MATERIAL SAFETY DATA SHEET
FOR COATINGS, RESINS AND RELATED MATERIALS
(Approved by U.S. Department of Labor "Essentially Similar" to Form OSHA-20)

Section I

MANUFACTURER'S NAME AMF INCORPORATED (DISTRIBUTOR)

STREET ADDRESS 151 MARTIN DRIVE
CITY, STATE, AND ZIP CODE SHELBY, OHIO 44875

EMERGENCY TELEPHONE NO. CHEMTREC 1-800-424-9300
INFORMATION TELEPHONE NO. (419) 347-5522

PRODUCT CLASS Pigment Dispersion MANUFACTURERS CODE IDENTIFICATION 15-C-7

TRADE NAME Approach Reviver AMF# 039-002-611

Section II — HAZARDOUS INGREDIENTS

Section III — PHYSICAL DATA

BOILING RANGE 310°F VAPOR DENSITY XXX HEAVIER, XXX LIGHTER THAN AIR

EVAPORATION RATE XXXX FASTER, XXXX SLOWER THAN ETHER PERCENT VOLATILE BY VOLUME 89.8% WEIGHT PER GALLON 7.60

Section IV — FIRE AND EXPLOSION HAZARD DATA

DOT CATEGORY Flammable FLASH POINT 98°F LEL

EXTINGUISHING MEDIA Use National Fire Protection Association (NFPA) Class B Extinguishers (carbon dioxide, dry chemical or foam) designed to extinguish NFPA Class 1B flammable liquid fires.

UNUSUAL FIRE AND EXPLOSION HAZARDS

Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open fl. Closed container may explode when exposed to extreme heat. Do not apply to hot surfaces.

SPECIAL FIRE FIGHTING PROCEDURES Water spray may be ineffective. Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat. If water is used, fog nozzles are preferrable.
Section V – HEALTH HAZARD DATA

THRESHOLD LIMIT VALUE See Section II

EFFECTS OF OVEREXPOSURE Inhalation: Anesthetic. Irritation of the respiratory tract or acute nervous system depression characterized by headache, dizziness, staggering gait, confusion, unconsciousness or coma.

Skin or Eye Contact: Primary irritation.

Section VI – REACTIVITY DATA

STABILITY □ UNSTABLE □ STABLE
INCOMPATIBILITY (Materials to avoid)
HAZARDOUS DECOMPOSITION PRODUCTS May produce hazardous fumes when heated to decomposition as in welding. Fumes may contain carbon monoxide and oxides of nitrogen.

HAZARDOUS POLYMERIZATION □ MAY OCCUR □ WILL NOT OCCUR

CONDITIONS TO AVOID N/A

Section VII – SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED Remove all sources of ignition (flames, hot surfaces, and electrical, static, or frictional sparks). Avoid breathing vapors. Ventilate area. Remove with inert absorbent and non-sparking tools.

WASTE DISPOSAL METHOD Dispose of in accordance with local, state and federal regulations. Do not incinerate closed containers.

Section VIII – SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION In outdoor or open areas use NIOSH approved mechanical filter respirator to remove solid airborne particles of overspray during spray application. In restricted ventilation areas use NIOSH approved chemical mechanical filters designed to remove a combination of particulate and gas and vapor. In confined areas use NIOSH approved air line type respirators or hoods.

VENTILATION Provide general dilution or local exhaust ventilation in volume and pattern to keep TLV of most hazardous ingredient in Section II below acceptable limit. LEL in Section IV below stated limit, and to remove decomposition products during welding or flame cutting on surfaces coated with this product.

PROTECTIVE GLOVES Required for prolonged or repeated contact.

EYE PROTECTION Use safety eyewear designed to protect against splash of liquids.

OTHER PROTECTIVE EQUIPMENT Prevent prolonged skin contact with contaminated clothing.

Section IX – SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING Do not store above 120°F. Store large quantities in buildings designed for storage of NFPA Class II flammable liquids.

OTHER PRECAUTIONS Do not take internally. Containers should be grounded when pouring. Avoid free fall of liquid in excess of a few inches. Do not flame cut, braze, or weld without NIOSH approved respirator or appropriate ventilation.

KEEP CONTAINER CLOSED WHEN NOT IN USE!
