They'll find study lounges, meeting and conference rooms, four dining areas, the Convenience Store, Adult Resource Center, The Center Gallery, the Multicultural Education Center, Credit Union, TYME machine, Ride Board, and more.

One of the best ways to learn about the daily events in the building or around campus is to stop by the Information/Ticket Center. This is also the place to purchase tickets for Cultural Affairs, Theatre/Dance, athletic events, and other campus programs. The University Center Web Page is the newest way to learn about programs and services in the UC. (uc.uww.edu)

Student organizations such as the Center Net, the Whitewater Student Association, the "Royal Purple" (student newspaper) and the UW-W Student Foundation are also located in the UC. And, if students want to relax between classes, they can go to the Recreation Center to have some fun.

The University Center also provides a number of employment opportunities for students. Positions available range from working as an Information Desk Attendant to a Building Manager, and from a Technical Services Crew Member to a Graphic Artist. These positions can help give students professional experience in their chosen area of study. They also get the chance to work with other students, faculty and staff and gain many new insights into how campus departments work together. In addition, some positions are arranged for students to earn academic credits.

Come to the University Center and join in the activity. You'll soon find "You're Among Friends" in the University Center.
ADULT RESOURCE CENTER (UC 121): The Adult Resource Center (ARC) is an office on campus that is intended to be a resource for all students, but has a primary focus on meeting the needs of returning adult students. The ARC provides resources, plans programs and offers referrals for a wide variety of student concerns and interests. It’s a friendly place to drop in, meet others, get a cup of coffee, or relax and socialize between classes. Visitors are also invited to browse through the book and magazine collection.

CATERING SERVICES (UC 106): From coffee, to an elaborate banquet, the Catering Office will accommodate your needs. This service is available year-round. Catering To Go is a convenient and inexpensive way for residence hall floors and student organizations to order food for various events.

THE CENTER GALLERY (UC120): The Center Gallery provides artwork for students, faculty, staff and the surrounding community to view. The Gallery features four to six shows each semester and offers hands-on work experience for Student Gallery Assistants.

CENTER FOR STUDENT INVOLVEMENT & LEADERSHIP (UC 264): This unit of the University Center exists to assist students and student organizations in integrating and developing inside and outside the University community. The Center provides resources for organizations as well as a variety of activities to entertain and develop the University family.

CENTER NET (2nd Floor East): This student run programming board utilizes student fees to develop, coordinate and produce events for students. A wide variety of programs are offered, such as the Underground Dance Club, comedians, live bands, etc.

CONVENIENCE STORE (UC 150): The Convenience Store provides snacks and quick meal items for students and staff on the go. Also available are clothing and school supplies, cleaning and grocery products, health and beauty items, greeting cards, newspapers, film and photo processing services.

HAWKCARD(UC 245): The HawkCard (University ID card) is provided upon enrollment at UW-Whitewater. The HawkCard is required for use of University food service program, enrollment verification, and Purple Point Accounts. Look for the "HawkCard Accepted Here" signs throughout the campus.

Report lost or stolen HawkCard to the HawkCard Office, UC245, phone 262-472-1437 or any HawkCard location cashier. Attempted use of any reported lost or stolen HawkCard will result in the card being confiscated and forwarded to the HawkCard
Office. There is a $10 fee for the replacement of lost or stolen HawkCards. Contact the HawkCard Office, UC245, for a replacement card.

MULTICULTURAL EDUCATION CENTER (UC 122): The Multicultural Education Center (MEC) is a resource center, which provides information on student organizations, campus services, programs and activities. In addition, the MEC has an extensive multicultural library and compilation of journals and newspapers, and a comprehensive collection of videos on diversity. They also sponsor a variety of programs every semester.

OFFICE OF COMMUNITY SERVICE (UC 266): UW-Whitewater offers many community service opportunities for its students through the Office of Community Service as well as Students Organized for Service (SOS). UW-Whitewater offers a number of one-time, short-term, and long-term service opportunities for students. UW-W is a member institution of America Reads, a national service program where college students provide reading tutoring in area schools. Through involvement in community service, students fulfill the hours required for graduation from the College of Business & Economics, and can meet the criteria established for admission to the College of Education. Many students who participate in community service gain experience in their field of study thereby enhancing their academic learning and career development.

OFFICE OF STUDENT LIFE (UC 253): This office is responsible for organizing and planning the New Student Convocation, Commencement and publishing Focus on Contemoporary Issues which provides important information to the campus community. The Office of Student Life is also responsible for handling Academic and Non-Academic Student Misconduct.

PRINTING SERVICES (UC 60): Printing Services offers a variety of services to assist campus departments, faculty, staff and students with their daily operations or those special one-time needs. These services are offered at competitive prices and include high speed copying, offset printing, spiral binding and transparencies. There is also a FAX service for incoming and outgoing transmittals.

PURPLE POINT ACCOUNT: A Purple Point Account is a prepaid debit account accessed by using a HawkCard (University ID card). A minimum deposit of $50 is required to open a Purple Point Account. Deposits to a Purple Point Account can be billed to students with tuition, fees, room, and board. Purple Points may be used at all dining locations, vending machines, University Bookstore, residence hall laundry facilities, and other retail and service locations on campus. Contact the HawkCard Office, UC245, phone 262-472-1437 for more details. Look for the "HawkCard Accepted Here" signs throughout campus.
**THE RECREATION CENTER (UC 24):** The Recreation Center has 10 bowling lanes, 8 full-size pool tables, dart board machines, air hockey, foosball, and 20-plus video and pinball games. The Recreation Center is fully accessible to all individuals. Special programs include: Bowling Leagues, Glow in the Dark Bowling (Thursdays), Friday Night Pool Specials, Strikes N' Riches (Saturdays), and Rent-a-Lane Bowling (Sundays). Outdoor and Camping Equipment, Canoes, and Portable Volleyball Kits are also available at low rental rates.

**RESERVATIONS (UC 250):** UC Reservations serves as a place to make reservations for rooms in the James R. Connor University Center as well as other locations on campus. The University Center has facilities for meetings, banquets and special events for as few as four people, and as many as 625.

**ROYAL PURPLE (UC 62):** Located in the lower level of the University Center, The Royal Purple student staff creates the UW-Whitewater weekly campus newspaper. Students can volunteer, earn credit and/or be paid for working on The Royal Purple.

**STUDENT LEADERSHIP PROGRAM & OPPORTUNITIES (2nd Floor East):** UW-Whitewater offers many opportunities for students to become active members of the campus community. Through involvement in organizations and activities, students have a unique opportunity to develop their leadership potential by practicing many skills of "paraprofessional" leaders vital to the delivery of various programs and services. Students may explore leadership opportunities by participating in various seminars and workshops designed for the intentional exploration of the development of leadership.

**STUDENTS ORGANIZED FOR SERVICE (2nd Floor East):** Students Organized for Service (SOS) is made up of a student executive board which operates a number of programs and service opportunities on campus and in the Whitewater community. Programs provide a variety of ways students can work with other people or volunteer in other capacities, once each week or once each year, work with a group or individually.

**UNIVERSITY DINING SERVICES (Rm 242, 472-1161):** University Dining Services offers a variety of convenient facilities to meet customers' dining needs. From cheesy pepperoni pizza to homemade bakery goods, we have the means to satisfy your appetite.

**DINING AREAS:** There are five dining areas in the University Center, each with its own specialties. These include:
The Commons (Rm. 111, 262-472-5093) The Commons is located in the west side of the University Center. It is the place to go for home-style hot luncheons, entrees, deli sandwiches, homemade soups, a salad bar, and tasty desserts.

Ritazza Coffee Cart (Rm 104) located in the I.W. "Ike" Schaeffer Room (north end of the University Center) offers Espresso, Cappuccino, Cafe' Latte, gourmet coffees and hot chocolate, as well as specialty pastries, Otis Spunkmeyer cookies and Texas Muffins.

The Graham Street Cafe' (Rm 170, 262-472-5771) The Graham Street Cafe' is located in the east side of the University Center and has a beautiful view of the campus mall. It features Frutazza® among its wide variety of beverages, popcorn, great Campbells® soups, salads, submarine sandwiches, rotating specialty bars, ice cream novelties and much more.

The Down Under (Rm 6, 262-472-3175) The newly renovated Down Under is located in the north lower level of the University Center. It is open seven days a week and has live entertainment, a large dance floor, a big screen TV plus six other TV's. The DU features Pepe's Mexican Food®, Brew City Appetizers®, gourmet burgers, chicken sandwiches, and much more. "Hang Time" specials are also featured from 4 p.m. to 6:30 p.m., Monday, Wednesday and Friday, in addition to weekends.

The Warhawk (Rm 126, 262-472-1174) The Warhawk is located in the southwest side of the University Center, offering a food court atmosphere. Whether it's for a quick bite to eat before your next class, or a leisurely lunch with your friends, you'll enjoy Burger King®, Stone Willy's Pizza®, and Mrs. Rich's®.

These places provide an ideal opportunity to meet friends between or after classes and to enjoy a great meal.

MEAL PLANS: Students that are required to live on campus are also required to choose one of the seven meal plans offered by University Dining Services. There are three types of plans to offer students flexibility; fixed meals, point plans and a block meal plan. There is a Dining Hall on the East and West Side of campus to provide convenient service.

UNIVERSITY BOOKSTORE. The University Bookstore, located in Moraine Hall, provides personal and educational materials to students and faculty. In addition to course textbooks and manuals, dictionaries, magazines, records and an array of books such as best sellers, classics, home and health books, children's books and course related titles are available in the book department. In the supply department, students may obtain supplies for Art, Biology and other courses as well as notebooks, paper and general school supplies. In addition, cards, posters, and sundries are available. Jackets, shorts, sweatshirts, knapsacks and T-shirts are popular items. Film
processing, class rings, caps and gowns, laminating, and special orders are other services provided by the Bookstore staff.

**UW CREDIT UNION (UC 67):** The UW Credit Union is a student-friendly, full-service financial institution. Services include Free Checking, ATM/VISA, Check Cards with unlimited withdrawals, auto and student loans, low fixed-rate credit cards, and free computer home-banking. All UW students and their parents automatically qualify for membership.

**RESIDENCE LIFE**

**FACILITIES** The Office of Residence Life administers thirteen residence halls that can accommodate approximately 3,800 students. Residence halls range in size from 200 to 600 residents and offer a range of living options such as single sex and coed halls, coed floors, coed wings, smoke-free halls, upperclass floors and halls, substance free floors, a Global Village, as well as YearOne and YearTwo residence halls. In addition, residents may choose from single rooms, double rooms, triple rooms and two-person suites.

All residence halls offer completely furnished rooms, as well as kitchens, study lounges, laundry facilities, and TV lounges. Many halls offer other amenities such as game rooms and meeting rooms. All residence hall students are invited to use the computer labs in Wells and Drumlin Halls. In addition, all rooms are wired for direct access to the computer labs.

**STAFF** Each Residence Hall is administered by a Professional Residence Hall Director. A Resident Assistant (RA) lives on each wing and assists students with the residential living experience. Custodians work hard in each building to keep public area facilities clean and in top shape. All of these staff members are eager to work with residents to meet their on-campus housing needs.

**PROGRAMMING AND INVOLVEMENT**

The UW-Whitewater Residence Halls are proud to offer a variety of programming and involvement opportunities to meet the needs of all students. Hall, house and floor governments in each building work with the staff to plan many different activities such as dances, dinners, movie nights, trips, intramural teams, study skill programs, and speakers to present a variety of topics.

University Fitness is located in the lower level of Wells Hall and membership is available for a nominal fee to all students. The Cable 6 Television station also
operates through the Office of Residence Life and offers opportunities for involvement.

The Office of Residence Life is a large student employer on campus and is often recruiting for many positions such as RA, desk receptionist, student custodian, clerical assistant, graphic artist, fitness instructor, grounds crew worker, and many others. Students who seek information about these positions, or any aspect of Residence Life, should feel free to call for more information.

**RESIDENCY POLICIES**

All freshman and sophomore students with fewer than 60 credits are required to live in university-operated residence halls. Exceptions can be made for students who are veterans, are married, if two academic years or more have elapsed since earning a high school diploma or equivalent, or who have university permission to live at home. A notarized request for commuter status must be filed with the Office of Residence Life. Students may also be exempted from this policy if they have resided in university-owned residence halls for at least four Fall/Spring Terms.

**APPLICATION PROCEDURE**

Further information about housing, along with an application, is sent to students upon their admission to the university. Students are required to submit a $125 prepayment with their residence hall application and contract acceptance form. This prepayment is non-refundable after the May 1 contract cancellation deadline identified in the contract.

Additional information about university-owned residence halls is available by calling the Office of Residence Life at 262-472-4255.

**WHITEWATER STUDENT GOVERNMENT**

The Whitewater Student Government is the official representative of the student body. It has the primary responsibility for University policy concerning student life, services, and interests, and also maintains several agencies which provide a variety of services to the University and community.

Structurally, the Whitewater Student Government consists of an executive branch and the Student Senate. The Senate meets every Monday at 7:00 pm in the University Center Room 219. Everyone is welcome.
By meeting the responsibilities given to it by state law, the Whitewater Student Government gives students an opportunity to become involved in University governance and to develop their initiative and leadership.

Any questions, comments or suggestions are welcome, and can be directed to the Whitewater Student Government Office at University Center 61; the telephone number is 262-472-1166, and the FAX number is 262-472-5097.

UNIVERSITY HEALTH AND COUNSELING SERVICES

Ambrose Health Center
Health Services 262-472-1300
Counseling Services 262-472-1305

The University Health and Counseling Services (UHCS) provides comprehensive services and referrals for multiple concerns related to students' physical and mental health. Services are available to all currently registered UW-W students from 8:00 a.m. until 4:30 p.m. Monday through Friday during the fall and spring semesters; hours vary during the evening and during summer session and break periods. A 24-hour Crisis Line is available for all students through Walworth County Human Services. UHCS staff are committed to quality service and health education with services, programs and consultations provided in many different settings (individually and with groups).

Health services include consultation and treatment by physicians, nurse practitioners, and nurse clinicians for illnesses and injuries. Many laboratory tests (including cholesterol screen and HIV testing) and some medications are provided. Programs include weight control counseling, smoking cessation, nutrition counseling for students with eating disorders and borderline cholesterol levels, allergy shots, cold self-care, contraceptive services, diagnosis and treatment of sexually transmitted diseases through regular Personal Reproductive Care (PRC) clinics, and assistance in coordination of health care for students with chronic illnesses and/or physical disabilities. UHCS does not provide eye examinations, dental care, or consultation with specialists. Assistance with referrals to outside sources of care is provided, if needed. Charges are made for some services and supplies within the Health Services, and all outside services are the financial responsibility of the student. A number of outreach programs is offered by staff and peer educators, and again focus on the individual's rights and responsibilities with personal health care issues.

Health insurance is recommended; a policy is endorsed by the university and information is available from UHCS. Hospital care is available when needed in nearby communities. Transportation can be arranged to Fort Atkinson, Janesville or
Elkhorn for medical consultation/urgent care both day and night; call UHCS (262-472-1300 or 1305) or Residence Life. In the case of emergencies, the City of Whitewater Rescue Squad should be contacted by calling 911 off-campus or 9-911 on-campus.

Counseling services include individual and group counseling (primarily short-term) for UW-W students dealing with a number of personal issues. In addition, consultation is available to faculty, staff and students. Significant outreach efforts are made with the campus and the community. The primary focus is on prevention and education in these outreach programs.

The services are staffed by professional psychologists and counselors, as well as supervised counselors-in-training. If immediate or direct services are not available here, assistance is offered with appropriate referrals. Students with ANY personal concerns (adjustment to college, relationship issues, alcohol and drug issues, depression, stress management, self-esteem, roommate problems, eating disorders, sexuality issues, sexual abuse or assault, or even feeling better about life) should be encouraged to ask for help at UHCS. ALL SERVICES OF UHCS ARE CONFIDENTIAL.

**CAREER SERVICES**

Most students take advantage of the services of the Career Services Office as they explore career fields, develop career plans, prepare themselves for the job search process and actually search for employment. Valuable information and assistance are available to all undergraduate students, graduate students and alumni of the University. Services include individual and group career counseling, a library of career information, computerized career guidance systems, regular listings of job and internship opportunities, assistance in establishing credential files, creative job hunting, resume and cover letter writing, job-interviewing skills and referral to employers. Students are encouraged to take advantage of career planning and job search assistance during their college years.

**WOMEN'S CENTER**

The Whitewater Women's Center is located in Salisbury Hall 217 & 236 and is open during Fall and Spring semesters. It is a safe place for all women on campus to receive help, support, information, referrals and advocacy, ranging from issues of sexual assault to support groups for victims of abuse.

The Center is a place where women can work together toward dissolving barriers, rules and attitudes which deny women education, earning power, choices about their
own lives or the right to stand with pride as women. This is done through educational programs, support groups and advocacy efforts.

Referrals utilize agencies both on and off campus that can best provide assistance to those in need. The Center also has a resource library on women's issues.

MULTICULTURAL EDUCATION CENTER

The Multicultural Education Center (MEC), located in UC 122, provides a friendly and inviting atmosphere which brings students, faculty and staff to its doors. The MEC has a wide array of multicultural resources that are available for students, staff and faculty. Some of these resources include information on campus activities, information on leadership programs, and an extensive multicultural library. In addition, the MEC provides support and leadership to educational programs, which are existent or newly developed on campus. The MEC is open to all visitors during its regular hours: Monday-Wednesday from 10 a.m. to 7 p.m., Thursday from 10 a.m. to 6 p.m. and Friday from 10 a.m. to 4:30 p.m. Please contact the staff at 262-472-2798 with any questions about its resources or to reserve the facilities.

CHILDREN'S CENTER

The University offers year round, high-quality preschool and school-age programs for children of students, faculty and staff ages 2-6 years during Spring and Fall Semesters and 2-11 years during Summer Session. Part-time and full-time schedules are available to suit parents’ class, work and study times on and off-campus. The Children's Center also serves as a teacher-training site and is state-licensed and nationally-accredited. The Center is open Monday through Friday 7:30 am - 5:30 pm during the Spring and Fall Semesters and Monday through Friday 7:15 am - 5:15 pm during the Summer Session. For information regarding curriculum, registration and fees write or call: Director, University Children's Center, Roseman Building Room 1035, UW-Whitewater, 262-472-1768.

INTERNATIONAL PROGRAMS

INTERNATIONAL STUDENTS

The Office of International Education and Programs is responsible for the recruitment and administration of UW-Whitewater's international students. The office provides orientation for new students, and assists international students with personal, academic, and financial concerns as well as issues with housing, food, or immigration. The office also serves as a liaison with the academic and administrative areas of the University and coordinates cultural and social programs that interface foreign and
domestic cultures such as the International Dinner, Host Family Program and International Week.

**STUDY ABROAD AND FACULTY EXCHANGE**

The Office of International Education and Programs provides necessary services and assistance to students who are interested in participating in study abroad, travel, or exchange opportunities. In addition, the Office works closely with the Faculty Exchange and Fulbright Programs in assisting faculty who may be interested in faculty exchanges.

UW-Whitewater provides study abroad choices to meet the diverse academic and personal needs of the student. Programs vary in location, length, level, academic focus, language requirements and cost. Each program consists of academic study with an appropriate cross-cultural learning experience in a foreign country. Financial aid and scholarships are available for certain programs.

Study abroad is a most effective and intensive learning experience. A term or year spent overseas opens a window to the world which broadens international and intercultural awareness and sheds new light on preconceptions. International study brings fresh perspective to career choice, international understanding and human relationships. If students are to function effectively in the increasingly global economy, they need to acquire new perspectives, knowledge and skills to succeed.

Take advantage of these opportunities to study at universities with which we have special relations:

- Sup de Co, Rouen, France
- Umea University, Umea Sweden
- ITESM, Monterrey, Mexico
- Kansai Gaidai University, Osaka, Japan
- Technical University of Brno, Czech Republic
- Deakin University, Melbourne, Australia
- University of Hertfordshire, London, England

In addition to the above, there is a variety of short-term travel study courses available throughout the year and during summer and winterim sessions. International field experiences, including student teaching and internships, are available through the College of Education in partnership with Bethlehem Moravian College in Malvern, Jamaica and the University of Technology in Kingston, Jamaica, West Indies.
The possibilities are endless through the University of Wisconsin System Study Abroad Programs.

GENERAL GREEK ORGANIZATIONS

Fraternities. Ten general Greek fraternities maintain chapters on the Whitewater campus. Nine of these--Alpha Phi Alpha, Delta Chi, Kappa Alpha Psi, Lambda Chi Alpha, Omega Psi Phi, Phi Beta Sigma, Phi Sigma Kappa, Pi Kappa Alpha and Tau Kappa Epsilon--are nationally affiliated. Phi Chi Epsilon is a local fraternity. A male student may become acquainted with a fraternity through inquiry to the respective fraternity or Center for Student Involvement and Leadership at 262-472-3191.

Sororities. Eight sororities maintain chapters on the Whitewater campus. Six of these--Alpha Kappa Alpha, Delta Sigma Theta, Delta Zeta, Sigma Gamma Rho, Sigma Sigma Sigma and Zeta Phi Beta--are nationally affiliated. Alpha Sigma is a local sorority and Zeta Sigma Chi is a regional sorority.

DISABLED STUDENT SERVICES

Roseman 1004: 262-472-4711 (V/TDD)

UW-Whitewater has had a program to provide services for students with disabilities since the 1970-71 school year. In 1973, the Board of Regents of the University of Wisconsin System gave UW-Whitewater a unique, specific mission to provide services for students with disabilities. As a result, the UW-Whitewater campus is one of the most accessible campuses in the nation. More than $5 million has already been expended to make programs and facilities accessible. In addition, professional staff members for students with disabilities. As a result, the UW-Whitewater campus is one of the most accessible campuses in the nation. More than $5 million has already been expended to make programs and facilities accessible. In addition, professional staff members in Disabled Student Services and other Student Affairs Offices are available to provide a wide variety of services to meet both ordinary and unique needs of students with disabilities. The primary goal is to integrate disabled students into existing programs to the maximum extent possible. Specialized services are provided to meet unique needs.

Services include, but are not limited to:

- Pre-enrollment interview, evaluation and orientation.
- Transportation to and from class and activities on and off campus (Available for a weekly charge).
- Adapted recreation and athletics including wheelchair football, basketball, softball, soccer and wheelchair track and field.
- Assistive Technology Center
- Counseling for personal, social, vocational, academic and critical intervention needs.
- Assistance with attendant recruitment and training.
- Physical therapy emphasizing functional training and activities of daily living.
- Liaison with funding and sponsoring agencies.
- Enhanced work experience, career planning and placement service.
- Independent living skills training.

**STUDENTS FOR AN ACCESSIBLE SOCIETY (SAS)** Roseman 1004
This is an organization open to ALL interested people. The organization was originally formed to meet the special needs of disabled students on campus, i.e., building modification and transportation. With the increased accessibility of the campus, SAS is gearing itself more towards political, social and economic concerns of disabled individuals. Its goal is to work not only on removing architectural barriers, but also on removing attitudinal barriers created by society’s stereotypes.

For further information on SAS, or for information concerning other areas (i.e. transportation, housing, aides, physical therapy), students may contact Disabled Student Services at 472-4711.

**STUDENT PUBLICATIONS**

The Royal Purple is an independent student newspaper of the University of Wisconsin-Whitewater which is published weekly. Students can obtain hands-on editorial or advertising experience while receiving course credit. The Royal Purple also offers students the opportunity of advancement to editorial and business management positions.

**RADIO STATION**

**WSUW-FM** (91.7 on the dial) is a 1300 watt student run radio station operated by the University. The station serves as a laboratory for on-campus radio courses, and provides entertainment and public services to the University and surrounding communities.

**GENERAL RECREATION**

Sports facilities are open evenings and weekends for unorganized recreational use.
Indoor facilities are available for such activities as basketball, volleyball, and
swimming. Outdoor areas and facilities are also available for such activities as
softball, football, tennis, sandpit volleyball, and basketball. A walking/jogging trail is
located near Perkins Stadium for recreational use. Equipment checkout is available for
these activities with a valid University I.D. Facility reservations are also available for
any of the indoor or outdoor facilities, as well as the Lawcon picnic shelter near Wells
Hall. A Weight Room/Fitness Center and aerobics membership fee is required, and
can be purchased through the Office of Recreation Sports and Facilities, Room 142
Williams Center. Call 262-472-1544 for further information.

**INTRAMURAL SPORTS**

An extensive program of intramural sports is available for male and female students,
faculty or staff. Tournaments and leagues are conducted throughout the year in
various activities such as flag football, volleyball, basketball, soccer, wrestling,
softball, tennis, sandpit volleyball, inner tube water polo and floor hockey. Entry forms
for these activities are available in the Intramural Office, Room 142 Williams Center.
Call 262-472-1145 for further information.

**CLUB SPORTS**

A more in-depth sports experience than the intramural and/or general recreation
program, it blends aspects of learning new skills, practicing with fellow participants
and competing against clubs from other campuses. Active clubs include men's and
women's ice hockey, men's volleyball, lacrosse, bowling, men's and women's rugby,
cycling, billiards, karate, hobbits outdoor, martial arts, water skiing, ultimate frisbee
and skiing. Contact the Club Sports Office, Room 142 Williams Center or call 262-

**RELIGIOUS GROUPS**
The following religious organizations are represented on campus: Inter-Varsity Christian Fellowship, Catholic Student Association (Roman Catholic), Lutheran/Episcopal Student Association, Fellowship of Christian Athletes, UW-W Gospel Choir, and WELS Campus Ministry. In addition, the Campus Ministry Center is affiliated with the following religious faiths: Catholic, Lutheran, Episcopal, and United Ministries in Higher Education (Presbyterian, Congregational United Church of Christ, United Methodist, and American Baptist). Local churches or off-campus houses maintained by religious organizations provide the facilities for religious and social programs. Some meetings are held in University facilities.

FINANCIAL AID

HOW TO APPLY

To apply for financial aid at UW-Whitewater the application process is as follows:

Complete a Free Application for Federal Student Aid (FAFSA) and submit it to Federal Student Aid Programs. The FAFSA is available from any high school guidance counselor or the Financial Aid Office. The FAFSA can be completed after January 1 of the new year once the federal income tax returns for the previous year are completed. The FAFSA requires accurate information. Inaccurate information can result in time-consuming corrections. Submit the FAFSA by the priority date of March 15. Applications submitted after March 15 may be too late for many aid programs.

As a result of completing the Free Application for Federal Student Aid, the student will receive a Student Aid Report (SAR), which contains the results of a student’s eligibility for financial aid. If it contains incorrect information, the student should make the necessary corrections on the report and return it to the address indicated on the form. Students are no longer required to submit the SAR to the Financial Aid Office.

Other Requirements:

The student must be accepted for admission to UW-Whitewater before the application will be considered.
Ability to Benefit - Students seeking Title IV federal aid must have a high school diploma or its recognized equivalent GED. If students have neither, they must first pass an independently administered test proving the ability to benefit.

Additional information as requested.

International Students:

Contact the Financial Aid Office for information and appropriate forms. All aid programs except the International Student Grant and Scholarship require U.S. citizenship or permanent residency. Students on foreign student visas (F-1's) are not eligible for federal or state funds. CHANGE OF ADDRESS: All new students must notify the Admissions Office of a change of address. All continuing students may change their address(es) on the STAR System or notify the Registrar's Office. The Financial Aid and Student Financial Services Offices rely upon those offices for accurate address information.

REAPPLY ANNUALLY: Students must reapply annually for all types of financial aid.

SUMMER TERM: To apply for summer term financial aid, students must complete a Summer Term Application which is available in the Financial Aid Office. This is in addition to the FAFSA. To be eligible for aid, students must be enrolled at least half-time (six credits undergraduate and four and one half credits graduate).

ACADEMIC PROGRESS: Students are required to comply with UW-Whitewater's Academic Progress requirement in order to maintain their eligibility to be considered for financial aid. Academic Progress requirements are published in the University's Registration Handbook and Timetable. Failure to meet the requirements will result in loss of eligibility for all major types of financial aid. Students will receive a report of their current status on the Student Information Form prior to registration each Fall/Spring Term, and they will be informed at the end of the Fall/Spring Term in which their eligibility has expired. Students who do not meet the requirements can appeal their academic progress status.

ADDITIONAL OUTSIDE RESOURCES: The student's financial aid package is subject to change based upon assistance received from other sources. This includes private scholarships, fee waivers, Division of Vocational Rehabilitation funds, resident/campus assistantships, ROTC, etc.

CONFIDENTIALITY: Written and verbal financial information concerning students and parents is confidential and will not be released without written permission.
CHANGES TO FINANCIAL SITUATION: The Financial Aid Office must be notified directly of changes which may affect the family's ability to provide financial assistance to the student. These changes may include loss of employment or benefits, a significant decrease in income, separation or divorce, death or disability.

WHAT WILL IT COST TO ATTEND UW-WHITEWATER?

Financial planning for college should begin with an estimate of what the total cost will be for one academic year at UW-Whitewater. While fees (tuition) and room and board expenses will represent the majority of the expenses, there are also expenses for books, laundry, personal supplies, entertainment, and travel. If realistic budgetary allowances for such items are made now, the final financial projections will be more accurate and useful. Allowances should also be made for increases in fees because of inflation and policy changes.

ESTIMATED YEARLY BUDGET WISCONSIN RESIDENT UNDERGRADUATE STUDENT 1999-2000 ACADEMIC YEAR

- Fees $3,100
- Room & Board 3,550
- Books, supplies 650
- Transportation 850
- Personal expenses 1,600

**TOTAL** $9,750

* Non-resident (except Minnesota) undergraduates add $6,500.

** While most required undergraduate textbooks are available through the textbook rental system, some must be purchased.

The following is a sample budget and need analysis for a dependent student paying in-state tuition:

Parents' Contribution $800
Student's Contribution + 400
**TOTAL FAMILY CONTRIBUTION** $1,200
Total UW-W Cost of Attendance $9,750
Less Family Contribution -1,200  
**TOTAL NEED $8,550**

The following is a sample financial aid package for the same student enrolled full time:

- Federal Pell Grant $1,975
- Wisconsin Higher Education Grant 310
- Federal Supplemental Educational Opportunity Grant 600
- Federal Perkins Loan 1,000
- Federal Work-Study 1,200
- Federal Direct Stafford Loan 3,465
- Federal Direct PLUS Loan +1,200

**TOTAL $9,750**

Students have the option of accepting all or part of the assistance offered.

Financial aid is calculated on the number of credits the student intends to take. Financial aid packages must be adjusted for less than full-time enrollment.

**LOANS**

A loan is a form of financial assistance which must be repaid and should only be accepted with the full realization of that responsibility.

**FEDERAL PERKINS LOAN PROGRAM:** Federal Perkins Loans are available to undergraduate and graduate students. Awards are determined by the Financial Aid Office based upon financial need and availability of funds. Borrowers must sign a promissory note for the loan, which is interest-free as long as they are enrolled at least half-time at any eligible institution. Repayment of the principal plus 5% interest per year begins nine months after the student leaves school or graduates. Repayment is determined by federal regulations.

**FEDERAL DIRECT STAFFORD LOAN (Subsidized):** The Federal Direct Stafford Loan enables undergraduate and graduate students enrolled at least half-time to borrow directly from the federal government. To be eligible, students must demonstrate financial need. The school determines financial need based on the information provided on the FAFSA.

The federal government pays the interest on these loans while students are in school and during certain periods, such as grace and deferment (a postponement of
repayment). Undergraduate freshmen are limited to loans of $2,625; sophomores (24-59.5 credits) are limited to $3,500; junior and senior undergraduates (students with 60 credits or more) are limited to $5,500. Graduate students are eligible to receive up to $8,500 per year. Undergraduates are limited to a cumulative total of $23,000 in Federal Direct Stafford Loans and there is a $65,500 cumulative total for undergraduate and graduate study. Federal Direct Loans are interest-free until six months after graduation or the time the student leaves school. An origination fee of 3% is assessed at the time the loan is made. This money goes to the federal government to help reduce the cost of supporting this low-interest loan. Interest rates are variable and are adjusted each year on July 1.

**FEDERAL STAFFORD LOAN (Unsubsidized):** To be eligible, students do NOT need to demonstrate financial need. However, students are obligated to pay all interest even while enrolled, which differs from the subsidized loan. The same borrowing limits apply less amounts borrowed under the subsidized program. For example, a freshman may borrow a maximum of $2,625 per year in combination of both programs. Independent undergraduates may be eligible for higher limits.

**FEDERAL DIRECT PLUS LOAN:** The Federal Direct PLUS Loan program enables credit-worthy parents of undergraduate dependent students to borrow. The PLUS Loan may not exceed the student's estimated cost of attendance minus any estimated financial assistance the student has been or will be awarded during the period of enrollment. This includes the no-need Federal Direct Unsubsidized Stafford Loan. Funds are borrowed directly from the federal government. An origination fee is assessed at the time the loan is made. Interest rates may vary from year to year and will be determined by the federal government. You may contact the Financial Aid Office for the PLUS Loan Request Form.

**GRANTS**

A grant is a form of aid which does not have to be repaid.

**FEDERAL PELL GRANT:** The Federal Pell Grant Program provides a "foundation" of financial aid to undergraduates to which aid from other federal, state and private sources may be added. To determine a student's eligibility for a Pell Grant, the U.S. Department of Education uses a standard formula to evaluate the information the student supplies on an aid application. The formula produces an Expected Family Contribution, which indicates whether or not the student is eligible. This amount is on the Student Aid Report (SAR), which is sent to the student.
FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (FSEOG): The Federal Supplemental Educational Opportunity Grant is a federally funded grant program. FSEOG's will be awarded first to those undergraduate students with exceptional need, those with the lowest expected family contributions and Federal Pell Grant recipients.

WISCONSIN HIGHER EDUCATION GRANT (WHEG): The Wisconsin Higher Education Grant is a state funded grant available to eligible undergraduate Wisconsin residents who demonstrate financial need. Awards are determined by the Higher Educational Aids Board.

TALENT INCENTIVE PROGRAM GRANT (TIP): The Talent Incentive Program Grant is administered by the Department of Public Instruction's Wisconsin Educational Opportunity Program (WEOP). The purpose of TIP is to provide supplemental grant awards to extremely needy nontraditional students. TIP awards are designed to reduce the need for self-help aid during the period of greatest academic vulnerability. Contact your local WEOP Office, 262-227-4942.

INDIAN STUDENT ASSISTANCE PROGRAM: The Indian Student Assistance Program grants are available to Native Americans who demonstrate financial need, are enrolled in a post secondary program in Wisconsin, and are Wisconsin residents of one-fourth Native American lineage. Applicants must complete the Indian Scholarship Application available from the Bureau of Indian Affairs, or the Financial Aid Office, in addition to the Free Application for Federal Student Aid (FAFSA).

NON-RESIDENT GRANT: These grants are available to out-of-state (excluding Minnesota) students enrolled full-time who demonstrate need. Upperclassmen must have a cumulative grade point average of 2.00 or better. These awards cover part of non-resident tuition expenses.

INTERNATIONAL STUDENT SCHOLARSHIP: Each year UW-Whitewater's Admissions Office selects 10 new freshmen from foreign countries to receive scholarships. The awards are renewable for up to four years. The awards are based on academic record and financial need. Awards are made in the form of a partial waiver of non-resident tuition. Contact the Admissions Office, Baker Hall, 262-472-1440, for more information.

INTERNATIONAL STUDENT GRANT: The Financial Aid Office has a limited amount of funds available to assist continuing students from foreign countries. Applicants must have earned a minimum of 24 credits at UW-Whitewater with a minimum G.P.A. of 2.50 for undergraduates. These awards are made on the basis of
need resulting from extenuating circumstances. Awards are made in the form of a partial waiver of non-resident tuition.

**WISCONSIN HEARING/VISUALLY HANDICAPPED GRANT:** These grants provide assistance to Wisconsin residents who are deaf, hard of hearing, or visually handicapped. To qualify, such students need to demonstrate financial need. Grants are determined by the Higher Educational Aids Board.

**U.S. AIR FORCE ROTC SCHOLARSHIPS AND INCENTIVES:** Air Force ROTC has several types of scholarship opportunities available for students. High school seniors must apply for three and four year scholarships prior to December 1 to be considered. The Professional Officer Course Incentive is also available to any qualifying student for their last two years of college. This incentive is $1000 per semester for tuition, plus $150 per month all tax free. Contact your Air Force representative at 262-472-1876. Campus location is Room 199 in Salisbury Hall.

**U.S. ARMY RESERVE OFFICER TRAINING CORPS (ROTC) SCHOLARSHIP:** There are four categories of annual scholarships awarded by the Department of Army available to students participating in Army ROTC. High school seniors entering a university with Army ROTC may compete with students across the nation for a four-year scholarship. Interested students should contact the Department of Leadership and Military Science, 262-472-1541, any time from September 1 through November 1 during their senior year in high school. Two-year and three-year scholarships are also available to selected students participating in Army ROTC.

**LAWTON UNDERGRADUATE MINORITY RETENTION GRANT:** These grants provide funds to undergraduate minority students (Hispanic, African-American, Native American, Southeast Asian) who have at least 24 earned credits. Qualifying minorities must be U.S. citizens and Wisconsin residents who are enrolled at least half-time and making satisfactory academic progress. Students who demonstrate financial need must have a grade point average of 2.0 or better; students not eligible for financial aid must have a grade point average of 2.4 or better to be considered. Contact the Assistant Vice Chancellor for Academic Support Services, 226 McCutchan Hall, 262-472-4985, for applications and information.

**DIVISION OF VOCATIONAL REHABILITATION (DVR):** DVR assistance is available to students having some type of disability. Vocational Rehabilitation is a Division of the Wisconsin Department of Health and Social Services. Students should contact their local DVR counselor in addition to filing the FAFSA.

**EMPLOYMENT OPPORTUNITIES**
Students must be enrolled at least half-time or have been accepted for such enrollment for any on-campus employment. The most common types of positions available are Federal Work-Study positions and Regular Payroll positions.

Students on foreign student visas (F-1's) are eligible for on-campus Regular Student Payroll positions only, and they are restricted to 20 hours per week during periods of enrollment.

During the summer or other vacation periods when students do not have classes, they may work a maximum of 40 hours per week. In general, the basic pay is the prevailing minimum wage.

**FEDERAL WORK-STUDY EMPLOYMENT:** The Federal Work-Study program is a federally funded financial aid program available to citizens or permanent residents of the United States. To be eligible, the student must receive a Federal Work-Study allocation as a part of the financial aid package.

Federal Work-Study employment is typically on campus, and work schedules are set up around classes. Students are encouraged to participate in the many community-service related activities available. Typical on-campus jobs include clerical work; assisting in the library, laboratories, or computer labs; tutoring; and child care assistance. Proceeds from Federal Work-Study employment are paid directly to the student and are not automatically subtracted from the student bill.

**REGULAR STUDENT PAYROLL:** Each year hundreds of on-campus part-time jobs are made available by UW-Whitewater. Jobs (similar to Federal Work-Study positions) in university offices, laboratories, or other facilities can be applied for by any student enrolled on at least a half-time basis. These positions are listed via the Cable TV Channel 6 "Student Jobline".

All students working on campus are paid via a bi-weekly paycheck.

**FOOD SERVICE:** The private company with the contract to provide food services to UW-Whitewater hires approximately 225 students each year to work in the dining halls and for its catering service.

**OFF-CAMPUS:** Each year the Financial Aid Office lists many part-time jobs in private homes, businesses, and industries in the Whitewater area. These openings are listed on the Cable TV Channel 6 "Student Jobline". Students on foreign student visas (F-1's) are not eligible for off-campus employment without special permission.
WITHDRAWAL FROM THE UNIVERSITY

Refund/Repayment Policy for Financial Aid Recipients: Financial Aid is awarded to students to cover educational costs charged by the University of Wisconsin-Whitewater and other related costs. Funds disbursed to students may exceed these costs when a student withdraws or drops classes during a Fall/Spring, Summer or Winter term. Refunds of fees to financial aid programs will be processed by the University of Wisconsin-Whitewater. Federal and state regulations require that a prorated portion of funds disbursed to cover non-institutional costs be repaid by the student.

Students should refer to the Timetable for details regarding Financial Aid Refund/Repayment policies. The actual repayment will be determined by the Financial Aid Office. Students will receive a statement from University Financial Services and repayments will be made to that office. Students remain INELIGIBLE for future financial aid until repayment is made in full.

If a student is considering or finds it necessary to withdraw, it is advisable to contact the Financial Aid Office. They will assist in determining the financial impact on the student. Withdrawals are initiated at the Registrar’s Office.

Students who withdraw during the first Fall Term, but plan to return Spring Term, must submit WRITTEN notification to the Financial Aid Office so that aid may be reinstated and/or revised. If they fail to notify the Financial Aid Office, the aid will automatically be cancelled.

Information included in this section is subject to change at any time because of federal, state, or University regulations.

SCHOLARSHIP PROGRAM

The University offers a number of scholarships intended to reward academic excellence. Scholarships awarded to UW-Whitewater students are made possible by the University itself, alumni, concerned individuals, companies, and various organizations.

The number and type of scholarships are constantly changing; consequently, interested students are encouraged to contact the Coordinator of Scholarships in care of the Admissions Office (262-472-1440) for information and/or a scholarship application. Detailed information is available on the UW-Whitewater Homepage.
www.uww.edu. Students are encouraged to apply early in order to enhance consideration as a scholarship recipient.

UW-Whitewater offers a wide variety of scholarships and every effort will be made to assist deserving students.

**U.S. AIR FORCE ROTC SCHOLARSHIPS**

High school seniors entering a university with Air Force ROTC may compete with students from across the nation for three and four year scholarships to cover tuition, books and fees. Students who are already in college can apply for two and three year scholarships at specific intervals during the school year. In addition, the Air Force routinely sponsors a series of special scholarships targeted for specific majors, or to address under representation of some racial or ethnic groups in the Air Force. Lastly, the Air Force sponsors incentive scholarships in the amount of $1,500 per Fall or Spring Term for individuals in their last two years of training, in addition to the $150 per month they receive for participating.

**U.S. ARMY RESERVE OFFICER TRAINING CORPS SCHOLARSHIP (ROTC)**

Two types of US Army ROTC scholarships are available to qualified students registered at the University of Wisconsin-Whitewater:

1) Four-year scholarships are awarded to high school seniors following a national competition. The early cycle applications must be submitted prior to November 15 -- 10 months before entrance into college. The regular cycle applications must be submitted before December 1st -- nine months before entrance into college.

2) Two-year and three-year scholarships (national) - an unlimited number of scholarships are available to any qualified UW-W student in any academic discipline. Completed applications must be received by the Department of Leadership and Military Science before April 15 for a three year scholarship and June 1 for a two year scholarship.

The US Army ROTC scholarship pays for tuition, laboratory fees, on-campus educational fees, and a flat rate of $225 a Fall/Spring Term from which students may purchase textbooks, classroom supplies and equipment. Army ROTC scholarship winners also receive a tax-free subsistence allowance of $150 a month for up to 10 months for each year that the scholarship is in effect. Scholarships at UW-Whitewater are worth approximately $3,500 a year and are available for two-year and three-year periods to both men and women. Scholarship applications are available at the Department of Leadership and Military Science, Room 111, Salisbury Hall.
ARMY NATIONAL GUARD
Qualified students can enlist in the Wisconsin National Guard and receive a "New GI Bill" tuition assistance of $9036 binding the completion of military training. Also as a member of the guard a student will receive a monthly paycheck for approximately $150 for attending a one weekend drill a month.

Benefits of the Guard

Being in the guard qualifies the student for a 100% Tuition Grant. The Grant can be issued before required training is done and also eligible from day of enlistment. Effect 1 July 1997 Wisconsin Army National Guard Tuition Grant will be increased to 100%. There is also the possible eligibility of an additional $2500 cash bonus and a $10,000 Student Loan Repayment Program. Another program that a Guard member could be eligible for is the Federal Tuition Assistance Program that entitles a guard member up to $1,500 per fiscal year.

Simultaneous Membership Program

While attending ROTC Leadership Program in college you are eligible to participate in the SMP program. As an officer trainee you'll receive SGT (E-5) pay of $170 plus for the monthly training assembly. An additional ROTC Advance Corps Training Program pay. You're entitled to 100% tuition grant, and based on previous military experience you may also be eligible for the GI Bill of $251 per month.

CLEP
The College Level Examination Program is at no cost to an enlisted Guard member. The CLEP purpose is to assist students with post-secondary education goals. The CLEP is administered by Wisconsin National Guard Education Office.

METEC
Military Experience and Training Evaluations is a computer program that lists recommended college credits for prior military experiences.

Scholarships and Grants

Additional grants are awarded each year of $2,000 by the following associations: Wisconsin National Guard Enlisted Association, Enlisted Association of the National Guard of the United States.

ARMY RESERVE
Qualified students can enlist in the National Guard or Army Reserve and receive a "New GI Bill" tuition assistance of approximately $251 a month after 6 months of qualified service. Also as a member of the reserve forces a student will receive a monthly paycheck for approximately $150 for attending a one weekend assembly a month. For additional information contact the Department of Leadership and Military Science, Room 111, Salisbury Hall.

Qualified students can participate in ROTC on a contractual basis and receive approximately $3,700 over a two year period normally during their junior and senior years. Students may combine ROTC and National Guard/Army Reserve financial assistance and can benefit from a $10,000 to $20,000 loan repayment plan. For additional information, contact the Department of Leadership and Military Science, Room 111, Salisbury Hall.

Students interested in pursuing a career in the Army Reserve or National Guard rather than active duty can apply for a Guaranteed Reserve Forces Scholarship which pays tuition, $150 a month and $225 for books and miscellaneous expenses. There is no active duty commitment associated with this scholarship.

**MONEY MATTERS**

Academic fees are set by the Board of Regents of the University of Wisconsin System and are subject to change by the Board without notice. Fees shown here are those in effect at the time this catalog was prepared and are subject to change without notice.

Academic Fees. All students who attend the university pay academic fees assessed by the Board of Regents of the University of Wisconsin System. A non-resident fee is added to the academic fee for non-resident students.

Registration Deposit. All students are required to pay a $100.00 registration deposit before they can be scheduled. This deposit will be applied to the academic fee for the appropriate term.

Special Course Fees represent charges in addition to the regular instructional fee and tuition. These fees are charged to students enrolling in certain courses that have been approved for such a fee for materials that represent special or extraordinary cost; for example, art courses dealing with precious metals. All such special course fees are specified for each such course each term in the Timetable.

Fee Payments. UW-Whitewater offers two methods to pay fees:

1. Payment in full. Students may pay all fees (academic, room, food) in full by the billing due date for advance registrants. If they register after the advance registration process, students should pay in full at the same time they register.

2. University Installment Credit Plan. If electing to use the installment plan, students must fulfill the following requirements:

   a. They must have a signed Installment Credit Agreement and Marital Property Form on file with the University.

   b. The $100 registration deposit will become the required down payment for all registrants wishing to participate in the university installment plan. If registering after the advance registration process, students must sign the Installment Credit Agreement.
and Marital Property Form, and submit a $100 down payment before registration. If total charges are less than $100, students do not qualify for the installment plan and must pay fees in full. The University Timetable contains all billing dates and payment dates for the current term.

c. The balance of the financial obligation plus a FINANCE CHARGE AT AN ANNUAL RATE OF 18% (1 1/2% monthly periodic rate) on balances of $500 or less and a FINANCE CHARGE AT AN ANNUAL RATE OF 12% (1% monthly periodic rate) on the portion of the balance exceeding $500 is payable upon receipt (not to exceed 30 days from the billing date). Billing statements are mailed to the student's local address as filed with the Office of the Registrar; however, failure to receive a statement in no way relieves a student from the obligation to make timely payments.

d. Failure to have a signed Installment Credit Agreement and Marital Property Form on file will result in administrative charges of up to $75 if fees are not paid in full during the registration fee payment process.

**REFUND OF FEES**

The refund schedule for withdrawals applies to class drops as well as complete withdrawal.

Students who enter the military service by enlistment, draft, or otherwise, receive either a full refund or receive course credits for the term depending upon the length of their enrollment in the course. In determining the withdrawal date, the University uses the date students notify the Registrar's Office of the withdrawal; or, if they fail to notify the Registrar and they are otherwise unable to verify the date of the withdrawal, the date of the request for refund is used to determine the amount of the refund.

The following schedule on refunds of academic fees applies to all students withdrawing from the University.

**GENERAL BILLING COLLECTION POLICIES**

The University of Wisconsin-Whitewater requires all students to comply with the following billing policies:

1. The Student Accounts Office will generate billing statements on semester accounts during the following time periods:

   **ADVANCE REGISTRATION BILLING** - If students register during the advance registration process, they will be mailed an advance registration billing statement which will allow them to pay their fees in full and/or elect to go on the University Installment Plan.

   **FIRST INSTALLMENT BILLING** - Students are required to pay at least 1/2 of their total balance by the due date of this bill.

   **LAST INSTALLMENT BILLING** - Students are required to pay the entire remaining balance by the due date of this bill.

   Failure to receive a bill will not relieve students from paying by the required due dates.

2. If students have a current semester account that has a balance due after the due date of the last installment billing, they will not be allowed to advance register for the following semester.

3. Students are urged to sign an Installment Credit Agreement and Marital Property Form to avoid the possibility of being assessed additional administrative costs. The costs of additional administrative services will be charged to accounts with balances due unless they are on the installment plan. IF STUDENTS ARE NOT ON THE INSTALLMENT PLAN, THEIR ACCOUNT MUST BE PAID IN FULL AT ALL
TIMES. Therefore, if they add any charges to their account, they must pay for them on the same day they are added. This includes any classes added to fill out an incomplete advance registration schedule. Students on the installment plan may add charges without making any payment until the monthly billing due dates.

4. The Installment Credit Agreement will continue on students' accounts unless revoked by the University. Installment Credit Agreements will be included with the advance registration billing. They are also available in the Student Accounts Office.

5. University policy will not allow any deferment of payments. Students must pay the $100 deposit, sign an Installment Credit Agreement and Marital Property Form and pay according to the installment plan.

6. Students registered for off-campus courses who are not on the installment plan will be charged a $30 administrative fee if they are not paid in full within two weeks of the week in which the off-campus classes begin. Payments received later than that may result in cancellation of registration.

7. Payments are made at the University Cashier Office. Payments should be made payable to UW-Whitewater. Include the student's name, ID number, and purpose of payment such as "spring term", OR, when paying fees, include the top portion of a billing statement. A depository is available outside the University Cashier Office. Cancelled checks are considered receipts. If a cash register receipt is needed, include a self-addressed, stamped envelope with the payment.

Registrants may mail their payments to:

University Cashier
P.O. Box 88
Whitewater, WI 53190-0088

**RETURNED CHECK CHARGE.** A $20.00 service charge will be assessed on all checks returned by a bank. Any checks returned after the original payment due date will be cause for registrations to be cancelled or an administrative fee assessed. A returned check is considered nonpayment.

Financial aid recipients, including students receiving Federal Direct and Parent Loans, must be prepared to pay the $100.00 down payment out of personal funds, and sign an Installment Credit Agreement and a Marital Property Form if one is not on file. Financial aid will be disbursed prior to the first day of classes if it is available. Any overpayments (refunds) can be picked up at the Cashier's Office during the first week of classes. After the first week, checks will be mailed. Picture identification is
required to pick up checks. Financial aid checks must be used to pay any remaining balance on students' accounts before refunds will be issued.

Specific information on the amount or type of financial aid checks is privileged and will not be given over the telephone.

ACADEMIC SUPPORT CENTERS

TECHNOLOGY AND INFORMATION RESOURCES
T&IR is the umbrella organization that comprises the four service units outlined below. Working together, these units support the University community to fulfill its mission in teaching, research and outreach by providing library resources and support for administrative and academic computing, instructional technology, networking, telecommunications, desktop support, and user training.

A brief description of the functions of each unit is as follows:

INFORMATION SYSTEMS AND OPERATIONS SERVICES (ISOS)
ISOS consults with administrative users and develops, maintains, and implements computer systems that are needed for the University's administrative functions. University databases are designed, implemented and maintained to insure integrity, confidentiality, and effectiveness of information systems. Information Systems and Operations Services provides training and support in the use of administrative systems, and day-to-day operational services.

INSTRUCTIONAL TECHNOLOGY SERVICES (ITS)
ITS provides a wide array of services to the campus in instructional technology, and academic computing. These include audiovisual and film services, the maintenance of general access computer labs, technical support for the compressed video distance education classroom, multimedia development support for faculty and instructional staff, photographic and graphics services for both instructional and non-instructional needs, and data analysis support. In addition, ITS provides a range of support services for computer labs and classrooms in the colleges.

LIBRARY SERVICES (LS)
LS provides a variety of print and non-print materials to meet the information needs of students and faculty. Over 1.9 million items are in the library collection, including over 375,000 books, 76,300 bound volumes of periodicals, 335,500 government publications, 1,100,000 microforms, and 8,600 audiovisual titles. The library subscribes to over 2,400 current periodicals, serials, and an extensive array of electronic resources, many of which are web-based full texts. The library also
provides easy Web access to Internet information resources throughout the world. The URL for the library homepage is: http://library.uww.edu

NETWORKING AND DESKTOP SUPPORT, AND TELECOMMUNICATIONS SERVICES (NDTS)
NDTS plans, develops, maintains and implements programs and services to meet the needs of the University in voice, data, video and local area networks. In particular, support is provided for Internet access Novell networks, long-distance phone services, electronic mail and, in general, access to network-based information services. NDTS also provides Help Desk services, computing desktop support, and user training for the campus.

TEXTBOOKS
The University provides basic textbooks for undergraduate students on a rental basis. The rental cost is included as a part of the fees students pay for registration each term. Textbooks may be picked up at designated times at the Textbook Rental, located in Moraine Hall. Graduate students are required to purchase their textbooks from the University Bookstore and are not assessed a rental fee. Students can expect to purchase some supplemental books and non-reusable materials such as workbooks and supplies.

OTHER LEARNING MATERIALS
In addition to the wide variety of information available in the library, several other collections of teaching and learning materials are available on campus. Many departments and academic programs have small libraries of periodicals or reference works for use by students, who may receive information at their major department.

The College of Arts and Communication provides a Music Listening Center, MIDI Lab and Art Slide Library, in the Center of the Arts, Room 16. In the Carlson Building, the College of Business and Economics maintains the Beattie Collection of current periodicals and reference works relating to subjects taught in that college.

The Wisconsin Instructional Technology Resource Center (WITRC) is located in the College of Education on the first floor of Winther Hall. The Resource Center contains a state-of-the-art instructional technology software collection and the latest developments in multi-media technology.

Finally, various University offices, for example, Career Services and the University Health and Counseling Services, have collections of information dealing with their functions.
RONALD E. MCNAIR POST-BACCALAUREATE ACHIEVEMENT PROGRAM
The Ronald E. McNair Post-Baccalaureate Achievement Program at the University of Wisconsin-Whitewater is designed to achieve four goals: 1) to introduce undergraduate students from targeted groups to high quality research settings which will help provide educational and professional role models; 2) to create an environment where graduate study is an expectation; 3) to provide academic support and preparation; and, 4) to provide financial support for pre-doctoral study.

The program enrolls fifteen students each year; one-half juniors and one-half seniors. Students are expected to participate in the program for up to two years.

Students participating in the McNair Program will work in a mentoring relationship with a faculty member; participate in seminars addressing graduate school preparation, expectations and opportunities; demonstrate their research ability in independent research projects; and present their research at regional and national conferences.

For further information, please contact the Director of the McNair Program, 219 McCutchan Hall (262-472-2804).

LATINO STUDENT PROGRAMS
The Office of Latino Student Programs promotes the recruitment, retention, and graduation of Latino students. The office strives to retain new and continuing Latino students by helping them develop their academic and critical thinking skills. The office is also engaged in developing and implementing both academic and cultural programs which contribute to students' personal and intellectual development, making the University more knowledgeable concerning Latino culture, and developing closer ties with the Latino community at a local and global level (including Study Abroad opportunities).

Latino Student Programs collaborates closely with other units of Academic Support Services as well as Career Services, the Financial Aid Office, and the departments of Race and Ethnic Cultures and Languages and Literatures, among others, in order to successfully integrate Latino students into university life so that greater numbers can gain access to meaningful information and services.

For further information, contact the Director of Latino Student Programs, 105 McCutchan Hall (262-472-1913).

STUDENT RETENTION SERVICES
The Student Retention Services (SRS) provides a wide range of services and academic
support to students with academic potential who, because of low income, first
generation background or physical disability, or poor academic preparation, need a
period of time to adjust to the academic and social environment of the University.
Students are referred to the program by a variety of sources which include high school
counselors, the Admissions Office, as well as faculty and academic staff at UW-
Whitewater.

Through its professional counseling staff, SRS helps students to acquire the academic
and personal survival skills they need to succeed at UW-Whitewater. SRS counselors
offer academic advising, personal, financial aid, and career advising. SRS involves
faculty directly in its programs through the Faculty Early Warning System and the
Faculty Mentor and Mentee Program. The program provides support for career
enhancement activities, academic seminars, and cultural enrichment activities, tutorial
support, skills building workshops.

The SRS is primarily funded by a grant from the U.S. Department of Education. To be
eligible for the program, students must meet one of the following criteria: come from
a low income family, have neither parent or guardian with a bachelor's degree, be
physically handicapped, or have a learning disability.

For more information, contact the Director of the Student Retention Services, 119
McCutchan Hall (262-472-1209).

MINORITY BUSINESS PROGRAM
The Minority Business Program (MBP) is designed to increase the recruitment,
retention, and graduation rate of ethnic minority students who want to pursue a career
in business. MBP provides an array of activities, the purpose of which are to:

- enhance minority high school and college students' awareness of career
  opportunities in business.
- increase the undergraduate enrollment and graduation of minority students in
  business majors.
- provide opportunities for minority students to meet with business professionals
  in order to develop realistic perceptions of what it takes to be successful in the
  business arena.
- provide academic support in the form of tutoring and counseling for students
  with such needs.

MBP also identifies students with academic promise to involve them in summer
internship experiences.
MINORITY TEACHER PREPARATION PROGRAM
The MTP is a specialized support program, and is a cooperative effort with the College of Education. It is unique in its mission to provide opportunities and educational campus experiences designed to increase the academic success of American ethnic minority students interested in pursuing careers in teacher education.

MTP participants: 1) have exchanges with successful minority educators; 2) interact and develop supportive relationships with other education majors; 3) discuss issues confronting professional educators; and 4) gain insight into the expectations of the education profession.

For more information, contact the Director of the Minority Business and Teacher Preparation Programs, 2008 Carlson Hall (262-472-3216).

PROJECT ASSIST PROGRAM
The Department of Special Education provides a support program specifically for students with learning disabilities at UW-W called Project ASSIST. Services include: strategy instruction, one-to-one tutoring, study skills support, small study groups, testing accommodations, consultation with faculty and staff, and a summer high school to college transition program. The goal of the program is to enable students with learning disabilities to become independent learners by their junior year. In addition, the program networks with a variety of other supportive programs on campus in order to provide comprehensive services to students with learning disabilities.

TUTORIAL CENTER
Tutoring is a customized, student-centered, action-oriented process designed to help all students--full-time and part-time undergraduate and graduate students, and returning adults--who need both short and long-term academic assistance. In meeting these various student needs, the Tutorial Center (TC) has developed those individual and group tutoring approaches which specifically focus on problem solving techniques and intensive subject review sessions. Tutoring has often been thought of as short-term, immediate assistance to overcome one specific problem or trouble spot. Successful students, however, have typically viewed tutoring as a long-term strategy in resolving more complex learning problems including difficult content, as well as organizational techniques, pattern synthesis, and higher level reasoning. Student peer-tutors are hired for the program on the basis of departmental recommendations and personal interviews, and take part in an intensive training program. Tutors are expected not only to know their subject matter well, but also to be able to communicate effectively with students from a wide variety of backgrounds and with varying degrees of knowledge and skill.
Students requesting tutoring represent a cross-section of all students--from those doing very well in classes but who request additional practice and feedback as to their progress, to those individuals who are experiencing major difficulty with content and study procedures and techniques. The TC is equipped to handle all these students with appropriate strategies and confidentiality.

The TC is able to provide tutoring in most basic courses and provides tutoring in many advanced courses, depending upon requests. Tutors are limited, so early registration is recommended.

Registration for tutoring is available from 9:00 a.m. to 9:00 p.m. Monday-Thursday and 9:00 a.m. to 4:30 p.m. Friday in McCutchan Hall. Sessions are available at other times and places by arrangement. To arrange for tutoring, students should contact Student Tutorial Assistance, Room 207 McCutchan Hall (262-472-1230) and request a brochure on the tutoring possibilities which match their needs and expectancies.

LEARNING CENTER
The Learning Center (LC) offers learning alternatives in a lab setting for mathematics, reading, study skills, word processing and writing. Tutors and a variety of materials are available for assisting students. Typically, use of services at the LC is voluntary, individualized, and self-paced as students work on learning strategies and competencies necessary for college success. Students may schedule time in the various labs to work on a specific competency or to develop more generalized strategies for dealing with content areas. For assistance in writing, students may attend free workshops, or they may schedule appointments in the writing lab where they work one-on-one with qualified tutors; also, students may enroll for two credits in English 091, an individualized writing workshop which meets in the writing lab twice a week. IBM computers are available for word processing, and students may schedule lessons in word processing with the LC coordinator. For assistance in math 040 and 041, students may consult tutors on a walk-in basis and view video tapes or use computer software for skill building and practice. For study skills, students may consult with a staff specialist, enroll in "Study/Academic Survival Skills" for three credits, or use computer software covering such subjects as time management, notetaking, concentration, motivation, test-taking, memory, etc. For assistance in reading college-level texts, students may enroll for three credits in "Developmental Reading," or they may consult a reading specialist in the reading lab.

Although most students use services at the LC on a voluntary basis, some students may be referred directly by faculty. In this case, the students work on developing those skills and competencies which have been identified by the faculty members as necessary for success in their classes. The LC, working closely with instructors in Developmental Studies as well as faculty from all colleges and departments, provides
the students with appropriate materials and staff assistance as specified by the faculty member. Both voluntary visits and direct referrals are generally more successful if made before serious problems develop. Students can make appointments either by calling 262-472-1230 or by visiting the LC office in the lower level of McCutchan Hall where additional information and brochures are available. The LC is open 9:00 am to 4:30 pm, Monday through Friday.

MINORITY RECRUITING
One of the primary functions in this area is to recruit ethnic minority students to the UW-Whitewater campus. As an extension of the overall commitment by the University System to increase the enrollment, retention, and graduation of minority students, recruiters contact high schools, community centers, churches, and individual minority community leaders to acquaint them with higher education opportunities for minorities at UW-Whitewater.

Freshman and transfer students entering the University are encouraged to participate in an inclusive array of academic support services. One such program is the Educational Opportunity Program (EOP), which provides services to students who have academic potential, but who may be from low-income families, may be the first students from their family to attend college, or may have a disability (physical or learning). Such students may need a period of time to adjust to the academic and social environment of the University.

Cultural events and student activities for minorities are available on campus. Programs are geared to foster cross-cultural awareness among all students and faculty on campus. Special efforts are made throughout the academic year to encourage full cooperation between activity-oriented bodies to coordinate functions in such a way that the pluralistic society in which we live is reflected in planned campus activities.

For further information, contact the Director of Latino Student Programs at 262-472-1913 or an Assistant Director of Admissions at 262-472-5180.

ACADEMIC STANDARDS OFFICE The Academic Standards Office provides counseling and academic assistance to students, particularly those having difficulty meeting retention standards of the University. All student appeals for reinstatement and for extension of any limitation on the academic progression requirements for financial aid are submitted to the Academic Standards Office. The Director is available to provide information on academic policies, financial aid progression policies, and registration procedures, to assist students in selecting courses of study consistent with their personal and career ambitions, and to refer students to other campus offices for academic assistance.
CENTER FOR COMMUNICATIVE DISORDERS
The Center for Communicative Disorders located in Room 1010, Roseman Building, offers diagnostic and therapeutic help with communication problems in the areas of articulation, voice, hearing, language and stuttering. Complete hearing and hearing aid evaluations are available through the audiological facilities of the center. Services are available for both the campus community and general public.

NEWS AND PUBLIC AFFAIRS OFFICE
The Office of News and Public Affairs provides a link between UW-Whitewater and the many people it serves--students, faculty and staff, parents, and the public at-large. It prepares and mails news releases to area newspapers, radio and TV stations about campus events, programs, and the achievements of students, faculty and staff. It also provides news and information about university programs and people available through the UW-Whitewater home page. Students are encouraged to utilize the Office of News and Public Affairs to publicize their achievements, both on and off campus.

SPECIAL INTEREST GROUPS
The University recognizes a large number of special interest groups. A complete directory of all student organizations, their officers, and advisers is available in the Center for Student Involvement and Leadership.

SERVICE ORGANIZATIONS
A wide variety of service organizations exist, providing students with numerous ways to contribute to the campus and community. These organizations include, but are not limited to: Best Buddies, Circle K, Habitat for Humanity, UW-W Student Foundation, Students Organized for Service, and numerous religious and Greek organizations which also offer service projects.

LEGAL SERVICES
The Legal Services Program of the Whitewater Student Government provides free legal advice to students one afternoon per week. Contact the WSG Office, University Center, 262-472-1166, for more information.

OFFICER EDUCATION
The completion of the Army ROTC Program - Leadership, Military Science and Aerospace Studies Department - and a baccalaureate lead to a Commission in the United States Army Reserve.

ADULT RESOURCE CENTER The Adult Resource Center (ARC) is located in the University Center and serves all University students. The Center is open Monday through Thursday from 10:00 a.m. to 4:00 p.m. The ARC serves University students in a variety of ways. It's a warm, caring environment staffed by students willing to
answer questions or to get information about other services around campus and in the community. The ARC offers a number of varied, noon-hour focus programs throughout the semester. Focus program themes range from stress management to career planning, and from massage to marriage enrichment. Most of all the ARC is a place for students to drop their bags, put up their feet, take a break from their hectic day and get to know some fellow students. For further information, call 262-472-5786.

**UNIVERSITY SPIRIT PROGRAM**

Cheerleaders and stuntmen support the athletic teams in action and promote campus spirit. The squads accompany the Warhawks to away games and perform at all home games. Cheerleading try-outs are held in spring for football squad and in fall for basketball and wrestling squad and are open to all interested men and women. Interested students may contact the Club Sports Office, 142 Williams Center, 262-472-1145.

The Pom Pon squad supports Warhawk athletic teams at all home football and basketball games and performs both dance and precision drill routines. Tryouts take place each fall, and students interested may contact Club Sports Office, 142 Williams Center, 262-472-1145.

**HONORS ORGANIZATIONS**

Phi Kappa Phi is a national honor society open to outstanding students in all curriculums. The local chapter was formally installed in January, 1969. To be eligible for nomination to the society in the junior year, students must be in the upper 5 per cent of their class. In the senior year, students are eligible for nominations for membership if in the upper 10 per cent of their class. The minimum grade point average is 3.50.

Silver Scroll is the local honorary organization for seniors who have achieved a grade point of 3.0 or better and who have demonstrated outstanding leadership and service on the campus. The purpose of this organization is to promote and maintain a high standard of scholarship, to advance a spirit of service, and to encourage leadership among college students.

Blue Key Honor Society is for students who have demonstrated a high level of leadership ability. Blue Key members are nominated by faculty/staff and selected by their fellow students based on character, outstanding ability, and potential deserving of special recognition. Candidates for membership must have a minimum GPA of 3.00 and have junior or senior standing or be a spring semester sophomore.
Golden Key National Honor Society exists to recognize and encourage academic achievement and excellence in all undergraduate fields of study. Membership in the Society is by invitation only to those students who have at least sixty credits with a cumulative grade point average of 3.0 or above. At least twenty-five credits must have been completed at UW-Whitewater. The UW-Whitewater Golden Key National Honor Society involves itself in periodic community service projects and educational programs. For more information contact the Campus Activities and Programs Office.

CULTURAL AFFAIRS
Cultural Affairs brings the best of the world's professional performers to Whitewater, from the Who's "Tommy" to the American Players Theatre, from the BoDeans to the Milwaukee Symphony. Events are planned by the Cultural Affairs Committee, which is made up of students, faculty, and community members.

Tickets for Cultural Affairs events are available to students at a special discount rate. By purchasing a season pass, the price reduction is even greater. All tickets are available at the University Ticket Center or through the ticket outlet at Young Auditorium.

Students of all majors are invited to join the Cultural Affairs Committee to help plan performances, meet the artists, and gain experience in marketing and promotion. Contact Cultural Affairs in the Irvin L. Young Auditorium, phone 262-472-4444.

In the past Cultural Affairs has presented such internationally renowned artists as Maynard Ferguson and Arturo Sandoval. Musicals such as "42nd Street" and "Raisin" have appeared on the Whitewater stage. The list of performances Cultural Affairs has brought to Whitewater is lengthy and includes the Capital Steps, Pieces of 8, the Indianapolis Ballet Theatre, the Dallas Brass and Romeo and Juliet.

The "Party at Irv's" series is a new Cultural Affairs initiative. Music groups such as the Gufs and BoDeans and comedians such as Carrot Top perform. Cultural Affairs invites students to join them and enjoy upcoming shows!

IRVIN L. YOUNG AUDITORIUM
The Irvin L. Young Auditorium serves as host to several performing arts series including the Cultural Affairs Series, the "ILY Presents" (special events) series, as well as the "Horizons" school matinee and evening family programs. These auditorium-sponsored series account for twenty-five to thirty professional performing arts events held in the facility each year. The auditorium is also used for various music department and continuing education-sponsored activities.
The unique design of the Irvin L. Young Auditorium features a graciously appointed auditorium chamber with approximately 1,300 seats, depending on configuration pattern and number of wheelchair seats utilized. Through lighting options and architectural arrangements, the auditorium can also achieve the feeling of warmth and comfortable intimacy of a much smaller space. The clean lines and uncluttered space of the chamber create an unpretentious performing environment in this state-of-the-art facility.

One of the many striking areas is the Fern Young Terrace which offers unparalleled charm guaranteed to enhance any event it houses. The facility's Kachel Center offers flexibility with its sprung hardwood floor. Conferences will find the room appealing for groups of up to 150 or as a space for small groups to meet before returning to the auditorium for larger sessions. Both the Fern Young Terrace and the Kachel Center can serve dual purposes as support spaces to complement auditorium functions or as versatile stand-alone meeting, rehearsal, or reception rooms.

The Young Auditorium provides the students with the opportunity to experience a variety of cultural events. The Auditorium is also available to student groups who may want to present their own activities.

**EXHIBITIONS**
The University's art gallery is a showcase for the campus. Exhibits have popular student and public appeal. While featuring exhibits of statewide and regional artists, Crossman Gallery also presents work with national and international significance. Experimental and pioneering work also comes from UW-W and UW-System art majors and graduate students. Art faculty present a biennial exhibit of their work. Visit the Crossman Gallery as part of an ongoing education.

**MUSIC ACTIVITIES**
The Department of Music sponsors a wide variety of performing groups including Concert Choir, University Chorus, Women's Chorale, Class Act, Symphonic Wind Ensemble, Marching Band, Concert Band, Jazz Bands, Percussion Ensemble, Flute Choir, Clarinet Choir, Sax Choir, Early Music Ensemble, Brass Choir and other smaller ensembles. All ensembles sponsored by the department are open by audition to all university students. Students who enjoy singing or playing a musical instrument will appreciate the opportunity to share in the musicianship of these groups. Contact the Music Department office for additional information.

Students who enjoy music will not want to miss the many interesting and exciting concerts given by the campus groups and by the faculty artists. Most of these concerts are free to students and provide a rich and memorable break in the weekly routine.
UNIVERSITY THEATRE
Annually the Department of Theatre/Dance produces seven major shows, a children's play for tour, experimental and one-act plays, and dance productions. These activities provide rich opportunities for students to see a wide range of productions. Students may also participate in the technical aspects of productions and in theatre management, and may audition for roles in any of the productions. Camaraderie through theatre activities will enliven college life; the arts and skills learned will forever enhance students' lives.

UNIVERSITY POLICE
The UW-Whitewater University Police Department is a full-service law enforcement agency providing 24-hour police protection and services to the campus community. The department is staffed by eleven sworn police officers, two part-time police officers and one non-sworn employee. Part of the mission of the University Police Department is to provide protection of life and property to all persons within the boundaries of the university, to uphold the rights guaranteed under the United States Constitution, and to enforce state laws, codes and UW System regulations in a fair and just manner. The department works towards this goal by conducting investigations into alleged criminal activity, the implementation and presentation of crime prevention programs, development of new and innovative policing programs, effecting arrests, and referring individuals into the criminal justice system or conduct systems.

Anyone requiring the services of the University Police Department can contact them 24 hours a day, seven days a week by phoning 262-472-4660. While an officer is always on duty and can be reached by telephone, business transactions can be conducted in person during office hours of 7:45 am - 4:30 pm, Monday through Friday in Goodhue Hall. Whether the victim of a crime, an injured person, a witness to an incident, someone who wants information or a presentation, or just someone who doesn't know where else to turn, the University Police stand ready to provide the necessary assistance.

UNIVERSITY ADVANCEMENT
The Office of University Advancement includes the UW-Whitewater National Alumni Association, the UW-Whitewater Foundation, and the Office of News and Public Affairs. University Advancement provides a communication link between the university and the media, approximately 57,000 UW-Whitewater alumni, and the public-at-large. The UW-Whitewater Foundation also creates and directs a variety of fund-raising efforts on behalf of UW-Whitewater, its faculty and staff, and its students.
SCHOOL OF GRADUATE STUDIES

THE GRADUATE PROGRAM
The University of Wisconsin-Whitewater is authorized to offer programs leading to the master's degree. Until the early 1960s, UW-Whitewater had only offered undergraduate degrees. In response to societal needs for greater specialization and increased education in the professional work force, graduate programs were initiated at UW-Whitewater in the early 1960's. Since then, UW-Whitewater has granted 10,124 master's degrees. It is presently the fourth largest graduate school in the UW System with 1,078 students enrolled during the spring of 1999.

Master's degree programs are available in accounting, business administration, business education, communication, communicative disorders, curriculum and instruction, educational administration, guidance and counseling, management computer systems, public administration, reading, safety, school business management, school psychology, and special education. An extensive program of evening classes is offered for those who are employed during the day. It is possible to complete master's degree programs through summer and evening work without being a full-time student during the academic year.

Graduate degree programs at UW-Whitewater are fully accredited by the North Central Association, the American Assembly of Collegiate Schools of Business, the American Speech-Language-Hearing Association, the National Association of Schools of Music, the National Council for Accreditation of Teacher Education, and the Wisconsin State Department of Public Instruction.

Seniors may enroll for graduate credit. UW-Whitewater undergraduate students with senior status may be allowed to take at most six graduate credits at UW-Whitewater provided they have completed at least 90 credits with at least a 2.75 overall grade point average (or 2.90 over the last half of their course work) and have the written recommendation of the department chairperson of their undergraduate major. Eligibility for this privilege must be established with the Graduate Office and is not available to seniors at other institutions. Seniors may not use graduate-level credits to satisfy requirements for the bachelor's degree. Undergraduate fees will be charged for their graduate-level work.

GRADUATE ASSISTANTSHIPS

UW-Whitewater has a limited number of graduate assistantships for selected full-time graduate students. To be eligible for consideration, individuals must be enrolled in a
graduate degree program at UW-Whitewater in good standing status. Graduate assistants must register for at least nine graduate credits, but no more than 12 credits, each Fall/Spring Term.

Students receiving full assistantship awards are expected to perform 20 hours of service per week. Workloads for partial awards are reduced proportionately. Duties will involve assignments such as laboratory assistant, research assistant, the preparation of materials for instruction, or other assignments of an academic nature.

The amount of a full assistantship award for the 1998-99 academic year was $7,783. The award amount for subsequent years is contingent upon funding being appropriated from the Wisconsin State Legislature, and is subject to change. All students who receive at least 2/3 of a full assistantship for an academic year or for one Fall/Spring Term will qualify for fringe benefits (such as health, dental, and life insurance). When funds are available, out-of-state students who receive at least 2/3 of a full assistantship for an academic year or for one Fall/Spring Term will be eligible for a remission of the nonresident portion of tuition costs for the corresponding time period. In addition, the out-of-state portion of the fees may be waived for the summer term if the student received at least 2/3 of a full assistantship award for the preceding spring term. Full-time graduate students who are non-residents and not assigned assistantships are also eligible for special funds set aside for remission of non-resident portions of tuition costs.

New applicants for degree programs must complete and return an application for admission and may apply for a graduate assistantship. Students who have already been admitted to a graduate degree program should submit only an application for a graduate assistantship. Completed application forms should reach the Graduate Office by March 15 of the preceding year for first consideration. Recipients will be notified in writing and issued an employment contract as early as possible.

For information contact the Office of Graduate Studies and Continuing Education, Roseman Building, Room 2015, UW-Whitewater, Whitewater, WI 53190-1790, telephone 262-472-1006.

ADVANCED OPPORTUNITY PROGRAM (AOP) AWARDS

The purpose of AOP is to expand the number of minority/disadvantaged students who receive graduate degrees from UW-Whitewater. To be eligible for an AOP award, individuals must be (1) U.S. citizens or permanent residents at the time of application and (2) members of traditionally under-represented minority groups (Black, Hispanic, American Indian/Alaskan Native or statutorily designated Southeast Asian) or non-minority/disadvantaged students. Individuals who are residents of the State of
Wisconsin and members of the aforementioned minority groups are given highest priority for receiving AOP awards.

The amount of a full AOP award for the 1999-2000 academic year is $7,000. The award amount for subsequent years is contingent upon funding being appropriated from the Wisconsin State Legislature, and is subject to change. Out-of-state students who receive AOP awards are also eligible for a remission of the nonresident portion of tuition costs for the time period of the award.

Additional information and application forms are available by contacting the Office of the Assistant Vice Chancellor for Academic Support Services, 226 McCutchan Hall, UW-Whitewater, Whitewater, WI 53190-1790. Telephone 262-472-4985.

LEADERSHIP AND MILITARY SCIENCE EDUCATION

Qualified graduate students who are interested in acquiring valuable credentials, financial assistance and career choices should consider enrolling in the Reserve Officers' Training Corps (ROTC) program. The two year program leads to a commission and possible service to the Nation in either the US Army, National Guard or Army Reserves. The courses studied also provide students with the credentials and specialized leadership expertise to be a successful supervisor, manager or administrator and is universally applicable across a broad spectrum of professions. Applications are available from the Department of Leadership, Military Science, and Aerospace Studies, Room 111, Salisbury Hall.

AEROSPACE STUDIES EDUCATION

Graduate students who are interested in pursuing a commission as a second lieutenant in the United States Air Force, while accumulating valuable leadership and management experience should consider participating in the Air Force ROTC program. Air Force officers are employed in a wide range of fields, including flying, logistics, services, medical and advanced technology. The program generally had enough flexibility to accommodate any qualified applicant with at least 2-1/2 years of school remaining. Contact the Department of Leadership, Military Science and Aerospace Studies for more information.

CONTINUING EDUCATION

Approximately twenty percent of the students at UW-Whitewater are 25 years of age or older and are enrolled as full or part-time students in on-campus or off-campus classes. This large group of adults is served by the Office of Continuing Education through the various programs and services described below.
CREDIT OUTREACH: Off-campus courses are offered in many communities in southeastern Wisconsin in response to requests received by the Credit Outreach Office and on the basis of survey results. Credit granted by UW-Whitewater for off-campus courses is fully accredited. Students enrolling in off-campus courses are responsible for making certain that such courses meet the requirements of the curriculum in which they are enrolled. If there is a question about a particular course, students should contact the academic adviser or the chairperson of their major department or emphasis area. For an off-campus timetable or additional information about the Credit Outreach Program call 262-472-1100.

CORRESPONDENCE COURSES
(Independent Study): UW-Whitewater does not offer correspondence courses but accepts correspondence course credits offered by the University of Wisconsin-Extension. Students should contact the Admissions Office at 262-472-1440 to determine how correspondence courses will transfer into their programs. Correspondence Course/Independent Study catalogs are available by calling the Credit Outreach Office at 262-472-1100.

TRAVEL STUDY PROGRAMS: These travel programs, are usually short sessions (2-4 weeks in length) and are directed by members of the University faculty & staff. In most cases, credit may be earned. Academic requirements may include pre- and post seminars, preliminary study, class work during the tour, and/or subsequent assignments. For information on travel study programs call 262-472-1003.

SUMMER SESSION: A twelve-week Summer Session is offered each year with numerous courses and programs of shorter duration. Students may take up to 12 credits during the twelve-week session. Coursework in excess of this maximum load must be approved by the dean of the college of the student's major. For a timetable or information about summer session call 262-472-1100.

NON-CREDIT ACTIVITIES CONFERENCES, SUMMER CAMPS, WORKSHOPS AND COMMUNITY OUTREACH: The University has an active non-credit program schedule. Campus facilities can house and feed up to 3,700 persons, depending upon the time of the year. Part of the outreach mission deals with meeting the interests of students and residents of Whitewater and the surrounding communities in southeastern Wisconsin. For information on upcoming programs call 262-472-3165.

DISTANCE EDUCATION

As an alternative to face-to-face instruction in the traditional classroom, students may be able to participate in courses at off-campus sites using one or more of the following
technologies: 1) the Educational Teleconference Network (ETN), a dedicated interactive audio network with 90-100 sites statewide; 2) WisLine, an audio conference calling service using standard phone lines linking sites anywhere in the state or the world; 3) WisView audiographics, a network combining audioconferencing and computer graphics with sites available at most two-year and four-year UW institutions; and 4) Compressed digital video, a UW System interactive video network with sites at all four-year UW institutions.

UW-Whitewater offers a limited number of online courses, primarily at the graduate level. Students need Internet access and a web browser to participate. Hardware and software requirements may vary.

UW-Whitewater distance education courses are listed in our own Outreach Timetable and in the Catalog of Distance Learning, a UW-Extension publication listing all of the distance education courses offered by UW System institutions. Both of these publications are available by calling the Office of Graduate Studies & Continuing Education, Roseman 2010, at 262-472-1100 or 1-800-621-5376.

**UNIVERSITY DEGREE REQUIREMENTS**

To earn a baccalaureate degree from UW-Whitewater, students must successfully complete the following minimum requirements:

1. Proficiency
2. General Education
3. Diversity
4. College or degree or licensure (or a combination thereof)
5. Major with a 2.00 GPA
6. Writing Proficiency in the major
7. Minor with a 2.00 GPA (a minor is mandatory for some major/degree programs and optional for others)
8. One hundred twenty (120) credits
9. A UW-W cumulative GPA of 2.00 on a 4.00 system

It should be noted that several degree/major/minor programs require a GPA higher than 2.00 for admission, retention and graduation. A combined UW-W and transfer GPA may be used to determine the minimum standard for some programs.
Students may earn an Associate of Arts degree by successfully completing a minimum of 60 credits, including proficiency requirements, general education and breadth, specific course, and diversity requirements with a 2.00 UW-W cumulative GPA.

GENERAL EDUCATION AND DIVERSITY REQUIREMENTS

PHILOSOPHY OF GENERAL EDUCATION

General Education is the foundation for all university degrees. It gives breadth and balance to a university degree and defines an educated person. General Education: 1) provides students with the skills and proficiencies needed to succeed academically; 2) exposes students to core knowledge and concepts of the Arts, Humanities, Mathematics, and Natural and Social Sciences; 3) provides a diversity of viewpoints, ensuring that students gain familiarity with the art, literature, philosophy, and institutions of our own and other cultures; 4) hones the students' thinking and communication skills as they confront the complex issues of historical and contemporary times and attempt to understand trends and problems; and 5) encourages students to cultivate new interests so as to engage in lifelong learning.

Education for the professions needs to be built upon this base. University graduates need to see the social and historical context of their chosen profession, so they will understand the reciprocal interaction of profession, society, and daily lives. Career opportunities now and in the future will require individuals who can actively respond to changing work environments, continue to learn and grow, and work cooperatively with people of diverse backgrounds. The broad exposure provided by the general education program facilitates informed career decisions in college and better equips individuals to respond to evolving personal aspirations and changing career opportunities.

GOALS OF GENERAL EDUCATION

The goals of general education are to enable students to:

1. Think critically and analytically, integrate and synthesize knowledge, and draw conclusions from complex information.
2. Make sound ethical and value judgments based on the development of a personal value system, on an understanding of the cultural heritage students share, and a knowledge of past successes, failures, and consequences of individual roles and societal choices.
3. Understand and appreciate the cultures of the U.S.A. and other countries, both contemporary and historical, appreciate cultural diversity, and live responsibly in an interdependent world.
4. Acquire a base of knowledge common to educated persons, the capacity to expand that base over their lifetime by understanding the way that knowledge is generated, organized, tested, and modified, while recognizing the past and current limits to understanding.

5. Communicate effectively in written, oral, and symbolic form with an appreciation of aesthetic and logical considerations in conveying ideas.

6. Understand the natural and physical world, the process by which scientific concepts are developed, tested, and modified, and the reliability and limitations of scientific knowledge.

7. Appreciate the importance of the fine and performing arts.

8. Develop the mathematical and quantitative skills necessary for calculation, analysis, and problem solving and the ability to use a computer when appropriate.

9. Understand the factors and habits that are essential for continual mental and physical health and well being, and evaluate the information and advice offered on these topics.

Students are required to complete the General Education and Diversity Requirements as part of the requirements for graduation. The letter "G" appearing after the course title identifies the course as one that can be used in satisfying the University General Education requirement. The second letter following the "G" identifies the category within General Education in which the course applies. Diversity courses are identified with the appropriate term after the course title.

General Education courses used to satisfy major, minor or curricular requirements are subject to any specific college restrictions on their use for these requirements as detailed in this Catalog.

Students with a strong high school preparation in a given subject area are urged to elect either an advanced course in that area (with departmental approval) or an introductory course in some other area when selecting General Education courses.

The General Education program that went into effect for the Fall 1994 Semester is required for all new freshmen entering UW-Whitewater for the first time in Fall 1994 or later. Transfer students for Fall 1996 or later will be held to these requirements.

**GENERAL EDUCATION DISTRIBUTION REQUIREMENTS:** 50 credits. No more than two courses from any one discipline may be counted in Electives (area 6). If Developmental Studies courses English 090 and/or Math 040, 041 are required, they must be completed before enrolling in the related General Education course. This restriction does not apply to foreign language. Retroactive foreign language credits do not count in General Education.
1. Communication Skills (9 credits including waivers)
   a. English 680-101 (or waiver) (Proficiency)
   b. English 680-102 (Proficiency)
   c. Speech 166-110 (or waiver) (Proficiency)

   e. 0-9 credits in Ethnic/Women's Studies courses designated GE (Elected from Race and Ethnic Cultures or Women's Studies)
   f. 0-1 credit from Physical Education courses designated GP

**DIVERSITY:** One 3-credit diversity course is required for graduation. Approved courses are identified in the Diversity section following the General Education courses. These courses may also be used to satisfy requirements in other areas,
including General Education. If approved for General Education, a diversity course may be used for the general education distribution requirements.

**WRITING PROFICIENCY:** Students must demonstrate writing proficiency in their major. The department of the major determines the requirement which may be a course within the degree or major requirements, a specified course outside the major, or a writing sample evaluated by the faculty. Check with the chairperson of the major for details. Students pursuing a double major must complete the writing proficiency for only one of the two majors.

**COMPLETION OF REMEDIAL REQUIREMENTS:** Students who are required to take remedial English or Mathematics courses must complete them in their first 30 credits.

**COMPLETION OF PROFICIENCY REQUIREMENTS:** Students should complete the University Proficiency requirements prior to the completion of 60 credits toward graduation.

Students who transfer to UW-Whitewater with 60 or more credits toward graduation should complete the course(s) within their first semester here.

**WAIVER OF SPEECH:** 166-110 is granted upon successfully fulfilling the following two requirements which can be attempted only once by each student:

1. Written Examination

Contact the Testing Center (472-5613) and arrange to take the speech waiver exam during the first two weeks of classes. Results of said exam will be posted at Heide 465 during the following week. A score of 80% correct is required to pass the written examination.

2. Speaking Requirement

After selecting a topic supplied by the speech department, the student will have a minimum of three days to prepare a 5-7 minute persuasive speech. Three members of the speech department will evaluate this speech. If it is decided that the speech is 'B' or better, the student will be waived from Speech 110. Results will be posted the following day at Heide 465.

**ENGLISH AND MATHEMATICS COURSE PLACEMENT**
All students are required to take an ACT or SAT I test. At UW-Whitewater, English and/or Math course placement is based on ACT/SAT I sub scores:

Students who took ACT tests prior to September 1989 should contact the Testing Center for an interpretation of their scores.

Students who are waived from Mathematics 141, English 101 and/or Speech 110 have satisfied that General Education proficiency requirement.

Students may not take for credit any course for which they have received a waiver, nor may they take for credit any course in the same department that is a prerequisite for a course that has been waived (e.g., if a student has been waived from Math 143, he may not take Math 141 for credit).

Waiver of any course does not reduce the total number of credits required for graduation.

**GENERAL EDUCATION COURSES**

The following courses have been approved by the University Curriculum Committee for inclusion in General Education. Changes to this list can occur at any time. A course must be identified as General Education for the term in which it is successfully completed for it to satisfy the requirement. The numbers in () indicate credit levels other than three credits. Some of these courses also satisfy the diversity requirement (reference the diversity courses which follow).

ACADEMIC PROGRAM ARRAY

The complete array of all undergraduate programs available at this university is listed on these pages. Each degree is composed of a package of courses which include the General Education, the specific College degree requirements, writing competency, diversity, the major requirements, the minor requirements (when necessary) and any other unique requirements specific to each major. A minimum of 120 credits is required although some programs require more than the minimum and each program has a designated minimum grade point average requirement. To graduate a 2.0 ("C") UW-Whitewater cumulative grade point average is required as well as a 2.0 combined GPA in the major and the minor; however, many programs require higher grade point averages for admission to and graduation from the program. Each of these is detailed in the college and department sections.

ACADEMIC YEAR REQUIREMENTS

Students are responsible for meeting all degree requirements in effect at the University of Wisconsin-Whitewater at the time of the declaration of their current major unless they interrupt their attendance at Whitewater by an absence of four or more consecutive academic terms (including Summer School), in which case upon re-entry they will be subject to the requirements in effect at that time.
Therefore, as students enter the University, an academic year is assigned to their record. They will be held to that set of degree requirements for graduation unless they change majors. Although the University Catalog is published every two years, academic year requirements will be monitored on a year-by-year basis. Students entering the University for the first time in a Summer Session will be held to the requirements for the following academic year. New students registering for Fall Term will be held to the curricular changes approved the preceding academic year. If a department or college curricular change is made retroactive (due to unusual circumstances), the responsibility is then assumed by the unit making the change to notify all students affected by that change in a timely manner. Students have the option of requesting a more current set of academic requirements at any time by reporting to their advising location. However, it is not possible to satisfy an earlier set of requirements without permission from the dean of the college of the major. The academic year on students' records will be updated automatically as part of the change of major process. All subsequent APRs will reflect the later set of requirements, if the requirements have changed since initial entry into the University.

COURSE LISTINGS

Courses are listed numerically by subject area.

The Course Numbering System Key designates courses by six digits. The first three numbers refer to an internal university numbering system that designates the department/subject area and subdiscipline within that area. The second set of three
numbers refer to the specific course within the subject area. The department numbers may be replaced during the two-year period this catalog is in effect. In anticipation of this change, the conversion from a department number to an alphabetic truncated name is provided prior to each department listing of course descriptions. For example, in the designation 150-143, the 150 refers to the subject area, Music, and 143 refers to the specific course, Survey of American Jazz.

In any reference to a specific course, the full set of six numbers should always be used.

Course numbers 000-099 are courses that carry no credit towards the degree requirements; courses numbered 100-299 are lower division courses. Courses numbered 300-499 are upper division courses which may be dual listed as 500-699 for graduate credit. It is recommended that entering freshmen not enroll in any of these courses without specific department approval. Courses at the 700 level are open only to graduate students.

A course number may occasionally have a letter suffix to designate that it is open only to students with a specific educational background preparation.

The letter "G" appearing after the course title identifies the course as one that can be used in satisfying the University General Education requirement. The second letter following the "G" identifies the category within General Education in which the course applies. Proficiency and diversity courses are identified with the appropriate symbol after the course title.

**SPECIAL COURSES**

These courses are available on a selected basis through most of the academic departments. The course descriptions are common to all departments. However, the prerequisites and the number of credits permitted in certain programs may differ. Note the limitation of credits for degree/programs identified in the Bulletin.

**490 WORKSHOP**

Group activity oriented presentations emphasizing "hands on" and participatory instructional techniques. Workshops have as their primary goal the imparting of either a specialized knowledge base regarding an instructional strategy or method or a specific skill. Presentations which are more broadly based in content or which emphasize intensive study and/or research procedures are not to be offered under a workshop number or title.
491 TRAVEL STUDY

A planned and directed group excursion involving extensive academically-focused travel, usually conducted in a foreign country.

494 SEMINAR

Group activity. An advanced course of study in a defined subject matter area emphasizing a small group in intense study with a faculty member.

496 SPECIAL STUDIES

Group activity. Not offered regularly in the curriculum but offered on topics selected on the basis of timeliness, need, and interest, and generally in the format of regularly scheduled Catalog offerings.

498 INDEPENDENT STUDY

Individual activity in an area of special interest for a variable number of credits under the sponsorship and guidance of a faculty member.

Requisites:

Coreq: - Corequisite - A course which must be completed prior to, or concurrent with, registration for the specified course.

Coreq link: - Corequisite Link - A course which must be taken in the same term as the specified course. Registration will not be completed unless both are requested.

Prereq: - Prerequisite - A requirement that must be satisfied before registering for the course.

Unreq: - Unrequisite - A course for which credit cannot be earned because the content overlaps with the specified course.

yr - year
Some courses carry different credits at the undergraduate and graduate levels. In those cases the undergraduate credits are listed first followed by the graduate credit in parenthesis, e.g. 3 cr. (2 cr.)

Information about auxiliary aids and academic course adjustments for qualified disabled individuals are available through the department chairperson.

**SUBJECT AREA NUMBERING SYSTEM**

The first three numbers of the course designate both the department involved and any subdiscipline subject area within the department. Because students will need to refer to courses by subject area, the numbering system is listed below, first alphabetically by subject area, and then numerically.

The 100 series represent work in the College of Arts and Communication; the 200 series the College of Business and Economics; the 400-500 series the College of Education; the 600-800 series the College of Letters and Sciences; the 900 series interdisciplinary courses.

The College of Arts and Communication offers opportunities for expanding creative talents and aesthetic awareness, and for developing communication skills and understanding of the mass media in today's society. Students in the College acquire these skills and understandings through course work and participation in varied college activities.
Students are invited to attend plays, concerts, and exhibits, to audition for roles in the theatre productions, to participate in musical ensembles and to gain first-hand experience in areas of radio, television, film and print media. Many opportunities are available to volunteer and gain valuable experience. Involvement in the arts and communication fields will enrich the total college life.

If students choose to take courses in the arts and communication, they will be encouraged to discover and develop their talents. Their work with faculty will enable them to reach creative and analytical goals and to develop the perceptions, production skills and reflective dispositions which characterize professionals in their chosen discipline. Students in the College find a wide range of possibilities for participation in addition to opportunities to specialize in areas of particular interest. The production studios, rehearsal rooms, stages and media labs are busy and congenial places at all hours.

Students in Communication make use of a number of facilities and programs. Cable 6, the on-campus TV station, provides opportunities for experience in television production, direction and performance. Radio broadcasting facilities are available at WSUW, the campus radio station. The Journalism program offers opportunities to work on the Royal Purple, the student newspaper, as well as several computer labs, and a journalism reading room. Students in Art, Music, Theatre and Dance take advantage of the facilities in the Center of the Arts, including carefully designed and fully equipped studios, computer labs, shops and rehearsal rooms for artists, dancers, musicians, actors and theatre technicians. The Crossman Gallery, the Barnett and Hicklin Studio Theatres, and the Recital Hall provide beautiful settings for students' exhibitions, theatre performances, dances, or music concerts. A number of interdisciplinary programs allow students in the college to interact and collaborate on professional projects. The adjacent new Young Auditorium is an acoustically excellent performance facility with 1300 seats.

PROGRAMS IN ARTS AND COMMUNICATION

Students may prepare for a variety of careers through majoring or minoring in arts and communication, either preparing to be a practicing artist or communicator or in using those talents and skills in a variety of settings in business, education, non-profit organizations, the media, government, and other areas. Majors are available in: art (studio, graphics, art history), art education, journalism (print, broadcast and advertising), music, music education, speech communication (public relations, electronic media, organizational and public communication), and theatre, and theatre education. For students whose career preparation cannot be met in a single department in the college, an individually designed major or minor is available. Other minors are: advertising, art, art history, art studio, arts management, dance, journalism, music,
public relations, speech communication, speech elementary, speech secondary, and theatre.

Students are encouraged to work closely with their adviser to make the best choices for their personal and career goals from the wide array of course possibilities available. Graduates from the college have an excellent placement rate, moving into employment opportunities that use their well-developed talents and skills.

**DEPARTMENTAL ORGANIZATIONS AND ACTIVITIES**

The departments of the College sponsor a wide variety of organizations and activities in which students participate.

**ART**

The Student Art Association provides both professional and social activities for its members. Membership is open to all students enrolled in art or art education programs.

The Student Design Association, organized in 1992, accommodates the professional interests of students in the graphic design field. The organization sponsors opportunities to interact with professionals in graphic design and provides a forum for students to discuss techniques and skills involved in the design process.

**COMMUNICATION**

UW-W's student chapter of the National Broadcasting Society (AERho) is dedicated to providing pre-professional experience and contact with broadcast and cable industry professionals.

The Public Relations Student Society of America (PRSSA) is the student organization specifically for public relations students. The organization provides students with opportunities to use their writing and speaking skills, to build their leadership skills, to network with professionals, to attend workshops and conferences, to compete in case studies, and to make new friends.

The Royal Purple, an independent student newspaper, offers student journalists opportunities in writing, editing, sales, photography, layout, and management.

The University-Community Chorus is a large choir dedicated to performing the great choral masterworks. At least one concert is performed each semester. Membership is open to singers from campus and community. Auditions are not required.
The Women's Chorale performs choral works written for female voices. It is open to singers by auditions held at the first of each term. Concerts are given several times a year on campus.

Class Act, the jazz/show choir, sings many styles of popular music in concerts both on and off campus. It is open to all students by audition.

Instrumental ensembles give instrumentalists an opportunity to perform a wide variety of ensemble literature and are open to all students by audition. Ensembles include Jazz Combos, Brass Choir, Flute Choir, Clarinet Choir, and Percussion Ensemble. Small instrumental chamber music groups are also formed each year.

THEATRE AND DANCE

The Department of Theatre/Dance presents an extensive program of one-act and full-length plays directed by students in addition to the four mainstage productions directed by the faculty during the academic year. All University students are eligible for participation in acting, makeup, costuming, lighting, sound, stagecraft, and theatre management. Students are urged to note announcements for tryouts.

The University Players offer extracurricular experience in theatre and fellowship for all students interested in theatre production. Members direct student productions and studio performances.

Summer Theatre: The Department of Theatre/Dance produces three plays in June, and July "in the round" in the Center of the Arts. All students and interested persons in the community are invited to tryout for roles or to participate in other aspects of production. Participants may earn from 1 to 6 credits by enrolling in the appropriate practicum course.

Children's Theatre/Touring Theatre: A play designed for children and family audiences is toured annually to elementary schools and public theatres in Wisconsin and northern Illinois.

Contemporary Dance: The annual dance concert is open to all students who demonstrate proficiency in dance. Men and women are invited to audition. It is presented each spring, featuring student performers and choreography by both faculty and students.

PROFESSIONAL FRATERNITIES
Delta Omicron: A professional fraternity for women and a charter member of the Professional Panhellenic Association, Delta Omicron's membership is made up of music majors interested in service to the musical community. Members usher for all activities sponsored by the Music Department and present at least one recital each year. Pledges are accepted in the spring and the fall, with scholarship and musicianship as the main requirements.

Phi Mu Alpha Sinfonia: This professional music fraternity for men was established on this campus in December 1966. Its purpose is to promote musical performance and wide participation in all types of worthwhile musical activity. It is open to all men on the campus who show an active interest in music.

The University-Community Chorus is a large choir dedicated to performing the great choral masterworks. At least one concert is performed each semester. Membership is open to singers from campus and community. Auditions are not required.

The Women's Chorale performs choral works written for female voices. It is open to singers by auditions held at the first of each term. Concerts are given several times a year on campus.

Its purpose is to promote musical performance and wide participation in all types of worthwhile musical activity. It is open to all men on the campus who show an active interest in music.

Society for Professional Journalists provides opportunities for interacting with practicing journalists and being introduced to the issues which the media confront.

Advertising Development Society provides opportunities for advertising majors and minors to explore the advertising profession and interact with professionals in the field.

Wisconsin Alpha Chapter of the National Association of Parliamentarians is the first student chapter recognized by the NAP. It provides service opportunities and further parliamentary training.

Society of Organizational Communication was organized to provide a forum for students interested in organizational communication.

MUSIC
The campus chapter of the Collegiate Music Educators National Conference (CMENC) is composed of music majors and minors interested in music education.

The International Association of Jazz Educators (IAJE) promotes the appreciation of jazz and its artistic performance, helps organize jazz curricula in schools, and fosters the application of jazz principles at all levels of education. Membership is open to any student interested in jazz.

The Symphonic Wind Ensemble plays the finest wind/percussion literature representing all musical periods and is open by audition to qualified students. The Symphonic Wind Ensemble annually tours in the spring and makes several appearances on campus.

The Concert Band plays a wide variety of band music and performs several concerts during the spring term. It is open to all students with previous band experience.

The Warhawk Marching Band provides entertainment for all home football games and performs at major professional sporting events in the state. It is open to all students with either instrumental or flag corps experience.

The Basketball Pep Band performs at home basketball games and is open to all university students.

The Jazz Bands give instrumentalists an opportunity to rehearse and perform the various styles of jazz band repertoire, and are open to all qualified students by audition.

The Concert Choir is a select group of mixed voices open by audition to qualified students. This group performs both traditional and contemporary literature, appearing in several concerts each year.

Chamber Singers is a highly selective mixed ensemble specializing in works for small choral ensemble including motets, madrigals, chansons, and part songs from all eras of music. The group does performance tours each spring term.

The Whitewater Symphony Orchestra performs literature for string orchestra and full orchestra. The orchestra makes several appearances on campus each year and performs with university choral groups and during the annual opera/musical production. It is open to all qualified students by audition.
Tau Phi Lambda: Membership in this organization is open to all students interested in music, regardless of their major. Members engage in various service projects and social functions.

Theta Alpha Phi: Wisconsin Delta chapter of this national honorary dramatic fraternity was installed at Whitewater in May 1950. Membership is earned through participation in all phases of theatrical production and evidence of a continuing interest in theatre.

Zeta Phi Eta: A national professional fraternity in Communication Arts and Sciences.

COLLEGE DEGREE REQUIREMENTS

BACHELOR OF ARTS (BA)
BACHELOR OF FINE ARTS (BFA)
BACHELOR OF MUSIC (BM)
BACHELOR OF SCIENCE (BS)

Students may earn a Bachelor of Arts, a Bachelor of Fine Arts, a Bachelor of Music or a Bachelor of Science from the College of Arts and Communication. Successful completion of a minimum of one hundred twenty (120) credits in the following areas is required:

College Degree Requirements

All new freshmen entering the Summer of 1994 or later and all transfer students entering the Summer of 1996 forward must complete the following degree requirements in addition to Proficiency, General Education, Diversity, and Writing:

BA Degree

All students must complete at least 2 Arts (GA) credits outside their major department in the college in addition to the 3-credit World of the Arts course (900-110). It is advisable to first take The World of the Arts course. They must also complete a minimum of 6 Humanities (GH) credits in addition to U.S. in a World Context (900-120) and World of Ideas (900-390).

Transfer students with an Associate Degree who are candidates for the Bachelor of Arts Degree in the College of Arts and Communication must have a minimum of twelve credits in Humanities. Majors in Art, Music, and Theatre must also complete at least 70 credits outside of their major.
BFA and BM Degrees

All students must complete at least 2 Arts (GA) credits outside their department in the college in addition to the 3-credit World of the Arts course (900-110). It is advisable to first take The World of the Arts core course.

Transfer students with an Associate Degree who are candidates for the Bachelor of Fine Arts Degree and the Bachelor of Music Degree in the College of Arts and Communication must have a minimum of at least four credits in the arts for areas outside of their major.

BS Degree

Students must complete at least 6 credits in Natural Sciences/Mathematics (GL/M) in addition to a 5-credit Laboratory Science course and Science and Technology in Society (900-150).

Transfer students with an Associate Degree who are candidates for the Bachelor of Science Degree in the College of Arts and Communication must have at least 14 credits in Science and Math.

Major 34-75 credits:

The number of credits required for a major varies with the different departments and the particular major desired. Consult the following sections of this bulletin devoted to departmental major offerings.

Minor 22-24 credits:

Requirements for a minor vary with the different departments and with the minor desired. The College of Arts and Communication accepts most University minors including the Professional Minor in Business Studies. A minor is not required with a major of 54 or more credits. Consult the following departmental sections for these offerings.

Writing Proficiency in Major: This requirement is determined by each department.

General Electives

For the remainder of the 120 credits, students will be free to plan with their adviser a program best suited to their needs and interests. If they meet the prerequisites stated
by the respective departments, they are free to choose elective courses from any college in the university.

To be eligible to graduate as an Art, Music, or Theatre major, students must have a minimum grade point of 2.5 in the upper level courses within their major.

To be eligible to graduate as a Theatre BFA major, students must have a minimum GPA of 2.75 in the major and a 2.50 overall GPA.

A 2.00 cumulative GPA is required to declare the Speech major. A minimum 2.25 GPA is required in the major for graduation. The major GPA is based upon both the grades for courses completed at UW-W and those for courses accepted in transfer. Transfer students need a transfer 2.00 GPA to declare the major. To be eligible to graduate as a Journalism major, students must have a grade point of 2.00.

**INTERDEPARTMENTAL ARTS MANAGEMENT MINOR**

The Arts Management minor is not meant to be completely comprehensive, but rather a complement to other arts coursework that provides enough exposure at an early state to assist students in choosing a career in arts administration.

**MINOR - 24 CREDITS**

1. THTR 100-363 and 100-364
2. ACTG 210-244 and MKTG 260-311
3. SELECT 8 CREDITS FROM 1 OF THESE 2 GROUPS:
   a. A&C 100-361 AND 100-362 AND 4 CREDITS FROM A&C 100-200 AND 100-493
   b. MGNT 250-387 AND 5 CREDITS FROM A&C 100-200 AND 100-493

**INDIVIDUALLY DESIGNED MAJOR**

This major is designed to permit students to focus their study on a topic or problem area which falls outside the limits of a conventional major. Since each major is individualized, what is deemed appropriate for one student may be deemed inappropriate for another. The purpose of the major is to accommodate an integration
of the courses and programs not offered by the University; it is not a means of forming special majors or degrees which the University is not authorized to offer. The Individually Designed Major, leading to the Bachelor of Arts degree, must consist of a coherent pattern of approved courses taken in more than one department.

**INDIVIDUALLY DESIGNED MAJOR WITH A MINOR (BA)**

A grade point average of 2.5 is needed for admission to the program. A grade point average of 3.0 in the major is required for graduation.

**OPTION I**

**MAJOR - 36 CREDITS**

1. SELECT 36 CREDITS IN CONSULTATION WITH YOUR ADVISER. INCLUDE NO MORE THAN 24 CREDITS FROM ANY ONE DEPARTMENT. AN APPROVED MINOR IS REQUIRED FOR THIS MAJOR

**OPTION II**

**MAJOR - 54 CREDITS**

1. SELECT 54 CREDITS IN CONSULTATION WITH YOUR ADVISER. INCLUDE NO MORE THAN 24 CREDITS FROM ANY ONE DEPARTMENT. NO MINOR IS REQUIRED FOR THIS MAJOR

Writing Proficiency Requirement: Consult adviser (ENGL 680-370 recommended)

Electives bring the total to a minimum of 120 credits. In either Option I or II of the Individually Designed Major students will choose as an adviser a faculty member whose competence is in the area of their interest. Together with the adviser they will plan the major and submit in writing to the College Individualized Major/Minor Committee for its approval a proposed list of courses, a schedule plan and a statement of the rationale and goals of the major program. The major should be approved, with the possibility of subsequent amendment, no later than the end of the sophomore year. Any later approval may result in additional terms of study. The program must be planned and approved in advance of admission to the major. Any changes in the major at a later date will require written permission from the Individualized Major/Minor Committee.

Under either Option I or II students may count at most 24 credits from any one department for fulfillment of total degree requirements.
The Individualized Major/Minor Committee will carefully review student proposed courses to assure a reasonable depth of study beyond the general survey level. One-half of the credits earned for the major must be taken within the College of Arts and Communication. A concentration of course work within the College of Arts and Communication will meet the needs of students interested in interdisciplinary fine arts studies and those wishing to combine fine arts courses with a combination of any other college's courses. Primary supervision of the major rests with the Individualized Major/Minor Committee.

INDIVIDUALIZED MINOR

If students have definite educational goals which cannot be met by any of the existing minors, they may design an individualized minor consisting of at least 24 credits in areas related to their clearly stated goals, and the courses included in the minor should be related to those goals. However, these courses do not have to be in areas related to the major. Each minor is approached on an individual student basis. Students may complete at most one individualized minor.

MINOR - 24 CREDITS

1. SELECT 24 CREDITS IN CONSULTATION WITH YOUR ADVISER. COURSES MUST BE OUTSIDE YOUR MAJOR AREA.

A statement of the content, nature and rationale of the proposed individualized minor must be approved by the major department. If fifteen or more credits of the minor are to be taken in any one department of the College of Arts and Communication, the proposed minor shall be approved by that department as well as the major department. Further, the proposed minor shall be sent to the Office of the Associate Dean of the College of Arts and Communication for the Dean's referral to the College Individualized Major/Minor Committee for its approval.

The minor should be prepared early in the students' college career, preferably before the junior year. At least 12 credits of the courses proposed for the minor must be earned after the plan is approved. Any subsequent changes in the minor must be approved by the Individualized Major/Minor Committee.

The responsibility for certifying that students have met the requirements of their minor rests with the Associate Dean of the College of Arts and Communication.

AUDIO STUDIES MODULE
An opportunity for students with an interest in audio technology to develop a strong base in audio theory while also garnering experience in sound reinforcement, broadcast production, multi-media and two- and multi-track music recording. Using an interdisciplinary focus, courses are taken from the communication, music and physics departments. Audio practica are scheduled at WSUS-FM, at the Young Auditorium, the Music and Theatre/Dance Departments and the University Center.

DEPARTMENT OF ART

Phone: 262-472-1324
E-Mail: art@uwwvax.uww.edu

Faculty: Professors Janet Anderson, Amy Arntson, Karl Borgeson, Lynn Courtenay, William Chandler, Denis Dale, Michael Flanagan (Gallery Director), Lawrence Harrison, Robert Mertens (Chairperson), Susan Messer, Karen-Sam Norgard, Charles Olson, Linda Threadgill, John Wickenberg.

Housed in one of the best facilities in the state, the Art Department offers a wide range of courses in four primary areas: Fine Arts, Graphic Design, Art Education and Art History.

Emphasis is placed on developing your individual skills and interests under the guidance of dedicated artist-teachers of regional, national and international reputation.

Careers in art are as diverse as the programs offered: in Graphic Design as illustrators, designers, art directors and in computer related fields; in teaching art and art history at various levels; in museum and gallery work; and in studio production fine arts areas of drawing, painting, sculpture, ceramics, printmaking, jewelry, and photography.

ART DEPARTMENT STIPULATIONS

1. Each graduating senior is required to make an application for a senior show during the term prior to the anticipated term of graduation. Students are required to have faculty approval of their show portfolio by midterm of the term of graduation. Failure to meet these requirements may delay graduation.

2. BFA candidates will furnish the Department five good quality slides that are representative of their art production. These will be kept as a record in the slide library of the college.
3. Art majors are advised to meet the General Education requirements in the Arts by electing a course in an area other than Art. 110-121, 110-180 and 115-111 cannot be used for any major program in Art. (See General Studies)
4. Art majors must meet all College of Arts and Communication requirements for graduation.
5. Art education programs lead to licensure for teaching grades K-12. For Bachelor of Science in Education program, see requirements for admission to College of Education. All Art students seeking licensure are advised to consult the Supervisor of Directed Teaching immediately for guidance in building their program.

JOURNALISM

The journalism program is geared to today's journalism, preparing graduates to work in the many modern communication media as reporters, editors, news photographers, advertising representatives, radio and television news personnel, or in public relations. As a journalist you can be where events are happening, communicating information on important issues and current events. How well you do your job will depend on a number of factors; a strong educational background is perhaps the most important.

The journalism program offers majors and minors in the College of Arts and Communication for students wishing to enter some phase of professional journalism, and in the College of Education for those wishing to teach high school journalism. Both programs are grounded strongly in liberal arts courses.

SPEECH

Speech communication focuses upon how, why, and with what effects people communicate through verbal and nonverbal messages. Students of speech communication develop understanding and skill in communication processes as they occur within and among individuals, groups, organizations, and cultures. Graduates are active in sales, public relations, advertising, customer relations, personnel, broadcasting, filmmaking, high school and college teaching, volunteer agencies and fund raising, law and communication and consultation in business, industry, and government. Speech communication graduates can enter a variety of careers because the competencies they acquire have broad application.

MAJOR/EMPHASES

A 2.00 cumulative GPA is required to declare the Speech major. A minimum 2.25 GPA is required in the major for graduation. The major GPA is based upon both the grades for courses completed at UW-W and those for courses accepted in transfer. Transfer students need a transfer 2.00 GPA to declare the major.

Applied activities in speech communication. Credit for activities may be earned in radio (166-230) or Cable TV (166-231, 166-331). A maximum of 6 credits thus earned will count toward the 120 credits necessary for graduation. Four of the 6 credits from speech communication activities may count toward the 36 or 37 credits necessary for the major. Two credits may count toward the 22 credit minors in elementary and secondary education (see the activities specified in the requirements for the minor). Activity credits may not be substituted for any required courses. Prereq: Permission of instructor.

DEPARTMENT OF MUSIC
Phone: 262-472-1310 800-621-8744
E-Mail: music@mail.uww.edu

Through its Bachelor of Music and Bachelor of Arts degree programs the Music Department offers its majors high-quality instruction and performance opportunities to prepare them for careers and/or advanced study in such areas as public school music teaching, performance, music theory or musicology, and studio teaching, as well as for the wide range of opportunities that exist in the music field. By completing a Minor in Music, students can gain not only personal satisfaction but knowledge and experience that can be of value as they pursue a chosen career.

The Department sponsors a variety of performing ensembles, which are open to all university students. Vocal groups include the Concert Choir, Chamber Singers, University Chorus, Women's Chorale, Class Act (jazz choir), and Opera Workshop. Instrumental groups include the Symphonic Wind Ensemble, University Orchestra, Concert Band, Marching Band, Jazz Ensembles, Brass Choir, Flute Choir, Clareinet Choir, Trombone Choir, Percussion Ensemble, and chamber groups. All provide rich and varied musical experiences and the opportunity to meet and perform with many talented musicians.

The UW-Whitewater Music Department is a fully accredited member of the National Association of Schools of Music. Prospective music majors should request application materials, audition requirements, and a schedule of audition dates from the department chairperson.

PROGRAM REQUIREMENTS AND DEPARTMENTAL POLICIES

Auditions

Students desiring to major in music must pass an audition in their primary performing area. If this cannot be completed before initial registration, music major status will be conditional pending a successful entrance audition. Music minors must pass an informal audition for a faculty member in their primary performing area in order to be accepted.

Waivers
Entering majors or minors may, through the Advanced Placement Examination, be waived from Music Theory I (Music 151). Total credits required for graduation, however, remain unchanged.

Other Requirements - Music Department Handbook

The Music Department Handbook contains important information which, due to space limitations, is not printed in the Catalog. Students are responsible for familiarizing themselves with its contents. The Handbook is updated as policies change or are added. All enrolled majors and minors-regardless of admission date-are bound by policies outlined in the most recent revision of this Handbook. This handbook may be found at http://academics.uww.edu/CAC/Music/Handbook. Students without on-line access may view a copy in the Music Department Office (CA 2038), or in the Arts Media Center (CA 16).

Applied Music Study: Terminology and Policies

The term "Primary Performing Area" refers to the student's main performing medium - the one in which he/she must pass an entrance audition in order to be accepted as a music major, will receive instruction, and will be expected to maintain satisfactory progress over the course of study. For applied study in the Primary Performing Area, courses are arranged by level (for example, 150-160, 150-260, 150-360, and 150-460, in the case of instrumental instruction), which normally correspond to the freshman through senior years of enrollment.

Ordinarily a music major will have only one Primary Performing Area and will not change that area during the course of study. If a change is desired, the student must reaudition in the new performing area, and if successful, would be placed at the first term freshmen level for lessons in the new area. This change must have the consent of a) the department chairperson, b) the appropriate applied music area coordinator(s), and c) the two applied music instructors involved.

All other applied music study (class or private, required or elective) is termed "Secondary" or "Non-Primary" study. In the case of private instruction, the course numbers 150-126, 150-127, 150-128, 150-129, 150-326, 150-327, and 150-329 apply to such secondary study.

Credits: For all private applied study, a half-hour of instruction per week will receive one credit, with a maximum of one hour of instruction for two or more credits. A minimum of five hours of individual practice per week are required for each credit taken.
Writing Proficiency Requirement

The papers written in Music History II (150-246) constitute the Music Department's Writing Proficiency Requirement. In order to pass this requirement, students must earn a combined grade of 81% or better. Students who receive a combined grade of 80% or less on the two papers will fail the Writing Requirement and must register for (and pass) English 680-370 - Advanced Composition before they may graduate.

MAJORS/EMPHASES

The Music Department offers two undergraduate major programs, the Bachelor of Arts (BA) and Bachelor of Music (BM). Five emphases are possible under the Bachelor of Music program: Music Performance, Music History-Theory, Choral Music Education, Instrumental Music Education, and General Music Education.

Major and related course requirements for the BA and each of the five emphases for the BM degree are listed below. Immediately following is a series of notes related to applied music study and other requirements for these programs.

NOTES

1. For BA (Music): Normally two terms each at the 100, 200, and 300 levels of primary applied instruction are required. Based on entrance audition, up to two terms of non-primary private applied instruction may be counted toward the six terms required. BA students must pass the upper division jury before graduation.

2. For BM (Music Education Choral/Instrumental/General and History-Theory): Seven terms of private study in the primary performing area required - two
each at levels 100, 200, 300. One term at level 400 is required with an additional term of 150-488 (Senior Recital). Permission of the instructor is required to take more than one credit per term. Two terms at level 100 with a grade of "C" or better in each are required to pass to level 200. At levels 200 and 300 two terms with a grade of "B" or better are required to pass to the next level. A student failing to meet these standards may continue study one additional term. If at the end of that term, the grade requirement is not met, the student will be dropped as a music major. Credits so earned may be applied toward graduation but will not count toward the completion of the term requirement for study in the primary performing area. Prior to being admitted to level 300 students must be approved by the full instrumental, keyboard, or voice faculty jury for upper-division standing.

For specific information about senior recital requirements, refer to the music department handbook.

3. For BM (Music Education/Choral and Music Education/General): Class Piano 150-186, 150-187, and 150-188 may be used in satisfying this requirement. At the discretion of the keyboard faculty, students with prior background (or who make unusually rapid progress) may substitute 150-128 private piano instruction for any or all of these courses.

4. For BM (Music Education/Choral and Music Education/General): Completion of Class Voice I (150-177), in addition to three terms of 150-127 Private Vocal Instruction Non-Primary level 1 and three terms of 150-327 Non-Primary level 2, satisfies this requirement. At the discretion of the voice faculty, 150-127 may be substituted for Class Voice.
5. For BM (Music Education/Instrumental): Students whose primary performing area is a wind or percussion instrument must enroll for seven terms in either 150-161 (Wind Ensemble, Concert Band) 150-162 (University Orchestra), or 150-169 (Marching Band) with no fewer than three registrations of 150-169. Students whose primary performing area is a string instrument must enroll in seven terms of 150-162 (University Orchestra). Students whose primary performance area is guitar must have a specific ensemble plan of study (of seven terms) approved by the department chairperson and the instrumental faculty.

6. For BM (Music Performance): At each level a grade of "B" or better for two terms is required to pass to the next level. A student failing to meet these standards may continue study one additional term. If at the end of that term, the grade requirement is not met, the student will be dropped as a music major. Credits so earned may be applied toward graduation but will not count toward the completion of the requirement for study in the Primary Performing Area. With permission of the instructor, a student may elect up to four credits of private study per term. For specific information about junior and senior recital requirements, refer to the music department handbook.

7. For BM (Music Performance): Students whose primary performing area is a wind or percussion instrument must enroll for eight different terms of instrumental ensembles to be chosen from the following: Jazz Ensemble, University Orchestra, or Wind Ensemble, with no fewer than 4 terms of Orchestra and/or Wind Ensemble. Students whose primary performing area is a string instrument must enroll for eight terms of Orchestra. Students whose primary performing area is voice must enroll for eight different terms of Concert Choir, Chamber Singers or University Chorus. Students whose primary area is keyboard must enroll in 2 to 4 different terms of Vocal and Instrumental Accompanying (150-482) or Chamber Music (150-383). The remainder of the requirement may be fulfilled in large ensembles. Students whose primary performance area is guitar must have a specific ensemble plan of study (of eight terms) approved by the department chairperson and the instrumental faculty.

8. For BM (Music Education/Instrumental): Instrumental techniques to be selected from 150-165, 150-167, 150-168, 150-265, 150-267, 150-268, 150-365 and 150-368. Students are required to take all courses except the one containing their primary performing instrument.

9. For BA (Music): Students whose primary performing area is a wind or percussion instrument must enroll for four different terms of instrumental ensembles. Two terms of this requirement must be selected from University
Orchestra, Wind Ensemble, Concert Band, Jazz Ensembles, or Marching Band. Students who primary performing area is a string instrument must enroll for four terms of University Orchestra. Students whose primary performing area is voice must enroll for four different terms of Concert Choir, Chamber Singers, University Chorus, or Women's Chorale. Students whose primary performing area is keyboard must have a specific ensemble plan of study (of four terms) approved by the department chairperson and the keyboard faculty. Students whose primary performing area is guitar must have a specific ensemble plan of study (of four terms) approved by the department chairperson and the instrumental faculty.

10. For BM (History-Theory): Students whose primary performing area is wind, percussion or strings must enroll for six different terms of Wind Ensemble, Concert Band, or University Orchestra. Students whose primary performing area is voice must enroll for six different terms of Concert Choir Chamber Singers, or University Chorus. Students whose primary performing area is keyboard must have a specific ensemble plan of study (of six terms) approved by the department chairperson and the keyboard faculty. Students whose primary performance area is guitar must have a specific ensemble plan of study (of six terms) approved by the department chairperson and the instrumental faculty.

DEPARTMENT OF THEATRE/DANCE

Phone: 262-472-1566
E-Mail: thtrdnce@uwwvax.uww.edu

The creation of successful theatrical productions requires the knowledge, skills and talents of a number of artists, technicians and management/promotion specialists. With its outstanding, well-equipped theatre facilities, its highly-skilled and enthusiastic faculty, its comprehensive curriculum and its emphasis on practical experience, the UW-Whitewater Theatre/Dance department will provide you a number of opportunities to acquire the knowledge and experience necessary for a successful career in theatre/dance, or related areas of the arts, communications, education or business.
The department offers three degree programs: the Bachelor of Science in Theatre Education, the Bachelor of Arts in Theatre Art and the Bachelor of Fine Arts in Theatre.

The Bachelor of Science in Theatre Education program provides future teachers with a broad-based theatre education while providing additional training in the areas of theatre most critical to success in their future profession. In addition, Theatre Education majors follow the Education track which will fulfill teaching licensure requirements.

The Bachelor of Arts in Theatre is a liberal arts degree which offers the opportunity for broad-based exposure to all areas of theatre. The curriculum includes studies in acting, directing, technology, design, history/criticism, and management/promotion.

The Bachelor of Fine Arts in Theatre is a pre-professional degree program. It offers a broad-based core of theatre studies along with an individually designed course of study which focuses on a specific area of emphasis. Students in this program choose an emphasis course of study for intensive training in Performance, Design/Technology or Management/Promotion. The B.F.A. program does not require a minor, but admission and retention are based on acceptable auditions or portfolios and minimum GPA requirements.

Each program is geared toward your particular creative potentials and career aspirations.

Minor programs are also offered in theatre and dance. The dance minor provides in-depth training in contemporary (Modern) Ballet and Tap technique. The creative processes of Improvisation and choreography are studied, and students have opportunities to perform for the public each term. These programs are particularly appealing to students who are seeking an outlet for their creativity or who want to enhance their communication and practical problem-solving abilities. Theatre or dance minors can provide an effective complement for a number of different major programs in liberal arts, education or business.

All students of the University, regardless of their major or minor, are encouraged to participate in theatre and dance productions as a performer or as a member of the numerous technical crews or one of the management/promotion positions which are involved in the preparation of a theatre event for an audience. Anyone interested is encouraged to come to the Theatre/Dance office in 2076 Center of the Arts.

MISSION STATEMENT

The mission of the College of Business and Economics is to primarily provide quality undergraduate education serving career-oriented students. The College will also provide a quality graduate program built upon existing undergraduate programs of excellence. Continuing education for the region will be offered through quality credit and non-credit programs. The College will meet its mission under the guidance of a faculty committed to excellence in teaching and sustained scholarship. Education is broadly interpreted to include experiences in and outside the classroom.

THE PROGRAM

The College of Business and Economics attempts to provide you with the skills and knowledge which will allow you to succeed in a business administration profession. We stress a close faculty-student relationship and encourage student activities which will help you develop professional skills. You will have the opportunity to become involved in projects with business firms which will aid in this skill development. The programs of the College are based on a broad general education which provides you with a fundamental understanding of the society in which you live and work. College requirements develop your knowledge of the traditional functional area of business, the behavioral sciences, the management sciences and the systems approach to problem solving. Completion of the degree includes intensive study in a chosen major to prepare you for a career in the field of your choice.

The four-year program leading to the Bachelor of Business Administration degree is composed of four phases:

- Proficiency and general education.
• Lower division business requirements.

• Upper division business core requirements.

• Major.

ENROLLMENT LIMITATIONS

ADMISSION POLICY FOR THE COLLEGE OF BUSINESS AND ECONOMICS

All students interested in pursuing a business major must declare "Pre-Business" as the major. Pre-Business students are eligible to enroll in lower division business courses after they have completed twenty-four credits and possess at least a 2.50 combined grade point average. After a student completes fifty-four or more credits and has satisfactorily completed or is enrolled in 210-244, 210-249 or 210-341/342, 230-211, 230-212, 230-245 and 250-211 (765-162 and 765-171 for BBA MCS majors), the student may apply for admission to a major in the College of Business and Economics. All students with a 2.80 combined GPA or better would be admitted to a major in the College. A student whose combined GPA is less than 2.80 may be admitted based on an alternative formula. Application forms for admission to the College of Business and Economics are available at the Assistant Dean's Office and are completed during the required Pre-Business registration information meeting. A student who completes any business course without having met the requirements for a business major cannot become a business major after completing the course.

Budget, enrollment, or other factors may cause these standards to be altered by the College. Students who have questions concerning admission should contact the Assistant Dean of the College of Business and Economics.

Students must complete course work in residence at UW-Whitewater in at least six courses (18 credit minimum) in their major field. A maximum of two transfer courses will be allowed in any major in the BBA curriculum.

BBA students may not take any courses offered by the College of Business and Economics or any BBA degree requirements (unique/lower/upper) on a satisfactory/no credit (S/NC) basis except those offered on an S/NC basis only by the department.
The College is organized into the departments of Accounting, Business Education/Office Systems, Economics, Finance and Business Law, Management, and Marketing.

Majors are available in accounting, business education, economics, finance, general business, management, human resource management, management computer systems, marketing, computer end-user technologies and production operations management. The general business major is administered by the Assistant Dean. Students desiring majors in accounting, finance, general business, computer end-user technologies, human resource management, management, marketing and production operations management can obtain these majors only in the BBA degree program in the College of Business and Economics. They may not be taken as primary or secondary majors in other colleges.

PROFESSIONAL MINOR IN BUSINESS STUDIES

College of Letters and Sciences

The Professional Minor in Business Studies is designed for students seeking a liberal arts education with preparation for a career in an area of business. This preparation in both liberal arts and business will also assist students planning to advance their career opportunities by seeking an M.B.A. (Master of Business Administration) degree.

Requirements for the nine approved areas of emphasis are described under the College of Letters and Science section. Within these emphases, however, variations are possible to meet the programmatic needs of individual students. A minimum GPA of 2.25 in the minor is required for graduation. Grades received for transfer courses that are counted in the minor will be included in determining the GPA in the minor.

COLLEGE GRADE POINT AVERAGE REQUIREMENT FOR GRADUATION

Students in the College of Business and Economics are required to have:

1. a minimum combined transfer and UW-W GPA of 2.5

2. a minimum combined transfer and UW-W GPA of 2.5 in all subjects offered by departments in the College of Business and Economics and in the Department of Management Computer Systems

3. a minimum combined transfer and UW-W GPA of 2.5 in their major.
OUTREACH PROGRAMS FOR INDIVIDUALS IN THE FIELD OF BUSINESS AND MANAGEMENT

The University of Wisconsin-Whitewater, in cooperation with the University of Wisconsin Center at Waukesha and the University of Wisconsin-Extension, presents unique programs designed for adults who desire to continue their education in the field of business and management. Outreach programs offer the services of the University of Wisconsin system to the people of the surrounding area who cannot take advantage of the regular college programs because of personal commitments. The Business Outreach Program contains both credit and noncredit courses and is divided into four major areas:

1. Master's Degree Program in Business - A University of Wisconsin-Whitewater MBA or MPA (Masters of Professional Accountancy) degree can be earned through a program of graduate study on the Whitewater and Waukesha campuses. The program is designed to accommodate adult part-time students through special advising and evening courses. Classes and evening programs are offered at the following locations:

UW-Whitewater:

1. MBA Accounting
2. MBA Decision Support System
3. MBA Finance
4. MBA Health Care Administration
5. MBA Human Resource Management
6. MBA International Business
7. MBA Management
8. MBA Marketing
9. MBA Production Operations Management
10. MBA Technology and Training

UWC-Waukesha:

1. MBA Finance
2. MBA Management
3. MBA Marketing
4. MBA Decision Support Systems
5. MBA Health Care Administration

These programs are identical to those offered in the full-time college program.
at Whitewater. The same admission standards, faculty, and courses are applicable.

2. Bachelor's Degree Program in Business - A program tailored for the adult who desires to earn a business degree is offered on campus. Courses are scheduled at night and during the summer to meet student needs. Freshman-sophomore courses are available at the Waukesha and the Janesville Colleges. All four years of baccalaureate degree work are available at Whitewater. Special advising and simplified enrollment procedures are provided.

3. Adult Special Education in Business - Some adults want to take only selected courses offered in the regular University curriculum to improve their business background. This program accommodates these people by scheduling many classes at night and off-campus. Depending on the course, certain prerequisites may be required. Counseling and special enrollment procedures are provided. A student may earn a maximum of twelve credits as a special student. If any of these credits are earned in 300/400-level courses, these credits may not count toward the BBA degree should that student decide to pursue a BBA in subsequent semesters.

4. Management and Economics Development Program - Designed for further regional economic development through education and assistance, this program consists of two elements:

   a. Management Development - These specially designed courses meet the needs of industry for timely educational programs on business subjects. Formats range from seminars, institutes, conferences, to tailored executive sessions. They are offered at convenient times at off-campus locations (including in-plant) throughout the area. Participants in this program will normally receive certificates upon completion, as well as Continuing Education units.

   b. Economic Development - Research and consulting geared to the needs of regional communities and industry is provided by the University. The resources of the UW-System can be mobilized to help solve your problems. Requests for assistance under this program should be directed to the University of Wisconsin-Whitewater. For more information call SBDC at 262-472-3217.

STUDENT ORGANIZATIONS HONORARY SOCIETIES
**Pi Omega Pi**, a national honorary scholastic society for business education students, limits membership to spring-term sophomores, juniors, seniors and graduate students having a grade point of 3.0 or higher and who place in the upper 35 percent of their college class. The organization presents an annual award to the outstanding member. The local PSI chapter, a member of the National Association of College Honor Societies, has received national recognition for its service, publications, research, and other activities. It was founded by Professor Paul A. Carlson in 1932.

**Beta Gamma Sigma** is a national scholastic honorary society for students of business and management. Election to membership is the highest scholastic honor that a student of business can achieve. Membership is restricted to students of high scholarship and good moral character in institutions with programs accredited by the American Assembly of Collegiate Schools of Business.

**Financial Management Association Honor Society** is a local chapter of the national Financial Management Association. It is an honorary organization in that membership is limited to finance majors who meet specific academic requirements.

**The Wisconsin Iota Chapter of Omicron Delta Epsilon**, is an International Economics Honorary Society. It is dedicated to the encouragement of excellence in economics. It recognizes first and foremost scholastic achievement in economics. Second, it is a vehicle towards a better perception of and familiarity with economics. Through the establishment of closer ties between students and faculty, it promotes an understanding of economics greater than most classroom situations. In short, it helps its members advance both their own comprehension and the art and science of economics.

Membership in ODE is based on cumulative GPA and GPA in economics. Applicants must have earned at least 12 credits in economics with the grade of C or better, and the GPA for all economics courses must be at least 3.0. Receiving lower than a C does not disqualify an applicant, but that course may not be counted in the 12 credits. In addition, applicants must be of junior standing or higher and possess an overall GPA of at least 3.0.

**Sigma Iota Epsilon** is an honorary professional fraternity in management. Undergraduate management, management computer systems, human resource management and production operations management majors are eligible to join. They must have a minimum 3.0 grade point average, at least 30 credits of work
or its equivalent at UW-Whitewater, and state their intention of continuing in the management curriculum. Graduate students must have a 3.25 grade point average and have completed nine credits of graduate work, including at least three credits of management at UW-Whitewater. The Sigma XI of Sigma Iota Epsilon was installed on the Whitewater campus in October, 1976 and its purposes are: to stimulate interest and achievement in the field of management, to stimulate scholarship and research through the development of the scientific approach of management problems, to facilitate contacts between students and business, and to recognize persons who have made contributions to the field of management.

**Mu Kappa Tau** is the national scholastic honor society in the field of marketing. To be eligible for membership, a student must rank in the top 10% of the junior class, the top 10% of his/her senior class, or rank in the top 20% of the students receiving graduate degrees.

**PROFESSIONAL ORGANIZATIONS**

**American Marketing Association—Collegiate Chapter** was formed by Whitewater marketing students to promote and develop interest and knowledge in the field of marketing. The Association's goals are to foster scientific work in marketing, to develop sound thinking in theory and practice, to improve methods and techniques of marketing and to develop public understanding of marketing. The collegiate chapter works toward the accomplishment of these goals by sponsoring marketing presentations of practicing businessmen, field trips, special events and by conducting projects for the business community. Membership is open to any student interested in marketing.

**APICS** - The Educational Society for Resource Management is the campus student organization for anyone with interests in the field of supply chain management, production, inventory, TQM, service operations, purchasing, and material requirements planning. An insight into the real world of Operations Management is obtained through numerous contacts with management of nearby business organizations at on-campus or Milwaukee APICS or Rock Valley APICS Chapter meetings. Also, an excellent opportunity is afforded chapter members to prepare for and take the APICS certification examinations in the various Production Fields.
Society for Human Resource Management (SHRM) is a nationally affiliated professional organization for any student interested in pursuing a career in human resources/industrial relations. The Whitewater chapter offers its members the opportunity to meet with human resource executives from Southern Wisconsin, to gain practical experience doing human resource projects, to receive assistance preparing for SHRM "Personnel Generalist" accreditation exams, and to receive periodicals/newsletters discussing current human resource issues.

Beta Alpha Psi is the national professional accounting fraternity with chapters on over 140 campuses. Epsilon Rho chapter allows students to meet professionals and fellow students through the various activities held during the year. This gives students the opportunity to round out their academic training and learn about the accounting profession from those in practice. To become a member it is necessary to have attained junior standing (60 credits) and have a grade point of 3.0 both overall and in accounting courses.

The Association of Information Technologies Professionals is an organization of students who have a strong interest in the field of computer information systems. This group fosters an interest in and an understanding of computer systems through professional presentations, seminars, senior and student level AITP conferences and field trips to regional computer installations. In addition, the chapter also sponsors a professional society banquet meeting with employers in the fall and a career day in the spring.

Delta Sigma Pi, an international business and professional fraternity, promotes the study of business, encourages the attainment of high scholarship, and provides opportunities for students to begin their professional development while in college. Membership is open to students majoring in various business areas.

The Institute of Management Accountants is a national professional society. UW-W is proud to have the first student chapter in Wisconsin and one of the first anywhere. This organization provides another opportunity to make contacts and learn from practicing professionals in Accounting.

Marketing Education Association (formerly DECA) is the collegiate affiliate of the National and Wisconsin Marketing Education Associations. The purposes of MEA are to provide experiences for students who wish to continue their association with DECA, explore marketing education as a potential major, and participate with a small energetic group of students interested in marketing. Through experiences provided by MEA, future marketing education teachers
will be prepared to assume their role as a DECA adviser at the secondary and postsecondary levels. Non-marketing education majors will have opportunities to develop management and communications skills and have opportunities to learn more about the discipline of marketing through speakers, field trips, and conferences. Membership is open to any student from any college.

**Economics Society** is an organization of economics majors and minors and others interested in the field. Its purposes are to promote interest in and an understanding of economics through sponsoring lectures, panels, field trips, and other events; to promote economics as a profession; to improve contacts among students of economics, and to enhance student-faculty interaction.

**Finance Association** is a student membership organization serving undergraduate and graduate students who are interested in corporation finance, banking, investments, real estate and/or insurance, regardless of major. The Association conducts field trips, career orientation programs, social activities, and provides an informal channel for communication between students and faculty.

**Law Society** is an organization open to all students with an interest in law. The purposes of the Society are to advance the student's knowledge and experience in the field of law and to provide opportunities for communication with representatives from law schools and members of the legal profession. Guest speakers, field trips and special projects are some of the activities conducted each semester by members of the society.

**The Office Systems Research Association's (OSRA)** primary goal is to provide students with a forum to expand their knowledge of the end-user information systems area. OSRA sponsors business speakers, field trips, and PC seminars. Chapter activities include the sponsoring of a Computer Technologies Careers Day, writing an Alumni Newsletter, publishing the national OSRA quarterly newsletter, offering computer software training seminars, and hosting a PC Day for high school students.

**Phi Beta Lambda** is the college level of the Future Business Leaders of America and is open to all students. PBL's purpose is to familiarize students with the demands and opportunities in the professions commonly associated with business. Guest speakers, field trips, and conferences around the state and nation are some of the activities included each year for members of this organization.
**Pi Sigma Epsilon** is a national professional sales and marketing coed fraternity. Membership is open to any student of good standing and major who exhibits interest in sales and marketing. Business, University and community oriented projects are employed during the school year to afford practical experience to the members and to finance the operations of the organization. The Beta Gamma chapter at Whitewater was founded on March 14, 1969, as the 51st chapter of Pi Sigma Epsilon and is sponsored by the Sales and Marketing Executives of Madison and Milwaukee.

**Portfolio Management Group** is a student investment club. Its purpose is to help students learn about the process of investing in stocks, bonds, options, futures, and other types of securities. The group hosts speakers, sponsors field trips, conducts a simulated stock trading competition, and enjoys social activities.

**The General Management Organization (GMO)** is a campus organization for students either majoring in or interested in general management. This group provides academic and career support for student majors through speaker programs, student interaction and student-faculty interaction. It also fosters an interest in and understanding of general management subjects of interest. Relevant speakers, seminars and opportunities to interact with the General Management Advisory Board are special features of the GMO.

**Society for the Advancement of Management (SAM)** is a national professional organization of managers in industry, commerce, government and education. The student chapter at UW-W has as its main objective the bringing together of executives in business and students preparing to go into administrative positions. The club offers guest speakers, business films, structured field trips, an all-campus Career Day, a spring symposium, management periodicals and newsletters to all students who aspire to managerial occupations.

**The UW-W Students in Free Enterprise (SIFE) team** is a cadre of students on the UW-W campus that serve as intelligent and articulate exponents of the market economy and the American free enterprise system by conducting outreach educational projects. SIFE's mission is to establish and direct student-generated free market economic education programs on college and university campuses to bring America's collegian citizens to a better understanding of and a greater appreciation for the free enterprise system. SIFE's purpose is accomplished through the SIFE Teams' outreach projects within their communities and the presentation of these projects at the regional and national competitions. SIFE team projects are educational programs that convey to
fellow college students and the surrounding communities' citizens a better understanding of current economic issues and a greater appreciation for the free enterprise system.

**Collegiate Entrepreneurs Organization-Whitewater Chapter** is a student organization dedicated to inspiring the Entrepreneurial spirit in today's college students. CEO encourages this through the sponsoring of dynamic speakers, opportunities for international travel, networking through local and national conferences, and a variety of other unique educational experiences.

The accounting program at UW-Whitewater is designed to prepare accounting majors to begin their career as professional accountants in any area of their choice—public accounting, industrial accounting, or governmental accounting. All of the programs in the College of Business and Economics at both the graduate and undergraduate levels are accredited by the American Assembly of Collegiate Schools of Business. Accounting graduates are qualified to sit for the Certified Public Accountant (CPA) examination and all other professional accounting certification examinations. In the State of Wisconsin all applicants to sit for the CPA exam who graduate after December 31, 2000 will be required to have completed an accounting program with 150 credits of selected coursework. At UWW we have designed an integrated 150 credit program culminating in a masters degree, Master of Professional Accountancy (MPA), to fulfill the new requirements.

MAJOR

ACCOUNTING (BBA)

A minimum combined transfer and UW-W grade-point average of 2.5 is required in 210-341, 210-342, 210-343 and in all accounting courses to major in accounting, and in all College of Business and Economics plus MCS courses to graduate as an accounting major.

NOTE 1: An accounting major may repeat no more than two accounting courses.

NOTE 2: Any accounting course may be one of the two repeats even if the original grade received was a "C" or better. For purposes of the grade point requirement in accounting the repeat grades will be used.

NOTE 3: No one accounting course may be repeated more than once.

ACCOUNTING SEQUENCE - 9 CREDITS

1. ACTG 210-341, 210-342 AND 210-343

MAJOR - 21 CREDITS

Faculty: R. Neil Dortch, Mary Margaret Hosler, Marcia James (Chairperson), Richard James, Jean Mausahund, Jo Ann Oravec, Robert Schramm, Bambi Statz, Roger Yin, Donald K. Zahn.

The Business Education program at this university is nationally known. The program won the National Programs of Excellence Award in 1994 and in 1997. Business teachers are prepared in content and methodology which are complemented by field experiences. Graduates are marketable in education and business settings.

The Computer End-User Technologies* major is offered for individuals who like to work with people and computers. End-user computing, network administration, telecommunications, and human factor considerations are learned and applied in realistic business projects and internships. Graduates are qualified for positions such as software trainers, PC support specialists, network administrators, and office managers.

MAJOR/EMPHASES

By completing the Business Education program, students will be eligible for the Department of Public Instruction License 250. This license enables graduates to teach business subjects at grades 6-12; business teachers often serve as coordinators of cooperative vocational education programs and advisors of a student organization.

Students can validate business-related work experience to obtain DPI License 281 (Vocational). Some of the necessary hours for vocational certification can be acquired through 220-470 Directed Occupational Practice. Also, and add-on DPI license for elementary keyboarding is available.

DEPARTMENT OF ECONOMICS

Phone: 262-472-1361
E-Mail: economics@uwwvax.uww.edu

Faculty: Jeffrey Anstine, Ashok Bhargava (Chairperson), William Blankenau, John Dominguez, Joseph Domitrz, Stuart Glosser, Kirk Kim, Jerome Laurent, L. Denton Marks, Susan Parks, Thomas Schweigert, Mark Skidmore, Sandra Snow.

Economics occupies a unique position in the academic curriculum. It is a social science concerned with choices made by individuals and society regarding resource allocation. At the same time, economics is essential to understanding the business world and provides the foundation for applications in accounting, finance, management and marketing.

There are a variety of ways to include economics in an undergraduate degree. Students can major in economics within the College of Letters and Sciences or within the College of Business and Economics. Students from the College of Letters and Sciences can combine a major in economics with a professional minor in business studies. Students from the College of Business and Economics who are not economics majors can obtain a minor in economics. Students in the College of Education can obtain a BSE with a major in economics.

Economics is divided into economic theory, quantitative methods and a variety of applied subfields. The department offers courses in Comparative Economics, Economic Development, Economics of Health Care, Industrial Organization, International Economics, Labor, Managerial Economics, Monetary Economics, Natural and Environmental Resource Economics, Public Economics, and Urban and Regional Economics. Economic theory and quantitative methods provide students with analytical skills and with the tools of empirical investigation.

An economics education opens up opportunities for career paths in business, government, nongovernmental and nonprofit organizations, journalism and education.
Economics is valuable as a major or minor for those planning to pursue further professional or graduate training: MBA, law, public policy and administration, industrial and labor relations, and international relations. Students who are considering graduate work in economics or related business disciplines should consider a minor in mathematics or a double major in economics and mathematics.

**MAJORS/EMPHASES**

The department offers the following three emphases. All students pursuing an emphasis must take Economics 211, 212, 301, 302 and 402 (for BA or BS) or 345 (for BBA).

These are particularly useful for those interested in policy-related careers. Economics provides intellectual tools fundamental to the origination, development, and critique of policy in the business, nonprofit, and public sectors.

International Emphasis: This emphasis is of value to students seeking a career in business, government or non-governmental organizations involved with the increasing internationalization of the world economy. It provides students with a comprehensive background in: international trade and trade policy; international finance and exchange rates; multinational enterprise and foreign investment; economic growth and development in developing and transition economies; comparative economic systems.

Courses:

230-360 Growth and Development in the World Economy

230-401 International Economics

230-406 International Finance and Banking

230-431 Economics of Globalization

230-451 Economies of Asia

230-459 Comparative Economic Systems

Economies and Business Policy Emphasis: This emphasis is of value for careers involving strategic and tactical planning in the private sector. It develops skills in issue/problem identification and definition, formulation of hypotheses, model-building and model-testing. Business policy involves some or all of the core business areas such as marketing, finance, and accounting, but takes a broader view of the
overall role of the firm and the industry in which it operates. Courses of particular interest include:

ECON 301/501 Intermediate Microeconomic Analysis
ECON 302/502 Intermediate Macroeconomic Analysis
ECON 341 Government and Business
ECON 345 Business Statistics II
ECON 353 Labor Markets and Labor Policies
ECON 354 Money and Banking
ECON 401 International Economies
ECON 402 Business Cycles
ECON 406 International Finance and Banking
ECON 437 Managerial Economics
ECON 441/641 Industrial Organization and Competitive Strategies

Students completing this emphasis will be well prepared for direct entry into a business career path or for further graduate or professional study (e.g., a general or specialized MBA).

Economics and Public Policy Emphasis: This emphasis is for those seeking a career in government: in the civil service; as an elected official. Also careers involving formulation of public policy through organizations as diverse as trade associations and nonprofit organizations. Courses of particular interest include:

ECON 301/501 Intermediate Microeconomic Analysis
ECON 302/502 Intermediate Macroeconomic Analysis
ECON 324 Cooperatives
ECON 353 Economics of Labor Markets and Labor Policies
ECON 356 Public Finance
ECON 360 Growth and Development in the World Economy
ECON 401 International Economics
ECON 406 International Finance and Banking
ECON 438/638 Urban, Regional, and Transport Economies
ECON 445 Economics of Health Care
ECON 459/659 Comparative Economic Systems
ECON 471 Natural Resource and Environmental Economics

Students completing this emphasis will be prepared either for direct entry into careers in public policy analysis in the public or private sector or for further graduate or professional study in areas such as Public Policy Analysis or Public Administration. The curriculum relevant to those particularly interested in public policy toward business (e.g., business regulation, trade policy) are referred to the discussion of the Economics and Business Policy Emphasis.

Prereq: 250-320 (or 820-421 for PPA majors).

250-428 TRAINING AND DEVELOPMENT 3 cr
The course will emphasize theory of training and development, research to determine needs, types of programs, practicum in conducting a training and development session, and evaluation of programs.
Prereq: 250-320 or 820-421, or senior standing

250-429 EMPLOYEE BENEFITS 3 cr
Principles and techniques in the Administration of Employee Benefit Programs. The course will include: Planning, implementation, design and evaluation of major employee benefits, such as medical, disability, pension, profit-sharing, government mandated programs and quality of work life plans.
Prereq: 250-320 or 820-421.

250-430 LABOR-MANAGEMENT RELATIONS 3 cr
Study of the relationships between management and organized groups of employees, including labor unions and professional associations. Analysis and evaluation of collective bargaining processes and strategies, current bargaining issues, legal regulations of bargaining, negotiations and administration of collective agreements, factors contributing to conflict and methods of settlement.

250-445 QUALITY MANAGEMENT 3 cr
A comprehensive study of contemporary perspectives on Total Quality (TQ) theory and practice applied to operations systems. Includes a thorough discussion of
statistical and quality methods including process control, acceptance sampling, and variance reduction. Explores Quality Function Deployment and the customer-focused implications of quality.
Prereq: 250-306.

250-450 OPERATIONS PLANNING 3 cr
Study in depth of the planning processes performed in the operations setting integrating the topics of systems modeling, forecasting, production planning, capacity planning, capacity requirements planning, master scheduling, and material requirements planning. Emphasis is on concepts and their application.
Prereq: 250-306.

250-455 INTEGRATON OF OPERATIONS 3 cr
Examination in depth of daily operational decision making pertaining to management of operational systems and inventory, inventory models and systems, inventory control, distribution planning and control, scheduling techniques, production authorization, lead time management, supplier interfaces, data requirements and measurement systems. Emphasis is on the interrelationships of these techniques and their applications.
Prereq: 250-306.

250-456 FUNDAMENTALS OF SUPPLY CHAIN MANAGEMENT 3 cr
The course uses a supply chain management framework to study flow of material through manufacturing enterprises. Topics include process selection, facility layouts, group technology, storage and retrieval systems, theory of constraints, just-in-time systems, manufacturing resource planning, supplier management and information technology in managing manufacturing systems.
Prereq: 250-306.

250-460 COMPUTER INTEGRATED MANUFACTURING 3 cr
Examines the role of Computer Integrated Manufacturing in Production Systems. Topics may include Group Technology (GT), Flexible Manufacturing Systems (FMS), Automation in Manufacturing, Manufacturing Resource Planning (MRP II), Computer Aided Design (CAD) and Computer Aided Manufacturing (CAM). Additional current topics may be included.
Prereq: 250-306.

250-465 OPERATIONS STRATEGY 3 cr
A study of the integration of operations planning, management, and control to create effective operations strategy within a global perspective. Includes a thorough examination of capacity and supply chain management. Also examines the theory of
constraints as used to develop strategic competitive advantage.
Coreq: 250-450 or 250-455 or 250-456.

**250-466 MANAGEMENT OF SERVICE OPERATIONS 3 cr**
An overview course which applies production techniques and concepts to service organizations through the case study method. Problems of producing services will be compared and contrasted to manufacturing. Special demands for organization and control will be reviewed, as well as the identification of elements of success.
Prereq: 250-306.

**250-471 MANAGEMENT DECISION ANALYSIS 3 cr**
Theory and application of quantitative analytic methods used in operations decision situations. Topics include model building, decision theory, deterministic and probabilistic problems, linear programming, PERT/CPM and simulation.
Prereq: 230-245, or equiv.

**250-478 SEMINAR IN HUMAN RESOURCES 3 cr**
A capstone course required of students in Personnel/Human Resources Management. The course will integrate HR subject matter areas through empirical research. Students will utilize their academic preparation, analytical skills, and communication skills to develop a proposal and prepare a research report.
Prereq: 250-320 (or 820-421 for Public Policy majors), Human Resource major or minor, and senior standing.

**250-480 MANAGEMENT INFORMATION SYSTEMS 3 cr**
Study of the "total systems" concept. Understanding of an integrated information system, employing a computer and data processing equipment for use by management for planning and control purposes. Analysis of actual information systems used in industry and the government. This course may not be used to satisfy Management Computer Systems major requirements.
Prereq: 75 credits toward degree.

**250-484 SIMULATION MODELING 3 cr**
A course applicable to all majors that examines simulation as a decision making tool to improve management effectiveness. A broad understanding of simulation methodology is developed. Problem formulation, identification of variables, model design/implementation, and the analysis of simulation results are covered in some detail.
Prereq: (230-245 or 760-231) or equiv.

**250-485 SMALL BUSINESS CONSULTING 3 cr**
A course designed to provide students with hands-on business consulting with faculty
advisors as part of the Small Business Institute. Potential topic coverage is a wide range of business activities depending on client need.
Prereq: 260-311 or 240-344 and consent of SBI Coordinator.

250-486 SUPERVISORY MANAGEMENT 3 cr
A study of the theories and techniques of general management, organizational behavior, and human relations involved in effective supervisory management. The supervisor's role and the supervisor-subordinate relationship will be analyzed. The skills required for successful supervision will be practiced through small group work, role play and other activities.
Prereq: 250-301 and 85 credits.

250-488 MANAGEMENT SEMINAR 3 cr
Provides General Management majors and students completing the Professional Minor in Business Studies (Management General Emphasis) with the opportunity to examine a significant management topic in depth. Students may be asked to perform or assist in original research, develop a case analysis, or study topics of special importance to career goals. Offered occasionally. Repeatable.
Prereq: 250-369 and 250-419.

250-489 ADMINISTRATIVE POLICY 3 cr
This course emphasizes management issues and practices from a top management perspective. Students learn theories and skills relevant to the strategic management of organizations, including the ability to assess the external and internal environments of the organization, strategy formulation and implementation.
Prereq: Sr st and completion of the other College of Business and Economics required core courses, (i.e. 220 353, 240 341, 240 344, 250-301, 250-306, 260 311) except Career Information.

250-491 TRAVEL STUDY 1-3 cr
Repeatable for a maximum of 5 credits in major/degree.

250-493 COOPERATIVE/INTERNSHIP IN MANAGEMENT 2-3 cr
This course is a constructed-supervised work experience within the major area of concentration of the student. The internship experience offers the student an opportunity to merge with actual day-to-day activity in business. No more than 5 credits will apply toward graduation. Repeatable for a maximum of 5 credits in major/degree.
Prereq: Junior standing and consent of department chairperson.

250-496/696 SPECIAL STUDIES 1-3 cr
Repeatable for a maximum of 6 credits in major/degree. Prereq: Consent of instructor.
250-498 INDEPENDENT STUDIES 1-3 cr
Junior or senior standing and consent of instructor and department chairperson.
Repeatable for a maximum of 3 credits in major/degree.

Faculty: Robert Bryan, Athula Gunawardena, Robert Horton (Coordinator), Jonathan Kane, Anil Kumar, Robert Leitheiser, David Munro, George Sargent, Robert Siemann.

The Management Computer Systems (MCS) major is an interdisciplinary program combining faculty from the Management Department in the College of Business and Economics with their colleagues from the Department of Mathematics and Computer Science in the College of Letters and Sciences. The major offers a unique blend of computing and management skills designed to harness computer technology to the needs of a wide variety of business, industrial, financial, governmental and educational organizations. Graduates are trained in the areas of programming, systems analysis/design and network management/administration with a strong background in business. Typical entry level positions include programmer, programmer/analyst, network engineer, network management/administration and PC support. The field offers tremendous potential for rapid advancement. The MCS major can be taken in either the College of Business and Economics for a BBA degree or in the College of Letters and Sciences for a BS degree (listed in the College of Letters and Sciences).

MCS COURSE DESCRIPTIONS

MCS 210 CONCEPTS OF DATABASE SYSTEMS 3 cr
The study of database concepts, including data design and the management of data as a corporate resource. Students are to develop typical business applications with graphical user interfaces in a windows environment, using a relational database and fourth generation languages.
Prereq: MCS 171 and an overall g.p.a. of 2.50.

MCS 220 CONCEPTS OF PROGRAMMING 3 cr
This course teaches students professional software development using object-oriented program design and the Java programming language. Coverage includes correct business programming style and documentation, program debugging and testing, database and file processing, event-handling, and graphical user interfaces.
Coreq: MCS 210. Prereq: COMPSCI 172 and an overall gpa of 2.50.

MCS 231 CONCEPTS OF DATA STRUCTURES 3 cr
This course is an introduction to data structures, using the Java programming language. It covers static and dynamic implementation of data structures, including lists, stacks, queues and trees. It emphasizes object-oriented design and programming
methodology, including inheritance and polymorphism, and applies these in the
development of large programming projects.
Prereq: MCS 210 and MCS 220 and an overall g.p.a. of 2.50.

**MCS 232 CONCEPTS OF COBOL WITH FILE STRUCTURES 3 cr**
The COBOL language is taught and then used to study file organizations at both the
logical and physical level in order to provide a firm foundation for the future study of
database and information systems. Sequential, indexed, and relative files are
discussed. Hashing and the implementation of complex file structures is discussed.
Students act as maintenance programmers updating and modifying existing programs.
Prereq: MCS 231 and an overall g.p.a. of 2.50.

**MCS 325 CLIENT/SERVER - LOCAL AREA 3 cr**
This course is designed to give students familiarity with distributed computing in a
local area environment. Students are to gain "hands-on" experience in simple network
management. They also are to learn and use an event-driven, object-oriented
programming language to exchange data with other applications in a local area
networking environment.
Prereq: MCS 231 and an overall g.p.a. of 2.50.

**MCS 331 SYSTEMS ANALYSIS AND DESIGN 1 3 cr**
In this course, the student learns to analyze the business organization as a system, to
structure both the information and processes of a business or organization, and to
complete the systems development process through the logical design phase. The
course utilizes an object-oriented methodology for the systems development process.
The student begins a team project that is completed in 950-431.
Coreq: MCS 325 and MCS 245 or MATH 231 or MATH 342. Prereq: MCS 231 and
an overall g.p.a. of 2.50.

**MCS 391 MCS COOPERATIVE PROGRAM 3 cr**
The student is to work as an information systems professional in a business or
government organization and report on the experience to the MCS faculty and fellow
students.
Prereq: Consent of MCS Cooperative Program Coordinator and an overall g.p.a. of
2.50.

**MCS 425 WEB DEVELOPMENT 2 3 cr**
This course teaches students how to develop Web applications using Java
technologies. The course focuses on design and implementation of distributed
applications for the Internet and/or intranets. Topics include object-oriented
distributed systems and technologies, database access, security, advanced Java
programming, and technical design issues for e-Commerce systems.
Prereq: MCS 325 and an overall gpa. of 2.50.

MCS 431 SYSTEMS ANALYSIS AND DESIGN 2 3 cr
This course is a study of the principles and activities associated with the physical design and implementation of computer based information systems using object oriented methodologies. It includes object-oriented decomposition, system testing, documentation, system security, conversion and implementation. The student completes the team project started in 950-331.
Prereq: MCS 331 and an overall g.p.a. of 2.50.

MCS 475 NETWORK ENGINEERING 3 cr
This class will explore the OSI (Open Systems Interconnection) networking model, standard networking protocols, and network architecture including implementation, administration and maintenance. Students will also gain "hands-on" networking experience by installing and setting up a network operating system, building a small LAN, and managing network servers.
Prereq: MCS 325 or consent of instructor and an overall g.p.a. of 2.50. Unreq: COMPSCI 475.

MCS 496 SPECIAL STUDIES 3 cr
Repeatable for a maximum of 9 credits in major/degree.
Prereq: Consent of instructor.

MCS 498 INDEPENDENT STUDIES 1-3 cr
Repeatable.
Prereq: Approval of the MCS Coordinator and the faculty member supervising the course. Completion of at least four MCS core courses and an overall g.p.a. of 2.50.

DEPARTMENT OF MARKETING

Phone: 262-472-1333
E-Mail: marketing@uwwvax.uww.edu Faculty: Margaret Friedman, Arno Kleimenhagen, Marilyn Lavin, G. M. Naidu, Sharon Roy Newman, James Peltier (Chairperson), Mete Sirvanci, Lois Smith, George Tesar, Raja Velu, Edward Vitale, Ann Waller, Abe Weinrauch, John Westfall.

Marketing involves business activities so that production and the exchange of goods and services maximize consumer satisfactions and producer profits. Marketing studies
the behavior of people in their search for products and services to satisfy their needs and then develops and provides the consumer with need-satisfying opportunities consistent with the goals of society. Marketing functions include choosing customer groups, developing products, distributing them, creating advertising and promotions, and determining the proper price.

Recommended Marketing electives for various major marketing career areas:

**260 COURSE DESCRIPTIONS**
**260-311 PRINCIPLES OF MARKETING 3 cr**
A study of the activities involved in the distribution of goods and services in a system-analysis framework. Examines consumer buying behavior and marketing functions within the firm. Investigates constraints imposed on decision makers and evaluates the performance of marketing in terms of social and economic efficiency.

**260-321 MARKETING RESEARCH 3 cr**
Methods of planning and carrying out marketing and consumer research studies. Problem formulation, exploratory research, questionnaire construction and design, observational and sampling techniques, conducting surveys, data analysis, reporting, interpretation of findings and implementation of recommendations. Prereq: 260-311 and 230-245.

**260-337 RETAIL MANAGEMENT 3 cr**
Economic importance and development of retailing institutions Prereq: 260-311.

**260-346 STUDENT EXCHANGE IN INTERNATIONAL PROGRAMS -12 cr**
The course is intended for UW-Whitewater students who are enrolled in a higher education program outside the United States. When courses offered by international institutions do not have direct equivalents in current Marketing Department course offerings, students may enroll for up to 12 credits in this course. The chair of the Marketing Department will approve enrollment on a case by case basis. Repeatable.

**260-350 PROMOTIONAL POLICIES AND STRATEGIES 3 cr**
Theory and concepts employed by organizations in presenting promotional messages through various communication media. Management strategy in promotion and the problems encountered will be emphasized. Prereq: 260-311.

**260-351 INTERNET MARKETING 3 cr**
This class is designed to provide marketing majors and minors with basic knowledge of the Internet, so that they can understand why this technology has and will continue to exert such an important impact on marketing practice. It will also consider such topics as web demographics, the online business model, web enhancement of products and services, personalization, traffic and brand building, net exchanges, and online community. In addition, the class will explore the impact that the Internet is having on such traditional areas of marketing concern as research, new product development, segmentation, personal selling, pricing, and distribution. Prereq: 260-311
260-361/561 INTERNATIONAL MARKETING 3 cr
The course provides a critical assessment of global market opportunities and of the tactics and strategies for marketing of goods and services across national boundaries. Covered in the course are global marketing environment, modes of market entry, and of managing marketing mix variables in a foreign setting.
Prereq: 260-311.

260-400 PRODUCT POLICY AND STRATEGY 3 cr
Analysis of marketing problems encountered in developing and introducing new products, managing existing products, and phasing out obsolete products. Emphasis is placed on the coordination of activities that lead to successful market management of products. Various marketing concepts and problems related to product development and introduction are surveyed and analyzed.
Prereq: 260-311

260-412 BUSINESS TO BUSINESS MARKETING 3 cr
An intensive examination of the industrial marketing sector. Emphasis is placed on understanding the unique dimensions of the industrial marketing environment and translating this understanding into effective integrated industrial marketing programs. Attention is given to producer, reseller and government markets.
Prereq: 260-311.

260-420/620 CONSUMER BEHAVIOR 3 cr
Survey of social science theories pertinent to information processing, human behavior, and social interaction. Emphasis is placed on using this information to develop marketing strategies.
Prereq: 260-311.

MARKETING 429 PERSONAL SELLING AND SALES MANAGEMENT 3 u
A seminar in the art and science of selling. Examined and probed in depth will be the whys and hows of selling theories, principles, techniques, practices, and the basics of sales force management.
Prereq: MARKETING 311 or for Speech Electronic Media Emphasis Majors only SPEECH 232.

260-432 MARKETING IN SERVICE ORGANIZATIONS 3 cr
A reconsideration of traditional marketing topics in the context of a variety of service organizations. Emphasis is placed on discussion of how product-oriented marketing activities need to be adjusted or even re-invented to accommodate "nonproducts."
Prereq: 260-311.
260-436/636 PURCHASING AND MATERIALS MANAGEMENT 3 cr
An integrated approach to the problems of inventory determination, purchasing, incoming traffic and industrial marketing from the viewpoint of the manager of materials. Cases studied.
Prereq: 260-311.

260-442/642 LOGISTICS 3 cr
Analysis of the problems encountered in the physical movement of goods from the end of production to the consumer. Surveyed in this course are various techniques and methods for analyzing spatial arrangements of markets, plant and warehouse location, inventory systems, selection of carrier alternatives and selection of physical movement channels.
Prereq: 260-311

260-444 DIRECT MARKETING 3 cr
Students are introduced to the scope of direct marketing including mail order, lead generation, circulation, loyalty programs, store traffic building, fundraising, pre-selling, post-selling and research. The course includes grounding in all major direct marketing media: direct mail, broadcast, print advertising, catalogs, co-ops, telemarketing, inserts and videos. The measurability and accountability of direct marketing and its relationship to the total marketing mix are stressed.
Prereq: 260-311

260-445 DATABASE MARKETING 3 cr
Advancing technology is enabling marketers to create individualized customer relationships in situations where previously such relationships were not possible. This course is designed to increase students' understanding of how technology, specifically the customer database, is used to design and implement marketing strategies. Special attention will be devoted to the studying the types of information needed in a customer database and how this information can be integrated into the marketing decision making process.
Prereq: 260-311

HISTORY AND MISSION OF THE COLLEGE

The preparation of teachers has been a major part of the mission of this University since its inception on April 21, 1868, as a normal school, and through its subsequent evolution as a teachers college, a state college and a comprehensive state university. For more than a century UW-Whitewater has offered programs leading to the licensure of teachers. The College of Education is committed to the principles of excellence in teacher education and leadership in maintaining and extending an effective system of schools for a free society. This commitment motivates the faculty to develop programs of teacher education designed to meet the wide and varied educational needs of society. In fulfilling its mission, the College of Education has emphasized quality and excellence and has dedicated itself to the study and analysis of educational trends, innovation, and leadership.

Students in the College of Education prepare for professional careers in teaching; safety; communicative disorders; leadership, military science and aerospace studies; and health, physical education, recreation, and coaching.

The Elementary Education program includes early childhood education and elementary/middle education. The Middle/Secondary Education program includes majors in art, biology, business education, distributive education, chemistry, economics, English, French, geography, German, history, journalism, mathematics, physics, political science, sociology, Spanish, theatre, and in the broadfield areas of art, business education, music education, physical education, science, and social studies.

Minors are offered in the areas of art, biology, chemistry, coaching, communicative disorders, economics, English, French, geography, German, health education, history, journalism, library science, mathematics, leadership, music, physical education, philosophy, physics, political science, psychology, recreation, sociology, Spanish, and in speech.
Communicative Disorders offer pre-graduate training for licensure in Speech-Language Pathology and Audiology.

Special Education programs for students interested in working with persons with special needs include cognitive disabilities, emotional/behavioral disorders, learning disabilities, and early childhood: exceptional educational needs.

Safety Education programs in occupational safety, traffic safety, and driver education are also available.

The Minority Teacher Prep Program (MTP) is a special initiative designed to assist ethnic minority students with majors in the College of Education. The goal of this program is to recruit and retain talented minority students interested in pursuing careers in teacher education. Providing a number of activities throughout the academic year, MTP strives to:

- enhance minority high school and college students awareness of career opportunities in the education profession.
- increase the involvement of enrolled students in activities leading to improved academic performance.
- provide opportunities for minority students to regularly meet and exchange ideas with successful minority educators.
- provide academic support in the form of tutoring and counseling for students with such needs.

DEPARTMENTAL ORGANIZATIONS AND ACTIVITIES

HONORARY FRATERNITIES

Alpha Beta Alpha is a national fraternity for students in library science. Any student taking courses in library science who has earned an overall C average in classwork is eligible to become a member. Adviser: Anne Zarinnia.

Kappa Delta Pi is a national honorary education fraternity. It limits its membership to juniors and seniors in the College of Education who have demonstrated unusual scholastic proficiency and professional promise. Adviser: Stephen Friedman.

Phi Kappa Phi is a national honor society for the recognition and encouragement of superior scholarship in all academic disciplines. Undergraduate students are eligible
for consideration who have senior status and are scholastically in the upper 10% (or less, if the chapter's constitution so provides) of their class; or who have reached the final period of their junior year and are scholastically in the upper 5% (or, again, less if the chapter's constitution so stipulates) of their class.

Adviser: John Kozlowicz.

**STUDENT ORGANIZATIONS**

The Association for Young Childhood Education is the student branch of the Association for Childhood Education International. Membership is open to students enrolled in the kindergarten-primary and elementary education curriculums. The group's primary concern is the welfare and education of children.

Adviser: Mary Lou Rossini.

The Coaching, Health, Athletics, Recreation, and Physical Education (CHARPE) organization is open to all students enrolled in majors or minors in Health Physical Education, Recreation or Coaching. This club works to promote understanding of career opportunities and responsibilities, professional development outside of the classroom, and networking with professionals and peers. Guest speakers, attendance at professional meetings, and banquets are some of the various activities of this organization.

Advisor: Kathleen Happel and Wendy DeMore.

The Student Council for Exceptional Children is a pre-professional organization for students interested in expanding their knowledge about and experiences with individual with exceptionalities. Its primary purpose is to "present students with opportunities to improve educational professional standards and increase awareness of exceptional children and youth." Opportunities are available for volunteer experiences with various area service agencies/programs and residential facilities. Projects may include: visiting residential facilities, mentoring clients, planning seasonal parties for residents of community resident settings, provide respite care, and attending and participating in state and national professional organization conferences.

Adviser: Diane Ormsby.

The National Student Speech Language Hearing Association (NSSLHA) is the national organization for Master's candidates and undergraduate students interested in the study of normal and disordered human communication behavior. NSSLHA is the only official national student association recognized by the American Speech-language-Hearing Association. NSSLHA membership is presently about 13,000.
students with chapters in more than 280 colleges and universities.
Adviser: Patricia Casey.

The Student Wisconsin Education Association is a student organization for improving the quality of education. The purpose of the organization is to guide students who plan to teach and to provide supplemental education programs. This organization is a student chapter of NEA.
Adviser: John Zbikowski.

ROTC Cadet Association is composed of students enrolled in the Army or Air Force ROTC program (Leadership, Military Science and Aerospace Studies) at Whitewater. The organization fosters military, social and other extracurricular activities within the ROTC student body.
Adviser: Sgt. Tim Bretl.

The Student Safety Organization represents both ASSE (American Society of Safety Engineers) and TWSO (The World Safety Organization). The purpose of the Association is to promote interest in and understanding of the role of safety in industry, government, schools, and wherever loss prevention is a concern. Representatives participate in departmental activities and decision-making and the Organization conducts a variety of programs for professional growth and development. The Organization not only serves its present membership, but seeks to maintain contact with graduates by inviting them to speak at Association meetings. Students interested in the Student Safety Association should contact the Safety Office in Room 6034, Winther Hall.
Adviser: Deborah Bowen, Craig Wucivic.

Students for an Accessible Society fosters an awareness of the needs of disabled students on campus, joins disabled and nondisabled people as an organization to meet these needs, and fosters an atmosphere of mutual understanding and cooperation between the two parties.
Adviser: Jackie Wenkman.

Tactics Club is sponsored by the Leadership, Military Science and Aerospace Studies (ROTC) to promote interest and excellence in military tactics through the application of theories of actual field situation.
Adviser: Sgt. Tim Bretl.

**ACADEMIC INFORMATION**

**PROFESSIONAL EDUCATION PROGRAMS LEADING TO TEACHER LICENSURE**
The University offers more than seventy different licensure programs including elementary/middle education, middle/secondary education, and special education. See the index for majors in secondary education (including broadfield majors), programs in elementary education, and programs in special education. Satisfactory completion of these programs entitle the graduate to be licensed to teach in Wisconsin public schools as well as in schools in most other states. The Wisconsin teacher's license is issued by the Wisconsin Department of Public Instruction only after receiving the endorsement of the Dean of the College of Education. During the semester before graduation, students should obtain a Wisconsin teaching license application form from the Winther Hall Information Desk in the College of Education. Those students desiring a license from other states can also obtain addresses and phone numbers at the Winther Hall Information Desk of education departments in other states to obtain information about appropriate application procedures.

**PROFESSIONAL CAREER PROGRAMS NOT REQUIRING TEACHER LICENSURE**

The College of Education offers a program in occupational safety for students who intend to become industrial safety specialists (see Department of Safety Studies), in special education for students who want to work with adults who are developmentally disabled (see Department of Special Education), in Health, Physical Education, Recreation & Coaching for students who want to pursue careers in health, sport, fitness and racket clubs, corporate and community health promotion, park and recreation administration, or coaching (See Department of Health, Physical Education, Recreation & Coaching), and in communicative disorders for students who plan to pursue a masters degree in Speech-Language Pathology and Audiology and work in the public schools (see Department of Communicative Disorders).

**LEADERSHIP, MILITARY SCIENCE AND AEROSPACE STUDIES DEPARTMENT**

The Department of Leadership, Military Science and Aerospace Studies offers three programs which may be pursued by any student desiring instruction, practical
experience, and credentials in leadership.

1. Leadership Minor. Provides the specialized knowledge and training required to be a successful supervisor, manager, or administrator in the student's chosen profession.

2. U.S. Army Commission. Completion of the commission program and a baccalaureate degree provides the opportunity for service to the Nation as a Second Lieutenant in either the US Army, National Guard, or Army Reserve.

3. U.S. Air Force Commission. Completion of the commission program and a baccalaureate degree provides the opportunity for service to the Nation as a Second Lieutenant in either the U.S. Air Force or Air Force Reserve.

ADMISSION TO PROFESSIONAL EDUCATION

All students eligible to apply for admission into Professional Education will be admitted, by program, based on program space availability and her/his ranking based on three equally weighted criteria. One third of a student's rank will be based on a combination of grade point average and the Pre-Professional Skills Test (PPST) scores. A second third will be based on previous volunteer work and experiences with learners. The last third of a student's rank will be based on previous experience with diverse populations. Ties in the total score rankings will be broken based on credit hours earned.

Students will be admitted only during specifically designated times throughout the year and will be ranked with the pool of students applying during that particular period. Students who are not admitted may reapply during any subsequent admission period and will be reranked with the new pool of applicants.

All students are required to attend a Professional Education Orientation meeting, have a "C" or better or current enrollment in the three courses contained in the pre-professional term, have a "C" or better in a public speaking speech course, have a minimum appropriate grade point average of 2.75 on a minimum of 40 credits (for students without a bachelor's degree) or grade point average of 2.75 on all credits accepted (for students who hold a bachelor's degree), and pass all three portions of the PPST test to be considered for admission without an exception. Although a 2.75 grade point average is the minimum to be considered for admission, students with a grade point average of less than 2.75 may have difficulty achieving a rank that is sufficiently high for admission to many licensure programs. No more than 10% of all students
admitted to Professional Education in any admission period may be admitted as an exception. Students who hold a baccalaureate degree must have a 2.75 degree GPA and completion of speech with a "C" or better verified by the office of the Assistant Dean of the College of Education. Verification must be made by furnishing photocopies of degree transcripts.

In order to be eligible for admission to the Pre-Professional Term, students must have the following:

1. A 2.40 GPA on a minimum of 12 credits or hold a bachelor's degree.
2. Passing scores on a minimum of two parts of the PPST.

Students who hold a baccalaureate degree must have degree GPA and completion of speech with a "C" or better verified by the office of the Assistant Dean of the College of Education. Verification must be made by furnishing photocopies of degree transcripts. Transfer students must meet eligibility requirements before applying for Professional Education. Cumulative grade point average for admission is based on all credits accepted at UW-Whitewater. General education for licensure courses are not monitored by the Academic Progress Report.

Students with a bachelor's degree seeking a first time license must meet the eligibility requirements before applying for Professional Education. Cumulative grade point average for admission is based on all credits received in a bachelor's and/or master's degree. It is the student's responsibility to furnish the Winther Hall Information Desk with photocopies of degree transcript(s). Transcript evaluation for general education licensure courses and professional education eligibility is available by request at the Winther Hall Information Desk. Students with a bachelor's degree should contact the appropriate program coordinator to develop an individual licensure plan.

Students admitted to the University with a declared major in education are not automatically guaranteed admission to professional education. Students must meet stated criteria and will be admitted on a space available basis.

Specific information on the process for admission into Professional Education is available at the Winther Hall Information Desk.

TEACHER LICENSURE REQUIREMENTS
The College of Education requires all students seeking endorsement by the Dean of the College of Education for Wisconsin Department of Public Instruction licensure to complete the following licensure requirements:

Pre-student Teaching Clinical Experience:
Each student, under the supervision of professional school personnel, shall complete a pre-student teaching clinical program consisting of a minimum of 100 clock hours of experience working directly with children and youth within a school or other instructional setting. Each student will complete Observation and Participation (439-210 or 489-210) and Field Study (489-492 or 439-492.)

Educational Foundations:
420-243 Education in Pluralistic Society

Reading and Language Arts:
Course work appropriate to the licensure program in the teaching of reading and language arts. This requirement has been integrated into the curricula of all licensure programs.

Measurement and Evaluation Course:

Directed Teaching

1. Experiences in schools. All students seeking initial endorsement for licensure by UW-Whitewater must earn credits from UW-Whitewater in conjunction with experiences in schools. Additional information about these experiences is available from the Office of Field Experiences or the appropriate department in the College of Education.

2. Pre-professional Term. A minimum of 50 hours in a school setting that serves a diverse population. Presently this experience takes place in Milwaukee, Wisconsin. The Office of Field Experiences provides transportation and students are assessed a transportation fee.

3. Professional Block. One or more experiences in schools. Students are assigned in schools located within the service area of the College of Education, generally within 50 miles of campus. Students are responsible for their own transportation during Professional Block experiences.
4. Directed Teaching ("student teaching"). All students seeking initial endorsement for licensure must complete a full day, full semester experience following the daily schedule and semester of the cooperating school (not the university term). Students apply for Directed Teaching during their junior year if they are scheduled for directed teaching during the first or second term of their senior year. Students who seek endorsement from UW-Whitewater must complete at least 14 credits of academic work at UW-Whitewater prior to Directed Teaching. Students are placed in schools located within the service area of the College of Education, generally within 50 miles of campus. Placements are made by the university on the basis of quality and other programmatic considerations. Students are responsible for their transportation and housing arrangements during Directed Teaching.

Environmental Education:
Students whose programs lead to Wisconsin licensure in elementary education, science, or social studies must fulfill the statutory requirement in environmental education. In addition to appropriate work in their methods classes, students must elect one of the following courses: 722-252 Human Environmental Problems; or 630-214 Ecology and Society.

Cooperatives:
Students whose programs lead to Wisconsin licensure in social studies must fulfill the statutory requirements in cooperatives by electing one of the following courses: 230-213 Economic Principles, Problems and Policies, or 230-324 Cooperatives.

Exceptional Education:
All persons who receive an initial Wisconsin elementary or secondary license must complete an exceptional education requirement. This requirement has been integrated into the curricula of all licensure programs. Students who successfully complete an elementary or secondary program at UW-Whitewater will have fulfilled this state requirement.

Human Relations Requirements:
All professional education programs leading to initial licensure require study and experiences in human relations. Specific information on the course and experience requirements is available in the Office of Field Experience, Winther 2038.

GENERAL EDUCATION FOR LICENSURE REQUIREMENTS:
The State of Wisconsin through the Wisconsin Department of Public Instruction has implemented a set of teacher education program rules that are referred to as PI 4. The rules describe general education requirements that must be met by all teachers seeking their first teaching license, regardless of previous degrees.

To meet the general education requirements for teacher licensure students at UW-Whitewater must complete one third of the credits for a bachelor's degree or a minimum of 40 credits of course work in general education and the course requirements in each of the categories listed below. All courses taken to satisfy UW-Whitewater's general education requirements may be used to meet the General Education requirements for licensure.

Students completing the 50 credit general education requirements will also have met the following PI 4 General Education requirements: Composition and Literature, Oral Communication, Fine Arts, Western History or Contemporary Culture, and Non-Western History or Non-Contemporary Culture. The sections not covered by the core and proficiency requirements are National/State/Local Government, Biological Science, and Physical Science and must be met with additional course work.

The following PI-4 General Education-Licensure requirements including Wisconsin Model Academic Standards must be met by all licensure students:

1. Composition and Literature: 680-101 and 680-102 or equivalent/waiver RLS.
2. Oral Communication:166-110 or equivalent/waiver RLS.
3. Mathematics: 760-141 or equivalent/waiver RLS.
4. Fine Arts: 900-110 World of Arts or equivalent RLS.
5. National, State, and Local Government: 820-141 or equivalent RLS.
6. Biological Science: any 3 to 5-credit UW biology course or equivalent RLS.
7. Physical Science: any 3 to 5-credit UWW astronomy, chemistry, geology, physics or 5-credit Physical Geography lab course or equivalent RLS.
8. Western History/Western Contemporary Culture: World of Ideas 900-390 or equivalent RLS.
9. Non-Western History/Non-Western Contemporary Culture: Global Perspectives 900-140 or equivalent RLS.
10. Electives: any general education courses which total the 40 credits RLS.

Specific information on the general education requirements and the approved list of courses are available at the Winther Hall Information Desk. A listing of all courses approved to satisfy General Education for Licensure requirements is listed in the Professional Education Handbook.
Endorsement Requirements:
Upon completion of an approved professional education program and a bachelors degree, students will be eligible for endorsement for initial teacher licensure when they meet the following requirements:

1. Completion of an approved major, major and minor, or broadfield major.
2. Successful completion of a Directed Teaching experience at UW-Whitewater.
3. A licensure GPA of 2.75 (based on major, minor and professional education course work).
4. A passing score on a standardized examination in each licensure major and minor if required by the Wisconsin Department of Public Instruction. The examination will be administered by the Wisconsin Department of Public Instruction (DPI) and the passing score will be determined by the State Superintendent.

Exceptions to the GPA endorsement requirements for initial teacher licensure may be granted by the Assistant Dean in the College of Education. No more than 10% of all students completing licensure programs in each graduation period may be granted an exception.

COLLEGE DEGREE REQUIREMENTS

BACHELOR OF SCIENCE IN EDUCATION (BSE)

Students may earn a Bachelor of Science in Education from the College of Education. Successful completion of a minimum of one hundred twenty (120) credits in the following areas is required:

University Proficiency
General Studies
Diversity and Writing Proficiency
College/Major (and minor if required)
Core

2. **Observation and Participation:** Appropriate to major: C&I 439-210 Observation and Participation or Special Education 489-210 Observation and Participation.

**Major Requirements:**
See the appropriate departmental pages for major, minor, and other departmental requirements.

**Minor Requirements:**
Special Education majors are not required to complete a minor. Students choosing to complete a minor should be aware that the minor will not be licensable unless all licensure requirements for that minor, including an additional student teaching experience are completed. This requirement is not listed on the Academic Progress Report.

Elementary PreK-6 majors are not required to complete a minor. Students choosing to complete a minor should be aware that the minor will not be licensable unless all licensure requirements for that minor, including any additional student teaching experience, is completed. This requirement is not listed on the Academic Progress Report.

Elementary/Middle (1-6) majors are required to complete a minor.

Elementary/Middle (1-9) majors are required to complete all the courses in an approved minor plus any additional licensure requirements for that minor. A special methods course in the minor may be required. This requirement is not listed on the Academic Progress Report.

Middle/Secondary Education majors are required to complete all the courses in an approved minor plus any additional licensure requirements for that minor. A special methods course in the minor may be required. This requirement is not listed on the Academic Progress Report.

Broadfield majors are not required to complete a minor. Students choosing to complete a minor should be aware that the minor will not be licensable unless all licensure requirements for that minor, including any additional student teaching experience, is completed. This requirement is not listed on the Academic Progress Report.

Foreign Language majors and/or minors must complete a foreign language immersion for each licensable area. Contact the Department of Curriculum & Instruction for more information on the immersion requirement.
Special Minors (requirements not listed on Academic Progress Report):

Bilingual Education:
Complete the approved minor and an additional student teaching or field study.

Health Education:
Complete the approved minor, health methods course, and additional student teaching (if required).

Library Media:
Complete the approved minor and two additional practicums.

Foreign Language:
Complete the approved minor, a methods course and a four-week immersion experience.

Writing Competency:
Students should contact the department office of their major for information concerning their writing requirement.

Teacher Licensure Requirements:
Required for students desiring to teach.

Students pursuing a BSE degree must achieve a minimum overall grade point average of 2.25, a minimum grade point average of 2.25 in the major and a minimum grade point average of 2.00 in the minor in order to graduate. A 2.75 combined licensure GPA including the major, minor and professional education sequence is required for a teaching license. Students pursuing a Safety Studies major must achieve a minimum overall gpa of 2.5 and a minimum gpa of 2.5 in the major.

DEPARTMENT OF COMMUNICATIVE DISORDERS

Phone: 262-472-1301
E-Mail: comdisrdr@uwwvax.uww.edu

Faculty: Scott Bradley, Patricia Casey, Roxanne DePaul, Giuliana Miolo, Lou Tomes and Mary Ward.

The major of communicative disorders prepares speech-language pathologists for graduate work in Speech-Language Pathology and Audiology. Speech-language
Pathologists and audiologists are specialists in human communication, its normal development, and disorders. They are professionally prepared to identify communication disorders in educational, medical and related settings and to offer assistance to persons with speech, language and/or hearing disorders. Specifically, speech disorders may be characterized by difficulty in producing speech sounds (articulation), maintaining speech rhythm or fluency, and controlling voice production. Language disorders may be characterized by an inability to appropriately use speech sounds, words and their meanings, and/or grammatical patterns.

MINOR

COMMUNICATIVE DISORDERS

MINOR - 22 CREDITS

1. DECLARATION OF THE MINOR AND SELECTION OF THE 22 REQUIRED CREDITS MUST BE DONE IN CONSULTATION WITH AN ADVISOR FROM COMMUNICATIVE DISORDERS

510 COURSE DESCRIPTIONS

510-210 OBSERVATION & PARTICIPATION IN COMMUNICATIVE DISORDERS 1-3cr
Offered on a satisfactory/no credit basis only. This course offers supervised observation and participation with preschoolers and individuals with communicative disorders on-campus and/or off-campus. Site availability, student level of academic and clinical performance and supervisory expertise will determine student section assignment. Repeatable for a maximum of 9 credits.
Prereq: 423-222 or 423-478 or concurrent enrollment in 420-243 or 510-380.
510-270 INTRODUCTION TO COMMUNICATIVE DISORDERS 3 cr
This course provides an overview of the etiology, identification and treatment of speech, language and hearing disorders across the lifespan.

510-272 PHONETICS AND ITS RELATED PROCESSES 3 cr
This course provides a basic understanding of phonology (the study of the structure and function of sounds in a language), and articulatory, physiological and acoustic phonetics. Students are trained to use the International Phonetic Alphabet (IPA) and a variety of informal protocols to record American Standard English, as well as the speech of clinically diverse populations (e.g., non-native, non-standard, multicultural speakers).

510-278 SPEECH SCIENCE I: ANATOMY AND PHYSIOLOGY 3 cr
This course provides information regarding the anatomy and physiology of the respiratory, phonatory, resonatory, articulatory and nervous systems underlying speech production.
Prereq: 510-270 or consent of instructor.

510-355/555 LANGUAGE DEVELOPMENT AND DISORDERS IN CHILDREN 3 cr
This course provides an overview of oral language development and its relationship to the development of social skills, literacy and learning. Language characteristics of children with exceptional educational needs are described and strategies for improving their communication skills are discussed.
Prereq: Restricted to students with Professional Education admission. Coursework in child growth and development is highly recommended.

510-371 INTRODUCTION TO CLINICAL PRACTICUM IN COMMUNICATIVE DISORDERS 3 cr
This course provides an introduction to the tasks and related competencies associated with clinical practice in speech-language pathology. Students will develop an understanding of treatment principles, procedures and programs used in clinical practice, and gain an understanding of the responsibilities and professional issues associated with the practice of speech-language pathology across work settings. By the end of the course the student will demonstrate knowledge of the scientific method, and treatment, management and communication skills used in the clinical and supervisory processes.
Prereq: Communicative Disorders major or cons instr.

510-375 SPEECH SCIENCE II: SPEECH ACOUSTICS, SPEECH PHYSIOLOGY AND SPEECH PERCEPTION 3 cr
This course provides a basic understanding of the principles of general and speech...
acoustics, speech physiology and speech perception. Prereq: 510-272 and 510-278 or consent of instructor.

**510-376 ARTICULATION AND PHONOLOGICAL DISORDERS 3 cr**
A study of the development of normal articulation and phonology and of the etiologies, symptoms, diagnosis, and treatment of articulation and phonological disorders. Prereq: 510-270 and 510-272 or consent of instructor.

**510-380/580 SPEECH AND LANGUAGE DEVELOPMENT 3 cr**
This course provides an introduction to the process and sequence of normal speech and language development in children birth to school-age. Theories of language acquisition and the role of cognition, the environment, and caregivers are discussed. A language sample is analyzed and interpreted using knowledge gained in the class. Prereq: Restricted to students with Communicative Disorders Major or consent of instructor.

**510-381 HEARING SCIENCE 3 cr**
A study of physical and psychological phenomena involved in audition to include 1) anatomy and physiology of the auditory system, 2) acoustics for the study of hearing, 3) development of pure tone hearing tests, 4) methods for measuring thresholds, and 5) psychophysical attributes to sound. Prereq: 510-270 or consent of instructor.

**510-385/585 FLUENCY DISORDERS 3 cr**
This course provides for the study of the theories of the cause and onset of fluency disorders such as stuttering and cluttering. It further introduces basic clinical and experimental approaches to these disorders.

**510-424/624 ORGANIC SPEECH DISORDERS 3 cr**
This course provides a basic understanding of how structural malformations of the vocal tract influence speech and voice production. The primary focus of study is on applying the principles of speech and voice science to communication deficits associated with structural changes in the vocal tract (for example, voice disorders, cleft palate speech disorders, and swallowing dysfunction). Prereq: 510-375 or consent of instructor.

**510-426/626 NEUROGENIC COMMUNICATIVE DISORDERS 3 cr**
This course provides a basic understanding of the neuroanatomic and neurophysiologic mechanisms underlying speech and language. The primary focus of study is on neuropathologies and how they influence brain/language relations (aphasia, dementia) and sensorimotor control for speech and swallowing (dysarthria,
dysphagia).
Prereq: 510-278 or consent of instructor.

510-444/644 OCCUPATIONAL HEARING CONSERVATION 3 cr
This introductory course assists the student in developing and managing an occupational hearing conservation program. Topics include the effect of noise on hearing, noise and hearing measurement, selection and fitting of hearing protectors, federal and state rules and regulations regarding hearing conservation, and the medicolegal and compensation aspects of hearing loss.
Prereq: Jr st or cons instr.

510-450 METHODS: COMMUNICATIVE DISORDERS 3 cr
A study of procedures and materials used in the public schools by speech and language clinicians. The course aids the student in the development of a workable philosophical approach with communicative disorders in the public schools.
Prereq: 423-212 or 423-222 or 423-478. Restricted to students with Professional Education admission.

510-460/660 PRACTICUM IN COMMUNICATIVE DISORDERS 3 cr
This course offers supervised practicum experiences: observation of communicative disorders, clinical work on-campus and/or off-campus, and supervision of practitioners or students. Client availability, student level of academic and clinical training, and supervisory expertise will influence student enrollment and section assignment. This course is repeatable for as many times as needed. Prereq: Undergraduate enrollment requires departmental approval and graduate students must enroll every semester.

510-472/672 ASSESSMENT IN COMMUNICATIVE DISORDERS 3 cr
This course introduces the theoretical and practical aspects of the assessment process in communicative disorders. Issues and methods involved in clinical decision-making are reviewed through case studies and applied activities. The interpretation and documentation of information collected during the assessment process are also discussed.

510-481/681 LANGUAGE DISORDERS IN CHILDREN 3 cr
This course introduces theoretical and clinical issues in child language disorders. Principles and methods relating to the assessment and management of developmental language disorder are discussed. The development of both content knowledge and applied skills are emphasized.
Prereq: Communicative disorders major or consent of instructor.
**510-482/682 AUDIOMETRY 3 cr**
This course is designed to provide information regarding the disorders of hearing and how different auditory evaluation procedures of the auditory system aid in the identification of specific types of hearing disorders. Training in performing different audiological testing procedures is provided as well as the interpretation of auditory test results.
Prereq: 510-381 or consent of instructor.

**510-483/683 AUGMENTATIVE AND ALTERNATIVE COMMUNICATION 3 cr**
This course reviews current approaches to augmentative and alternative communication. Alternative methods of communication other than speech and methods for augmenting residual speech skills are discussed. The course focuses on the development of basic skills for evaluating and providing intervention programs for individuals using alternative and augmentative communication systems.
Prereq: Consent of instructor.

**510-490/690 WORKSHOP 1-6 cr**
Repeatable

**510-491/691 TRAVEL STUDY 1-3 cr**
Repeatable

**510-494 SEMINAR 1-6 cr**
Repeatable. Prereq: Jr st and cons instr.

**510-496/696 SPECIAL STUDIES 1-3 cr**
Repeatable. Prereq: Jr st. or cons dept chp.

**510-498 INDEPENDENT STUDY 1-3 cr**
Repeatable. Prereq: Jr st or cons dept chp.

The Curriculum and Instruction Department provides three basic undergraduate teacher licensure programs and a minor in Bilingual Education.
The Prekindergarten-Elementary program (PreK-6 major) is designed for students who wish to obtain Wisconsin licensure to teach children from birth through the elementary grades. Embedded within the major is an early childhood minor; no other minor is required. The early childhood minor focuses on working with children in infant, toddler, and preschool settings, kindergartens and the primary grades. Within the PreK-6 major and early childhood minor, the student will work with young children in schools and programs across four Fall/Spring terms.

The Elementary/Middle program leads to licensure in teaching the elementary and middle level grades. The Program includes an elementary education major, an approved minor and a wide range of professional education courses. Special emphasis is placed on field work in schools and developing the skills to work with children who may vary widely in background and educational need. A special methods course in the minor may be required.

Middle/Secondary Education prepares students to teach in middle or junior high schools and senior high schools. Academic major(s), minor(s), or broadfield areas are complemented by educational foundations coursework, methods courses, and field work which qualify students for middle/secondary teaching licensure. For Middle/Secondary Education majors to be certified in their minor as well as their major, they must have a methods course in the minor unless the major and minor are in a compatible area. A listing of compatible majors and minors is available in the Curriculum and Instruction Office.

The Bachelor of Science with an Elementary/Middle or Middle/Secondary Education major with a minor in bilingual-bicultural education is designed to provide instructional strategies and cultural understanding for undergraduate/graduate students. The credential program has been designed to acquaint candidates with the rationale, methods, techniques, and procedures of Bilingual-Bicultural instruction.

In addition to the programs offered through the department, the department supports broad area majors in several fields. Broad area major requirements are as follows: (Education Licensure Programs are also available.)

Art Education:
The major in art education is outlined under Art.

Business Education:
Majors in business education are outlined under Business Education.

Driver Education:
The program in driver education is outlined under Safety Studies.
Music Education:
Majors in music education are outlined under Music.

Physical Education:
The broadfield major in physical education is outlined under Health, Physical Education, Recreation and Coaching.

Middle-Level Licensure

To qualify for a license to teach at the middle level as well as in grades 1-6, students in the Elementary/Middle Emphasis must complete all the courses in an approved minor plus any additional licensure requirements for that minor. Special licensure requirements for certain minors include the following (refer to descriptions of the minors for details):

_Bilingual/Bicultural Education minor:_
Complete bilingual student teaching or field study;
Foreign Language minor:
Complete a methods course and a four-week immersion experience;

Health Education minor:
Complete a health methods course;

Library Media K-12 minor:
Complete practicum coursework.

MIDDLE/SECONDARY EDUCATION (6-12)

Middle/Secondary Education programs prepare students to teach specific subjects in grades 6-12. Students in Middle/Secondary Education complete an Education major in one of the subjects from the list below, plus a minor of at least 22 credits in any other subject:

Education Majors:

- Biology
- French
- Physical Science
- Chemistry
- Geography
- Physics
- Earth Science
- German
- Political Science
- Economics
- History
- Psychology
- English
- Mathematics
- Sociology
- Spanish
- Theatre

For descriptions of courses required in each major, look under that subject in this catalog.
A set of courses consisting of at least 12 credits from each of two closely related subjects from the list above may be substituted for the minor. Consult an adviser in the Department of Curriculum and Instruction to determine approved combinations.

Broadfield majors, which prepare students to teach a set of related subjects in grades 6-9, and selected subjects from the set in grades 10-12, are available in Science and Social Studies. Students who complete a secondary broadfield major select an emphasis subject within the broadfield, and they do not need to complete a minor. Secondary broadfield majors include the following:

- General Science-Broadfield (choose from several emphasis areas - refer to specific sciences)
- Social Studies Broadfield (choose from several emphasis areas - refer to specific social sciences)

**Licensure Minors**

Students who select a minor as well as a major from the list of Education majors may obtain a 6-12 teaching license in both the major and minor subjects. To do so may require taking an additional methods course, depending on how closely the two subjects are related. Consult an adviser in the Department of Curriculum and Instruction to determine whether a particular major-minor combination requires more than one methods course for licensure in both subjects.

Middle/Secondary level licensure may also be obtained in the following subjects by completing any of the following minors in conjunction with any education major from the list above:

- Bilingual/Bicultural Education (Bilingual Education License)
- Coaching (Coaching Athletics License)
- Computer Science Education (Computer Science License)
- Health Education (Health License)
- Library Media K-12 (School Media Specialist Provisional License)
- Dance Secondary Education (Dance License)
- Philosophy Education

Licensure for grades 6-12 may be obtained through a minor in the following two areas, but only in conjunction with an Education major in English:

- Journalism (Journalism license)
• Speech Secondary Education (Speech license)

Students seeking licensure to teach psychology, whether through a minor or a major, must select an Education major in another of the social sciences. Students seeking licensure in Computer Science must take 437-428, Methods of Teaching Mathematics. Students seeking licensure in Philosophy must take 437-430, Methods of Teaching Social Studies.

Note that middle-level (6-9) licensure may also be obtained in most of the subjects listed in this section by completing a minor in conjunction with an Elementary Education major.

Middle/Secondary school licensure options are also available in the Art Education, Business Education, Music Education, and Physical Education programs. Refer to descriptions of those programs in this catalog for details.

Licensure courses in 6-12 programs

In addition to major and minor requirements, students in middle/secondary programs complete coursework and field experiences that provide opportunities to synthesize and apply knowledge of subject matter in middle schools and high schools. A typical sequence of courses is as follows:

1. Exceptionalities course (3 credits)
2. Pre-Professional Block (9 credits):
   (Prerequisites: G.P.A. of 2.4 or better and passing scores on at least two parts of the Pre-Professional Skills Test; refer to Educational Foundations for course descriptions)
   - Education in a Pluralistic Society
   - Educational Psychology
   - Observation and Participation-Secondary
   (Refer to Educational Foundations for course description)
4. Methods Block (at least 11 credits):
   (Prerequisite: Admission to Professional Education)
   - Methods course(s) in the licensure subject(s)
   - Developmental Reading in the secondary school
   - Secondary Field Studies
   - Directed Teaching-Alternate Experience
5. Directed Teaching in the major subject
   Note: Students who do Directed Teaching in a high school must do Directed
   Teaching-Alternate Experience in a middle school, and vice versa.

**Subject-Specific Licensure Requirements**

In addition to the above licensure sequence, which is common to all middle/secondary
programs, some subjects require additional coursework beyond the major in order to
obtain licensure. Refer to the course descriptions in each department for details. Note
that the Academic Progress Report (APR) lists the specific licensure requirements for
only one subject. Students seeking licensure in more than one subject are responsible
for all requirements listed under licensure in each of the subjects whether they appear
on the APR or not. Refer to particular departments for details.

Important subject-specific licensure requirements include the following:

- Social sciences majors (except Psychology) must complete coursework in
economic cooperatives and environmental studies as specified for the major;
- Science majors must complete coursework in environmental studies as
specified;
- English majors must complete coursework in literature for adolescents and
literature by authors belonging to American minority groups as specified for
the major;
- Foreign language majors, within three years of taking the methods course,
must complete a four-week residency requirement in a location where the
foreign language is the predominant medium of communication.
- Bilingual/Bicultural Education minors must complete bilingual student
teaching or field study;
- Health minors must complete a methods course in health;
- Library media minors must complete practicum coursework.

**BILINGUAL/BICULTURAL EDUCATION MINOR**

The Bachelor of Science with an Elementary/Middle or Middle/Secondary Education
major with a minor in bilingual-bicultural is designed to provide instructional
strategies and cultural understanding for undergraduate/graduate students working or
planning to work with bilingual students. The licensure program has been designed to
acquaint candidates with the rationale, methods, techniques, and procedures of
bilingual-bicultural instruction. Basic entry requirements are: (1) the possession of a teaching license or concurrent enrollment in a program leading to a license; (2) competency in Spanish as determined by a Spanish language proficiency examination; (3) a GPA of 2.15 or higher. The Bilingual/Bicultural minor consists of a core of 24 semester credits.

DEPARTMENT OF HEALTH, PHYSICAL EDUCATION, RECREATION AND COACHING

Phone: 262-472-1140
E-Mail: hperc@uwwvax.uww.edu

GENERAL EDUCATION requirements include a personal health and fitness course for all University students. Additional opportunities exist for the study of health-related physical fitness and/or participation in team, individual, and high risk adventure sports as leisure-time activities at a beginning or intermediate level. Courses offered are available to all students and promote a knowledge of sports and activities which stress the importance of the benefits derived from regular participation in physical activity.

PHYSICAL EDUCATION MAJOR programs provide opportunities supporting both licensure to teach in the public schools, and preparation for careers outside the public schools in health, physical education, recreation and coaching. There are three physical education major programs: (1) a 54-credit major and includes course work leading to a broadfield (K-12) public school licensure, (2) a 35-credit major, requiring a minor leading to an elementary (K-9) public school license, and (3) a 35-credit non-
licensure sub-major, also requiring a minor, leading to careers outside the public schools.

*PHYSICAL EDUCATION FOR SPECIAL STUDENT LICENSURE* provides a 15-credit 860 certification in adapted physical education.

HEALTH MINOR/EMPHASIS

Health education minor provides opportunity to explore knowledge, attitudes and
experiences in differing health fields. A holistic approach is used to determine the
impact that health education, health maintenance, and health promotion/wellness
have on various lay and professional populations. Either public school teaching
licensure or non-licensure health minors are available.

RECREATION/LEISURE STUDIES MINOR/EMPHASIS

The recreation and leisure service profession is interdisciplinary in nature requiring educational training both of a general and specialized nature. Many of the areas of specialization fall within the realm of business, education, sociology, social welfare, psychology, physical education, public administration, communications, geography,
theatre, art, and music. It is for this reason that the minor is an interdisciplinary minor which is designed to enhance the student's major area of professional preparation and expand their employment opportunities to include related recreation and leisure fields of employment.

Faculty:
ARMY: Kenneth B. Black (Co-Chairperson), Brenda D. Firari, Michael J. Laskowski, Charles J. Olsen.
AIR FORCE: Gregory D. Denney (Co-Chairperson), Erik J. Bruce, Todd J. Weyerstrass.

The Leadership, Military Science and Aerospace Studies Department offers an interdisciplinary study of leadership which is available to any student on a non-discriminatory basis and may be taken without incurring a military service obligation. Students may pursue one or both of the two departmental programs (I) LEADERSHIP MINOR, (II) COMMISSION in the US Army, Army Reserve or Army National Guard, or (III) COMMISSION in the US Air Force.

I. LEADERSHIP AND MILITARY SCIENCE MINOR

This interdisciplinary minor is for students desiring instruction, practical experience and credentials in leadership. The courses studied provide students with the specialized leadership knowledge and training required to be a successful supervisor, manager or administrator and is universally applicable across a broad spectrum of professions. The two available options provide additional specialization for students with interests in either a civilian or military career. The completion of this program provides college students with a valuable minor and valuable credentials which are in high demand by future employers. Students enrolled in a business related major should definitely consider this complementary minor as a valuable credential for entry into their chosen career field.

Academic Eligibility
No specific academic eligibility requirements exist for students who pursue a leadership minor. Students seeking an Army commission must have a minimum of two years remaining in their academic program - undergraduate or graduate.

MINOR - 21 CREDITS

1. COMPLETE ONE GROUP OF COURSES FOR EITHER CIVILIAN LEADERSHIP, MILITARY LEADERSHIP- ARMY OR MILITARY LEADERSHIP-AIR FORCE
   a. LEAD 450-210, 450-211, 450-220 AND 450-221
   b. LEAD 450-310, 450-320 AND 450-420
   c. LEAD 450-301, 450-302, 450-401 AND 450-402
2. 2. LEAD 450-410 AND PHIL 782-410
3. 3. SELECT 3 CREDITS FROM COURSES (BEHAVIORAL) PHIL 782-261, PSYC 840-211, SOC 880-140 OR INTR 940-246
4. 4. SELECT 3 CREDITS FROM COURSES (HISTORICAL) HIST 740-390, 740-392 AND 740-401

UNIQUE MINOR REQUIREMENT - 3 CREDITS

1. SELECT 3 CRED FROM COURSES B ED 220-353, ENGL 680-370 AND 680-372 RLS

II. COMMISSION

Army

The academic pursuit of a commission as an officer in the United States Army is accomplished simultaneously as students meet the prerequisites for a degree in the discipline of their choice; either undergraduate or graduate. The Army Reserve Officers' Training Corps (ROTC) offers a progressive leadership education program that combines challenging academic study and practical training experiences in the theories, concepts and principles of leadership.

Additional emphasis is also placed on organizational dynamics, resource management and ethical decision making. The completion of this departmental program prepares
the college student to receive a commission as a Second Lieutenant in the United States Army, Army Reserve or Army National Guard.

The commission program is generally divided into a two-year Basic Phase (freshman and sophomore) and a two-year Advanced Phase (junior and senior). Alternate means of completing the on-campus Basic Phase are available to students desiring to enter the program at the Advanced Phase level. Students seeking a commission will be provided administrative assistance and counseling guidance by a faculty adviser from the Department of Leadership, Military Science and Aerospace Studies.

Students must have a minimum of two years remaining in their academic program - undergraduate or graduate - to successfully complete the academic program for a commission. During this period of upper division courses the qualified students will have a contractual commitment between themselves and the United States Army. In exchange for participation in the program, a student will receive $150 a month during the school year (up to $1500 maximum) and approximately $700 plus paid travel to attend the Advanced Leader Camp (450-440) normally conducted near Seattle, Washington, at Fort Lewis. In all, the student receives about $3,700 during the two year advanced phase. Application for the Advance Phase should be initiated as early as possible by contacting the Department of Leadership, Military Science and Aerospace Studies, Room 111, Salisbury Hall.

**Air Force**

Students may also pursue a commission as an officer in the United States Air Force while simultaneously satisfying the academic requirements of their major. The Air Force ROTC program combines its leadership and organizational education with practical experience in personnel and resource management. This marriage of training and application provides a challenging environment to prepare future officers with the skills they will need to succeed on Active Duty or, on occasion, in the Reserves or Air National Guard.

Participants in Air Force ROTC can potentially complete the program in as little as 2-1/2 years. Though no flight training is offered during ROTC, elements of their ROTC training will contribute directly to their competitiveness for selection as a pilot or navigator. Similarly, for those not interested in flying, their ROTC participation will allow them significant influence over their future options as an officer. All participants will attend a summer Field Training camp, typically between their Sophomore and Junior years. In addition, ROTC cadets can compete for a wide range of summer orientation programs, including parachute or glider training, "shadow"
programs at an actual Air Force installation, field trips, duty as an assistant instructor during a Field Training camp, etc.

During the final two years of the program participants will receive $150 a month during the school year. In addition, up to $3,500 in financial assistance for tuition, books and fees may be provided based on academic and ROTC performance. Travel pays and Field Training camps pay are in addition to these amounts. For more information and to apply for Air Force ROTC membership, individuals should stop by the Air Force offices in the Department of Leadership, Military Science and Aerospace Studies.

SCHOLARSHIPS

The US Army ROTC scholarship student leads essentially the same life as other college students. They may pursue the academic degree of their choice and they carry a normal academic course load. However, unlike the normal college student, the Army ROTC scholarship student receives tuition, laboratory fees, on-campus educational fees, and a flat rate of $225 a semester from which they may purchase textbooks, classroom supplies and equipment. Army ROTC scholarship winners also receive a tax-free subsistence allowance of $150 a month for 10 months for each year that the scholarship is in effect. Scholarships at UW-Whitewater are worth approximately $3,500 a year and they are available for 2, 3, and 4 year periods to both men and women. Scholarship recipients are required to enroll in the ROTC Program in order to receive financial benefits. Scholarship applications are available at Room 111, Salisbury Hall.

Similarly, the Air Force offers a series of scholarship incentives to participate in their commissioning program. Though some are aimed at technical fields, others address under-represented ethnic or racial groups in the Air Force, and others reinforce and recognize outstanding progress/participation in the program. Normal scholarships will cover the cost of tuition, books and certain fees up to $7,500 per semester. Incentive scholarships are $1,750 per semester ($1,000 for tuition, $250 for books/fees). In addition, scholarship winners and contract members in the last two years of training receive a payment of $150 per month. For example, a cadet who receives an incentive scholarship for the last two years, coupled with the monthly allowance, would receive approximately $3,850 dollars in financial assistance per year.

NATIONAL GUARD/ARMY RESERVE PROGRAM
Qualified enlisted personnel currently serving in the US Army National Guard or US Army Reserve are permitted to simultaneously participate in the Advanced Course ROTC Officer Training program while enrolled as a full time student. Students participating in this program gain practical leadership experience while serving as a Cadet Officer Trainee with either the Army Reserve or National Guard. Both programs offer many financial benefits.

Though National Guard and Reserve members may participate in Air Force ROTC, prior to entry into their last two years of training they will be required to get a "Conditional Release" from them. For details on any ROTC program and eligibility requirements contact a representative in Salisbury Hall, Room 111.

450 COURSE DESCRIPTIONS

450-101 THE FOUNDATIONS OF THE UNITED STATES AIR FORCE I 1 cr
Establishes introductory framework for understanding USAF organizational structure, core officership values, customs and courtesies, chain of command, rudiments of career benefits, and group leadership.

450-102 THE FOUNDATIONS OF THE UNITED STATES AIR FORCE II 1 cr
Continues building on framework for understanding USAF organizational structure, officership values, communicative skills, customs and courtesies, and Air Force missions.
Prereq: 450-101 and 450-201 (waiverable by dept. chairman under unusual circumstances with commitment to six (6) week field training encampment.)

450-110 INTRODUCTION TO MILITARY SCIENCE 2 cr
An introductory study of leadership with emphasis on the role, development, authority, and professional knowledge required of an Army officer. The theoretical study is enhanced with practical leadership experience through the use of the military model and examining leadership application to the civilian management process. Classroom instruction includes hands on reinforcement of basic military skills.
Prereq: Restricted to Freshmen, Sophomore, Junior

450-111 LEADERSHIP LABORATORY 1 cr
Students apply basic concepts and principles of leadership in actual situations complementing instruction learned in 450-110. Emphasis is on understanding group dynamics and increasing student expertise in communication and motivational skills.
In addition, basic military skills are learned and practiced in this two-hour lab once per week.

**450-120 INTRODUCTION TO LEADERSHIP 2 cr**
An introductory study of leadership with emphasis on communications, management, authority and responsibility. The theoretical study is enhanced with practical leadership experience through the use of the military model and examining leadership applications to the civilian management process.
Prereq: Restricted to Freshmen, Sophomore, Junior

**450-121 LEADERSHIP LABORATORY 1 cr**
Students apply basic concepts and principles of leadership in actual situations complementing instruction learned in 450-120. Emphasis is on understanding group dynamics and increasing student expertise in communication and motivational skills. In addition, basic military skills are learned and practiced in this two-hour lab once per week.

**450-201 THE EVOLUTION OF US AIR AND SPACE POWER I 1 cr**
Establishes framework for understanding USAF history and development of air power; focuses on evolution of air power concepts and doctrine, and the role of technology in growth of airpower. Also, applies knowledge of both written and communicative skills.
Prereq: 450-101 and 450-102 (waiverable by dept. chairman with commitment to six (6) week field training encampment)

**450-202 THE EVOLUTION OF US AIR AND SPACE POWER II 1 cr**
Continues to build framework for understanding USAF organizational structure, core officership values, customs and courtesies, chain of command, and group leadership skills. Builds basic understanding of USAF communicative processes, both oral and written. Macro examination of aerospace doctrine, USAF mission, characteristics of offensive and defensive airpower as related to their historic application.
Prereq: 450-101 (waiverable).

**450-210 BASIC LEADERSHIP I 2 cr**
Students will develop abilities to analyze, evaluate and solve leadership problems. Emphasis is on the group dynamics associated with communication and motivational skills. Different leadership models and styles will be examined and discussed for practical application in both civilian and military careers.

**450-211 LEADERSHIP LABORATORY 1 cr**
Students apply basic concepts and principles of leadership in actual situations complementing instruction learned in 450-210. Emphasis is on understanding group
dynamics and increasing student expertise in communicational and motivational skills. In addition, basic military skills are learned and practiced in this two-hour lab once per week.

450-220 BASIC LEADERSHIP II 2 cr
Continues the study of organizational leadership and the development of leadership skills. Emphasis is on examination of contemporary civilian and military leadership styles and methods, group dynamics, staff functions, management styles and techniques, and the development of interpersonal communicative skills. Prereq: Restricted to Freshmen, Sophomore, Junior

450-221 LEADERSHIP LABORATORY 1 cr
Students apply basic concepts and principles of leadership in actual situations complementing instruction learned in 450-220. Emphasis is on understanding group dynamics and increasing student expertise in communicational and motivational skills. In addition, basic military skills are learned and practiced in this two-hour lab once per week.

450-224 MILITARY CONDITIONING II 1 cr
An introductory study for men and women, of military calisthenics and conditioning designed to develop both individual fitness and the leadership skills essential to the management of an effective physical fitness program. Repeatable. Prereq: 440-187.

450-240 LEADERSHIP CAMP 3 cr
A six week summer practicum, conducted at an Army installation. Provides an opportunity for students to familiarize themselves with the military profession without any service obligation. Military and leadership skills are developed during this challenging experience which qualifies students for basic training and possible entry into the ROTC commissioning program. Students will receive travel, meals, lodging and will be paid while in attendance. Prereq: cons dept chp.

450-301 LEADERSHIP STUDIES I 3 cr
Focuses on leadership and management fundamentals, leadership ethics and decision making. Introduces unique Air Force perspectives on quality management. Increases emphasis on communicative, group leadership, and counseling skills. Prereq: Satisfactory completion of the General Military Course (GMC) or GMC-waiver which was contingent on attendance of a six (6) week field training encampment. The POC is not open to the general student population.

A study of leadership and management using the military model. Examines leadership
and management theories and their effect on group dynamics. Emphasis on
management, professional ethics, customs, courtesies, training techniques and the
practical application of the principles of leadership doctrine.
Prereq: 450-220 or cons instr.

450-311 LEADERSHIP LABORATORY 1 cr
Advanced leadership concepts and skills are applied in actual situations commencing
at an intermediate level and progressing through higher management positions.
Increased emphasis on mentorship, group dynamics and management functions
complements the instruction presented in 450-310. Meets two hours once per week.

450-320 ADVANCED LEADERSHIP 3 cr
A study of tactical military leadership and management principles. Discussion and
practical application of military principles and small units tactics. Emphasis on
problem analysis, decision making and leadership. Provides the opportunity to
develop individual potential and demonstrate leadership capability. Prepares the
student to successfully negotiate 450-440.
Prereq: 450-310 or cons instr.

450-321 LEADERSHIP LABORATORY 1 cr
Advanced leadership concepts and skills are applied in actual situations commencing
at an intermediate level and progressing through higher management positions.
Increased emphasis on mentorship, group dynamics and management functions
complements the instruction presented in 450-320. Meets two hours once per week.

450-330 LAND NAVIGATION 1 cr
A study of the principles required to navigate using topographic maps. Emphasis is on
developing student familiarity with geography, topography, and the use of land
navigation instruments. The use of aerial photograph interpretation and concepts of
map development will be examined. Classroom instruction is complemented with
practical application field trips.
Prereq: Cons instr.
740-390 AMERICAN MILITARY HISTORY 3 cr
See History.

740-392 HISTORY OF NATIONAL STRATEGY AND SECURITY POLICY DEVELOPMENT—1935 TO PRESENT 3 cr
See History.

450-401 NATIONAL SECURITY AFFAIRS 3 cr
Examines the need for national security; analyzes the evolution and formulation of the American defense/national security policy and strategy; examines American concept of civilian control of the military; explores conflict management, alliances and regional security issues; enhances understanding of Air Force major command structure and joint responsibilities; expands focus on the Military as a profession and continues to refine communicative skills.
Prereq: Officer candidates must have successfully completed Field Training, the USAF sponsored and funded summer encampments typically held between the Sophomore and Junior year, or between the Junior and Senior year in exceptional cases. Successful completion of all AF ROTC AS300 coursework.

450-402 PREPARATION FOR ACTIVE DUTY 3 cr
Continues the examination of the need for national security; analyzes the evolution and formulation of the American defense/national security policy and strategy; examines the Uniform Code of Military Justice (UCMJ) and the military justice system; analyzes the Law of Armed Conflict; expands focus on the Military as a profession and continues to refine communicative skills.

Safety Studies encompasses the study of: Accident Prevention, Health Engineering Controls, Loss Control, Environmental Regulation, and Property Protection. The course of study deals with the management of risk to enhance the health, safety, and productivity of employees and an organization's compliance with the various governmental regulations.

Driver Education Licensure is part of the Safety Studies Department curriculum. This is a Department of Public Instruction approved program which provides current or potential licensed teachers an additional certification to teach driver's education. This is not a stand alone certification/licensure.

Introduction to Safety, Behavioral Aspects of Accident Prevention, and Alcohol and Other Drugs are useful and appropriate courses for all students in undergraduate studies, especially those in education. Industrial Accident Prevention is an appropriate course for students entering business and occupational professions.

**DRIVER EDUCATION LICENSURE 15 - 17 credits**

Licensed elementary, junior high, or secondary school teachers in any subject area can become licensed to teach driver education if they complete these courses:

**MAJORS/EMPHASES**

Major Grade Point Average Requirement:
Students entering the safety program are Pre-Safety majors until they complete Introduction to Safety, Industrial Accident Prevention and the first semester of Chemistry with a minimum grade point average in these courses of 2.5.

GPA Requirements for Internship and to Graduate:
To obtain an internship and graduate the student must have a minimum 2.5 GPA in the major and as an overall college average.
Writing Proficiency Requirement:
See chairperson for course(s) that satisfy this requirement.

460 COURSE DESCRIPTIONS

Field trips may be required for any of the courses.

GENERAL (460)

460-251 INTRODUCTION TO SAFETY 3 cr
Presents a systematic account of the foundations of safety to students with little previous knowledge of the subject. It presents the accident problem, philosophical implications, concepts of accident causation and countermeasures, and an overview of specific areas of safety concern: fire, water safety, traffic, disasters, etc.

460-255 ALCOHOL AND OTHER DRUGS GI 3 cr
An investigation into the physiological, psychological and sociological problems presented by the use of alcohol and other drugs. Prevention and treatment programs will be examined. Other areas of study will include alcohol and traffic safety, alcohol and other drugs education and employee assistance programs.

460-381/581 MOTOR FLEET SAFETY 3 cr
An analysis of fleet safety problems and programs. Detailed study of the truck transportation industry, motor carrier responsibilities, federal regulations and safety supervision programs.
Prereq: 462-380 or cons instr.

460-450/650 BEHAVIORAL ASPECTS OF ACCIDENT PREVENTION 3 cr
Selected theories of accident causation and countermeasures are studied. Examination of physiological, medical, psychological, and sociological factors which influence behavior, and methods for modifying unsafe behavior.
Prereq: Soph st or cons instr.
460-453/653 LEGAL ASPECTS IN SAFETY 3 cr
An examination of federal and state laws with judicial interpretations having application to traffic, school, and occupational safety, and the liability of public officials. Problems such as teacher liability, professional liability, workers' compensation, insurance, and product safety laws will be dealt with in respect to their involvement with either industrial, school, or public liability.
Prereq: Jr st or cons instr.

460-470 SEMINAR — SAFETY 2 cr
This seminar will provide emphasis on independent study research and inquiry and an opportunity for discussion and evaluation of professional internship experiences.
Prereq: Department approval required. Concurrent enrollment in 469-492 and 2.50 GPA in major.

460-488/688 ERGONOMICS 3 cr
This course is intended to provide the student with basic introductory information concerning human information processing capabilities and limitations. Ergonomic strategies for preventing manual material handling, repetitive motion injury and ergonomic design and evaluation of man-machine systems will be included in the course.
Prereq: Cons instr.

460-490/690 WORKSHOPS IN SAFETY EDUCATION 1-6 cr
Repeatable three times for a maximum of 9 credits in major/degree. Prereq: Consent of instructor.

460-491/691 TRAVEL STUDY 1-3 cr
Repeatable

460-496/696 SPECIAL STUDIES 1-3 cr
Repeatable three times for a maximum of 9 credits in major/degree. Prereq: Consent of instructor.

460-498 INDEPENDENT STUDY 1-4 cr
May be retaken four times for a maximum of 4 credits in major/degree. Prereq: Consent of department. Restricted to students with Jr or Sr standing and majors, minors and licensure/certification candidates.

TRAFFIC SAFETY (461)

461-260 BASIC TRAFFIC SAFETY 3 cr
Presents the traffic problem in today's society with an overview of the concepts used
in traffic accident prevention. Human, vehicle, environmental and legal factors are studied in their relationship to the total problem.

461-461/661 PROBLEMS AND MATERIALS OF DRIVER EDUCATION 3 cr
Emphasis is placed on driver and traffic safety education professional issues and classroom curricular content, methods and resources. Organization and administration of the high school program will also be examined.
Prereq: 461-260 or cons instr.

461-464 TECHNIQUES OF LABORATORY INSTRUCTION 1-5 cr
A variable credit course designed to provide the student with the techniques of the in-car, simulation, and multiple car methods of laboratory instruction. Practical experience with beginning drivers will be arranged. Credit is determined by number of phases of laboratory instruction in which student participates.
Prereq: 461-461 or cons instr.

INDUSTRIAL SAFETY (462 & 463)

462-380 INDUSTRIAL ACCIDENT PREVENTION 3 cr
A combination of principles and practices designed to provide the student with a basis for understanding the nature of occupational accident prevention and loss reduction. The topics to be examined include legislative aspects, accident causation, strategies for minimizing injuries and losses, and sources of assistance in resolving safety and health problems.

462-382/582 SAFETY IN THE CONSTRUCTION INDUSTRY 3 cr
This course examines the practices and safety-related problems found in the construction industry. Administrative and organizational issues that impact construction safety programs are examined. Students will be introduced to specific problems and countermeasures for correction through lectures and field experiences. The course provides an overview of applicable OSHA and MSHA standards.
Prereq: 462-380 or consent of instructor.

462-383/583 INTRODUCTION TO SECURITY 3 cr
A study of the physical, personnel, and informational aspects of the security field. Concepts of these areas will be integrated with safety management concepts and will be discussed in relationship to industrial and business environments.

462-457/657 PRINCIPLES OF OCCUPATIONAL EPIDEMIOLOGY 3 cr
This course will introduce the principles of occupational epidemiology and discuss the application of these principles in the recognition, control and prevention of disease and injury. The course will review the etiology of various acute, chronic, infectious,
occupational and environmental diseases.
Prereq: 230-245 or 423-482 or 760-231

462-480/680 INDUSTRIAL HYGIENE INSTRUMENTATION 3 cr
Occupational Safety students will gain a working knowledge of Industrial Hygiene and Safety equipment, which will aid them in recognizing, analyzing, and evaluating specific health hazards in industrial settings. Chemical, physical, biological and ergonomic hazards will be evaluated for potential hazards involving: noise, heat, cold, ionizing radiation, nonionizing radiation, ventilation, electrical illumination, hazardous atmospheres, and other related environments.
Prereq: CHEM 102 and CHEM 104 or one year of general college chemistry, SFTYIND 484 or con reg or cons instr.

462-481 ANALYSIS AND DESIGN FOR SAFETY IN INDUSTRIAL OPERATIONS 3 cr
The course examines the need for an interpretation of occupational safety and health standards. Emphasis is placed on local, state, federal and association standards to numerous applications including materials handling and storage, powered industrial trucks, machine guarding, working with hot and cold metals, welding and cutting, electrical hazards and flammable and combustible liquids. Class visitations to selected industries will be scheduled to assist students in understanding industrial and plant processes and to recognize potential hazards.
Prereq: Senior status and 462-380

462-483/683 INDUSTRIAL SAFETY MANAGEMENT 3 cr
Emphasis will be on the organizational and administrational problems that relate to an occupational accident prevention program. The course is especially designed for students majoring in the business related areas as well as teachers and future safety professionals who desire to emphasize an understanding of these management problems as well as some applicable solutions.
Prereq: 462-380 or cons instr.

462-484/684 INDUSTRIAL HYGIENE 3 cr
An introduction to the science and art of industrial hygiene, including the chemical, physical, and biological agents which affect the health and safety of employees; the application of control measures for the various agents.

Special Education prepares personnel to work with individuals who have a variety of
disabilities. The program offers alternatives in preparing professional staff to serve
different age groups ranging from infant/toddler/preschool through programs serving
adolescents. Selection of sequences which emphasize varying degrees of disability
from mild through severe profound are available.

MAJOR/EMPHASES

Students majoring in special education are expected to meet Departmental
Continuation Standards. These standards are designed to provide a wide range of
experiences with children and adolescents with exceptionalities. Fulfillment of these
experiences is an avenue to test your own attitudes toward working with disabled
persons, as well as providing a background to complement and make the academic
program more relevant. Students who do not complete the standards will need to
meet with their adviser to discuss their extent of involvement.
1. You are expected to participate in a minimum of 20 hours of volunteer experience each semester with individuals with exceptionalities. Students enrolled in a special education course require such experiences during a specific semester, or are enrolled in directed teaching, are exempt from this standard. Assistance in locating an appropriate field experience site/program can be obtained from your adviser.

2. Participation in a student organization/group serving those with exceptionalities or an education association is expected. Some of these organizations are: SCEC, SAS, ACE, Best Buddies, In Education, and SWEA.

3. At least 15 credits of coursework in the Department of Special Education at this University is required prior to acceptance into Directed Teaching.

Writing Proficiency Requirement:
Requirement accomplished in several courses within the emphasis course sequence. Grades of Incomplete, D or F in special education courses (prefix 480 or 489) must be removed before the student can enroll in 489-411 (A-H) Directed Teaching.

The College of Letters and Sciences seeks to assist you in developing the knowledge, understanding, skills, and appreciation which will enable you to live a rich, full life as well as succeed in your chosen profession. A background of study in the liberal arts is the distinguishing characteristic of the university graduate. Whatever your vocational aspiration, your liberal arts study will heighten your potential for personal and professional development. The major and minor programs of study within the College of Letters and Sciences build upon this liberal arts background and assist you in developing in-depth understanding of your chosen field of study.

**MAJORS AND MINORS**

The College of Letters and Sciences offers the Bachelor of Arts and the Bachelor of Science degrees, with majors in the following areas:

Biology  
Management Computer Systems
Letters and Sciences majors may choose a minor from most of the areas listed above, or from the following:

- Art
- Art History
- Art Management
- Asian Studies
- Coaching
- Communicative Disorders
- Computer Science
- Criminal Justice
- Dance
- Environmental Studies
- English as a Second Language
- Geology
- Gerontology

Certificate Program in Paralegal Studies

Professional Minor in Business Studies:
This minor is designed for students who wish to combine a liberal arts education with preparation for a career in some area of business. Nine areas of emphasis are available:

- Accounting
- Business Law
- Finance
- General Business
- Management General
- Management Human Resources
- Management Production
- Marketing
- Office Systems

Majors in these areas are not available through the College of Letters and Sciences degree programs.

**LETTERS AND SCIENCES BACHELOR OF ARTS OR BACHELOR OF SCIENCE WITH TEACHING LICENSURE**

If you are working toward the Bachelor of Arts or Bachelor of Science degrees in the College of Letters and Sciences and also wish to be licensed to teach, you must fulfill all the requirements for the appropriate degree. In addition, you must complete all the requirements for licensure. Confer with the Director of Licensure in the College of Education during your freshman year if you are interested in this option.

UW-Whitewater offers opportunities for you to obtain pre-professional work in a number of fields. In some areas, such as law and medicine, you will complete the Bachelor of Arts degree or Bachelor of Science degree before being admitted to a professional school. Other pre-professional programs at UW-W provide one, two or three years of study for students who will then transfer to a professional school. While at UW-W you will be obtaining a well-rounded liberal education recommended by professional schools in addition to introductory courses in your professional area.

If you transfer to a professional school at the conclusion of your junior year, you may have a part of your work in the professional school applied toward completion of the bachelor's degree at UW-Whitewater. Details must be worked out with the Dean of the College of Letters and Sciences prior to your junior year.

As a student in a pre-professional curriculum you will be assigned to a faculty adviser who is familiar with the requirements for admission to professional schools in your area of interest. If you have chosen a specific professional school, your adviser will help you to develop a program which meets the requirements of the institution to which you plan to apply. If you have not decided on a professional school, your adviser will help you develop a flexible program while aiding you in the search for a school to meet your needs. In Pre-Engineering, UW-W has a transfer agreement with UW-Platteville whereby students who perform satisfactorily may be automatically accepted into its Engineering program (contact a Pre-Engineering adviser for details).

Every effort is made to assist you in your admission to the professional school of your choice; however, you should be aware that admission to some programs is
extremely competitive and whether or not you are admitted will depend upon your academic record and your scores on admissions tests.

For further information on the pre-professional curriculums available at UW-W please contact one of the advisers listed above.

INDIVIDUALIZED OPPORTUNITIES WITHIN THE CURRICULUM

Individually Designed Major. If you wish to focus your study on a topic or problem area which falls outside the limits of the traditional major programs, you, together with your adviser, may design your own individually designed major. This individualized major permits an integration of the courses and programs offered by the University. For details and requirements of this major see Index.

Individually Designed Minor. The individualized minor can help you meet educational goals which cannot be met by the conventional minor programs. You can plan your own minor consisting of courses in areas related to your goals. See Index for details and requirements.

HONORARY FRATERNITIES

Alpha Delta Mu is a national social work honor society which encourages and recognizes superior scholarship in social work education. Membership is based on overall grade point average and is open to juniors and seniors who have earned at least six credits in social work courses.

Alpha Kappa Delta is a national sociology honor society. The ETA of Wisconsin chapter was established at UW-Whitewater in 1970. AKD is an organization dedicated to the scientific study of social phenomena for the promotion of human welfare. To be eligible for membership, individuals must have completed at least 10 credits in sociology, be at least junior standing, and have earned a minimum grade point average of 3.00 in all sociology courses and have a minimum 3.00 GPA overall.

Beta Beta Beta, national honorary biological society, was established at Whitewater in 1960. Beta Beta Beta seeks to encourage scholarly attainment in this field of learning by reserving its membership for those who achieve superior academic accomplishments and who indicate special aptitude for the subject of biology.
Gamma Theta Upsilon is an international geographical honor society. Gamma Upsilon chapter of the society was established at UW-Whitewater in 1965. The primary function of the society is to further professional interest in geography by affording a common organization for those interested in this field. Full regular membership is limited to persons possessing superior academic records and completion of at least three courses in geography.

Phi Alpha Theta is an international honorary society in history. Nu-Beta chapter was installed at Whitewater in the spring of 1967. Membership is open to students who have completed 12 or more credits in history with at least a 3.1 grade point average in all history courses. Initiates must also have a 3.0 grade point average in two-thirds of all remaining courses.

Pi Delta Phi is a national French honor society which recognizes outstanding scholarship in French. To be eligible for membership, you must be a senior who has completed three advanced French courses and who has a 3.0 grade point average in French and a 3.0 cumulative grade point average.

Pi Kappa Delta. Epsilon chapter of this national honorary forensic society was installed on the Whitewater campus in May 1943. Students participating in intercollegiate forensics are eligible for election to the organization if they have a 2.25 grade point average.

Pi Sigma Alpha is the national honorary association for political science. The UW-Whitewater Chapter, Pi Mu, welcomes all students who fulfill the following requirements: 10 credits in Political Science, 3.5 grade point average in Political Science courses, and 3.0 grade point average overall.

Psi Chi, the National Honor Society in Psychology, recognizes excellence in scholarship for graduate and undergraduate students who are making the study of psychology one of their major interests. Undergraduates who are elected to Psi Chi must rank not lower than the highest 35 percent of their class in general scholarship and must have demonstrated superior scholarship in psychology.

Sigma Delta Pi, national professional society in Spanish studies, was established at Whitewater in 1966. Eligible for membership are those students who have completed at least three upper-division Spanish courses, one in literature, and have attained a B average in all Spanish courses and have a high achievement level in other academic courses.
Sigma Pi Sigma is the physics national honor society. Membership is open to all students with an overall G.P.A. of at least 3.0 and a G.P.A. of at least 3.0 in physics, based upon at least three physics classes applicable toward a physics major.

Sigma Tau Delta, the national English Honor Society, is open to English majors and minors who have had at least two courses past English 101 and 102, have at least a B average in English, and rank within the top 35% of their class overall. The society sponsors regional and national conventions, a literary magazine, and writing awards for creative and critical writing.

**DEPARTMENTAL ORGANIZATIONS**

Data Processing Management Association is an organization of students who have a strong interest in the field of data processing. Its purposes are to promote interest in and an understanding of business data processing through guest lectures, seminars and field trips to computer installations and DPMA conferences.

French Club is an organization open to anyone interested in French language and culture.

German Club is a social organization open to all students in German and to anyone interested in German culture.

The Law Society is co-sponsored by the Political Science Department and the Finance and Business Law Department. It is open to pre-law students and anyone interested in the law. Students have the opportunity to attend speaker meetings and participate in field trips.

Public Relations Student Society of America is the professional society for students who are majors or minors in public relations under the speech communication major as well as for interested students from other disciplines.

Social Work Student Organization seeks to unite the Social Work majors to promote the major, to provide a sounding board, and to act as a medium between faculty and students to facilitate major changes within the department.

Society of Physics Students is open to all students who are in physics or related fields. In 1965 the club became a student section of the American Institute of Physics, a national federation of leading societies in physics.

Spanish Club offers members cultural activities pertaining to the Spanish speaking countries to create an interest in the culture and ways of life of the Spanish-speaking
world and to stimulate greater understanding and appreciation of Spanish-speaking friends the world over.

Student Psychology Association invites students to join psychology majors and faculty in challenging their concepts of the world and themselves through spirited interchange of ideas about psychology and its impact on the individual.

Student Sociology Association is a voluntary group whose purpose is to afford interested students the opportunity to initiate and participate in campus and professional activities.

UWW Geology Club is an organization open to any student interested in furthering the education and fellowship of students in the field of geology.

**COLLEGE DEGREE REQUIREMENTS**

**BACHELOR OF ARTS (BA)**
**BACHELOR OF SCIENCE (BS)**

To graduate from the College of Letters and Sciences, students must complete a minimum of 120 credits, including coursework to satisfy all of the combined General Education and College Degree requirements, major and minor requirements. Students must have at least a 2.0 grade point average in the major and minor fields as well as a 2.0 UW-W overall grade point average. Certain majors and minors in the College require a grade point average above 2.0 in the major, minor and/or overall.

Students may earn either the Bachelor of Arts or the Bachelor of Science degree in the College of Letters and Sciences. The BA degree emphasizes preparation in the arts and humanities, while the BS degree emphasizes preparation in mathematics, sciences and social sciences. Both degrees combine the 50 credits required in General Education with additional coursework to ensure that students have minimum exposure to appropriate liberal arts and science areas. The combined total for the BA degree is 56 credits; the combined total for the BS degree is 55-56 credits. (The 12 credits of University proficiency requirements are included in these totals.)

**IN COMPLETING EITHER THE BA OR THE BS DEGREE, THE FOLLOWING POLICIES APPLY:**
All General Education requirements must be met with approved courses only; College degree requirements beyond General Education may be met with any courses offered within the appropriate disciplines.

Students must meet the minimum totals in each area and may count no more than the maximum totals in each area toward the combined General Education and College Degree requirements.

No more than two courses from any one discipline may be applied toward meeting the combined requirements.

Foreign language courses for which retroactive credit was granted can not be counted toward the combined requirements.

Students are required to complete both a major and a minor from the approved majors and minors listed in the Catalog. (No minor is required for a major in International Studies, Public Policy and Administration, the 54-credit MCS major, the Sociology-Criminal Justice emphasis or for option II of the Liberal Studies Major and option II of the Individualized Major.)

The same course credits may not be counted toward both a major and a minor.

**BACHELOR OF ARTS**

The combined 50 credits, including appropriate waivers, of General Education and additional College requirements must follow the policies above and must be distributed as follows (totals include proficiency and General Education Core courses):

1. Communication Skills (9 credits or waivers)
   a. English 680-101 (or waiver)
   b. English 680-102
   c. Speech 166-110 (or waiver)
2. Quantitative and Technical Reasoning (10-14 credits)
a. Math 760-140 or 760-141 (or waiver)
b. 7-11 credits of science, math and computer science courses designated GL or GM from at least 2 different disciplines (astronomy, physics, chemistry, biology, geology, physical geography, math, computer science) to include at least one 4-5 credit lab science course designated GL

3. Cultural Heritage (6 credits)
a. Core 900-100
b. Core 900-390

4. Communities (6 credits)
a. Core 900-130
b. Core 900-120 or 900-140

5. Personal Health and Fitness (1-2 credits)
a. P.Ed. 440-192
b. 0-1 credit in HPRC courses designated GP

6. Electives (7-12 credits to bring Gen. Ed. total to 44)
a. Additional electives designated GA, GH, GS, GE or GI; no more than 1 course from any one discipline may be counted in this area.

7. Upper Level Breadth Requirement
a. 6 credits at the 300-400 level in Arts, Humanities, Social Sciences or Race/Ethnic or Women's Studies, excluding courses in major and minor disciplines; not limited to Gen. Ed. courses or one course per discipline rule

8. Foreign Language Requirement
a. One college-level year of a foreign language or the equivalent (2 years of the same foreign language); one course taken to fulfill this requirement may count as an elective in area 6.

Total: 50 credits

BACHELOR OF SCIENCE
The combined 49-50 credits, including appropriate waivers, of General Education and additional College requirements must follow the policies above and must be distributed as follows (totals include proficiency and General Education Core courses):

1. Communication Skills (9 credits or waivers)
   a. English 680-101 (or waiver)
   b. English 680-102
   c. Speech 166-110 (or waiver)

2. Quantitative and Technical Reasoning (16-19 credits)
   a. Math 760-141 (or waiver)
   b. Two 4-5 credit laboratory science courses designated GL from 2 different disciplines (biology, chemistry, geology, geography, physics or astronomy)
   c. 5 credits in math beyond 141 or 3 credits in math beyond 141 and 3 credits in computer science courses (not limited to GM courses)

3. Cultural Heritages (6 credits)
   a. Core 900-100
   b. Core 900-390

4. Communities (6 credits)
   a. Core 900-130
   b. Core 900-120 or 900-140

5. Personal Health and Fitness (1-2 credits)
   a. P.Ed. 440-192
   b. 0-1 credit in HPRC courses designated GP

6. Electives (7-11 credits to bring total to 49)
   a. Additional electives designated GA, GH, GS, GE or GI; no more than 1 course from any one discipline may be counted in this area

Total: 49-50 credits

The broadfield science program for teacher education can follow one of two plans:
1. A 58 credit major providing for one teaching minor.
2. A 68 credit major providing for two teaching minors.

The 58 credit broadfield major consists of 24 credits in one of the science areas; 14 credits in one of the three remaining sciences; and 10 semester credits in each of the two remaining sciences. The areas required are chemistry, biology, physics, geography and geology. Mathematics through one year of calculus shall be considered as a prerequisite for those who choose 24 credits in physics. For others, Math 760-152, Elementary Functions, shall be considered a prerequisite to the major field. In addition to the 58 credits, the broadfield science program requires an additional course: Geography 722-252 or Biology 630-214. Consult the department in each science area for the specific courses required.

SOCIAL STUDIES BROADFIELD MAJOR (BSE)

Open only to students pursuing teacher licensure. This major consists of at least 53 hours in a program approved by the College of Education. This program must follow either of two basic guidelines:

1. A 34 credit concentration in any approved area of social studies and 20 credits in at least two other areas of social studies.
2. A 22 credit concentration in any approved area of social studies and 32 credits in at least three other areas of social studies.

If courses in the major are used to satisfy General Education requirements and Human Relations course requirement, the program can be completed within 120 credits. Transfer students must complete at least five courses at UW-W for this major.

Note: Only those courses in geography which relate to the cultural environment will apply toward the major. Courses in other social science areas which are primarily techniques courses will not apply to the major.
Additional Licensure Requirement:

Wisconsin law requires that persons seeking licensure to teach history or other social studies have instruction in cooperatives and conservation. The requirement in respect to cooperatives may be met by completion of Economics 230-213, Economic Principles for Secondary Teachers, or Economics 230-324, Cooperatives. The requirement for instruction in conservation may be met by the completion of Geography 722-252 Human Environmental Problems, or Biology 630-214 Ecology and Society.

History certification for holders of Social Studies (701) license: 15 credits of upper level (300 or 400) or graduate (500, 600, or 700) history courses distributed as follows: 6 credits of U.S. History, 6 credits of European History, and 3 credits of African, Asian, Latin American or Middle-Eastern History. All 15 credits must have been completed within 5 calendar years. Some of the courses listed above may have prerequisites which must be taken beyond the specified 15 credits.

There are twelve emphases within this major. Refer to the department of the emphasis for the major requirements.

ELEMENTARY EDUCATION MAJOR

Elementary Education majors who have a minor in English, Foreign Language, Mathematics or Social Studies (Economics, Geography, History, Political Science, Psychology or Sociology) may be certified to grade 9 with the addition of the appropriate Secondary Education methods course and Secondary Education Observation and Participation.
LIBERAL STUDIES MAJOR

The Liberal Studies major is designed for students who want a broad liberal arts background and the flexibility to tailor their studies to their own needs, interests and career goals. The major encompasses study of a wide range of disciplines, including the arts, humanities, sciences and social sciences, which enable students to develop breadth of vision, a capacity for critical thinking, and a fundamental understanding of human nature, society and values. The major also fosters development of skills and abilities employers consider most important, such as problem solving, analytical thinking, interpersonal relations and communications skills, among others. Applied minors such as Professional Business Studies, Public Relations, and Legal Studies complement this major especially well.

The Liberal Studies major is particularly appropriate for non-traditional, returning and transfer students who wish to complete a degree. Every effort is made to include applicable transfer courses within the major whether they have UW-W equivalents or not, and courses scheduled to accommodate working adults.

For more information on this major, contact the Philosophy Department.

**GENERAL SCIENCE ELEMENTARY MINOR**

This is a broadfield, general science minor for students majoring in elementary education. It is intended to insure breadth of science preparation, with training from each of the four areas: biology, chemistry, physical geography/geology, and physics/astrophysics. This general, introductory background from the specified courses would be appropriate for conducting science classes in the elementary schools.

**MINOR - 24 UNITS**

1. BIOLOGY 214 AND AT LEAST 3 ADDITIONAL UNITS FROM BIOLOGY COURSES. BIOLOGY 120 IS RECOMMENDED
2. SELECT AT LEAST 4 UNITS FROM CHEMISTRY COURSES.
CHEM 100 IS RECOMMENDED, CHEM 102 WOULD BE ACCEPTABLE.

3. SELECT AT LEAST 4 UNITS
FROM PHYSICAL GEOGRAPHY OR GEOLOGY COURSES.
   EITHER GEOGRPY 210 OR GEOLGY 100 OR GEOLGY
   101 IS RECOMMENDED.

4. PHYSCS 210 AND ASTRONMY 114 ARE REQUIRED.

5. ADDITIONAL UNITS TO TOTAL AT LEAST 24 UNITS
MUST BE SELECTED FROM COURSES: BIOLOGY 110, GEOLGY
   200, GEOGRPY 320 OR PHYSCS 240

SOCIAL STUDIES ELEMENTARY EDUCATION MINOR

The Department of Public Instruction has created a license to permit holders of an
elementary license who teach through grade 8 to be issued a regular license to teach
Social Studies through grade 9 if they complete the Social Studies minor.

This is a broadfield, social studies minor for students majoring in elementary
education. It is intended to insure breadth of social studies preparation, with training
from each of several areas: history, psychology, sociology, political science,
economics, geography, and anthropology. This general, introductory background from
the specified courses would be appropriate for teaching social studies classes in the
elementary schools.

MINOR - 30 CREDITS

1. 9 CREDITS: 3 CRED. FROM 3 GROUPS:(A) 740-124 OR 740-125;(B) 740-154 OR

3. SELECT 3 CRED FROM COURSES SOC 880-345, 880-355, 880-362 OR 880-455
4. SELECT 3 CRED FROM COURSES PSCI 820-350, 820-351, 820-352, 820-377,
   820-457 OR 820-460
5. SELECT 3 CRED FROM ECONOMICS DEPT EXCEPT FOR ECON 230-245, 230-345
   AND 230-461
6. SELECT 1 COURSE FROM EACH GROUP GROUP 1: GEOG 722-160 OR 722-261
   GROUP 2: GEOG 722-340 OR 722-344
7. SELECT 3 CRED FROM COURSES IN ANTHROPOLOGY - 892-214 OR 892-218 OR
   ANY 300-400 LEVEL COURSE
8. NO MORE THAN 6 CREDITS USED TO SATISFY GENERAL STUDIES MAY BE COUNTED TOWARD THIS MINOR. AT LEAST 15 CREDITS IN THE MINOR MUST BE NUMBERED 300 OR ABOVE. Either 840-355 or 880-355 may be counted in fulfilling the requirements, not both.

INDIVIDUALLY DESIGNED MAJOR (BA/BS)

This major is designed to permit you to focus your study on a topic or problem area which falls outside the limits of a conventional major. Each major is individualized. What is deemed appropriate for you may be deemed inappropriate for another student. The purpose of the major is to accommodate an integration of the courses and programs now offered by the University; it is not a means of forming special majors or degrees which the University is not authorized to offer. The Individually Designed Major, leading to the Bachelor of Arts or Bachelor of Science degree, must consist of an approved and coherent pattern of courses taken in more than one department.

OPTION I WITH A MINOR

MAJOR - 33 CREDITS

1. SELECT 33 CRED IN CONSULTATION WITH INDIVIDUALIZED MAJOR COMMITTEE. THE MAJOR MAY INCLUDE NO MORE THAN 21 CREDITS IN ANY ONE DEPARTMENT AND MUST INCLUDE AT LEAST 17 CREDITS IN COURSES NUMBERED 300 OR ABOVE. AN APPROVED MINOR IS REQUIRED FOR THIS MAJOR

OPTION II WITHOUT A MINOR

MAJOR - 54 CREDITS

1. SELECT 54 CRED IN CONSULTATION WITH INDIVIDUALIZED MAJOR COMMITTEE. THE MAJOR MAY INCLUDE NO MORE THAN 24 CREDITS IN ANY
ONE DEPARTMENT AND MUST INCLUDE AT LEAST 27 CREDITS IN COURSES NUMBERED 300 OR ABOVE. NO MINOR IS REQUIRED.

Writing Proficiency Requirement:
See the Individually Designed Major program chairperson for course(s) that satisfy this requirement.

In either Option I or II of the Individually Designed Major you will choose as an adviser a faculty member whose competence is in the area of your interest. Together with the adviser you will plan the major and submit in writing to the College Committee on Individually Designed Majors for its approval a detailed outline of the major and a statement of its rationale and goals. The major must be approved, with the possibility of subsequent amendment, no later than the beginning of your junior year. Your program of study must be planned and approved in advance of admission to the major. Any changes in your major at a later date will require written permission of the Committee.

Under either Option I or II you may count at most 40 credits from any one department for fulfillment of total degree requirements. It is a requirement that over half the credits in either option must be in courses numbered 300 or above. At least 50 percent of the credits counting toward your major requirements must be earned subsequent to your admission to the major. You may take work outside the College of Letters and Sciences but more than one-half the credits in your major must be earned in the College. Primary supervision of the major rests with the Committee on Individually Designed Majors. Inquiries should be directed to: Chairperson, Committee on Individually Designed Majors, College of Letters and Sciences.

INDIVIDUALLY DESIGNED MINOR

MINOR - 24 CREDITS

1. SELECT 24 CRED IN CONSULTATION WITH ADVISOR AND DEAN OF COLLEGE OF LETTERS AND SCIENCES
2. IF MORE THAN 15 CREDITS ARE TO BE TAKEN IN ANY ONE DEPARTMENT OF THE COLLEGE OF L&S THERE MUST BE PRIOR APPROVAL BY BOTH THAT DEPARTMENT AND THE DEPARTMENT OF YOUR MAJOR. AT LEAST 12 CREDITS PROPOSED FOR THE MINOR MUST BE EARNED AFTER THE PLAN HAS BEEN APPROVED. IF MORE THAN 12 CREDITS ARE FROM A SINGLE COLLEGE OUTSIDE OF LETTERS & SCIENCES, APPROVAL OF THE DEAN OF THAT COLLEGE
IS REQUIRED. NO MORE THAN 9 CREDITS FROM THE MAJOR DISCIPLINE(S) MAY BE INCLUDED.

A statement of the content, nature and rationale of your proposed individualized minor must be approved by your major department. The minor should consist primarily of courses above the general survey level. Further, the proposed minor shall be sent to the Office of the Dean of the College of Letters and Sciences for the Dean's approval or referral to the College Curriculum Committee for its approval.

The minor should be prepared early in your college career, preferably before the second term of your junior year. Any substantial subsequent changes in your minor should be approved by your major department and the Dean.

The responsibility for certifying that you have met the requirements of your minor rests with the department of your major, if you are a Letters and Sciences major. For students not Letters and Sciences majors, the responsibility of certifying the completion of the minor on the application for diploma rests with the College of Letters and Sciences. The signature sheet for the Individualized Minor is available in the Letters and Sciences Office, Salisbury 124.

PROFESSIONAL MINOR IN BUSINESS STUDIES

The Professional Minor in Business Studies is designed for students seeking a liberal arts education with preparation for a career in some area of business. This preparation in both liberal arts and business will also assist students planning to advance their career opportunities by seeking an M.B.A. (Master of Business Administration) degree.

Requirements for the nine approved areas of emphasis are described here. Within these emphases, however, variations are possible to meet the programmatic needs of individual students.

If you, in consultation with your major adviser, feel that one of these minor emphases is appropriate for you, make an appointment to see the Assistant Dean, College of Business and Economics. A minimum GPA of 2.25 in the minor is required for graduation. Grades received for transfer courses that are counted in the minor will be included in determining the GPA in the minor.
ACCOUNTING EMPHASIS

MINOR - 21 CREDITS

1. MGNT 250-211 OR CPSC 765-161 OR 765-162 OR 765-171
2. ACTG 210-244 AND 210-451
3. ACTG 210-341, 210-342 AND 210-343 2.50 REQUIRED IN THESE THREE COURSES
4. 4. SELECT 3 CRED FROM COURSES ACTG 210-452, 210-456 OR 210-461
5. 5. A 2.50 IS REQUIRED IN 210-341, 210-342 AND 210-343.

A MAXIMUM OF 2 TRANSFER COURSES & A MAXIMUM OF 3 CREDITS IN SPECIAL OR INDEPENDENT STUDY, CORRESPONDENCE & INTERNSHIPS WILL BE ALLOWED

UNIQUE REQUIREMENT - 12-14 CREDITS

1. ECON 230-211, 230-212 AND MATH 760-143 RLS
2. MATH 760-243 OR 760-250 OR 760-253 RLS

Accounting deals with the management of assets and liabilities, costs and cost control, taxes and corporate/governmental planning. Graduates would probably not be eligible for employment as accountants in corporations. However, an emphasis in accounting would be useful for the Letters and Sciences major who seeks employment as a corporate trainee. Accounting is also especially useful if a graduate expects to seek employment in the area of public policy and planning.

Restrictions:

In order to obtain the Professional Minor with an emphasis in accounting and in order to continue in the minor program, Letters and Sciences majors must obtain a minimum combined GPA of 2.5 in accounting 210-341, 210-342, and 210-343. The prerequisite courses should be completed before enrolling in the required or elective courses. Additionally, students must complete 24 credits before enrolling in 210-244 Accounting Concepts.
BUSINESS LAW EMPHASIS

MINOR - 21 CREDITS

1. FNLW 240-341, 240-342 AND 240-442
2. FNLW 240-443 OR ECON 230-353
3. FNLW 240-455 OR PSCI 820-344 OR 820-350
4. SELECT 6 CRED FROM COURSES FNLW 240-348, 240-446, PHIL 782-281, PSCI 820-413, 820-414, 820-415, 820-419
5. A MAXIMUM OF 2 TRANSFER COURSES & A MAXIMUM OF 3 CREDITS IN SPECIAL OR INDEPENDENT STUDY, CORRESPONDENCE & INTERNSHIPS WILL BE ALLOWED

This program is designed to prepare the student with a broad general legal background which can be utilized in general business, insurance, real estate, general corporate legal activities, the position of legal assistant with a law firm, or as a pre-law student.

COMPUTER END-USER TECHNOLOGIES EMPHASIS

MINOR - 24 CREDITS

3. 2.00 GPA & 24 CRED NEEDED FOR 200 LEVEL & 60 CRED FOR 300/400 LEVEL BUS COURSES. 2.25 IN MINOR NEEDED TO GRADUATE. A MAX OF 2 TRANSFER COURSES AND A MAX OF 3 CRED IN SPECIAL, INDEPENDENT, CORRESPONDENCE & INTERNSHIP ALLOWED.

UNIQUE REQUIREMENT

1. ABILITY TO TYPE STRAIGHT COPY AT 40 WORDS PER MINUTE. RLS
The Computer End-User Technology minor is valuable for anyone planning a career in end-user computing. The courses studied prepare students to understand and work with computer systems and related technologies commonly used in the business world. This preparation will allow students to easily make transitions to advanced technologies in their future.

FINANCE EMPHASIS

MINOR - 21 CREDITS

1. ACTG 210-244, FNLW 240-344, 240-345, 240-360
2. ACTG 210-249 OR 210-341 OR 210-342
3. SELECT 6 CRED FROM COURSES ECON 230-354, 230-356 AND ANY FINANCE COURSE
4. A MAXIMUM OF 2 TRANSFER COURSES & A MAXIMUM OF 3 CREDITS IN SPECIAL OR INDEPENDENT STUDY, CORRESPONDENCE & INTERNSHIPS WILL BE ALLOWED

UNIQUE REQUIREMENT - 6 CREDITS

1. MATH 760-143 RLS
2. MATH 760-243 RLS

A person with a professional minor in Business (Finance) is likely to work on the following types of jobs: loan officer with lending institutions such as commercial banks or savings and loans; real estate broker; stock broker; insurance agent; investment officer with an insurance company; office manager for a real estate development company.

GENERAL BUSINESS EMPHASIS

MINOR - 24 CREDITS

2. A MAXIMUM OF 2 TRANSFER COURSES & A MAXIMUM OF 3 CREDITS IN SPECIAL OR INDEPENDENT STUDY, CORRESPONDENCE & INTERNSHIPS WILL BE ALLOWED

**UNIQUE REQUIREMENT - 9 CREDITS**

1. ECON 230-211, 230-212 (GS) AND MATH 760-143 (GM)

The General Business minor was constructed to provide a variety of courses in the areas of accounting, finance, marketing and management and to provide the core courses which would allow the liberal arts graduate to study for an MBA.

**MANAGEMENT EMPHASIS**

The student may concentrate in one of the following three areas in the Management Emphasis: General, Human Resources, or Production.

**MANAGEMENT GENERAL EMPHASIS**

**MINOR - 21 CREDITS**

1. MGNT 250-301, 250-369 AND 250-419
2. SELECT 6 - 12 CREDITS FROM COURSES MGNT 250-310, 250-385, 250-410, 250-486, 250-488, 250-493, 250 496
4. A MAXIMUM OF 2 TRANSFER COURSES & A MAXIMUM OF 3 CREDITS IN SPECIAL OR INDEPENDENT STUDY, CORRESPONDENCE & INTERNSHIPS WILL BE ALLOWED
MINOR - RECOMMENDATION

1. ECON 230-245 BUSINESS STATISTICS AND MATH 760-143 FINITE MATH FOR BUSINESS AND SOCIAL SCIENCES ARE HIGHLY RECOMMENDED.

The general emphasis will provide students with the supervisory and managerial knowledge and training required for first line supervisory positions in such areas as: manufacturing, distribution, retailing, offices, government, or service organizations. Any student with an interest in supervision and the planning, organizing, and control of activities based on goals and objectives may be interested in this emphasis regardless of major. Students enrolled in the ROTC program should definitely investigate this emphasis area of the professional minor.

HUMAN RESOURCE MANAGEMENT EMPHASIS

MINOR - 21 CREDITS

1. MGNT 250-320 OR PSCI 820-421

The human resource management emphasis will provide students with the specialized knowledge and training required in entry-level professional positions in Human Resource Departments of various types of organizations (e.g. business, industry, government, non-profit, etc.) This would include areas such as planning and employment, training and development, wage and salary administration, insurance pensions, accident prevention, labor problems, or collective bargaining. Students majoring in political science, psychology, communication, sociology, or similar areas may find this emphasis to be of interest.

MANAGEMENT PRODUCTION EMPHASIS

MINOR - 21 CREDITS

UNIQUE REQUIREMENT - 12 CREDITS

1. ECON 230-245, MGNT 250-211 AND MATH 760-143 RLS
2. MATH 760-243 RLS

The production emphasis will provide students with the specialized knowledge and training required in a variety of assignments in production departments (manufacturing, operations, etc.) of various types of organizations. These would include entry-level professional positions in such areas as: materials management, production scheduling and inventory control, work measurement and methods, facilities planning, materials handling, or quality control. Those students majoring in biology, chemistry, mathematics, or physics may find this emphasis to be of great interest. Also, any student who has completed the pre-engineering curriculum should investigate this emphasis area of the Professional Minor in Business Studies, regardless of major.

MARKETING EMPHASIS

MINOR - 21 CREDITS

1. MKTG 260-311
3. A MAXIMUM OF 2 TRANSFER COURSES & A MAXIMUM OF 3 CREDITS IN SPECIAL OR INDEPENDENT STUDY & CORRESPONDENCE WILL BE ALLOWED

The Marketing Emphasis is designed to assist Letters and Sciences majors in preparing for careers in general marketing, advertising, purchasing, selling, retailing,
marketing research, international marketing and industrial marketing. The student may concentrate in one of eight areas in the Marketing Emphasis.

DEPARTMENT OF BIOLOGICAL SCIENCES

Phone: 262-472-1092  
E-Mail: biologlsci@uwwvax.uww.edu

Faculty: Rick Adams, Bruce Eshelman, Sibdas Ghosh, Jeff McKinnon, Peter Mesner, Neil Sawyer, Stephen Solheim, Lance Urven (Chairperson), Daryle Waechter-Brulla, Lauren Wentz, Michael Woller.

The study of biology encompasses all of the life sciences and endeavors to enhance your understanding and appreciation of living things. Students with training in the biological sciences will be among those who will contribute much toward solving critical problems facing the world today, such as food shortage, disease, and environmental use. You may design your program of study with the help of an adviser to best meet your particular interests and needs. The Department also has an affiliation agreement with the State Laboratory of Hygiene, UW-Madison, which enables students to complete clinical education in cytotechnology as an emphasis in the Biology major (contact department for details).

PIGEON LAKE FIELD STATION. The University of Wisconsin System sponsors summer programs at the Pigeon Lake Field Station near Drummond in Bayfield county of northwestern Wisconsin. Station offerings include undergraduate and graduate courses in field biology and in mapping and outdoor education. Sessions may vary from two to six weeks in length with a variety of biology courses offered on a rotating basis. Credit earned at the Station is accepted as residence credit at this University. The Field Station is located in a natural outdoor laboratory among the lakes, streams and forests of relatively unspoiled portions of northern Wisconsin. Students are housed in rustic cabins and get their meals in the Station dining hall. PLFS facilities also include three classroom buildings and a recreation hall on land including 1400 feet of shoreline on Pigeon Lake. With access to Lake Superior and the Apostle Islands, the national forest, and adjacent wildlife areas—the Station is ideally located for field studies as well as for recreation.

The several programs offered each summer are publicized by special announcements early in the year. For further details contact the Department of Biological Sciences.
MAJORS/EMPHASES

The student may elect one of four emphases in the Biological Sciences major:

BIOLOGY - GENERAL (BA/BS)

The General Biology emphasis is designed for biology education majors and for select others who need an extremely broad range of experiences in the biological sciences.

MAJOR - 34 CREDITS

1. BIOL 630-141, 630-142 AND 630-251
2. BIOL 630-253, 630-257 AND 630-375
3. BIOL 630-390 AND 630-400
4. BIOL 630-351 OR 630-353 OR 630-317
5. BIOL 630-340 OR 630 341 OR 630-345
6. SELECT ADDITIONAL CREDITS OF BIOLOGY ELECTIVES EXCEPT FOR COURSES BIOL 630-110, 630-120, 630-200, 630-214, 630-230, 630-300, 630-303, 630-360 TO TOTAL 34 CREDITS IN THE MAJOR

MAJOR - UNIQUE REQ & WRTNG - 15-19 CREDITS

1. BIOL 630-300 OR 630-303 RLS
2. CHEM 640-102 AND 640-104 RLS
3. MATH 760-152 OR 760-243 OR 760-250 RLS

AN APPROVED MINOR IS REQUIRED FOR THIS MAJOR

BIOLOGY-CELL/PHYSIOLOGY (BA/BS)

The Cell Biology and Physiology emphasis is intended for students seeking training in the biological disciplines related to the structure and function of biological systems from the molecular to the organismal level. This program is specifically intended to prepare students for admission to health professional schools and for career opportunities or graduate training in biotechnology, microbiology, cell biology, physiology, anatomy, embryology, biomedicine, and other related fields.

MAJOR - 34 CREDITS

1. BIOL 630-141, 630-142 AND 630-251
2. BIOL 630-253, 630-254 AND 630-311
3. BIOL 630-390 AND 630-400
4. COMPLETE 1 GROUP FROM THOSE LISTED BELOW: a. SELECT ONE COURSE FROM (BIOL 630-340 OR 630-341 OR 630-351) AND ONE COURSE FROM (630-345 OR 630-317) b. BIOL 630-361 AND 630-362
5. BIOL 630-257 OR 630-353 OR 630-375 OR 630-446
6. SELECT ADDITIONAL CREDITS OF BIOLOGY ELECTIVES EXCEPT FOR COURSES BIOL 630-110, 630-120, 630-200, 630-214, 630-230, 630-300, 630-303, 630-360 TO TOTAL 34 CREDITS IN THE MAJOR

MAJOR - UNIQUE REQ & WRTNG - 23 CREDITS

1. BIOL 630-300 OR 630-303 RLS
2. CHEM 640-102 AND 640-104 RLS
3. CHEM 640-251 AND 640-252 RLS
4. MATH 760-152 OR 760-243 OR 760-250 RLS

BIOLOGY-CELL/PHYSIOLOGY HONORS (BA/BS)

MAJOR - 75-79 UNITS
1. BIOLOGY 141, BIOLOGY 142 AND BIOLOGY 251
2. BIOLOGY 253, BIOLOGY 254 AND BIOLOGY 311
3. BIOLOGY 390 AND BIOLOGY 400
4. COMPLETE 1 GROUP FROM THOSE LISTED BELOW:
   a. SELECT ONE COURSE FROM (BIOLOGY 340 OR BIOLOGY 341 OR BIOLOGY 351) AND ONE COURSE FROM (BIOLOGY 345 OR BIOLOGY 317)
   b. BIOLOGY 446 OR BIOLOGY 257
   RECOMMENDED: BIOLOGY 493
5. MATH 243 OR MATH 250 OR MATH 253
6. CHEM 102, CHEM 104, CHEM 251, CHEM 252, CHEM 261, CHEM 262
7. PHYSCS 160, PHYSCS 161, PHYSCS 162, PHYSCS 163
8. BIOLOGY 303
   RECOMMENDED CHEM 456
9. BIOLOGY 499 (2 UNITS FIRST TERM, 3 UNITS SECOND TERM)

BIOLOGY-ECOLOGY/FIELD (BA/BS)

The Ecology and Field Biology emphasis is designed for students seeking training in the biological disciplines involving relationships between organisms, and the
relationships between organisms and their physical environment. This program is specifically intended to prepare students for professional placement or graduate training in natural resource management, fisheries, aquaculture, forestry, civil engineering, conservation, ecology, environmental sciences, animal behavior, and other related fields.

**MAJOR - 34 CREDITS**

1. BIOL 630-141, 630-142 AND 630-251
2. BIOL 630-257, 630-353 AND 630-446
3. BIOL 630-390 AND 630-400
4. BIOL 630-375 OR 630-454

Chemistry is the science concerned with the composition, properties, and changes of the substances of nature including the familiar solids, liquids and gases of the physical world as well as the less familiar components of all living systems. The primary objective of the courses in the Department of Chemistry is to provide a sound background in the basic fundamentals and techniques of chemistry in order to insure success in the professional career of the graduate whether it be as a chemist, a member of any of the health sciences, or a member of the other physical or natural sciences. A secondary objective is to provide both science and non-science students with an insight into the influence of chemistry on daily living. The taking of assessment tests is a requirement for graduation.

640 COURSE DESCRIPTIONS
**640-100 CHEMISTRY FOR THE CONSUMER GL 4 cr**
A critical examination of those chemical products which have a significant impact upon the daily life of the consumer. Attention will be focused from the consumer viewpoint upon food additives, prescription and non-prescription drugs, fuels, pesticides, detergents, synthetic fibers and plastics. Meets General Studies laboratory science requirements.
Coreq: 760-140 or 760-141 or consent of instructor.

**640-102 INTRODUCTORY CHEMISTRY GL 5 cr**
An introduction to the general concepts of chemistry including matter and energy, atomic and molecular structure, bonding, reactions and stoichiometry, gas laws, changes of state, thermochemistry, acid-base theory, solutions, colloids, kinetics, equilibria and electrochemistry.
Prereq: Math 760-141 with a grade of C or better or waiver thereof.

**640-104 INTRODUCTORY CHEMISTRY GL 5 cr**
A continuation of 640-102.
Prereq: 640-102.

**640-251 ORGANIC CHEMISTRY 3 cr**
Introductory chemistry of the compounds of carbon, their structures and reactions.
Three hours of lecture per week.
Prereq: 640-104.

**640-252 ORGANIC CHEMISTRY 3 cr**
A continuation of 640-251. Three hours of lecture per week.
Prereq: 640-251.

**640-261 ORGANIC CHEMISTRY LABORATORY 2 cr**
Basic organic manipulative techniques and simpler syntheses are considered. Spectroscopic topics are introduced. Generally taken concurrently with 640-251. Two three-hour laboratories per week.
Coreq: 640-251.

**640-262 ORGANIC CHEMISTRY LABORATORY 2 cr**
A continuation of 640-261. Includes more advanced synthetic work and spectroscopic techniques. Generally taken concurrently with 640-252. Two three-hour laboratories per week.
Prereq: 640-261, 640-252 or con reg in 640-252.
640-352 QUANTITATIVE ANALYSIS 5 cr
An introduction to volumetric, gravimetric and photometric techniques and fundamental methods of instrumental analysis. Three one-hour lectures and two three-hour laboratory periods per week.
Prereq: 640-104.

640-370 PHYSICAL CHEMISTRY 3 cr
A course in the fundamentals of physical chemistry.
Prereq: 640-352.
Coreq: 760-255 (Mathematics) and 800-175 (Physics).

640-371 PHYSICAL CHEMISTRY 3 cr
A continuation of 640-370.
Prereq: 640-370.

640-455/655 ADVANCED ORGANIC CHEMISTRY 3 cr
Lectures on advanced topics in organic chemistry.
Prereq: 640-252 and cons instr.

640-456 BIOCHEMISTRY 3 cr
An introduction to the chemistry of biological systems. The compounds of living organisms, i.e., vitamins, enzymes, proteins, carbohydrates, lipids and nucleic acids, are studied. Intermediary metabolism and biological control are introduced.
Prereq: 640-252 or cons instr.

640-460 ADVANCED INORGANIC CHEMISTRY 4 cr
Atomic and molecular structures, chemical bonding and periodic properties of the elements. Synthesis, characterization and structures of the compounds involving both representative and transition elements, organometallic and bioinorganic compounds and their applications. Group theory and bonding theories.
Coreq: 640-371 or consent of instructor.

640-470 EXPERIMENTAL PHYSICAL CHEMISTRY 2 cr
A laboratory course in experimental physical chemistry. Experiments from various areas of physical chemistry will be performed. Four hours of laboratory per week.
Coreq: 640-370.

640-471 EXPERIMENTAL PHYSICAL CHEMISTRY 2 cr
A continuation of 640-470. Four hours of laboratory per week.
Prereq: 640-470 and either 640-371 or con reg in 640-371.
640-480 INSTRUMENTAL METHODS OF ANALYSIS 4 cr
A survey of optical and electrometric determinations, separation methods and basic instrumentation as applied to chemical analysis. Two one-hour lectures and two three-hour laboratory periods per week.
Prereq: 640-252, 640-352.

640-490/690 WORKSHOP 1-4 cr Repeatable two times for a maximum of 8 credits in degree.

640-494 CHEMISTRY SEMINAR 0-1 cr
Repeatable for a maximum of 2 credits in major. Credits in this course may not be used to fulfill minor requirements in Chemistry.
Prereq: Consent of instructor.

640-496/696 SPECIAL STUDIES 1-3 cr
Repeatable two times for a maximum 6 credits in degree.

GEOGRAPHY & GEOLOGY

640-498 INDEPENDENT STUDY IN CHEMISTRY 1-3 cr
Repeatable for a maximum of 6 credits in major/degree. Credits in this course may not be used to fulfill minor requirements in Chemistry.
Prereq: Cons instr.

GEOGRAPHY
Geography is the discipline that studies where and why physical and human phenomena, such as cities, crime, poverty, pollution, landforms, climate, and various resources, are distributed as they are. Geographers also develop ideas and recommend how different policies and relocations of phenomena, such as health care facilities, political boundaries, waste disposal sites, public service agencies, and business firms might better serve humans and their environment.

The four traditions in geography suggest the broad range of interests addressed within the discipline and the discipline’s bridging role between the natural and social sciences. These traditions are: 1) the earth science tradition or physical geography; 2) the human-land tradition devoted to investigating the interactions between human and physical phenomena; 3) the regional-international tradition which involves the study of world regions and international trends and relationships; and, 4) the spatial analysis tradition which stresses systematic and technical training for analyzing topics, problems and plans at various geographic scales, ranging from global to regional to an individual city or neighborhood.

Owing to the primary locational concern of the discipline, many geography graduates have found employment in public and private organizations engaged in location analysis, transportation planning, urban and regional planning, real estate development, resource management and local, state and federal government positions, in addition to positions in teaching. Geographic Information Systems (GIS) skills are of growing importance to the discipline and prepare students for various careers and graduate school. Fischer Scholarships are available each semester for students enrolled in a College of Education program and majoring or minoring in geography and selected geography majors actively involved in teaching other students. Interested students should contact the Department of Geography.

**MAJOR - 36 CREDITS**

1. **INTRODUCTORY LEVEL** (100s-200s, excluding HISTRY 200): SELECT 9-12 UNITS

2. **METHODS COURSE**: HISTRY 200
3. UPPER LEVEL (300s-400s): SELECT 18-21 UNITS

4. SENIOR SEMINAR: HIST 499

5. THE COURSES CHOSEN TO COMPLETE REQUIREMENTS #1 AND #3 MUST SATISFY THE FOLLOWING BREADTH AND DEPTH REQUIREMENTS.

   A. CHRONOLOGICAL BREADTH. SELECT AT LEAST 6 UNITS OF PRE-MODERN HISTORY. HIST 124, HIST 130, HIST 154, HIST 300, HIST 301, HIST 302, HIST 304, HIST 313, HIST 316, HIST 324, HIST 333, HIST 342, HIST 351, HIST 355, HIST 360, HIST 371, HIST 380, HIST 425, HIST 451 AND HIST 452

   B. DEPTH. SELECT AT LEAST 12 UNITS FROM ONE OF THE FOLLOWING GROUPS.

      2. AFRICAN, ASIAN, LATIN AMERICAN OR MIDDLE EASTERN HISTORY: HIST 130, HIST 131, HIST 340, HIST 342, HIST 343, HIST 346, HIST 347, HIST 360, HIST 432, HIST 433 AND HIST 434

      4. INDIVIDUALLY DESIGNED THEMATIC CONCENTRATION. REQUIRES HISTORY DEPARTMENT APPROVAL.

   C. GEOGRAPHICAL/THEMATIC BREADTH SELECT AT LEAST 3 UNITS IN EACH OF THE THREE AREAS NOT CHOSEN FOR THE DEPTH REQUIREMENT.

2. AFRICAN, ASIAN, LATIN AMERICAN, OR MIDDLE EASTERN HISTORY: HISTORY 130, HISTRY 131, HISTRY 340, HISTORY 342, HISTORY 343, HISTORY 346, HISTRY 347, HISTRY 360, HISTRY 432, HISTRY 433, AND HISTRY 434

4. GLOBAL/COMPARATIVE HISTORY: HISTRY 190, HISTRY 326, HISTRY 333, HISTRY 335, HISTORY 360, HISTORY 367, HISTORY 455*, HISTRY 493

* Depending on the term's offering, this course may fulfill other geographic breadth requirements for the major.

UNIQUE REQUIREMENT (5-6 U)
1. ARTS OR LITERATURE: SELECT 2-3 UNITS FROM COURSES: ARTHIST 201, ARTHIST 202, ARTHIST 305, ARTHIST 311 THRU 319; MUSC 140, MUSC 143, MUSC 144, MUSC 244 THRU 247; THEATRE 100, THEATRE 110; ENGLISH 200 THRU 265
2. SOCIAL SCIENCES: SELECT 3 UNITS FROM COURSES: ECON 211, ECON 212, ECON 213, GEOGRAPHY 230, POLISCI 250, POLISCI 217, POLISCI 247, ANTHROPL 110, ANTHROPL 218

AN APPROVED MINOR IS REQUIRED FOR THIS MAJOR

HONORS IN HISTORY: Students must file an application for Honors in History with the Department Chairperson during the first term of their Senior year. Honors in History can be earned by completing the following:
   a. 3.5 or above GPA in the History major
   b. Minimum of 3 History units at the 400 level (in addition to HISTORY 499)

GEOGRAPHY GEOLOGY EMPHASIS (BA/BS)

MAJOR - 34 UNITS

ENVIRONMENTAL STUDIES

MINOR 24 CREDITS

   (1-3 CR FROM ANY APPROPRIATE DEPT)

This interdisciplinary minor combines information from a wide range of courses, all of which focus on some aspect of environmental studies. Participating departments and programs include Biological Sciences, Economics, Geography and Geology, Safety Studies and Sociology. Upon completion, the student will have gained knowledge about many aspects of present-day environmental issues including 1) the natural processes of environmental systems, 2) the social and economic influences on the environment and the regulatory controls enacted to protect both the environment and human health, and 3) the techniques currently being used to study environmental problems. The minor, in combination with their selected major, is suitable to prepare students for possible careers related to the study of the environment or future graduate study.

GEOGRAPHY

MINOR - 23 CREDITS

1. GEOG 722-210, 722-230 AND 722-270
4. SELECT 6 CREDITS FROM GEOGRAPHY COURSES. AT LEAST 3 CREDITS MUST BE 300 OR 400 LEVEL.

GEOGRAPHY ELEMENTARY EDUCATION EMPHASIS

MINOR - 23 CREDITS

4. SELECT 3 ELECTIVE CREDITS FROM GEOGRAPHY DEPT

URBAN & AREA DEVELOPMENT

MINOR - 24 CREDITS

2. 9 ELECTIVE CRED MUST BE DETERMINED IN CONSULTATION WITH ADVISER.
   NO MORE THAN 3 CRED OF ELECTIVES CAN BE FROM MAJOR AREA, EXCLUDING CORE COURSES.

Administered by the Department of Geography and Geology, the minor consists of 24 credits drawn from several departments in the College of Letters and Sciences and College of Business and Economics. A core curriculum of 15 required credits and 9 credits of electives is required. Students interested in this minor should contact the Chair of the Geography Department or Coordinator of the Urban and Area Development Minor Program.

CERTIFICATE

GEOGRAPHIC INFORMATION SYSTEMS CERTIFICATE

Geographic Information System (GIS) technology is one of the fastest growing areas within the field of Geography. Although geographical by nature, the growth of GIS
can be partially attributed to its application by a wide variety of businesses and governmental agencies. As such, the use of GIS is becoming more ubiquitous in careers falling outside the traditional definition of Geography. Employment skills in fields such as criminology, marketing, engineering, and agriculture, as well as more traditional geographic fields such as land use planning, site location, and environmental monitoring rely heavily on GIS in day to day work. Students from other disciplines may wish to have a functional knowledge of GIS, but without majoring in the Geography. The certificate program offered by the Department of Geography and Geology is designed to provide the GIS skills necessary for both Geographers and professionals working outside the traditional bounds of a Geography degree. By completing the GIS certificate program, students will be prepared to enter a highly technical and growing career field.

CERTIFICATE - 12 UNITS

1. GEOGRPY 270
2. GEOGRPY 370
3. GEOGRPY 340, GEOGRPY 377
4. GEOGRPY 440, GEOGRPY 470
5. GEOGRPY 485, GEOGRPY 496 OR OTHER UPPER LEVEL TECHNICAL COURSE MAY BE SUBSTITUTED FOR ONE OF THE CERTIFICATE PROGRAM COURSES, WITH INSTRUCTOR APPROVAL.

722 COURSE DESCRIPTIONS

Note: Field trips may be required for any of the courses. Although few geography classes require prerequisites, a general studies geography course is recommended before attempting advanced courses. Students with little background in geography should consult the appropriate instructor before registering for upper division courses.

722-100 INTRODUCTION TO GEOGRAPHY 1 cr
Introduction to Geography introduces students to the specialties within geography, outlines the academic tracks within the major and associated requirements, and explores public and private career opportunities in the field of geography. Required of all majors at earliest opportunity.
Prereq: Must be a declared Geography major.
**722-210 PHYSICAL GEOGRAPHY GL 5 cr**
A study of selected physical aspects of our geographic environment. Emphasis is given to the origin and characteristic features of topographic, climatic, vegetative and soil regions of the earth and to their interrelationships. The ultimate objective is to provide a foundation upon which to build a better understanding of human interrelationships with the physical environment. Field trips are normally taken.
Coreq: 760-141

**722-230 HUMAN GEOGRAPHY 3 cr**
A systematic study of human land relationships highlighting the diversity of the elements that make up the cultural landscape in various regions.

**722-250 GEOGRAPHY OF WISCONSIN GS 3 cr**
A systematic treatment of physical and cultural geographic phenomena. Emphasis is placed on the interrelationships and interactions of these phenomena from place to place within the state.

**722-252 HUMAN ENVIRONMENTAL PROBLEMS GS 3 cr**
An introduction to environmental problems and their complexities. Attention is given to alternative solutions to such problems and the implications these alternatives have for the total environment. The course emphasizes the evaluation of the interrelationships between the environmental resource demands of people and the actual resource base of the earth.

**722-261 GEOGRAPHY OF CANADA AND THE UNITED STATES OF AMERICA GS 3 cr**
A regional survey of the United States and Canada. Special attention is given to the physical, cultural and economic geography of the two countries.

**722-270 INTRODUCTION TO MAPPING 3 cr**
An introduction to the quantitative and qualitative mapping techniques applicable to the physical and social sciences. Included are the skills required to create clear, concise and aesthetically pleasing maps, as well as how to derive information from them. Both graphic and cartographic software packages will be utilized to create and evaluate maps. Field trips are normally taken.

**722-275 GEOGRAPHIC CONCEPTS AND TECHNIQUES FOR TEACHERS 3 cr**
The study of the fundamental principles of Geography and the interpretation and analysis of that knowledge. Emphasis is placed on the application of geographic knowledge to educational pursuits.
Prereq: 722-210 and 722-230 and six additional credits of Geography.
722-290 SPATIAL ANALYSIS 3 cr
Presentation and interpretation of data, use descriptive statistics and measures of spatial patterns, introduction to statistical inference and measures of association, with particular reference to geographic examples. Students will become proficient in using computers to achieve these skills.
Prereq: 760-143

GEOGRAPHY & GEOLOGY

722-300 SOIL SCIENCE 3 cr
Soil science deals with the systematic description, analysis, and understanding of soils and how they interact with and drive environmental processes and ecosystems. This course will examine the properties, formation, classification, and distribution of soil, stressing the connections between environmental controls on their formation and distribution. Field trips required.
Prereq: 722-210 or 616-100

722-310 GEOMORPHOLOGY (LANDFORMS) 3 cr
A study of topographic landscapes and their evolution. Two hours per week of lecture and map study. Field trips are normally taken.
Prereq: 722-210 or 616-100 or consent of instructor.

722-320/520 METEOROLOGY AND CLIMATE 3 cr
Begins with fundamental relationships among earth, sun and air. Common myths concerning weather phenomena are dispelled through in-depth explanation in everyday language of the physical laws that govern atmospheric functioning. The course terminates with a survey of world climate regions.
Prereq: 722-210 or consent of instructor.

722-323/523 WATER RESOURCES 3 cr
Following a treatment of the character, process-involvement, and distribution of water, the significance of water as a resource in a modern society will be considered. The course will culminate in an evaluation of the development-management, use, and conservation of water within the contexts of the hydrologic cycle and watershed. Field trips are normally taken.
Prereq: 722-210 or consent of instructor.

722-330 BIOGEOGRAPHY 3 cr
This course provides an introduction to biogeography, the study of distributions of organisms. This course will combine both historical and ecological perspectives in analyzing plant and animal distributions. Human impacts on biotic distributions will
also be discussed in some detail. Prereq: 722-210 or 630-120

722-332 POLITICAL GEOGRAPHY 3 cr
A geographical study of international conflicts and relations, geopolitical strategies and processes, and the variation of political phenomena from place to place in relation to changing economic and cultural environments in the national as well as global contexts. Prereq: 722-230 or junior standing or consent of instructor.

722-334 HISTORICAL GEOGRAPHY 3 cr
An analysis of the evolution of the geographic patterns of population and human activities in major United States regions. Prereq: 722-230 or junior standing or consent of instructor.

GEOGRPY 336 WOMEN IN ASIA: ENVIRONMENT, WORK, AND DEVELOPMENT
This course will focus on understanding broad cultural/global issues and gender relations in three regions of Asia: East, Southeast, and South. The course will focus on theoretical explanations, demographic, employment, environmental, and socio-cultural processes and how these influence gender issues. Prereq: GENED 140 OR GEOGRPY 230 OR SOCIOLGY 290 OR SOCIOLGY 385

722-337/537 RECREATION REGIONS AND SYSTEMS 3 cr
Initial segments of the course focus upon an evaluation of spatial elements of the recreation phenomenon and the development of recreation areas for the express purpose of providing a background for subsequent analysis of existing recreation plans and formulation of a conceptual framework for the development of future recreation regions. Field trips are normally taken. Prereq: 722-230 or junior standing or consent of instructor.

722-340 ECONOMIC GEOGRAPHY 3 cr
The study of the spatial organization of economic activities, including patterns of production, exchange and consumption. A broad introduction to locational behavior is presented and applied examples are stressed. Prereq: 722-230 or junior standing or consent of instructor.

722-344 URBAN GEOGRAPHY 3 cr
The intraurban consideration of various land-use and population characteristics of cities, their patterns, interrelations and changes is followed by the interurban study of locations, size, spacing, types and functions of urban settlements. Field trips are
normally taken.
Prereq: 722-230 or junior standing or consent of instructor.

GEOGRPY 346 GLOBALIZATION AND THE CITY  3 u
This course will focus on understanding the processes of globalization, urban and regional development theories, emergence of the global city, and influence of globalization on urban development. This course will examine the role of cities across the world and the relationship between urban change and economic, political, and cultural globalization.
Prereq: GEOGRPY 230

GEOGRPY 352 GEOHAZARDS  3 u
The course will focus on the physical processes that create environmental hazards (e.g. earthquakes, volcanoes, severe weather), the primary controls on their frequency and intensity, and how human decision-making can influence the magnitude of impact that they have when they inevitably occur. Comparisons are made between impacts of hazards on developing versus developed countries.
Prereq: GEOGRPY 210 OR GEOLGY 100 OR GEOLGY 101 OR an approved equivalent lab course from another discipline.

722-362 GEOGRAPHY OF EUROPE  3 cr
A study of the nations, regions, cultures, and traditional and emerging spatial relationships in Europe. Physical and cultural patterns and processes are considered as they relate to the distribution of population and industrial and commercial activities. The European Community and Europe's international role and linkages are investigated.
Prereq: 900-140 or 722-230 or junior standing or consent of instructor.

722-363 GEOGRAPHY OF SOUTH AMERICA  3 cr
A study of countries south of the Caribbean with emphasis on their natural resources and economic activities. Considerable attention will be given to problems of cooperation among the Americas.
Prereq: 900-140 or 722-230 or junior standing or consent of instructor.

722-364 GEOGRAPHY OF ASIA  3 cr
A study of the interrelations between the natural environment and the economic, political and cultural activities and changes in Asia exclusive of the former Soviet Union. Prereq: 900-140 or 722-230 or junior standing or consent of instructor.

722-365 GEOGRAPHY OF MIDDLE AMERICA  3 cr
A study of the activities of the peoples of Mexico, Central America, and the West Indies, their problems in relation to their natural environment, and their problems as a
transitional area between two large continents.
Prereq: 900-140 or 722-230 or junior standing or consent of instructor.

722-368 GEOGRAPHY OF THE FORMER SOVIET UNION 3 cr Spatial analyses of physical and cultural phenomena are dealt with topically as well as regionally. Current development projects are given special emphasis. Prereq: 900-140 or 722-230 or junior standing or consent of instructor.

722-370 GEOGRAPHIC INFORMATION SYSTEMS 3 cr The basic principles and operations of geographic information systems (GIS) are presented, including the capture, storage, management, analysis and display of geographic referenced data and their attributes. Laboratory exercises provide extensive hands-on experiences with a number of GIS software packages, including both raster and vector systems. Field trips are normally taken. Prereq: 722-270 or consent of instructor.

722-377/577 REMOTE SENSING OF THE ENVIRONMENT 3 cr An introduction to the images, sensors and techniques used to gather and process data on the Earth and other planets, including aerial photography, electro-optical scanners and radar systems. The course will focus on the fundamentals of utilizing remotely sensed data in studying both natural and human induced processes impacting the Earth's surface. Computer applications will be extensively utilized. Field trips are normally taken. Prereq: 722-210, an equivalent course or consent of the instructor.

722-410/610 PHYSIOGRAPHY OF NORTH AMERICA 3 cr A study of the structure, development and interpretation of the landforms in each of the physiographic regions of the United States, Canada and Mexico. Field trips are normally taken. Prereq: 722-210 or 722-310 or consent of instructor.

722-420/620 HUMAN AND CLIMATE INTERACTIONS 3 cr The course objective is to distinguish between natural climate change and change induced by human activities. Topics covered include human modifications to cloud cover, global warming, and ozone problems. Another emphasis is to better understand the impacts of severe weather on human activities and the potential threats of future climate change. At least one field trip is usually taken. Prereq: 722-320 or an equivalent course or consent of instructor.

722-430 GEOGRAPHY OF RACE & ETHNICITY IN THE UNITED STATES Diversity 3 cr The course will take a geographical approach to the study of ethnic groups in the
United States. Native American, African American, Hispanic American, and Asian American groups will be studied systematically. Major topics will include mobility, culture regions, and the cultural landscape created by the various ethnic groups. Prereq: Junior standing or 722-230 or 722-261 or 722-344.

722-440/640 APPLIED GIS: APPLICATIONS FOR BUSINESS AND INDUSTRY 3 cr
This course will provide the background necessary to apply Geographic Information Systems software to solve applied business problems. The specific educational objectives of this course are: 1) To provide the student with "hands on" problem solving skills emphasizing, site location, target marketing, sales territory development and network routing; 2) To work with the most widely used Business GIS software package, ArcView GIS and its major extensions. Prereq: 722-270, 722-370 and 722-340 or permission of the instructor.

722-444/644 URBAN LAND USE PLANNING 3 cr
A study of the historical, social and political framework of the urban land planning process with primary emphasis on the United States. Exposure to professional planning approaches and techniques and a critical analysis of plans and planners are stressed. Field trips are normally taken. Prereq: 722-344 or 880-352 or 820-446 or 230-438 or consent of instructor.

722-450 ADVANCED METHODS IN PHYSICAL GEOGRAPHY 4 cr
Advanced Methods in Physical Geography focuses on data collection and analysis techniques used by physical geographers. Students will conduct an integrated analysis of a local landscape, including site selection, sample collection, lab analysis, and data assimilation and interpretation for report writing. Roughly one-half of course is taught outdoors, regardless of weather. Four consecutive hours per week. Prereq: 722-300 or 722-310 or 616-301/501

722-452/652 CULTURAL ECOLOGY AND SUSTAINABLE DEVELOPMENT 3 cr
This course will discuss the history of the subdiscipline of cultural ecology within geography and teach about indigenous and traditional societies' knowledge systems from a variety of world cultures. It will use ancient and modern examples of indigenous methods of natural resource management and show how these are being applied internationally to present day environmental problems and to sustainable development approaches. Prereq: 722-230 or 722-252 or consent of instructor.

GEORPY 470/670 APPLIED ENVIRONMENTAL 3 u
AND NATURAL RESOURCE GIS
This course will provide the knowledge and skills necessary to utilize GIS for solving applied environmental analysis problems. Specifically, the course is designed to 1) identify and resolve environmental and natural resource problems in terms of spatial analysis, 2) explore a conceptual understanding of GIS, 3) provide students with technical instruction in current GIS software.
Prereq: GEOGRPY 270 and GEOGRPY 370 or consent of instructor.

722-480 APPLIED RESEARCH METHODS 4 cr
A survey of new and traditional methods used in geographic studies; and the application of a variety of these methods in the collection, classification and analysis of data for assigned problems, culminating in individual research reports. Field trips are normally taken. This course fulfills department's writing competency requirement.

722-485 INTERNSHIP IN GEOGRAPHY 3-12 cr
Students will be placed in an outside private or governmental agency where they will utilize geographic techniques in approaching practical problems relevant to the agency's mission. An on-campus seminar with fellow interns and the supervisory instructor is required. Prereq: Students with a major or minor program emphasis in geography must have completed a minimum of 14 credits in geography and have the consent of the intern committee. Students of cognate majors must have a minimum of 9 selected credits in geography and consent of the intern committee.
Repeatable for a maximum of 6 credits in major and 12 credits in degree.

722-490/690 WORKSHOP 1-8 cr
Repeatable.
Prereq: Consent of instructor.

722-491 TRAVEL STUDY
Repeatable 1-3 cr

722-492 FIELD COURSE 4-6 cr
An introduction to field methods and techniques and their application in the study of a part of the United States or a foreign area. For information about a particular offering, write to the Department of Geography and Geology, University of Wisconsin-Whitewater. Repeatable.
Prereq: Consent of instructor.

722-494 SEMINAR 1-3 cr
Repeatable one time for a maximum of 6 credits in major/degree.
722-496/696 SPECIAL STUDIES 1-3 cr
Repeatable one time for a maximum of 6 credits in major/degree.

722-498 INDEPENDENT STUDIES IN GEOGRAPHY 1-3 cr
Repeatable one time for a maximum of 6 credits in major/degree. Prereq: 12 cr. in geography, 2.75 grade point in geography and consent of department chairperson.

PROGRAM OF GEOLOGY

Phone: 262-472-1071
E-Mail: geology@uwwvax.uww.edu

Faculty: Frank Luther (Coordinator), Karl Leonard.

Geology is the study of the internal structure, materials, chemical and physical processes, and history of the earth. The geology minor offers fundamental geology courses such that: (1) students may develop a thorough understanding of geology in support of their major or interest or (2) students desiring employment in geology or related fields may (a) qualify directly for admission to a graduate program in geology upon completion of supporting science and mathematics courses available at UW-W or (b) complete a second baccalaureate degree at an institution which offers a geology major with one additional year of study.

   GEOLGY 206, GEOLGY 310 AND ANDY 300 LEVEL OR ABOVE

GEOLOGY COURSE

616 COURSE DESCRIPTIONS

616-100 PRINCIPLES OF GEOLOGY GL 5 cr
An introduction to the concepts which describe the origin and evolution of the earth. Emphasis is on understanding (1) the material make-up of the earth, (2) the internal
and external processes which affect the earth, (3) the scientific method as it applies to the study of the earth. One field trip is required. A special fee will be assessed to those students electing to participate on an optional field trip to cover the cost of chartering a bus. Four hours of lectures and two hours of lab each week.
Coreq: 760-140 or 760-141 or consent of instructor. Unreq: 616-101

616-101 ELEMENTS OF GEOLOGY  GM  4 cr
An introduction to the study of the earth. Emphasis is placed on: (1) the materials which make up the earth, (2) the internal and external processes which affect the earth, (3) the length of geologic time, and (3) the methods of science, especially as they apply to the study of the Earth. One half-day field trip in the immediate area is required. An optional field trip, requiring a transportation fee will be conducted to the Baraboo Hills region. Three hours of lecture and two hours of laboratory per week.
Coreq: 760-140 or 760-141. Unreq: 616-100

616-204 EARTH AND LIFE HISTORY  GM  3 cr
A study of the changes in the earth's crust and life through geologic time and the methodology used in reconstructing earth history. One field trip is required. A special fee will be assessed to those students electing to participate on an optional field trip to cover transportation costs.
Coreq: 760-140 or 760-141

616-205 HISTORICAL GEOLOGY LABORATORY 1 cr
A laboratory course in earth history emphasizing paleontologic, stratigraphic, and geologic map studies. One field trip is required. One two-hour lab per week.
Prereq: 616-204 or con reg in 616-204.

616-206 PLANETARY GEOLOGY 3 cr
A study of geological phenomena including (1) internal processes such as gravity, magnetism and volcanism, and convection, and (2) external processes such as glaciation, impact, wind and water erosion, and mass movement which affect the origin, evolution, and current structure of the planets, satellites, meteoroids, and asteroids. Processes affecting the earth and major features of the Earth will be used to illustrate and explain planetary processes.
Coreq: 760-140 or 760-141

616-300 PRINCIPLES OF OCEANOGRAPHY GM 3 cr
A study of the physical, chemical, geological and biological aspects of the major water masses of the world and human dependency on these water masses. One field trip to observe shoreline processes is required. A special fee will be assessed to students electing to participate in an optional field trip to cover the transportation
616-301/501 ENVIRONMENTAL GEOLOGY 3 cr
A study of the physical and cultural problems associated with earthquakes, volcanism, weathering and mass movement, running water, groundwater, glaciers, coastal processes, waste disposal, contaminant hydrogeology, nonrenewable resources, and environmental health. An analysis of various engineering solutions and land use planning approaches concerning these problems will be examined. At least one field trip will be required. A special fee will be assessed to students who participate in optional field trips to cover transportation costs. Two lectures and one two-hour lab per week.
Prereq: 616-100 or 722-210 or consent of instructor.

GEOLGY 307 DINOSAURS GM 3 u
The proposed course will examine all aspects of Dinosaurs from Earth System Science perspective. Who were the Dinosaurs? When, how and where did they live on earth? What is their relationship to birds? What were the circumstances of their extinction?
Coreq: MATH 140 OR 141

616-315 INTRODUCTION TO MINERALOGY 4 cr
An introduction to mineralogy with emphasis on the principles of crystallography, physical mineralogy, chemical mineralogy and the systematic classification of minerals. Three lectures and one two-hour lab per week. One field trip is required. A special fee will be assessed to those students electing to participate on an optional field trip to cover transportation costs. Offered every fall term.
Prereq: 616-100, (640-102 or 640-141 recommended).

616-316 PETROLOGY 4 cr
A study of the mode of occurrence, composition, classification, and origin of igneous, sedimentary, and metamorphic rocks. Special emphasis is placed on (1) hand specimen and microscopic characteristics as indicators of the origin and evolution of rocks and (2) the chemical and physical aspects of rocks which control their origin and evolution. Two lectures and two two-hour labs per week. Offered every spring semester. One field trip is required. A special fee will be assessed of those students electing to participate in an optional field trip to cover transportation costs.
Prereq: 616-100, 616-315, (640-104 and 800-163 recommended).

HISTORY
616-317 PALEONTOLOGY 3 cr
An introduction to the history of life on Earth. Lectures focus on concepts in paleontology including origin of life; evolution; ecology; and use of fossils in the solution of geologic problems. Characteristics of common fossils will be the focus of the laboratory. Two lectures and one two-hour lab per week. One field trip is required; up to two optional field trips possible (fee required to cover cost of optional trips). Prereq: 616-100, 616-204 and 616-205; or 630-141, 630-142.

616-318 STRUCTURAL GEOLOGY 4 cr
A study of the classification, description, and genesis of features produced in the earth's crust by stresses and resulting strain. Emphasis is placed on (1) understanding stress and strain, (2) the recognition and interpretation of structural features, outcrop patterns, and subsurface geology, (3) preparation and interpretation of geologic maps, and (4) the geologic structural provinces of North America. Two lectures and two two-hour labs per week. Offered every spring semester. One field trip is required. A special fee will be assessed to those students electing to participate on an optional field trip to cover transportation costs. Prereq: 616-100, (760-152 recommended).

616-319 STRATIGRAPHY AND SEDIMENTATION 3 cr
Classification and description of the various kinds of sediments and sedimentary rock units; sedimentary facies; cyclic sedimentation; and techniques of correlating sedimentary rocks. Two hours of lecture and two hours of lab each week. One field trip is required. A special fee will be assessed to those students electing to participate on an optional field trip to cover transportation costs. Prereq: 616-100, 616-204, 616-205.

GEOLGY 352 GEOHAZARDS 3 u
The course will focus on the physical processes that create environmental hazards (e.g. earthquakes, volcanoes, severe weather), the primary controls on their frequency and intensity, and how human decision-making can influence the magnitude of impact that they have when they inevitably occur. Comparisons are made between impacts of hazards on developing versus developed countries. Prereq: GEOGRPY 210 OR GEOLGY 100 OR GEOLGY 101 OR an approved equivalent lab course from another discipline.

616-490/690 WORKSHOP 1-3 cr
Repeatable.
Prereq: Consent of instructor.

616-492 FIELD STUDIES IN GEOLOGY 1-3 cr
Field studies of classic geologic regions. Emphasis will be placed on training in the
basic techniques and methods of field studies, recognition and interpretation of geologic structures, and the use of field observations to develop both geologic understanding of the region studied and geologic reasoning ability. Students will be responsible for the cost of the university van rental and other trip expenses. Coreq: enrollment in or completion of 616-100 or consent of instructor.

**616-494 SEMINAR 1-3 cr**
An intensive study of one or more philosophical issues that supplement the curriculum. Original research papers may be expected as partial fulfillment of the course requirements. Repeatable. Prereq: Consent of instructor.

**616-496/696 SPECIAL STUDIES 1-3 cr**
Repeatable. Prereq: Consent of instructor.

**616-498 INDEPENDENT STUDY IN GEOLOGY 1-3 cr**
Repeatable. Prereq: 8 cr in geology or cons instr and program coordinator.

**DEPARTMENT OF HISTORY**

*Phone:* 262-472-1103

History is studied for many reasons. It is our social memory, telling us who we are, where we belong, and where we seem to be going. History takes us out of the present, broadens the horizons of our minds, makes us aware of human possibilities, and confronts us with the awareness that our present culture is neither the only way, nor perhaps the best way, that human beings have lived.

A major in history provides broad preparation for careers in teaching and business, as well as for professional training in law, journalism, management, and university teaching. But most importantly, history helps to develop a breadth of vision, a capability for critical thinking, and a fundamental understanding of human society
permitting a person to grow and adapt to the changing career opportunities in the modern world.

**MAJOR/EMPHASES**

**HISTORY (BA/BS)**

If courses in the major are used to satisfy General Education requirements and Letters and Sciences requirements, 6 additional elective units would be available.

HISTRY 425 HISTORY OF AMERICAN INDIAN LAW AND POLICY 3 cr
The purpose of this course is to explain the unique nature of the historic and contemporary federal-Indian relationship. Students completing the course will gain a clearer understanding of the legal process by which American Indians were first subjugated to federal law and policy, and later became active agents by using that same legal system to preserve, protect, and enhance identity and tribal sovereignty in recent years. Prereq: Junior class standing.

740-432/632 BANDITRY, REBELLION AND REVOLUTION IN MODERN CHINA 3 cr
An examination of violent socio-political upheavals in China beginning with the White Lotus Rebellion and culminating with the Communist Revolution. Prereq: Jr st, 6 credits of history, or cons instr.

740-433/633 TWENTIETH CENTURY JAPAN 3 cr
A discussion of Japan's emergence into the modern world centering on the Japanese transformation from a secluded feudal nation to a powerful industrialized state. Prereq: Jr st, 6 credits of history, or cons instr.

HISTORY 434 SOCIAL HISTORY OF JAPAN 3 cr
This course traces the changes in the lives of Japanese people from earliest recorded times to the present day. Emphasis is on the period from 1868 to the 1900's. Prereq: Jr st; 6 units of history or consent of instructor

740-451/651 ANCIENT CIVILIZATION 3 cr
A study of the civilization of the Ancient Near East, of Greece and of Rome. Prereq: Jr st, 6 credits of history, or cons instr.
740-452/652 MEDIEVAL CIVILIZATION 3 cr
A survey of basic political, socio-economic, cultural and religious trends in European history from A.D. 300 to 1500.
Prereq: Jr st, 6 credits of history, or cons instr.

INTERNATIONAL STUDIES

740-455/655 STUDIES IN SOCIAL AND CULTURAL HISTORY (VARIABLE TOPIC) 3 cr
Intensive study of a major theme in social and cultural history emphasizing interdisciplinary approaches to complex historical issues. The particular topic of the course will be published before registration.
Prereq: Jr st or cons instr. Repeatable only with change of topic.

740-460/660 HISTORY OF TWENTIETH CENTURY EUROPE 3 cr
A survey of the political, economic, social, and cultural history of Europe since about 1914.
Prereq: 740-155 or equiv.

740-490/690 WORKSHOP 1-6 cr
Repeatable.
Prereq: Consent of instructor.

740-492 FIELD STUDY 3-6 cr
Studies designed to increase the student's understanding of a segment of history by reading and travel under the direction of a member of the department. Area of concentration to be approved by the History Department.
Repeatable.
Prereq: Jr st, 6 credits of history, or cons instr.

740-493 APPLIED HISTORY 1-6 cr
Study and work with a historical agency under the direction of a faculty supervisor. May include a related research project. Students will have the opportunity to combine academic learning with practical experience in the operation of a historical agency.
Repeatable for a maximum of 6 credits in the history major. Prereq: 11 credits of history and cons dept chp.

740-494 SEMINAR 2 cr
Repeatable

740-496/696 SPECIAL STUDIES IN HISTORY 1-3 cr
Repeatable two times for a maximum of 6 credits in major/degree.
**740-498 INDEPENDENT STUDY 1-2 cr**
Repeatable two times for a maximum of 2 credits in major/degree. Prereq: Sr st as a major in history.

**740-499 SENIOR SEMINAR 3 cr**
A capstone research and writing seminar. Senior level History majors do extensive archival research and write a perceptive monograph based on their research. Prereq: Senior standing, History major with at least 24 credits of History and completion of 740-200; or by special permission.

**ASIAN STUDIES MINOR**

Larry Neuman (Coordinator)

This interdisciplinary minor complements a variety of majors and career objectives. It provides a multidisciplinary perspective on one of the fastest growing and most important regions in the world today. Courses dealing with Asia are offered in History, Geography, Religious Studies, Economics, Sociology, Political Science, Languages and Literatures, and Anthropology. Recent students have combined this minor with majors or programs in General Business International Emphasis, Management Computer Systems, Art, Speech, History and Social Work. Many employers regard a knowledge of Asia and/or an Asian language as highly desirable.

THE EQUIVALENT OF ONE TERM OF STUDY OF AN ASIAN LANGUAGE WITH A GRADE OF C OR HIGHER, OR PASSING A PROFICIENCY TEST INDICATING EQUIVALENT COMPETENCY. NATIVE SPEAKERS OF AN ASIAN LANGUAGE MAY HAVE THIS REQUIREMENT WAIVED.

MAJOR

Paul Adogamhe (Coordinator)

The international studies major is an interdisciplinary program, with an international emphasis, that provides a liberal arts education. It is intended to help prepare students for a variety of careers in the private and public sectors. Washington, D.C. internships, a summer seminar at the United Nations in New York, and study abroad programs are available through the major.

The International Studies minor is designed to combine a foundation in key international studies courses with a concentration in one geographic area of the
student's choice. There is no specific foreign language requirement, but students are encouraged to take foreign language courses. The minor compliments many majors and is especially valuable for majors in economics, business, history, foreign language, geography, political science and sociology. Specific regional emphasis courses should be selected in consultation with the International Studies Program coordinator to provide both breadth and depth of study in a region.

LATIN AMERICAN STUDIES MINOR

Seth Meisel (Coordinator)

The Latin American Studies minor is designed for those who seek to supplement their regular field of study with a multi-disciplinary specialization on Latin America. The program is organized to give students a broad introduction to Latin American history, society and culture drawing on selected courses from Spanish, history, anthropology, geography, economics, Chicano studies, and music. While competency in Spanish is highly recommended, it is not required of minors.

617 COURSE DESCRIPTIONS

617-280 INTRODUCTION TO AUSTRALIAN STUDIES: AUSTRALIAN SOCIETY & CULTURE
The course will focus on Australia in the twentieth century and will explore five major themes. They are: (1) Racial and National Identities. When the Australian nation was created on 1 January 1901, immigration control was a critical issue. British Australians were determined that Australia should remain a "white" society. Students will analyze how this historical legacy continues to impact indigenous and immigrant communities. (2) Comparisons with the United States. Students will examine societal, cultural, and political-economic similarities and differences between Australia and the United States. Close attention will be given to the process of establishing and rekindling a national identity, involving the comparative symbolism of nationhood and federalism. (3) Australia-Asia Interdependencies. Over the last thirty years, Australia's economic and cultural ties to Asia have intensified to the point where Australia is now commonly regarded as being "part of Asia." Students will examine the extent and effects of this "Asianization process." (4) The Impacts of Globalization on Australia. As the corporate forces of globalization diminish national sovereignty, claims for national and cultural identity are called increasingly into question. Students will explore the impacts of globalization in the Australian context, including the rise of grassroots, anti-globalization movements in the country. (5) Contemporary Debates. Several key issues define contemporary Australian society. Among them are the following: Aboriginal reconciliation, environmental management, federalism-republicanism, tax reform, immigration, trade and investment. By studying the terms of these debates, students will gain insight into the emergence of a successful, multicultural democracy in the world's driest continent. No discussion is complete without at least some mention of the
Australian sense of humor that colorfully describes and summarizes these debates. Prereq: 900-130 or 900-140 or 900-120 or consent of instructor.

**617-488 TOPICS IN INTERNATIONAL STUDIES 3 cr**
An intensive study of selected topics in International Studies. Subject matter will vary depending on the department and faculty member responsible for the course. Repeatable for a maximum of 6 credits in major/degree (for different topics only). Prereq: Consent of instructor.

**617-494 SEMINAR 1-3 cr**
An intensive study of selected topics in international studies that supplements the curriculum. Subject matter may vary depending on the needs and desires of the participants. Repeatable two times for a maximum of 6 credits in major/degree. Prereq: Consent of instructor.

**617-496 SPECIAL STUDIES 1-3 cr**
Repeatable.

**617-498 INDEPENDENT STUDY 1-3 cr**
Study of a selected topic or topics under the direction of a faculty member. Repeatable. Prereq: Consent of instructor and program director.

The Management Computer Systems (MCS) major is an interdisciplinary program combining faculty from the Management Department in the College of Business and Economics with their colleagues from the Department of Mathematics and Computer Science in the College of Letters and Sciences. The major offers a unique blend of computing and management skills designed to harness computer technology to the needs of a wide variety of business, industrial, financial, governmental and educational organizations. Graduates are trained in the areas of programming, systems
analysis/design and network management/administration with a strong background in business. Typical entry level positions include programmer, programmer/analyst, network engineer, network management/administration and PC support. The field offers tremendous potential for rapid advancement. The MCS major can be taken in either the College of Business and Economics for a BBA degree or in the College of Letters and Sciences for a BS degree.

Transfer grades are included in determining eligibility for MCS courses. A minimum combined transfer and UW-Whitewater GPA of 2.5 overall and in the major is required for graduation.

MCS COURSE DESCRIPTIONS

MCS 210 CONCEPTS OF DATABASE SYSTEMS 3 cr
The study of database concepts, including data design and the management of data as a corporate resource. Students are to develop typical business applications with
graphical user interfaces in a windows environment, using a relational database and fourth generation languages.
Prereq: MCS 171 and an overall g.p.a. of 2.50.

**MCS 220 CONCEPTS OF PROGRAMMING 3 cr**
This course teaches students professional software development using object-oriented program design and the Java programming language. Coverage includes correct business programming style and documentation, program debugging and testing, database and file processing, event-handling, and graphical user interfaces.
Coreq: MCS 210. Prereq: COMPSCI 172 and an overall gpa of 2.50.

**MCS 231 CONCEPTS OF DATA STRUCTURES 3 cr**
This course is an introduction to data structures, using the Java programming language. It covers static and dynamic implementation of data structures, including lists, stacks, queues and trees. It emphasizes object-oriented design and programming methodology, including inheritance and polymorphism, and applies these in the development of large programming projects.
Prereq: MCS 210 and MCS 220 and an overall g.p.a. of 2.50.

**MCS 232 CONCEPTS OF COBOL WITH FILE STRUCTURES 3 cr**
The COBOL language is taught and then used to study file organizations at both the logical and physical level in order to provide a firm foundation for the future study of database and information systems. Sequential, indexed, and relative files are discussed. Hashing and the implementation of complex file structures is discussed. Students act as maintenance programmers updating and modifying existing programs.
Prereq: MCS 231 and an overall g.p.a. of 2.50.

**MCS 325 CLIENT/SERVER - LOCAL AREA 3 cr**
This course is designed to give students familiarity with distributed computing in a local area environment. Students are to gain "hands-on" experience in simple network management. They also are to learn and use an event-driven, object-oriented programming language to exchange data with other applications in a local area networking environment.
Prereq: MCS 231 and an overall g.p.a. of 2.50.

**MCS 331 SYSTEMS ANALYSIS AND DESIGN 1 3 cr**
In this course, the student learns to analyze the business organization as a system, to structure both the information and processes of a business or organization, and to complete the systems development process through the logical design phase. The course utilizes an object-oriented methodology for the systems development process. The student begins a team project that is completed in 950-431.
Coreq: MCS 325 and MCS 245 or MATH 231 or MATH 342. Prereq: MCS 231 and an overall g.p.a. of 2.50.

**MCS 391 MCS COOPERATIVE PROGRAM 3 cr**
The student is to work as an information systems professional in a business or government organization and report on the experience to the MCS faculty and fellow students. 
Prereq: Consent of MCS Cooperative Program Coordinator and an overall g.p.a. of 2.50.

**MCS 425 WEB DEVELOPMENT 2 3 cr**
This course teaches students how to develop Web applications using Java technologies. The course focuses on design and implementation of distributed applications for the Internet and/or intranets. Topics include object-oriented distributed systems and technologies, database access, security, advanced Java programming, and technical design issues for e-Commerce systems. 
Prereq: MCS 325 and an overall gpa. of 2.50.

**MCS 431 SYSTEMS ANALYSIS AND DESIGN 2 3 cr**
This course is a study of the principles and activities associated with the physical design and implementation of computer based information systems using object oriented methodologies. It includes object-oriented decomposition, system testing, documentation, system security, conversion and implementation. The student completes the team project started in 950-331. 
Prereq: MCS 331 and an overall g.p.a. of 2.50.

**MCS 475 NETWORK ENGINEERING 3 cr**
This class will explore the OSI (Open Systems Interconnection) networking model, standard networking protocols, and network architecture including implementation, administration and maintenance. Students will also gain "hands-on" networking experience by installing and setting up a network operating system, building a small LAN, and managing network servers. 
Prereq: MCS 325 or consent of instructor and an overall g.p.a. of 2.50. Unreq: COMPSCI 475.

**MCS 496 SPECIAL STUDIES 3 cr**
Repeatable for a maximum of 9 credits in major/degree. 
Prereq: Consent of instructor.

**MCS 498 INDEPENDENT STUDIES 1-3 cr**
Repeatable.
Prereq: Approval of the MCS Coordinator and the faculty member supervising the course. Completion of at least four MCS core courses and an overall g.p.a. of 2.50.

MATHEMATICS

Mathematics has traditionally been the language of science and now plays a vital role in the social sciences and business as well. Every field in which quantitative activity is found requires that its workers have good backgrounds in mathematics. A student well-versed in mathematics will find their skills of use in almost any profession.

Although mathematics is studied for its applications, it also attracts many who are interested in its aesthetic and creative side. A study of mathematics improves one's ability to think about abstract concepts, to conceptualize about hypothetical structures, to reach logical conclusions, and to consider many solution techniques when problem solving.

MAJOR

The Department of Mathematical and Computer Sciences offers four distinct emphases for a degree in mathematics: BA/BS PURE MATHEMATICS, BA/BS MATHEMATICS STATISTICS, BA/BS SPACE MATHEMATICS, BSE MATHEMATICS FOR SECONDARY EDUCATION. A student interested in pursuing graduate work in mathematics or combining their mathematics major with a second major or emphasis in music, art, computer science, or language would be interested in the PURE MATHEMATICS emphasis. A student interested in a career as a statistician, an actuary, a demographer, or a specialist in marketing, quality
control, or economics would be interested in the MATHEMATICS STATISTICS emphasis. A student interested in a career in the application of mathematics to space science, engineering, physics, or other science would be interested in the SPACE MATHEMATICS emphasis. A student interested in a career as a mathematics educator at the secondary school level would be interested in the MATHEMATICS FOR SECONDARY EDUCATION emphasis. Each emphasis requires the completion of the following core courses.

MATHEMATICS MAJOR CORE COURSES (25 CREDITS)

AN APPROVED MINOR IS REQUIRED FOR THIS MAJOR

Majors who anticipate a career in applied mathematics should take the two-course sequence 760-458/760-459, and as many of the following as are feasible: 760-342, 760-361, 760-365, 760-441, 760-442, 760-463, 760-471, 760-472, and all courses listed under computer science.

Majors who anticipate graduate study in mathematics should take both of the two-course sequences 760-452/760-453 and 760-464/760-465 and as many of the following as are feasible: 760-342, 760-361, 760-417, 760-431, 760-441, 760-454, 760-463, and a year of French or German.

Majors who are interested in pursuing a career as an actuary are encouraged to take as many of the following courses as possible: 760-342, 760-365, 760-441, 760-442, 760-446, 760-471, 765-162, and courses in accounting and insurance offered in the College of Business and Economics.

1. MATH 760-253, 760-254, 760-280, 760-342 AND 760-353

2. SELECT 1 COURSE FROM 760-355 OR 760-452

MATHEMATICS: ELEMENTARY EDUCATION EMPHASIS

MINOR - 23 CREDITS
1. MATH 760-111, 760-112, 760-152, 760-231, 760-375, 760-415 AND 760-416

A student with a strong high school background in mathematics, and on the recommendation of the department chair, may waive 760-152 and elect other mathematics courses approved by the department chair.

Restriction of credit: A student may not register for a course which is a prerequisite for any other course in which credit has been received unless departmental approval is obtained. The courses 760-040 and 760-041 may not be taken by those who have successfully completed, are taking, or have had waived any course numbered 760-140 or above. A student may not register for 760-143 if 760-152 or any course beyond 760-152 has been completed unless departmental approval is obtained. A student may not receive credit for both 760-243 and 760-250, 760-243 and 760-253, or for both 760-250 and 760-253. Those who do well (A or B) in 760-243 and desire more calculus should elect 760-253 (even though credit cannot be earned for both courses). Those who do well (A or B) in 760-250 and desire more calculus should elect 760-254. Anyone anticipating a mathematics major or minor is advised to take 760-253. If a student who has completed 760-250 wants to change to a mathematics major or minor, 760-254 may be taken provided the student earned at least a B in 760-250 and has the consent of the Department Chair. A student with less than a B in 760-250 should take 760-253 even though credit will be given for only one of the courses 760-250 or 760-253. Anyone going from 760-250 to 760-254 should be aware of the trigonometry and rigor stressed in 760-253. All students seeking initial registration in any course in the calculus sequence 760-253 through 760-255 who have not completed 760-152 must consult with the Department Chair. All students seeking to count 760-250 as part of their mathematics major or minor must consult with the Department Chair.

Courses carrying "for the elementary teacher" in the title may not be applied toward a major or minor in mathematics except by students in elementary education.

Students may not receive credit for both 760-415 and 760-452. 760-375 will not count towards a mathematics major or minor in Letters and Sciences.

Courses listed only as computer science may not be used for a mathematics major or minor. Courses listed in both computer science and in mathematics may not be used for credit in both areas. 760-441/760-442 or 760-471/760-472 will satisfy the sequence requirement of the mathematics major even though 760-442 or 760-471 is used for computer science credit.

COMPUTER SCIENCE
Computer Science is a discipline of modern origin in which the theory and applications of high speed machine computation, of efficient data processing, of advanced graphics design, and of machine assisted problem solving are developed and studied.

The computer science minor builds a solid background in computing and related principles so that students emerge from the program equipped for both commercial employment and for advanced study.

Employment opportunities are to be found in the data processing departments of commercial enterprises and of state and federal agencies, in research in all of the physical and social sciences, and in many industrial and engineering applications. Although the opportunities offered students are many and varied, it must be recognized that the rapid rate of change of our technology imposes the responsibility of continuing study in order to remain current in this field.

760 COURSE DESCRIPTIONS

760-040 PRE-ALGEBRA 3 cr
A course for students who need a review of basic mathematics or who lack the computational skills required for success in algebra and other University courses. Topics include fractions, decimals, percent, descriptive statistics, English and metric units of measure, and measures of geometric figures. Emphasis is on applications. A brief introduction to algebra is included at the end of the course. This course does count toward the semester credit load and will be computed into the grade point average. It will not be included in the 120 credits required for graduation. It may be taken for a conventional grade or on a satisfactory/no credit basis. Not available to
students who have satisfied the University Proficiency requirement in mathematics.
Unreq: 760-140 or 760-141

760-041 BEGINNING ALGEBRA 3 cr

A course for students who need a review of basic mathematics or who lack
the computational skills required for success in algebra and other University courses.
Topics include fractions, decimals, percent, descriptive statistics, English and metric units of measure, and measures of geometric figures. Emphasis is on applications. A brief introduction to algebra is included at the end of the course. This course does count toward the semester credit load and will be computed into the grade point average. It will not be included in the 120 credits required for graduation. It may be taken for a conventional grade or on a satisfactory/no credit basis. Not available to students who have satisfied the University Proficiency requirement in mathematics.
Unreq: 760-140 or 760-141

760-041 BEGINNING ALGEBRA MATHEMATICAL & COMPUTER SCIENCES 4 cr

A course for those who have a sound background in basic arithmetic, but who have not been exposed to algebra, or who need to strengthen their basic algebra skills. Topics include properties of the real numbers, linear and quadratic equations, linear inequalities, exponents, polynomials, rational expressions, the straight line, and systems of linear equations. The course counts towards the semester credit load and will be computed into the grade point average. It will not, however, be included in the credits necessary for graduation. It may be taken for a conventional grade or on a satisfactory/no credit basis.
Prereq: 760-040 or equivalent demonstration of capability. Students cannot receive credit for 760-041 if they have been waived from the Mathematics Proficiency Requirement. Not available to students who have satisfied the University Proficiency requirement in mathematics.
Unreq: 760-140 or 760 141.

760-140 MATHEMATICAL IDEAS (Proficiency) 3 cr

Designed to give students a broad understanding and appreciation of mathematics. Includes topics not usually covered in a traditional algebra course. Topics encompass some algebra, problem solving, counting principles, probability, statistics, and consumer mathematics. This course is designed to meet the University Proficiency Requirement in mathematics for those students who do not wish to take any course which has 760-141 as a prerequisite.
Prereq: Satisfactory completion of 760-041, with a grade of C or better, or
demonstration of equivalent capability. This course cannot be taken for credit after completing any mathematics course above 141.

760-141 INTERMEDIATE ALGEBRA (Proficiency) 4 cr
Introduction to college algebra. Topics and concepts extend beyond those taught in a beginning algebra course. A proficiency course for those who have not had sufficient preparation in high school to allow them to take 760-143 or 760-152.
Prereq: Satisfactory completion, with a grade of C or better, of 760-041 or demonstration of equivalent capability. A student cannot receive credit for both 760-141 and 760-141B. A student cannot receive credit for either 760-141 or 760-141B if they have been waived from the Mathematics Proficiency Requirement. (See University Proficiency Requirements in the Bulletin). Students may not take for credit any course for which they have received a waiver, nor may they take for credit any course in the same department that is a prerequisite for a course that has been waived (e.g., if a student has been waived from Math 143, he may not take Math 141 for credit).

760-143 FINITE MATHEMATICS FOR BUSINESS AND SOCIAL SCIENCES
GM 3 cr
Mathematical preparation for the understanding of various quantitative methods in modern management and social sciences. Topics included are sets, relations, linear functions, interest, annuities, matrix theory, the solution of linear systems by the graphical, algebraic, Gauss-Jordan, and inverse methods, linear programming by graphical and simplex methods, counting and probability, and decision theory.
College of Business and Economics majors must take this course on a conventional grade basis.
Prereq: Waiver of or a grade of C or better in 760-141.

MATH 148 MATHEMATICS FOR THE ELEMENTARY TEACHER I
GM 3 u
A study of sets, whole numbers, fundamental operations of arithmetic, fundamental algorithms and structural properties of arithmetic, fractions, problem solving and introduction to inductive and deductive logic stressing the structure of mathematics. All students will prepare a mathematics based activity and present it at an area elementary school. For elementary education prekindergarten-6 and elementary education elementary/middle school emphasis students.
Prereq: A grade of C or better in 760-141 or 760-141B or a waiver from the university mathematics proficiency requirement.

MATH 149 MATHEMATICS FOR THE ELEMENTARY TEACHER II
3 u
Selected topics in logic. The computer as a useful tool in mathematical explorations is
introduced and applied throughout the course. Topics in probability and statistics, with emphasis on descriptive techniques. Investigations in geometric figures, measurement, construction, congruent and similar geometric figures. An introduction to coordinate geometry. Problem solving, discovery, and student projects are emphasized throughout. All students will prepare a mathematics based activity and present it at an area elementary school.
Prereq: Satisfactory completion of 760-111 with a grade of C or better.

760-152 ELEMENTARY FUNCTIONS \( GM \) 5 cr
Review of algebraic functions, inequalities, mathematical induction, theory of equations, exponential and logarithmic functions, circular functions, trigonometric identities and equations, inverse trigonometric functions, solution of triangles.
Prereq: Waiver of or a grade of C or better in 760-141.

760-177 THE LOGIC OF CHESS 1 cr
A study of logic particularly as it is used in the game of chess and, most particularly, in chess strategy and the end game of chess. The rules are taught to those who are not already acquainted with the game.
Prereq: Fulfillment of University Proficiency requirement in mathematics.

760-230 INTRODUCTORY STATISTICS \( GM \) 3 cr
A pre-calculus course in statistics. Descriptive statistics, probability distributions, prediction, hypothesis testing, correlation, and regression. This course does not count towards a mathematics major or minor in either liberal arts or secondary education or towards a mathematics minor in elementary education. This course may not be taken for credit if credit has been or is being earned in any other statistics course.
Prereq: Waiver or a grade of C or better in 760-141. Unreq: Any other statistics course.

760-231 UNDERSTANDING PROBABILITY AND STATISTICS \( GM \) 3 cr
A pre-calculus course in probability and statistics. Descriptive statistics, classical probability, probability distributions, prediction, parametric and nonparametric hypothesis testing, correlation, regression, and use of some statistical software. This course does not count towards a mathematics major or minor in liberal arts or towards a mathematics major in secondary education. This course may not be taken for credit if credit has been or is being earned in any other statistics course.
Prereq: Completion, with a grade of C or better, of either 760-143 or 760-152. Unreq: Any other statistics course.

760-243 SHORT CALCULUS FOR BUSINESS AND SOCIAL SCIENCES \( GM \) 3 cr
A general survey of the Calculus. Topics covered include limits, differentiation, max-min theory, exponential and logarithmic functions, integration and functions of several variables. As in 760-143, business and social science applications are stressed. College of Business and Economics majors must take this course on a conventional grade basis.
Prereq: Completion with a grade of C or better in either of the courses 760-143 or 760-152.
Unreq: 760-250. Students should check with their major department for advice on whether to take 760-243 or 760-250.

**760-250 APPLIED CALCULUS SURVEY FOR BUSINESS AND THE SOCIAL SCIENCES**  
**GM**  
5 cr

An applied calculus course covering elementary analytic geometry, limits, differentiation, max-min theory, transcendental functions, integration, functions of several variables, and elementary differential equations. Some computer topics may be included. College of Business and Economics majors must take this course on a conventional grade basis.
Prerequisite: 760-143, with a grade of C or better, or equivalent preparation as determined by the Mathematics Department. Unreq: 760-243, 760-253.

**760-253 CALCULUS AND ANALYTIC GEOMETRY I**  
**GM**  
5 cr

Review of algebraic and trigonometric functions, study of the derivative, techniques of differentiation, continuity, applications of the derivative, the Riemann integral, applications of the integral. Conventional grade basis only if course is required in the College of Business for major.
Prereq: 760-152 or equivalent high school preparation as determined by the Mathematics Department.
Unreq: 760-243 and 760-250.

**760-254 CALCULUS AND ANALYTIC GEOMETRY II**  
5 cr

Transcendental functions, techniques of integration, improper integrals, L'Hopital's Rule and indeterminate forms, infinite series, polar coordinates and conic sections. This course includes a writing component.
Prereq: 760-250 with a grade of B or better, or 760-253.

**760-255 CALCULUS AND ANALYTIC GEOMETRY III**  
3 cr

Solid analytic geometry, vectors and vector functions, functions of several variables, multiple integrals and their applications.
Prereq: 760-254.

**760-280 DISCRETE MATHEMATICS**  
3 cr

This course will supply a thorough grounding in the mathematical topics which are
central to the study of computer science, and which form the basis for many modern applications of mathematics to the social sciences. Topics covered will include sets, logic, Boolean algebra and switching circuits, combinatorics, probability, graphs, trees, recursion, and algorithm analysis. Expressing mathematical ideas and writing proofs will be emphasized. Prereq: 760-250 with a grade of C or better, or 760-253.

760-290 SPATIAL ANALYSIS 3 cr
Presentation and interpretation of data, use descriptive statistics and measures of spatial patterns, introduction to statistical inference and measures of association, with particular reference to geographic examples. Students will become proficient in using computers to achieve these skills. Prereq: 760-143

760-301 INTRODUCTION TO ANALYSIS 3 cr
The main emphasis of this course is to introduce students to mathematical proofs. Students will learn to read and write proofs in mathematics by writing proofs of theorems about limits, sets of real numbers, and continuous functions. If time permits, other topics may include derivative and integration theorems, theory of open and closed sets, and cardinality of sets. Prereq: 760-255 and 760-280

760-342/542 APPLIED STATISTICS 3 cr
This course will cover the basics of statistical testing, regression analysis, experimental design, analysis of variance, and the use of computers to analyze statistical problems. Prereq: 760-253 or 760-250 or cons instr. Unreq: 230-245.

760-353 COLLEGE GEOMETRY 5 cr
The topics included in this course are foundations of Euclidean geometry, Euclidean transformational geometry, modern synthetic geometry that builds on Euclidean geometry, selected finite geometries, and an introduction to non-Euclidean and projective geometry, including their relationship to Euclidean geometry. Although the course is adapted to the prospective teacher of geometry, it will also meet the needs of those in other majors needing a background in geometry. Standards and guidelines of appropriate national and local bodies will be implemented. Prereq: 760-253 and 760-280 or consent of instructor.

760-355/555 MATRICES AND LINEAR ALGEBRA 3 cr
Systems of linear equations, matrices and determinants, finite dimensional vector spaces, linear dependence, bases, dimension, linear mappings, orthogonal bases, and
eigenvector theory. Applications stressed throughout.
Prereq: 760-250 or 760-253.

760-359 MATHEMATICAL MODELING & STATISTICS 3 cr
An introduction to mathematical modeling and descriptive statistics. Students will develop the basic skills of formulation, simplification, and analysis of mathematical models for describing and predicting physical phenomena. The basic tools of descriptive statistics will also be introduced; the use of descriptive statistics in formulating and interpreting mathematical models will be emphasized.
Prereq: 760-255 or consent of instructor.

760-361 DIFFERENTIAL EQUATIONS 3 cr
Ordinary differential equations: general theory of linear equations, special methods for nonlinear equations including qualitative analysis and stability, power series and numerical methods, and systems of equations. Additional topics may include transformation methods and boundary value problems. Applications stressed throughout.
Prereq: 760-255.

760-365/565 LINEAR PROGRAMMING 3 cr
Prereq: 765-171 and 760-355.

760-375/575 DEVELOPMENT OF MATHEMATICS 3 cr
A study of the development of mathematical notation and ideas from prehistoric times to the present. The development and historic background of the new math will be included.
Prereq: 760-152 or cons instr.

760-380/580 PATTERNS OF PROBLEM SOLVING 3 cr
This course will expose students to a variety of techniques useful in solving mathematics problems. The experiences gained from this course can be applied to problems arising in all fields of mathematics. The student will have the chance to see how some general techniques can be used as tools in many areas. Homework for this course will consist mostly of solving a large number of mathematics problems. Consent will be given to students with substantial interest in problem solving, and adequate preparation.
Prereq: 760-280 or cons instr.
760-415/615 MODERN ALGEBRA AND NUMBER THEORY FOR THE ELEMENTARY TEACHER  3 cr
An introduction to modern algebra with special emphasis on the number systems and algorithms which underlie the mathematics curriculum of the elementary school. Topics from logic, sets, algebraic structures, and number theory.
Prereq: 760-112 and 760-152. Unreq: 760-452.

760-416/616 GEOMETRY FOR THE ELEMENTARY TEACHER  3 cr
A study of the intuitive, informal geometry of sets of points in space. Topics include elementary constructions, coordinates and graphs, tesselations, transformations, problem solving, symmetries of polygons and polyhedra, and use of geometry computer software.
Prereq: 760-112 and 760-152

760-417/617 THEORY OF NUMBERS  3 cr
A study of the properties of integers, representation of integers in a given base, properties of primes, arithmetic functions, module arithmetic. Diophantine equations and quadratic residues. Consideration is also given to some famous problems in number theory.
Prereq: 760-280 or 760-415 or cons instr.

760-431/631 TOPOLOGY  3 cr
An introduction to point-set topology, including such topics as topological spaces, mappings, connectedness, compactness, separation axioms, metric spaces, complete spaces, product spaces and function spaces.
Prereq: 760-255 and either 760-280 or cons instr.

760-441/641 PROBABILITY THEORY  3 cr
Probability spaces, discrete and continuous random variables, mathematical expectation, discrete and continuous distributions.
Prereq: 760-255 and either 760-280 or cons instr.

760-442/642 MATHEMATICAL STATISTICS  4 cr
This course will cover moment generating functions, moments of linear combinations of random variables, conditional expectation, functions of random variables, sampling distributions, the theory of estimation, Bayesian estimation, hypothesis testing, nonparametric tests, and linear models.
Prereq: 760-441 and either 760-355 or cons instr.

760-446/646 ACTUARIAL MATHEMATICS  3 cr
This course will discuss the actuarial profession and the insurance industry, provide
direction to students wishing to take the first few actuarial examinations, thoroughly cover the theory of interest, and introduce the basic concepts of actuarial mathematics.
Prereq: 760-441 or concurrent registration

760-452/652 INTRODUCTION TO ABSTRACT ALGEBRA 3 cr
An introductory survey of abstract algebra and number theory with emphasis on the development and study of the number systems of integers, integers mod n, rationals, reals, and complex numbers. These offer examples of and motivation for the study of the classical algebraic structures of groups, rings integral domains and fields.
Applications to algebraic coding theory and crystallography will be developed if time allows.
Prereq: 760-280.
Unreq: 760-415.

760-453/653 ABSTRACT ALGEBRA 3 cr
This course is a continuation of 760-452/652 with emphasis on ring and field theory. Topics include a review of group theory, polynomial rings, divisibility in integral domains, vector spaces, extension fields, algebraic extension fields, finite fields, etc.
Prereq: 760-355 and 760-452.

760-458/658 APPLIED MATHEMATICAL ANALYSIS I 3 cr
Selected topics in ordinary differential equations: series solutions, stability, transform methods, special functions, numerical methods, vector differential calculus, line and surface integrals.
Prereq: 760-361.

760-459/659 PARTIAL DIFFERENTIAL EQUATIONS 3 cr
Fourier analysis, partial differential equations and boundary value problems, complex variables, and potential theory.
Prereq: 760-361.

MATH 463 COMPLEX VARIABLES 3 cr
This course is a study of the algebra and geometry of complex numbers, the properties of analytic functions, contour integration, the calculus of residues, and the properties of power series.
Prereq: MATH 255

760-464/664 ADVANCED CALCULUS I 3 cr
This course presents a rigorous treatment of the differential and integral calculus of single variable functions, convergence theory of numerical sequences and series, uniform convergence theory of sequences and series of functions, metric spaces,
functions of several real variables, and the inverse function theorem. This course contains a writing component.
Prereq: 760-301.

**760-471/671 NUMERICAL ANALYSIS I** 3 cr
Emphasis on numerical algebra. The problems of linear systems, matrix inversion, the complete and special eigenvalue problems, solutions by exact and iterative methods, orthogonalization, gradient methods. Consideration of stability and elementary error analysis. Extensive use of microcomputers and programs using a high level language, such as PASCAL.
Prereq: 765-171 and 760-355.

**760-473 LIGHTNING RADIATIVE TRANSFER** 4 cr
This course will introduce the students to the field of Mathematical Lightning Radiative Transfer. It will provide the students with the background needed to analyze lightning events and to discriminate cloud to ground discharges from intra-cloud discharges. In addition, this course will introduce the students to the area of Ground Detection of Lightning.
Prereq: 760-361 and 800-174 or consent of instructor.

**760-475 DATA INTERPRETATION OF SPACE SCIENCE** 3 cr
This course will continue the study of Mathematical Space Science. The course will teach and train students on how to read and interpret data from Space and ground instruments. Students will learn how to access and work with satellite data.
Prereq: 760-361 and 765-171 or consent of instructor.

**MATH 477 MATHEMATICAL SCATTERING THEORY AND APPLICATIONS** 3 cr
This course will address the fundamental theory and applications of mathematical scattering. Students will be exposed to the scalar, vector, and tensor scattering. In addition, the course will introduce the students to diverse techniques of statistical and mathematical scattering inversion. Applications from earth system and space sciences will be studied throughout the course.
Prereq: MATH 458, MATH 459, MATH 463 AND PHYSCS 322 or consent of instructor.

**MATH 483 MATHEMATICAL WAVES PROPAGATION THEORY AND APPLICATIONS** 3 cr
This course will address the fundamental theory and applications of mathematical wave propagation. Students will be exposed to the scalar, vector, and tensor wave nature of matter. In addition, the course will introduce diverse techniques of linear and non-linear modeling of natural occurrences and their role in understanding
mathematical inversion. Applications from earth system and space sciences will be studied throughout the course.
Prereq: MATH 458, MATH 459, MATH 463 AND PHYSCS 322 or consent of instructor.

760-490/690 WORKSHOP 1-3 cr
Repeatable.
Prereq: Consent of instructor.

760-492 FIELD STUDY 1-3 cr
A study for which data is obtained or observations are made outside the regular classroom. Repeatable.
Prereq: Consent of instructor.

760-494/694 SEMINAR 2 cr
Repeatable.
Prereq: Consent of instructor.

760-496/696 SPECIAL STUDIES 1-3 cr
Repeatable three times maximum in 6 years.
Prereq: Consent of instructor.

760-498 INDEPENDENT STUDY 1-3 cr
Repeatable.
Prereq: Consent of instructor and consent of department chairperson.

760-499 PROJECT FOR MAJORS 1 cr
This course is designed to give students experience and to improve their skill in reading, writing, and understanding mathematics by requiring them to research one or more mathematical topics and then write a report about their activities and discoveries. The focus is on the learning and communication of mathematics: how to read with understanding, write with clarity and precision, and in the process discover how writing can aid in understanding.
Prereq: Jr st or cons dept chp

765 COURSE DESCRIPTIONS

765-161 INTRODUCTION TO COMPUTERS GM 3 cr
Introduction to Computers is designed for students with no previous computer experience. It includes practical experience designed to make it easy to use
computers as tools in other courses. Word processing; spreadsheets; data storage and retrieval; data communications; computer graphics and applications; uses of computers; computer concepts and terminology; problems arising from the use of computers.
Prereq: 760-140 or 760-141 or concurrent registration or waiver from the University Mathematics Proficiency Requirement.
Unreq: 765-162 This course is not available to Business majors (including MCS).

765-162 COMPUTER APPLICATIONS GM 3 cr
Computer Applications is designed for students with some previous computer experience. It covers topics similar to those in 765-161 but goes into more detail, including the writing of macros and batch files.
Prereq: 760-140 or 760-141 or concurrent registration or waiver from the University Mathematics Proficiency Requirement.
Unreq: 765-161.

765-171 INTRODUCTION TO PROGRAMMING GM 3 cr
An introduction to computer programming and its applications to science, business and education. Opportunity for extensive experience in designing and writing structured programs in the Visual Basic language.
Prereq: 760-152 or 760-143 or 760-253 or concurrent registration in 760-253 or cons instr.

765-172 INTRODUCTION TO OBJECT-ORIENTED PROGRAMMING IN JAVA 3 cr
This course will give students the essentials of object-oriented programming in Java. Students will learn to formulate algorithms, to solve problems and to implement those solutions with a Java program that employs objects and classes. The student will be introduced to object-oriented design, applications and applets, class construction, methods and message passing, arrays, string-processing, file processing, and some event-handling and Graphical User Interface programming. This course is designed for students with some prior programming experience.
Prereq: 760-152 or 760-143 or concurrent registration in 760-253 and 765-171 or equivalent programming experience or consent of instructor.

765-173 INTRODUCTION TO FORTRAN PROGRAMMING 3 cr
This course provides an introduction to Fortran programming and its applications to mathematical and physical sciences. It provides an opportunity to gain extensive experience in designing and writing Fortran programs. Dec Alpha computer, a successor or Vax, is used to write the programs. The language used is Dec Fortran which is more fancy that standard Fortran 77.
Prereq: 760-152 or 760-143 or 760-253 or cons reg 760-253 or cons instr.
765-271 ASSEMBLY PROGRAMMING 3 cr
A study of assembly language basic instructions, number systems, information move, integer arithmetic, subroutine linkage, memory allocation, bit manipulation, floating point arithmetic, macro definition and conditional assembly, the program status word, interrupt and I/O structure.
Prereq: 765-171 or cons instr.

765-302/502 COMPUTER LOGIC AND MICROPROCESSORS 3 cr
Structure of microprocessors and microprocessor systems, programming in machine language, computer logic and logic circuits, interfacing.
Prereq: 765-171.

765-307/507 MICRO COMPUTER APPLICATIONS 3 cr
This course will treat a variety of applications of micro computers, as well as their architecture, design and social impact.
Prereq: 765-171 or cons instr.

765-322 COMPUTER LANGUAGES AND COMPILERS 3 cr
This course is an introduction to the theory of computer languages and the construction of assemblers and compilers. Students will write a small assembler and a small compiler and will compare features of many computer languages.
Prereq: 765-271 and either 765-372 or 950-231

760-365/565 LINEAR PROGRAMMING 3 cr
(See Mathematics)

765-372/572 INTERMEDIATE PROGRAMMING 3 cr
Sequel to 765-171. Advanced programming language features, techniques, and data structures, learned through the implementation of larger programs; an introduction to algorithm analysis, program verification, recursion and data abstraction.

765-381 JAVASCRIPT AND DHTML 3 cr
JavaScript is a computer language for adding flexibility and functionality to web pages. A powerful language in its own right, it also has the capability to interact with HTML forms, browsers, Java applets, and other objects found on a web page. Students in this course will gain a thorough understanding of JavaScript, and learn to harness its abilities to manage windows, forms, events, cookies, etc.
Prereq: 765-171 or equivalent preparation and consent of instructor

765-382 PERL AND CGI SCRIPTING 3 cr
Perl and CGI scripting are key to processing web forms, as well as for automating a
Perl is optimized for scanning text files, extracting information and generating reports/web pages based on the results. This course will provide a thorough introduction to the Perl language, with an emphasis on its use in processing web forms. Students will learn to manipulate data, generate dynamic web pages, control email and much more.

Prereq: 765-171 or equivalent preparation and consent to instructor.

**765-412/612 COMPUTER ORGANIZATION AND SYSTEM PROGRAMMING**  
*3 cr*
A study of general computer system organization and architecture. Comparison of CPU and memory structure, instruction formats, addressing, flow of control and operating systems on different types of computer. Assembly language is used extensively to write system programs.
Prereq: 765-271 or cons instr.

**765-433 THEORY OF ALGORITHMS**  
*3 cr*
This course is a survey of algorithms needed for searching, sorting, pattern matching, analyzing graphs, and a variety of other problems of discrete mathematics. Analysis of algorithm efficiency and space/time tradeoffs are discussed.
Prereq: 760-280 and either 765-372 or 950-231

**765-434 THEORY OF COMPUTATION**  
*3 cr*
This course is an introduction to the theory of computation. It discusses finite automata and Turing machines as models of computation. It includes discussions of regular sets, recursive and partially recursive functions, context free grammars, the halting problem, undecidable problems, complexity, and Np-completeness.
Prereq: 760-280

**760-441/641 PROBABILITY THEORY**  
*4 cr*  
(See Mathematics)

**760-442/642 MATHEMATICAL STATISTICS**  
*4 cr*  
(See Mathematics)

**756-443 COMPUTER SIMULATION**  
*3 cr*
This course will teach students how to simulate natural phenomena both through the writing of computer programs and by using existing computer packages. The course will contain techniques of writing simulation programs in a high level object oriented computer language to simulate real world phenomena from Physics, Chemistry, and Biology. It will survey existing software packages that lend themselves to simulation.
Prereq: 760-253 and either 765-372 or 950-231
765-445 COMPUTER MODELING  3 cr
This course will introduce students to analytical techniques used to develop models of systems and to techniques and tools of applied mathematics and computing used to solve such models. Though the topics are introductory the student will see fundamental problems and appreciate the creative and innovative methods used to solve these problems. Models discussed will be chosen from Physics, Biology, Ecology, Economics, Cognitive Studies, Manufacturing, and Engineering.
Prereq: 760-355 and either 765-372 or 950-231

760-471/671 NUMERICAL ANALYSIS I  3 cr
(See Mathematics)

765-475 NETWORK ENGINEERING  3 cr
Hands on experience with network design, implementation, management and maintenance. Serve as a first level, day to day support resource for the MCS computer lab.
Prereq: 950-325 or consent of instructor and an overall GPA of 2.50.
Unreq: 950-475

765-481 WEB SERVER AND UNIX ADMINISTRATION    3 cr
This course is intended to introduce students to Web Server software and UNIX and UNIX-like operating systems from the perspective of the System Administrator. Linux, the fastest growing operating system, will be studied in detail, together with the Apache web server. Web server configuration will be studied, including optimization, security issues and virtual server administration. Additional topics will include shell programming, system monitoring, file systems and the X Windows GUI. This course will focus on common system administration duties on the Linux platform. Students will acquire competency in using shell programming skills to automate the maintenance of server activity. Emphasis will be placed on using Linux as an Internet server.
Prereq: 765-381 and 765-382 or equivalent preparation and consent of instructor.

765-482 WEB DATABASE DEVELOPMENT    3 cr
This course will introduce students to MySQL databases and PHP3 scripting on the UNIX platform. Students will create and interact with databases via the web. Topics will include SQL; creating, accessing and updating server-side databases; a variety of database-to-web interface tools; and the PHP embedded scripting language. Transactions with other database products via PHP will also be considered.
Prereq: 765-381 and 765-382 or equivalent preparation and consent of instructor.
765-490/690 WORKSHOP 1-3 cr
Repeatable.
Prereq: Consent of instructor.

765-494 SEMINAR 2 cr
Repeatable.
Prereq: Consent of instructor.

765-496/696 SPECIAL STUDIES 1-3 cr
Repeatable.
Prereq: Consent of instructor.

765-498 INDEPENDENT STUDY IN COMPUTER SCIENCE 1-3 cr
Repeatable.
Prereq: Consent of instructor.

DEPARTMENT OF LANGUAGES AND LITERATURES

Phone: 262-472-1036
E-Mail: english@uwwvax.uww.edu

ENGLISH

The term "English" encompasses several related areas including the study of the English language, the practical skills of using it, and the literature created from it. The department offers courses in basic and advanced language skills, including technical and creative writing; for students with special needs, reading and writing laboratories and developmental courses are available. Literature courses offer instruction in the understanding and analysis of "classic", popular, and contemporary works, including Continental and Asian, and their historical and cultural contexts. A student majoring
or minoring in English may opt for the traditional liberal arts program, an education program, or a writing emphasis. By developing the practical ability to think, read, and communicate effectively, a major in English provides excellent preparation for business, teaching, government and such professions as law and medicine. In addition, we offer a minor in English as a Second Language for those who plan to work with non-native speakers.

In preparation for graduate study in English, students should consult the requirements of the graduate school which they plan to attend. Those anticipating graduate study should plan to study a foreign language at the undergraduate level since that is often a graduate requirement.

For information on English placement testing, see index.

**MAJORS/EMPHASES**

English 680-101, 102, 161, and 162 do not count toward an English major or minor.

Liberal arts students majoring in English are urged to fulfill the upperclass writing requirements as early as possible and to complete at least one year's work in a modern foreign language. Valuable adjuncts to the English major are courses in library science, journalism, speech, theatre, public relations, or business.

UNIQUE REQUIREMENT

1. FOREIGN LANGUAGE AT 251 LEVEL OR EQUIVALENT

The certification program in Teaching English as a second language combines the study of theoretical and applied linguistics with instruction in theoretical and practical issues related to the study of English by non-native speakers throughout the lifespan. The minor is offered within the Department of Languages and Literatures, College of Letters and Sciences, in concert the the Department of Curriculum and Instruction, College of Education. The licensure program has been designed to meet the standards recommended by TESOL, Inc, the premier international organization for ESL professionals. In its Core Standards for Language and Professional Programs, TESOL states that "teaching English to speakers of other languages is an academic field requiring...special professional education and preparation for its practitioners." Furthermore, "each program should have courses which present basic theory and practice covering the second language and teaching paradigm..." Basic entry requirements are: (1) the possession of a teaching license or concurrent enrollment in a program leading to a license; (2) competency in a language other than English as determined by examination or successful completion of the 251 level (may be worked
on concurrently with the minor); (3) a GPA of 2.15 or higher. The TESL minor consists of a core of 24 semester credits.

680 COURSE DESCRIPTIONS

680-090 FUNDAMENTALS OF ENGLISH 3 cr
A course for students whose reading and writing skills need improvement through study of basic grammar and rhetoric before they attempt other English courses. This course does not count toward the 120 credits required for graduation, nor does it fulfill General Studies requirements, nor may it be counted toward the English major or minor. It may not be taken by students who are simultaneously taking or have satisfactorily completed another English course on this campus.

680-091 BASIC WRITING SKILLS 2 cr
Offered on a satisfactory/no credit basis only. A workshop offering individualized instruction to students in need of improvement in basic writing skills. This does not count toward the 120 hours required for graduation. Repeatable.

LANGUAGES AND LITERATURES - ENGLISH

680-101 FRESHMAN ENGLISH (Proficiency) 3 cr
An introduction to the reading and writing of college-level prose. Study of short stories, novels and essays. Composition of short papers and essay examinations. Students may not take for credit any course for which they have received a waiver, nor may they take for credit any course in the same department that is a prerequisite for a course that has been waived (e.g., if a student has been waived from English 102, he may not take English 101 for credit).
Prereq: Satisfactory completion of English 090 or equivalent demonstration of ability by the English ACT score.

680-102 FRESHMAN ENGLISH (Proficiency) 3 cr
Prereq: Satisfactory completion of 680-101 or 680-161 or equivalent demonstration of ability by the English ACT score.

680-161 ENGLISH FOR INTERNATIONAL STUDENTS (Proficiency) 3 cr
Principles of written composition adapted to individual foreign students. Includes intensive drill in grammar and mechanics. Also involves individual practice in spoken
English. Required of all students whose first language is not English. This course is comparable to and satisfies the English 101 University Proficiency Requirement.

**680-162 ENGLISH FOR INTERNATIONAL STUDENTS (Proficiency) 3 cr**
Continuation of 680-161. Vocabulary and idiom development through selective readings, and introduction to research methods. This course is comparable to and satisfies the English 102 University Proficiency Requirement.

**680-200 CHICANO LITERATURE: HISTORICAL CONTEXT AND CONTEMPORARY TEXT* GH/Diversity 3 cr**
Identifies and interprets Chicano literature in a social and historical context with emphasis on contemporary texts. All Spanish language texts are provided in translation. (Also offered as 615-200 by Chicano Studies.)
Unreq: 854-200.

**680-201 CONTEMPORARY CHICANO LITERATURE* GH/Diversity 3 cr**
Analyzes contemporary Chicano drama, fiction and poetry within their cultural and historical context, examined from a traditional formalist approach and as a human expression. (Also offered as 854-201 by Chicano Studies.)
Unreq: 854-201.

**680-206 BRITISH LITERATURE SURVEY I* GH 3 cr**
A survey of British literature from the Old English period through the eighteenth century.

**680-216 BRITISH LITERATURE SURVEY II* GH 3 cr**
A survey of British literature from the Romantic period to the present.

**680-226 AMERICAN LITERATURE SURVEY I* GH 3 cr**
A survey of American literature from the seventeenth century through the Civil War to acquaint the student with the foremost writers of our literary culture.

**680-236 AMERICAN LITERATURE II* GH 3 cr**
A survey of American Literature from the Civil War to the present to acquaint the student with the foremost writers of our literary culture.

**680-251 CLASSICAL MYTH AND LEGEND AS SOURCES FOR LITERATURE*GH 3 cr**
An examination of classical myths and legends and how they are used in various periods and genres of English literature.
680-252 THE BIBLE AS LITERATURE* GH 3 cr
This course will survey the Bible and some other related Near Eastern literature, focusing on the development of genres, motifs, and other literary forms that have influenced the form and content of Western literature, including the parable, the proverb, the loss of Eden, exile and return, origin stories, and hero stories. Unreq: 786-252.

680-263 THE CONTEMPORARY NOVEL* GH 3 cr
A study of significant British and American novels and novelists of the last decade.

680-264 WOMEN IN LITERATURE: A FEMINIST RE-EVALUATION* ** GH 3 cr
A study of women's experience as portrayed by women writers in various genres of Western literature. Includes such themes as growing up, love, marriage, motherhood, friendship, and spiritual development.

680-265 MULTICULTURAL LITERATURE OF THE UNITED STATES *GH/Diversity 3 cr
Multicultural Literature of the U.S. offers a wide range of literary texts (dramas, essays, novels, poetry and short stories) by people of color to offer students the opportunity to study and appreciate the experiences and challenges of diverse groups of people in American society: African-American, Asian American, Native American, and Latino/a. This body of literary works will be studied through the historical/political prism of each group so that students will be acquainted with the background of the literature.

680-271 CRITICAL WRITING IN THE FIELD OF ENGLISH* 3 cr
This course will help students become proficient in the skills of research, organization, writing, and revising that they will need in upper-division English courses. Students will learn both the general conventions of academic writing about literature (literary criticism) and the specific methods of some of the most important kinds of literary criticism.

680-274 CREATIVE WRITING* GH 3 cr
Study, discussion and writing of description, narration, verse and the short story.

680-281 INTRODUCTION TO LANGUAGE STUDY* GH 3 cr
An introduction to the basic tools and concepts for the study of language through study of the sounds, grammar, vocabulary, history, and cultural context of English.

680-300 SPECIAL TOPICS* 3 cr
Analysis and discussion of a cultural, social, moral, philosophical or other significant
topic, as expressed in a variety of literary forms, in relation to the individual and society; the particular topic to be published before registration. Repeatable only with change of topic.

680-310/510 LITERATURE FOR ADOLESCENTS* 3 cr
This course will explore the history and development of adolescent literature, with special emphasis on the period since 1960. Recent novels which have proven popular and influential with young people and teachers will be analyzed using literary and educational criteria. Participants will consider works within the context of intellectual freedom and potential censorship.

680-315/515 THE DEVELOPMENT OF THE ENGLISH NOVEL TO THE TWENTIETH CENTURY 3 cr
A survey of the development of the English novel from the eighteenth century to the twentieth, with emphasis on the development of themes and techniques. Studies of selected works by Defoe, Richardson, Fielding, Sterne, Austen, Scott, Dickens, Thackeray, Eliot, Hardy, Conrad, and/or others. Prereq: 680-216 or 680-226 or consent of instructor.

680-321 ANCIENT WESTERN LITERATURE* GH 3 cr
A rapid survey of world literatures other than English and American covering major literary periods from ancient times through the Renaissance.

680-322 MODERN WESTERN LITERATURE* GH 3 cr
A rapid survey of literatures other than English and American covering the major literary periods from Neoclassicism (seventeenth century) to present.

680-323 ASIAN LITERATURES* GH 3 cr
The course will cover a selection of classical and modern works from various genres and periods in the three national literatures. Each of these works will be discussed both in its literary tradition and in its cultural and historical contexts. ENGLISH AS A SECOND LANGUAGE

688-301 APPROACHES TO TEACHING ESL TO 3 cr
ADULTS
Approaches to Teaching ESL provides students with a foundation in pedagogical
principles of teaching English to speakers of other languages. Students will learn
approaches and techniques for teaching listening, speaking, reading and writing to
ESL learners of different ages, learning English in a variety of settings. This course
satisfies partial requirements for licensure in the State of Wisconsin.

688-320/520 THE SPOKEN LANGUAGE AND DISCOURSE ANALYSIS
3 cr
In The Spoken Language & Discourse Analysis, students will develop working
knowledge of contemporary issues in the teaching of oral communication (speaking
and listening skills) to learners of ESL. Linguistic principles studied are also pertinent
for those teaching foreign languages.
Prereq: 680-101 and 680-102 or 680-161 and 680-162 and 680-281 or special
permission from the instructor.

Repeatable.

* 680-101 and 680-102 (or 680-161 and 680-162) are prerequisites for this course.
** Meets the Human Relations requirement.

FOREIGN LANGUAGES
Courses in foreign languages are intended to provide the basic skills of listening, speaking, reading and writing as well as an introduction to the literature and the culture of the countries in question. The study of a foreign language may lead to a career in teaching or it may provide the student with a valuable supporting skill in many fields, such as business, public service, librarianship, social work, law, journalism, or the health professions. Reading knowledge of a foreign language is a requirement for many graduate degrees.

Placement Exam

Students with no previous university-level coursework in Spanish, French or German who wish to continue with one of these languages acquired previously must take the appropriate foreign language placement exam and will be placed accordingly.

The placement test is given to help the student select the proper course, but departmental advising is recommended.

Credit for Previous Language Study

The Department of Languages and Literatures grants up to 16 credits in French, German or Spanish (4 credits in Chinese or Japanese) for previous language study or other language experience provided the student earns at least a "B" in a follow-up course at UW-W. Students may enroll in any course except phonetics and the 390 conversation course to receive credits for previous language study. (See previous section: Placement Exam). The B grade must be earned in the first course taken at the university level.

688 COURSE DESCRIPTIONS

688-301 APPROACHES TO TEACHING ESL TO ADULTS 3 cr
Approaches to Teaching ESL provides students with a foundation in pedagogical principles of teaching English to speakers of other languages. Students will learn approaches and techniques for teaching listening, speaking, reading and writing to ESL learners of different ages, learning English in a variety of settings. This course satisfies partial requirements for licensure in the State of Wisconsin.

688-320/520 THE SPOKEN LANGUAGE AND DISCOURSE ANALYSIS 3 cr
In The Spoken Language & Discourse Analysis, students will develop working knowledge of contemporary issues in the teaching of oral communication (speaking and listening skills) to learners of ESL. Linguistic principles studied are also pertinent for those teaching foreign languages.
Prereq: 680-101 and 680-102 or 680-161 and 680-162 and 680-281 or special permission from the instructor.

688-401 ADULT ESL CURRICULA AND MATERIALS 3 cr
ESL Curricula and Materials will provide students with the background to develop or select appropriate curricula and to design materials which enhance language learning. The approach to curricular design and materials development is one that is learner centered.
688-493 APPLIED STUDY IN ESL 1-6 cr
Applied Study in ESL is a 1-6 variable credit course for students minoring in TESL. Students would enroll for at least 2 credits. Through working with English language learners with a variety of backgrounds, such as: UW-Whitewater international students enrolled in 680-161 or 680-162, employees of local businesses, parents of children in the Whitewater schools, or other appropriate groups, students will put to practical use the teaching skills they have developed through other courses in the minor. Repeatable for a maximum of 6 credits in minor.

688-496/696 SPECIAL STUDIES 1-3 cr
Repeatable.

PHILOSOPHY

Philosophy is a basic field of inquiry that is neither part of nor reducible to any other discipline. Philosophers explore ideas, questions, issues, and problems that arise from the entire spectrum of human experiences. Philosophy courses deal with fundamental issues concerning the nature of morality and the good life, methods of correct reasoning, the nature of knowledge and reality, aesthetics, and the foundations needed for a good society. In addition to courses dealing explicitly with those issues, courses are also offered that survey the history of western philosophy in light of these issues.

As a discipline central to a liberal arts education, philosophy seeks to develop students' skills and knowledge, preparing them for life as a whole. Hence it fosters critical, analytical, and creative thinking skills that are relevant to any subject matter. The philosophy minor complements any major field of study that demands higher order thinking skills and the ability to understand and assess complex and competing points of view.

RELIGIOUS STUDIES

Religious Studies provides information and discussion about religious issues and major religious traditions in an academic atmosphere of fairness and intellectual objectivity. The purpose of the discipline is to further the student's liberal education by promoting tolerance and an informed critical understanding about religious issues and ideas of various cultures. Its special concern is the intellectual examination of the religious content pervading influential ideals, values, and practices found in the dominant cultures of human society.

Individual Religious Studies courses may serve as complements to any program of university study and most fulfill General Education requirements in the Humanities. Several Religious Studies courses fulfill requirements in other programs such as in General Business-International Emphasis and in Asian Studies, and are approved to meet history and contemporary culture requirements for teacher licensure. In addition, selected Religious Studies courses are electives in International Studies, Asian Studies, Philosophy, and Women's Studies.
782 COURSE DESCRIPTIONS

782-241 INTRODUCTION TO PHILOSOPHY GH 3 cr
An introduction to philosophical thought. Representative philosophers and representative issues, such as the nature of ethical reasoning, rival theories of knowledge, and the individual's relation to society, are considered. The emphasis is on argument and analysis, and on issues which are relevant to philosophical problems.

782-245 CONTEMPORARY MORAL ISSUES GH 3 cr
An analysis and critical examination of contemporary moral issues related to business, science, and social policy as developed by current participants in the debate and moral philosophers of various periods and philosophical perspectives.

782-247 BIOETHICS GH 3 cr
This course provides an introduction to the basic science underlying current research in biology, as well as critical study of ethical, legal and social issues raised by technological applications of biological research in such fields as medicine, genetic counseling, law, and family planning.
Prereq: 900-150 PHILSPHY 248

PHILSPHY 248 ENVIRONMENTAL ETHICS GH 3 u
A critical examination of ethical issues and problems arising from human interaction with non-human animals and the natural environment. Topics, such as the moral status of non-human animals, the moral bases of an environmental ethics, biodiversity, and sustainable development, will be considered by examining the writing of philosophers representing various perspectives.

782-251 LOGIC GH 3 cr
By examining basic concepts, methods, and techniques for evaluating argumentation, this course aims at developing students' abilities to recognize, criticize, and construct arguments. The relationship between language and good reasoning will also be considered.

782-261 INTRODUCTION TO ETHICS GH 3 cr
A study of the main Western theories of moral value and obligation. These theories will be analyzed in terms of their adequacy for solving moral problems and their ability to articulate the morally good life. Consideration will also be given to challenges to normative ethics.
782-271 INTRODUCTION TO AESTHETICS GH 3 cr
An analysis and discussion of problems as to the nature of art, artistic truth or insight, aesthetic appreciation, evaluation of works of art, creativity, and the role of the artist in society.
Prereq: 900-110 or consent of the instructor.

782-281 SOCIAL PHILOSOPHY GH 3 cr
A discussion of ideas which are basic to thinking about society, its purposes, and its structure. Such ideas as justice, equality, rights, obligations and freedom are examined.
Prereq: 900-130 or consent of the instructor.

782-291 PHILOSOPHY OF THE NATURAL AND SOCIAL SCIENCES GH 3 cr
A critical examination of the methods, presuppositions, and concepts of the natural and social sciences. This course examines key concepts in the sciences such as time, space, explanation, verification, model construction, etc.
Prereq: 900-150 or consent of instructor.

782-341 CLASSICAL PHILOSOPHY GH 3 cr
An introduction to the major figures in Greek philosophy, including representative pre-Socratic philosophers, Plato, and Aristotle, focusing on Classical sources of philosophy of science, ethics, political philosophy, and theory of knowledge.
Prereq: 900-150 or sophomore level.

782-342 MODERN PHILOSOPHY GH 3 cr
This course concentrates on the main movements in philosophy from Descartes through Kant. Principal works and selections from the major philosophers will be read.
Prereq: 900-150 or sophomore level.

782-343 AMERICAN PHILOSOPHY GH 3 cr
This course examines the main currents of American philosophy through a study of the writings of America's major philosophers, e.g., Dewey, Peirce, James, Santayana, Mead, Whitehead, and more contemporary writers.
Prereq: 900-120 or consent of the instructor.

782-345 CONTEMPORARY PHILOSOPHY GH 3 cr
A critical examination of major Western philosophers and philosophical schools of thought of the nineteenth and twentieth centuries.
Prereq: 900-150 or sophomore level.
782-365 PHILOSOPHICAL AND RELIGIOUS PERSPECTIVES ON DEATH AND DYING GH 3 cr
A critical examination of philosophical and religious materials dealing with death and dying. Issues such as the nature of death, the fear of death, the possibility of an afterlife, the concept of immortality, ethical and legal problems raised in the dying process, the ethics of hospice care, and the morality of euthanasia will be considered. Prereq: Sophomore standing.

782-390/590 FEMINIST PHILOSOPHY 3 cr
An introduction to feminist philosophy including its relation to other philosophical traditions, its historical development, and its relevance to concerns in areas such as ethics, theory of knowledge, political philosophy, and philosophy of religion. Prereq: Soph level or consent of instructor.

786 COURSE DESCRIPTIONS

786-201 CRITICAL ISSUES IN MODERN RELIGION GH 3 cr
An introduction to selected critical issues relating to contemporary academic concerns. A variety of religion to modern culture and intellectual positions will be analyzed and discussed.

786-211 INTRODUCTION TO EASTERN RELIGIONS GH 3 cr
An introduction to the major religious traditions in the cultural areas of South, Southeast, and East Asia: Hinduism, Buddhism, Jainism, Taoism, Confucianism, and Shinto.
786-212 INTRODUCTION TO WESTERN RELIGIONS GH 3 cr
An introduction to the major religious traditions that have shaped Near Eastern and Western culture; especially Judaism, Christianity, and Islam.

786-252 THE BIBLE AS LITERATURE 3 cr
This course will survey the Bible and some other related Near Eastern literature, focusing on the development of genres, motifs, and other literary forms that have influenced the form and content of Western literature, including the parable, the proverb, the loss of Eden, exile and return, origin stories, and hero stories. (Offered jointly with English).
Unreq: 680-252.

786-303 EASTERN RELIGIOUS THOUGHT GH 3 cr
A study of selected texts and religious thought from India, China, and Japan in relation to their impact on personal spiritual development and cultural integration.
Prereq: 900-140 or consent of the instructor.

786-330 WOMEN AND RELIGION GH 3 cr
This course will trace changing conceptions of gender roles and the functions of women in various religious traditions. Feminine and masculine images of divinity will be compared and recent scholarship in feminist theology on questions such as the nature of divinity, immortality, and religious devotion will be examined.
Prereq: 900-140 or consent of the instructor.

786-351 RELIGION IN AMERICAN CULTURE GH 3 cr
An examination of the significant role played by religious ideas and traditions in American society from colonial times to the present in historical and cultural perspectives.
Prereq: 900-120 or consent of the instructor.

786-353 SOCIOLOGY OF RELIGION 3 cr
A study of the function and forms of religious groups in primitive and contemporary societies; a theoretical examination of religion as a basic social institution. (Offered jointly with sociology).
Prereq: 3 credits of sociology course work.
Unreq: 880-353.

786-355 THE RENAISSANCE AND THE REFORMATION GH 3 cr
European history from 1300 to 1600 with emphasis on the Renaissance in Italy and northern Europe and the period of the Reformation. (Offered jointly with History).
Prereq: 900-120 or consent of the instructor. Unreq: 740-355.
786-388/588 THE HOLOCAUST: NAZI GERMANY & THE GENOCIDE OF THE JEWS 3 cr
This course will examine the origins, implementation, and legacies of the Nazi Holocaust against the Jews. It is intended to help students gain an appreciation of the importance of the Holocaust to the Jewish experience, while understanding that other groups also were victimized. (Offered jointly with Sociology).
Prereq: 3 credits of sociology, history or religious studies.
Unreq: 880-388/588.

Physics is the science which is concerned with the basic structure of matter, including its properties and behavior. Physics serves as a foundation for the other sciences and its concepts and principles form the basis of engineering and technology.

MAJOR/EMPHASES

The recommended general physics course sequence for physics majors and minors is 800-170/175; with departmental approval 800-160/800-163 may be substituted.
800-130 may be substituted for 800-170 or 800-160/161 upon the recommendation of the instructor in 800-130 and with the approval of the department.

PHYSICS COURSE DESCRIPTIONS

PHYS 100  ENERGY GL  4 cr
An examination of energy; its nature, the forms in which it appears, its transformation, current and future sources, and energy issues faced by an informed electorate. Three one-hour lectures and one two-hour laboratory per week. Coreq: MATH 140 or MATH 141.

PHYS 120  LIGHT AND COLOR  4 cr
An introduction to light science for students in the visual arts and for students with an interest in art. The course includes the properties of light and color, the interaction of light with matter, the formation of visual images, and color vision. Three one-hour
lectures and one two-hour laboratory per week.
Coreq: MATH 140 or MATH 141.

**PHYSCS 130 PHYSICS FOUNDATIONS**  GL  5 cr
This course will explore topics in classical physics (motion, heat, sound, electricity, magnetism, and light) and modern physics (atomic structure, quantum mechanics and relativity) with an emphasis on how the principles explain and predict phenomena we observe every day. Four one-hour lectures and one two-hour laboratory per week.
Coreq: 760-141 or consent of instructor.

**PHYSCS 150 FROM EINSTEIN TO STAR TREK** GM  3 u
This introductory survey course will focus on areas of modern physics that are frequently discussed but often misunderstood. The theories of Einstein and other physicists will be used to examine science fiction devices such as time machines, warp drives, and mass transporters. Integrated throughout will be a discussion of what are science, science fiction, and pseudo-science. Not applicable toward any physics major or minor. Three hours of lecture a week.

**PHYSCS 160 GENERAL PHYSICS I**  GL  4 cr
A non-calculus course in general physics concerned with the philosophy, nature and methods as well as the fundamental concepts of physics. The content covers the basic principles of the nature and structure of matter, energy, mechanics and mechanical waves, emphasizing applications of physics to the life and health sciences. Four one-hour lectures per week. 800-160 and 800-161 together satisfy the 5 cr. lab science course requirement.
Coreq: Math 760-152.
Unreq: PHYSCS 170.

**PHYSCS 161 GENERAL PHYSICS LABORATORY I**  GL  1 cr
A laboratory course in general physics with experimental work in mechanics, heat and sound. This is the laboratory companion of course PHYSCS 160. One three-hour laboratory per week.
Coreq: PHYSCS 160.
Unreq: PHYSCS 173.

**PHYSCS 162 GENERAL PHYSICS II**  GL  4 cr
A non-calculus course in general physics concerned with the philosophy, nature and methods as well as the fundamental concepts of physics. The content covers the basic principles of electricity and magnetism, modern physics, light, and optics. Emphasizes applications of physics to the life and health sciences. Four one-hour lectures per
PHYSCS 163 GENERAL PHYSICS LABORATORY II   GL   1 cr
A laboratory in general physics with experiments in optics, electricity and magnetism and modern physics. This is the laboratory companion of PHYSCS162. One three-hour laboratory per week.
Coreq: PHYSCS 162.
Unreq: PHYSCS 175.

PHYSCS 170 INTRODUCTORY PHYSICS I   GL   3 cr
A lecture course in introductory physics concentrating on the area of mechanics, including kinematics and dynamics of translational and rotational motion, statics, harmonic motion, fluid mechanics and an introduction to relativistic mechanics. For majors and minors in physics, chemistry, mathematics and pre-engineering. Three one-hour lectures per week.
Coreq: MATH 152.
Unreq: PHYSCS 160.

PHYSCS 172 INTRODUCTORY PHYSICS II   GL   3 cr
A lecture course in introductory physics in which some calculus is used and concentrating on the areas of wave motion, sound, heat, thermodynamics and light. For majors and minors in physics, chemistry, mathematics and pre-engineering. Three one-hour lectures per week.
Prereq: PHYSCS 170.
Coreq: MATH 253.

PHYSCS 173 INTRODUCTORY PHYSICS LABORATORY I
A laboratory course in introductory physics concentrating on experiments in mechanics, sound, heat and thermodynamics. For majors and minors in physics, chemistry, mathematics and pre-engineering. One three-hour laboratory per week.
Coreq: PHYSCS 172.
Unreq: PHYSCS 161.

PHYSCS 174 INTRODUCTORY PHYSICS III   GL   3 cr
A lecture course in introductory physics in which calculus is used and concentration is on areas of electricity and magnetism, and modern physics. For majors and minors in physics, chemistry, mathematics and pre-engineering. Three one-hour lectures per week.
Prereq: PHYSCS 172.
Coreq: MATH 254.
PHYSCS 175 INTRODUCTORY PHYSICS GL LABORATORY II 1 cr

PHYSCS 210 DESCRIPTIVE PHYSICS GM 3 cr
An introduction to physics in a course designed for K-8 education students and open to all education majors. Topics covered include motion, energy, light, heat, electricity and magnetism. Two seventy-five minute lecture-activity periods per week. Coreq: MATH 141 or consent of instructor. Unreq: PHYSCS 130.

PHYSCS 221 INTERMEDIATE LABORATORY 2 cr
A laboratory course concentrating on techniques of recording, interpretation of, and reporting experimental data. Extensive use will be made of computers in data processing. Topics covered include data acquisition and the recording of data, error analysis, numerical analysis, graphing techniques, computational tools and report writing. Two two-hour laboratories per week. Prereq: PHYSCS 174 and PHYSCS 175 or PHYSCS 162 and PHYSCS163 and COMPSCI 171.

PHYSCS 240 PHYSICS OF SOUND AND MUSIC GM 3 cr
A descriptive course that deals with various properties of sound, the generation of sound by traditional musical instruments and the electronic production and reproduction of sound. The physical process of hearing and the acoustical properties of rooms are also included. Three one-hour lecture periods per week.

PHYSCS 280 ENGINEERING MECHANICS: STATICS 3 cr
A study of forces on rigid bodies in equilibrium. Topics include force systems, equilibrium, distributed forces, structures, friction, internal forces, centroids and moments of inertia. This course is designed for pre-engineering students and will not ordinarily be taken by physics majors or minors. Three one-hour lectures per week. Prereq: PHYSCS 170, MATH 253 or con reg in MATH 253.

PHYSCS 282 ENGINEERING MECHANICS: DYNAMICS 3 cr
A study of the action of forces in producing or modifying the motion of rigid bodies. Topics covered include motion, force-mass-acceleration relations, energy, momentum and vibrations. This course is designed for pre-engineering students and will not ordinarily be taken by physics majors or minors. Three one-hour lectures per week. Prereq: PHYSCS 280, MATH 254 or con reg in MATH 254.
PHYSCS 303/503 MICROPROCESSOR LABORATORY 2 cr
Laboratory experience in microprocessor addressing, digital logic circuits, microcomputer input and output techniques, digital to analog and analog to digital interfacing and device control by microcomputers. This course will not satisfy the laboratory work requirements for the physics major; the credit will count toward the major.
Prereq: Either (a) PHYSCS 175 (or PHYSCS 163) and COMPSCI 171 or (b) concurrent registration in COMPSCI 302/502 or (c) graduate student with computer programming experience.

PHYSCS 310 MECHANICS I 3 cr
A study of classical mechanics. Topics to be covered will include vector calculus techniques, dynamics of particles and systems and central force systems. Required of all majors and minors in physics. Three one-hour lectures per week.
Prereq: PHYSCS 174 and PHYSCS 175 or PHYSCS 162 and PHYSCS 163 and MATH 254.

PHYSCS 320 ELECTRICITY AND MAGNETISM I 3 cr
A study of static electric and magnetic fields, with an introduction to electrodynamics and Maxwell's equations. Topics include the electric field, electric potential, magnetic field, magnetic vector potential, and fields in linear materials.
Prereq: PHYSCS 174 and PHYSCS 175 or PHYSCS 162 and PHYSCS 163 and MATH 254.

PHYSCS 322 ELECTRICITY AND MAGNETISM II 3 cr
A study of electrodynamics. Topics include magnetic induction, Maxwell's equations, electromagnetic waves, and dipole radiation. Three one-hour lectures per week.
Prereq: PHYSCS 320.

PHYSCS 330 ANALOG AND DIGITAL ELECTRONICS 3 cr
An introductory course in electronics with emphasis on solid state devices, diode and amplifier circuits, waveform generation, operational amplifiers, digital circuitry and microcomputer applications to physical measurement. Three one-hour lectures per week.
Prereq: PHYSCS 174 and PHYSCS 175 or PHYSCS 162 and PHYSCS 163.

PHYSCS 331 ANALOG AND DIGITAL ELECTRONICS LABORATORY 1 cr
A laboratory course in electronics with emphasis on solid state devices, diode and amplifier circuits, waveform generation, analog computer circuitry, digital circuitry and microcomputer applications to physical measurement. One two-hour laboratory
per week.
Prereq: PHYSCS 330 or con reg in PHYSCS 330.

**PHYSCS 354 OPTICS 3 cr**
A study of geometrical and physical optics beginning with a mathematical treatment of light waves and their interaction with materials. Topics also include interference, diffraction, spectroscopy and spectroscopic instruments, polarization, light sources and detectors, lasers, holography, and some topics in modern optics. Three one-hour lectures per week.
Prereq: PHYSCS 174, PHYSCS 175 or PHYSCS 162 and PHYSCS 163 and MATH 254.

**PHYSCS 355 OPTICS LABORATORY 1 cr**
Experimental work in optics with emphasis on dispersion, refraction, absorption, interference, diffraction and polarization. One two-hour laboratory per week.
Coreq: PHYSCS 354.

**PHYSCS 364 THERMODYNAMICS AND KINETIC THEORY 3 cr**
A study of the thermodynamic systems equations of state, work, first, second and third laws of thermodynamics, the combined first and second laws and applications. Three one-hour lectures per week.
Prereq: PHYSCS 174/PHYSCS 175 or PHYSCS 162/PHYSCS 163 and MATH 254.

**PHYSCS 410/610 MODERN PHYSICS I 3 cr**
A study of twentieth century physics. Topics covered include relativity, elementary quantum physics, atomic structure, elementary nuclear physics and fundamental particles. Three one-hour lectures per week.
Prereq: PHYSCS 174/PHYSCS 175 or PHYSCS 162/PHYSCS 163 and MATH 254.

**PHYSCS 411/611 MODERN PHYSICS LABORATORY I 1 cr**
A laboratory course in modern physics. The experiments performed in this course complement the lectures of Modern Physics I. It is recommended that this course be taken concurrently with Modern Physics I. One two-hour laboratory per week.
Prereq: PHYSCS 410 or con reg or cons instr.

**PHYSCS 412/612 MODERN PHYSICS II 3 cr**
A continuation of Modern Physics I. Topics covered include statistical mechanics, atomic and molecular spectra, x-ray spectra, physics of the solid state and nuclear physics. Three one-hour lectures per week.
Prereq: PHYSCS 410.
PHYSCS 413 MODERN PHYSICS LABORATORY II 1 cr
A laboratory course in modern physics. The experiments performed in this course complement the lectures of Modern Physics II. It is recommended that this course be taken concurrently with Modern Physics II. One two-hour laboratory per week. Prereq: PHYSCS 412 or concurrent registration or consent of instructor.

PHYSCS 489 PHYSICS SENIOR SEMINAR 2 u
The course will train students in making scientific presentations, summarize the concepts and methods taught in the physics major curriculum, and prepare them for the Physics Major Field Test as the final exam in the course. Students will become familiar with physics literature and learn to write abstracts and project proposals. They will demonstrate proper methods of verbal and visual presentation by delivering a graded series of talks, concluding with a satisfactory colloquium on a physics topic. Two one-hour sessions a week. Prereq: Students must possess senior-level standing in the major to receive credit for participation. Students with less than senior standing are encouraged to attend in preparation for full participation when they become seniors.

PHYSCS 490/690 PHYSICS WORKSHOP 1-8 cr
Repeatable for a maximum of 3 credits in major or minor in physics.

PHYSCS 491/691 TRAVEL STUDY 1-3 cr
Repeatable

PHYSCS 493 PHYSICS COOPERATIVE EDUCATION 1 cr
The course gives the student an opportunity to intersperse full time study with full time employment. The student will be interviewed by a potential employer identified by the Physics Department. If accepted as an employee, the student may work from one to four terms. A work term is defined as a semester or a summer of employment. No more than two credits may be counted towards the Physics Major. A written report is required. Prereq: 800-173 and 600-099 and a declared Physics/Industry major.

PHYSCS 494 PHYSICS SEMINAR 1 cr
Repeatable. Prereq: Senior standing and consent of instructor.

PHYSCS 496/696 SPECIAL STUDIES 1-10 cr
Repeatable for a maximum of 3 credits in major or minor in physics. Prereq: Physics major or minor, junior or senior standing and consent of instructor.
805 COURSE DESCRIPTIONS

805-112 INTRODUCTION TO ASTRONOMY GL 5 cr
An examination of concepts regarding the organization of the universe. The solar system, astronomical principles and instruments, stellar evolution and galaxies are among topics covered. Activities include field trips, observations of the night sky and of the sun with telescopes, and laboratory work. Four one-hour lectures and one two-hour laboratory/observation period per week. There are two required evening observation sessions during the semester.
Coreq: 760-141 or consent of instructor.
Unreq: 805-114.

805-114 DESCRIPTIVE ASTRONOMY GM 3 cr
A non-laboratory course that introduces the basic aspects of astronomy, including cultural and historical considerations. The study of galaxies, stars, as well as our solar system is included. Observational activities and field trips may be included as integral parts of the course. Three one-hour lectures per week.
Coreq: 760-141 or consent of instructor.
Unreq: 805-112.

805-350/550 ASTROPHOTOGRAPHY FOR THE AMATEUR 3 cr
This course is designed for people interested in combining astronomy with photography through the media of telescope and camera. Techniques for photographing astronomical objects are presented in an activity-oriented format. Darkroom procedures for processing color slides, black/white and color prints are also included. Does not count toward physics major/minor.

805-430/630 ASTRONOMY FOR TEACHERS 3 cr
An individualized course intended for K-12 teachers with limited astronomy background. Subject matter covered will depend on the needs and interests of the students. Each student does experimental or observational projects which are presented at the end of the course as a paper in a seminar. This course may not count toward physics major or minor.
805-490/690 ASTRONOMY WORKSHOP 1-5 cr
Repeatable.
Prereq: Consent of instructor.

805-498 INDEPENDENT STUDY 1-3 cr
Repeatable.
Prereq: Cons instr.

DEPARTMENT OF POLITICAL SCIENCE

Phone: 262-472-1120
E-Mail: polsci@uwwvax.uww.edu

Faculty: Paul Adogamhe, Charles Cottle, Zohreh Ghavamshahidi, Kenneth Glaudell, Anne Hamilton, Craig Heatwole, Robert Heidorn, Susan Johnson, John F. Kozlowicz (Chairperson), Xia Lollar, Farhad Malekafzali, Paula Mohan, John Valadez.

Students who major or minor in political science or minor in public administration at UW-Whitewater are offered a comprehensive course of study, emerging from the awareness that governmental policy and policy-making are of paramount importance for the life we lead. The political science program at UW-W concentrates on providing students with a basic understanding of contemporary government, policy-making, and politics. An internship program which provides students a unique opportunity to blend this theory with practice is also available. Internship possibilities include work with a legislator, on the campaign staff of a candidate for public office, a law office, or in a governmental agency. While most students intern in Wisconsin, there is also a program based in Washington, D.C. through the Washington Center to provide students with opportunities to view the national political process in action. Students should be aware of the intimate relationship between the political process and the world of business. For those interested, a liberal arts political science program combined with a professional minor might prove useful.

Also available is an interdisciplinary major in Public Policy and Administration which provides comprehensive preparation for careers in government and in government-related organizations in the private sector. This major is sponsored jointly with the Department of Management.

MAJORS/EMPHASES

Minimum requirements for transfer students: Major: At least 12 credit hours of work earned for a political science major shall be taken at UW-Whitewater. Determination
of areas of political science in which these credit hours shall be taken shall be made by the chair at the time of declaration of the major. Minor: At least 6 credit hours of the work earned for a political science minor shall be taken at UW-Whitewater. Determination of areas of political science in which these credit hours shall be taken shall be made by the chair at the time of declaration of the minor.

Departmental policy requires each major to attend at least three public lectures or programs each academic year.

Internship in Political Science: To provide students with the opportunity for practical field experience in various aspects of political life, the department offers an internship in political science. Credit may be earned while working in campaigns, legislative offices, or in administrative positions at all levels of government. Internship is normally taken in the student's junior or senior year. Consent of the Chair and the faculty member directing the internship is required.

Honors in Political Science: For honors in political science, at the end of the senior year students must have a grade point average of 3.50 in all political science courses including 820-488 and 820-499. They must apply for honors in political science with their adviser and the departmental chairperson in the spring of the junior year. At the time of application they must show a grade-point average of 3.25 or better and at least 21 credit hours in political science either completed or to be completed during the current semester.

Career Options: There are several potential options which a person interested in political science may follow. Students may wish to plan their programs with certain career objectives in mind. Among the options recommended are the following:

I. Public Employment Option—Plan A: Major in political science with a minor in public administration—Plan B: Major in political science with emphasis in public administration.

II. Law Option—Plan A: Major in political science with a minor in a related discipline—Plan B: A major in political science and an individualized minor composed of law related courses.

III. International Employment Option—Plan A: Major in political science with an emphasis in comparative and international politics—Plan B: Double major in international studies and political science.
IV. Government and Business Option—Plan A: Major in political science and a minor in a related discipline—Plan B: A major in political science and an individualized/professional minor. Interested students should check with their adviser or the department for recommended courses for each of these options.

Areas of Political Science. The department curriculum is divided into 5 basic areas. This is intended to provide a sound and balanced acquaintance with political science. Majors and minors are expected to meet the appropriate area requirements.

The areas are:

III. Comparative Government—courses: 820 352, 820 460, 820 461, 820 471.

IV. International Relations—courses: 820 350, 820 351, 820 457.

V. Political Theory—courses: 820 411, 820 412, 820 420.

CRIMINAL JUSTICE

Ron Berger, Coordinator

The Criminal Justice Minor is an interdisciplinary field of study that integrates career-development goals with a liberal arts curriculum. The Minor consists primarily of social and behavioral science courses that will enhance students' understanding of the nature and causes of criminal and delinquent behavior and the operation of the criminal justice system in the United States. It will help prepare students to pursue careers in law enforcement (local, state, and federal), adult and juvenile probation and parole, correctional counseling and group home work, private security, and criminal justice research.

MINOR - 24 CREDITS

3. NO MORE THAN 12 CREDITS FROM ANY ONE DEPARTMENT MAY BE USED IN THIS MINOR.

PUBLIC ADMINISTRATION

The purpose of this program is to provide students interested in public service the possibility to do undergraduate study in the field as preparation for possible careers in government. The program is composed of courses offered in several departments to give direction and emphasis in the area of Public Administration.

MINOR - 22 CREDITS

Social Studies minor in elementary education curriculum: See L&S Interdepartmental section.

PROGRAM OF PUBLIC POLICY AND ADMINISTRATION

Susan Johnson Coordinator
The University offers an opportunity for students to earn a Bachelor of Science degree with a major in Public Policy and Administration. The major is designed to prepare students for careers in local, state, or national governments, and in businesses and other organizations in the private sector which work closely with government. The major is sponsored jointly by the Political Science Department in the College of Letters and Sciences and the Management Department in the College of Business and Economics. The courses in the major are offered by these two departments and by several other departments in the two Colleges, providing broad interdisciplinary preparation for the student.

820 COURSE DESCRIPTIONS

820-141 AMERICAN GOVERNMENT AND POLITICS GS 3 cr
An introductory course covering the history, structure and functioning of American national government and its relation to state and local government.

820-217 ETHNIC POLITICS GS/Diversity 3 cr
The central concern of this course is to provide the student an awareness of the political development of racial and ethnic minorities in today's political arena. It will compare and contrast the development of the white ethnic communities of the 19th and 20th centuries with our modern day racial and ethnic minorities. (Offered jointly with race & ethnic cultures).
Unreq: 820-247, 850-217, 610-217

820-247 ISSUES AND CRISSES IN AMERICAN POLITICS GS 3 cr
An examination of selected major issues and crises confronting the American political system today. Both domestic and foreign policy issues are analyzed. Attention also will be given the political response to these issues and crises as reflected in recent policies and policy proposals of the national government. Repeatable one time (different topic) for a maximum of 6 credits in major/degree, but not repeatable for general studies credit.
820-250 INTRODUCTION TO POLITICAL THEORY GS 3 cr
An introduction to Western political thought, the role of ideology in politics, and perennial questions in political philosophy.

820-255 INTRODUCTION TO COMPARATIVE POLITICS GS 3 cr
This course compares the political systems of five or six countries, reflecting the range of political institutions and political behavior around the world. Students will learn to develop explanations for similarities and differences in the political life of countries around the world, e.g. why are some countries democratic and others authoritarian?

GENERAL STUDIES/PREREQUISITES
The above courses are offered by the department as its contribution to General Studies. Unless otherwise indicated, any of the above will satisfy the prerequisite for the following advanced courses in political science.

820-301/501 POLITICAL SCIENCE RESEARCH METHODS 3 cr
An introduction to basic research methods in political science. Topics will include various data collection and analysis techniques on the U.S. Presidency, the U.S. Congress, the U.S. Supreme Court, political socialization, political parties, interest groups, civil violence, rebellion, and revolution. Students will obtain "hands-on" experience with computer software designed specifically for political science and the social sciences. This is not a statistics course, and no previous knowledge of statistical methods is assumed.
Prereq: Three units of political science.

820-315/515 WOMEN AND AMERICAN POLITICS (AREA I COURSE) 3 cr
This course is designed to acquaint the student with the roles of women in political life. Topics include effective civic participation, women's issues and the women's movement.
Prereq: Three units of political science.

820-316/516 POLICE AND CRIMINAL JUSTICE ADMINISTRATION (AREA II COURSE) 3 cr
This course examines the administrative process within the criminal justice setting. Both administrative theories and principles as well as applications to the criminal justice system will be covered.
Prereq: Three units of political science.

820-317/517 THE AMERICAN LEGISLATIVE PROCESS (AREA I COURSE) 3 cr
The study of the organization and functioning of the legislative bodies, with particular
attention to Congress: functions, membership, committee system, executive-legislative relations, pressure groups, lobbying, movement for reform. Prereq: Three units of political science.

820-318/518 THE AMERICAN PRESIDENCY (AREA I COURSE) 3 cr
Analysis and discussion of the various roles of the President regarding his constitutional status and powers, nomination and election, administrative responsibilities, legislative and political leadership, and his role in the conduct of foreign relations. Prereq: Three units of political science.

820-319/519 AMERICAN POLITICAL PARTIES AND ELECTIONS (AREA 1 COURSE) 3 cr
The study of American political parties and elections has produced a considerable body of literature that seeks to investigate, analyze, and explain why institutions and individuals behave politically in the manner that they do. In this course we will draw on some of this literature as a means of understanding the current political environment. Prereq: Three units of political science.

820-320/520 PUBLIC POLICY AND ADMINISTRATION (AREA II COURSE) 3 cr

Psychology is a science which searches for answers to myriad questions about behavior and thinking. Psychology is also a profession which is committed to helping people. Psychology is composed of several areas of specialization. Psychology majors study such psychological topics as the relationship between physiology and behavior, how people learn and perceive information, and factors that influence social, emotional and cognitive development in both adaptive and maladaptive directions.

A psychology major can help prepare students for a variety of goals, including preparation for graduate study in psychology or related fields, development of skills for paraprofessional employment, preparation for teaching high school level psychology or social studies, or preparation for employment in a business or industry seeking graduates with a broad education, flexible outlook, and ability to attack problems systematically.

AFRICAN-AMERICAN STUDIES (614)

The objectives of African-American Studies are to provide a systematic study of the experiences, conditions, and origins of African-American people, their philosophical, religious, and social values, their various modes of artistic expression, and the way in which each of these cultural aspects is interrelated. In this way African-American Studies provides the student with an opportunity to gain knowledge and understanding of the history, social organization, current conditions, and problems that face African-Americans as a racial minority in the United States. Additionally, the study of the African-American experience will unfold and analyze the African-American contribution to the American heritage.
614-100 INTRODUCTION TO BLACK CULTURE GE/Diversity 3 cr
This course is an introduction to the experiences, literature, art and music of Black people. Emphasis will be placed on major Black contributions to American culture. Special attention will be paid to Black studies as a discipline.

614-141 MODERN BLACK AMERICAN HISTORY GE/Diversity 3 cr
A critical examination and analysis of the status and role of Black Americans in the United States since 1865.
Unreq: 740-141

614-270 THE AFRICAN AMERICAN COMMUNITY: A SOCIOLOGICAL PERSPECTIVE GE/Diversity 3 cr
This course provides lower level undergraduate students with systematic sociological understanding of the historical and current experiences of African American people. (Cross-listed with Sociology)
Unreq: 880-270.

614-320/520 A HISTORY OF BLACK MIGRATION IN THE U.S. 3 cr
This course will examine and analyze the impact of Black migration from rural south to the northern urban centers since the turn of the century.
Prereq: 740-125 or 740/614-141 or 614-100 or consent of instructor.

614-345/545 AFRICAN-AMERICAN Diversity LITERATURE, 1800 TO THE PRESENT 3 cr
A survey of essays, prose, fiction, drama, and poetry written by African-Americans from the Colonial period to the present.
Unreq: 680-345/545.

614-365 BLACK POLITICAL AND SOCIAL THOUGHT Diversity 3 cr
This course will utilize a Pan-African approach to provide an organized and systematic pattern of social and political ideologies/thought put forth by Black publicists and theorists concerning the organization of their society. As such, it will survey the principal personalities and major protest movements that have emerged in the Diaspora African Community, as well as pay special attention to selected African ideologies and personalities involved in shaping Black political and social thought.
Prereq: 614-100 or 820-141 or 610/820-217 or 820-250.

614-396 CURRENT ISSUES IN BLACK STUDIES: SOCIAL AND BEHAVIORAL SCIENCES GE/Diversity 3 cr
This course deals with the key issues that fall under the investigatory domain of the social and behavioral sciences. These issues are investigated in light of the traditional eurocentric approaches of the social and behavioral sciences, as well as the
approaches of a Black social and behavioral scientist. In addition, the long and short term effects of the several approaches and suggested solutions to these issues are examined critically in the context of their effect or impact on Blacks and whites.

614-397 CURRENT ISSUES IN BLACK STUDIES: HUMANITIES GE/Diversity 3 cr
This seminar course addresses the appeal of Black power as a polemic, protest and propaganda in the context of the Black experience in the United States. The primary materials will be speeches, documentaries, comic routines, mime groups, theatre and cinema. The approach is rhetorical and focuses on the ways in which statements are made and the effect they may have on the immediate audience and beyond.

614-461/661 GOVERNMENT AND POLITICS OF AFRICA 3 cr
The course will critically analyze the political events, major problems, processes and trends in Sub-Saharan African politics and society. It will also attempt to examine the prospects for economic development and democracy in contemporary Africa. Some African countries will be selected for special attention.
Prereq: Any political science general studies course.
Unreq: 820-461/661.

614-470 AFRICAN AMERICAN FAMILIES Diversity 3 cr
This course will survey the historical development of the African-American Family from Africa to modern times. Significant events (e.g., the slave trade, slavery, and migration) will be scrutinized in order to ascertain their role in shaping the contemporary Black Family life. Other important social and economic forces will be illuminated to assess their impact. The latest body of literature, models, paradigms, hypotheses, and statistical findings will be critically examined to enhance understanding of modern day Black Family premarital and marital relations, adaptive patterns, and dislocations. (Offered jointly with Sociology.)
Prereq: [614-100 or 880-140] and [614-270 or 880-252] or consent of instructor

CHICANO STUDIES (615)

Chicano Studies deals with those who may call themselves Mexican, Hispanic or Latino. Chicano Studies provides the student with an opportunity to study the role of the Chicano in, and his relationship to, United States society in general. These courses serve to broaden perceptions of the origins, conditions, and experiences of Hispanics by exploring their social and philosophical values. The study of the Chicano/Latino experience includes an examination of Chicano history and literature, culture and political thought from earliest antecedents to the present day.

615-150 INTRODUCTION TO CHICANO STUDIES GE 3 cr
Identifies and interprets internal and external cultural experiences converging to form the present day Chicano.

615-200 CHICANO LITERATURE: HISTORICAL CONTEXT AND CONTEMPORARY TEXT GE/Diversity 3 cr
Identifies and interprets Chicano literature in a social and historical context with emphasis on contemporary text. All Spanish language texts are provided in translation. (Also offered as 680-200 by English Department.)

615-201 CONTEMPORARY CHICANO LITERATURE GE/Diversity 3 cr
Analyzes contemporary Chicano drama, fiction, and poetry within their cultural and historical context: examined from a traditional formalist approach and as a human expression. (Also offered as 680-201 by English Department.)
Unreq: 680-201.

615-310/510 HISTORY OF CHICANOS IN THE U.S.: 19TH CENTURY ROOTS AND 20TH CENTURY DEVELOPMENT GE/Diversity 3 cr

615-320/520 POLITICS OF THE CHICANO GE/Diversity 3 cr
A comprehensive analysis of Chicano life as it relates to U.S. governmental institutions. Chicanos are presented in terms of their political, social, and religious affiliations; their economic and occupational status; and their family life and language relationships to the U.S. Federal System of Government. This study views Chicanos
from two separate perspectives: as a self-contained ethnic minority and as a part of the broader U.S. population.

615-330 CHICANO AND LATINO AMERICAN THOUGHT GE/Diversity 3 cr
A close analysis of the ideological perspectives of the Hispanic Movement will show that the issues inherent in this movement are not new ones. The Hispanic situation, that of a conquered people, traces its beginnings to the early XVI century with the conquest of Tenochtitlan by Hernan Cortes. Essays from both the conqueror and the conquered will be studied that show that ideologically Aztlan and Latino American countries have a similar point of reference.

E-Mail: socwork@uwwvax.uww.edu

Faculty: Karen Kirst-Ashman, Jackie Jackson, Susan Michaud, William Powell, Tim Reutebuch, Mike Wallace, James Winship, Janet Wright (Chairperson), Charles Zastrow.

The primary objective of the social work major is preparation of students for beginning level professional generalist social work practice. The major emphasizes development of students' practice skills by providing classroom and internship content in the wide variety of social and personal problems encountered by individuals, groups, families, organizations, and communities. Relationship and problem-solving techniques are stressed during the phases of studying, analyzing, testing, and
evaluating social problems in both urban and rural areas. Many types of employment settings are available for professional social workers including counseling, foster care, adoption, child protective services, probation and parole, services to single parents, day care, public assistance, services to people of color and women, school social services, drug and alcohol counseling, services for the elderly, and positions in the areas of community organization, social planning and social action.

**MAJOR**

Requirements for admission into the Professional Segment (i.e., Social Work Practice and Practicum courses) of the Social Work major include: a 2.25 overall grade point minimum is needed to enroll in practice courses (860-371, 860-372, and 860-373) and in Social Work Experience (860-493). Exceptions will be made for students having a 2.50 GPA for the last two semesters having taken at least nine credits during each semester; or a 2.75 GPA having taken at least nine credits in the semester prior to applying. Students with a lower grade point average may enroll in other Social Work courses. Check with the Social Work Department office for specific information about admissions processes.

All required Social Work courses must be completed with a grade of C or better. Any required Social Work course in which a lower grade is received must be retaken by the student. Any student who receives a second grade below C in the same required social work class will not be permitted to continue in the program.

Graduation requirements for a major in Social Work: a 2.25 grade point average in the Social Work major is needed.

DEPARTMENT OF SOCIOLOGY

Phone: 262-472-1133
E-Mail: sociology@uwwvax.uww.edu

Faculty: Ronald Berger, Martin Free, Gilbert Gloyer, Charles Green, Eugene Grigsby, Hadley Klug, Lanny Neider (Chairperson), Lawrence Neuman, Richard Salem, Patricia Searles, Bruce Wiegand.

Sociology is the systematic study of human group behavior. It seeks to understand the processes by which people build, maintain, and change their relations with others. Sociology emerged in response to the problems and needs of industrial life. As society has grown in size and complexity so has the need for knowledge and skill in dealing with human relationships. Providing students with the intellectual tools appropriate to the study and understanding of the basic human condition is our central concern.
Topics studied include marriage and family, crime and delinquency, gender roles, race and ethnic relations, social problems, and bureaucracy. Cross-cultural offerings focus on developing countries.

The Department of Sociology at UW-Whitewater offers courses covering a wide range of interests and specialties. The program is designed to give the student a better understanding of the significant factors and processes of modern life; to meet the needs of students preparing to teach in the social science field; to prepare students for graduate work in sociology; and to provide study useful for particular applied fields. Many students regard sociology as especially valuable preparation for careers in social work, teaching, law, and research and administration in government or corporations. Faculty work closely with students in developing programs, career plans and opportunities. They assist students in selecting an appropriate on-the-job practicum experience to make the transition to a professional job on graduation. Assistance extends to preparing for the job search and exploring the practical applications of sociology.

**SOCIOMETRY MAJOR/MINOR GRADUATION REQUIREMENTS**

**Sociology BA/BS graduation requirements**

1. Minimum major and minor overall UW-W GPA of 2.00.
2. Minimum GPA of 2.00 in the major or minor in Sociology (4.0 scale).
3. Transfer credits accepted by UW-W count toward graduation, however, the GPA for the major or minor include UW-W credits only. The UW-W overall GPA minimum requirement is 2.00.
4. Students must file their application for graduation with the Registrar's Office (Graduation Department) 15 months before the graduation date so that any problems can be resolved.

CRIMINAL JUSTICE

Ron Berger, Coordinator

The Criminal Justice Minor is an interdisciplinary field of study that integrates career-development goals with a liberal arts curriculum. The Minor consists primarily of social and behavioral science courses that will enhance students' understanding of the nature and causes of criminal and delinquent behavior and the operation of the criminal justice system in the United States. It will help prepare students to pursue careers in law enforcement (local, state, and federal), adult and juvenile probation and parole, correctional counseling and group home work, private security, and criminal justice research.

880 COURSE DESCRIPTIONS

880-140 INTRODUCTORY SOCIOLOGY GS 3 cr
The study of human social relations with emphasis on culture, socialization, social structure and change, and the major social institutions.

880-250 SOCIAL PROBLEMS (GROUP 1 COURSE) GS 3 cr
The study of specific social problems through the application to them of perspectives attempting to explain their existence, and relating these problems to fundamental structures and processes making up society.

880-252 MARRIAGE AND THE FAMILY (GROUP 3 COURSE) GS 3 cr
A course of study designed to familiarize the student with social and cultural patterns of mate selection, marriage, and family life involvement. Particular emphasis on changing perceptions surrounding gender roles and the institutions of marriage and family in contemporary United States.
880-265 RACE AND ETHNIC RELATIONS (GROUP 2 COURSE) GS/Diversity 3 cr
This course examines relationships between racial minorities and the majority group in the United States in their socio-historical contexts. Early histories of relations between minorities and the majority as well as present relations will be addressed. Questions raised include whether American society should attempt to minimize differences between minorities and the majority and blend, or maintain group identities; and how do we address existing barriers and inequalities. Relationships and differences among minority groups will also be examined.

880-270 THE AFRICAN AMERICAN COMMUNITY: A SOCIOLOGICAL PERSPECTIVE (GROUP 2 COURSE) GS/Diversity 3 cr
This course provides lower level undergraduate students with systematic sociological understanding of the historical and current experiences of African American people. Unreq: 614-270.

880-276 INTRODUCTION TO CRIMINOLOGY (GROUP 4 COURSE) GS 3 cr
An introduction to the field of criminology through examination of theories and patterns of criminal behavior, the operation of the criminal justice system, and the politics of crime control policy.

880-280 INTRODUCTION TO AUSTRALIAN STUDIES: AUSTRALIAN SOCIETY & CULTURE 3 cr
The course will focus on Australia in the twentieth century and will explore five major themes. They are: (1) Racial and National Identities. When the Australian nation was created on 1 January 1901, immigration control was a critical issue. British Australians were determined that Australia should remain a "white" society. Students will analyze how this historical legacy continues to impact indigenous and immigrant communities. (2) Comparisons with the United States. Students will examine societal, cultural, and political-economic similarities and differences between Australia and the United States. Close attention will be given to the process of establishing and rekindling a national identity, involving the comparative symbolism of nationhood and federalism. (3) Australia-Asia Interdependencies. Over the last thirty years, Australia's economic and cultural ties to Asia have intensified to the point where Australia is now commonly regarded as being "part of Asia." Students will examine the extent and effects of this "Asianization process." (4) The Impacts of Globalization on Australia. As the corporate forces of globalization diminish national sovereignty, claims for national and cultural identity are called increasingly into question. Students will explore the impacts of globalization in the Australian context, including the rise of grassroots, anti-globalization movements in the country. (5) Contemporary Debates. Several key issues define contemporary Australian society. Among them are
the following: Aboriginal reconciliation, environmental management, federalism-republicanism, tax reform, immigration, trade and investment. By studying the terms of these debates, students will gain insight into the emergence of a successful, multicultural democracy in the world's driest continent. No discussion is complete without at least some mention of the Australian sense of humor that colorfully describes and summarizes these debates.

Prereq: 900-130 or 900-140 or 900-120 or consent of instructor.

880-290 INTRODUCTION TO MODERN EAST ASIAN SOCIETIES GS 3 cr
The course offers a multi-disciplinary survey of social, economic and political issues in societies of the geographic-cultural region of East Asia or the Pacific Rim. The region includes Southeast (Indonesia, Malaysia, Singapore, Thailand) and East Asia (China, Korea, Japan). The stress is on the contemporary situation and recent past. The course will provide students with an introduction to a non-Western region and is a foundation for the further study of Asia. The specific issues discussed and range of countries to be examined may vary by semester.

Prereq: 900-130 and 900-140.

880-301 SOCIOLOGICAL ANALYSIS 3 cr
Students in this course will learn about the knowledge creation process by reading original research monographs. In addition, students will gain "hands-on" experience in posing sociological questions and in trying to answer those questions through the analysis of computer-based data sets such as the General Social Survey.

Prereq: Sociology major (including Criminal Justice Emphasis) or minor, plus three credit course in sociology and 900-130.

880-330 SOCIOLOGY OF EDUCATION (GROUP 3 COURSE) 3 cr
A study of educational institutions as a social system; role relationships; community contexts; relevant values and ideals.

Prereq: 3 cr. of sociology.

880-340 SOCIAL MOVEMENTS AND COLLECTIVE BEHAVIOR (GROUP 1 COURSE) 3 cr
An examination of the causes and consequences of social movements and collective behavior, including such phenomena as riots; fads; panic; trade unions; reform, revolutionary, and liberation movements; utopian communities.

Prereq: 3 crs. of sociology.

880-345 SOCIOLOGY OF GENDER (GROUP 2 COURSE) 3 cr
This course will analyze gender as a process and as a social institution. It will examine how we can experience gender in ways that maintain existing gender relations or in
ways that challenge them.
Prereq: 890-100 or 3 crs. of sociology.

**880-350 CONTEMPORARY JAPANESE SOCIETY  3 cr**

DEPARTMENT OF WOMEN'S STUDIES AND ANTHROPOLOGY

Phone: 262-472-1042
E-Mail: wmnanth@uwwvax.uww.edu

Faculty: Rebecca Hogan, Karen Kirst-Ashman, Mary Emery, Geneva Moore, Andrea Mushert, Andrea Nye, Star Olderman (Chairperson), Joan Schwarz, Patricia Searles, Sharon Tiffany, Janet Wright, Devoney Looser.

Women's Studies is an interdisciplinary area that explores new knowledge about women--their experiences, roles, achievements--and investigates issues related to their lives. Assessing past and current theories and research about women, Women's Studies also contributes theoretical and practical knowledge for both female and male students. It provides a valuable interdisciplinary perspective on the major academic disciplines as well. The Women's Studies Major is a valuable asset in many areas of employment (e.g., business, industry, teaching, law, health, social work, communications, counseling and research). The Women's Studies Minor and a 15-credit certificate in Woman's Studies have been approved for students in all curricula. The Women's Studies minor or certificate is useful in many areas of employment (e.g., business, industry, teaching, social work, law, health, communications, research and counseling).

Women's Studies courses (prefix 890) are required of majors and minors, but are open to students in all curricula, some as general studies courses, some as general electives. New courses with a focus on women are being developed, and existing courses are
being offered on a rotating basis. Students should obtain the most recent lists from the Women's Studies Chairperson.

**WOMENST 464/664 WOMEN IN INTERNATIONAL RELATIONS** 3 u
This course is designed to provide students with the opportunity to study and analyze international relations from a multi-disciplinary perspective. It will examine current understandings of the causes, processes and structures of international relations, violent conflict, as well as resolution of those conflicts and peace within the context of Feminist theories. The goal is to examine the role of women in international relations, international security, conflict and peace through different approaches to the study of conflict and how it is understood. The course will consider both the strength and limitations of various disciplinary approaches.

The traditional approaches to international relations, international security, international conflict and peace reflect viewpoints consistent with masculine perspectives on power and security. The goal is to consider how the limitations of the approaches can be effectively challenged and what alternatives might be offered. Themes for discussion will include gender, race, ethnicity, nationalism, state, community, conflict and peace.
Prereq: Three units of political science or three units of women's studies.

**890-489 ADVANCED SEMINAR IN WOMEN'S STUDIES** 3 cr

890-496/696 SPECIAL STUDIES 1-4 cr  
Repeatable.  
Prereq: Consent of instructor.

890-498 INDEPENDENT STUDY 1-3 cr  
Repeatable.  
Prereq: Cons instr and 6 cr. from the approved course list or approval of the Women's Studies Chairperson.

ANTHROPOLOGY

Faculty: Professors Sharon W. Tiffany, Walter W. Tiffany.

Students with a wide variety of academic backgrounds and vocational interests find that elective courses in anthropology make a valuable contribution to their university experience. Anthropology is the study of humanity, past and present, in both simple and complex societies. Archeologists reconstruct vanished civilizations from their material remains. Physical anthropologists tell the story of human evolution and biological variation in modern populations. Cultural and social anthropologists study cultures throughout the world in order to understand recurrent regularities in human behavior. Economic systems, political and legal institutions, religious behavior, family organization, child rearing practices and the formation of personality are all elements of culture studied by anthropologists.

892 COURSE DESCRIPTIONS

892-110 INTRODUCTORY ANTHROPOLOGY GS 3 cr  
An introductory survey of major divisions in the field of anthropology. Topics include the origins of Homo sapiens, the rise of civilization, genetic variation among contemporary human groups, linguistics, and the cross-cultural study of societies at differing levels of organizational complexity.

UW CENTERS COURSE EQUIVALENCY TABLE

Equivalency Table for Students Transferring from the University of Wisconsin Colleges to the University of Wisconsin-Whitewater

Admissions Office
University of Wisconsin-Whitewater

Revised, August, 1999

The equivalency table is updated each year due to course changes. To be equated to a UW-W course, the corresponding course at the previous college must be taken for at least 2/3 of the number of semester credits assigned to the UW-W course. Department numbers followed by 999 (ex. 110-999) represent departmental elective credit. Courses identified as 'NDC' represent no degree credit. Certain 'NDC' courses will satisfy UW-W remedial course requirements. Please consult the Office of Admissions for specific information.

Certain UW-W courses in the equivalency table have been approved to fulfill part of the General Education and Diversity requirements. General Education courses are identified by the following designations: A (arts), E (ethnic studies), H ( humanities), L ( lab science), M ( math-science), P ( physical education), S ( social science). Courses satisfying the UW-W Diversity requirement appear under the Diversity column (DIV) and are identified by the 'Y' designation. Please read the section on General Education and Diversity in the UW-W Catalog before selecting courses to fulfill these requirements.
The fourth digit of the UW-W course number indicates the level of the course: 1-freshman, 2-sophomore, 3-junior, 4-senior. Courses designated as humanities (H) at UW-W are foreign language, history, literature, philosophy, religious studies, and speech. The social science subjects (S) are anthropology, economics, geography courses (except 210), political science, psychology, sociology and speech. Subjects identified as arts (A) are art, art history, music, theatre and dance.

NOTE: A student who holds an Associate of Arts, Associate of Science or Associate of Arts and Science Degree from a UW College is considered to have fulfilled the Proficiency, General Education and core course requirements at UW-Whitewater. The Associate of Art and Science conferred after Fall 1991 satisfies the UW-W diversity requirement as well.

After a student has accumulated 72 credits, a minimum of 48 credits must be earned at UW-Whitewater and/or other accredited four-year colleges.

Students planning to attend a University of Wisconsin College before transferring to UW-Whitewater are encouraged to utilize the Transfer Information System (TIS) which is usually located in the UW-College's Student Services Office. When using the equivalency table, please contact the UW-W Office of Admissions for equivalencies with an * under the footnote column. The * represents additional information which may affect the listed equivalency.
