FERTILIZER

A special turf fertilizer designed for use where the need for potash is high.

HOW TO USE

On established turf, use in the fall or spring at the rate of 6.3 lbs. per 1000 sq. ft. (275 lbs. per acre). Applications made during the summer should be "watered in" to prevent turf damage.

Apply anytime as a soil application at the rate of 6.3 lbs. per 1000 sq. ft. and "work in" to a depth of at least 2 inches.
