Material Safety Data Sheet

Section 1: CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name/ Trade Name: OxiClean Free
Supplier: Orange Glo International
PO Box 3998
Littleton, CO 80110 USA
HMIS codes: H 1  F 0  R 0  P ND
MSDS preparation date: April 14, 2004
By: B. Olsen
MSDS Revision date:
MSDS Reviewed:

Emergency Phone: 303-740-1909

Section 2: COMPOSITION/INFORMATION ON INGREDIENTS

General Description: White granular mixture; forms oxygen, hydrogen peroxide and soda ash when mixed with water.

Hazardous Ingredients:

Section 3: HAZARDS IDENTIFICATION

This product is a consumer product. To the extent the product is used in a fashion typical to that of a consumer, protective measures, with the exception of those indicated on the label, are not normally necessary. Where use conditions and/or extent and duration of exposure differ from typical consumer use, however, appropriate protective measures to prevent eye and prolonged skin contact (glasses, goggles, rubber gloves, protective clothing) and minimize inhalation exposure (engineering controls, NIOSH-approved respiratory protection appropriate for the hazard presented) are recommended.

General: Harmful if swallowed, irritating to eyes. Contamination may cause decomposition. Not flammable, but damp material decomposes exothermically.

Emergency:
Primary Route(s) of Entry: Seek medical attention for eye exposure and ingestion
Effects of Overexposure- Inhalation: Eye, skin contact, inhalation, ingestion
Effects of Overexposure- Ingestion: Dust inhalation may cause irritation of respiratory tract; may cause dizziness, drowsiness, headache, nausea and vomiting.
Effects of Overexposure-Eyes: Harmful if swallowed
Effects of Overexposure-Skin: Extremely irritating to the eyes and may cause severe damage
Slightly irritating to the skin; solvent action can dry the skin.
Material Safety Data Sheet

Effects of Overexposure-Chronic: None known

Hazards:

Section 4: FIRST AID MEASURES

- Skin: Wash with water and soap and rinse thoroughly. If skin irritation continues, consult a doctor.
- Eyes: Flush eyes immediately with water for 15 minutes. Consult doctor.
- Ingestion: Do not induce vomiting. Rinse mouth with water and consult a doctor.
- Inhalation: Remove to fresh air. Administer oxygen if needed. Apply artificial respiration if breathing has stopped. Seek medical attention if symptoms exist.

Section 5: FIRE FIGHTING MEASURES

Flashpoint and method used: NA (Non flammable)
Flammable limit: NA (LEL)
Flammable limit: NA (UEL)
Auto-ignition temperature: NA - product is not self igniting
Extinguishing media: CO2, extinguishing powder or water spray.
Special fire-fighting protective equipment: Breathing apparatus
Unusual fire and explosion hazards: Material decomposes exothermically when damp. Rapid oxygen evolution may increase intensity of a fire. Keep separate from oxidizers, flammables and reducing agents.
 Explosion data: ND

Section 6: ACCIDENTAL RELEASE MEASURES

Personal protective equipment: Large spills: self contained breathing apparatus. Small spills from consumer size packaging: avoid breathing dust.
Material release or spill: Ventilate area. Sweep up and place in waste containers for disposal. Flush area well with water.
Other: Dispose of in accordance with local, state and federal regulations. Material collected may be disposed in a permitted landfill in accordance with state, local and federal regulations. Empty container may retain product residue.

Section 7: HANDLING AND STORAGE

Storage: Store and use in a cool, dry, well ventilated area. Do not store above 120 deg. F (48 deg C.).
Precautions during handling and storage: Do not spray solution in eyes. Do not take internally. See product label for additional information

Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION
**Material Safety Data Sheet**

**Exposure limits:**
ND

**Engineering controls:**
General protective and hygienic measures. Keep away from foodstuffs, beverages and food. Keep cool and dry.

**Eye protection:**
None under normal use. Use of safety glasses with splash guards or full face shield is recommended for industrial applications

**Protective clothing:**
Solvent resistant gloves for prolonged or repeated contact.

**Respiratory protection:**
None required if room is well ventilated. If vapors are present, use NIOSH or MSDA approved respiratory equipment.

**Other PPE:**
None

### Section 9: PHYSICAL AND CHEMICAL PROPERTIES

Specific Gravity: NA
Cloud point: NA
Freezing point: NA

Bulk density = 1.0-1.2g/cc

### Section 10: STABILITY AND REACTIVITY

**Stability:**
No decomposition if used according to specifications

**Incompatibility:**
Oxidizers, Reducing agents, flammable substances

**Conditions to avoid:**
Temperatures above 55 deg C (130 deg F). High humidity levels

**Hazardous decomposition:**
No hazardous decomposition products are known

**Hazardous polymerization:**
No hazardous polymerization products are known

### Section 11: TOXICOLOGICAL PROPERTIES

**Acute oral toxicity**
No toxic chemical(s) subject to the reporting requirements of Section 313 of Title III and of 40 CFR372 are present.

**Carcinogenicity:**
Not listed as a carcinogen by ACGIH, IARC, NTP, OSHA

**Reproductive toxicity:**
No toxic chemical(s) subject to the reporting requirements of Section 313 of Title III and of 40 CFR372 are present.

**Teratogenicity:**
No information

**Mutagenicity:**
None known

**Toxicologically synergistic products:**

### Section 12: ECOLOGICAL INFORMATION

**Persistence and degradation:**
Degradation by products are H2O2, O2 and sodium carbonate (soda ash)
Material Safety Data Sheet

Toxicity: ND
Other: ND

**Section 13: DISPOSAL CONSIDERATIONS**

**Disposal method:** Do not dispose of powder with household waste. Complete dissolution in water prior to reaching sewage system, flush well with water.

**Container disposal:** Rinse with water. Dispose in household waste as per local regulations. Some containers are of recyclable plastic. Contact local recycling programs for information.

*The information provided has been adapted from the manufacturer supplied MSDS. The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from use of MSDS information.*
Always follow label instructions and warnings. Typical use of product is a guideline only.

| Typical Use of Product: | A chlorine free mixture used in solution with water as a stain remover and general cleaner for carpets and hard surfaces, and as a laundry additive. Common dilutions are 1:1 up to 1:120 in water (see package label for applications). Mixing of solution should not be done in a closed container due to outgassing of Oxygen which may cause container to burst. Keep away from face when opening mixing containers. Do not mix with household cleaners. As with all cleaners, test solution on an inconspicuous place prior to complete surface cleaning. Rinse surface well after treatment. |
