

UNIVERSITY OF WISCONSIN
WHITEWATER

ACADEMIC ASSESSMENT

SUPPLY CHAIN MANAGEMENT

MISSION STATEMENT

To develop students to become professionals in the Supply Chain Management discipline.

STUDENT LEARNING OUTCOMES

Student learning outcomes (SLOs) are statements of what a student will know or be able to do when they have completed a program. They represent the knowledge and skills a program has determined are most important for students to gain from that program. The most useful SLOs are specific and measurable so the program can accurately assess the degree to which students have achieved each outcome, and they align with college and institution mission and values. Data on achievement of SLOs is used to make improvements in the program and increase student success.

Students who graduate from UW-Whitewater with a degree in Supply Chain Management will meet the following student learning outcomes:

- Students will be able to apply *metrics* in supply chains. Assessed by multiple-choice questions.
- 2. Students will be able to define the principles of *scheduling and planning* in supply chain management.
- 3. Students will be able to apply the principles of *Strategic/Master planning of resource* in supply chains.
- 4. Students will be able to identify the principles of *customer and supplier relationship management* in supply chains
- 5. Students will be able to define the principles of *quality and lean manufacturing*
