KLEAN-STRIP  CITRI-STRIP  HOUSE BRITE  ARMOR ALL  KWIK P&D
MATERIAL SAFETY DATA SHEET

DATE PRINTED: 10/27/2005

SECTION 1. CHEMICAL PRODUCT AND COMPANY INFORMATION

MANUFACTURERS NAME
W.M. BARR & COMPANY, INC.

ADDRESS
2105 Channel Avenue
Memphis, TN  38113
USA

EMERGENCY TELEPHONE #1
901-775-0100

EMERGENCY CONTACT
W.M. Barr Technical Services

INVENTORY ITEM #
E21303.1

PRODUCT NAME
KS GEM & HDHS RMVR 6 OZ AERO

REVISED BY
W.M. Barr Technical Services

ADDITIONAL REGULATORY INFO
The time weighted average (TWA) value described herein is a threshold limit value (TLV) as established by ACGIH. The permissible exposure limit (PEL) is a value established by OSHA.

CALIFORNIA (PROPOSITION #65)
Ingredients in this product are not listed on California’s Prop 65 list: "Chemicals Known to the State to Cause Cancer or Reproductive Toxicity."

SEC. 313 SUPPLIER NOTIFICATION
The following information must be included in all MSDS that are copied and distributed for this material.

This product contains the following toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 (40CFR 372):

<table>
<thead>
<tr>
<th>Substance</th>
<th>Percent by Weight (Upper Limit)</th>

</tr>
</tbody>
</table>

CLEAN AIR ACT
This formula contains no known ozone depleting chemicals.

HAZARD COMMUNICATION STANDARD
This document is prepared in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200). This MSDS contains thirteen (13) sections.

The following effects and/or symptoms are not expected to be experienced by persons who use this product properly and according to ALL instructions, precautions, and warnings; however, should the product user experience ANY questionable effects or symptoms, the product user should immediately seek medical attention.
SECTION 4. HAZARDS IDENTIFICATION

INHALATION ACUTE EXPOSURE EFFECTS
Vapor harmful. May cause dizziness; headache; eye irritation; irritation of the respiratory tract; weakness; drowsiness; nausea; muscle twitches; depression of the central nervous system; fatigue; anesthesis; stupor; and kidney effects. Severe overexposure may cause convulsions; unconsciousness; and death. Liquid aspirated into lungs may cause chemical pneumonitis which can be fatal. The propellant in this product is a simple asphyxiant.

SKIN CONTACT ACUTE EXPOSURE EFFECTS
May cause irritation; redness; drying and cracking; defatting; and dermatitis.

EYE CONTACT ACUTE EXPOSURE EFFECTS
Vapor irritating. May cause irritation; redness; tearing and blurred vision.

INGESTION ACUTE EXPOSURE EFFECTS
Harmful or fatal if swallowed. May cause nausea; vomiting; weakness; muscle twitches; gastrointestinal irritation; diarrhea; unconsciousness; convulsions; and death. Product aspirated into lungs can cause chemical pneumonitis which can be fatal.

CHRONIC EXPOSURE EFFECTS
Reports have associated repeated and prolonged overexposure to solvents with neurological and other physiological damage. Prolonged or repeated contact may cause dermatitis. May cause skin irritation and reddening; defatting; anemia; bone marrow damage; liver damage; and jaundice.

MEDICAL CONDITIONS AGGRAVATED
None known.

PRIMARY ROUTE OF EXPOSURE
Inhalation, ingestion, and dermal.

SECTION 5. FIRST AID MEASURES

INHALATION
If user experiences breathing difficulty, move to air free of vapors. Administer oxygen or artificial respiration until medical assistance can be rendered.

SKIN CONTACT
Wash with soap and water.

EYE CONTACT
Immediately flush with water for at least 15 minutes. If irritation persists, get medical attention.

INGESTION
DO NOT induce vomiting. Call your poison control center, hospital emergency room, or physician immediately.

NOTE TO PHYSICIAN
This formula is registered with POISINDEX.
Call your local poison control center for further information.

SECTION 6. FIRE FIGHTING MEASURES

HAZARD RATING SOURCE HMIS NFPA
HEALTH 2 1
FLAMMABILITY 4 4
REACTIVITY 0 0
SECTION 6. FIRE FIGHTING MEASURES

(Continued)

OTHER

FLASH METHOD
FLAME EXTENSION

FLASH POINT

LOWER EXPLOSION LIMIT
0.5

GENERAL CONCERNS
Aerosol Flammability Classification according to ASTM D-3065-77
and FSHA 1500-45.
CPSC FLAMMABILITY: Extremely Flammable Aerosol

EXTINGUISHING METHOD
Use carbon dioxide, dry powder, or foam.

FIRE FIGHTING PROCEDURES
Self-contained respiratory protection should be provided for
fire fighters fighting fires in buildings or confined areas. Storage
containers exposed to fire should be kept cool with water spray to
prevent pressure build-up. Stay away from heads of containers that
have been exposed to intense heat or flame.

FIRE AND EXPLOSION HAZARDS
DANGER! EXTREMELY FLAMMABLE. KEEP AWAY FROM HEAT, SPARKS, FLAME AND
ALL OTHER SOURCES OF IGNITION. VAPORS MAY CAUSE FLASH FIRE OR IGNITE
EXPLOSIVELY. Do not smoke. Extinguish all flames and pilot lights,
and turn off stoves, heaters, electric motors and all other sources
of ignition during use and until all vapors are gone. Beware of
static electricity that may be generated by synthetic clothing and
other sources. Contents under pressure. Do not puncture, incinerate
or store above 120 degrees F. Exposure to heat or prolonged exposure
to sun may cause bursting.

SECTION 7. ACCIDENTAL RELEASE MEASURES

CLEAN-UP
Keep unnecessary people away. Isolate hazard and deny entry until
all gas has dispersed. Stop leak if you can do it without risk.
Stay upwind, out of low areas and ventilate closed areas before
entering. Keep flares, smoking or flames out of the hazard area.
Use water spray to reduce vapors. For the liquid portion of the
spill, take up liquid with sand, earth or other non-combustible
absorbent material and place in a plastic container where
applicable. Do not touch or walk through spilled material.

For transportation related spills, contact Chemtrec at
1-800-424-9300 for emergency assistance.

WASTE DISPOSAL
Dispose in accordance with applicable local, state and federal
regulations.

SECTION 8. HANDLING AND STORAGE

STORAGE
Store as Level 3 Aerosol (NFPA 30B)
Replace overcap on container after each use. Store in a cool, dry
place. Do not store near flames or at elevated temperatures.
SECTION 8. HANDLING AND STORAGE (CONTINUED)

HANDLING
Read carefully all cautions and directions on product label before use. Since empty container retains residue, follow all label warnings even after container is empty. Dispose of empty container according to all regulations. Do not reuse this container.

SECTION 9. TRANSPORT INFORMATION

TRANSPORTATION
For D.O.T. information, contact W.M. Barr Technical Services Department.

SECTION 10. EXPOSURE CONTROLS/PERSONAL PROTECTION

VENTILATION PROTECTION
Use only with adequate ventilation to prevent build-up of vapors. Open all windows and doors. Use only with a cross ventilation of moving fresh air across the work area. If strong odor is noticed or you experience slight dizziness, headache, nausea, or eye-watering - STOP - ventilation is inadequate. Leave area immediately.

RESPIRATORY PROTECTION
For OSHA controlled work place and other regular users - Use only with adequate ventilation under engineered air control systems designed to prevent exceeding appropriate TLV. For occasional use, where engineered air control is not feasible, use properly maintained and properly fitted NIOSH approved respirator for organic solvent vapors. A dust mask does not provide protection against vapors.

SKIN PROTECTION
Wear impermeable gloves. Gloves contaminated with product should be discarded. Promptly remove clothing that becomes soiled with product.

EYE PROTECTION
Safety glasses, chemical goggles or face shields are recommended to safeguard against potential eye contact, irritation, or injury. Contact lenses should not be worn while working with chemicals.

OTHER PROTECTION
Various application methods can dictate use of additional protective safety equipment, such as impermeable aprons, etc., to minimize exposure. A source of clean water should be available in the work area for flushing eyes and skin. Do not eat, drink, or smoke in the work area. Wash hands thoroughly after use. Before reuse, thoroughly clean any clothing or protective equipment that has been contaminated by prior use. Discard any clothing or other protective equipment that cannot be decontaminated, such as gloves or shoes.

SECTION 11. PHYSICAL AND CHEMICAL PROPERTIES

VOLATILE %
100

BY WEIGHT

SECTION 12. STABILITY AND REACTIVITY

INCOMPATIBILITIES
Incompatible with strong oxidizing agents.

DECOMPOSITION
Heating may cause decomposition and toxic fumes. Thermal decomposition may produce carbon monoxide, carbon dioxide, acrid smoke, and various hydrocarbons.

POLYMERIZATION
Will not occur.

STABILITY
Stable.

SECTION 13. ADDITIONAL INFORMATION

IMPORTANT NOTE
The information contained herein is presented in good faith and believed to be accurate as of the effective date shown above. This information is furnished without warranty of any kind. Employers should use this information only as a supplement to other information gathered by them and must make independent determination of suitability and completeness of information from all sources to assure proper use of these materials and the safety and health of employees. Any use of this data and information must be determined by the user to be in accordance with applicable federal, state and local laws and regulations.
